If the Notes are called, an investor will receive on the Call Settlement Date (as defined in the attached offering document) the Call Amount per unit applicable to such Observation Date which is equal to the \$10 original public offering price plus the Call Premium. The Call Premium represents a return of between 17% and 21% of the original public offering price per unit per annum. If the Notes are called, an investor will receive per unit:

between \$11.70 and \$12.10 if the Notes are called on the first Observation Date in October 2009;
