Dear Valued STI Classic Funds' Shareholder:

As of November 30, 2000, your STI Classic Funds' assets totaled \$21.2 billion, an increase of 2.0% over the period ending May 31, 2000, the Funds' fiscal year end.

U.S. economic expansion has now passed nine years in duration and is the longest in history. However, growth has slowed substantially and many investors are questioning whether a recession will develop. Moreover, many companies are reporting weaker earnings in this economic slowdown. It is certainly a more challenging environment for stock investors. Regardless, inflation remains low due to productivity gains and lack of corporate pricing power. As a result, longer-term interest rates have continued to decline. Thus, the Federal Reserve has substantial flexibility to decrease money market rates and provide a safety net for the economy. We also believe that most stocks have declined substantially as a result of prior Fed tightening. Thus, stock opportunities have emerged and our belief in a more diversified approach beyond just technology stocks will continue to benefit investors in this difficult environment.

Sincerely,

/s/signature omitted

Douglas S. Phillips, CFA  
President, Chief Investment Officer  
Trusco Capital Management, Inc.

STI CLASSIC FUNDS NOVEMBER 30, 2000

1. Organization:

The STI Classic Funds (the "Trust") was organized as a Massachusetts business trust under a Declaration of Trust dated January 15, 1992. The Trust is registered under the Investment Company Act of 1940, as amended, as an open-end management investment company with thirty-five funds as of November 30, 2000: the Balanced Fund, the Capital Appreciation Fund, the Core Equity Fund, the E-Commerce Opportunity Fund, the Growth and Income Fund, the International Equity Fund, the International Equity Index Fund, the Life Vision Moderate Growth Fund, the Life Vision Growth and Income Fund, the Life Vision Aggressive Growth Fund, the Mid-Cap Equity Fund, the Small Cap Value Equity Fund, the Small Cap Growth Stock Fund, the Tax Sensitive Growth Stock Fund, the Value Income Stock Fund, (collectively the "Equity Funds"), the Florida Tax-Exempt Bond Fund, the Georgia Tax-Exempt Bond Fund, the High Income Fund, the Investment Grade Bond Fund, the Investment Grade Tax-Exempt Bond Fund, the Limited-Term Federal Mortgage Securities Fund, the Maryland Municipal Bond Fund, the Short-Term Bond Fund, the Short-Term U.S. Treasury Securities Fund, the U.S. Government Securities Fund, the Virginia Intermediate Municipal Bond Fund, the Virginia Municipal Bond Fund, (collectively the "Fixed Income Funds"), the Prime Quality Money Market Fund, the Tax-Exempt Money Market Fund, the Virginia Tax-Free Money Market Fund (formerly the Tax-Free Money Market Fund), the U.S. Government Securities Money Market Fund, the U.S. Treasury Money Market Fund (collectively the "Retail Money Market Funds" or the "Funds"), the Classic Institutional Cash Management Money Market Fund, the Classic Institutional U.S. Government Securities Money Market Fund and the Classic Institutional U.S. Treasury Securities Money Market Fund, (collectively the "Institutional Money Market Funds"). The assets of each Fund are segregated, and a shareholder's interest is limited to the fund in which shares are held. Each Fund's prospectus provides a description of the Fund's investment objectives, policies and strategies. The financial statements presented herein are those of the Retail Money Market Funds. The financial statements of the Equity Funds, the Fixed Income Funds and the Institutional Money Market Funds are not presented herein, but are presented separately.

2. Significant Accounting Policies:

The following is a summary of significant accounting policies followed by the Trust:

SECURITY VALUATION -- Investment securities held by the Funds are stated at amortized cost, which approximates market value.

FEDERAL INCOME TAXES -- It is each Fund's intention to qualify as a regulated investment company for Federal income tax purposes and distribute all of its taxable income and net capital gains. Accordingly, no provisions for Federal income taxes are required.

SECURITY TRANSACTIONS AND INVESTMENT INCOME -- Security transactions are accounted for on the date the security is purchased or sold (trade date). Interest income is recognized on an accrual basis. Costs used in determining net realized gains and losses on the sales of investment securities are those of the specific securities sold adjusted for the accretion and amortization of purchase discounts and premiums during the

(UNAUDITED)

respective holding period. Purchase discounts and premiums on securities held by the Funds are accreted and amortized ratably to maturity and are included in interest income.

REPURCHASE AGREEMENTS -- Securities pledged as collateral for repurchase agreements are held by the custodian bank until the respective agreements mature. Provisions of the repurchase agreements ensure that the market value of the collateral, including accrued interest thereon, is sufficient in the event of default of the counterparty. If the counterparty defaults and the value of the collateral declines or if the counterparty enters into an insolvency proceeding, realization of the collateral by the Funds may be delayed or limited.

NET ASSET VALUE PER SHARE -- The net asset value per share of each Fund is calculated each business day, by dividing the total value of each Fund's assets, less liabilities, by the number of shares outstanding.

OTHER -- Expenses that are directly related to a specific Fund are charged to that Fund. Class specific expenses are borne by that class. Other operating expenses of the Trust are pro-rated to the Funds on the basis of relative net assets. Fund expenses are pro-rated to the respective classes on the basis of relative net assets.

DISTRIBUTIONS TO SHAREHOLDERS -- Distributions from net investment income of each of the Funds are declared on each business day and paid to shareholders on a monthly basis. Any net realized capital gains on sales of securities are distributed to shareholders at least annually.

USE OF ESTIMATES -- The preparation of the financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that effect the reported amount of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements, and reported amounts of revenues and expenses during the reporting period. Actual amounts could differ from these estimates.

### 3. Transactions with Affiliates:

Certain officers of the Trust are also officers of SEI Investments Mutual Funds Services (the "Administrator"), and/or SEI Investments Distribution Co. (the "Distributor"). Such officers are paid no fees by the Trust for serving as officers of the Trust.

The Fund has entered into an agreement with the Distributor to act as an agent in placing repurchase agreements for the Funds. For its services the Distributor received \$930,925 for the six month period ended November 30, 2000.

The Trust and the Distributor are parties to a Distribution Agreement dated November 21, 1995. The Distributor does not receive any fees for its distribution services provided under this agreement.

### 4. Administration and Transfer Agency Servicing Agreements:
