NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS

October 31, 2007

(Stated in US Dollars)

(Unaudited)

Note 1 Interim Reporting

The unaudited financial information furnished herein reflects all adjustments, which in the opinion of management are necessary to fairly state the Company's financial position and the results of its operations for the periods presented. All adjustments are of a normal recurring nature. This report on Form 10-QSB should be read in conjunction with the Company's financial statements and notes thereto included in the Company's audited consolidated financial statements for the period ended January 31, 2007. The Company assumes that the users of the interim financial information herein have read or have access to the audited financial statements for the preceding period and that the adequacy of additional disclosure needed for a fair presentation may be determined in that context. Accordingly, footnote disclosure, which would substantially duplicate the disclosure contained in the Company's audited consolidated financial statements for the period ended January 31, 2007, has been omitted. The results of operations for the nine-month period ended October 31, 2007 are not necessarily indicative of results for the entire year ending January 31, 2008.

Note 2 Nature and Continuance of Operations

The Company was incorporated in the state of Nevada, United States of America on October 31, 2006. The Company was formed for the purpose of acquiring exploration and development stage mineral properties. The Company's year end is January 31. On December 7, 2006, the Company incorporated a wholly-owned subsidiary, HRE Exploration Ltd. (a BC corporation) ("HRE").

These financial statements have been prepared in accordance with generally accepted accounting principles applicable to a going concern, which assumes that the Company will be able to meet its obligations and continue its operations for its next twelve months. Realization values may be substantially different from carrying values as shown and these financial statements do not give effect to adjustments that would be necessary to the carrying values and classification of assets and liabilities should the Company be unable to continue as a going concern. At October 31, 2007, the Company had not yet achieved profitable operations, has accumulated losses of \$65,839 and expects to incur further losses in the development of its business, all of which casts substantial doubt about the Company's ability to continue as a going concern. The Company's ability to continue as a going concern is dependent upon its ability to generate future profitable operations and/or to obtain the necessary financing to meet its obligations and repay its liabilities arising from normal business operations when they come due. Management has no formal plan in place to address this concern but considers that the Company will be able to obtain additional funds by equity financing and/or related party advances, however there is no assurance of additional funding being available.

Note 3 Related Party Transactions - Note 4

The amount due to related party is due to the Company's director and is unsecured, non-interest bearing and has no specific terms for repayment.

Note 4 Common Stock

During the period ended January 31, 2007, the Company issued to its director 5,500,000 common shares at \$0.01 for proceeds of \$55,000.

Note 5 Commitment

On April 4, 2007, HRE entered into a property option agreement whereby HRE was granted an option to earn up to an 85% interest in one mineral claim located in the New Westminster Mining Division of British Columbia. Consideration for the option is cash payments totalling \$20,622 (CDN\$22,000) and exploration expenditures of \$307,462 (CDN\$328,000) as follows:

i) Cash payments:

- \$1,720 (CDN\$2,000) upon execution of the Option agreement; (paid)
- \$18,748 (CDN\$20,000) on or before March 31, 2009;

ii) Aggregate exploration expenditures of \$12,000 (CDN\$14,000) on or before March 31, 2008, (\$12,000 advanced to operator, \$6,512 exploration expenditures incurred) \$26,247 (CDN\$28,000) in aggregate on or before March 31, 2009, \$119,985 (CDN\$128,000) in aggregate on or before March 31, 2010 and \$307,462 (CDN\$328,000) in aggregate on or before March 31, 2011.

Item 2. Plan of Operation

Forward-Looking Statements

Certain statements, other than purely historical information, including estimates, projections, statements relating to our business plans, objectives, and expected operating results, and the assumptions upon which those statements are based, are “forward-looking statements” within the meaning of the Private Securities Litigation Reform Act of 1995, Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. These forward-looking statements generally are identified by the words “believes,” “project,” “expects,” “anticipates,” “estimates,” “intends,” “strategy,” “plan,” “may,” “will,” “would,” “will be,” “will continue,” “will likely result,” and similar expressions. We intend such forward-looking statements to be covered by the safe-harbor provisions for forward-looking statements contained in the Private Securities Litigation Reform Act of 1995, and are including this statement for purposes of complying with those safe-harbor provisions. Forward-looking statements are based on current expectations and assumptions that are subject to risks and uncertainties which may cause actual results to differ materially from the forward-looking statements. Our ability to predict results or the actual effect of future plans or strategies is inherently uncertain. Factors which could have a material adverse affect on our operations and future prospects on a consolidated basis include, but are not limited to: changes in economic conditions, legislative/regulatory changes, availability of capital, interest rates, competition, and generally accepted accounting principles. These risks and uncertainties should also be considered in evaluating forward-looking statements and undue reliance should not be placed on such statements. We undertake no obligation to update or revise publicly any forward-looking statements, whether as a result of new information, future events or otherwise. Further information concerning our business, including additional factors that could materially affect our financial results, is included herein and in our other filings with the SEC.

Overview

Until the date of this report, we have been in the business of mineral exploration with rights to explore property on which no minerals have yet been discovered. On April 4, 2007, we entered into a Property Option Agreement and paid approximately \$1,720 to acquire an option to purchase an 85% interest in the Nor 1 Mineral Claim. Our option on this property is unexercised.

Under the terms of the Property Option Agreement, we are able to exercise our option if we make aggregate payments of \$20,622 to the optionor on or before March 31, 2009 and expend an additional \$307,462 in aggregate exploration expenses on or before March 31, 2011. We will either satisfy the payment terms of the Property Option Agreement in the time frame provided thereby resulting in us exercising this option or we will fail to satisfy the payment terms and be in default of the Property Option Agreement. As of the date of this report, however, our management is unsure whether to move forward under our current business direction and is currently evaluating other business opportunities. We very well may choose not to exercise the terms of the Property Option Agreement.

We are obligated to incur exploration expenditures of \$12,000 on the first phase exploration program, which must be completed prior to March 31, 2008. In the event that we do not exercise our option, we will have no interest in the Nor Claim and will not be entitled to receive back any of the monies spent to maintain the option. As of the date of this report, we have completed the field work portion of the first phase of our planned exploration program, but have not yet received the written report of our consulting geologist hence are not prepared to draw any ultimate conclusions with regard to the Nor Claim.

We had \$44,292 in cash as of October 31, 2007. Accordingly, we have sufficient cash reserves to proceed with our first phase mineral exploration program. To date, we have advanced funds in the amount of \$12,000 to Mr. William Howell against which he draws for his services as our operator and expenses incurred on the Nor Claim. Once we receive results of our initial exploration program, our board of directors, in consultation with our consulting geologist will assess whether to proceed with the initiation of our second phase mineral exploration program. In making this determination to proceed with a further exploration program, we will make an assessment as to whether the results of the first exploration phase are sufficiently positive to enable us to proceed.

In the event the results of our first phase exploration program prove not to be sufficiently positive to proceed with a further exploration on the Nor Claim, we intend to identify and evaluate other business opportunities or acquisitions which management believes to be in the best interest of our company. As stated, we are currently evaluating whether we will move forward with our business plan or consider other business opportunities. We will not know for sure until the first phase is completed, including the written report of our consulting geologist. Nevertheless, we are already starting to search out other business opportunities. We have not yet identified any suitable business opportunities and there is no assurance that we will be able to do so in the future. Even if we are able to identify suitable business opportunities, there are no assurances that we will be able to acquire an interest in those opportunities or that we will have the resources to pursue such opportunities. In the event that we are successful in identifying suitable alternative business opportunities, of which there is no assurance, we anticipate that we will need to obtain additional financing in order to pursue those opportunities. As such, an investment in our shares at this time would be highly speculative.

If we choose to continue with our current business plan after an assessment of the first phase of exploration activity, the following table is a summary of the various costs and fees we anticipate that we will incur each fiscal year ending March 31 through 2010:

| Prior to March 31 | 2008 | 2009 | 2010 | 2011 |
|--------------------------------------|-------------|-------------|-------------|-------------|
| Exploration expenses | \$ 12,000 | \$ 12,000 | \$ 86,000 | \$172,000 |
| Option Costs | \$ 1,700 | - | \$ 17,200 | - |
| Legal and Accounting fees | \$ 25,000 | \$ 15,000 | \$ 15,000 | \$ 15,000 |
| Payments for administrative services | \$ 6,000 | \$ 12,000 | \$ 12,000 | \$ 12,000 |
| Payments to consulting geologist | \$ 3,130 | - | \$ 4,300 | \$ 6,700 |
| Total | \$ 47,830 | \$39,000 | \$ 134,500 | \$ 205,700 |

We had cash in the amount of \$44,292 as of October 31, 2007. Our total expenditures through the twelve-month period ending March 31, 2008 are anticipated to be approximately \$47,830. If we proceed with the second phase of our exploration program in 2008, we will have insufficient working capital to complete our second phase of exploration during our second year of operations. In the event we determine to complete the second and subsequent phases of our exploration program, we will need to raise additional funds to meet ongoing working capital needs. We have not taken any specific steps nor have any specific plans to raise additional capital at the present time.

We do not have plans to purchase any significant equipment or change the number of our employees during the next twelve months.

Off Balance Sheet Arrangements

As of October 31, 2007, there were no off balance sheet arrangements.

Results of Operations for Period Ending October 31, 2007

We did not earn any revenues from inception through the period ending October 31, 2007. We do not anticipate earning revenues until such time that we exercise our option and have entered into commercial production of the Nor Claim. We are presently in the exploration stage of our business and we can provide no assurance that we will discover commercially exploitable levels of mineral resources on the Nor mineral property, or if such resources are discovered, that we will enter into commercial production.

We incurred net operating expenses in the amount of \$18,020 for the three months ended October 31, 2007, \$45,713 for the nine months ended October 31, 2007, and \$65,839 from our inception on October 31, 2006 to October 31, 2007. Our operating expenses incurred for the three months ended October 31, 2007 primarily included \$2,513 for accounting and audit fees, \$5,432 in legal fees, and \$3,000 in management fees. Our operating expenses incurred for the nine months ended October 31, 2007 primarily included \$11,667 for accounting and audit fees, \$13,630 in legal fees, \$7,000 in management fees and mineral property exploration expenses of \$9,247. Our operating expenses incurred from our inception on October 31, 2006 to October 31, 2007 primarily included \$20,167 for accounting and audit fees, \$19,698 in legal fees, \$7,000 in management fees, mineral property exploration expenses of \$9,247, and a foreign exchange loss of \$5,517.

Liquidity and Capital Resources

We had cash of \$44,292 and exploration advances of \$5,488 for a total of \$49,780 as of October 31, 2007. We had current liabilities of \$7,825 as of October 31, 2007. As such, we had working capital of \$41,955 as of October 31, 2007.

We have not attained profitable operations and are dependent upon obtaining financing to pursue exploration activities.

Critical Accounting Policies

In December 2001, the SEC requested that all registrants list their most “critical accounting policies” in the Management Discussion and Analysis. The SEC indicated that a “critical accounting policy” is one which is both important to the portrayal of a company’s financial condition and results, and requires management’s most difficult, subjective or complex judgments, often as a result of the need to make estimates about the effect of matters that are inherently uncertain. We believe that the following accounting policies fit this definition.

Pre-exploration Stage Company

We comply with the Statement of Financial Accounting Standards (“FAS”) No. 7 “Accounting and Reporting by Development Stage Enterprises” and The Securities and Exchange Commission Act Guide 7 for its characterization of us as pre-exploration stage.

Mineral Property

Costs of acquiring mineral properties are capitalized by the project area unless the mineral properties do not have proven reserves. Costs to maintain mineral rights and leases are expensed as incurred. When a property reaches the production state, the related capitalized costs are amortized using the unit of production method on the basis of annual estimates of ore reserves. Management reviews the carrying value of mineral properties at least annually and will recognize impairment in value based upon current exploration results, and any impairment or subsequent losses are charged to operations at the time of impairment. If a property is abandoned or sold, its capitalized costs are charged to operations.

Recently Issued Accounting Pronouncements

Management does not believe that there are any recently issued accounting pronouncements but not yet effective accounting standards that could have a material effect on the accompanying financial statements.

Item 3. Controls and Procedures

We carried out an evaluation of the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) as of October 31, 2007. This evaluation was carried out under the supervision and with the participation of our Chief Executive Officer and Chief Financial Officer, Mr. Les D. Scott. Based upon that evaluation, our Chief Executive Officer and Chief Financial Officer concluded that, as of October 31, 2007, our disclosure controls and procedures are effective. There have been no changes in our internal controls over financial reporting during the quarter ended October 31, 2007.

Disclosure controls and procedures are controls and other procedures that are designed to ensure that information required to be disclosed in our reports filed or submitted under the Exchange Act are recorded, processed, summarized and reported, within the time periods specified in the SEC's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed in our reports filed under the Exchange Act is accumulated and communicated to management, including our Chief Executive Officer and Chief Financial Officer, to allow timely decisions regarding required disclosure.

Limitations on the Effectiveness of Internal Controls

Our management does not expect that our disclosure controls and procedures or our internal control over financial reporting will necessarily prevent all fraud and material error. Our disclosure controls and procedures are designed to provide reasonable assurance of achieving our objectives and our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures are effective at that reasonable assurance level. Further, the design of a control system must reflect the fact that there are resource constraints, and the benefits of controls must be considered relative to their costs. Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within the Company have been detected. These inherent limitations include the realities that judgments in decision-making can be faulty, and that breakdowns can occur because of simple error or mistake. Additionally, controls can be circumvented by the individual acts of some persons, by collusion of two or more people, or by management override of the internal control. The design of any system of controls also is based in part upon certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions. Over time, control may become inadequate because of changes in conditions, or the degree of compliance with the policies or procedures may deteriorate.

PART II - OTHER INFORMATION

Item 1. Legal Proceedings

We are not a party to any pending legal proceeding. We are not aware of any pending legal proceeding to which any of our officers, directors, or any beneficial holders of 5% or more of our voting securities are adverse to us or have a material interest adverse to us.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

On May 7, 2007, the registration statement filed on Form SB-2 (Commission file number 333-142350) was declared effective by the SEC. This offering has commenced and is ongoing. This registration statement registered 3,105,000 shares of Common Stock on behalf of certain selling shareholders of the company. We will not receive any proceeds from this offering and have not made any arrangements for the sale of these securities.

Item 3. Defaults upon Senior Securities

None

Item 4. Submission of Matters to a Vote of Security Holders

No matters have been submitted to our security holders for a vote, through the solicitation of proxies or otherwise, during the quarterly period ended October 31, 2007.

Item 5. Other Information

None

CERTIFICATIONS

I, Les D. Scott, certify that;

(1) I have reviewed this quarterly report on Form 10-QSB of Hybrook Resources Corp.;

(2) Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;

(3) Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the small business issuer as of, and for, the periods presented in this report;

(4) The small business issuer's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) for the small business issuer and have:

a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the small business issuer, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;

b) Evaluated the effectiveness of the small business issuer's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and

c) Disclosed in this report any change in the small business issuer's internal control over financial reporting that occurred during the small business issuer's most recent fiscal quarter (the small business issuer's fourth quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the small business issuer's internal control over financial reporting; and

(5) The small business issuer's other certifying officer(s) and I have disclosed, based on our most recent evaluation of the internal control over financial reporting, to the small business issuer's auditors and the audit committee of small business issuer's board of directors (or persons performing the equivalent functions):

a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the small business issuer's ability to record, process, summarize and report financial information; and

b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the small business issuer's internal control over financial reporting.
