Item 5. Other Events.

JDCC's net income was \$67.4 million for the quarter and \$136.7 million for the year to date, compared with net income of \$67.5 million and \$129.8 million last year. Affecting results for the quarter were higher gains from an increased volume of retail-note sales, offset by an increase in administrative costs related in part to higher performance-bonus expense. The year-to-date improvement was mainly due to higher gains from an increased volume of retail-note sales and growth in the portfolio, partially offset by higher administrative costs.

Net receivables and leases financed by JDCC were \$12.339 billion at April 30, 2004, compared with \$12.359 billion one year ago. Net receivables and leases administered, which include receivables previously sold, totaled \$15.448 billion at April 30, 2004, compared with \$14.457 billion one year ago.
