As of December 31, 2012, our Board consisted of the following members.

As part of the biographical information for each of our Directors, included below is a description of certain experience, qualifications, attributes and skills that contribute to such Director's effectiveness as a Director, and to the Board's effectiveness overall, and that led our Nominating and Corporate Governance Committee and Board to conclude that these individuals should serve as our Directors.

Walter C. Zable. Mr. Zable has been our Executive Chairman of the Board since June 2012 and has served as a director and Vice Chairman of the Board since 1976. He has also served as Vice President of the Company from 2003 to June 2012, and Chairman of the Board of Cubic Transportation Systems, Inc., a wholly-owned subsidiary of the Company from 2003 to June 2012. Beginning in 1976, he has held a variety of management positions with increasing responsibilities in defense and most recently with our transportation subsidiary. He is the son of the late Walter J. Zable, founder of the Company. Mr. Zable's extensive knowledge of our company and his wealth of experience in the technology industry provide him with the background to be the Executive Chairman of the Board.

William W. Boyle. Mr. Boyle has been our Interim President and Chief Executive Officer and Executive Vice President since June 2012, and Chief Financial Officer since 1983. He has served as a Director since 1995. Previously, Mr. Boyle held financial management positions with General Electric, Occidental Petroleum, and the Wickes Corporation. He has also been Chair of its Finance, Audit and Executive Committees, and a Director for 14 years. At SDG&E he held increasingly important jobs including managing its natural gas pipeline transmission system, and administration of its 20% ownership interest in the San Onofre Nuclear Generating System.

Since 2008, he has also been a director of the California Water Service Group. As an executive in a highly regulated industry, he brings unique governmental relations experience to our Board. He is also very knowledgeable in risk management, which is attracting close scrutiny at this time. Audit and Compliance Committee

In fiscal year 2012 all Independent Directors were members of this Committee which met eight times. Each member is independent as defined under Section 303A.02 of the New York Stock Exchange Listed Company Manual, Rule 10A-3 under the Securities Exchange Act of 1934, as amended, and in our Corporate Governance Guidelines and is financially literate. Mr. Blakley is our Audit Committee Financial Expert and has extensive accounting experience.

The Committee oversees the Company's financial reporting process. It is responsible for the appointment, retention and termination of the independent auditors and their compensation. It resolves any disputes between management and the auditors. It pre-approves all audit and non-audit services according to a written plan and budget submitted by the auditors. It meets at least quarterly with the auditors and reviews their periodic reports. The Committee discusses with the auditors the scope and plan for the audit and includes management in its review of accounting and financial controls, assessment of business risks and legal and ethical compliance programs.

No Independent Director has been a member of an audit committee of any other publicly-held company except Mr. Blakley who is Chair of an audit committee for a publicly held real estate investment trust. The trust is unrelated to Cubic and its subsidiaries and does not present any conflicts of interest for Cubic or the industry in which it operates.

Report of the Audit and Compliance Committee

The material in this report is not "soliciting material," is not deemed "filed" with the Securities and Exchange Commission, and is not to be incorporated by reference into any filing of the Company under the Securities Act of 1933, as amended, or the Securities Exchange Act of 1934, as amended.

The Committee selected Ernst & Young LLP as the independent registered public accountants (“Accountants”) of the Company for fiscal year 2012. The Committee has reviewed and discussed with management and the Accountants the audited financial statements of the Company for the fiscal year ended September 30, 2012. The Committee has also discussed with Accountants the matters required to be discussed by Statement on Auditing Standards No. 61, or the Codification of Statements on Auditing Standards, AU Section 380, and has received from Accountants the written disclosures and the letter required by the Public Company Accounting Oversight Board (Independence Discussions with Audit Committees), and has discussed with Accountants their independence.

Based on its review of the audited financial statements for fiscal year 2012 and its discussions with management and the Accountants, the Committee recommended to our Board of Directors that the 2012 audited financial statements be included in the Company’s Annual Report on SEC Form 10-K.

Executive Compensation Committee

The Committee members are Dr. Robert S. Sullivan, Chairman, Bruce G. Blakley and Edwin A. Guiles. The Committee met three times during fiscal year 2012. Each of the members of the Committee is independent as defined under Section 303A.02 of the New York Stock Exchange Listed Company Manual.

Compensation Committee Interlocks and Insider Participation

During the fiscal year, Dr. Sullivan and Messrs. Blakley and Guiles did not serve either as a director or as a member of the compensation committee of any other entity whose executive officers served either as a director or as a member of the Executive Compensation Committee of the Company. Therefore, there were no “interlocks” with other companies within the meaning of the proxy rules of the SEC. No member of the Committee is a former or current officer or employee of the Company or any of its subsidiaries. See also the section “Executive Compensation” later herein.

Nominating and Corporate Governance Committee

The Committee members are Dr. John H. Warner, Jr., Chairman, and Dr. Robert S. Sullivan. The Committee held one meeting during fiscal 2012. The Committee’s policy is to consider recommendations of shareholders which are received by the Corporate Secretary at least 120 days prior to one year from the date of the mailing of Notice of the previous annual meeting of shareholders. Recommendations of candidates who have at least 20 years of management and defense or transportation industry experience with a company with sales of at least 75% of that of the Company, or who could bring appropriate diversity to the Board, or who possess other relevant qualifications (for example finance and accounting or marketing) would be preferred. If a vacancy in the Board occurs, the Committee seeks recommendations from the Board and senior management personnel. The Committee will also review any security holder recommendations on file. It screens and personally interviews appropriate candidates. Selected candidates may meet with additional Board members, certain members of management and the Chairman of the Board. The Committee evaluates responses and recommends to the full Board the name of any candidate it feels should become a nominee for election or appointment.

The governance responsibilities of the Committee include tracking important legal and regulatory changes and new concepts in entity governance. Additionally, it is advised concerning the ethics and compliance training activities companywide supervised by the Senior Counsel, Ethics and Compliance and the Human Resources department.

In conjunction with the Audit and Compliance Committee and the Board, the Committee also addresses Company legal compliance efforts in certain complex areas, such as export control, antitrust and foreign corrupt practices. It also oversees supervisor training topics. In conjunction with the Audit and Compliance Committee and the Board, it is cognizant of enterprise risk. In its analysis, enterprise risk does not necessarily include the hundreds of risks which, if encountered, could be mitigated without substantial harm to any major segments of the Company. Instead, the concern is to identify, and have a plan to respond to, those few issues which could seriously impact the short or long term ability of the Company, or one of its material divisions, to continue normal operations.

Risk Management

The Audit and Compliance Committee reviews and approves the procedures adopted and conclusions reached by our management Enterprise Risk Group (ERG) and discusses with the Chair of the ERG, or the ERG itself, major risk exposures and the steps that have been taken to monitor and control such exposures.

Matters of risk management are brought to the attention of the Audit and Compliance Committee by the General Counsel, who chairs the ERG, and the Director of Internal Audit. The ERG reviews and assesses perceived risks to the enterprise as a whole and its three major segments. It works with relevant managers and develops mitigation and remediation plans. Periodic reports are made.

We have an ERG for the parent company and sub-groups for each of our major segments. Each group, led by the Chair, consists of its senior officers who meet periodically to identify, assess and rank the perceived severity of risks unique to their businesses. Appropriate mitigation plans and training will be implemented. To date, the ERG has not identified any risks, capable of control, which it believes cannot be reasonably controlled.

Section 16(a) Beneficial Ownership Reporting Compliance

Based solely on a review of SEC Forms 3, 4 and 5, and amendments thereto, furnished to the Company during fiscal year 2012 and written representations received from our Directors and officers, no Director, officer or beneficial owner of more than 10% of the Common Stock of the Company failed to file on a timely basis during the 2012 fiscal year the reports required by Section 16(a) of the Securities Exchange Act of 1934, as amended, except for a Form 3 for Karen Zable Cox and a Form 3 for Zable QTIP Marital Trust dated 9/18/1978, The Survivor's Trust Created Under the Zable Trust Dated 9/18/1978, Walter J. Zable Special Trust Dated May 6, 2003, Zable Trust Dated September 18, 1978, Zable Reverse QTIP Marital Trust Dated 9/18/78 and Zable Non-QTIP Marital Trust Dated 9/18/78 which were filed 14 days late due to a system problem of the SEC EDGAR website that delayed issuance of EDGAR codes for the new filers.

Item 11. EXECUTIVE COMPENSATION.

Compensation Discussion and Analysis

This Compensation Discussion and Analysis describes the Company's compensation philosophy and the objectives of the Company's compensation program for its executive officers, including the Named Executive Officers listed in the Summary Compensation Table below (the "NEO"s) and how the Executive Compensation Committee oversees the executive compensation program. This Compensation Discussion and Analysis also describes the compensation determination process for fiscal year 2012 and how each element of compensation was determined.

Overview and Objectives of Executive Compensation Program

The Board recognizes that there is considerable public discussion regarding appropriate approaches to compensation. However, the Board believes that the Company's executive compensation policies are balanced, appropriately focused on pay for performance principles, strongly aligned with the long-term interests of our shareholders, and enable the Company to attract and retain strong and experienced senior executives.

As described more fully in this Compensation Discussion and Analysis herein, the Company evaluates executive officer compensation in several different ways, including reviewing market survey compensation data, reviewing customized compensation information for companies of comparable size and complexity and receiving advice and recommendations from the Chief Executive Officer. These multiple bases of review and evaluation ensure that our executive compensation is competitive yet closely tied to each executive officer's performance. Additionally, the Company's formula bonus program recognizes and rewards the success of executives who manage performance to achieve the short-term goals set for them every year by the Company and the Executive Compensation Committee.

We presently have two elements in our executive compensation plan: base salary and an annual performance bonus. There were no equity awards to our NEOs during fiscal year 2012. However, Towers Watson, the Executive Compensation Committee's independent compensation consultant, has been advising the Executive Compensation Committee regarding equity awards to our executive officers during fiscal year 2013 and beyond, as an incentive for selected individuals to lead the Company in achieving long-term goals.

Setting Executive Compensation – Role of the Executive Compensation Committee and Management

The Executive Compensation Committee is responsible for overseeing our executive compensation program for all elected corporate principal officers including the NEOs, for the senior officers of the company's major business units and for our Independent Directors, as well as determining and approving ongoing compensation arrangements for our NEOs. In making its decision, the Executive Compensation Committee receives, reviews, and acts on recommendations from the (Interim) Chief Executive Officer ("CEO") regarding salary and bonus compensation for all elected corporate principal officers including the NEOs, for the senior officers of its major business units and for our Independent Directors. Our human resources department assists the CEO in the formulation of compensation recommendations to the Executive Compensation Committee, and other executive officers may provide relevant input. It evaluates and approves these compensation elements annually. It receives input from the CEO on his salary and bonus expectations, but acts independently to set such amounts. If relatives of any Director or elected corporate principal officer are also employees of the Company or any subsidiary and make more than \$120,000, the Committee also reviews salary and bonus recommendations for such individuals.

Role of Compensation Consultant and Comparable Company Information

Our Executive Compensation Committee has not historically established compensation levels based on benchmarking. Our Executive Compensation Committee has instead relied upon the judgment of its members in making compensation decisions after reviewing our performance and carefully evaluating an NEO's performance during the year against established goals, leadership qualities, operational performance, business responsibilities, career with our company, current compensation arrangements and long-term potential to enhance stockholder value.

However, in order to attract, retain and motivate senior executives, our annual compensation evaluation process does include a review of the salary and bonus practices of organizations of similar size, in comparable industries, and concerning individuals with

relevant responsibilities and experience. The CEO and our human resources department support their recommendations regarding executive compensation with this competitive market data. For fiscal year 2012, executive compensation levels by job category were reviewed in the context of industry survey data provided by two independent consulting firms (Radford and Mercer), which surveys were subscribed to by our human resources department (which survey data is not customized for the Company). The companies included in these surveys have both a regional and national focus. Together, these surveys included data from approximately 2,200 companies and included data regarding both executive and non-executive salaries, bonuses and equity compensation. We do not instruct the providers of this data to significantly vary their reports from a standard format and the identities of the individual companies included in the surveys were not provided to the Executive Compensation Committee, and the Executive Compensation Committee did not refer to individual compensation information for such companies. Our objective is to obtain data from a broad spectrum of technology and defense companies and also from public companies of similar size in sales. Historical compensation for the individual is also considered. Commonly, annual executive salary adjustments are modest and in line with cost of living considerations.

While the Executive Compensation Committee reviewed the foregoing comparable company data in connection with its determinations of the fiscal year 2012 base salaries and target bonuses for our NEOs, the Executive Compensation Committee did not attempt to set those compensation levels or awards at a certain target percentile with respect to the comparable company data or otherwise rely entirely on that data to determine NEO compensation. Instead, as described above and consistent with past practice, the Executive Compensation Committee members relied on their judgment and experience in setting those compensation levels and making those awards. We expect that the Executive Compensation Committee will continue to review comparable company data in connection with setting the compensation we offer our NEOs to help ensure that our compensation programs are competitive and fair.

The Executive Compensation Committee is authorized to retain the services of one or more executive compensation advisors, as it sees fit, in connection with the oversight of our executive compensation program. During fiscal year 2012, the Executive Compensation Committee independently engaged and received advice from, and separately compensated, Towers Watson. Towers Watson provided the Executive Compensation Committee with advice regarding senior executive compensation and Independent Director compensation. Towers Watson was asked to survey similarly sized companies in similar businesses in respect of senior executive positions and responsibilities, taking into account the range of salary and bonus compensation without reference to perquisites and equity-based or related awards. It was also asked for input concerning Independent Director compensation. Towers Watson's services during fiscal year 2012, however, related to setting compensation for fiscal year 2013 and beyond and designing a new long-term equity incentive award program.

As part of its review, Towers Watson prepared an independent assessment of competitive compensation levels and incentive practices for the Company's senior executive positions for fiscal year 2013 and beyond. The review was based on the Radford and Mercer published survey data provided by Cubic Human Resources as well as proxy disclosures by a select group of relevant peer companies. The peer companies were selected by Towers Watson with review and input by the Executive Compensation Committee and senior management based on industry sector, size and performance. The objective was to have a group of companies sufficient in size and relevance to provide meaningful assessments of compensation levels and practices. The peer group of companies was also used in fiscal year 2012 in setting Independent Director Compensation, as described below. The peers included the following 15 defense and technology companies.

AeroVironment, Inc.
Ansys, Inc.
CACI International, Inc.
Ducommun Inc.
Esterline Technologies Corp.
HEICO Corp.
iGATE Corporation

Kratos Defense & Security Solutions, Inc.
ManTech International Corporation
Moog Inc.
NCI, Inc.
Teledyne Technologies Inc.
Teradata Corporation
Unisys Corporation
ViaSat, Inc.

Because management and the Board believe our compensation policies are not reasonably likely to result in the incurrence of a material adverse financial or other effect, we have not had a policy requiring a return (“claw back”) of bonus payments if our financial statements were required to be restated. Moreover, we believe our compensation policies and practices have not and will not impact our risk management objectives and do not create risks that are reasonably likely to have a material adverse effect on the Company.

Response to the 2012 Say on Pay Vote

In February 2012, we held a say-on-pay vote, and our shareholders overwhelmingly approved the compensation of our NEOs, with over 99% of shareholder votes cast in favor of our 2012 say-on-pay resolution (excluding abstentions and broker non-votes). As we evaluated our compensation practices and talent needs after this date, we were mindful of the strong support our shareholders expressed for our compensation philosophy. Following its annual review of our executive compensation practices following the annual meeting, the Executive Compensation Committee decided generally to retain the approach to executive compensation it had previously adopted for fiscal year 2011.

Fiscal Year 2012 Executive Compensation Decisions

The amount of each element of pay is determined annually taking into account factors including market rates of pay for each position, the alignment of duties as compared to market descriptions, individual performance and contribution and the overall performance of the company versus objectives (see below for specific target description). A description of the executive compensation decisions with respect to fiscal year 2012 compensation for the NEOs is set forth below.

Base Salary

Base salaries for our executives are established based on individual factors such as the scope of their responsibilities, background, track record, training and experience, as well as competitive market compensation and the overall market demand for such executives at the time the respective employee agreements are negotiated. As with total executive compensation, we believe that executive base salaries should be competitive with the range of salaries for executives in similar positions and with similar responsibilities, although we have not historically benchmarked executive base salaries against a specific market comparison group. An executive’s base salary is also evaluated together with components of the executive’s other compensation to ensure that the executive’s total compensation is consistent with our overall compensation philosophy.

In November 2011 the Executive Compensation Committee reviewed the base salaries of the NEOs and determined, after consultation with the CEO (with respect to the salaries of the other NEOs) and a review of the comparable company information described above, determined to increase the base salary of each NEO by 5% over the fiscal year 2011 levels. The fiscal year 2012 base salaries for each of the NEOs are reflected in the Summary Compensation Table below.

Annual Incentives

Our executive compensation program includes eligibility for an annual performance-based cash bonus for all executives. Our annual bonuses emphasize pay-for-performance by providing our executives with the opportunity to receive performance bonuses based

on corporate performance relative to those measures which are determined by the Executive Compensation Committee to be most likely to enhance shareholder value.

For fiscal year 2012, each NEO had a target bonus of 50% of salary. There is a floor of 10% of salary and a ceiling of one and one-half times the target bonus.

For fiscal year 2012, the NEOs were eligible to receive a fiscal year 2012 bonus if the financial performance of the Company met selected goals with relationship to sales, adjusted earnings before interest, taxes, depreciation and amortization (“Adjusted EBITDA”), return on net assets and earnings per share. The fiscal year 2012 bonus formula identified the major bonus element as earnings per share (“EPS”). The various performance objectives under the annual bonus plan are weighted depending on the Executive Compensation Committee’s belief regarding the suitability of emphasis of each factor for that year’s performance. The Executive Compensation Committee selected this element as the most heavily-weighted under the plan because the company believes EPS to be a principal driver of the attractiveness of an equity investment in the company. For our fiscal year 2012 bonus plan, no leeway was provided to adjust goal amounts or percentage allocations depending on actual performance and the annual bonus determination was purely formulaic. We anticipate that the fiscal year 2013 annual bonus plan will be similar.

As the table below illustrates, each of the goals, (except for return on net assets which does not change from year to year) is in excess of the company’s goals in these categories for fiscal year 2011. Target levels have usually been set to require attainable increases over the prior year’s goals, neither very aggressive nor easy to achieve. The Executive Compensation Committee and management believe this approach specifically eliminates risk-taking business management tactics especially because failure to attain any target cannot be controlled by only a few individuals and it penalizes all participants.

Performance measures (In thousands, except per share data)	2011		2012 Weighting %	2012		2012 % of Salary Earned
	2011 Target	Actual (as restated)		2012 Target	2012 Actual	
Sales	\$ 1,233,000	\$ 1,295,581	10%	\$ 1,325,000	\$ 1,381,495	6.07%
Adjusted EBITDA ⁽¹⁾	\$ 116,800	\$ 135,849	10%	\$ 120,000	\$ 150,879	7.50%
Return on Net						
Operating Assets	30.0%	61.7%	30%	30.0%	49.3%	22.50%
Earnings Per Share	\$ 2.40	\$ 3.14	50%	\$ 2.60	\$ 3.44	37.50%
					Total	73.57%

⁽¹⁾Adjusted Earnings Before Interest, Taxes, Depreciation and Amortization (“Adjusted EBITDA”) is a non-GAAP performance measure management uses that excludes income taxes, capital structure related expenses, non-operating income and expenses and depreciation and amortization. The following is a reconciliation of Adjusted EBITDA to net income:

In thousands	Years Ended September 30,	
	2012	2011 (As Restated)
Reconciliation:		
Net income attributable to Cubic	\$ 91,900	\$ 83,594
Add:		
Provision for income taxes	38,183	32,373
Interest expense, net	(1,444)	(1,107)

Other income, net	(821)	(1,662)
Noncontrolling interest in income of VIE	204	310
Depreciation and amortization	22,857	22,341
Adjusted EBITDA	\$ 150,879	\$ 135,849

The annual bonus formula for fiscal year 2012 provided that, for each 1% achievement above a performance goal, the bonus amount attributable to that performance goal would be increased by 2.5% to a maximum of an additional 50% of that portion of the bonus amount at an achievement of 20% above the performance goal. For each 1% shortfall in a performance goal the bonus amount attributable to that performance goal would be decreased by 3%, 4.5% or 5% (depending on the amount of shortfall) so that 75% achievement of any performance goal would result in no bonus award for that goal. Each of the 2012 goals were exceeded, some by substantial percentages, as described in the table above. The overall weighted percentage achievement relative to all performance goals for fiscal year 2012 was 147.15%, which percentage was then multiplied by each NEO's target bonus to determine his final fiscal year 2012 annual bonus. Each NEO's fiscal year 2012 annual bonus award is disclosed in the Summary Compensation Table below.

Equity Awards

The Company does not offer sponsored equity arrangements to its NEOs, although it may do so during fiscal year 2013.

Deferred Compensation Plan

Certain of the NEOs participate in the Cubic Corporation Amended and Restated Deferred Compensation Plan (the "Deferred Compensation Plan"). For more information, please see the Nonqualified Deferred Compensation table below.

Retirement Benefits

All of our regular employees, including our NEOs, who meet certain defined requirements, may participate in our 401(k) plan. 401(k) matching payments and Profit Sharing Plan participations are equally available to all eligible employees. The Profit Sharing payment does not significantly fluctuate from year-to-year and has been typically about 8.5% of eligible U.S. payroll, although there is no guarantee that it will be set at that level or that such allocation will be made at all in the future. The value of the Company's contributions on behalf of the NEOs during fiscal year 2012 is set forth in the Summary Compensation Table below.

Certain of the NEOs are also participants in the Cubic Corporation Pension Plan (the "Pension Plan"), which plan was frozen as of December 31, 2006. For more information, please see the Pension Benefits table below.

Other Benefits

The few additional perquisites offered to senior executives are modest and are not considered by the Committee to be material elements of individual compensation. These include annual physical examinations, term life insurance, an auto allowance, and for Walter J. Zable included an annual amount for personal estate planning services and club membership. The value of these benefits, to our NEOs is set forth in the Summary Compensation Table below. Our Executive Compensation Committee periodically reviews the levels of perquisites and other personal benefits to the NEOs to ensure they fit within the Company's overall compensation philosophy.

Severance and Change in Control Benefits

The Board has approved severance and change in control arrangements in which our NEOs participate to provide for certain severance benefits in the event that a NEO's employment is involuntarily or constructively terminated, including in connection with a

change in control. The Company recognizes the challenges executives often face securing new employment following termination. To mitigate these challenges and to secure the focus of our management team on the Company's affairs, all NEOs are entitled to receive severance payments under their employment agreements upon a termination by the Company without cause. The Company believes that reasonable severance benefits for its executive officers are important because it may be difficult for its executive officers to find comparable employment within a short period of time following certain qualifying terminations. In addition to normal severance, we provide enhanced benefits in the event of an involuntary termination or a constructive termination within 12 months prior to or 24 months following a change in control as a means of reinforcing and encouraging the continued attention and dedication of our executives to their duties of employment without personal distraction or conflict of interest in circumstances that could arise from the occurrence of a change in control. The Company believes that the interests of shareholders will be best served if the interests of its executive officers are aligned with them, and providing these change in control benefits should eliminate, or at least reduce, the reluctance of the Company's executives to pursue potential change in control transactions that may be in the best interests of shareholders.

Our Transition Protection Plan (the "Protection Plan"), under which the foregoing change in control severance benefits are provided, also assists in the retention and attraction of senior individuals by reducing their concern for financial security in the event of a job loss in connection with a change of control. Awards to date, which result in plan participation, are for payment of five-year average compensation, and certain fringe benefits, for not more than 24 months following a change of control. The 24-month period was selected to remain comfortably below the range at which onerous taxation would occur. While these arrangements form an integral part of the total compensation provided to these individuals and are considered by the Executive Compensation Committee when determining NEO compensation, the decision to offer these benefits did not influence the Executive Compensation Committee's determinations concerning other direct compensation or benefit levels.

The terms of these severance arrangements are described below under "Potential Payments Upon Termination or Change in Control".

Deductibility of Executive Compensation

As part of its role, the Executive Compensation Committee reviews and considers the deductibility of the Company's executive compensation under Section 162(m) of the Internal Revenue Code. Section 162(m) generally limits the tax deduction for compensation in excess of one million dollars paid to certain executive officers. However, performance-based compensation is excluded from the limit so long as it meets certain requirements.

In its review and establishment of compensation programs and awards for our NEOs, the Executive Compensation Committee considers the anticipated deductibility or non-deductibility of the compensation as a factor in assessing whether a particular compensatory arrangement is appropriate, particularly in light of the goals of maintaining a competitive executive compensation system generally (i.e., paying for performance and maximizing shareholder return).

We periodically review the potential consequences of Section 162(m) and may structure the performance-based portion of our executive compensation to comply with certain exemptions in Section 162(m). However, we reserve the right to use our judgment to authorize compensation payments that do not comply with the exemptions in Section 162(m) when we believe that such payments are appropriate and in the best interests of the shareholders, after taking into consideration changing business conditions or the officer's performance.

Compensation Committee Report

The material in this report is not “soliciting material,” is not deemed “filed” with the Securities and Exchange Commission, and is not to be incorporated by reference into any filing of the Company under the Securities Act of 1933, as amended, or the Securities Exchange Act of 1934, as amended.

The Executive Compensation Committee makes recommendations to the Board concerning the compensation of the Company’s executives. We have reviewed and discussed with management the Compensation Discussion and Analysis and, based on such review and discussions, recommended to the Board that the Compensation Discussion and Analysis be included in the Company’s Annual Report on Form 10-K for the year ended September 30, 2012 and in our Proxy Statement for our 2013 Annual Meeting of Shareholders. The Board approved our recommendation.

⁽¹⁾ During fiscal years 2010, 2011, and 2012 there were no stock or option awards to any NEO. Additionally, the amounts shown as earnings during fiscal year 2012 in the Nonqualified Deferred Compensation table later herein are not included in the Summary Compensation Table above because they are not above market or preferential.

⁽²⁾ Represents amounts paid under our annual incentive program. The amounts for fiscal years 2011 and 2010 were previously reported under the “Bonus” column, but the company has determined that such amounts should properly be reported as “Non-Equity Incentive Plan Compensation” and has reported them accordingly in the table above.

⁽³⁾ Amounts represent solely the change in the actuarial present value of the accumulated benefit under the pension plan that was frozen at December 31, 2006 and does not represent a change in the benefit to be paid to the executive. The change in pension value is the estimated year-over-year change in the present value, including: a) change in discount rate assumption; b) passage of time and; c) changes in demographics. Where amounts are negative, they are shown as zero in the table. Negative amounts were as follows: for Walter J. Zable, \$91,505, \$10,207 and \$17,119, in 2012, 2011 and 2010, respectively; for Walter C. Zable, \$14,876 in 2011; for John D. Thomas, \$9,216 in 2011. The amounts were computed using the same assumptions we used for financial statement reporting purposes. See “Pension Benefits” herein.

Additionally, the amounts shown as earnings during fiscal year 2012 in the Nonqualified Deferred Compensation table, later herein, are not included in the Summary Compensation Table above because they are not above market or preferential.

**Pension Benefits
Fiscal Year 2012**

The following table sets forth the present value of accumulated benefits under the Pension Plan for the NEOs and the payments under the Pension Plan to Walter J. Zable during fiscal year 2012 ⁽¹⁾

⁽¹⁾ The Pension Plan was frozen as of December 31, 2006; no additional benefits accrue after that date. The purpose of the Pension Plan was to provide a modest monthly retirement benefit, to supplement social security payments, for eligible full-time U.S. employees who have completed one year of service with the Company. The Company has not granted extra years of credited service to any employee. The full benefit is available, upon retirement, to any eligible employee who (a) has attained age 65, or (b) is between age 55 and 64 and whose combined age and number of years of service equals 85. A reduced benefit is available at or after age 55 through age 64 if the employee has at least five years of service. The annual benefit is determined by adding total salary and bonus (not exceeding the ERISA cap in any year) during the time of participation and multiplying the sum by 3/4ths of 1%. Benefits are paid monthly. The monthly amount will vary based upon the form of benefit selected, e.g. a life annuity or a joint and 50% survivor annuity.

⁽²⁾ The present value of the accumulated benefit is determined by the projected unit credit method in a manner consistent with that used, and based on the same assumptions used, for financial reporting purposes set forth in Note 14 of the Notes to Consolidated Financial Statements contained in the 2012 Form 10-K, except retirement age has been assumed to be the normal retirement age under the Pension Plan.. The interest rate used for computing present value was 4.05% and includes the following material assumptions: (a) retirement at the plan's stated normal retirement date, or the earliest age at which benefits are unreduced, if earlier, (b) mortality taken from RP 2000 with projection to 2026. Pension Plan contributions are distributed among various funds held by an insurance company.

⁽³⁾ Mr. Walter J. Zable received distributions totaling \$41,493 under the Pension Plan in fiscal year 2012, as required by Internal Revenue Service rules.

⁽⁴⁾ Mr. Harrison, who at September 30, 2012, was age 55 and had 29 years of credited service, is eligible for early retirement benefits. Had he received his benefits under the Pension Plan as a lump sum, his early retirement benefits would have been \$356,069.

Nonqualified Deferred Compensation ⁽¹⁾ Fiscal Year 2012

The following table sets forth certain information regarding the participation in the Deferred Compensation Plan by our NEOs for the 2012 fiscal year.

Name ⁽²⁾	Executive Contributions in FY 2012 ⁽³⁾	Aggregate Plan Earnings in FY 2012 ⁽⁴⁾	Aggregate Withdrawals/ Distributions	Aggregate Plan Balance at End of FY 2012 ⁽⁵⁾
	\$	\$	\$	\$
William W. Boyle	–	7,751	–	382,254
John D. Thomas	131,588	21,834	–	1,129,337
Mark A. Harrison	188,607	13,440	–	692,703

⁽¹⁾ Walter J. Zable and Walter C. Zable have not participated in the Deferred Compensation Plan.

⁽²⁾ The amounts shown have been deferred (and not presently taxed) and other than plan earnings have also been reported herein as compensation. The Deferred Compensation Plan permits selected key employees to defer (from time to time) up to 90% of their base salary and up to 100% of their bonus annually. These amounts are a general debt of the Company. The amounts earn interest at rates periodically set by the Secretary of the United States Treasury. The rate at the end of fiscal year 2012 was 1.75%. The Company makes

no contribution to the Deferred Compensation Plan. Payment elections and withdrawals are permitted within guidelines established by the Internal Revenue Service. After retirement the participant may receive a lump sum payment or an annual distribution over 5, 10, 15 or 20 years. Annual revision of the selected payment method is regulated by Internal Revenue Service guidelines.

(3) Amounts include salary deferrals during fiscal year 2012 of \$75,000 for Mr. Thomas and bonus deferrals credited to the NEO's account in fiscal year 2012, which were earned in fiscal year 2011 of \$56,588 for Mr. Thomas; and \$188,607 for Mr. Harrison. These amounts are also included in the Summary Compensation Table for the year in which they were earned.

(4) These amounts are not reported as compensation in the Summary Compensation Table because the earnings are not above market or preferential.

(5) Year-end balances consist of participant contributions and earnings on contributed amounts. All contributions have been included in the Summary Compensation Table for fiscal year 2011 or prior years or would have been so included had the current reporting requirements been applicable to the executive. Such amounts that have been reported in Summary Compensation Tables for fiscal years 2010 and 2011 are \$309,145 for Mr. Thomas; and \$360,486 for Mr. Harrison.

Potential Payments Upon Termination or Change in Control

General Severance Policy

The Company has a severance policy (the "Severance Policy") applicable to many of its full time U.S.-based employees, including the NEOs. In the event of a Company-originated termination without cause, the eligible individual who has completed three years of employment with the Company is offered the opportunity to receive, in exchange for signing a general release, a lump sum payment of one week of base pay at their current rate for each 12-months of employment, and payment of medical and dental coverage under COBRA for up to 12 months. Outplacement consultation may be provided at the Company's discretion. In individual circumstances, an NEO may be offered alternative arrangements to be negotiated. These severance benefits are not offset by the Company's normal retirement benefits.

The following table shows, for each of the NEOs who was employed as of the last day of fiscal year 2012, the payments to which such executive would have been entitled if his employment had been terminated by the Company without cause as of such date, including the number of weeks of base pay, to be paid in a lump-sum severance payment, to which such executive was entitled as of such date and the number of months of COBRA coverage the executive would have received and the approximate cost of that coverage. Other than the COBRA payments, the cash severance payments outlined in the table below would be paid to a NEO in addition to any "Potential Payments Upon Change-in-Control," as described below, in the event his termination of employment by the Company without cause were to occur following a change in control.

Name	Lump Sum Payment		Cost of COBRA Payments ⁽²⁾ \$	Total \$
	# Weeks of Base Pay	Total ⁽¹⁾ \$		
William W. Boyle	29	346,048	25,321	371,369
Walter C. Zable	49	436,288	23,301	459,589
John D. Thomas	32	253,538	23,301	276,839
Mark A. Harrison	29	193,798	15,681	209,479

(1) Payable in a lump sum.

(2) Represents 12 months of continued COBRA coverage.

Potential Payments Upon Change-in-Control - Transition Protection Plan

The Company's Board and the Company's shareholders adopted the Protection Plan in 2005, and the plan was amended in 2007. The Protection Plan is intended to be made available upon specific approval of an individual for participation in the Protection Plan by the CEO and the Executive Compensation Committee. It is intended to benefit selected principal officers and other selected key personnel. The CEO and the Executive Compensation Committee have approved participation in the Protection Plan by each of the NEOs.

If there is any change of control of the Company (defined below), and within 12 months before or 24 months after such change in control, a participant's employment terminates without good cause (as defined below), or the participant resigns for good reason (as defined below), then the Company would be obligated (i) to pay such person a monthly amount for 24 months computed as the immediately preceding five fiscal years' monthly average of salary and bonus and (ii) to continue for 18 months the participant's participation in those welfare plans of the Company in which such participant participated at the time of termination. Miscellaneous additional benefits, including outplacement service, may also be provided. The Protection Plan, as amended, is Exhibit 10.2 to our SEC form 10-K filed for the fiscal year ended September 30, 2007.

A "change in control" occurs when a "person" acquires sufficient shares of our voting stock to elect a majority of our directors, assuming 90% of outstanding shares vote; a merger resulting in a substantial change in the directors; and certain other events.

A termination "without good cause" occurs when there is any involuntary termination of employment without (i) a willful and continued failure of the employee to perform substantially his duties, or (ii) his gross negligence or breach of fiduciary duty involving personal profit (etc.) or (iii) his conviction or plea of no contest or guilty to state or federal felony criminal laws.

A resignation "for good reason" occurs when the authority, duties, function or responsibilities of the employee are substantially reduced, his base salary is reduced, his bonus participation opportunity is reduced by more than 50%, his job location is substantially changed, or the Company materially breaches the Protection Plan.

Following termination, to receive monthly payments the executive must not breach the Company's proprietary information policy and must not interfere with the employees, customers or suppliers of the Company

The welfare plans in which the executive would continue to participate are health insurance (COBRA), dental and vision insurance, and group term life insurance, each to the extent to which the executive participated prior to termination.

In most cases, the entity making the payments would be the successor to Cubic Corporation.

The following table shows, for each of the NEOs who was employed as of the last day of the fiscal year 2012, the payments to which such executive would have been entitled if his employment had been terminated by the Company without good cause or he had resigned for good reason as of such date, and further assuming a change in control also occurred on such date. Other than the COBRA payments, the severance benefits outlined in the table below would be paid to an NEO in addition to any amounts payable under the Company's Severance Policy, as described above, in the event his employment was terminated without cause.

Director Compensation

Historically, Independent Directors were each paid an annual retainer of \$22,000 and fees of \$2,000 for attendance at each meeting of the Board and \$1,000 for attendance at each meeting of any Committee of which a Director is a member. The Chairman of the Audit and Compliance Committee received an additional \$10,000 per year for his service in this position.

During fiscal year 2012, the Executive Compensation Committee and the Board undertook a review of Board compensation using Towers Watson, an independent compensation consulting firm retained by the Executive Compensation Committee for such purpose. The peer group of companies used by the Executive Compensation Committee in evaluating the Board's compensation, and the reasons for selecting that group of companies, is set forth above. Following such review and based upon the recommendation of Towers Watson, the Board approved the following changes to our Independent Director compensation program which took effect on July 1, 2012. While the Executive Compensation Committee reviewed the foregoing peer group compensation data in connection with its determinations of the changes to the Independent Director compensation program, the Executive Compensation Committee did not attempt to set Independent Director compensation levels at a certain target percentile with respect to the comparable company data or otherwise rely entirely on that data to determine Independent Director compensation. Instead, the Executive Compensation Committee members relied on their judgment and experience in setting those compensation levels. Independent Directors now receive an annual retainer of \$30,000, the Chairman of the Audit and Compliance Committee now receives an additional annual stipend of \$10,000 per year, the Chairman of the Compensation Committee now receives an additional annual stipend of \$7,500 per year and the Chairman of the Nominating and Governance Committee now receives an additional annual stipend of \$5,000 per year. In fiscal year 2012 the Independent Directors each also received \$5,000 for time spent on travel reviewing Company business in the United Kingdom and \$4,000 in the aggregate for four consultations with management related to succession planning.

Independent Directors also participate in the Company's Stock Option Plan. Each Independent Director has been granted options to purchase 4,500 shares of common stock upon his initial election to the Board with an exercise price equal to the fair market value on the date of the grant. Employee-directors receive no additional compensation for their service as Directors. All Independent Directors are reimbursed for travel expenses.

We have determined beneficial ownership in accordance with the rules of the SEC. Under these rules, beneficial ownership of a class of capital stock includes any shares of such class as to which a person, directly or indirectly, has or shares voting power or investment power and also any shares as to which a person has the right to acquire such voting or investment power within 60 days through the exercise of any

options, warrants or other rights. Shares subject to options, warrants or other rights are not deemed outstanding for the purpose of computing the percentage ownership of any other person. Item 13. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS, AND DIRECTOR INDEPENDENCE.

Related Persons

The Charter of our Executive Compensation Committee requires it to review and approve the compensation of any persons related to any Director or Executive Officer. As a practical matter the Committee will also review any non-compensation transaction between the Company and its directors, senior officers and their relatives (there have been none to date).

Consistent with SEC regulations and NYSE listing standards, a related person transaction is any transaction in which the Company was, is, or will be a participant, where the amount involved exceeds \$120,000, and in which a related person had, has, or will

have a direct or indirect material interest. A related person includes any director or executive officer of the Company, any person who is known to be the beneficial owner of more than 5% of any class of the Company's voting securities, an immediate family member of any person described above, and any firm, corporation, or other entity controlled by any person described above.

Each director and executive officer completes an annual questionnaire to identify related interests and persons.

The following transactions this fiscal year have been determined by the Committee to be with "related persons" which have been appropriately reviewed and approved.

Walter C. Zable's sister, Karen Cox, received a \$65,100 salary and other compensation, and an entity owned by Mrs. Cox and her husband received \$60,000.

Independent Directors

The Nominating and Corporate Governance Committee of the Board has determined and the Board has agreed that the following Independent Directors meet the independence standards of New York Stock Exchange and the categorical independence standards adopted by the Company's Board as defined in the Company's Corporate Governance Guidelines.

Bruce G. Blakley
Edwin A. Guiles
Robert S. Sullivan, Ph.D.
John H. Warner, Jr., Ph.D.

Item 14. PRINCIPAL ACCOUNTING FEES AND SERVICES.

Ernst & Young LLP has audited the Company's books and records since 1959 and continues as its auditors.

The Board seeks shareholder confirmation of our independent registered public accountants for each fiscal year. Our organizational documents do not require that our shareholders confirm the selection of our independent auditors. We do so because we believe it is a matter of good corporate practice. If our shareholders do not ratify the selection, the Audit and Compliance Committee will investigate the reasons for rejection and reconsider whether or not to retain the auditors, but still may retain them. Even if the selection is confirmed, the Audit and Compliance Committee, in its discretion, may change the appointment at any time during the year if it determines that such a change would be in the best interests of the Company and its shareholders.

Audit Fees

The aggregate fees billed in fiscal years 2012 and 2011, respectively, for professional services rendered by Ernst & Young LLP for the audit of the Company's annual financial statements and internal controls, the review of financial statements included in the Company's SEC Form 10-Q, and statutory audits of foreign subsidiaries and consultation on accounting matters were: \$3,691,000 and \$1,733,000.

Audit-Related Fees

The aggregate fees billed in fiscal years 2012 and 2011, respectively, for assurance and related services by Ernst & Young LLP that are reasonably related to the performance of the audit or financial statement review which are not reported under "Audit Fees"

above were \$82,000 and \$12,000. These fees included assurance services for agreed upon procedures related to a contract with a customer and an employee benefit plan audit.

Tax Fees

The aggregate fees billed in fiscal years 2012 and 2011, respectively, for professional services rendered by Ernst & Young LLP for tax compliance, tax advice and tax planning were \$129,000 and \$55,000. These fees were primarily for statutory foreign annual tax returns and compliance.

All Other Fees

In 2012, fees billed for other products and services provided by Ernst & Young totaled \$8,000 and in 2011 were \$2,000. These fees were for EY-online services.

Other Matters

The Audit and Compliance Committee has adopted policies and procedures for the pre-approval of audit and non-audit services rendered by Ernst & Young LLP. The policy generally requires pre-approval of specified services in the defined categories of audit services, audit-related services, and tax services, up to specified amounts. Pre-approval may also be given as part of the Committee's approval of the scope of the engagement of the independent auditor or on an individual explicit case-by-case basis before the independent auditor is engaged to provide each service. The pre-approval of services may be delegated to one or more of the Committee's members, but the decision must be reported to the full Committee at its next scheduled meeting. During fiscal years 2012 and 2011 the Committee did not waive any requirement for pre-approval of any services by Ernst & Young LLP. The Committee approved all auditor services and fees as required by laws in effect at the time the services were commenced.
