## Item 1.01 Entry into a Material Definitive Agreement

### *Systat License Agreement*

On June 19, 2020, Inpixon (“we,” “us,” “our” and “the “Company””) entered into an Exclusive Software License and Distribution Agreement (the “License Agreement”) with Cranes Software International Ltd., a company organized under the laws of India (“Cranes”), and Systat Software, Inc., a Delaware corporation (“Systat,” and together with Cranes, the “Systat Parties”). All defined terms used herein and not otherwise defined have the meanings set forth in the License Agreement.

Subject to the terms and conditions of the License Agreement, Systat will grant the Company (a) an exclusive, worldwide license to use, modify, develop, market and distribute the Software, Software Source, User Documentation and related Systat Intellectual Property and (b) an exclusive, worldwide sub-license to use, modify, develop, market and distribute Software, Software Source, User Documentation and related Intellectual Property licensed to Systat by Cranes (collectively, the “Licenses”). The Company will acquire the Licenses in exchange for consideration consisting of: (x) \$2,200,000 payable to Systat on or before the closing date (the “Closing Date”) and (y) an assignment to Systat of the Company’s right to receive a portion of the principal balance, up to \$6,300,000, under that certain promissory note issued by Sysorex, Inc. (“Sysorex”) to the Company (the “Sysorex Note”). The Sysorex Note will be assigned to Systat in accordance with the following schedule: (i) \$3.0 million on the Closing Date; (ii) \$1.3 million on the three month anniversary of the Closing Date; (iii) \$1.0 million on the six month anniversary of the Closing Date; and (iv) \$1.0 million on the nine month anniversary of the Closing Date.

In connection with the grant of the Licenses, the Systat Parties will provide the Equipment to the Company, for the Company to use at no additional cost for a minimum period of six months following the Closing Date. In addition, the Company will have the right, but not the obligation, to assume all of the Systat Parties’ rights, interests, and obligations under the Systat Customer Contracts and the Systat Distribution Agreements. The Company will also be entitled to any Customer Maintenance revenue, new license fees, or license renewal fees, received by any of the Systat Parties after June 1, 2020 in connection with the Systat Customer Contracts and/or Systat Distribution Agreements assigned to and assumed by the Company in connection with the License Agreement. The Licenses will remain in effect for a period of 15 years following the Closing Date (the “Term”), unless terminated sooner upon mutual written consent of Systat and the Company or upon termination by either for the other party’s specified breach. Upon termination or expiration of the License Agreement, Systat will have the right, but not the obligation, to assume certain customer, reseller and subdistributor contracts that were assigned to and assumed by the Company in connection with the License Agreement.

At any time during the first 5-year period of the Term, the Company may exercise its option to purchase the Software, Software Source, User Documentation, Systat Intellectual Property, Customer Information and Equipment (the “Assets”) from the Systat Parties in exchange for an assignment of the Company’s right to receive an additional \$1,000,000 in principal under the Sysorex Note.

Among other conditions, prior to the closing, the Systat Parties will deliver to the Company (a) Customer Information, (b) Marketing Materials, (c) a copy of the current version of the Products, the Software Source, the Systat Intellectual Property (to the extent capable of being embodied in tangible form, and if not embodied in tangible form, described in sufficient detail in a written document to enable the Company to use and exploit the applicable Systat Intellectual Property), the User Documentation, all documentation related to the Systat Proprietary Technology, documentation describing in reasonable detail all current Product roadmaps, as well as applicable Product roadmaps for the immediately prior two (2) years, and all feature requests relating to the Products and (d) evidence of the termination of certain existing distribution and development rights granted by the Systat Parties to other third parties. There can be no assurance that the conditions to closing will be satisfied or waived or that other events will not intervene to delay or result in the failure to close.

The Systat Parties will also indemnify the Company, including its affiliates, related parties, officers, directors, agents and other representatives, from losses arising from or related to any third party claim or action relating to: (a) the license, distribution or use of the Products or Assets prior to the Closing Date, (b) a claim that the Products, the Software Source, or any other Systat Intellectual Property infringes any Intellectual Property rights of a third party, except where such claim of infringement is based on a modification of the Products or Software Source Modifications made by the Company, (c) any material inaccuracy in or breach of any representation and warranties of the Systat Parties or Starcom Information Technology Limited, a subdistributor of Systat (“Starcom”), contained in the Transaction Documents, (d) any breach or non-fulfillment of any covenant, agreement or obligations to be performed by the Systat Parties or Starcom pursuant to the Transaction Documents, and (e) except as described in the License Agreement, any termination, amendment or other modification to the Systat Distribution Agreements or other action that results in the termination or revocation of the rights granted to the Company. The Company, in its sole discretion, will have the right to offset any losses, on a dollar for dollar basis, against the amount owed, or to be owed, by Sysorex to Systat under the note that is partitioned from the Sysorex Note (a “Partitioned Note”) so long as such Partitioned Note remains outstanding (the “Offset Right”). To the extent the Company exercises the Offset Right, the amount of any losses made subject to the Offset Right shall first reduce, on a dollar for dollar basis, the amount owed by Sysorex to Systat under any Partitioned Note not yet conveyed to Systat (the “Retained Partitioned Note”), and will reinstate a payment obligation of Sysorex to the Company under the Sysorex Note in an amount equal to such losses, which will concurrently reduce the amount owed by Sysorex to Systat under the applicable Retained Partitioned Note by an amount equal to such losses.

The License Agreement also includes representations, warranties, and covenants made by the parties that are generally customary for agreements of this type.

Nadir Ali, the Company’s chief executive officer and a director, is a related party in connection with the transactions contemplated by the License Agreement as a result of his service as a director of Sysorex, the issuer of the Sysorex Note that will be assigned in accordance with the terms and conditions of the License Agreement. In addition, Tanveer Khader and Kareem Irfan, members of the Company’s board of directors, are also related parties in connection with the above transactions as a result of their respective employment relationships with the Systat Parties.

The foregoing description of the License Agreement does not purport to be complete and is qualified in its entirety by reference to the full text of the License Agreement, a copy of which is filed as Exhibit 10.1 to this Current Report on Form 8-K and is incorporated by reference herein.

#### *At-The-Market Offering Increase*

On June 19, 2020, the Company entered into Amendment No. 1 to Equity Distribution Agreement (“Amendment 1”) with Maxim Group LLC (“Maxim”), amending the Equity Distribution Agreement, dated as of March 3, 2020, between the Company and Maxim (the “Original Agreement” and, together with Amendment No. 1, the “Equity Distribution Agreement”), pursuant to which the aggregate gross sales amount was increased from \$50.0 million to \$150.0 million. Accordingly, pursuant to the Equity Distribution Agreement, the Company may, from time to time, sell shares of the Company’s common stock, par value \$0.001 per share (“Common Stock”), having an aggregate gross sales amount of up to \$150.0 million through Maxim, as the Company’s sales agent. As of June 19, 2020, we have sold 29,071,766 shares of our Common Stock with an aggregate offering price of approximately \$42.3 million, leaving an aggregate offering price of up to approximately \$107.7 million in Common Stock remaining under the Equity Distribution Agreement (the “Shares”).

The Shares have been registered under the Securities Act of 1933, as amended (the “Securities Act”), pursuant to the Company’s Registration Statement on Form S-3 (File No. 333-223960), which was filed with the Securities and Exchange Commission (the “SEC”) on March 27, 2018, as amended on May 15, 2018, and declared effective on June 5, 2018 (the “Registration Statement”), and a base prospectus dated as of June 5, 2018 included in the Registration Statement, the prospectus supplement relating to the offering filed with the SEC on March 3, 2020 and a supplement to the prospectus supplement filed with the SEC on June 19, 2020. Sales of the Shares through Maxim, if any, will be made by any method that is deemed an “at the market” offering as defined in Rule 415 under the Securities Act, including sales made directly on the Nasdaq Capital Market, or any other existing trading market for the Company’s Common Stock or to or through a market maker. Maxim may also sell the Shares by any other method permitted by law, including in privately negotiated transactions. Maxim will also have the right, in its sole discretion, to purchase Shares from the Company as principal for its own account at a price and subject to the other terms and conditions agreed upon at the time of sale. Maxim will use its commercially reasonable efforts, consistent with its sales and trading practices, to solicit offers to purchase the Shares under the terms and subject to the condition set forth in the Equity Distribution Agreement. We will pay Maxim commissions, in cash, for its services in acting as agent in the sale of the Shares. In accordance with the Equity Distribution Agreement, Maxim will be entitled to compensation at a fixed commission rate of 4.0% of the gross proceeds of each sale for the first \$50.0 million of Shares and 3.25% of the gross proceeds of each sale for the

remaining \$100.0 million of Shares. In addition, the Company has agreed to reimburse Maxim for its costs and out-of-pocket expenses incurred in connection with its services, including the fees and out-of-pocket expenses of its legal counsel.

We are not obligated to make any sales of the Shares under the Equity Distribution Agreement and no assurance can be given that we will sell any additional Shares under the Equity Distribution Agreement, or if we do, as to the price or amount of Shares that we will sell, or the dates on which any such sales will take place. The Equity Distribution Agreement will continue until the earliest of (i) December 3, 2021, (ii) the sale of Shares having an aggregate offering price of \$150.0 million, and (iii) the termination by either Maxim or the Company upon the provision of 15 days written notice or otherwise pursuant to the terms of the Equity Distribution Agreement.

The foregoing description of the Equity Distribution Agreement does not purport to be complete and is qualified in its entirety by reference to the full text of the Original Agreement, which was filed as Exhibit 1.1 to the Annual Report on Form 10-K filed on March 3, 2020, and Amendment 1, which is filed as Exhibit 1.1 to this Current Report on Form 8-K, and are incorporated by reference herein.

This Current Report on Form 8-K shall not constitute an offer to sell or a solicitation of an offer to buy any securities, nor shall there be any sale of these securities in any state or jurisdiction in which such an offer, solicitation or sale would be unlawful prior to registration or qualification under the securities laws of any such state or other jurisdiction.

### **Item 3.02 Unregistered Sales of Equity Securities.**

The information contained below in Item 8.01 with respect to the shares of Common Stock issued or issuable to the noteholder is hereby incorporated by reference into this Item 3.02. The offer and sale of such shares was not registered under the Securities Act in reliance on an exemption from registration under Section 3(a)(9) of the Securities Act, in that (a) the shares of Common Stock were issued in exchange for the partitioned notes which were each another outstanding security of the Company; (b) there was no additional consideration of value delivered in connection with the exchanges; and (c) there were no commissions or other remuneration paid by the Company in connection with the exchanges.

### **Item 8.01 Other Information**

Pursuant to such exchange agreements, the Company and the noteholder agreed to (i) partition new promissory notes in the form of the Original Note in the aggregate original principal amount equal to \$1,215,176 and then cause the outstanding balance of the Original Note to be reduced by the same amount; and (ii) exchange the partitioned notes for the delivery of the Exchange Shares. The Original Note has been satisfied in full.

#### *Risks Related to the Systat License Agreement*

There are a number of significant risks related to the License Agreement, including the risk factors enumerated below.

***We may not be able to close the transactions described in the License Agreement and if we do close the transactions, we may not be able to successfully integrate the licenses granted, or retain the existing customer base, which may result in our inability to fully realize the intended benefits of the transactions. In addition the integration of the sale of these software products into our business operation may disrupt our current operations, which could have a material adverse effect on our business, financial position and/or results of operations.***

On June 19, 2020, we entered into the License Agreement to use, modify, develop, market and distribute certain software owned or licensed by the Systat Parties. The closing of the transactions contemplated by the License Agreement are subject to certain conditions to closing and there are no assurances that the transaction will be consummated. Incorporating the marketing and distribution of this software on a worldwide basis into our operations may result in operational, technological and personnel-related challenges, which are time-consuming and expensive and may disrupt our ongoing business operations. Furthermore, integration involves a number of risks, including, but not limited to:

- difficulties or complications in combining the acquired technologies, equipment and personnel into our operations;
- differences in controls, procedures and policies, regulatory standards and business cultures between the acquired personnel and our current personnel;
- the diversion of management’s attention from our ongoing core business operations;
- the potential loss of key personnel;
- the potential loss of key customers or suppliers who choose not to do business with us;
- difficulties or delays in consolidating the acquired technologies; and/or
- unanticipated costs and other assumed contingent liabilities.

These factors could cause us to not fully realize the anticipated financial and/or strategic benefits of the transactions, which could have a material adverse effect on our business, financial condition and/or results of operations.

***Several of our directors may be deemed to be interested parties in the transactions by virtue of their relationships with Sysorex), Cranes, or Systat. These interrelationships may create, or appear to create, conflicts of interest.***

Nadir Ali, our chief executive officer and director, is also a director of Sysorex, the issuer of the Sysorex Note that was assigned as consideration for the transactions. Mr. Ali’s dual roles may create conflicts of interest between Mr. Ali’s obligations to our company and its shareholders and his obligations to Sysorex and its shareholders. For example, Mr. Ali may be in a position to influence whether Sysorex complies with its obligations under the note purchase agreement pursuant to which the promissory note was issued, and whether we lend additional amounts to Sysorex, waive defaults or accelerate such indebtedness or take other steps as a secured creditor in a manner that may be viewed as contrary to the best interests of either our company or Sysorex and their respective stockholders. Any such decision would also affect Cranes as the holder of a substantial portion of the indebtedness under the note purchase agreement.

Tanveer Khader and Kareem Irfan, are member of our board of directors and also have employment relationships with the Systat Parties.

***There is substantial risk that Cranes may be forced into involuntary bankruptcy or receivership because it is defending several petitions from creditors seeking to wind-up its business, it is subject to considerable potential fines from Indian regulators, and owes significant amounts in taxes to Indian tax authorities.***

Should Cranes be forced into bankruptcy or receivership, Cranes would likely reduce or discontinue its operations, and its assets and those of its subsidiaries could be sold to the benefit of creditors or to satisfy statutory amounts due to Indian authorities and regulators. Creditors of Cranes and Indian authorities may also seek to, in some circumstances, terminate, unwind or void, licensing agreements between Cranes and other entities, including its subsidiaries,. Should Cranes be forced into bankruptcy or receivership, our rights and remedies under our license agreement may be impaired or inadequate, including our ability to purchase the software licensed thereunder. The bankruptcy of Cranes would only affect us to the extent that it affects the License Agreement, and the indemnification obligations thereunder, or the Licenses. For example, creditors of Cranes or Indian authorities could seek to withdraw authorization or otherwise void the License Agreement, in whole or in part, between us and Cranes, thereby depriving us of the intellectual property licenses thereunder. If we are unable to remedy the situation under the applicable circumstances, such an event would cause substantial harm to our business and any of our operations to the extent that they rely on or are structured around such licensed intellectual property.

***We may not realize the full benefit of our licenses received in connection with the transactions if the licensed material has less market appeal than expected.***

In addition to designing and developing our own products and services, we evaluate various strategic transactions and acquisitions of companies with technologies and intellectual property that complement our products and services by adding technology, differentiation, customers and/or revenue. We believe these complementary technologies will add value to the Company and allow us to provide a comprehensive indoor intelligence platform, offering a one-stop shop to our customers. We anticipate that the licenses that we will receive upon the closing of the transactions will result in an increase in our revenues; however, there can be no assurance that we will be able to retain the existing customer base or expand the technologies and products licensed from Systat with existing customers and finding new customers to sell our products and services to. This may require increasingly sophisticated and costly sales efforts and may not result in additional sales. In addition, the rate at which our customers purchase additional products and services, and our ability to attract new customers, depends on a number of factors, including the perceived need for indoor mapping products and services, as well as general economic conditions. If our efforts to sell additional products and services are not successful, our business may suffer.

***If we fail to comply with our obligations in our intellectual property licenses following the closing of the transactions, we could lose license rights that may be important to our business and results of operations.***

The License Agreement imposes certain obligations on us. If we fail to comply with the terms and obligations of the License Agreement, including the obligation to assign a portion of our right to repayment from the Sysorex note in accordance with the schedule set forth in the License Agreement, our rights may be reduced or terminated, in which event we may not be able to develop and market any product that is covered by this intellectual property license. Termination of this license for failure to comply with such obligations or for other reasons, or reduction or elimination of our licensed rights under it, may result in our having to negotiate new or reinstated licenses on less favorable terms or cause us to enter into a new license for a similar intellectual property. The occurrence of such events could materially harm our business and financial condition.

***If we do not adequately protect our intellectual property rights received in connection with the transactions, we may experience a loss of revenue and our operations and growth prospects may be materially harmed.***

The Systat Parties have represented to us that the licensed intellectual property is legally and beneficially owned or licensed by the Systat Parties. Although we are not aware of any infringement claims, it is possible that such claims are made during the Term. While the Systat Parties have agreed to indemnify us in connection with any losses or claims relating to any infringement of the licensed intellectual property, any loss of the intellectual property rights could result in a loss of revenue and our operations and growth prospects may be materially harmed.

#### *Additional Risks Related to Our Operations*

***Domestic and foreign government regulation and enforcement of data practices and data tracking technologies is expansive, broadly defined and rapidly evolving. Such regulation could directly restrict portions of our business or indirectly affect our business by constraining our customers' use of our technology and services or limiting the growth of our markets.***

Federal, state, municipal and/or foreign governments and agencies have adopted and could in the future adopt, modify, apply or enforce laws, policies, and regulations covering user privacy, data security, technologies that are used to collect, store and/or process data, and/or the collection, use, processing, transfer, storage and/or disclosure of data associated with individuals. The categories of data regulated under these laws vary widely, are often broadly defined, and subject to new applications or interpretation by regulators. The uncertainty and inconsistency among these laws, coupled with a lack of guidance as to how these laws will be applied to current and emerging indoor positioning analytics technologies, creates a risk that regulators, lawmakers or other third parties, such as potential plaintiffs, may assert claims, pursue investigations or audits, or engage in civil or criminal enforcement. These actions could limit the market for our services and technologies or impose burdensome requirements on our services and/or customers' use of our services, thereby rendering our business unprofitable.

Some features of our services may trigger the data protection requirements of certain foreign jurisdictions, such as the EU General Data Protection Regulation (the “GDPR”), and the EU ePrivacy Directive. In addition, our services may be subject to regulation under current or future laws or regulations. For instance, the EU ePrivacy Directive is soon to be replaced in its entirety by the ePrivacy Regulation, which will bring with it an updated set of rules relevant to many aspects of our business. If our treatment of data, privacy practices or data security measures fail to comply with these current or future laws and regulations in any of the jurisdictions in which we collect and/or process information, we may be subject to litigation, regulatory investigations, civil or criminal enforcement, financial penalties, audits or other liabilities in such jurisdictions, or our customers may terminate their relationships with us. In addition, data protection laws, such as the GDPR, foreign court judgments or regulatory actions could affect our ability to transfer, process and/or receive transnational data that is critical to our operations, including data relating to users, customers, or partners outside the United States. For instance, the GDPR restricts transfers of personal data outside of the European Economic Area, including to the United States, subject to certain requirements. Such data protection laws, judgments or actions could affect the manner in which we provide our services or adversely affect our financial results if foreign customers and partners are not able to lawfully transfer data to us.

In addition we recently announced the offering of our Workplace Readiness<sup>(TM)</sup> solutions which allow businesses to utilize Inpixon solutions to create visibility around social distancing protocols, support digital contact tracing efforts, and identify areas within facilities in which to focus increased cleaning efforts. Regulations around the use of technology for contact tracing purposes are emerging and rapidly . These areas of the law are currently under intense government scrutiny and many governments, including the U.S. government, are considering a variety of proposed regulations that would restrict or impact the conditions under which data obtained from individuals could be collected, processed, stored, transferred, sold or shared with third parties, including but not limited to technologies specifically directed at technologies that are used for contact tracing purposes. In addition, regulators such as the Federal Trade Commission and the California Attorney General are continually proposing new regulations and interpreting and applying existing regulations in new ways. For example, in June 2018, California passed the California Consumer Privacy Act (the “CCPA”), which provides new data privacy rights for consumers and new informational, disclosure and operational requirements for companies, effective January 2020. Fines for non-compliance may be up to \$7,500 per violation. The burdens imposed by the GDPR and CCPA, and changes to existing laws or new laws regulating the solicitation, collection, processing, or sharing of personal and consumer information, and consumer protection could affect our customers’ utilization of our services and technology and could potentially reduce demand, or impose restrictions that make it more difficult or expensive for us to provide our services.

In addition, ongoing legal challenges in Europe to the mechanisms allowing companies to transfer personal data from the European Economic Area to the United States could result in further limitations on the ability to transfer data across borders, particularly if governments are unable or unwilling to reach new or maintain existing agreements that support cross-border data transfers, such as the EU-U.S. and Swiss-U.S. Privacy Shield frameworks and the European Commission’s Model Contractual Clauses, each of which are currently under particular scrutiny. Additionally, certain countries have passed or are considering passing laws requiring local data residency. The costs of compliance with, and other burdens imposed by, privacy laws, regulations and standards may limit the use and adoption of our services, reduce overall demand for our services, make it more difficult to meet expectations from or commitments to customers, lead to significant fines, penalties or liabilities for noncompliance, impact our reputation, or slow the pace at which we close sales transactions, any of which could harm our business.

Furthermore, the uncertain and shifting regulatory environment and trust climate may cause concerns regarding data privacy and may cause our customers or our customers’ customers to resist providing the data necessary to allow our customers to use our services effectively. Even the perception that the privacy of personal information is not satisfactorily protected or does not meet regulatory requirements could inhibit sales of our products or services and could limit adoption of our cloud-based solutions.

All Customer Maintenance with respect to those Systat Customer Contracts assumed by Inpixon in accordance with Section 2.12 of this Agreement shall be provided by Inpixon; provided, that, if Inpixon is unable to provide such Customer Maintenance due to restrictions or requirements of applicable laws and regulations in the Territory, or for other reasons as determined by Inpixon in its sole discretion, Systat shall continue to provide such Customer Maintenance for the remaining term of the applicable Systat Customer Contract, and in such event, notwithstanding the exclusive nature of the licenses granted hereunder, Systat shall have the right to use the Products, User Documentation, Software Source and Systat Intellectual Property solely for purposes of providing such Customer Maintenance as required pursuant to the applicable Systat Customer Contract. The Systat Parties shall be required to provide such Customer Maintenance unless the Systat Parties are unable to provide such Customer Maintenance solely due to restrictions or requirement of applicable laws or regulations in the Territory, or because the technology personnel required to perform such Customer Maintenance are no longer employed or engaged by the Systat Parties. If neither Inpixon nor the Systat Parties are able to provide Customer Maintenance in connection with an applicable Systat Customer Contract, the Systat Parties shall be responsible for refunding to the applicable Systat Customer all amounts paid by the applicable Systat Customer with respect to Customer Maintenance, or such other amounts as may be required to compensate the Systat Customer in accordance with the applicable Systat Customer Contract.

**Trademark License.** Systat hereby grants to Inpixon an exclusive, non-transferable, sublicenseable, royalty free, license in the Territory for the License Term, to use and sublicense the Systat Trademarks for all purposes related to Inpixon's exercise of its rights and performance of its obligations pursuant to this Agreement, including to market, advertise and distribute the Products and any Software Modifications relating thereto. If Inpixon applies the Systat Trademarks to the Products, User Documentation or other materials which were not created entirely by any of the Systat Parties, such Software User Documentation or other materials shall conform to reasonable quality standards, if any, that are provided to Inpixon by the Systat Parties during the License Term. Such quality standards shall be no more stringent than the quality standards applicable to Systat's use of the Systat Trademarks in connection with the Products in the Territory prior to the Effective Date. If Inpixon's use of the Systat Trademarks does not meet such quality standards, Systat may require that Inpixon remove the Systat Trademarks from the applicable Products, User Documentation or other materials, provided, that the foregoing shall not be deemed to limit Inpixon's rights set forth in Sections 2.2 and 2.3, and Inpixon shall have the right to use Inpixon's own Trademarks in connection with the applicable Products and User Documentation. All goodwill associated with Inpixon's use of the Systat Trademarks shall inure to the benefit of Systat. Notwithstanding the foregoing, Inpixon shall not be obligated to use the Systat Trademarks in connection with the Products, User Documentation and/or Software Modifications, and Inpixon shall have the right to use its own branding in connection therewith in its sole discretion.

**Third Party Technology.** The rights set forth in Section 2.3 above do not apply to the Third Party Technology. Schedule 2.7(A) sets forth a complete and accurate list of all applicable Third Party Technology which the Systat Parties shall have responsibility for licensing and maintaining throughout the Term (the “**Systat Third Party Technology**”), and the Systat Parties represent, warrant that they have, and covenant that they will maintain throughout the License Term, all necessary rights and licenses in and to the Systat Third Party Technology as necessary to grant Inpixon the rights and licenses granted pursuant to this Section 2.7 without restriction; provided, that, following the Closing Date, all costs and expenses relating to maintaining all applicable rights in the Systat Third Party Technology, to the extent set forth on Schedule 2.7(A), shall be the sole and exclusive responsibility and obligation of Inpixon. With respect to the Systat Third Party Technology, Systat hereby grants to Inpixon a non-exclusive, royalty-free, fully paid-up, transferable license in the Territory to market, use, sublicense, sell, demonstrate, evaluate and duplicate the Object Code version of such Systat Third Party Technology as an integral part of, or otherwise as necessary for Inpixon to exercise the rights granted to it hereunder with respect to, the Products during the License Term. Systat shall remain the contracting party with the owners or providers of the existing Systat Third Party Technology specified in Schedule 2.7(A); provided that Inpixon shall be responsible for paying any royalties, fees, or other compensation due to the third-party owners or providers of the Systat Third Party Technology after the Closing Date to the extent set forth on Schedule 2.7(A). If requested by Inpixon, Systat shall use all commercially reasonable efforts to assist Inpixon in renegotiating new licensing terms with the owners or providers of the Systat Third Party Technology. Schedule 2.7(B) sets forth a complete and accurate list of all applicable Third Party Technology which Inpixon shall have responsibility for licensing and maintaining throughout the Term (the “**Inpixon Third Party Technology**”), and all costs and expenses relating to maintaining all applicable rights in the Inpixon Third Party Technology shall be the sole and exclusive responsibility and obligation of Inpixon; provided, that the Systat Parties shall continue to license and maintain the Inpixon Third Party Technology until such time that Inpixon notifies the Systat Parties that the Systat Parties may discontinue such licensing and maintenance of the Inpixon Third Party Technology. The Systat Parties shall provide such support and assistance as may be requested by Inpixon to facilitate the transition of the licensing and maintenance of the Inpixon Third Party Technology to Inpixon. Nothing in this paragraph shall preclude Inpixon from adding additional third party Intellectual Property to the Software so long as Inpixon contracts and pays for such third party Intellectual Property.

**2.8. Management and Control of Systat Websites and Systat Customer Service Numbers.**

Promptly following the Closing Date, Systat Parties shall transfer control and management of the Systat Websites to Inpixon, and, throughout the License Term, Inpixon or its authorized representatives shall solely control and manage the Systat Websites, including hosting the Systat Websites and taking responsibility for all back end and front end administrative control and management of the Systat Websites, at Inpixon’s own expense; provided, that Systat Parties shall continue to host, or cause to be hosted, the Systat Websites until such time that the Systat Parties have transferred full control of the Systat Websites to Inpixon in accordance with this Section 2.8, and Systat shall provide such other support to Inpixon with respect to the Systat Websites as may be requested by Inpixon throughout the License Term. Promptly following the Effective Date, the Systat Parties shall add, or cause to be added, Inpixon, or its designated representatives, as the sole administrator(s) of each Domain Name associated with the Systat Websites as of the Closing Date. Systat acknowledges and agrees that as of the Closing Date and through the License Term, Inpixon shall be responsible for maintaining the registration of the applicable Domain Names in full force and effect with the current registrar of the applicable Domain Names, at Inpixon’s own expense.

In addition to the Systat Websites, promptly following the Closing Date, Systat shall transfer control and management of the Systat Customer Service Numbers to Inpixon and, throughout the License Term, Inpixon or its authorized representatives shall solely maintain and operate the Systat Customer Service Numbers at Inpixon's own expense; provided that Systat shall provide such support to Inpixon with respect to the Systat Customer Service Numbers as may be requested by Inpixon throughout the License Term.

Following the Effective Date, Systat shall reasonably cooperate with Inpixon in technical and other preparations as necessary for the commencement of transferring control and management of the Systat Websites and Systat Customer Service Numbers to Inpixon, and, shall take such actions and furnish and execute such additional documents and information as Inpixon may require to effectuate and establish Inpixon's control and management of the Systat Websites and Systat Customer Service Numbers no later than the Closing Date. In connection with the transfer and transition of the Systat Websites and Systat Customer Services Numbers to Inpixon, Systat shall ensure that access to the Systat Websites and Systat Customer Service Numbers shall be uninterrupted, and Systat shall take such measures as necessary to ensure that such transfer and transition does not negatively impact any services provided to Systat Customers and Systat Subdistributors. Following the Closing Date, Systat shall not take any action with respect to the Systat Websites or Systat Customer Service Numbers, except as permitted hereunder or otherwise pursuant to the written request of, or authorization from, Inpixon.

**Use of Equipment.** On or prior to the Closing Date, and for a period of six (6) months thereafter or such later term as the Parties may agree, the Systat Parties shall provide the Equipment to Inpixon at no additional charge to Inpixon, and Inpixon shall be entitled to use the Equipment as it determines necessary to exercise the rights granted to it hereunder. Inpixon shall at all times when the Equipment is in its custody, be responsible for the safe custody thereof and shall also be responsible for keeping and maintaining all such Equipment in a good condition, subject to ordinary wear and tear. Except as otherwise agreed to by the Parties in writing, all Equipment shall remain the property of the Systat Parties or its applicable third party providers.

**Exclusivity Obligations; No Use by Systat Parties.** Each of the Systat Parties acknowledges, agrees and covenants that the licenses granted pursuant to Sections 2.2 and 2.3 are exclusive even as to the Systat Parties, and during the License Term, except as permitted in Section 2.5(d) herein, none of the Systat Parties, including any direct or indirect subsidiaries, affiliates or related parties, will, directly or indirectly, on its own behalf or with respect to any third party, use, modify, enhance, distribute, market, sell, license, assign, transfer, commercialize or exploit in any manner the Products, Systat Intellectual Property or Software Source in the Territory. A violation of the restrictions set forth in this Section 2.10 shall constitute a material breach of this Agreement by the Systat Parties.

**Customer Revenue.** The Systat Parties agree that Inpixon is entitled to, and the Systat Parties will deliver to Inpixon within ten days following the Systat Parties' receipt of, any Customer Maintenance revenue, new license fees, or license renewal fees, received by any of the Systat Parties that are paid after the Effective Date in connection with the Systat Customer Contracts and/or Systat Distribution Agreements assigned to and assumed by Inpixon pursuant to this Agreement (collectively, "**Inpixon Revenue**"). Inpixon Revenue shall include, without limitation, any revenue or license fees in respect of any customer purchase order or statement of work received by any of the Systat Parties following the Effective Date under the Systat Customer Contracts and/or Systat Distribution Agreements assigned to and assumed by Inpixon pursuant to this Agreement, but shall exclude revenue received or license fees with respect to any customer purchase order or statement of work received by any of the Systat Parties prior to the Effective Date. On or prior to the Closing Date, the Systat Parties will deliver a list that identifies the customer, purchase order or statement of work date, and amount payable in connection with any purchase orders or statement of works received by the Systat Parties following the Effective Date which shall set forth the amount of Inpixon Revenue since the Effective Date. If

- 2.11. Inpixon becomes aware of any Inpixon Revenue received by Systat and not delivered by Systat to Inpixon as required hereby, then in addition to being entitled to the fees described below in this Section 2.11, Inpixon may also, in its discretion, exercise the Offset Right and apply the Offset Procedure (each as defined in Section 7.2) hereof as to the amount of any such Inpixon Revenue not delivered by Systat as required herein. Within ten (10) business days of a request from Inpixon, Systat shall furnish to Inpixon all bank and accounting statements as may be reasonably requested by Inpixon to evidence and verify Inpixon Revenue received by Systat and payable to Inpixon pursuant to this Section 2.11. In addition, upon ten (10) business days' notice to Systat, Inpixon shall have the right to audit Systat's books and records to verify the Inpixon Revenue and confirm Systat's compliance with this Section 2.11. Such audits shall occur during regular business hours at the sole cost of Inpixon and shall be conducted in a manner designed to limit disruption and avoid undue disruption to Systat's business. Systat shall render reasonable cooperation to Inpixon as requested by Inpixon. In the event an audit reveals that Systat failed to pay any Inpixon Revenue payable to Inpixon hereunder, Systat shall immediately pay such Inpixon Revenue to Inpixon, and if such underpayment was greater than five percent (5%) of the Inpixon Revenue owed to Inpixon as of the date of the audit, Systat shall reimburse Inpixon for its costs of conducting the audit.

**Customer Contracts.** Inpixon shall have the right, but not the obligation, to assume all of the Systat Parties' rights, interests, and obligations under the Systat Customer Contracts (the "**Customer Contract Assumption Right**"). If Inpixon does not exercise the Customer Contract Assumption Right, the applicable Systat Customer Contracts shall be terminated by the Systat Parties immediately, or as soon as contractually permitted, which termination shall be effective as of the Closing Date, and the Systat Parties shall take such actions and furnish and execute such additional documents and information as Inpixon may require to effectuate the termination of all such Systat Customer Contracts. Notwithstanding Inpixon's exercise of the Customer Contract Assumption Right, Inpixon shall not assume and shall not be responsible to pay, perform or discharge any debts, liabilities or

- 2.12. obligations of any kind, including refunds, that arose in connection with each applicable Systat Customer Contract prior to the Closing Date or arise following the Closing Date with respect to actions or matters that occurred prior to the Closing Date and the Systat Parties shall be responsible for all such obligations. Except as otherwise limited or prohibited by the terms of an applicable Systat Customer Contract or applicable law, with respect to each Systat Customer Contract that Inpixon elects to assume pursuant to the Customer Contract Assumption Right, each such Systat Customer Contract shall be deemed to be assigned to Inpixon by Systat, and assumed by Inpixon, and Systat hereby assigns each such Systat Customer Contract and all of its rights and obligations thereunder, and Inpixon hereby assumes each such Systat Customer Contract and all of Systat's rights and obligations thereunder, as of the Closing Date, without any further action required on the part of Systat or Inpixon.

**Reseller, Development and Distribution Agreements.** Inpixon shall have the right, but not the obligation, to assume all of the Systat Parties' rights, interests, and obligations under the Systat Distribution Agreements (the "**Distribution Contract Assumption Right**"). If Inpixon does not exercise the Distribution Contract Assumption Right, all applicable Systat Distribution Agreements for the Products, Software Source, User Documentation and Systat Intellectual Property then in effect shall be terminated by the Systat Parties immediately, or as soon as contractually permitted, which termination shall be effective as of the Closing Date, and the Systat Parties shall take such actions and furnish and execute such additional documents and information as Inpixon may require to effectuate the termination of all such Systat Distribution Agreements. Notwithstanding Inpixon's exercise of the Distribution Contract Assumption Right, Inpixon shall not assume and shall not be responsible to pay, perform or discharge any debts, liabilities or obligations of any kind that arose in connection with each applicable Systat Distribution Agreement prior to the Closing Date or arise following the Closing Date with respect to actions or matters that occurred prior to the Closing Date

2.13. and the Systat Parties shall be responsible for all such obligations. Except as otherwise limited or prohibited by the terms of an applicable Systat Distribution Agreement or applicable law, with respect to each Systat Distribution Agreement that Inpixon elects to assume pursuant to the Distribution Contract Assumption Right, each such Systat Distribution Agreement shall be deemed to be assigned to Inpixon by Systat, and assumed by Inpixon, and Systat hereby assigns each such Systat Distribution Agreement and all of its rights and obligations thereunder, and Inpixon hereby assumes each such Systat Distribution Agreement and all of Systat's rights and obligations thereunder, as of the Closing Date, without any further action required on the part of Systat or Inpixon. Notwithstanding the foregoing, the Systat SigmaPlot Agreements shall continue to remain in full force and effect at all times during the License Term, subject however to the condition that such provision(s) are not in variance with the provisions of this Agreement; and in case, if there exist any such conflicting provision(s), such provision(s) shall be deemed to have been amended and modified, so as to align to them with the understanding provided under this Agreement without any requirement of executing any amendment agreement to the Systat SigmaPlot Agreements.

**Delayed Assignment and Assumption of Agreements.** If and to the extent that the valid and complete transfer or assignment to, or assumption by, Inpixon of any the of Systat Customer Contracts or Systat Distributor Agreements requires any notifications, approvals or other acts or documentation that have not been obtained or completed by the Closing Date then, unless the Parties mutually agree otherwise, the transfer or assignment to Inpixon of the applicable Systat Customer Contracts and/or Systat Distributor Agreements, as the case may be, shall be automatically deemed deferred and any such purported transfer, assignment or assumption shall be null and void until such time as all applicable notifications, approvals or other acts or documentation have been obtained or completed; provided, however, that Inpixon shall be entitled to a delayed assignment fee equal to 5% of the value of the anticipated revenue to be derived from the applicable Systat Customer Contract or Systat Distributor Agreement per each

2.14. month for which such assignment is not effective due to the failure to obtain any required notification, approval or other acts or documentation, to the extent that the same is attributable to any of the Systat Parties and not due to Inpixon. If any transfer or assignment of any Systat Customer Contracts and/or Systat Distributor Agreements intended to be transferred, assigned or assumed hereunder, as the case may be, is not consummated on or prior to the Closing Date then, insofar as reasonably possible and subject to applicable law, the Systat Parties shall be responsible for performing all applicable obligations under the applicable Systat Customer Contracts and/or Systat Distributor Agreements on behalf of, and for the benefit of, Inpixon. The Systat Parties shall perform all such obligations in the ordinary course of business in accordance with past practice, and shall take such other actions as may be reasonably requested by Inpixon, in order to place Inpixon in a substantially similar position as if such Systat Customer Contracts and/or Systat Distributor Agreements had been transferred, assigned or assumed as of the Closing Date.

**Maintenance and Enforcement of Systat Intellectual Property.** The Systat Parties, at their sole cost and expense, shall file, prosecute, and maintain all IP Registrations at all times throughout the License Term and shall provide to Inpixon on a quarterly basis, or otherwise upon Inpixon's request, all documentation and updates, if any, regarding the status of the IP Registrations, and any action taken by the Systat Parties' in connection therewith, during the immediately prior quarter. However, in the event that the Systat Parties elect not to, or fail to, file, prosecute or maintain any of the IP Registrations, Inpixon may elect to continue prosecution or maintenance of the applicable IP Registration, at the Systat Parties' sole cost and expense, and any amounts expended by Inpixon in connection therewith shall be reimbursed to Inpixon by the Systat Parties. The Systat Parties shall provide such assistance to Inpixon as may be requested by Inpixon in order for Inpixon to take responsibility for prosecuting and maintaining the applicable IP Registrations. However, in the event the Systat Parties are unable or unwilling to provide such assistance, each of the Systat Parties hereby irrevocably designates and appoints Inpixon and its duly authorized officers and agents as such Systat Party's agent and attorney-in-fact, to act for and on such Systat Party's behalf solely to execute and file any such application or other document and do all other lawfully permitted acts to further the prosecution and maintenance of the IP Registrations with the same legal force and effect as if the applicable Systat Party had executed them. The Systat Parties agree that this power of attorney is coupled with an interest. The Parties further agree that such Power of Attorney shall automatically terminate upon the expiry or termination of this Agreement. In the event of infringement of any rights in the Systat Intellectual Property, the Parties shall confer to determine the best way to abate the infringement; provided, that if requested by Inpixon, the Systat Parties shall undertake enforcement of the Systat Intellectual Property, at the Systat Parties' sole cost and expense. If requested by the Systat Parties, Inpixon agrees to join any litigation initiated by the Systat Parties relating to infringement of the Systat Intellectual Property, at the Systat Parties' sole cost and expense, and agrees to submit to the personal jurisdiction of the relevant courts.

**Retention of Rights.** Except for the rights and licenses granted to Inpixon under this Section 2, and subject to Article 4, the Systat Parties retain all right, title, and interest in and to the Products, Software Source, and User Documentation, and Inpixon will have no other right, title or interest therein, whether express or implied.

#### ARTICLE 4 PURCHASE OPTION

4.1 **Purchase Option.** The Systat Parties hereby grant to Inpixon an option to purchase all of the Systat Parties' right, title and interest in and to the Assets (the "**Purchase Option**") for consideration consisting of an assignment of an additional portion of the Note in an aggregate principal amount of One Million Dollars (USD \$1,000,000) (the "**Option Purchase Price**"), including the underlying rights and obligations of Inpixon under the Note, subject to the provisions of Section 4.3(b) of this Agreement.

4.2 **Option Term.** Unless otherwise terminated pursuant to Section 5 hereof, Inpixon's right to exercise the Purchase Option shall commence on the Closing Date and shall expire on the five 5 year anniversary of the Closing Date (the "**Option Term**").

4.3 **Exercise of Purchase Option.** Inpixon shall exercise the Purchase Option on or prior to the end of the Option Term by tendering to the Systat Parties the following:

(c) For the avoidance of doubt, the transfer of the Assets upon exercise of the Purchase Option will be governed by the Asset Purchase Agreement.

4.4 **Purchase Option Termination.** In accordance with Section 5.2 herein, upon termination of this Agreement, the Purchase Option shall lapse.

#### ARTICLE 5 Termination

5.1 This Agreement may be terminated as follows:

(a) by mutual written consent of Systat and Inpixon;

(b) by Systat, if Inpixon fails to deliver the Total Consideration in accordance with Section 3.1 of this Agreement, and such failure shall not have been cured within ninety (90) days after written notice thereof shall have been received by Inpixon;

(c) by Inpixon if Systat commits a breach of any provision of the Transaction Documents and such breach shall not have been cured within thirty (30) days after written notice thereof shall have been received by Systat and

(d) by Inpixon, any time prior to the Closing Date, if it is not satisfied, acting reasonably, with the results of the due diligence review and investigation of the Systat Parties, in its sole and absolute discretion.

5.2 Upon termination of this Agreement, this Agreement shall thereafter become void and there shall be no obligation on the part of Systat or Inpixon, except that each Party shall continue to be responsible for the obligations set forth in this Section 5.2, Section 5.3, Section 7 and Section 9 hereof.

5.3 In addition to the terms set forth in Section 5.2, above, and not by way of limitation, upon termination or expiration of this Agreement:

(a) Systat shall have the right, but not the obligation, to assume all customer, reseller and subdistributor contracts entered into or performed by Inpixon, with Inpixon Customers or Inpixon Subdistributors, and/or Systat Customers or Systat Subdistributors that are party to Systat Customer Contracts or Systat Subdistributor Agreements, as applicable, that were assigned to and assumed by Inpixon hereunder and that remain in effect as of the termination of this Agreement (collectively, the “**Inpixon Contracts**”), for the license, distribution and marketing of the Products during the License Term that are in effect as of the applicable termination or expiration date (the “**Inpixon Contract Assumption Right**”). Inpixon shall retain the Inpixon Contract Support Right with respect to each applicable Inpixon Contract through the end of the applicable maintenance, warranty or other term set forth in such Inpixon Contract (the “**Inpixon Contract Maintenance Term**”). For purposes of this section, the Inpixon Contract Maintenance Term shall be extended to include the time during which any dispute exists between Inpixon and any Inpixon Customers, Inpixon Subdistributors, Systat Customers and/or Systat Subdistributors concerning the Products, or Inpixon’s obligations to provide support or warranty relief for the Products. The Parties shall work together within thirty (30) business days from the date of termination of this Agreement to develop a transition plan. As part of this transition plan, Systat shall notify Inpixon whether it wishes to assume Customer Maintenance and technical support. If Systat does not notify Inpixon that it will assume Customer Maintenance and technical support, Inpixon shall provide Customer Maintenance through the Inpixon Contract Maintenance Term and shall notify the parties to the applicable Inpixon Contracts of termination such Inpixon Contracts in accordance with their terms and continue to provide support to applicable Inpixon Customers, Inpixon Subdistributors, Systat Customers and/or Systat Subdistributors for a minimum of thirty (30) days from the date of Inpixon’s delivery of a notice of termination with respect to each applicable Inpixon Contract.

(b) Subject to Section 5.3(c), upon termination or expiration of the Inpixon Contract Maintenance Terms for all of the Inpixon Contracts, Inpixon shall return to Systat all copies of the Products, Software Source and User Documentation in the possession of Inpixon, but excluding any Software Source Modification developed and owned by Inpixon in accordance with the terms of this Agreement.

(c) Notwithstanding anything to the contrary in Section 5.3(a) and/or 5.3(b), the Systat Parties acknowledge and agree that following any expiration or termination of this Agreement, (i) the Systat Parties shall not have any rights with respect to the Excluded Inpixon Contracts, and Inpixon shall have the right to continue to exercise its rights and perform its obligations pursuant to the Excluded Inpixon Contracts, and (ii) Inpixon may require use of the Products, Software Source and User Documentation for purposes of using and exploiting the Software Modifications and any Inpixon products integrated, incorporated, and/or bundled with the Products and/or Software Source. Therefore, the Systat Parties will grant, and hereby grant to Inpixon, under all of the Systat Parties' rights therein, a nonexclusive, royalty-free, fully paid-up, perpetual, irrevocable, worldwide license to: (1) reproduce, create derivative works of, distribute, publicly perform, publicly display, digitally transmit, and otherwise use the Products, Software Source and User Documentation; (2) use, make, have made, sell, offer to sell, import, and otherwise exploit any product or service based on, embodying, incorporating or derived from the Products, Software Source and User Documentation; (3) exercise any and all other present or future rights in the Products, Software Source and User Documentation, in each case solely as reasonably necessary or required for Inpixon to (A) exercise its rights and perform its obligations pursuant to the Excluded Inpixon Contracts, (B) use and exploit the Software Modifications, including, without limitation, further developing the Software Modifications or creating improvements to the Software Modifications, and (C) use and exploit any Inpixon products integrated, incorporated, and/or bundled with the Products and/or Software Source. In addition, Inpixon shall have a non-exclusive right and license to use the Systat Trademarks in connection with the rights granted pursuant to this Section 5.3(c), provided, that Inpixon shall not be obligated to use the Systat Trademarks and may use its own branding in connection with the Products, Software Modifications and User Documentation.

## ARTICLE 6 Representations and Warranties

6.1 **Representations and Warranties of the Systat Parties.** Each of the Systat Parties, represent and warrant to Inpixon, on a joint and several basis with the understanding and intent that Inpixon will rely on such representations and warranties upon entering into the Transaction Documents and in concluding the transactions contemplated hereby and thereby, that:

Each of the Systat Parties is organized, validly existing and in good standing under the laws of each of the jurisdictions in which the Systat Parties are qualified to do business and has not been discontinued or dissolved under such laws. Except as set forth on Section 6.1(a) of the Systat Disclosure Schedules, no steps or proceedings have been taken to authorize or require such discontinuance or dissolution or the bankruptcy, insolvency, liquidation or winding up of the Systat Parties. Each of the Systat Parties has the corporate power and capacity to own, operate or lease the properties and assets now owned, operated or leased by it and to carry on its business as it has been and is currently conducted. Section 6.1(a) of the Systat Disclosure Schedules sets forth each jurisdiction in which the Systat Parties are licensed or registered to carry on business, and the Systat Parties are duly licensed or registered to carry on business and have submitted all notices or returns of corporate information and other filings required by law to be submitted by it to any governmental authority in each jurisdiction in which the properties owned or leased by it or the operation of its business as currently conducted makes such licensing or registration necessary, other than where such failure would not have a Material Adverse Effect. All corporate actions taken by the Systat Parties in connection with this Agreement and the other Transaction Documents shall be duly authorized on or before the Closing Date. The Systat Parties have all requisite corporate power and authority to execute and deliver this Agreement and the other Transaction Documents and to perform each of their respective obligations under the Transaction Documents. The Transaction Documents constitute valid and binding agreements of the Systat Parties enforceable against them in accordance with their terms.

10.3 **Enforcement of Agreement.** Each Party hereto acknowledges and agrees that the other Party would be irreparably damaged if any of the provisions of this Agreement are not performed in accordance with their specific terms and that any breach of this Agreement by either Party could not be adequately compensated in all cases by monetary damages alone. Accordingly, in addition to any other right or remedy to which each Party may be entitled, at law or in equity, it shall be entitled to enforce any provision of this Agreement by a decree of specific performance and to temporary, preliminary and permanent injunctive relief to prevent breaches or threatened breaches of any of the provisions of this Agreement, without posting any bond or other undertaking.

10.4 **Waiver; Extension; Remedies Cumulative.** The rights and remedies of the Parties to this Agreement are cumulative and not alternative. Neither any failure nor any delay by any Party in exercising any right, power or privilege under this Agreement or any of the documents referred to in this Agreement will operate as a waiver of such right, power or privilege, and no single or partial exercise of any such right, power or privilege will preclude any other or further exercise of such right, power or privilege or the exercise of any other right, power or privilege. At any time prior to the completion of the Closing, the Parties hereto may, to the extent legally allowed, (a) extend the time for the performance of any of the obligations or other acts of the other Parties hereto, (b) waive any inaccuracies in the representations and warranties contained herein or in any document delivered pursuant hereto, and (c) waive compliance with any of the agreements or conditions contained herein. Any agreement on the part of a Party hereto to any such extension or waiver shall be valid only if set forth in a written instrument signed on behalf of the Party to be charged with such waiver or for whose benefit the covenant or condition exists, but such extension or waiver or failure or delay to insist on strict compliance with an obligation, covenant, agreement or condition shall not operate as a waiver of, or estoppel with respect to, any subsequent or other failure.

10.5 **Entire Agreement.** This Agreement, together with its Exhibits and Schedules, the Transaction Documents, and the Confidentiality Agreement, constitute the entire agreement between the Parties with respect to the subject matters hereof and thereof and cancels and supersedes any prior understandings, agreements, negotiations and discussions between the Parties with respect thereto.

10.6 **Amendment.** No amendment or waiver of any provision of this Agreement shall be valid unless the same shall be in writing and signed by the Parties.

10.7 **Assignments, Successors and No Third-Party Rights.** During the License Term, except as permitted in accordance with the terms of the Transaction Documents, no Party may assign any of its rights or delegate any of its obligations under this Agreement without the prior written consent of the other, except to a designated direct or indirect subsidiary, affiliate or related party, or as otherwise provided in this Agreement. Subject to the preceding sentence, this Agreement will apply to, be binding in all respects upon and inure to the benefit of the successors and permitted assigns of the Parties. Nothing expressed or referred to in this Agreement will be construed to give any Person other than the Parties to this Agreement, or any indemnified party pursuant to ARTICLE 7, any legal or equitable right, remedy or claim under or with respect to this Agreement or any provision of this Agreement, except such rights as shall inure to a successor or permitted assignee pursuant to this Section 10.7.

10.8 **Severability.** If any provision of this Agreement is held invalid or unenforceable by any court of competent jurisdiction, the other provisions of this Agreement will remain in full force and effect. Any provision of this Agreement held invalid or unenforceable only in part or degree will remain in full force and effect to the extent not held invalid or unenforceable.

10.9 **Construction.** The headings of Articles and Sections in this Agreement are provided for convenience only and will not affect its construction or interpretation. All references to “Articles,” “Sections” refer to the corresponding Articles and Sections of this Agreement and the Exhibits and Schedules. This Agreement was negotiated by the Parties with the benefit of legal representation, and any rule of construction or interpretation otherwise requiring this Agreement to be construed or interpreted against any Party shall not apply to any construction or interpretation hereof. As used herein, the term “including” shall be deemed to mean “including, without limitation”, if not so specified.

10.10 **Time of Essence.** With regard to all dates and time periods set forth or referred to in this Agreement, time is of the essence.

10.11 **Governing Law; Jurisdiction.** This Agreement will be governed by and construed under the laws of the State of California without regard to conflicts-of-laws principles that would require the application of any other Law. Any proceeding arising out of or relating to this Agreement or any other Transaction Document shall be brought in the state or federal courts located in San Francisco or Santa Clara County, California, and each Party irrevocably submits to the exclusive jurisdiction of each such court in any such proceeding, waives any objection it may now or hereafter have to venue or to convenience of forum, agrees that all claims in respect of the proceeding shall be heard and determined only in any such court and agrees not to bring any proceeding arising out of or relating to this Agreement or any other Transaction Document in any other court.

10.12 **Execution of Agreement.** This Agreement may be executed in one (1) or more counterparts, each of which will be deemed to be an original copy of this Agreement and all of which, when taken together, will be deemed to constitute one and the same agreement. The exchange of copies of this Agreement and of signature pages by facsimile or email transmission shall constitute effective execution and delivery of this Agreement as to the Parties and may be used in lieu of the original Agreement for all purposes. Signatures of the Parties transmitted by facsimile or email shall be deemed to be their original signatures for all purposes.

10.13 **No Representative.** Except as set forth in Section 2.15 of this Agreement, nothing contained in this Agreement, nor any action taken by any Party to this Agreement, shall be deemed to constitute the other Party (or any of the other party's employees, agents, or representatives) an employee, agent, or legal representative of the Party, nor to create any, joint venture, association, or syndicate among or between the Parties, nor to confer on either party any express or implied right, power or authority to enter into any agreement or commitment on behalf or (nor to impose any obligation upon) the other Party.

10.14 **Bankruptcy.** All rights and licenses granted by the Systat Parties under this Agreement are and will be deemed to be rights and licenses to "intellectual property" as such term is used in, and interpreted under, Section 365(n) of the United States Bankruptcy Code (the "**Bankruptcy Code**") (11 U.S.C. § 365(n)). Inpixon has all rights, elections, and protections under the Bankruptcy Code and all other bankruptcy, insolvency, and similar laws with respect to the Agreement, and the subject matter hereof. Without limiting the generality of the foregoing, the Systat Parties acknowledge and agrees that, if the Systat Parties or their estate shall become subject to any bankruptcy or similar proceeding, subject to Inpixon's rights of election under Section 365(n), all rights, licenses, and privileges granted to Inpixon under this Agreement will continue subject to the respective terms and conditions hereof, and will not be affected. If the Systat Parties or any successor rejects this Agreement, as provided in the Bankruptcy Code, Inpixon shall be entitled to a complete duplicate of, or complete access to, as appropriate, all such intellectual property and embodiments of intellectual property, which, if not already in Inpixon's possession, shall be promptly delivered to Inpixon or its designee, unless the Systat Parties elects to and does in fact continue to perform all of its obligations under this Agreement.

10.15 **Expenses.** Except as otherwise expressly provided herein, all costs and expenses, including fees, disbursements and charges of counsel, financial advisors and accountants, incurred in connection with this Agreement and the transactions contemplated hereby shall be paid by the Party incurring such costs and expenses, whether or not the Closing Date shall have occurred.
