FORWARD-LOOKING STATEMENTS

Some of the statements contained in this Form 10-Q that are not historical facts are "forward-looking statements" which can be identified by the use of terminology such as "estimates," "projects," "plans," "believes," "expects," "anticipates," "intends," or the negative or other variations, or by discussions of strategy that involve risks and uncertainties. We urge you to be cautious of the forward-looking statements, that such statements, which are contained in this Form 10-Q, reflect our current beliefs with respect to future events and involve known and unknown risks, uncertainties and other factors affecting our operations, market growth, services, products and licenses. No assurances can be given regarding the achievement of future results, as actual results may differ materially as a result of the risks we face, and actual events may differ from the assumptions underlying the statements that have been made regarding anticipated events.

All written forward-looking statements made in connection with this Form 10-Q that are attributable to us or persons acting on our behalf are expressly qualified in their entirety by these cautionary statements. Given the uncertainties that surround such statements, you are cautioned not to place undue reliance on such forward-looking statements.

Our unaudited condensed financial statements are stated in United States Dollars (US$) and are prepared in accordance with United States Generally Accepted Accounting Principles. The following discussion should be read in conjunction with our financial statements and the related notes that appear elsewhere in this quarterly report. The following discussion contains forward-looking statements that reflect our plans, estimates and beliefs. Our actual results could differ materially from those discussed in the forward-looking statements. Factors that could cause or contribute to such differences include, but are not limited to, those discussed below and elsewhere in this quarterly report.

Unless otherwise specified in this quarterly report, all dollar amounts are expressed in United States dollars and all references to "common stock" refer to shares of our common stock.

Our company undertakes no obligation to update or revise publicly any forward-looking statements, whether as a result of new information, future events or otherwise.

As used in this quarterly report, the terms "we", "us", "our" and "our company" mean VuMee, Inc. and our subsidiary, Data Pangea LLC, a Florida limited liability corporation, unless otherwise indicated.

Notes to Condensed Financial Statements
November 30, 2012
(Unaudited)

1. NATURE AND CONTINUANCE OF OPERATIONS

VuMee, Inc., F/K/A PaperWorks, Inc. ("the Company") was incorporated under the laws of State of Nevada on April 30, 2008, with an authorized capital of 75,000,000 common shares with a par value of $0.001. The Company's year- end is August 31st. The Company is in the development stage.

The Company, pursuant to a Plan of Merger dated April 23, 2012, deemed it advisable that VuMee, Inc. (it's wholly owned subsidiary) be merged into the Company with the Company remaining as the surviving corporation under the name "VuMee, Inc.".

Also on April 23, 2012, the Company voted to effect a split of its authorized, issued and outstanding shares of common stock on a one (1) old for ten (10) new basis, such that its authorized capital shall increase from 75,000,000 shares to 750,000,000 shares of common stock and, correspondingly, its issued and outstanding shares increased from 6,000,000 shares to 60,000,000 shares of common stock, all with a par value of $0.001; no fractional shares were issued in connection with the forward split, in the case of a fractional share, the fractional share were rounded up.

GOING CONCERN

These financial statements have been prepared on a going concern basis which assumes the Company will be able to realize its assets and discharge its liabilities in the normal course of business for the foreseeable future. The Company has incurred losses since inception resulting in an accumulated deficit of $993,419, as at November 30, 2012 and further losses are anticipated in the development of its business raising substantial doubt about the Company's ability to continue as a going concern. The ability to continue as a going concern is dependent upon the Company generating profitable operations in the future and/or to obtain the necessary financing to meet its obligations and repay its liabilities arising from normal business operations when they come due. Management intends to finance operating costs over the next twelve months with existing cash on hand and loans from directors and or private placement of common stock.

ACQUISITION

On May 17, 2012, the Company closed a share exchange agreement with Data Pangea, LLC, a Florida Limited Liability Company, in exchange for 30,001,000 shares of its common stock. Concurrently a former director and officer cancelled 30,000,000 shares previously held.

This transaction was accounted for as a reverse merger. These statements contain the balance sheet and operations of Data Pangea before and after the merger. Since, Data Pangea was started in March 2012, there is no financial information at November 30, 2011.

Data Pangea, LLC.is a limited liability company organized on March 22, 2012 under the laws of Florida. Data Pangea, LLC d/b/a VuMee was founded on the principle that celebrities should be monetized for video content that they publish to their social networks. Data Pangea is a development stage entity that was organized to purchase and utilize the intangible assets of a company related by certain common owners.

VuMee allows celebrities with a social network fan base ("Celebrities") the ability to generate revenue by simply uploading video content to their social networks. The VuMee platform allows Celebrities the ability to share in the advertising revenues with the Company.

VuMee is a fully functional celebrity video sharing platform via a mobile experience. VuMee has developed an automated mobile video content distribution network for distributing video content with paid advertising over mobile networks. VuMee's proprietary business model harnesses the global power of existing social networks, by providing a way to monetize Celebrities' friends and fans. VuMee provides the ability for anyone or any brand with a fan base, to upload video via the VuMee App on their mobile device or PC, and seamlessly share that content with their fan base. VuMee's proprietary business methodology and software provides the method of coupling paid advertising with video content which allows the Celebrity to generate revenue through the VuMee platform.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

BASIS OF PRESENTATION

The accompanying unaudited condensed financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America for interim financial reporting. Accordingly, they do not include all of the information and footnotes required by accounting principles generally accepted in the United States of America for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation of financial information have been included. Operating results for the period, March 22, 2012 through November 30, 2012 are not necessarily indicative of the results that may be expected for the year ending August 31, 2013.

DEVELOPMENT STAGE COMPANY

The Company complies with the ASC 915, its characterization of the Company as a Development Stage enterprise.

USE OF ESTIMATES

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes.

Although these estimates are based on management's knowledge of current events and actions it may undertake in the future, they may ultimately differ from actual results. We believe our estimates and assumptions are reasonable; however, such estimates and assumptions are subject to a number of risks and uncertainties that may cause actual results to differ materially from such estimates.

RISKS AND UNCERTAINTIES

The Company's business could be impacted by price pressure on its product manufacturing, acceptance of its products in the market place, new competitors, changes in federal and/or state legislation and other factors. If the Company is unsuccessful in securing adequate liquidity, its plans may be curtailed. Adverse changes in these areas could negatively impact the Company's financial position, results of operations and cash flows.

CASH

Cash equivalents include all highly liquid debt instruments with original maturities of three months or less which are not securing any corporate obligations.

CONCENTRATIONS OF CREDIT RISK AND FAIR VALUE

Financial instruments that potentially subject the Company to concentrations of credit risk consist principally of cash and accounts receivable.

The Company maintains cash deposits primarily with three financial institutions. All deposits are fully insured as of November 30, 2012. The Company has not previously experienced any losses on such deposits. Additionally, the Company performs periodic evaluations of the relative credit ratings of these institutions as part of its investment strategy.

Concentrations of credit risk with respect to accounts receivable are limited due to accelerated payment terms in current customer contracts and creditworthiness of the current customer base.

The carrying amounts of cash and cash equivalents, accounts receivable, other current assets, accounts payable and accrued expenses approximate fair value due to the short-term nature of these instruments. The carrying value of loans and notes payable approximate their fair value based on their terms which reflect market conditions existing as of November 30, 2012.

ACCOUNTS RECEIVABLE, CREDIT

Accounts receivable consist of amounts due for advertising on the website. An allowance for doubtful accounts is considered to be established for any amounts that may not be recoverable, which is based on an analysis of the Company's customer credit worthiness, and current economic trends. Receivables are determined to be past due, based on payment terms of original invoices. The Company does not typically charge interest on past due receivables. Based on management's review of accounts receivable, an allowance for doubtful accounts was not considered necessary at November 30, 2012. There were no accounts receivables at August 31, 2012.

PROPERTY AND EQUIPMENT

Property and equipment is stated at cost. Depreciation is computed by the straight-line method over estimated useful lives (3-7 years). Intellectual property assets are stated at their fair value acquisition cost. Amortization of intellectual property assets is calculated by the straight line method over their estimated useful lives (3- 15 years). Historical costs are reviewed and evaluated for their net realizable value of the assets. The carrying amount of all long-lived assets is evaluated periodically to determine if adjustment to the depreciation and amortization period or the unamortized balance is warranted. Based upon its most recent analysis, the Company believes that no impairment of property and equipment existed at November 30, 2012.

Depreciation expenses were \$6,672 and \$10,498, for the three months ended November 30, 2012 and from March 22, 2012 (inception) through November 30, 2012, respectively.

LONG-LIVED ASSETS

Long-lived assets such as property, equipment and identifiable intangibles are reviewed for impairment whenever facts and circumstances indicate that the carrying value may not be recoverable. When required impairment losses on assets to be held and used are recognized based on the fair value of the asset. The fair value is determined based on estimates of future cash flows, market value of similar assets, if available, or independent appraisals, if required. If the carrying amount of the long-lived asset is not recoverable from its undiscounted cash flows, an impairment loss is recognized for the difference between the carrying amount and fair value of the asset. When fair values are not available, the Company estimates fair value using the expected future cash flows discounted at a rate commensurate with the risk associated with the recovery of the assets. We did recognize impairment losses for the period ended November 30, 2012 in the amount of $55,422.

REVENUE RECOGNITION

Revenues of the Company will be from the sale of advertising on the web-site and video viewing platform. Revenues will be recognized once all of the following criteria have been met:

* persuasive evidence of an arrangement exists;
* delivery of Facebook's obligations to our customer has occurred;
* the price is fixed or determinable; and
* collectability of the related receivable is reasonably assured.

Advertising revenue is generated from the display of advertisements on our website and viewing platform. The arrangements are evidenced by either online acceptance of terms and conditions or contracts that stipulate the types of advertising to be delivered, the timing and the pricing. The typical term of an advertising arrangement is approximately 30 days with billing generally occurring after the delivery of the advertisement.

We will recognize revenue from the display of impression-based advertisements on our website in the contracted period when the impressions are delivered. Impressions are considered delivered when an advertisement appears in pages delivered to users.

We will also recognize revenue from the delivery of click-based advertisements on our website. Revenue associated with these advertisements is recognized in the period that a user clicks on an advertisement.

ADVERTISING

The costs of advertising are expensed as incurred. Advertising expenses are included in the Company's operating expenses. Advertising expenses were $0, for the three months ended November 30, 2012 and from March 22, 2012 (inception) through November 30, 2012, respectively.

RESEARCH AND DEVELOPMENT

Research expenditure is recognized as an expense when it is incurred. Development expenditure is recognized as an expense except that expenditure incurred on development projects are capitalized as long-term assets to the extent that such expenditure is expected to generate future economic benefits. Development expenditure is capitalized if, and only if an entity can demonstrate all of the following:

1. its ability to measure reliably the expenditure attributable to the asset under development;
2. the product or process is technically and commercially feasible;
3. its future economic benefits are probable;
4. its ability to use or sell the developed asset;
5. the availability of adequate technical, financial and other resources to complete the asset under development; and
6. its intention to complete the intangible asset and use or sell.

INCOME TAXES

The Company accounts for income taxes under the liability method. Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax rates in effect for the year in which those temporary differences are expected to be recovered or settled.

EARNINGS PER SHARE

The Company computes basic and diluted earnings per share amounts in accordance with ASC Topic 260, "Earnings per Share". Basic earnings per share is computed by dividing net income (loss) available to common shareholders by the weighted average number of common shares outstanding during the reporting period. Diluted earnings per share reflects the potential dilution that could occur if stock options and other commitments to issue common stock were exercised or equity awards vest resulting in the issuance of common stock that could share in the earnings of the Company.

RECENT ACCOUNTING PRONOUNCEMENTS

The Company reviews new accounting standards as issued. No new standards had any material effect on these financial statements. The accounting pronouncements issued subsequent to the date of these financial statements that were considered significant by management were evaluated for the potential effect on these financial statements. Management does not believe any of the subsequent pronouncements will have a material effect on these financial statements as presented and does not anticipate the need for any future restatement of these

financial statements because of the retro-active application of any accounting pronouncements issued subsequent to November 30, 2012 through the date these financial statements were issued.

3. FINANCIAL INSTRUMENTS AND FAIR VALUES

The fair value of a financial instrument represents the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale. Fair value estimates are made at a specific point in time, based upon relevant market information about the financial instrument.

The carrying amount of cash and other assets approximates fair value due to the short-term maturities of these instruments.

The fair values of all other financial instruments, including debt, approximate their book values as the instruments are short-term in nature or contain market rates of interest.

4. INTANGIBLE ASSETS

During 2011 and the first months of 2012, VuMee, LLC a Delaware limited liability company, was developing a social media video sharing platform. In March 2012, as part of a settlement agreement between members, VuMee, LLC transferred the intangible assets developed to VuMee Acquisition LLC, also a Delaware limited liability company.

On March 23, 2012 VuMee Acquisition and Data Pangea entered into an asset purchase agreement, whereby Data Pangea purchased all of the intangible assets of VuMee Acquisition. The final value of each asset and the allocation of the purchase price of the intangible assets has not yet been determined. Current estimates are listed below.

Certain members of VuMee, LLC and VuMee, Acquisition LLC also have an interest in Data Pangea. Due to the related party relationship, the recorded values of the intangible assets acquired by Data Pangea will be limited to the consideration given.

Identifiable intangible assets at November 30, 2012 include the following:

	Allocated purchase price	Amortization Period (years)
Trade names, logos, trademarks	$10,000	10 years
Internet domain name	4,800	10 years
Software	50,000	3 years
Website	2,000	3 years
Total purchase price to allocate	$66,800	

Amortization expenses were $6,725 and $17,933, for the three months ended November 30, 2012 and from March 22, 2012 (inception) through November 30, 2012, respectively.

During the quarter ended November 30, 2012, the Company impaired all of its original intangible assets related to patents, customer lists, and infrastructure - procedures, manual and records, in the amount of $55,422.

5. NOTE PAYABLE - SHORT-TERM

6. LINE OF CREDIT

On November 26, 2012, we entered into a line of credit agreement with Coventry Capital LLC pursuant to which the investor will make available up to $2,000,000 by way of advances. Pursuant to the terms of the agreement, all indebtedness shall be paid to the investor on November 26, 2013 and thereon, shall bear interest at the rate of 8% per annum, calculated annually. The investor has the option to, at any time, convert any portion of outstanding debt into shares of our common stock at the closing price of our stock on the day preceding the notice to convert. The line of credit balance as of November 30, 2012 was $0.

7. DUE TO RELATED PARTY

As of November 30, 2012, the Company has loans payable to stockholders in the amount of $718,720. Interest at 12% per annum and will accrue quarterly beginning August 29, 2012 with all unpaid interest and principal payable on September 1, 2013.

8. COMMON STOCK

The total number of common shares authorized that may be issued by the Company is 750,000,000 shares with a par value of one tenth of one cent ($0.001) per share. No other class of shares are authorized.

On August 31, 2008, the company issued 3,000,000 pre-split shares of the common stock for total cash proceeds of $15,000.

On July 13, 2009, the Company issued 3,000,000 pre-split shares of common stock for total cash proceeds of $45,000.00.

On May 17, 2012 the Company issued 30,001,000 shares of its common stock for the acquisition of Data Pangea, LLC, and cancelled 30,000,000 shares of common stock of a former director and officer.

At November 30, 2012 there were no outstanding stock options or warrants.

As of November 30, 2012, the Company had 60,001,000 common shares issued and outstanding.

9. COMMITMENTS AND CONTINGENCIES

LEASES

VuMEE is leasing corporate office space located in Pompano Beach, Florida from an unrelated third party. The lease was effective May 4, 2012, and provides for a term of three years and two months with monthly rental payments of $2,696 with 3% annual increases. The lease provides for a one, three year renewal unless either party provides at least 30 days' prior written notice to the other of its

intent to terminate the lease upon expiration of the then-current term. The total rents paid were $8,088 and $15,915, for the three months ended November 30, 2012 and from March 22, 2012 (inception) through November 30, 2012, respectively.

LEGAL PROCEEDINGS

From time to time, the Company is party to business disputes arising in the normal course of its business operations. The Company's management believes that none of these actions, standing alone, or in the aggregate, is currently material to the Company's operations or financial condition.

EMPLOYMENT AGREEMENTS

On September 1, 2012, the Company entered into one year employment agreements with Michael Spiegel, Chief Executive Officer and Lou Rosen, Chief Financial Officer for monthly compensation in the amount of $12,500 and $12,500, respectively. The amount of $75,000 had been accrued and reflected on the balance sheet as of November 30, 2012.

10. INCOME TAXES

As of November 30, 2012, the Company had net operating loss carry forwards of approximately $993,419 that may be available to reduce future years' taxable income through 2032. Future tax benefits which may arise as a result of these losses have not been recognized in these financial statements, as their realization is determined not likely to occur and accordingly, the Company has recorded a valuation allowance for the deferred tax asset relating to these tax loss carry-forwards.

Significant components of the Company's net deferred income taxes are as follows:

	March 22, 2012 (Inception) through November 30, 2012
Deferred tax assets:	
Net operating loss carryforwards	$ 347,697
Deferred tax assets	347,697
Less valuation allowance	(347,697)
Net deferred tax assets	$ --

A reconciliation of the U.S. statutory federal income tax rate to the effective income tax rate (benefit) follows:

	March 22, 2012 (Inception) through November 30, 2012
U.S. Federal Statutory rate	(35.00%)
State income taxes, net of federal benefit	(3.58%)
Change in valuation allowance	38.58%
	0.00%

In assessing the ability to realize a portion of the deferred tax assets, management considers whether it is more than likely than not that some portion or all of the deferred tax assets will not be realized. The ultimate realization of the deferred tax assets is dependent upon the generation of future taxable income during the periods in which those temporary differences become deductible. Management considers the scheduled reversal of deferred tax liabilities and projected future taxable income in making the assessment. After consideration of the evidence, both positive and negative, management has determined that a $347,697 valuation allowance at November 30, 2012 is necessary to reduce the deferred tax assets to the amount that will more likely than not be realized. The change in the valuation allowance for the current year is $140,499. At November 30, 2012, the Company has available net operating loss carryforwards for federal and state income tax purposes of $993,419 expiring at various times through 2032.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULT OF OPERATIONS

CORPORATE OVERVIEW

Our company was incorporated under the laws of State of Nevada on April 30, 2008 under the name PaperWorks, Inc., with an authorized capital of 75,000,000 common shares with a par value of $0.001.

On May 2, 2012, we filed Articles of Merger with the Nevada Secretary of State to change the name of our company to "VuMee Inc.", to be effected by way of a merger with our wholly-owned subsidiary VuMee Inc., which was created solely for the name change.

Also on May 2, 2012, we filed a Certificate of Change with the Nevada Secretary of State to give effect to a forward split of our authorized and issued and outstanding shares of common stock on a 10 new for one (1) old basis and, consequently, our company's authorized capital increased from 75,000,000 to 750,000,000 shares of common stock and our issued and outstanding shares of common stock shall increased from 6,000,000 to 60,000,000 shares of common stock, all with a par value of $0.001.

These amendments became effective on May 8, 2012 upon approval from the Financial Industry Regulatory Authority ("FINRA").

The forward split and name change became effective with the Over-the-Counter Bulletin Board at the opening of trading on May 8, 2012. Our new symbol is "VUME". Our CUSIP number is 92922C105.

CURRENT BUSINESS

On May 17, 2012, our company closed a share exchange agreement with Data Pangea, LLC, a Florida limited liability company, in exchange for 30,001,000 shares of its common stock. Concurrently a former director and officer of our company cancelled 30,000,000 shares previously held.

This transaction was accounted for as a reverse merger. These statements contain the balance sheet and operations of Data Pangea before and after the merger. Since, Data Pangea was started on March 22, 2012, there is no audited balance sheet at November 30, 2011.

Data Pangea is a limited liability company, organized on March 22, 2012 under the laws of Florida. Data Pangea, d/b/a VuMee, was founded on the principle that celebrities should be monetized for video content that they publish to their social networks. Our company is a development stage entity that was organized to purchase and utilize the intangible assets of a company related by certain common owners.

VuMee allows celebrities with a social network fan base ("Celebrities") the ability to generate revenue by simply uploading video content to their social networks. The VuMee platform allows Celebrities the ability to share in the advertising revenues with our company.

VuMee is a fully functional celebrity video sharing platform via a mobile experience. VuMee has developed an automated mobile video content distribution network for distributing video content with paid advertising over mobile networks. VuMee's proprietary business model harnesses the global power of existing social networks, by providing a way to monetize Celebrities' friends and fans. VuMee provides the ability for anyone or any brand with a fan base, to

upload video via the VuMee App on their mobile device or PC, and seamlessly share that content with their fan base. VuMee's proprietary business methodology and software provides the method of coupling paid advertising with video content which allows the Celebrity to generate revenue through the VuMee platform.

On June 29, 2012, our subsidiary Data Pangea LLC entered into a loan agreement with MLJP LLC, whereby MLJP has agreed to lend US$350,000 to Data Pangea. This loan is evidenced by a promissory note pursuant to which the principal amount will be due and payable on the earlier of September 1, 2013. The loan will bear interest at the rate of 12% per annum, payable in quarterly, in arrears, commencing August 29, 2012, and quarterly thereafter.

On November 26, 2012, we entered into a line of credit agreement with Coventry Capital LLC pursuant to which Coventry will make available up to $2,000,000 by way of advances. Pursuant to the terms of the agreement, all indebtedness shall be paid to Coventry on November 26, 2013 and thereon, shall bear interest at the rate of 8% per annum, calculated annually. Coventry has the option to, at any time, convert any portion of the outstanding debt into shares of our common stock at the closing price of our stock on the day preceding the notice to convert.

Current Assets	$ 19,032	$ 33,157
Current Liabilities	$ 1,068,024	$ 238,316
Working Capital	$(1,048,992)	$ (205,159)

CASH FLOWS

	Three Months Ended November 30, 2012	Cumulative From March 22, 2012 (Inception) To November 30, 2012
Net Cash (Used in) Operating Activities	$ (254,036)	$ (756,052)
Net Cash (Used In) Investing Activities	$ (83,403)	$ (611,090)
Net Cash Provided by Financing Activities	$ 308,720	$1,368,720
NET INCREASE (DECREASE) IN CASH DURING THE PERIOD	$ (28,719)	$ 1,578

As of November 30, 2012 we had $1,578 in cash, current assets of $19,032, current liabilities of $1,068,024 and a working capital deficit of ($1,048,992).

We currently have $1,578 cash in the bank. We do not expect to satisfy our cash requirements for business operations for the next 12 months with our current cash in the bank.

We had working capital deficit of ($1,048,992) at November 30, 2012. Our operating and capital requirements in connection with supporting our expanding operations and introducing new products have been and will continue to be significant to us. Since inception, our losses from operations along with the increased costs and working capital required to grow our business were satisfied through the initial contribution.

CASH FLOWS FOR THE THREE MONTHS ENDED NOVEMBER 30, 2012 AND FROM MARCH 22, 2012 (INCEPTION) THROUGH NOVEMBER 30, 2012

CASH FLOWS USED IN OPERATING ACTIVITIES

Operating activities used net cash for the three months ended November 30, 2012 and from March 22, 2012 (inception) through November 30, 2012 of ($254,036) and ($756,052), respectively. Net cash used reflects an adjusted net loss for the three months ended November 30, 2012 and from March 22, 2012 (inception) through November 30, 2012 of $401,425 and $993,419, respectively. The period adjustments for various items which impact net loss but do not impact cash during the period, such as impairment loss, amortization and depreciation, and changes in accounts receivable, prepaid expenses, security deposits, accounts payable, accrued management fees, and accrued interest payable.

CASH FLOWS USED IN INVESTING ACTIVITIES

Our investing activities used $83,403 for the three months ended November 30, 2012 and $611,090 in net cash from March 22, 2012 (inception) through November 30, 2012. Net cash used is composed primarily of purchases of furniture and equipment, website development costs and purchase of intangibles.

CASH FLOWS FROM FINANCING ACTIVITIES

Our financing activities provided cash in the amount $308,720 for the three months ended November 30, 2012 and $1,368,720 from March 22, 2012 (inception) through November 30, 2012. Net cash provided was composed primarily of related party loans, proceeds received on notes payable and initial contributions of capital.

FUTURE FINANCING

If we do not generate substantial revenue from operations we will require additional financing to fund our planned operations. We currently do not have committed sources of additional financing and may not be able to obtain additional financing, particularly, if the volatile conditions in the stock and financial markets, and more particularly the market for an early development stage company stocks persist.

There can be no assurance that additional financing will be available to us when needed or, if available, that it can be obtained on commercially reasonable terms. If we are not able to obtain the additional financing on a timely basis, if and when it is needed, we will be forced to delay or scale down some or all of our development activities or perhaps even cease the operation of our business.

Since inception we have funded our operations primarily through equity financings and we expect that we will continue to fund our operations through the equity and debt financing if revenues are insufficient. If we raise additional financing by issuing equity securities, our existing stockholders' ownership will be diluted. Obtaining commercial loans, assuming those loans would be available, will increase our liabilities and future cash commitments.

There is no assurance that we will be able to maintain operations at a level sufficient for an investor to obtain a return on his, her, or its investment in our common stock. Further, we may continue to be unprofitable.

On June 29, 2012, our subsidiary Data Pangea LLC entered into a loan agreement with MLJP LLC, whereby MLJP has agreed to lend $350,000 to Data Pangea. This loan is evidenced by a promissory note pursuant to which the principal amount will be due and payable on the earlier of September 1, 2013. The loan will bear interest at the rate of 12% per annum, payable in quarterly, in arrears, commencing August 29, 2012, and quarterly thereafter.

On November 26, 2012, we entered into a line of credit agreement with Coventry Capital LLC pursuant to which Coventry will make available up to $2,000,000 by way of advances. Pursuant to the terms of the agreement, all indebtedness shall be paid to Coventry on November 26, 2013 and thereon, shall bear interest at the rate of 8% per annum, calculated annually. Coventry has the option to, at any time, convert any portion of the outstanding debt into shares of our common stock at the closing price of our stock on the day preceding the notice to convert.

OFF BALANCE SHEET ARRANGEMENTS

We have no significant off-balance sheet arrangements that have or are reasonably likely to have a current or future effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources that is material to stockholders.

CRITICAL ACCOUNTING POLICIES

Our unaudited condensed financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America for interim financial reporting. Accordingly, they do not include all of the information and footnotes required by accounting principles generally accepted in the United States of America for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation of financial information have been included. Operating results for the period, March 22, 2012 through November 30, 2012 are not necessarily indicative of the results that may be expected for the year ending August 31, 2013.

DEVELOPMENT STAGE COMPANY

Our company complies with the ASC 915, its characterization of our company as a Development Stage enterprise.

USE OF ESTIMATES

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Although these estimates are based on management's knowledge of current events and actions it may undertake in the future, they may ultimately differ from actual results. We believe our estimates and assumptions are reasonable; however, such estimates and assumptions are subject to a number of risks and uncertainties that may cause actual results to differ materially from such estimates.

RISKS AND UNCERTAINTIES

Our company's business could be impacted by price pressure on its product manufacturing, acceptance of its products in the market place, new competitors, changes in federal and/or state legislation and other factors. If our company is unsuccessful in securing adequate liquidity, its plans may be curtailed. Adverse changes in these areas could negatively impact our company's financial position, results of operations and cash flows.

CASH

Cash equivalents include all highly liquid debt instruments with original maturities of three months or less which are not securing any corporate obligations.

PROPERTY AND EQUIPMENT

Property and equipment is stated at cost. Depreciation is computed by the straight-line method over estimated useful lives (3-7 years). Intellectual property assets are stated at their fair value acquisition cost. Amortization of intellectual property assets is calculated by the straight line method over their estimated useful lives (3- 15 years). Historical costs are reviewed and evaluated for their net realizable value of the assets. The carrying amount of all long-lived assets is evaluated periodically to determine if adjustment to the depreciation and amortization period or the unamortized balance is warranted. Based upon its most recent analysis, our company believes that no impairment of property and equipment existed at November 30, 2012.

Depreciation expenses were $6,672 and $10,498, for the three months ended

November 30, 2012 and from March 22, 2012 (inception) through November 30, 2012, respectively.

LONG-LIVED ASSETS

Long-lived assets such as property, equipment and identifiable intangibles are reviewed for impairment whenever facts and circumstances indicate that the carrying value may not be recoverable. When required impairment losses on assets to be held and used are recognized based on the fair value of the asset. The fair value is determined based on estimates of future cash flows, market value of similar assets, if available, or independent appraisals, if required. If the carrying amount of the long-lived asset is not recoverable from its undiscounted cash flows, an impairment loss is recognized for the difference between the carrying amount and fair value of the asset. When fair values are not available, Our company estimates fair value using the expected future cash flows discounted

at a rate commensurate with the risk associated with the recovery of the assets. During the quarter ended November 30, 2012, our company impaired all of its original intangible assets related to patents, customer lists, and infrastructure - procedures, manual and records, in the amount of $55,422.

Amortization expenses were $6,725 and $17,933, for the three months ended November 30, 2012 and from March 22, 2012 (inception) through November 30, 2012, respectively.

REVENUE RECOGNITION

Revenues of our company will be from the sale of advertising on the web-site and video viewing platform. Revenues will be recognized once all of the following criteria have been met:

* persuasive evidence of an arrangement exists;
* delivery of Facebook's obligations to our customer has occurred;
* the price is fixed or determinable; and
* collectability of the related receivable is reasonably assured.

Advertising revenue is generated from the display of advertisements on our website and viewing platform. The arrangements are evidenced by either online acceptance of terms and conditions or contracts that stipulate the types of advertising to be delivered, the timing and the pricing. The typical term of an advertising arrangement is approximately 30 days with billing generally occurring after the delivery of the advertisement.

We will recognize revenue from the display of impression-based advertisements on our website in the contracted period when the impressions are delivered. Impressions are considered delivered when an advertisement appears in pages delivered to users.

We will also recognize revenue from the delivery of click-based advertisements on our website. Revenue associated with these advertisements is recognized in the period that a user clicks on an advertisement.

ADVERTISING

The costs of advertising are expensed as incurred. Advertising expenses are included in our company's operating expenses. Advertising expenses were $0, for the three months ended November 30, 2012 and from March 22, 2012 (inception) through November 30, 2012, respectively.

RESEARCH AND DEVELOPMENT

Research expenditure is recognized as an expense when it is incurred. Development expenditure is recognized as an expense except that expenditure incurred on development projects are capitalized as long-term assets to the extent that such expenditure is expected to generate future economic benefits. Development expenditure is capitalized if, and only if an entity can demonstrate all of the following:

1. its ability to measure reliably the expenditure attributable to the asset under development;
2. the product or process is technically and commercially feasible;
3. its future economic benefits are probable;
4. its ability to use or sell the developed asset;
5. the availability of adequate technical, financial and other resources to complete the asset under development; and
6. its intention to complete the intangible asset and use or sell.

INCOME TAXES

Our company accounts for income taxes under the liability method. Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax rates in effect for the year in which those temporary differences are expected to be recovered or settled.

EARNINGS PER SHARE

Our company computes basic and diluted earnings per share amounts in accordance with ASC Topic 260, "Earnings per Share". Basic earnings per share is computed by dividing net income (loss) available to common shareholders by the weighted average number of common shares outstanding during the reporting period. Diluted earnings per share reflects the potential dilution that could occur if stock options and other commitments to issue common stock were exercised or equity awards vest resulting in the issuance of common stock that could share in the earnings of our company.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

As a "smaller reporting company", we are not required to provide the information required by this Item.

ITEM 4. CONTROLS AND PROCEDURES

EVALUATION OF DISCLOSURE CONTROLS AND PROCEDURES

We maintain disclosure controls and procedures that are designed to ensure that information required to be disclosed in our reports filed under the SECURITIES EXCHANGE ACT OF 1934, as amended, is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms, and that such information is accumulated and communicated to our management, including our chief executive officer (our principal executive officer) and our chief financial officer (our principal financial officer and principle accounting officer) to allow for timely decisions regarding required disclosure.

As of the end of our quarter covered by this report, we carried out an evaluation, under the supervision and with the participation of our chief executive officer (our principal executive officer) and our chief financial officer (our principal financial officer and principle accounting officer), of the effectiveness of the design and operation of our disclosure controls and procedures. Based on the foregoing, our chief executive officer (our principal executive officer) and our chief financial officer (our principal financial officer and principle accounting officer) concluded that our disclosure controls and procedures were not effective as of the end of the period covered by this quarterly report.

CHANGES IN INTERNAL CONTROLS

During the period covered by this report there were no changes in our internal control over financial reporting that materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II - OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

We know of no material, existing or pending legal proceedings against our company, nor are we involved as a plaintiff in any material proceeding or pending litigation. There are no proceedings in which any of our directors, officers or affiliates, or any registered or beneficial shareholder, is an adverse party or has a material interest adverse to our interest.

EXHIBIT 31.1

CERTIFICATION PURSUANT TO
18 U.S.C. SS 1350, AS ADOPTED PURSUANT TO
SECTION 302 OF THE SARBANES-OXLEY ACT OF 2002

I, Michael Spiegel, certify that:

1. I have reviewed this quarterly report on Form 10-Q of VuMEE, Inc.;

2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;

3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;

4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:

   a. designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
   b. designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
   c. evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
   d. disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and

5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons fulfilling the equivalent functions):

   a. all significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
   b. any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
