Item 5. Other Events

On August 30, 1999, the Company purchased Brock Telecom Limited, a wholly-owned subsidiary of Nortel Networks Corporation ("Nortel") located in Brockville, Ontario, which provided manufacturing services in support of

Nortel's communications-related products. In conjunction with the acquisition, the Company entered into a related multiyear manufacturing agreement with Nortel. This agreement provides that the Company will manufacture agreed upon levels of designated Nortel products, specifically printed circuit board assemblies related to the assimilation of voice, data, and video communications. As part of this transaction, the Company finalized an agreement to purchase from Nortel a portion of the operating assets of Nortel's manufacturing facility in Belleville, Ontario, and certain other operating assets of Nortel's manufacturing facility in St-Laurent, Quebec. The assets, which will be purchased as production of certain Nortel products is transferred to the Company, may include machinery, equipment, inventory, dies and molds, furniture, and other tangible property related to the manufacturing of Nortel's voice and data networking products. The total purchase price paid for the shares and assets acquired to date does not exceed 10% of SCI's total assets, excluding payments in respect of the multiyear contract manufacturing agreement.
