TITLE VICE PRESIDENT

EXHIBIT 77Q1 (b): On June 12, 2008, the Board of Directors of the fund approved the delegation of its authority to management to effect repurchases, pursuant to management's discretion and subject to market conditions and investment considerations, of up to 10% of the fund's total assets through the current fiscal year ending December 31, 2008. During the period of this report, the fund did not effect any repurchases. Notice is hereby given in accordance with Section 23(c) of the Investment Company Act of 1940 that the fund may purchase, from time to time, shares of its common stock in the open market.

On June 18, 2008, the Board of Directors of the fund approved changes to the fund's policies and procedures with respect to the disclosure of the fund's portfolio securities permitting the fund to post an uncertified list of portfolio holdings on the Web site at <http://www.cohenandsteers.com>, no earlier than 15 days after the end of each calendar quarter. The holdings information remains available until the fund files a report on Form N-Q or Form NCSR for the period that includes the date as of which the information is current. In addition to information on portfolio holdings, other fund statistical information may be found on the Cohen & Steers Funds' Web site or by calling 800-330-7348.

On March 18, 2008, the Board of Directors of the fund approved the expansion of the options strategy to permit the fund to write options on custom baskets of securities and customized indexes and to remove any requirement that a fund must hold an exchange-traded fund ("ETF") as a portfolio security in order to write an option on an ETF.

The fund may write covered call options on securities (including securities of ETFs), stock indices or custom baskets of securities that are traded on U.S. or foreign exchanges or over-the-counter (OTC). An option on a security is a contract that gives the purchaser of the option, in return for the premium paid, the right to buy a specified security (in the case of a call option) from the writer of the option at a designated price during the term of the option. An option on a securities index or basket of securities gives the purchaser of the option, in return for the premium paid, the right to receive from the seller cash equal to the difference between the closing price of the index or basket of securities and the exercise price of the option.

The fund may write a call option on a security (other than securities of ETFs) only if the option is "covered." A call option on a security written by the fund is covered if the fund owns the underlying security covered by the call. The fund will cover call options on ETFs, stock indices or custom baskets by owning securities whose price changes, in the opinion of the investment manager, are expected to be similar to those of the ETF, index or basket, or in such other manner as may be in accordance with the rules of any exchange on which the option is traded and other applicable laws and regulations. Nevertheless, where the fund covers a call option on an ETF, stock index or custom basket through ownership of securities, such securities may not match the composition of the ETF, index or basket. In that event, the fund will not be fully covered and could be subject to risk of loss in the event of adverse

changes in the value of the ETF, index or basket.

The value of the underlying securities, ETFs, indices and baskets on which options may be written at any one time will not exceed 25% of the total managed assets of the fund. The fund will receive a premium for writing a call option, which will increase the fund's realized gains in the event the option expires unexercised or is closed out at a profit. If the value of a security, ETF, index or basket on which the fund has written a call option falls or remains the same, the fund will realize a profit in the form of the premium received (less transaction costs) that could offset all or a portion of any decline in the value of the portfolio securities being hedged. A rise in the value of the underlying security, ETF, index or basket, however, exposes the fund to possible loss or loss of opportunity to realize appreciation in the value of the underlying security, ETF, index or basket.

There can be no assurance that a liquid market will exist when the fund seeks to close out an option position. Trading could be interrupted, for example, because of supply and demand imbalances arising from a lack of either buyers or sellers, or the options exchange could suspend trading after the price has risen or fallen more than the maximum specified by the exchange. In addition, when the fund enters into OTC options (including options on custom baskets of securities), these options are not traded on or governed by the rules of any exchange, and the fund's ability to close out an OTC option is subject to the terms of the option contract and the creditworthiness of the option counterparty. Although the fund may be able to offset to some extent any adverse effects of being unable to liquidate an option position, the fund may experience losses in some cases as a result of such inability.

On March 18, 2008, the Board of Directors of the Corporation approved changes to the Corporation's dividend reinvestment plan (the "Plan").

The fund has a dividend reinvestment plan commonly referred to as an "opt-out" plan. Each common shareholder who participates in the Plan will have all distributions of dividends and capital gains ("Dividends") automatically reinvested in additional common shares by The Bank of New York Mellon as agent (the "Plan Agent"). Shareholders who elect not to participate in the Plan will receive all Dividends in cash paid by check mailed directly to the shareholder of record (or if the shares are held in street or other nominee name, then to the nominee) by the Plan Agent, as dividend disbursing agent. Shareholders whose common shares are held in the name of a broker or nominee should contact the broker or nominee to determine whether and how they may participate in the Plan.

The Plan Agent serves as agent for the shareholders in administering the Plan. After the fund declares a Dividend, the Plan Agent will, as agent for the shareholders, either: (i) receive the cash payment and use it to buy common shares in the open market, on the NYSE or elsewhere, for the participants' accounts or (ii) distribute newly issued common shares of the Fund on behalf of the participants.

The Plan Agent will receive cash from the fund with which to buy common shares in the open market if, on the Dividend payment date, the net asset value

("NAV") per share exceeds the market price per share plus estimated brokerage commissions on that date. The Plan Agent will receive the Dividend in newly issued common shares of the fund if, on the Dividend payment date, the market price per share plus estimated brokerage commissions equals or exceeds the NAV per share of the fund on that date. The number of shares to be issued will be computed at a per share rate equal to the greater of (i) the NAV or (ii) 95% of the closing market price per share on the payment date.

If the market price per share is less than the NAV on a Dividend payment date, the Plan Agent will have until the last business day before the next ex-dividend date for the common stock, but in no event more than 30 days after the Dividend payment date (as the case may be, the "Purchase Period"), to invest the Dividend amount in shares acquired in open market purchases. If at the close of business on any day during the Purchase Period on which NAV is calculated the NAV equals or is less than the market price per share plus estimated brokerage commissions, the Plan Agent will cease making open market purchases and the uninvested portion of such Dividends shall be filled through the issuance of new shares of common stock from the Fund at the price set forth in the immediately preceding paragraph.

Participants in the Plan may withdraw from the Plan upon notice to the Plan Agent. Such withdrawal will be effective immediately if received not less than ten days prior to a Dividend record date; otherwise, it will be effective for all subsequent Dividends. When a participant withdraws from the Plan or upon termination of the Plan as provided below, certificates for whole common shares credited to his or her account under the Plan will be issued and a cash payment will be made for any fraction of a common share credited to such account. If any participant elects to have the Plan Agent sell all or part of his or her shares and remit the proceeds, the Plan Agent is authorized to deduct a \$15.00 fee plus \$0.10 per share brokerage commissions.

The Plan Agent's fees for the handling of reinvestment of Dividends will be paid by the fund. However, each participant will pay a pro rata share of brokerage commissions incurred with respect to the Plan Agent's open market purchases in connection with the reinvestment of Dividends. The automatic reinvestment of Dividends will not relieve participants of any income tax that may be payable or required to be withheld on such Dividends. The fund reserves the right to amend or terminate the Plan. All correspondence concerning the Plan should be directed to the Plan Agent at 800-432-8224.

EXHIBIT 77Q1 (a): Certain amendments to the Registrant's articles of incorporation are attached and filed herein.

PROXY RESULTS (Unaudited)

During the six months ended June 30, 2008, Cohen & Steers Select Utility Fund, Inc. shareholders voted on the following proposals at the annual meeting held on April 1, 2008.

The description of each proposal and number of shares voted are as follows:

Proposal 1 - Election of Directors

The shareholders voted to elect three Directors to serve until the Annual Meeting of Stockholders in 2011. Of these three Director positions, one Director position was voted for by preferred stock shareholders voting as a single class for the preferred stock. The remaining two Director positions were filled by the two Director nominees for the common stock who received the most votes of the holders of the Fund's Common Shares, voting together with the holders of the Fund's Auction Market Preferred Shares. The Board of Directors nominated Bonnie Cohen and Richard E. Kroon as Director nominees for the common stock. The Board of Directors also nominated Willard H. Smith Jr. as a Director nominee for the preferred stock. A shareholder of record nominated Arthur D. Lipson and William J. Roberts as Director nominees for the common stock. As shown below, Bonnie Cohen and Richard E. Kroon, having received the most votes of the owners of the common shares and the preferred shares, voting as a single class, were elected as Directors to serve for a term expiring on the date on which the annual meeting of shareholders is held in 2011.

Nominee	Affirmative	Withheld
Bonnie Cohen*	12,520,714	321,156
Richard E. Kroon*	12,541,319	300,551
Arthur D. Lipson*	9,376,890	173,189
William J. Roberts*	9,373,128	176,951
Willard H. Smith**	0	0

\* Designated as Directors to be elected by holders of common and preferred shares, voting together as a single class.

\*\* Designated as a Director to be elected by holders of preferred shares voting separately.

The election of the Director designated to be elected by the holders of the Fund's preferred shares was adjourned, due to a lack of a quorum. In light of the limited prospects of obtaining quorum, and the costs associated with the continued solicitation of proxies from holders of preferred shares, it was determined that the annual meeting would be adjourned indefinitely as to the proposal.

Accordingly, and pursuant to Maryland law, Willard H. Smith Jr. will continue to serve as a Director until the next annual meeting of shareholders and until his successor is elected and qualifies.

Proposal 2 - Self-tender Offer

A shareholder of record submitted the following proposal at the meeting:

If the Fund's shares trade at an average discount of more than 7.5% during any calendar quarter the Fund shall commence a self-tender offer within twenty days of the end of such quarter for 15% of its shares at 98% of net asset value.

The fund's shareholders did not approve Proposal 2, as shown below:

For	Against	Abstain
7,317,661	13,030,298	2,043,985

ITEM 77D: The Board of Directors of the fund approved the delegation of its authority to management to effect repurchases, pursuant to management's discretion and subject to market conditions and investment considerations, of up to 10% of the fund's total assets through the current fiscal year ending December 31, 2008.

The Board of Directors of the fund approved changes to the fund's policies and procedures with respect to the disclosure of the fund's portfolio securities permitting the fund to post an uncertified list of portfolio holdings on the Web site at <http://www.cohenandsteers.com>, no earlier than 15 days after the end of each calendar quarter.

The Board of Directors of the fund approved the expansion of the options strategy to permit the fund to write options on custom baskets of securities and customized indexes and to remove any requirement that a fund must hold an exchange-traded fund ('ETF') as a portfolio security in order to write an option on an ETF. The value of the underlying securities, ETFs, indices and baskets on which options may be written at any one time will not exceed 25% of the total managed assets of the fund.

On March 18, 2008, the Board of Directors of the Corporation approved changes to the Corporation's dividend reinvestment plan.

COHEN & STEERS SELECT UTILITY FUND, INC.

Articles of Amendment to the  
Articles Supplementary Creating and Fixing the Rights of  
Series M7, Series T7, Series W7, Series TH28 and Series F7  
Taxable Auction Market Preferred Shares

Cohen & Steers Select Utility Fund, Inc., a Maryland corporation  
having its principal office in the City of Baltimore in the State  
of Maryland (the "Corporation"), certifies to the State  
Department of Assessments and Taxation of Maryland  
(the "Department") that:

FIRST: Section 11 of Part I of the Corporation's Articles  
Supplementary Creating and Fixing the Rights of Series M7, Series T7,  
Series W7, Series TH28 and Series F7 Taxable Auction Market  
Preferred Shares (the "Articles Supplementary") is hereby amended by  
deleting Section 11 in its entirety and substituting in lieu thereof  
the following:

11. Certain Other Restrictions. So long as any shares of the AMPS  
are Outstanding and S&P, Moody's or any Other Rating Agency that  
is rating such shares so requires, the Corporation will not, unless  
it has received written confirmation from S&P (if S&P is then  
rating the AMPS), Moody's (if Moody's is then rating the AMPS) and  
(if applicable) such Other Rating Agency, that any such action  
would not impair the rating then assigned by such Rating Agency to  
the AMPS, engage in any one or more of the following transactions:
- (a) issue senior securities except in conformity with the limits  
set forth in the 1940 Act or pursuant to exemptive relief;
  - (b) except in connection with a refinancing of the AMPS, issue  
additional shares of any series of preferred stock, including the  
AMPS, or reissue any shares of preferred stock, including the AMPS  
previously purchased or redeemed by the Corporation;
  - (c) engage in any short sales of securities;
  - (d) lend portfolio securities;
  - (e) merge or consolidate into or with any other fund;
  - (f) change the Pricing Service referred to in the definition of  
Market Value; or
  - (g) enter into reverse repurchase agreements.
  - (h) For so long as the AMPS is rated by S&P and Moody's, the  
Corporation will not purchase or sell futures contracts, write,  
purchase or sell options on futures contracts or write put options  
(except covered put options) or call options (except covered call  
options) on portfolio securities unless it receives written  
confirmation from S&P and Moody's that engaging in such transactions  
will not impair the ratings then assigned to the AMPS by S&P and  
Moody's.
  - (i) Subject to the requirement set forth in this Section 11 to  
obtain written confirmation from S&P (if S&P is then rating the

AMPS) prior to engaging in any one or more of the transactions set forth in Section 11(a)-(h), that any such action would not impair the rating then assigned by S&P to the AMPS, the Corporation may enter into certain S&P Hedging Transactions provided the following requirements are met:

(i) for each net long or short position in S&P Hedging Transactions, the Corporation will maintain in a segregated account with the Corporation's custodian an amount of cash or readily marketable securities having a value, when added to any amounts on deposit with the Corporation's futures commission merchants or brokers as margin or premium for such position, at least equal to the market value of the Corporation's potential obligations on such position, marked-to-market on a daily basis, in each case as and to the extent required by the applicable rules or orders of the Commission or by interpretations of the Commission's staff;

(ii) the Corporation will not engage in any S&P Hedging Transaction which would cause the Corporation at the time of such transaction to own or have sold the lesser of outstanding futures contracts based on any of the aforementioned indices exceeding in number 10% of the average number of daily traded futures contracts based on such index in the 30 days preceding the time of effecting such transaction as reported by The Wall Street Journal;

(iii) the Corporation will engage in closing transactions to close out any outstanding futures contract which the Corporation owns or has sold or any outstanding option thereon owned by the Corporation in the event (1) the Corporation does not have S&P Eligible Assets with an aggregate Discounted Value equal to or greater than the Preferred Share Basic Maintenance Amount on two consecutive Valuation Dates and (2) the Corporation is required to pay variation margin on the second such Valuation Date;

(iv) the Corporation will engage in a closing transaction to close out any outstanding futures contract or option thereon at least one week prior to the delivery date under the terms of the futures contract or option thereon unless the corporation holds the securities deliverable under such terms;

(v) when the Corporation writes a futures contract or option thereon, either the amount of margin posted by the Corporation (in the case of a futures contract) or the marked-to-market value of the Corporation's obligation (in the case of a put option written by the Corporation) shall be treated as a liability of the Corporation for purposes of calculating the Preferred Share Basic Maintenance Amount, or, in the event the Corporation writes a futures contract or option thereon which requires delivery of an underlying security and the Corporation does not wish to treat its obligations with respect thereto as a liability for purposes of calculating the Preferred Shares Basic Maintenance Amount, it shall hold such underlying security in its portfolio and shall not include such security to the extent of such contract or option as an S&P Eligible Asset;

(vi) when the Corporation engages in credit default swaps, the swaps will be transacted according to International Swap Dealers

Association ("ISDA") standards. If premiums are not paid in advance, they will be counted as a liability for the Preferred Shares Basic Maintenance Amount and 40 Act Coverage Tests.

The Corporation may not sell credit protection;

(vii) when the Corporation engages in interest rate and currency swaps, the transactions meet ISDA standards; The counterparty to the swap transaction has a minimum short-term rating of "A-1/A+" or the equivalent by S&P, or, if the counterparty does not have a short-term rating, the counterparty's minimum senior unsecured long-term debt rating is "A-1/A+", or the equivalent by S&P, or higher; the original aggregate notional amount of the interest rate swap transaction or transactions is not greater than the liquidation preference of the AMPS; the interest rate swap transaction will be marked-to-market weekly by the swap counterparty. If the Corporation fails to maintain an aggregate Discounted Value that is at least equal to the basic maintenance amount on two consecutive valuation dates, then the swap agreement will terminate immediately; for the purpose of calculating the asset coverage test, 90% of any positive mark-to-market valuation of the Corporation's rights are eligible assets. One hundred percent of any negative mark-to-market valuation of the Corporation's rights will be included in the calculation of the basic maintenance amount; and the Corporation maintains liquid assets with a value that is at least equal to the net amount of the excess, if any, of the Corporation's obligations over its entitlement with respect to each swap. If the swap agreement is not on a net basis, the Corporation must maintain liquid and unencumbered assets with a value at least equal to the full amount of its accrued obligations under the agreement. For caps/floors, the Corporation must maintain liquid assets with a value that is at least equal to the Corporation's obligations for such caps or floors;

(viii) when the Corporation engages in short sales, the Corporation segregates liquid and unencumbered assets in an amount that, when combined with the amount of collateral deposited with the broker in connection with the short sale, equals the current market value of the security sold short.

If the Corporation enters into a short sale against the box, it is required to segregate securities equivalent in kind and amount to the securities sold short, and the Corporation is required to segregate such securities while the short sale is outstanding; and the transaction will be marked-to-market daily by the counterparty;

(ix) when the Corporation engages in margin purchases, the Corporation segregates liquid and unencumbered assets in an amount that, when combined with the amount of collateral deposited with the broker in connection with the margin purchase, equals the current net obligation of the Corporation; and the transaction is marked-to-market daily by the counterparty;

(x) when the Corporation engages in reverse repurchase agreements, the counterparty is rated at least "A-1/A+" and the agreement matures in 30 days or sooner; or the counterparty is rated "A-1/A+" and the transaction matures between 30 and 183 days; and the securities are marked-to-market daily by the counterparty; and

(xi) when the Corporation engages in security lending for periods of 30 days or less, the counterparty must be rated at least A-1/A+ and the Corporation must follow all requirements of the 1940 Act.

SECOND: The definition of "S&P Discount Factor" contained in Section 17 of Part I of the Corporation's Articles Supplementary Creating and Fixing the Rights of Series M7, Series T7, Series W7, Series TH28 and Series F7 Taxable Auction Market Preferred Shares is hereby amended by deleting subsection (b).

THIRD: Section 17 of Part I of the Corporation's Articles Supplementary Creating and Fixing the Rights of Series M7, Series T7, Series W7, Series TH28 and Series F7 Taxable Auction Market Preferred Shares is hereby amended by adding the following:

"S&P Hedging Transactions": For so long as any Series is rated by S&P, the Corporation will not purchase or sell futures contracts, write, purchase or sell options on futures contracts or write put options (except covered put options) or call options (except covered call options) on portfolio securities unless it receives written confirmation from S&P that engaging in such transactions will not impair the rating then assigned to the Series by S&P, except that the Corporation may purchase or sell futures contracts and engage in swaps, caps, floors, and collars, reverse repurchase or repurchase agreements, short sales, write, purchase or sell put and call options on such contracts (collectively, "S&P Hedging Transactions"), subject to the following limitations:

Futures and Options:

1. S&P Hedging Transactions may not exceed the notional value of the preferred shares outstanding;
2. the Corporation will engage in closing transactions to close out any outstanding futures contract which the Corporation owns or has sold or any outstanding option thereon owned by the Corporation in the event (A) the Corporation does not have S&P Eligible Assets with an aggregate Discounted Value equal to or greater than the Preferred Basic Maintenance Amount on two consecutive Valuation Dates and (B) the Corporation is required to pay variation margin on the second such Valuation Date;
3. the Corporation will engage in a closing transaction to close out any outstanding futures contract or option thereon in the month prior to the delivery month under the terms of such futures contract or option thereon unless the Corporation holds the securities deliverable under such terms; and
4. when the Corporation writes a futures contract or option thereon, it will either maintain an amount of cash, cash equivalents or liquid securities ( in a segregated account with the Corporation's custodian, so that the amount so segregated plus the amount of initial margin and variation margin held in the account of or on behalf of the Corporation's broker with respect to such futures contract or option equals the Market Value of the Corporation's futures contract or option, marked-to-market on a daily basis, or, in the event the Corporation writes a futures contract or option thereon which requires delivery of an underlying security, it shall hold such underlying security in its portfolio.

Credit Default Swap entered into according to International Swap Dealers Association ("ISDA") standards, if premiums not paid in advance, will be counted as a liability for purpose of the Preferred Shares Basic Maintenance Amount; the Corporation is not the seller of credit protection.

#### Interest Rate Swaps:

1. The Corporation may engage in interest rate swaps if it is accordance to ISDA standards;
2. the counterparty to the swap transaction has a minimum short-term rating of "A-1/A+" or equivalent by S&P, or, if the counterparty does not have a short-term rating, the counterparty's minimum senior unsecured long-term debt rating is "A+", or equivalent by S&P, or higher;
3. The original aggregate notional amount of the interest rate swap transaction or transactions is not to be greater than the liquidation preference of the Series;
4. The interest rate swap transaction will be marked-to-market weekly by the swap counterparty. If the Corporation fails to maintain an aggregate discounted value at least equal to the basic maintenance amount on two consecutive valuation dates then the agreement shall terminate immediately;
5. For the purpose of calculating the Preferred Shares Basic Maintenance Amount, 90% of any positive mark-to-market valuation of the Corporation's rights will be eligible assets. 100% of any negative mark-to-market valuation of the Corporation's rights will be included in the calculation of the basic maintenance amount;
6. The Corporation must maintain liquid assets with a value at least equal to the net amount of the excess, if any, of the Corporation's obligations over its entitlement with respect to each swap. If the swap agreement is not on a net basis, it must maintain liquid and unencumbered assets with a value at least equal to the full amount of the Corporation's accrued obligations under the agreement. For caps/floors, must maintain liquid assets with a value at least equal to the Corporation's obligations with respect to such caps or floors.

#### Short Sales

The Corporation may engage in short sales of securities or short sales against the box if:

1. the Corporation segregates liquid and unencumbered assets in an amount that when combined with the amount of collateral deposited with the broker in connection with the short sale equals the current market value of the security sold short or if the Corporation enters into a short sale against the box, it is required to segregate securities equivalent in kind and amount to the securities sold short and is required to hold such securities while the short sale is outstanding; and

2. The transaction will be marked to market daily by the counterparty.

Margin Purchase:

1. The Corporation segregates liquid and unencumbered assets in an amount that when combined with the amount of collateral deposited with the broker in connection with the margin purchase equals the current net obligation of the Corporation; and

2. The transaction will be marked to market daily by the counterparty.

Reverse Repurchase Agreement:

The Corporation may engage in reverse repurchase agreements if:

1. the counterparty is rated at least A-1/A+ and the agreement matures in 30 days or less, or

2. the counterparty must be rated AA-/A-1+ if the transaction matures in more than 30 days but less than 183 days, and

3. the securities are marked to market daily by the counterparty.

FOURTH: The definition of "Moody's Eligible Assets" contained in Section 17 of Part I of the Corporation's Articles Supplementary Creating and Fixing the Rights of Series M7, Series T7, Series W7, Series TH28 and Series F7 Taxable Auction Market Preferred Shares is hereby amended by adding the following at the end of the definition:

Where the Corporation sells an asset and agrees to repurchase such asset in the future, the Discounted Value of such asset will constitute a Moody's Eligible Asset and the amount the Corporation is required to pay upon repurchase of such asset will count as a liability for the purposes of the Preferred Shares Basic Maintenance Amount. Where the Corporation purchases an asset and agrees to sell it to a third party in the future, cash receivable by the Corporation thereby will constitute a Moody's Eligible Asset if the long-term debt of such other party is rated at least A2 by Moody's and such agreement has a term of 30 days or less; otherwise the Discounted Value of such purchased asset will constitute a Moody's Eligible Asset. For the purposes of calculation of Moody's Eligible Assets, portfolio securities which have been called for redemption by the issuer thereof shall be valued at the lower of Market Value or the call price of such portfolio securities.

For purposes of valuation of Moody's Eligible Assets: (A) if the Corporation writes a call option, the underlying asset will be valued as follows: (1) if the option is exchange-traded and may be offset readily or if the option expires before the earliest possible redemption of the Series, at the lower of the Discounted Value of the underlying security of the option and the exercise price of the option or (2) otherwise, it has no value; (B) if the Corporation writes a put option, the underlying asset will be valued as follows: the lesser of (1) exercise price and (2) the Discounted Value of the underlying security; and (C) call or put option contracts which the Corporation buys have no value. For so long as the

Series is rated by Moody's: (A) the Corporation will not enter into an option transaction with respect to portfolio securities unless, after giving effect thereto, the Corporation would continue to have Eligible Assets with an aggregate Discounted Value equal to or greater than the Preferred Shares Basic Maintenance Amount; (B) the Corporation will not enter into an option transaction with respect to portfolio securities unless after giving effect to such transaction the Corporation would continue to be in compliance with the provisions relating to the Preferred Shares Basic Maintenance Amount; (C) for purposes of the Preferred Shares Basic Maintenance Amount assets in margin accounts are not Eligible Assets; and (D) where delivery may be made to the Corporation with any of a class of securities, the Corporation will assume for purposes of the Preferred Shares Basic Maintenance Amount that it takes delivery of that security which yields it the least value.

FIFTH: Section 17 of Part I of the Corporation's Articles Supplementary Creating and Fixing the Rights of Series M7, Series T7, Series W7, Series TH28 and Series F7 Taxable Auction Market Preferred Shares is hereby amended by adding the following immediately after the definition of "Moody's Eligible Assets":

"Moody's Hedging Transactions" means purchases or sales of exchange-traded financial futures contracts based on any index approved by Moody's or Treasury Bonds, and purchases, writings or sales of exchange-traded put options on such financial futures contracts, any index approved by Moody's or Treasury Bonds, and purchases, writings or sales of exchange-traded call options on such financial futures contracts, any index approved by Moody's or Treasury Bonds, subject to the following limitations:

(i) the Corporation will not engage in any Moody's Hedging Transaction based on any index approved by Moody's (other than Closing Transactions) that would cause the Corporation at the time of such transaction to own or have sold:

(A) Outstanding financial futures contracts based on such index exceeding in number 10% of the average number of daily traded financial futures contracts based on such index in the 30 days preceding the time of effecting such transaction as reported by The Wall Street Journal; or

(B) Outstanding financial futures contracts based on any index approved by Moody's having a Market Value exceeding 50% of the Market Value of all portfolio securities of the Corporation constituting Moody's Eligible Assets owned by the Corporation;

(ii) The Corporation will not engage in any Moody's Hedging Transaction based on Treasury Bonds (other than Closing Transactions) that would cause the Corporation at the time of such transaction to own or have sold:

(A) Outstanding financial futures contracts based on Treasury Bonds with such contracts having an aggregate Market value exceeding 20% of the aggregate Market Value of Moody's Eligible Assets owned by the Corporation and rated Aa by Moody's (or, if not rated by Moody's but rated by S&P, rated AAA by S&P); or

(B) Outstanding financial futures contracts based on Treasury Bonds with such contracts having an aggregate Market Value exceeding 50% of the aggregate Market Value of all portfolio securities of the Corporation constituting Moody's Eligible Assets owned by the Corporation (other than Moody's Eligible Assets already subject to a Moody's Hedging Transaction) and rated Baa or A by Moody's (or, if not rated by Moody's but rated by

S&P, rated A or AA by S&P);

(iii) The Corporation will engage in Closing Transactions to close out any outstanding financial futures contract based on any index approved by Moody's if the amount of open interest in such index as reported by The Wall Street Journal is less than an amount to be mutually determined by Moody's and the Corporation;

(iv) The Corporation will engage in a Closing Transaction to close out any outstanding financial futures contract by no later than the fifth Business Day of the month in which such contract expires and will engage in a Closing Transaction to close out any outstanding option on a financial futures contract by no later than the first Business Day of the month in which such option expires;

(v) The Corporation will engage in Moody's Hedging Transactions only with respect to financial futures contracts or options thereon having the next settlement date or the settlement date immediately thereafter; and

(vi) The Corporation will not enter into an option or futures transaction unless, after giving effect thereto, the Corporation would continue to have Moody's Eligible Assets with an aggregate Discounted Value equal to or greater than the Preferred Share Basic Maintenance Amount.

(vii) Swaps (including Total Return Swaps, Interest Rate Swaps, Currency Swaps and Credit Default Swaps): Total return and Interest Rate Swaps are subject to the following provisions:

(A) Only the cumulative unsettled profit and loss from a Total Return Swap transaction will be calculated when determining the AMPS Basic Maintenance Amount. If the Corporation has an outstanding gain from a swap transaction on a Valuation Date, the gain will be included as a Moody's Eligible Asset subject to the Moody's Discount Factor on the counterparty to the swap transaction. If the Corporation has an outstanding liability from a swap transaction on a Valuation Date, the Corporation will subtract the outstanding liability from the total Moody's Eligible Assets in calculating the AMPS Basic Maintenance Amount.

In addition, for swaps other than Total Return Swaps, the Market Value of the position (positive or negative) will be included as a Moody's Eligible Asset. The aggregate notional value of all swaps will not exceed the Liquidation Preference of the Outstanding AMPS. At the time a swap is executed, the Corporation will only enter into swap transactions where the counterparty has at least a Fitch rating of A- or Moody's long-term rating of A3.

(B) (1) The underlying securities subject to a Credit Default Swap sold by the Corporation will be subject to the applicable Moody's Discount Factor for each security subject to the swap;

(2) If the Corporation purchases a Credit Default Swap and holds the underlying security, the Market Value of the Credit Default Swap and the underlying security will be included as a Moody's Eligible Asset subject to the Moody's Discount Factor assessed based on the counterparty risk and the duration of the swap agreement; and

(3) The Corporation will not include a Credit Default Swap as a Moody's Eligible Asset purchased by the Corporation without the Corporation holding the underlying security or when the Corporation buys a Credit Default Swap for a basket of securities without holding all the securities in the basket. If not otherwise provided for above, derivative instruments shall be treated

as follows: Any derivative instruments will be valued pursuant to the Corporation's valuation procedures on a Valuation Date. The amount of the net payment obligation and the cost of a closing transaction, as appropriate, on any derivative instrument on a Valuation Date will be counted as a liability for purposes of determining the Preferred Shares Basic Maintenance Amount (e.g., a written call option that is in the money for the holder).

Any derivative instrument with respect to which the Corporation is owed payment on the Valuation Date that is not based upon an individual security or securities that are Moody's Eligible Assets will have a mutually agreed upon valuation by Moody's and the Corporation for purposes of determining Moody's Eligible Assets. Any derivative instrument with respect to which the Corporation is owed payment on the valuation date that is based upon an individual security or securities that are Moody's Eligible Assets (e.g., a purchased call option on a bond that is in the money) will be valued as follows for purposes of determining Moody's Eligible Assets:

(A) For such derivative instruments that are exchange traded, the value of the in-the-money amount of the payment obligation to the Corporation will be reduced by applying the Moody's Discount Factor (as it would apply to the underlying security or securities) and then added to Moody's Eligible Assets; and (B) for such derivative instruments that are not exchange traded, the value of the in-the-money amount of the payment obligation to the Corporation will be (1) reduced as described in (A) and (B) further reduced by applying to the remaining amount the Moody's Discount Factor determined by reference to the credit rating of the derivative counterparty with the remaining amount after these reductions then added to Moody's Eligible Assets.

For purposes of determining whether the Corporation has Moody's Eligible Assets with an aggregate Discounted Value that equals or exceeds the AMPS Basic Maintenance Amount Test, the Discounted Value of all Forward Commitments to which the Corporation is a party and of all securities deliverable to the Corporation pursuant to such Forward Commitments shall be zero.

SIXTH: The amendments set forth in these Articles of Amendment were duly approved by the Board of Directors in accordance with Part I, Sections 6(k) and 16 of the Articles Supplementary and the Maryland General Corporation Law. No stock entitled to be voted on the matter was outstanding or subscribed for at the time of the approval of the amendments set forth in these Articles of Amendment.

SEVENTH: The amendments contemplated by these Articles of Amendment do not increase the authorized stock of the Corporation or the aggregate par value thereof.

[Remainder of page left blank]

IN WITNESS WHEREOF, COHEN & STEERS SELECT UTILITY FUND, INC. has caused these Articles of Amendment to be signed in its name and on its behalf by its President and Chief Executive Officer and witnessed by its Secretary as of this 29th day of January, 2008.

WITNESS:

Articles of Amendment  
to the  
Articles Supplementary Creating and Fixing the Rights of  
Series T7-2 Taxable Auction Market Preferred Shares

Cohen & Steers Select Utility Fund, Inc., a Maryland corporation having its principal office in the City of Baltimore in the State of Maryland (the "Corporation"), certifies to the State Department of Assessments and Taxation of Maryland (the "Department") that:

FIRST: Section 11 of Part I of the Corporation's Articles Supplementary Creating and Fixing the Rights of Series T7-2 Taxable Auction Market Preferred Shares (the "Articles Supplementary") is hereby amended by deleting Section 11 in its entirety and substituting in lieu thereof the following:

11. Certain Other Restrictions. So long as any shares of the Series are Outstanding and S&P, Moody's or any Other Rating Agency that is rating such shares so requires, the Corporation will not, unless it has received written confirmation from S&P (if S&P is then rating the Series), Moody's (if Moody's is then rating the Series) and (if applicable) such Other Rating Agency, that any such action would not impair the rating then assigned by such Rating Agency to the Series, engage in any one or more of the following transactions:
  - (a) issue senior securities except in conformity with the limits set forth in the 1940 Act or pursuant to exemptive relief;
  - (b) except in connection with a refinancing of the Series, issue additional shares of any series of preferred stock, including the Series, or reissue any shares of preferred stock, including the Series previously purchased or redeemed by the Corporation;
  - (c) engage in any short sales of securities;
  - (d) lend portfolio securities;
  - (e) merge or consolidate into or with any other fund;
  - (f) change the Pricing Service referred to in the definition of Market Value;  
or
  - (g) enter into reverse repurchase agreements.
  - (h) For so long as the Series is rated by S&P and Moody's, the Corporation will not purchase or sell futures contracts, write, purchase or sell options on futures contracts or write put options (except covered put options) or call options (except covered call options) on portfolio securities unless it receives written confirmation from S&P and Moody's that engaging in such transactions will not impair the ratings then assigned to the Series by S&P and Moody's.
  - (i) Notwithstanding the requirement set forth in this Section 11 to obtain written confirmation from S&P (if S&P is then rating the Series) prior to engaging in any one or more of the transactions set forth in Section 11(a)-(h), that any such action would not impair the rating then assigned by S&P to the Series, the Corporation may enter into certain S&P Hedging Transactions

provided the following requirements are met:

- (i) for each net long or short position in S&P Hedging Transactions, the Corporation will maintain in a segregated account with the Corporation's custodian an amount of cash or readily marketable securities having a value, when added to any amounts on deposit with the Corporation's futures commission merchants or brokers as margin or premium for such position, at least equal to the market value of the Corporation's potential obligations on such position, marked-to-market on a daily basis, in each case as and to the extent required by the applicable rules or orders of the Commission or by interpretations of the Commission's staff;
- (ii) the Corporation will not engage in any S&P Hedging Transaction which would cause the Corporation at the time of such transaction to own or have sold the lesser of outstanding futures contracts based on any of the aforementioned indices exceeding in number 10% of the average number of daily traded futures contracts based on such index in the 30 days preceding the time of effecting such transaction as reported by The Wall Street Journal;
- (iii) the Corporation will engage in closing transactions to close out any outstanding futures contract which the Corporation owns or has sold or any outstanding option thereon owned by the Corporation in the event (1) the Corporation does not have S&P Eligible Assets with an aggregate Discounted Value equal to or greater than the Preferred Share Basic Maintenance Amount on two consecutive Valuation Dates and (2) the Corporation is required to pay variation margin on the second such Valuation Date;
- (iv) the Corporation will engage in a closing transaction to close out any outstanding futures contract or option thereon at least one week prior to the delivery date under the terms of the futures contract or option thereon unless the corporation holds the securities deliverable under such terms;
- (v) when the Corporation writes a futures contract or option thereon, either the amount of margin posted by the Corporation (in the case of a futures contract) or the marked-to-market value of the Corporation's obligation (in the case of a put option written by the Corporation) shall be treated as a liability of the Corporation for purposes of calculating the Preferred Share Basic Maintenance Amount, or, in the event the Corporation writes a futures contract or option thereon which requires delivery of an underlying security and the Corporation does not wish to treat its obligations with respect thereto as a liability for purposes of calculating the Preferred Shares Basic Maintenance Amount, it shall hold such underlying security in its portfolio and shall not include such security to the extent of such contract or option as an S&P Eligible Asset;
- (vi) when the Corporation engages in credit default swaps, the swaps will be transacted according to International Swap Dealers Association ("ISDA") standards. If premiums are not paid in advance, they will be counted as a liability for the Preferred Shares Basic Maintenance Amount and 40 Act Coverage Tests. The Corporation may not sell credit protection;
- (vii) when the Corporation engages in interest rate and currency swaps, the transactions meet ISDA standards; The counterparty to the swap transaction has a minimum short-term rating of "A-1/AA-" or the equivalent by S&P, or, if the counterparty does not have a short-term rating, the counterparty's minimum senior unsecured long-term debt rating is "A-1/A+", or the equivalent by S&P, or higher; the original aggregate notional amount of the interest rate swap transaction or transactions is not greater than

the liquidation preference of the Series; the interest rate swap transaction will be marked-to-market weekly by the swap counterparty. If the Corporation fails to maintain an aggregate Discounted Value that is at least equal to the basic maintenance amount on two consecutive valuation dates, then the swap agreement will terminate immediately; for the purpose of calculating the asset coverage test, 90% of any positive mark-to-market valuation of the Corporation's rights are eligible assets. One hundred percent of any negative mark-to-market valuation of the Corporation's rights will be included in the calculation of the basic maintenance amount; and the Corporation maintains liquid assets with a value that is at least equal to the net amount of the excess, if any, of the Corporation's obligations over its entitlement with respect to each swap. If the swap agreement is not on a net basis, the Corporation must maintain liquid and unencumbered assets with a value at least equal to the full amount of its accrued obligations under the agreement. For caps/floors, the Corporation must maintain liquid assets with a value that is at least equal to the Corporation's obligations for such caps or floors;

(viii) when the Corporation engages in short sales, the Corporation segregates liquid and unencumbered assets in an amount that, when combined with the amount of collateral deposited with the broker in connection with the short sale, equals the current market value of the security sold short. If the Corporation enters into a short sale against the box, it is required to segregate securities equivalent in kind and amount to the securities sold short, and the Corporation is required to segregate such securities while the short sale is outstanding; and the transaction will be marked-to-market daily by the counterparty;

(ix) when the Corporation engages in margin purchases, the Corporation segregates liquid and unencumbered assets in an amount that, when combined with the amount of collateral deposited with the broker in connection with the margin purchase, equals the current net obligation of the Corporation; and the transaction is marked-to-market daily by the counterparty;

(x) when the Corporation engages in reverse repurchase agreements, the counterparty is rated at least "A-1/A+" and the agreement matures in 30 days or sooner; or the counterparty is rated "A-1/A+" and the transaction matures between 30 and 183 days; and the securities are marked-to-market daily by the counterparty; and

(xi) when the Corporation engages in security lending for periods of 30 days or less, the counterparty must be rated at least A-1/A+ and the Corporation must follow all requirements of the 1940 Act.

SECOND: The definition of "S&P Discount Factor" contained in Section 17 of Part I of the Corporation's Articles Supplementary Creating and Fixing the Rights of Series T7-2 Taxable Auction Market Preferred Shares is hereby amended by deleting subsection (b).

THIRD: The definition of "S&P Hedging Transactions" contained in Section 17 of Part I of the Corporation's Articles Supplementary Creating and Fixing the Rights of Series T7-2 Taxable Auction Market Preferred Shares is hereby deleted and replaced with the following:

"S&P Hedging Transactions": For so long as any Series is rated by S&P, the Corporation will not purchase or sell futures contracts, write, purchase or

sell options on futures contracts or write put options (except covered put options) or call options (except covered call options) on portfolio securities unless it receives written confirmation from S&P that engaging in such transactions will not impair the rating then assigned to the Series by S&P, except that the Corporation may purchase or sell futures contracts and engage in swaps, caps, floors, and collars, reverse repurchase or repurchase agreements, short sales, write, purchase or sell put and call options on such contracts (collectively, "S&P Hedging Transactions"), subject to the following limitations:

#### Futures and Options:

1. S&P Hedging Transactions may not exceed the notional value of the preferred shares outstanding;
2. the Corporation will engage in closing transactions to close out any outstanding futures contract which the Corporation owns or has sold or any outstanding option thereon owned by the Corporation in the event (A) the Corporation does not have S&P Eligible Assets with an aggregate Discounted Value equal to or greater than the Preferred Basic Maintenance Amount on two consecutive Valuation Dates and (B) the Corporation is required to pay variation margin on the second such Valuation Date;
3. the Corporation will engage in a closing transaction to close out any outstanding futures contract or option thereon in the month prior to the delivery month under the terms of such futures contract or option thereon unless the Corporation holds the securities deliverable under such terms; and
4. when the Corporation writes a futures contract or option thereon, it will either maintain an amount of cash, cash equivalents or liquid securities ( in a segregated account with the Corporation's custodian, so that the amount so segregated plus the amount of initial margin and variation margin held in the account of or on behalf of the Corporation's broker with respect to such futures contract or option equals the Market Value of the Corporation's futures contract or option, marked-to-market on a daily basis, or, in the event the Corporation writes a futures contract or option thereon which requires delivery of an underlying security, it shall hold such underlying security in its portfolio.

Credit Default Swap entered into according to International Swap Dealers Association ("ISDA") standards, if premiums not paid in advance, will be counted as a liability for purpose of the Preferred Shares Basic Maintenance Amount; the Corporation is not the seller of credit protection.

#### Interest Rate Swaps:

1. The Corporation may engage in interest rate swaps if it is accordance to ISDA standards;

2. the counterparty to the swap transaction has a minimum short-term rating of "A-1/A+" or equivalent by S&P, or, if the counterparty does not have a short-term rating, the counterparty's minimum senior unsecured long-term debt rating is "A+", or equivalent by S&P, or higher;

3. The original aggregate notional amount of the interest rate swap transaction or transactions is not to be greater than the liquidation preference of the Series;

4. The interest rate swap transaction will be marked-to-market weekly by the swap counterparty. If the Corporation fails to maintain an aggregate discounted value at least equal to the basic maintenance amount on two consecutive valuation dates then the agreement shall terminate immediately;

5. For the purpose of calculating the Preferred Shares Basic Maintenance Amount, 90% of any positive mark-to-market valuation of the Corporation's rights will be eligible assets. 100% of any negative mark-to-market valuation of the Corporation's rights will be included in the calculation of the basic maintenance amount;

6. The Corporation must maintain liquid assets with a value at least equal to the net amount of the excess, if any, of the Corporation's obligations over its entitlement with respect to each swap. If the swap agreement is not on a net basis, it must maintain liquid and unencumbered assets with a value at least equal to the full amount of the Corporation's accrued obligations under the agreement. For caps/floors, must maintain liquid assets with a value at least equal to the Corporation's obligations with respect to such caps or floors.

#### Short Sales

The Corporation may engage in short sales of securities or short sales against the box if:

1. the Corporation segregates liquid and unencumbered assets in an amount that when combined with the amount of collateral deposited with the broker in connection with the short sale equals the current market value of the security sold short or if the Corporation enters into a short sale against the box, it is required to segregate securities equivalent in kind and amount to the securities sold short and is required to hold such securities while the short sale is outstanding; and

2. The transaction will be marked to market daily by the counterparty.

#### Margin Purchase:

1. The Corporation segregates liquid and unencumbered assets in an amount that when combined with the amount of collateral deposited with the broker in connection with the margin purchase equals the current net obligation of the Corporation; and

2. The transaction will be marked to market daily by the counterparty.

Reverse Repurchase Agreement:

The Corporation may engage in reverse repurchase agreements if:

1. the counterparty is rated at least A-1/A+ and the agreement matures in 30 days or less, or
2. the counterparty must be rated AA-/A-1+ if the transaction matures in more than 30 days but less than 183 days, and
3. the securities are marked to market daily by the counterparty.

FOURTH: The definition of "Moody's Eligible Assets" contained in Section 17 of Part I of the Corporation's Articles Supplementary Creating and Fixing the Rights of Series T7-2 Taxable Auction Market Preferred Shares is hereby amended by adding the following at the end of the definition:

Where the Corporation sells an asset and agrees to repurchase such asset in the future, the Discounted Value of such asset will constitute a Moody's Eligible Asset and the amount the Corporation is required to pay upon repurchase of such asset will count as a liability for the purposes of the Preferred Shares Basic Maintenance Amount. Where the Corporation purchases an asset and agrees to sell it to a third party in the future, cash receivable by the Corporation thereby will constitute a Moody's Eligible Asset if the long-term debt of such other party is rated at least A2 by Moody's and such agreement has a term of 30 days or less; otherwise the Discounted Value of such purchased asset will constitute a Moody's Eligible Asset. For the purposes of calculation of Moody's Eligible Assets, portfolio securities which have been called for redemption by the issuer thereof shall be valued at the lower of Market Value or the call price of such portfolio securities.

For purposes of valuation of Moody's Eligible Assets: (A) if the Corporation writes a call option, the underlying asset will be valued as follows: (1) if the option is exchange-traded and may be offset readily or if the option expires before the earliest possible redemption of the Series, at the lower of the Discounted Value of the underlying security of the option and the exercise price of the option or (2) otherwise, it has no value; (B) if the Corporation writes a put option, the underlying asset will be valued as follows: the lesser of (1) exercise price and (2) the Discounted Value of the underlying security; and (C) call or put option contracts which the Corporation buys have no value. For so long as the Series is rated by Moody's: (A) the Corporation will not enter into an option transaction with respect to portfolio securities unless, after giving effect thereto, the Corporation would continue to have Eligible Assets with an aggregate Discounted Value equal to or greater than the Preferred Shares Basic Maintenance Amount; (B) the Corporation will not enter into an option transaction with respect to portfolio securities unless after giving effect to such transaction the Corporation would continue to be in compliance with the provisions relating to the Preferred Shares Basic Maintenance Amount; (C) for purposes of the Preferred Shares Basic Maintenance Amount assets in margin accounts are not Eligible Assets; and (D) where delivery may be made to the Corporation with any of a class

of securities, the Corporation will assume for purposes of the Preferred Shares Basic Maintenance Amount that it takes delivery of that security which yields it the least value.

FIFTH: Section 17 of Part I of the Corporation's Articles Supplementary Creating and Fixing the Rights of Series T7-2 Taxable Auction Market Preferred Shares is hereby amended by adding the following immediately after the definition of "Moody's Eligible Assets":

"Moody's Hedging Transactions" means purchases or sales of exchange-traded financial futures contracts based on any index approved by Moody's or Treasury Bonds, and purchases, writings or sales of exchange-traded put options on such financial futures contracts, any index approved by Moody's or Treasury Bonds, and purchases, writings or sales of exchange-traded call options on such financial futures contracts, any index approved by Moody's or Treasury Bonds, subject to the following limitations:

(i) the Corporation will not engage in any Moody's Hedging Transaction based on any index approved by Moody's (other than Closing Transactions) that would cause the Corporation at the time of such transaction to own or have sold:

(A) Outstanding financial futures contracts based on such index exceeding in number 10% of the average number of daily traded financial futures contracts based on such index in the 30 days preceding the time of effecting such transaction as reported by The Wall Street Journal; or

(B) Outstanding financial futures contracts based on any index approved by Moody's having a Market Value exceeding 50% of the Market Value of all portfolio securities of the Corporation constituting Moody's Eligible Assets owned by the Corporation;

(ii) The Corporation will not engage in any Moody's Hedging Transaction based on Treasury Bonds (other than Closing Transactions) that would cause the Corporation at the time of such transaction to own or have sold:

(A) Outstanding financial futures contracts based on Treasury Bonds with such contracts having an aggregate Market value exceeding 20% of the aggregate Market Value of Moody's Eligible Assets owned by the Corporation and rated Aa by Moody's (or, if not rated by Moody's but rated by S&P, rated AAA by S&P); or

(B) Outstanding financial futures contracts based on Treasury Bonds with such contracts having an aggregate Market Value exceeding 50% of the aggregate Market Value of all portfolio securities of the Corporation constituting Moody's Eligible Assets owned by the Corporation (other than Moody's Eligible Assets already subject to a Moody's Hedging Transaction) and rated Baa or A by Moody's (or, if not rated by Moody's but rated by S&P, rated A or AA by S&P);

(iii) The Corporation will engage in Closing Transactions to close out any outstanding financial futures contract based on any index approved by Moody's if the amount of open interest in such index as reported by The Wall Street Journal is less than an amount to be mutually determined by Moody's and the Corporation;

(iv) The Corporation will engage in a Closing Transaction to close out any outstanding financial futures contract by no later than the fifth Business Day of the month in which such contract expires and will engage in a Closing Transaction to close out any outstanding option on a financial futures contract by no later than the first Business Day of the month in

which such option expires;

(v) The Corporation will engage in Moody's Hedging Transactions only with respect to financial futures contracts or options thereon having the next settlement date or the settlement date immediately thereafter; and

(vi) The Corporation will not enter into an option or futures transaction unless, after giving effect thereto, the Corporation would continue to have Moody's Eligible Assets with an aggregate Discounted Value equal to or greater than the Preferred Share Basic Maintenance Amount.

(vii) Swaps (including Total Return Swaps, Interest Rate Swaps, Currency Swaps and Credit Default Swaps): Total return and Interest Rate Swaps are subject to the following provisions:

(A) Only the cumulative unsettled profit and loss from a Total Return Swap transaction will be calculated when determining the AMPS Basic Maintenance Amount. If the Corporation has an outstanding gain from a swap transaction on a Valuation Date, the gain will be included as a Moody's Eligible Asset subject to the Moody's Discount Factor on the counterparty to the swap transaction. If the Corporation has an outstanding liability from a swap transaction on a Valuation Date, the Corporation will subtract the outstanding liability from the total Moody's Eligible Assets in calculating the AMPS Basic Maintenance Amount.

In addition, for swaps other than Total Return Swaps, the Market Value of the position (positive or negative) will be included as a Moody's Eligible Asset. The aggregate notional value of all swaps will not exceed the Liquidation Preference of the Outstanding AMPS. At the time a swap is executed, the Corporation will only enter into swap transactions where the counterparty has at least a Fitch rating of A- or Moody's long-term rating of A3.

(B) (1) The underlying securities subject to a Credit Default Swap sold by the Corporation will be subject to the applicable Moody's Discount Factor for each security subject to the swap;

(2) If the Corporation purchases a Credit Default Swap and holds the underlying security, the Market Value of the Credit Default Swap and the underlying security will be included as a Moody's Eligible Asset subject to the Moody's Discount Factor assessed based on the counterparty risk and the duration of the swap agreement; and

(3) The Corporation will not include a Credit Default Swap as a Moody's Eligible Asset purchased by the Corporation without the Corporation holding the underlying security or when the Corporation buys a Credit Default Swap for a basket of securities without holding all the securities in the basket. If not otherwise provided for above, derivative instruments shall be treated as follows: Any derivative instruments will be valued pursuant to the Corporation's valuation procedures on a Valuation Date. The amount of the net payment obligation and the cost of a closing transaction, as appropriate, on any derivative instrument on a Valuation Date will be counted as a liability for purposes of determining the Preferred Shares Basic Maintenance Amount (e.g., a written call option that is in the money for the holder). Any derivative instrument with respect to which the Corporation is owed payment on the Valuation Date that is not based upon an individual security or securities that are Moody's Eligible Assets will have a mutually agreed upon valuation by Moody's and the Corporation for purposes of determining Moody's Eligible Assets. Any derivative instrument with respect to which the

Corporation is owed payment on the valuation date that is based upon an individual security or securities that are Moody's Eligible Assets (e.g., a purchased call option on a bond that is in the money) will be valued as follows for purposes of determining Moody's Eligible Assets: (A) For such derivative instruments that are exchange traded, the value of the in-the-money amount of the payment obligation to the Corporation will be reduced by applying the Moody's Discount Factor (as it would apply to the underlying security or securities) and then added to Moody's Eligible Assets; and (B) for such derivative instruments that are not exchange traded, the value of the in-the-money amount of the payment obligation to the Corporation will be (1) reduced as described in (A) and (B) further reduced by applying to the remaining amount the Moody's Discount Factor determined by reference to the credit rating of the derivative counterparty with the remaining amount after these reductions then added to Moody's Eligible Assets. For purposes of determining whether the Corporation has Moody's Eligible Assets with an aggregate Discounted Value that equals or exceeds the AMPS Basic Maintenance Amount Test, the Discounted Value of all Forward Commitments to which the Corporation is a party and of all securities deliverable to the Corporation pursuant to such Forward Commitments shall be zero.

SIXTH: The amendments set forth in these Articles of Amendment were duly approved by the Board of Directors in accordance with Part I, Sections 6(k) and 16 of the Articles Supplementary and the Maryland General Corporation Law. No stock entitled to be voted on the matter was outstanding or subscribed for at the time of the approval of the amendments set forth in these Articles of Amendment.

SEVENTH: The amendments contemplated by these Articles of Amendment do not increase the authorized stock of the Corporation or the aggregate par value thereof.

Articles of Amendment  
to the  
Articles Supplementary Creating and Fixing the Rights of  
Series T28 Taxable Auction Market Preferred Shares

Cohen & Steers Select Utility Fund, Inc., a Maryland corporation having its principal office in the City of Baltimore in the State of Maryland (the "Corporation"), certifies to the State Department of Assessments and Taxation of Maryland (the "Department") that:

FIRST: Section 11 of Part I of the Corporation's Articles Supplementary Creating and Fixing the Rights of Series T28 Taxable Auction Market Preferred Shares (the "Articles Supplementary") is hereby amended by deleting Section 11 in its entirety and substituting in lieu thereof the following:

11. Certain Other Restrictions. So long as any shares of the Series are Outstanding and S&P, Moody's or any Other Rating Agency that is rating such shares so requires, the Corporation will not, unless it has received written confirmation from S&P (if S&P is then rating the Series), Moody's (if Moody's is then rating the Series) and (if applicable) such Other Rating Agency, that any such action would not impair the rating then assigned by such Rating Agency to the Series, engage in any one or more of the following transactions:
- (a) issue senior securities except in conformity with the limits set forth in the 1940 Act or pursuant to exemptive relief;
  - (b) except in connection with a refinancing of the Series, issue additional shares of any series of preferred stock, including the Series, or reissue any shares of preferred stock, including the Series previously purchased or redeemed by the Corporation;
  - (c) engage in any short sales of securities;
  - (d) lend portfolio securities;
  - (e) merge or consolidate into or with any other fund;
  - (f) change the Pricing Service referred to in the definition of Market Value; or
  - (g) enter into reverse repurchase agreements.
  - (h) For so long as the Series is rated by S&P and Moody's, the Corporation will not purchase or sell futures contracts, write, purchase or sell options on futures contracts or write put options (except covered put options) or call options (except covered call options) on portfolio securities unless it receives written confirmation from S&P and Moody's that engaging in such transactions will not impair the ratings then assigned to the Series by S&P and Moody's.
  - (i) Subject to the requirement set forth in this Section 11 to obtain written confirmation from S&P (if S&P is then rating the Series) prior to engaging in any one or more of the transactions set forth in Section 11(a)-(h), that any such action would not impair the rating then assigned by S&P to the Series, the Corporation may enter into certain S&P

Hedging Transactions provided the following requirements are met:

(i) for each net long or short position in S&P Hedging Transactions, the Corporation will maintain in a segregated account with the Corporation's custodian an amount of cash or readily marketable securities having a value, when added to any amounts on deposit with the Corporation's futures commission merchants or brokers as margin or premium for such position, at least equal to the market value of the Corporation's potential obligations on such position, marked-to-market on a daily basis, in each case as and to the extent required by the applicable rules or orders of the Commission or by interpretations of the Commission's staff;

(ii) the Corporation will not engage in any S&P Hedging Transaction which would cause the Corporation at the time of such transaction to own or have sold the lesser of outstanding futures contracts based on any of the aforementioned indices exceeding in number 10% of the average number of daily traded futures contracts based on such index in the 30 days preceding the time of effecting such transaction as reported by The Wall Street Journal;

(iii) the Corporation will engage in closing transactions to close out any outstanding futures contract which the Corporation owns or has sold or any outstanding option thereon owned by the Corporation in the event (1) the Corporation does not have S&P Eligible Assets with an aggregate Discounted Value equal to or greater than the Preferred Share Basic Maintenance Amount on two consecutive Valuation Dates and (2) the Corporation is required to pay variation margin on the second such Valuation Date;

(iv) the Corporation will engage in a closing transaction to close out any outstanding futures contract or option thereon at least one week prior to the delivery date under the terms of the futures contract or option thereon unless the corporation holds the securities deliverable under such terms;

(v) when the Corporation writes a futures contract or option thereon, either the amount of margin posted by the Corporation (in the case of a futures contract) or the marked-to-market value of the Corporation's obligation (in the case of a put option written by the Corporation) shall be treated as a liability of the Corporation for purposes of calculating the Preferred Share Basic Maintenance Amount, or, in the event the Corporation writes a futures contract or option thereon which requires delivery of an underlying security and the Corporation does not wish to treat its obligations with respect thereto as a liability for purposes of calculating the Preferred Shares Basic Maintenance Amount, it shall hold such underlying security in its portfolio and shall not include such security to the extent of such contract or option as an S&P Eligible Asset;

(vi) when the Corporation engages in credit default swaps, the swaps will be transacted according to International Swap Dealers Association ("ISDA") standards. If premiums are not paid in advance, they will be counted as a liability for the Preferred Shares Basic Maintenance Amount and 40 Act Coverage Tests. The Corporation may not sell credit protection;

(vii) when the Corporation engages in interest rate and currency

swaps, the transactions meet ISDA standards; The counterparty to the swap transaction has a minimum short-term rating of "A-1/A+" or the equivalent by S&P, or, if the counterparty does not have a short-term rating, the counterparty's minimum senior unsecured long-term debt rating is "A-1/A+", or the equivalent by S&P, or higher; the original aggregate notional amount of the interest rate swap transaction or transactions is not greater than the liquidation preference of the Series; the interest rate swap transaction will be marked-to-market weekly by the swap counterparty. If the Corporation fails to maintain an aggregate Discounted Value that is at least equal to the basic maintenance amount on two consecutive valuation dates, then the swap agreement will terminate immediately; for the purpose of calculating the asset coverage test, 90% of any positive mark-to-market valuation of the Corporation's rights are eligible assets. One hundred percent of any negative mark-to-market valuation of the Corporation's rights will be included in the calculation of the basic maintenance amount; and the Corporation maintains liquid assets with a value that is at least equal to the net amount of the excess, if any, of the Corporation's obligations over its entitlement with respect to each swap. If the swap agreement is not on a net basis, the Corporation must maintain liquid and unencumbered assets with a value at least equal to the full amount of its accrued obligations under the agreement. For caps/floors, the Corporation must maintain liquid assets with a value that is at least equal to the Corporation's obligations for such caps or floors;

(viii) when the Corporation engages in short sales, the Corporation segregates liquid and unencumbered assets in an amount that, when combined with the amount of collateral deposited with the broker in connection with the short sale, equals the current market value of the security sold short. If the Corporation enters into a short sale against the box, it is required to segregate securities equivalent in kind and amount to the securities sold short, and the Corporation is required to segregate such securities while the short sale is outstanding; and the transaction will be marked-to-market daily by the counterparty;

(ix) when the Corporation engages in margin purchases, the Corporation segregates liquid and unencumbered assets in an amount that, when combined with the amount of collateral deposited with the broker in connection with the margin purchase, equals the current net obligation of the Corporation; and the transaction is marked-to-market daily by the counterparty;

(x) when the Corporation engages in reverse repurchase agreements, the counterparty is rated at least "A-1/A+" and the agreement matures in 30 days or sooner; or the counterparty is rated "A-1/A+" and the transaction matures between 30 and 183 days; and the securities are marked-to-market daily by the counterparty; and

(xi) when the Corporation engages in security lending for periods of 30 days or less, the counterparty must be rated at least A-1/A+ and the Corporation must follow all requirements of the 1940 Act.

SECOND: The definition of "S&P Discount Factor" contained in Section 17 of Part I of the Corporation's Articles Supplementary

Creating and Fixing the Rights of Series T28 Taxable Auction Market Preferred Shares is hereby amended by deleting subsection (b).

THIRD: Section 17 of Part I of the Corporation's Articles Supplementary Creating and Fixing the Rights of Series T28 Taxable Auction Market Preferred Shares is hereby amended by adding the following:

"S&P Hedging Transactions": For so long as any Series is rated by S&P, the Corporation will not purchase or sell futures contracts, write, purchase or sell options on futures contracts or write put options (except covered put options) or call options (except covered call options) on portfolio securities unless it receives written confirmation from S&P that engaging in such transactions will not impair the rating then assigned to the Series by S&P, except that the Corporation may purchase or sell futures contracts and engage in swaps, caps, floors, and collars, reverse repurchase or repurchase agreements, short sales, write, purchase or sell put and call options on such contracts (collectively, "S&P Hedging Transactions"), subject to the following limitations:

Futures and Options:

1. S&P Hedging Transactions may not exceed the notional value of the preferred shares outstanding;
2. the Corporation will engage in closing transactions to close out any outstanding futures contract which the Corporation owns or has sold or any outstanding option thereon owned by the Corporation in the event (A) the Corporation does not have S&P Eligible Assets with an aggregate Discounted Value equal to or greater than the Preferred Basic Maintenance Amount on two consecutive Valuation Dates and (B) the Corporation is required to pay variation margin on the second such Valuation Date;
3. the Corporation will engage in a closing transaction to close out any outstanding futures contract or option thereon in the month prior to the delivery month under the terms of such futures contract or option thereon unless the Corporation holds the securities deliverable under such terms; and
4. when the Corporation writes a futures contract or option thereon, it will either maintain an amount of cash, cash equivalents or liquid securities ( in a segregated account with the Corporation's custodian, so that the amount so segregated plus the amount of initial margin and variation margin held in the account of or on behalf of the Corporation's broker with respect to such futures contract or option equals the Market Value of the Corporation's futures contract or option, marked-to-market on a daily basis, or, in the event the Corporation writes a futures contract or option thereon which requires delivery of an

underlying security, it shall hold such underlying security in its portfolio.

Credit Default Swap entered into according to International Swap Dealers Association ("ISDA") standards, if premiums not paid in advance, will be counted as a liability for purpose of the Preferred Shares Basic Maintenance Amount; the Corporation is not the seller of credit protection.

#### Interest Rate Swaps:

1. The Corporation may engage in interest rate swaps if it is accordance to ISDA standards;

2. the counterparty to the swap transaction has a minimum short-term rating of "A-1/A+" or equivalent by S&P, or, if the counterparty does not have a short-term rating, the counterparty's minimum senior unsecured long-term debt rating is "A+", or equivalent by S&P, or higher;

3. The original aggregate notional amount of the interest rate swap transaction or transactions is not to be greater than the liquidation preference of the Series;

4. The interest rate swap transaction will be marked-to-market weekly by the swap counterparty. If the Corporation fails to maintain an aggregate discounted value at least equal to the basic maintenance amount on two consecutive valuation dates then the agreement shall terminate immediately;

5. For the purpose of calculating the Preferred Shares Basic Maintenance Amount, 90% of any positive mark-to-market valuation of the Corporation's rights will be eligible assets. 100% of any negative mark-to-market valuation of the Corporation's rights will be included in the calculation of the basic maintenance amount;

6. The Corporation must maintain liquid assets with a value at least equal to the net amount of the excess, if any, of the Corporation's obligations over its entitlement with respect to each swap. If the swap agreement is not on a net basis, it must maintain liquid and unencumbered assets with a value at least equal to the full amount of the Corporation's accrued obligations under the agreement. For caps/floors, must maintain liquid assets with a value at least equal to the Corporation's obligations with respect to such caps or floors.

#### Short Sales

The Corporation may engage in short sales of securities or short sales against the box if:

1. the Corporation segregates liquid and unencumbered assets in an amount that when combined with the amount of collateral deposited with the broker in connection with the short sale equals the current market value of the security sold short or if the Corporation enters into a

short sale against the box, it is required to segregate securities equivalent in kind and amount to the securities sold short and is required to hold such securities while the short sale is outstanding; and

2. The transaction will be marked to market daily by the counterparty.

Margin Purchase:

1. The Corporation segregates liquid and unencumbered assets in an amount that when combined with the amount of collateral deposited with the broker in connection with the margin purchase equals the current net obligation of the Corporation; and

2. The transaction will be marked to market daily by the counterparty.

Reverse Repurchase Agreement:

The Corporation may engage in reverse repurchase agreements if:

1. the counterparty is rated at least A-1/A+ and the agreement matures in 30 days or less, or
2. the counterparty must be rated AA-/A-1+ if the transaction matures in more than 30 days but less than 183 days, and
3. the securities are marked to market daily by the counterparty.

FOURTH: The definition of "Moody's Eligible Assets" contained in Section 17 of Part I of the Corporation's Articles Supplementary Creating and Fixing the Rights of Series T28 Taxable Auction Market Preferred Shares is hereby amended by adding the following at the end of the definition:

Where the Corporation sells an asset and agrees to repurchase such asset in the future, the Discounted Value of such asset will constitute a Moody's Eligible Asset and the amount the Corporation is required to pay upon repurchase of such asset will count as a liability for the purposes of the Preferred Shares Basic Maintenance Amount. Where the Corporation purchases an asset and agrees to sell it to a third party in the future, cash receivable by the Corporation thereby will constitute a Moody's Eligible Asset if the long-term debt of such other party is rated at least A2 by Moody's and such agreement has a term of 30 days or less; otherwise the Discounted Value of such purchased asset will constitute a Moody's Eligible Asset. For the purposes of calculation of Moody's Eligible Assets, portfolio securities which have been called for redemption by the issuer thereof shall be valued at the lower of Market Value or the call price of such portfolio securities. For purposes of valuation of Moody's Eligible Assets: (A) if the Corporation writes a call option, the underlying asset will be valued as follows: (1) if the option is exchange-traded and may be offset readily or if the option expires before the earliest possible redemption of the Series, at the lower of the Discounted Value of the underlying

security of the option and the exercise price of the option or

(2) otherwise, it has no value; (B) if the Corporation writes a put option, the underlying asset will be valued as follows: the lesser of (1) exercise price and (2) the Discounted Value of the underlying security; and (C) call or put option contracts which the Corporation buys have no value. For so long as the Series is rated by Moody's: (A) the Corporation will not enter into an option transaction with respect to portfolio securities unless, after giving effect thereto, the Corporation would continue to have Eligible Assets with an aggregate Discounted Value equal to or greater than the Preferred Shares Basic Maintenance Amount; (B) the Corporation will not enter into an option transaction with respect to portfolio securities unless after giving effect to such transaction the Corporation would continue to be in compliance with the provisions relating to the Preferred Shares Basic Maintenance Amount; (C) for purposes of the Preferred Shares Basic Maintenance Amount assets in margin accounts are not Eligible Assets; and (D) where delivery may be made to the Corporation with any of a class of securities, the Corporation will assume for purposes of the Preferred Shares Basic Maintenance Amount that it takes delivery of that security which yields it the least value.

FIFTH: Section 17 of Part I of the Corporation's Articles Supplementary Creating and Fixing the Rights of Series T28 Taxable Auction Market Preferred Shares is hereby amended by adding the following immediately after the definition of "Moody's Eligible Assets":

"Moody's Hedging Transactions" means purchases or sales of exchange-traded financial futures contracts based on any index approved by Moody's or Treasury Bonds, and purchases, writings or sales of exchange-traded put options on such financial futures contracts, any index approved by Moody's or Treasury Bonds, and purchases, writings or sales of exchange-traded call options on such financial futures contracts, any index approved by Moody's or Treasury Bonds, subject to the following limitations:

(i) the Corporation will not engage in any Moody's Hedging Transaction based on any index approved by Moody's (other than Closing Transactions) that would cause the Corporation at the time of such transaction to own or have sold:

(A) Outstanding financial futures contracts based on such index exceeding in number 10% of the average number of daily traded financial futures contracts based on such index in the 30 days preceding the time of effecting such transaction as reported by The Wall Street Journal; or  
(B) Outstanding financial futures contracts based on any index approved by Moody's having a Market Value exceeding 50% of the Market Value of all portfolio securities of the Corporation constituting Moody's Eligible Assets owned by the Corporation;

(ii) The Corporation will not engage in any Moody's Hedging Transaction based on Treasury Bonds (other than Closing Transactions) that would cause the Corporation at the time of such transaction to own or have sold:

(A) Outstanding financial futures contracts based on Treasury Bonds with such contracts having an aggregate Market value exceeding 20% of the aggregate Market Value of Moody's Eligible Assets owned by the Corporation and rated Aa by Moody's (or, if not rated by Moody's but rated by S&P, rated AAA by S&P); or

(B) Outstanding financial futures contracts based on Treasury Bonds with such contracts having an aggregate Market Value exceeding 50% of the aggregate Market Value of all portfolio securities of the Corporation constituting Moody's Eligible Assets owned by the Corporation (other than Moody's Eligible Assets already subject to a Moody's Hedging Transaction) and rated Baa or A by Moody's (or, if not rated by Moody's but rated by S&P, rated A or AA by S&P);

(iii) The Corporation will engage in Closing Transactions to close out any outstanding financial futures contract based on any index approved by Moody's if the amount of open interest in such index as reported by The Wall Street Journal is less than an amount to be mutually determined by Moody's and the Corporation;

(iv) The Corporation will engage in a Closing Transaction to close out any outstanding financial futures contract by no later than the fifth Business Day of the month in which such contract expires and will engage in a Closing Transaction to close out any outstanding option on a financial futures contract by no later than the first Business Day of the month in which such option expires;

(v) The Corporation will engage in Moody's Hedging Transactions only with respect to financial futures contracts or options thereon having the next settlement date or the settlement date immediately thereafter; and

(vi) The Corporation will not enter into an option or futures transaction unless, after giving effect thereto, the Corporation would continue to have Moody's Eligible Assets with an aggregate Discounted Value equal to or greater than the Preferred Share Basic Maintenance Amount.

(vii) Swaps (including Total Return Swaps, Interest Rate Swaps, Currency Swaps and Credit Default Swaps): Total return and Interest Rate Swaps are subject to the following provisions:

(A) Only the cumulative unsettled profit and loss from a Total Return Swap transaction will be calculated when determining the AMPS Basic Maintenance Amount. If the Corporation has an outstanding gain from a swap transaction on a Valuation Date, the gain will be included as a Moody's Eligible Asset subject to the Moody's Discount Factor on the counterparty to the swap transaction. If the Corporation has an outstanding liability from a swap transaction on a Valuation Date, the Corporation will subtract the outstanding liability from the total Moody's Eligible Assets in calculating the AMPS Basic Maintenance Amount.

In addition, for swaps other than Total Return Swaps, the Market Value of the position (positive or negative) will be included as a Moody's Eligible Asset. The aggregate notional value of all swaps will not exceed the Liquidation Preference of the Outstanding AMPS. At the time a swap is executed, the Corporation will only enter into swap transactions where the counterparty has at least a Fitch rating of A- or Moody's long-term rating of A3.

(B) (1) The underlying securities subject to a Credit Default Swap sold by the Corporation will be subject to the applicable Moody's Discount Factor for each security subject to the swap;

(2) If the Corporation purchases a Credit Default Swap and holds the underlying security, the Market Value of the Credit Default Swap and the underlying security will be included as a Moody's Eligible Asset subject to

the Moody's Discount Factor assessed based on the counterparty risk and the duration of the swap agreement; and

(3) The Corporation will not include a Credit Default Swap as a Moody's Eligible Asset purchased by the Corporation without the Corporation holding the underlying security or when the Corporation buys a Credit Default Swap for a basket of securities without holding all the securities in the basket. If not otherwise provided for above, derivative instruments shall be treated as follows: Any derivative instruments will be valued pursuant to the Corporation's

valuation procedures on a Valuation Date. The amount of the net payment obligation and the cost of a closing transaction, as appropriate, on any derivative instrument on a Valuation Date will be counted as a liability for purposes of determining the Preferred Shares Basic Maintenance Amount (e.g., a written call option that is in the money for the holder). Any derivative instrument with respect to which the Corporation is owed payment on the Valuation Date that is not based upon an individual security or securities that are Moody's Eligible Assets will have a mutually agreed upon valuation by Moody's and the Corporation for purposes of determining Moody's Eligible Assets. Any derivative instrument with respect to which the Corporation is owed payment on the valuation date that is based upon an individual security or securities that are Moody's Eligible Assets (e.g., a purchased call option on a bond that is in the money) will be valued as follows for purposes of determining Moody's Eligible Assets: (A) For such derivative instruments that are exchange traded, the value of the in-the-money amount of the payment obligation to the Corporation will be reduced by applying the Moody's Discount Factor (as it would apply to the underlying security or securities) and then added to Moody's Eligible Assets; and (B) for such derivative instruments that are not exchange traded, the value of the in-the-money amount of the payment obligation to the Corporation will be (1) reduced as described in (A) and (B) further reduced by applying to the remaining amount the Moody's Discount Factor determined by reference to the credit rating of the derivative counterparty with the remaining amount after these reductions then added to Moody's Eligible Assets.

For purposes of determining whether the Corporation has Moody's Eligible Assets with an aggregate Discounted Value that equals or exceeds the AMPS Basic Maintenance Amount Test, the Discounted Value of all Forward Commitments to which the Corporation is a party and of all securities deliverable to the Corporation pursuant to such Forward Commitments shall be zero.

SIXTH: The amendments set forth in these Articles of Amendment were duly approved by the Board of Directors in accordance with Part I, Sections 6(k) and 16 of the Articles Supplementary and the Maryland General Corporation Law. No stock entitled to be voted on the matter was outstanding or subscribed for at the time of the approval of the amendments set forth in these Articles of Amendment.

SEVENTH: The amendments contemplated by these Articles of Amendment do not increase the authorized stock of the Corporation or the aggregate par value thereof.

Articles of Amendment  
to the  
Articles Supplementary Creating and Fixing the Rights of  
Series TH7 Taxable Auction Market Preferred Shares

Cohen& Steers Select Utility Fund, Inc., a Maryland corporation having its principal office in the City of Baltimore in the State of Maryland (the "Corporation"), certifies to the State Department of Assessments and Taxation of Maryland (the "Department") that: FIRST: Section 11 of Part I of the Corporation's Articles Supplementary Creating and Fixing the Rights of Series TH7 Taxable Auction Market Preferred Shares (the "Articles Supplementary") is hereby amended by deleting Section 11 in its entirety and substituting in lieu thereof the following:

11. Certain Other Restrictions. So long as any shares of the Series are Outstanding and S&P, Moody's or any Other Rating Agency that is rating such shares so requires, the Corporation will not, unless it has received written confirmation from S&P (if S&P is then rating the Series), Moody's (if Moody's is then rating the Series) and (if applicable) such Other Rating Agency, that any such action would not impair the rating then assigned by such Rating Agency to the Series, engage in any one or more of the following transactions:

- (a) issue senior securities except in conformity with the limits set forth in the 1940 Act or pursuant to exemptive relief;
- (b) except in connection with a refinancing of the Series, issue additional shares of any series of preferred stock, including the Series, or reissue any shares of preferred stock, including the Series previously purchased or redeemed by the Corporation;
- (c) engage in any short sales of securities;
- (d) lend portfolio securities;
- (e) merge or consolidate into or with any other fund;
- (f) change the Pricing Service referred to in the definition of Market Value; or
- (g) enter into reverse repurchase agreements.
- (h) For so long as the Series is rated by S&P and Moody's, the Corporation will not purchase or sell futures contracts, write, purchase or sell options on futures contracts or write put options (except covered put options) or call options (except covered call options) on portfolio securities unless it receives written confirmation from S&P and Moody's that engaging in such transactions will not impair the ratings then assigned to the Series by S&P and Moody's.
- (i) Subject to the requirement set forth in this Section 11 to obtain written confirmation from S&P (if S&P is then rating the Series) prior to engaging in any one or more of the transactions set forth in Section 11(a)-(h), that any such action would not impair the rating then assigned

by S&P to the Series, the Corporation may enter into certain S&P Hedging Transactions provided the following requirements are met:

(i) for each net long or short position in S&P Hedging Transactions, the Corporation will maintain in a segregated account with the Corporation's custodian an amount of cash or readily marketable securities having a value, when added to any amounts on deposit with the Corporation's futures commission merchants or brokers as margin or premium for such position, at least equal to the market value of the Corporation's potential obligations on such position, marked-to-market on a daily basis, in each case as and to the extent required by the applicable rules or orders of the Commission or by interpretations of the Commission's staff;

(ii) the Corporation will not engage in any S&P Hedging Transaction which would cause the Corporation at the time of such transaction to own or have sold the lesser of outstanding futures contracts based on any of the aforementioned indices exceeding in number 10% of the average number of daily traded futures contracts based on such index in the 30 days preceding the time of effecting such transaction as reported by The Wall Street Journal;

(iii) the Corporation will engage in closing transactions to close out any outstanding futures contract which the Corporation owns or has sold or any outstanding option thereon owned by the Corporation in the event (1) the Corporation does not have S&P Eligible Assets with an aggregate Discounted Value equal to or greater than the Preferred Share Basic Maintenance Amount on two consecutive Valuation Dates and (2) the Corporation is required to pay variation margin on the second such Valuation Date;

(iv) the Corporation will engage in a closing transaction to close out any outstanding futures contract or option thereon at least one week prior to the delivery date under the terms of the futures contract or option thereon unless the corporation holds the securities deliverable under such terms;

(v) when the Corporation writes a futures contract or option thereon, either the amount of margin posted by the Corporation (in the case of a futures contract) or the marked-to-market value of the Corporation's obligation (in the case of a put option written by the Corporation) shall be treated as a liability of the Corporation for purposes of calculating the Preferred Share Basic Maintenance Amount, or, in the event the Corporation writes a futures contract or option thereon which requires delivery of an underlying security and the Corporation does not wish to treat its obligations with respect thereto as a liability for purposes of calculating the Preferred Shares Basic Maintenance Amount, it shall hold such underlying security in its portfolio and shall not include such security to the extent of such contract or option as an S&P Eligible Asset;

(vi) when the Corporation engages in credit default swaps, the swaps will be transacted according to International Swap Dealers Association ("ISDA") standards. If premiums are not paid in advance, they will be counted as a liability for the Preferred Shares Basic Maintenance Amount and 40 Act Coverage Tests. The Corporation may not sell credit protection;

(vii) when the Corporation engages in interest rate and currency swaps, the transactions meet ISDA standards; The counterparty to the swap

transaction has a minimum short-term rating of "A-1/A+" or the equivalent by S&P, or, if the counterparty does not have a short-term rating, the counterparty's minimum senior unsecured long-term debt rating is "A-1/A+", or the equivalent by S&P, or higher; the original aggregate notional amount of the interest rate swap transaction or transactions is not greater than the liquidation preference of the Series; the interest rate swap transaction will be marked-to-market weekly by the swap counterparty. If the Corporation fails to maintain an aggregate Discounted Value that is at least equal to the basic maintenance amount on two consecutive valuation dates, then the swap agreement will terminate immediately; for the purpose of calculating the asset coverage test, 90% of any positive mark-to-market valuation of the Corporation's rights are eligible assets. One hundred percent of any negative mark-to-market valuation of the Corporation's rights will be included in the calculation of the basic maintenance amount; and the Corporation maintains liquid assets with a value that is at least equal to the net amount of the excess, if any, of the Corporation's obligations over its entitlement with respect to each swap. If the swap agreement is not on a net basis, the Corporation must maintain liquid and unencumbered assets with a value at least equal to the full amount of its accrued obligations under the agreement. For caps/floors, the Corporation must maintain liquid assets with a value that is at least equal to the Corporation's obligations for such caps or floors;

(viii) when the Corporation engages in short sales, the Corporation segregates liquid and unencumbered assets in an amount that, when combined with the amount of collateral deposited with the broker in connection with the short sale, equals the current market value of the security sold short. If the Corporation enters into a short sale against the box, it is required to segregate securities equivalent in kind and amount to the securities sold short, and the Corporation is required to segregate such securities while the short sale is outstanding; and the transaction will be marked-to-market daily by the counterparty;

(ix) when the Corporation engages in margin purchases, the Corporation segregates liquid and unencumbered assets in an amount that, when combined with the amount of collateral deposited with the broker in connection with the margin purchase, equals the current net obligation of the Corporation; and the transaction is marked-to-market daily by the counterparty;

(x) when the Corporation engages in reverse repurchase agreements, the counterparty is rated at least "A-1/A+" and the agreement matures in 30 days or sooner; or the counterparty is rated "A-1/A+" and the transaction matures between 30 and 183 days; and the securities are marked-to-market daily by the counterparty; and

(xi) when the Corporation engages in security lending for periods of 30 days or less, the counterparty must be rated at least A-1/A+ and the Corporation must follow all requirements of the 1940 Act.

SECOND: The definition of "S&P Discount Factor" contained in Section 17 of Part I of the Corporation's Articles Supplementary Creating and Fixing the Rights of Series TH7 Taxable Auction Market Preferred Shares is hereby amended by deleting subsection (b).

THIRD: Section 17 of Part I of the Corporation's Articles Supplementary Creating and Fixing the Rights of Series TH7 Taxable Auction Market. Preferred Shares is hereby amended by adding the following:

"S&P Hedging Transactions": For so long as any Series is rated by S&P, . the Corporation will not purchase or sell futures contracts, write, purchase or sell options on futures contracts or write put options (except covered put options) or call options (except covered call options) on portfolio securities unless it receives written confirmation from S&P that engaging in such transactions will not impair the rating then assigned to the Series by S&P, except that the Corporation may purchase or sell futures contracts and engage in swaps, caps, floors, and collars, reverse repurchase or repurchase agreements, short sales, write, purchase or sell put and call options on such contracts (collectively, "S&P Hedging Transactions"), subject to the following limitations:

Futures and Options:

1. S&P Hedging Transactions may not exceed the notional value of the preferred shares outstanding;
2. the Corporation will engage in closing transactions to close out any outstanding futures contract which the Corporation owns or has sold or any outstanding option thereon owned by the Corporation in the event (A) the Corporation does not have S&P Eligible Assets with an aggregate Discounted Value equal to or greater than the Preferred Basic Maintenance Amount on two consecutive Valuation Dates and (B) the Corporation is required to pay variation margin on the second such Valuation Date;
3. the Corporation will engage in a closing transaction to close out any outstanding futures contract or option thereon in the month prior to the delivery month under the terms of such futures contract or option thereon unless the Corporation holds the securities deliverable under such terms; and
4. when the Corporation writes a futures contract or option thereon, it will either maintain an amount of cash, cash equivalents or liquid securities ( in a segregated account with the Corporation's custodian, so that the amount so segregated plus the amount of initial margin and variation margin held in the account of or on behalf of the Corporation's broker with respect to such futures contract or option equals the Market Value of the Corporation's futures contract or option, marked-to-market on a daily basis, or, in the event the Corporation writes a futures contract or option thereon which requires delivery of an underlying security, it shall hold such underlying security in its portfolio.

Credit Default Swap entered into according to International Swap Dealers Association ("ISDA") standards, if premiums not paid in advance, will be

counted as a liability for purpose of the Preferred Shares Basic Maintenance Amount; the Corporation is not the seller of credit protection.

#### Interest Rate Swaps:

1. The Corporation may engage in interest rate swaps if it is accordance to ISDA standards;
2. the counterparty to the swap transaction has a minimum short-term rating of "A-1/A+" or equivalent by S&P, or, if the counterparty does not have a short-term rating, the counterparty's minimum senior unsecured long-term debt rating is "A+", or equivalent by S&P, or higher;
3. The original aggregate notional amount of the interest rate swap transaction or transactions is not to be greater than the liquidation preference of the Series;
4. The interest rate swap transaction will be marked-to-market weekly by the swap counterparty. If the Corporation fails to maintain an aggregate discounted value at least equal to the basic maintenance amount on two consecutive valuation dates then the agreement shall terminate immediately;
5. For the purpose of calculating the Preferred Shares Basic Maintenance Amount, 90% of any positive mark-to-market valuation of the Corporation's rights will be eligible assets. 100% of any negative mark-to-market valuation of the Corporation's rights will be included in the calculation of the basic maintenance amount;
6. The Corporation must maintain liquid assets with a value at least equal to the net amount of the excess, if any, of the Corporation's obligations over its entitlement with respect to each swap. If the swap agreement is not on a net basis, it must maintain liquid and unencumbered assets with a value at least equal to the full amount of the Corporation's accrued obligations under the agreement. For caps/floors, must maintain liquid assets with a value at least equal to the Corporation's obligations with respect to such caps or floors.

#### Short Sales

The Corporation may engage in short sales of securities or short sales against the box if:

1. the Corporation segregates liquid and unencumbered assets in an amount that when combined with the amount of collateral deposited with the broker in connection with the short sale equals the current market value of the security sold short or if the Corporation enters into a short sale against the box, it is required to segregate securities equivalent in kind and amount to the securities sold short and is required to hold such securities while the short sale is outstanding; and

2. The transaction will be marked to market daily by the counterparty.

Margin Purchase:

1. The Corporation segregates liquid and unencumbered assets in an amount that when combined with the amount of collateral deposited with the broker in connection with the margin purchase equals the current net obligation of the Corporation; and

2. The transaction will be marked to market daily by the counterparty.

Reverse Repurchase Agreement:

The Corporation may engage in reverse repurchase agreements if:

1. the counterparty is rated at least A-1/A+ and the agreement matures in 30 days or less, or

2. the counterparty must be rated AA-/A-1+ if the transaction matures in more than 30 days but less than 183 days, and

3. the securities are marked to market daily by the counterparty.

FOURTH: The definition of "Moody's Eligible Assets" contained in Section 17 of Part I of the Corporation's Articles Supplementary Creating and Fixing the Rights of Series TH7 Taxable Auction Market Preferred Shares is hereby amended by adding the following at the end of the definition: Where the Corporation sells an asset and agrees to repurchase such asset in the future, the Discounted Value of such asset will constitute a Moody's Eligible Asset and the amount the Corporation is required to pay upon repurchase of such asset will count as a liability for the purposes of the Preferred Shares Basic Maintenance Amount. Where the Corporation purchases an asset and agrees to sell it to a third party in the future, cash receivable by the Corporation thereby will constitute a Moody's Eligible Asset if the long-term debt of such other party is rated at least A2 by Moody's and such agreement has a term of 30 days or less; otherwise the Discounted Value of such purchased asset will constitute a Moody's Eligible Asset. For the purposes of calculation of Moody's Eligible Assets, portfolio securities which have been called for redemption by the issuer thereof shall be valued at the lower of Market Value or the call price of such portfolio securities.

For purposes of valuation of Moody's Eligible Assets: (A) if the Corporation writes a call option, the underlying asset will be valued as follows: (1) if the option is exchange-traded and may be offset readily or if the option expires before the earliest possible redemption of the Series, at the lower of the Discounted Value of the underlying security of the option and the exercise price of the option or (2) otherwise, it has no value; (B) if the Corporation writes a put option, the underlying asset will be valued as follows: the lesser of (1) exercise price and (2) the Discounted Value of the underlying security; and (C) call or put option contracts which the Corporation buys have no value. For so long as the Series is rated by Moody's: (A) the Corporation will not enter into an option transaction with respect to portfolio securities unless, after giving effect thereto, the Corporation

would continue to have Eligible Assets with an aggregate Discounted Value equal to or greater than the Preferred Shares Basic Maintenance Amount; (B) the Corporation will not enter into an option transaction with respect to portfolio securities unless after giving effect to such transaction the Corporation would continue to be in compliance with the provisions relating to the Preferred Shares Basic Maintenance Amount; (C) for purposes of the Preferred Shares Basic Maintenance Amount assets in margin accounts are not Eligible Assets; and (D) where delivery may be made to the Corporation with any of a class of securities, the Corporation will assume for purposes of the Preferred Shares Basic Maintenance Amount that it takes delivery of that security which yields it the least value.

FIFTH: Section 17 of Part I of the Corporation's Articles Supplementary Creating and Fixing the Rights of Series TH7 Taxable Auction Market Preferred Shares is hereby amended by adding the following immediately after the definition of "Moody's Eligible Assets":

"Moody's Hedging Transactions" means purchases or sales of exchange-traded financial futures contracts based on any index approved by Moody's or Treasury Bonds, and purchases, writings or sales of exchange-traded put options on such financial futures contracts, any index approved by Moody's or Treasury Bonds, and purchases, writings or sales of exchange-traded call options on such financial futures contracts, any index approved by Moody's or Treasury Bonds, subject to the following limitations:

(i) the Corporation will not engage in any Moody's Hedging Transaction based on any index approved by Moody's (other than Closing Transactions) that would cause the Corporation at the time of such transaction to own or have sold:

(A) Outstanding financial futures contracts based on such index exceeding in number 10% of the average number of daily traded financial futures contracts based on such index in the 30 days preceding the time of effecting such transaction as reported by The Wall Street Journal; or

(B) Outstanding financial futures contracts based on any index approved by Moody's having a Market Value exceeding 50% of the Market Value of all portfolio securities of the Corporation constituting Moody's Eligible Assets owned by the Corporation;

(ii) The Corporation will not engage in any Moody's Hedging Transaction based on Treasury Bonds (other than Closing Transactions) that would cause the Corporation at the time of such transaction to own or have sold:

(A) Outstanding financial futures contracts based on Treasury Bonds with such contracts having an aggregate Market value exceeding 20% of the aggregate Market Value of Moody's Eligible Assets owned by the Corporation and rated Aa by Moody's (or, if not rated by Moody's but rated by S&P, rated AAA by S&P); or

(B) Outstanding financial futures contracts based on Treasury Bonds with such contracts having an aggregate Market Value exceeding 50% of the aggregate Market Value of all portfolio securities of the Corporation constituting Moody's Eligible Assets owned by the Corporation (other than Moody's Eligible Assets already subject to a Moody's Hedging Transaction) and rated Baa or A by Moody's (or, if not rated by Moody's but rated by S&P, rated A or AA by S&P);

(iii) The Corporation will engage in Closing Transactions to close out any outstanding financial futures contract based on any index approved

by Moody's if the amount of open interest in such index as reported by The Wall Street Journal is less than an amount to be mutually determined by Moody's and the Corporation;

(iv) The Corporation will engage in a Closing Transaction to close out any outstanding financial futures contract by no later than the fifth Business Day of the month in which such contract expires and will engage in a Closing Transaction to close out any outstanding option on a financial futures contract by no later than the first Business Day of the month in which such option expires;

(v) The Corporation will engage in Moody's Hedging Transactions only with respect to financial futures contracts or options thereon having the next settlement date or the settlement date immediately thereafter; and

(vi) The Corporation will not enter into an option or futures transaction unless, after giving effect thereto, the Corporation would continue to have Moody's Eligible Assets with an aggregate Discounted Value equal to or greater than the Preferred Share Basic Maintenance Amount.

(vii) Swaps (including Total Return Swaps, Interest Rate Swaps, Currency Swaps and Credit Default Swaps): Total return and Interest Rate Swaps are subject to the following provisions:

(A) Only the cumulative unsettled profit and loss from a Total Return Swap transaction will be calculated when determining the AMPS Basic Maintenance Amount. If the Corporation has an outstanding gain from a swap transaction on a Valuation Date, the gain will be included as a Moody's Eligible Asset subject to the Moody's Discount Factor on the counterparty to the swap transaction. If the Corporation has an outstanding liability from a swap transaction on a Valuation Date, the Corporation will subtract the outstanding liability from the total Moody's Eligible Assets in calculating the AMPS Basic Maintenance Amount.

In addition, for swaps other than Total Return Swaps, the Market Value of the position (positive or negative) will be included as a Moody's Eligible Asset. The aggregate notional value of all swaps will not exceed the Liquidation Preference of the Outstanding AMPS. At the time a swap is executed, the Corporation will only enter into swap transactions where the counterparty has at least a Fitch rating of A- or Moody's long-term rating of A3.

(B) (1) The underlying securities subject to a Credit Default Swap sold by the Corporation will be subject to the applicable Moody's Discount Factor for each security subject to the swap;

(2) If the Corporation purchases a Credit Default Swap and holds the underlying security, the Market Value of the Credit Default Swap and the underlying security will be included as a Moody's Eligible Asset subject to the Moody's Discount Factor assessed based on the counterparty risk and the duration of the swap agreement; and

(3) The Corporation will not include a Credit Default Swap as a Moody's Eligible Asset purchased by the Corporation without the Corporation holding the underlying security or when the Corporation buys a Credit Default Swap for a basket of securities without holding all the securities in the basket.

If not otherwise provided for above, derivative instruments shall be treated as follows: Any derivative instruments will be valued pursuant to the Corporation's valuation procedures on a Valuation Date. The

amount of the net payment obligation and the cost of a closing transaction, as appropriate, on any derivative instrument on a Valuation Date will be counted as a liability for purposes of determining the Preferred Shares Basic Maintenance Amount (e.g., a written call option that is in the money for the holder). Any derivative instrument with respect to which the Corporation is owed payment on the Valuation Date that is not based upon an individual security or securities that are Moody's Eligible Assets will have a mutually agreed upon valuation by Moody's and the Corporation for purposes of determining Moody's Eligible Assets. Any derivative instrument with respect to which the Corporation is owed payment on the valuation date that is based upon an individual security or securities that are Moody's Eligible Assets (e.g., a purchased call option on a bond that is in the money) will be valued as follows for purposes of determining Moody's Eligible Assets: (A) For such derivative instruments that are exchange traded, the value of the in-the-money amount of the payment obligation to the Corporation will be reduced by applying the Moody's Discount Factor (as it would apply to the underlying security or securities) and then added to Moody's Eligible Assets; and (B) for such derivative instruments that are not exchange traded, the value of the in-the-money amount of the payment obligation to the Corporation will be (1) reduced as described in (A) and (B) further reduced by applying to the remaining amount the Moody's Discount Factor determined by reference to the credit rating of the derivative counterparty with the remaining amount after these reductions then added to Moody's Eligible Assets.

For purposes of determining whether the Corporation has Moody's Eligible Assets with an aggregate Discounted Value that equals or exceeds the AMPS Basic Maintenance Amount Test, the Discounted Value of all Forward Commitments to which the Corporation is a party and of all securities deliverable to the Corporation pursuant to such Forward Commitments shall be zero.

SIXTH: The amendments set forth in these Articles of Amendment were duly approved by the Board of Directors in accordance with Part I, Sections 6(k) and 16 of the Articles Supplementary and the Maryland General Corporation Law. No stock entitled to be voted on the matter was outstanding or subscribed for at the time of the approval of the amendments set forth in these Articles of Amendment.

SEVENTH: The amendments contemplated by these Articles of Amendment do not increase the authorized stock of the Corporation or the aggregate par value thereof.

[Remainder of page left blank]

IN WITNESS WHEREOF, COHEN& STEERS SELECT UTILITY FUND, INC. has caused these Articles of Amendment to be signed in its name and on its behalf by its President and Chief Executive Officer and witnessed by its Secretary as of this 29th day of January, 2008.

WITNESS:
