Principal Investment Strategy

The Advisor strives to maintain a \$1.00 net asset value (“NAV”) per share for the Tax-Free Money Market Fund by investing substantially all of the Fund’s assets in short-term **tax-exempt securities** which are either rated in the highest rating category by a Nationally Recognized Statistical Rating Organization (“NRSRO”) or unrated and deemed to be of comparable quality by the Advisor.

In managing the portfolio, the Advisor determines an appropriate dollar-weighted average maturity range for the Fund and endeavors to diversify the portfolio’s holdings as much as possible. In addition, the Advisor analyzes cash flows, maturities, settlements, tax payments, yields and credit quality and monitors new issue calendars for potential purchases.

Not A Deposit * Not Insured By Any Government Agency * Not FDIC Insured * No Bank Guarantee * May Lose Value

Tax-exempt securities are debt securities typically issued by states, counties, cities, and other political subdivisions and authorities and which pay interest that is exempt from Federal income tax.

Principal Investment Risks

All mutual funds take investment risks. Therefore, it is possible to lose money by investing in the Fund. An investment in the Fund is not a bank deposit and is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency. Although the Fund seeks to preserve the value of your investment at \$1.00 per share, it is possible to lose money by investing in the Fund. The primary factors that may reduce the Fund's NAV and returns include:

Interest Rate Risk. The value of the Fund's investments in fixed income securities may decline when prevailing interest rates rise or increase when interest rates go down. The longer a security's maturity or duration, the greater its value will change in response to changes in interest rates. The interest earned on the Fund's investments in fixed income securities may decline when prevailing interest rates decline.

Credit Enhancement Risk. A security held by the Fund may be subject to "credit enhancement" (for example, a guarantee) provided by a third-party. If the credit rating of the credit enhancer is downgraded, the value of the security held by the Fund may be adversely affected.

Credit Risk. Issuers of securities in which the Fund invests may have their credit ratings downgraded or may default in the payment of principal or interest on the securities, which would cause the Fund to lose money.

Counterparty Risk. The value of the Fund's investments may be adversely affected if a security's credit rating is downgraded; an issuer of an investment held by the Fund fails to pay an obligation on a timely basis, otherwise defaults or is perceived by other investors to be less creditworthy; or a counterparty to a derivatives or other transaction with the Fund files for bankruptcy, becomes insolvent, or otherwise becomes unable or unwilling to honor its obligation to the Fund.

Recoupment Risk. The Advisor entered into an agreement with the Fund effective June 15, 2009, whereby the Advisor agreed to waive all or a portion of its investment advisory fee and/or to reimburse certain operating expenses of the Fund to the extent necessary to ensure that the Fund maintains a positive yield of at least 0.01%. The Advisor shall be entitled to recoup from the Fund any waived and/or reimbursed amounts pursuant to the agreement for a period of up to three (3) years from the date of the waiver and/or reimbursement. This recoupment could negatively affect the Fund's future yield. The Advisor may terminate the agreement at any time upon thirty (30) days prior written notice to the Fund.

Payments to Broker-Dealers and Other Financial Intermediaries

If you purchase the Fund through a broker-dealer or other financial intermediary (such as a bank), the Fund and its related companies may pay the intermediary for the sale of Fund shares and related services. These payments may create a conflict of interest by influencing the broker-dealer or other intermediary and your salesperson to recommend the Fund over another investment. Ask your salesperson or visit your financial intermediary' s Web site for more information.
