Item 8.01. Other Events

Infrac Systems, Inc., a global provider of unified Smart Grid-related products and services for the Energy and Utility industries, announced today that its Board of Directors has approved the final “record date” and “dividend rate” of the stock of Lockwood Technology Corporation to its shareholders. The record date for determining the holders of Infrac's common stock who will receive the dividend will be changed to March 19th, 2013. The dividend rate will be 1 (one) share of Lockwood for every 3 (three) shares of Infrac Systems. The dividend rate was reverted back from 1 for 10 to its original format of 1 for 3. The decision to revert back to the original dividend rate was made by the acting CEO, Mr. Talari. The actual “distribution date” of the dividend will be announced when Lockwood Technology gets clearance from SEC and FINRA. Company is in the final stages of the preparation of the S1 to be filed with SEC.

Although we use the “record date” to determine the shareholder’s rights for dividend, if shareholders sell their shares prior to the actual “distribution date”, they will not be eligible for the dividend. Shareholders must hold their Infrac shares till the “distribution date” to qualify for the dividend of Lockwood Technology.

Please find below the associated terms in relations to the Spin-Off;

- Record Date - The date established by an issuer of a security for the purpose of determining the holders who are entitled to receive a dividend or distribution (if you sell your shares after the Record Date and before the distribution Date, you will lose your eligibility to receive your dividend)
- Dividend Rate - The total expected dividend payments from an investment (Spin-Off)
- Distribution Date – The date the dividend is paid out (after the completion of the Spin-off)
