ITEM 5 OTHER EVENTS.

On July 19, 1995, Medar, Inc. reported in a press release that it had settled its patent litigation which was initiated by Square D Company in April of 1994 in the Federal District Courts in Eastern District of Michigan and in Delaware. This resolution also settles claims made by Medar against Square D for violation of a Medar patent. The terms of the settlement made under the auspices of the Federal District Court in Delaware provide for a cross license agreement on all single phase welding patents held by either company.

Specific terms of the agreement will not be disclosed. However, Medar expects to record an after tax charge, for payments under the terms of the settlement and for other related expenses, which is anticipated to approximate \$3.1 million (\$.36 per share) in its quarter ended June 30, 1995. In addition, Medar has agreed to make yearly payments for the use of technology in the future that are expected to approximate 1% of sales of welding products.
