</TABLE>

The Net Total Annual Operating Expenses shown in the table reflect contractual arrangements currently in effect under which the investment advisers of certain investment portfolios have agreed to waive fees and/or pay expenses of the investment portfolios until at least April 30, 2013. In the table, "0.00%" in the Contractual Fee Waiver and/or Expense Reimbursement column indicates that there is a contractual arrangement in effect for that investment portfolio, but the expenses of the investment portfolio are below the level that would trigger the waiver or reimbursement. The Net Total Annual Operating Expenses shown do not reflect voluntary waiver or expense reimbursement arrangements or arrangements that terminate prior to April 30, 2013. The investment portfolios provided the information on their expenses, and we have not independently verified the information.

Certain investment portfolios that have "Acquired Fund Fees and Expenses" are "fund of funds." Each "fund of funds" invests substantially all of its assets in other portfolios. Because the investment portfolio invests in other underlying portfolios, the investment portfolio will bear its pro rata portion of the operating expenses of the underlying portfolios in which it invests, including the management fee. See the investment portfolio prospectus for more information.

#### INVESTMENT OPTIONS

The contract offers the investment portfolios which are listed below. Appendix B contains a summary of subadvisers and investment objectives for each portfolio. Additional investment portfolios may be available in the future.

MARKET TIMING

The following paragraphs in this section have been modified:

The investment portfolios may have adopted their own policies and procedures with respect to market timing transactions in their respective shares, and we reserve the right to enforce these policies and procedures. For example, the investment portfolios may assess a redemption fee (which we reserve the right to collect) on shares held for a relatively short period. The prospectuses for the investment portfolios describe any such policies and procedures, which may be more or less restrictive than the policies and procedures we have adopted. Although we may not have the contractual authority or the operational capacity to apply the market timing policies and procedures of the investment portfolios, we have entered into a written agreement, as required by SEC regulation, with each investment portfolio or its principal underwriter that obligates us to provide to the investment portfolio promptly upon request certain information about the trading activity of individual Owners, and to execute instructions from the investment portfolio to restrict or prohibit further purchases or transfers by specific Owners who violate the frequent trading policies established by the investment portfolio.

In addition, Owners and other persons with interests in the Policies should be aware that the purchase and redemption orders received by the investment portfolio generally are "omnibus" orders from intermediaries such as retirement plans or separate accounts funding variable insurance contracts. The omnibus orders reflect the aggregation and netting of multiple orders from individual owners of variable insurance contracts and/or individual retirement plan participants. The omnibus nature of these orders may limit the investment portfolios in their ability to apply their market timing policies and procedures. In addition, the other insurance companies and/or retirement plans may have different policies and procedures or may not have any such policies and procedures because of contractual limitations. For these reasons, we cannot guarantee that the investment portfolios (and thus Owners) will not be harmed by transfer activity relating to other insurance companies and/or retirement plans that may invest in the investment portfolios. If an investment portfolio believes that an omnibus order reflects one or more transfer requests from Owners engaged in disruptive trading activity, the investment portfolio may reject the entire omnibus order.

In accordance with applicable law, we reserve the right to modify or terminate the transfer privilege at any time. We also reserve the right to defer or restrict the transfer privilege at any time that we are unable to purchase or

redeem shares of any of the investment portfolios, including any refusal or restriction on purchases or redemptions of their shares as a result of their own policies and procedures on market timing and disruptive trading activities (even if an entire omnibus order is rejected due to the market timing or disruptive trading activity of a single Owner). You should read the investment portfolio prospectuses for more details.

#### DOLLAR COST AVERAGING PROGRAMS

The following paragraph is added to this section:

If you make an additional purchase payment while a dollar cost averaging program is in effect, we will not allocate the additional payment to the program unless you tell us to do so. Instead, unless you previously provided different allocation instructions for future purchase payments or provide new allocation instructions with the payment, we will allocate the additional purchase payment directly to the same destination investment portfolios you selected under the dollar cost averaging program. Any purchase payments received after the program has ended will be allocated as described in "Purchase--Allocation of Purchase Payments."

#### EXPENSES

##### WITHDRAWAL CHARGE

The following sentence has been added to this section:

For participants of 403(b) arrangements, 401(a), 401(k) and 457 plans, if you make a transfer to another funding vehicle or annuity contract issued by us or by one of our affiliates, we may waive the withdrawal charge if it is permitted in your state.
