AllianzGI International Small-Cap Fund

(formerly Allianz RCM International Small-Cap Fund)

Before you invest, you may want to review the Fund's statutory prospectus, which contains more information about the Fund and its risks. You can find the Fund's statutory prospectus and other information about the Fund, including its statement of additional information (SAI) and most recent reports to shareholders, online at www.allianzinvestors.com/prospectuses. You can also get this information at no cost by calling 1-800-498-5413 or by sending an email request to Orders@MySummaryProspectus.com. This Summary Prospectus incorporates by reference the Fund's entire statutory prospectus and SAI, each dated April 2, 2012, as revised or supplemented from time to time.

Investment Objective

The Fund seeks maximum long-term capital appreciation.

Fees and Expenses of the Fund

The tables below describe the fees and expenses that you may pay if you buy and hold shares of the Fund.

Shareholder Fees (fees paid directly from your investment): None

Annual Fund Operating Expenses (expenses that you pay each year as a percentage of the value of your investment)

Share Class	Management Fees	Distribution and/or Service (12b-1) Fees	Other Expenses	Total Annual Fund Operating Expenses	Expense Reductions(1)	Total Annual Fund Operating Expenses After Expense Reductions(1)
Institutional	1.00%	None	0.34%	1.34%	(0.14)%	1.20%
Class P	1.00	None	0.47	1.47	(0.17)	1.30
Administrative	1.00	0.25 %	0.34	1.59	(0.14)	1.45
Class D	1.00	0.25	1.58	2.83	(1.38)	1.45

Total Annual Fund Operating Expenses After Expense Reductions reflect the effect of a contractual agreement by the Manager to irrevocably waive its management fee and/or reimburse the Fund through March 31, 2013, to the extent that Total Annual Fund Operating Expenses, excluding interest, tax, and extraordinary expenses, and certain credits and other expenses, exceed 1.20% for Institutional Class shares, 1.30% for Class P shares, 1.45% for Administrative Class shares and 1.45% for Class D shares. Under the Expense Limitation Agreement, the Manager may recoup waived or reimbursed amounts for three years, provided total expenses, including such recoupment, do not exceed the annual expense limit.

Examples. The Examples are intended to help you compare the cost of investing in shares of the Fund with the costs of investing in other mutual funds. The Examples assume that you invest \$10,000 in the noted class of shares for the time periods indicated, your investment has a 5% return each year, and the Fund's operating expenses remain the same. Although your actual costs may be higher or lower, the Examples show what your costs would be based on these assumptions. The Examples are based, for the first year, on Total Annual Fund Operating Expenses After Expense Reductions and, for all other periods, on Total Annual Fund Operating Expenses.

Share Class	1 Year	3 Years	5 Years	10 Years
Institutional	\$122	\$411	\$721	\$1,600
Class P	132	448	787	1,743
Administrative	148	488	852	1,877
Class D	148	746	1,372	3,057

Portfolio Turnover

The Fund pays transaction costs, such as commissions, when it buys and sells securities (or “turns over” its portfolio). The Fund’s portfolio turnover rate for the fiscal year ended November 30, 2011 was 66% of the average value of its portfolio. High levels of portfolio turnover may indicate higher transaction costs and may result in higher taxes for you if your Fund shares are held in a taxable account. These costs, which are not reflected in Total Annual Fund Operating Expenses or in the Examples above, can adversely affect the Fund’s investment performance.

Principal Investment Strategies

The Fund seeks to achieve its objective by normally investing at least 80% of its net assets (plus borrowings made for investment purposes) in companies with smaller market capitalizations. The Fund currently considers smaller market capitalization companies to be companies with market capitalizations of below \$5 billion. The Fund normally

invests in companies organized or headquartered in at least eight different countries (one of which may be the United States). The Fund may invest up to 30% of its assets in companies organized or headquartered in emerging market countries (but no more than 10% in any one emerging market country). Regional portfolio managers in

AllianzGI International Small-Cap Fund

North America, Europe and Asia collaborate to produce a portfolio that is believed likely to have the best investment opportunities from each of those regions. The portfolio managers develop forecasts of economic growth, inflation and interest rates that are used to help identify regions and countries that are likely to offer the best investment opportunities. The portfolio managers may consider the anticipated economic growth rate, political outlook, inflation rate, currency outlook and interest rate environment for the country and the region in which a company is located. The portfolio managers ordinarily look for the following characteristics: higher than average growth and strong potential for capital appreciation; substantial

Principal Risks

The Fund's net asset value, yield and total return will be affected by the allocation determinations, investment decisions and techniques of the Fund's management, factors specific to the issuers of securities and other instruments in which the Fund invests, including actual or perceived changes in the financial condition or business prospects of such issuers, and factors influencing the U.S. or global economies and securities markets or relevant industries or sectors within them (**Management Risk, Issuer Risk, Market Risk**). Equity securities may react more strongly to changes in an issuer's financial condition or prospects than other securities of the same issuer, and securities issued by smaller companies may be more volatile and present increased liquidity risk (**Equity Securities Risk, Smaller Company Risk**). Non-U.S. securities markets and issuers may be more volatile, smaller, less-liquid, less transparent and subject to less oversight, particularly in emerging markets, and non-U.S. securities values may also fluctuate with currency exchange rates (**Non-U.S. Investment Risk, Emerging Markets Risk, Currency Risk**). Other principal risks include: **Credit Risk** (an issuer or counterparty may default on

capacity for growth in revenue through either an expanding market or market share; a strong balance sheet; superior management; strong commitment to research and product development; and differentiated or superior products and services or a steady stream of new products and services. In addition to common stocks and other equity securities (such as preferred stocks, convertible securities and warrants), the Fund may invest in securities issued in initial public offerings (IPOs), and may utilize foreign currency exchange contracts, options, stock index futures contracts and other derivative instruments. Although the Fund does not intend to invest significantly in derivative instruments, it may do so at any time.

obligations); **Derivatives Risk** (derivative instruments are complex, have different characteristics than their underlying assets and are subject to additional risks, including leverage, liquidity and valuation); **Focused Investment Risk** (focusing on a limited number of issuers, sectors, industries or geographic regions increases risk and volatility); **IPO Risk** (securities purchased in initial public offerings have no trading history, limited issuer information and increased volatility); **Leveraging Risk** (instruments and transactions that constitute leverage magnify gains or losses and increase volatility); **Liquidity Risk** (the lack of an active market for investments may cause delay in disposition or force a sale below fair value); and **Turnover Risk** (high levels of portfolio turnover increase transaction costs and taxes and may lower investment performance). Please see "Summary of Principal Risks" in the Fund's statutory prospectus for a more detailed description of the Fund's risks. It is possible to lose money on an investment in the Fund. An investment in the Fund is not a deposit of a bank and is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency.

Performance Information

The performance information below provides some indication of the risks of investing in the Fund by showing changes in its total return from year to year and by comparing the Fund's average annual total returns with those of a broad-based market index and a performance average of similar mutual funds. The bar chart and the information to its right show performance of the Fund's Institutional Class shares. Class P, Administrative Class and Class D performance would be lower than Institutional Class performance because of the lower expenses paid by Institutional Class shares. For periods prior to the inception date of a share class, performance information shown for such class may be based on the performance of an older class of shares that dates back to the Fund's inception, as adjusted to reflect certain fees and expenses paid by the newer class. Similarly, for periods prior to a reorganization of the Fund, in which a predecessor fund was merged into the Fund, the performance information is based on the performance of the predecessor fund, adjusted to reflect certain fees

and expenses paid by the particular share class of the Fund. These adjustments generally result in estimated performance results for the newer class that are higher or lower than the actual results of the predecessor class and/or the predecessor fund, as the case may be, due to differing levels of fees and expenses paid. Details regarding the calculation of the Fund's class-by-class performance, including a discussion of any performance adjustments, are provided under "Additional Performance Information" in the Fund's statutory prospectus and SAI. Past performance, before and after taxes, is not necessarily predictive of future performance. Prior to July 16, 2012, the Fund was managed by a different sub-adviser pursuant to a different investment strategy and would not necessarily have achieved the performance results shown below under its current investment strategy. Visit www.allianzinvestors.com for more current performance information.

The MSCI World ex-USA Small Cap Index replaced the S&P Developed Ex-US Small Cap Growth Index as the Fund's primary benchmark as of July 16, 2012 to reflect certain changes to the Fund's investment strategy. The Fund's performance will also be compared to a secondary benchmark, the MSCI EAFE Small Cap Index (Europe, Australia, Far East).

After-tax returns are estimated using the highest historical individual federal marginal income tax rates and do not reflect the impact of state and local taxes. Actual after-tax returns depend on an investor's tax situation and may differ from those shown. After-tax returns are not relevant to investors who hold Fund shares through tax-deferred arrangements such as 401(k) plans or individual retirement accounts. In some cases the return after taxes may exceed the return before taxes due to an assumed tax benefit from any losses on a sale of Fund shares at the end of the measurement period. After-tax returns are for Institutional Class shares only. After-tax returns for other share classes will vary.

Purchase and Sale of Fund Shares

You may purchase or sell (redeem) shares of the Fund on any business day through a broker, dealer, or other financial intermediary, or directly from the Fund's transfer agent by mail (Allianz Institutional Funds, P.O. Box 219968, Kansas City, MO 64121-9968), as further described in the Fund's statutory prospectus and SAI. To avoid delays in a purchase or redemption, please call 1-800-498-5413 with any questions about the requirements before submitting a request. Generally, purchase and redemption orders for Fund shares are processed at the net asset value (NAV) next calculated after an order is received by the distributor or an authorized intermediary. NAVs are determined only on days when the New York Stock Exchange is open for regular trading. For Institutional Class, Class P and Administrative Class shares, the minimum initial investment in the Fund is \$1 million, though minimums may be modified for certain financial intermediaries that aggregate trades on behalf of investors. For Class D shares, the minimum initial investment in the Fund is \$1,000 and the minimum subsequent investment is \$50, though financial service firms offering these shares may impose different minimums.

Payments to Broker-Dealers and Other Financial Intermediaries

If you purchase shares of the Fund through a broker-dealer or other financial intermediary (such as a bank), the Fund, its distributor, its investment manager or their affiliates may pay the intermediary for the sale of Fund shares and related services. These payments may create a conflict of interest by influencing the broker-dealer or intermediary and your salesperson to recommend the Fund over another investment. Ask your salesperson or visit your financial intermediary's Web site for more information.
