PART I

ITEM 1. DESCRIPTION OF BUSINESS

Saveyoutime.com, Inc. was incorporated in the State of Nevada on March 3, 2000, to engage in any lawful corporate undertaking, including, but not limited to, selected mergers and acquisitions. We have been in the development stage since inception. Saveyoutime.com, Inc. has not engaged in any commercial operations. Saveyoutime.com, Inc. does not have active business operations, and at this time we are considered a "Blank Check" company.

We registered our common stock on a Form 10-SB registration statement filed pursuant to the Securities Exchange Act of 1934 (the "Exchange Act") and Rule 12(g) thereof. We intend to file with the Securities and Exchange Commission periodic and episodic reports under Rule 13(a) of the Exchange Act, including quarterly reports on Form 10-QSB and annual reports on Form 10-KSB.

We will attempt to locate and negotiate with a business entity for the merger of that target business into the Company. In certain instances, a target business may wish to become a subsidiary of the Company or may wish to contribute assets to the Company rather than merge. No assurances can be given that we will be successful in locating or negotiating with any target business.

Management believes that there are perceived benefits to being a reporting company with a class of publicly-traded securities. These are commonly thought to include (1) the ability to use registered securities to make acquisition of assets or businesses; (2) increased visibility in the financial community; (3) the facilitation of borrowing from financial institutions; (4) improved trading efficiency; (5) stockholder liquidity; (6) greater ease in subsequently raising capital; (7) compensation of key employees through stock options; (8) enhanced corporate image; and (9) a presence in the United States capital market.

A business entity, if any, which may be interested in a business combination with us may include (1) a company for which a primary purpose of becoming public is the use of its securities for the acquisition of assets or businesses; (2) a company which is unable to find an underwriter of its securities or is unable to find an underwriter of securities on terms acceptable to it; (3) a company which wishes to become public with less dilution of its common stock than would occur normally upon an underwriting;

(4) a company which believes that it will be able to obtain investment capital on more favorable terms after it has become public; (5) a foreign company which may wish to gain an initial entry into the United States securities market; (6) a special situation company, such as a company seeking a public market to satisfy redemption requirements under a qualified Employee Stock Option Plan; or (7) a company seeking one or more of the other perceived benefits of becoming a public company.

Management is actively engaged in seeking a qualified company as a candidate for a business combination. We are authorized to enter into a definitive agreement with a wide variety of businesses without limitation as to their industry or revenues. It is not possible at this time to predict with which company, if any, we will enter into a definitive agreement or what will be the industry, operating history, revenues, future prospects or other characteristics of that company.

We may seek a business opportunity with entities which have recently commenced operations, or which wish to utilize the public marketplace in order to raise additional capital in order to expand into new products or markets, to develop a new product or service, or for other corporate purposes. We may acquire assets and establish wholly-owned subsidiaries in various businesses or acquire existing businesses as subsidiaries.

Our management, which in all likelihood will not be experienced in matters relating to the business of a target business, will rely upon its own efforts in accomplishing our business purposes. Outside consultants or advisors may be utilized by us to assist in the search for qualified target companies. If we do retain such an outside consultant or advisor, any cash fee earned by such person will need to be assumed by the target business, as we have limited cash assets with which to pay such obligation.

The analysis of new business opportunities will be undertaken by, or under the supervision of our officer and director, who is not a professional business analyst. In analyzing prospective business opportunities, management may consider such matters as:

- \* the available technical, financial and managerial resources;
- \* working capital and other financial requirements; history of operations, if any;
- \* prospects for the future;
- \* nature of present and expected competition;
- \* the quality and experience of management services which may be available and the depth of that management;
- \* the potential for further research, development, or exploration;
- \* specific risk factors not now foreseeable but which then may be anticipated to impact our proposed activities;
- \* the potential for growth or expansion;
- \* the potential for profit;
- \* the perceived public recognition or acceptance of products, services, or trades; name identification and;

\* other relevant factors.

Management does not have the capacity to conduct as extensive an investigation of a target business as might be undertaken by a venture capital fund or similar institution. As a result, management may elect to merge with a target business which has one or more undiscovered shortcomings and may, if given the choice to select among target businesses, fail to enter into an agreement with the most investment-worthy target business.

Following a business combination we may benefit from the services of others in regard to accounting, legal services, underwritings and corporate public relations. If requested by a target business, management may recommend one or more underwriters, financial advisors, accountants, public relations firms or other consultants to provide such services.

A potential target business may have an agreement with a consultant or advisor providing that services of the consultant or advisor be continued after any business combination. Additionally, a target business may be presented to us only on the condition that the services of a consultant or advisor be continued after a merger or acquisition. Such preexisting agreements of target businesses for the continuation of the services of attorneys, accountants, advisors or consultants could be a factor in the selection of a target business.

In implementing a structure for a particular business acquisition, we may become a party to a merger, consolidation, reorganization, joint venture, or licensing agreement with another corporation or entity. We may also acquire stock or assets of an existing business. On the consummation of a transaction, it is likely that our present management and stockholder will no longer be in our control. In addition, it is likely that the our officer and director will, as part of the terms of the acquisition transaction, resign and be replaced by one or more new officers and directors.

It is anticipated that any securities issued in any such reorganization would be issued in reliance upon exemption from registration under applicable federal and state securities laws. In some circumstances however, as a negotiated element of its transaction, we may agree to register all or a part of such securities immediately after the transaction is consummated or at specified times thereafter. If such registration occurs, of which there can be no assurance, it will be undertaken by the surviving entity after we have entered into an agreement for a business combination or have consummated a business combination and we are no longer considered a blank check company. The issuance of additional securities and their potential sale into any trading market which may develop in our securities may depress the market value of our securities in the future if such a market develops, of which there is no assurance.

While the terms of a business transaction to which we may be a party cannot be predicted, it is expected that the parties to the business

transaction will desire to avoid the creation of a taxable event and thereby structure the acquisition in a tax-free reorganization under Sections 351 or 368 of the Internal Revenue Code of 1986, as amended.

With respect to any merger or acquisition negotiations with a target business, management expects to focus on the percentage of the Company which target business stockholder would acquire in exchange for their shareholdings in the target business. Depending upon, among other things, the target business's assets and liabilities, our stockholder will in all likelihood hold a substantially lesser percentage ownership interest in the Company following any merger or acquisition. Any merger or acquisition effected by us can be expected to have a significant dilutive effect on the percentage of shares held by our stockholder at such time.

No assurances can be given that we will be able to enter into a business combination, as to the terms of a business combination, or as to the nature of the target business.

As of the date hereof, management has not made any final decision concerning or entered into any written agreements for a business combination. When any such agreement is reached or other material fact occurs, we will file notice of such agreement or fact with the Securities and Exchange Commission on Form 8-K. Persons reading this Form 10-KSB are advised to determine if we have subsequently filed a Form 8-K.

We anticipate that the selection of a business opportunity in which to participate will be complex and without certainty of success. Management believes (but has not conducted any research to confirm) that there are numerous firms seeking the perceived benefits of a publicly registered corporation. Such perceived benefits may include facilitating or improving the terms on which additional equity financing may be sought, providing liquidity for incentive stock options or similar benefits to key employees, increasing the opportunity to use securities for acquisitions, and providing liquidity for stockholder and other factors. Business opportunities may be available in many different industries and at various stages of development, all of which will make the task of comparative investigation and analysis of such business opportunities extremely difficult and complex.

## ITEM 2. DESCRIPTION OF PROPERTY

We have no properties and at this time have no agreements to acquire any properties. We currently use the offices of management at no cost to us. Management has agreed to continue this arrangement until we complete an acquisition or merger.

## ITEM 3. LEGAL PROCEEDINGS

There is no litigation pending or threatened by or against us

ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

No matter was submitted to a vote of security holders, through the solicitation of proxies or otherwise, during the fourth quarter of the fiscal year covered by this report.

PART II

ITEM 5. MARKET FOR COMMON EQUITY AND RELATED STOCKHOLDER MATTERS

There is currently no public market for our securities. We do not intend to trade our securities in the secondary market until completion of a business combination or acquisition. It is anticipated that following such occurrence we will cause our common stock to be listed or admitted to quotation on the NASD OTC Bulletin Board or, if we then meet the financial and other requirements thereof, on the Nasdaq SmallCap Market, National Market System or regional or national exchange.

The proposed business activities described herein classify us as a "blank check" company. The Securities and Exchange Commission and many states have enacted statutes, rules and regulations limiting the sale of securities of blank check companies in their respective jurisdictions. Management does not intend to undertake any efforts to cause a market to develop in our securities until such time as we have successfully implemented our business plan described herein. Accordingly, our stockholder has agreed that he will not sell or otherwise transfer his shares of our common stock except in connection with or following completion of a merger or acquisition and we have no longer classified as a blank check company.

There is currently one stockholder of our outstanding common stock.

During the past three years, we have issued securities which were not registered as follows:

DATE	NAME	NUMBER OF SHARES	CONSIDERATION
March 3, 2000	Anthony N. DeMint	5,000,000	\$5,000

(1) Mr. DeMint is our sole director, controlling stockholder and president. Shares issued to Mr. DeMint were in return for services provided to us by Mr. DeMint, in lieu of cash. With respect to the stock issued to Mr. DeMint, we relied upon Section 4(2) of the Securities Act of 1933, as amended and Rule 506 promulgated thereunder.

ITEM 6. MANAGEMENT'S DISCUSSION AND ANALYSIS OR PLAN OF OPERATION

We were formed to engage in a merger with or acquisition of an

unidentified foreign or domestic company which desires to become a reporting ("public") company whose securities are qualified for trading in the United States secondary market. We meet the definition of a "blank check" company contained in Section (7)(b)(3) of the Securities Act of 1933, as amended. We have been in the developmental stage since inception and have no operations to date. Other than issuing shares to our original stockholder, we have not commenced any operational activities.

We will not acquire or merge with any entity which cannot provide audited financial statements at or within a reasonable period of time after closing of the proposed transaction. We are subject to all the reporting requirements included in the Exchange Act. Included in these requirements is our duty to file audited financial statements as part of our Form 8-K to be filed with the Securities and Exchange Commission upon consummation of a merger or acquisition, as well as our audited financial statements included in our annual report on Form 10-K (or 10-KSB, as applicable). If such audited financial statements are not available at closing, or within time parameters necessary to insure our compliance with the requirements of the Exchange Act, or if the audited financial statements provided do not conform to the representations made by the target business, the closing documents may provide that the proposed transaction will be voidable at the discretion of our present management.

We will not restrict our search for any specific kind of businesses, but may acquire a business which is in its preliminary or development stage, which is already in operation, or in essentially any stage of its business life. It is impossible to predict at this time the status of any business in which we may become engaged, in that such business may need to seek additional capital, may desire to have its shares publicly traded, or may seek other perceived advantages which we may offer.

A business combination with a target business will normally involve the transfer to the target business of the majority of our common stock, and the substitution by the target business of its own management and board of directors.

We have, and will continue to have, no capital with which to provide the owners of business opportunities with any cash or other assets. However, management believes we will be able to offer owners of acquisition candidates the opportunity to acquire a controlling ownership interest in a publicly registered company without incurring the cost and time required to conduct an initial public offering. Our officer and director has not conducted market research and is not aware of statistical data to support the perceived benefits of a merger or acquisition transaction for the owners of a business opportunity.

Our audit reflects the fact that we have no current source of income. Further, that without realization of additional capital, it would be unlikely for the Company to continue as a going concern.

Our stockholder has agreed that they will advance any additional funds which we need for operating capital and for costs in connection with searching for or completing an acquisition or merger. Such advances will be made without expectation of repayment unless the owners of the business which we acquire or merge with agree to repay all or a portion of such advances. There is no minimum or maximum amount such stockholder will advance to us. We will not borrow any funds for the purpose of repaying advances made by such stockholder, and we will not borrow any funds to make any payments to our promoters, management or their affiliates or associates.

The Board of Directors has passed a resolution which contains a policy that we will not seek an acquisition or merger with any entity in which our officer, director, stockholder or his affiliates or associates serve as officer or director or hold more than a 10% ownership interest.

ITEM 7. FINANCIAL STATEMENTS

See Index to Financial Statements and Financial Statement Schedules appearing on page F-1 through F-7 of this Form 10-KSB.

ITEM 8. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

There were no changes in or disagreements with accountants on accounting and financial disclosure for the period covered by this report.

#### CONFLICTS OF INTEREST

Our officer and director expects to organize other companies of a similar nature and with a similar purpose as us. Consequently, there are potential inherent conflicts of interest in acting as our officer and

director. Insofar as the officer and director is engaged in other business activities, management anticipates that he will devote only a minor amount of time to our affairs. We do not have a right of first refusal pertaining to opportunities that come to management's attention insofar as such opportunities may relate to our proposed business operations.

A conflict may arise in the event that another blank check company with which management is affiliated is formed and actively seeks a target company. It is anticipated that target companies will be located for us and other blank check companies in chronological order of the date of formation of such blank check companies or, in the case of blank check companies formed on the same date, alphabetically. However, any blank check companies with which management is, or may be, affiliated may differ from us in certain items such as place of incorporation, number of shares and stockholder, working capital, types of authorized securities, or other items. It may be that a target company may be more suitable for or may prefer a certain blank check company formed after us. In such case, a business combination might be negotiated on behalf of the more suitable or preferred blank check company regardless of date of formation.

The terms of business combination may include such terms as Mr. DeMint remaining a director or officer of the Company and/or the continuing securities work of the Company being handled by the consulting firm of which Mr. DeMint is a director. The terms of a business combination may provide for a payment by cash or otherwise to Mr. DeMint for the purchase or retirement of all or part of his common stock of the Company by a target company or for services rendered incident to or following a business combination. Mr. DeMint would directly benefit from such employment or payment. Such benefits may influence Mr. DeMint's choice of a target company.

We may agree to pay finder's fees, as appropriate and allowed, to unaffiliated persons who may bring a target company to us where that reference results in a business combination. No finder's fee of any kind will be paid by us to management or our promoters or to their associates or affiliates. No loans of any type have, or will be, made by us to management or our promoters or to any of their associates or affiliates.

We will not enter into a business combination, or acquire any assets of any kind for our securities, in which our management or any affiliates or associates have a greater than 10% interest, direct or indirect.

There are no binding guidelines or procedures for resolving potential conflicts of interest. Failure by management to resolve conflicts of interest in favor of us could result in liability of management to us. However, any attempt by stockholder to enforce a liability of management to us would most likely be prohibitively expensive and time consuming.

#### ITEM 10. EXECUTIVE COMPENSATION

Our officer and director does not receive any compensation for his services rendered, has not received such compensation in the past, and is not accruing any compensation pursuant to any agreement with us. However, our officer and director anticipates receiving benefits as a beneficial stockholder and, possibly, in other ways.

No retirement, pension, profit sharing, stock option or insurance programs or other similar programs have been adopted by us for the benefit of our employees.

ITEM 11. SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT

The following table sets forth, as of December 31, 2000, each person known by us to be the beneficial owner of five percent or more of our Common Stock and our director and officer. Except as noted, the holder thereof has sole voting and investment power with respect to the shares shown.

Anthony N. DeMint 1850 E. Flamingo Rd., #111 Las Vegas, NV 89119	5,000,000	100%

The Board of Directors has passed a resolution which contains a policy that we will not seek an acquisition or merger with any entity in which our officer, director or holder or their affiliates or associates serve as officer or director or hold more than a 10% ownership interest. Management is not aware of any circumstances under which this policy may be changed.

INDEPENDENT AUDITORS' REPORT

Board Of Directors  
SAVEYOUTIME.COM, INC.  
Las Vegas, Nevada

January 2, 2001

I have audited the accompanying Balance Sheets of SAVEYOUTIME.COM, INC., (A Development Stage Company), as of December 31, 2000, and the related Statements of Operations, Stockholders' Equity and Cash Flows for the period March 3, 2000, (inception) to December 31, 2000. These financial statements are the responsibility of the Company's management. My responsibility is to express an opinion on these financial statements based on my audit.

I conducted my audit in accordance with generally accepted auditing standards. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. I believe that my audit provides a reasonable basis for my opinion.

In my opinion, the financial statements referred to above present fairly, in all material respects, the financial position of SAVEYOUTIME.COM, INC., (A Development Stage Company), as of December 31, 2000, and the results of its operations, stockholders equity, and cash flows for the period March 3, 2000, (inception), to December 31, 2000, in conformity with generally accepted accounting principles.

The accompanying financial statements have been prepared assuming the Company will continue as a going concern. As discussed in Note #3 to the financial statements the Company has suffered recurring losses from operations and has no established source of revenue. This raises substantial doubt about its ability to continue as a going concern. Management's plan in regard to these matters are also described in Note #3. These financial statements do not include any adjustments that might result from the outcome

of this uncertainty.
