In addition to the use of the mail, proxies may be solicited via personal interview and telephone or telegraph by the directors, officers and regular employees of the Company. Such persons will receive no additional compensation for such services. Arrangements will also be made with certain brokerage firms and certain other custodians, nominees and fiduciaries for the forwarding of solicitation materials to the beneficial owners of the Company's Common Stock

held of record by such persons, and such brokers, custodians, nominees and fiduciaries will be reimbursed by the Company for reasonable out-of-pocket expenses incurred by them in connection therewith.

PROPOSAL NO. 1-INCREASE IN AUTHORIZED SHARES OF COMMON STOCK

The Board of Directors has authorized an amendment to the Company's Articles of Incorporation increasing its authorized shares of Common Stock from 100,000,000 shares to 200,000,000 shares. The Board is recommending that shareholders approve the amendment.

If the amendment is adopted, the Board of Directors will be able to issue some or all of the additional authorized shares without shareholder approval.

If this proposal is adopted, the text of the revised first paragraph of Section 4 of the Company's Articles of incorporation will be amended to read as follows:

The total number of shares of all classes of stock which the Corporation shall have authority to issue is Two Hundred Million (200,000,000) shares consisting of shares of common stock.

The Articles of incorporation currently authorizes the issuance of up to 100,000,000 shares, consisting of shares of Common Stock. As of July 31, 2001 the Company had 94,489,916 shares of Common Stock and no shares of preferred stock outstanding.

Reasons for and the Effect of the Increase in Number of Authorized Shares.

The Board of Directors believes that it is in the best interest of the Company and its stockholders to increase the number of authorized shares of Common Stock in order to have additional shares available for issuance to meet various business needs as they may arise and to enhance the Company's flexibility in connection with possible future actions. The primary use of the shares will be to raise financing to fund the Company's operations. Other business needs and actions may include stock dividends, stock splits, employee benefit programs, corporate business combinations, funding of business acquisitions, and other corporate purposes.

The authorization of additional shares of Common Stock pursuant to this proposal will have no dilutive effect upon earnings per share or the proportionate voting power of the present stockholders of the Company. However, to the extent that shares are subsequently issued in connection with any corporate action to persons other than the present stockholders, such issuance could have a dilutive effect on the earnings per share and voting powers of present stockholders.

The Company is planning to use approximately 50,000,000 shares for sale in private placements and/or public offerings to fund its operations. The actual number of shares issued will depend on various factors, including the market

price of the Company's stock at the time of such transactions.

In addition, although the issuance of shares of Common Stock in certain instances may have the effect of forestalling a takeover, the Board does not intend or view the increase in authorized Common Stock as an anti-takeover measure. The Company is not aware of any proposed or contemplated transaction of this type, and this amendment to the Articles of Incorporation is not being recommended in response to any specific effort of which the Company is aware to obtain control of the Company.

The authorized shares of Common Stock in excess of those currently issued will be available for issuance at such times and for such purposes as the Board of Directors may deem advisable without further action by the Company's stockholders, except as may be required by applicable laws or regulations.

Approval of the amendment requires the affirmative vote of a majority of the outstanding Common Stock of the Company.

8

PROPOSAL NO. 2-TO AUTHORIZE A CLASS OF 25,000,000 SHARES OF PREFERRED STOCK

The Board of Directors of the Company is requesting authorization and an amendment to the Company's articles of incorporation providing for the authorization of a class of 25,000,000 shares of preferred stock (the "Preferred Stock"). The Preferred Stock may be issued in series have such rights and preferences as the Board of Directors of the Company may from time to time determine.

The Company has no present plans for the issuance of any shares of Preferred Stock. However, the Board believes that the availability of Preferred Stock may be useful for potential financial and acquisition transactions.

In addition, although the issuance of shares of Preferred Stock in certain instances may have the effect of forestalling a takeover, the Board does not intend or view the authorization of Preferred Stock as an anti-takeover measure. The Company is not aware of any proposed or contemplated transaction of this type, and this amendment to the Articles of Incorporation is not being recommended in response to any specific effort which the Company is aware to obtain control of the Company.

Approval of the amendment requires the affirmative vote.

PROPOSAL NO. 3-TO AMEND TO COMPANY'S ARTICLES OF INCORPORATION TO PROVIDE FOR INDEMNIFICATION OF OFFICERS, DIRECTORS, EMPLOYEES, AND AGENTS

The Company is proposing to add a new Article VIII to its Articles of Incorporation to read as follows:

"The Company shall indemnify and hold harmless its officers, directors,

employees, and agents from actions arising from their service to the Company in any such capacity, to the fullest extent permitted by law."

The Company believes that indemnification of such persons is necessary if the Company is to attract and retain persons to serve in such capacities. The Board has authorized such amendment and is recommending it for approval by shareholders. The effect of the amendment would be to require indemnification of such persons by the Company in all circumstances in which Florida law permits such indemnification.

Approval of the amendment requires the affirmative vote of a majority of the outstanding common stock of the Company.
