Agria Announces Reverse Split and ADS Ratio Change

BEIJING--(Marketwire - Jan 8, 2013) – Agria Corporation (NYSE: GRO) (the “Company” or “Agria”) today announced that its Board of Directors has approved a combination, or reverse split, of the ordinary shares currently issued by the Company at par value of \$0.0000001 per share such that the Company shall issue one (1) ordinary share (each a “New Share” and collectively the “New Shares”) for every three (3) ordinary shares held by its shareholders (“Old Shares”) (the “Reverse Split”). The par value of each New Share will be \$0.0000003, equal to the aggregate of the par value of three Old Shares combined. Additionally, the Board of Directors also approved to change the ratio of its American Depositary Shares (“ADSs”) to ordinary shares from 1:2 to 1:1 (the “ADS Ratio Change”). The Company is working with its ADS depository, The Bank of New York Mellon, to effectuate the ADS Ratio Change.

The Reverse Split requires approval of the shareholders of the Company, and will be put up for vote at the next annual general meeting of the Company, which is expected to be held in April 2013. The Company will announce the exact date and agenda of the annual general meeting once they have been determined. The Company expects that the Reverse Split and ADS Ratio Change will be effectuated contingent and simultaneously upon shareholder approval of the Reverse Split.

As a result of the Reverse Split and ADS Ratio Change, the Company expects the price of its ADSs to increase proportionally. Although the purpose of the proposed Reverse Split and ADS Ratio Change is to regain compliance with the minimum average closing price continued listing standard of the NYSE, the Company can give no assurance that this goal will be achieved if the Reverse Split and ADS Ratio Change are approved.
