SUMMARY

This summary highlights information contained elsewhere or incorporated by reference in this prospectus and does not contain all of the information you should consider in making your investment decision. You should read this summary together with the more detailed information included elsewhere or incorporated by reference in this prospectus, including financial statements and the related notes. You should carefully consider, among other things, the matters discussed under “Risks Factors” in the 2011 Form 10-K, the First Quarter Form 10-Q, the Second Quarter 10-Q, the Third Quarter 10-Q and in other documents that we subsequently file with the Commission that are incorporated by reference herein.

The Company

The Company is a Nevada-based, gold and silver mining company with extensive, contiguous property in the historic Comstock and Silver City mining districts (collectively, the “Comstock District”). The Comstock District is located within the western portion of the Basin and Range Province of Nevada, between Reno and Carson City. The Company began acquiring properties and developing projects in the Comstock District in 2003. Since then, the Company has consolidated a substantial portion of the Comstock District, secured permits, built an infrastructure and brought exploration projects into production.

The goal of our strategic plan is to deliver stockholder value by validating qualified resources (measured and indicated) and reserves (probable and proven) of at least 3,250,000 gold equivalent ounces in 2013, and commence commercial mining and processing operations with annual production rates of approximately 20,000 gold equivalent ounces.

Because of the Comstock District’s historical significance, the geology is well known and has been extensively studied by the Company, our advisors and many independent researchers. We have amassed a large library of historical and current data and detailed surface mapping of Comstock District properties. We use such data in conjunction with our drilling programs to expand our understanding of the Comstock District’s structural geology as well as its broader geological footprint.

The Company has 1,357 reverse circulation drilling (“RC”) and core holes, representing over 410,500 feet of drill data in the Lucerne Resource Area. This data has furthered our knowledge of the Lucerne’s mineralization and provided the information used to develop the mine plan for commencing production on the west side of the Lucerne. We also have 323 RC and core holes, representing over 59,000 feet of drill data in our Dayton Resource Area. In our exploration and development campaigns, all drilling, surface and down-hole surveying, hole abandonment, geologic logging, sampling, and assays were performed to industry-recognized standards.

Our Lucerne Resource Area is located in Storey County, Nevada, approximately three miles south of Virginia City and 30 miles southeast of Reno. Our Dayton Resource Area, the proposed site for our second commercial mining activities, is located in Lyon County, Nevada, approximately six miles south of Virginia City. Access to the properties is by State Route 342, a paved highway.

We continue acquiring additional properties in the Comstock District, expanding our footprint and creating opportunities for exploration and mining. The Company now owns or controls approximately 5,869 acres of mining claims in the Comstock District. The acreage is comprised of 1,336 acres of patented claims (private lands) and surface parcels (private lands) and 4,533 acres of unpatented mining claims, which the Bureau of Land Management (“BLM”) administers.

Strategic Plan

In April 2010, the Board approved a strategic plan designed to restructure and recapitalize the Company, accelerate mine development and production and continue exploration. Since then, we have accomplished all of the key milestones contemplated by the strategic plan within the time frame contemplated to date, including:

- operational and management restructuring, including the appointment of a new chief executive officer, chief accounting officer, controller, vice president of strategic resource planning, vice president of operations, metallurgical process manager, senior mine planner and director of environmental and regulatory management;

- the 200:1 reverse stock split of all common shares outstanding;
- the acquisition of ownership or control of more than 1,800 acres, leading to substantial increases in the Company’s measured, indicated and inferred resources;
- balance sheet restructuring, including the exchange of approximately \$29.4 million of secured convertible indebtedness for convertible preferred equity;
- an equity capital raise of approximately \$35.75 million through the issuance of convertible preferred equity;
- listing of the Company’s Common Stock on the NYSE MKT; and
- obtaining key required permits for exploration drilling and production purposes.

As part of the strategic plan, the Company has scheduled the exploration and development drilling intended to validate mine design and identify qualified resources and reserves with three intermediate objectives of validating measured and indicated resources containing 1,000,000 gold equivalent ounces, 1,500,000 gold equivalent ounces, and 2,000,000 gold equivalent ounces, respectively, and the long term planned objective of 3,250,000 gold equivalent ounces to be achieved in 2013, with an annual run rate of at least 20,000 gold equivalent ounces with respect to the Company’s existing exploration targets. The Company has already met the first two intermediate exploration objectives. The Company commenced the start of production operations in September 2012. See “Recent Developments — Production” below.

Related Party Transactions

Northern Comstock LLC

On October 20, 2010, the Company entered into an operating agreement to form Northern Comstock LLC (“Northern Comstock”) with Mr. Winfield, a shareholder of the Company, and an entity controlled by Mr. Winfield, DWC Resources, Inc. (“DWC”). As part of the operating agreement, the Company obtained the exclusive rights of production and exploration on certain property formerly owned by DWC in Storey County, Nevada and two parcels leased by Mr. John Winfield in Storey County, Nevada from the Sutro Tunnel Company and Virginia City Ventures.

As part of the operating agreement, the Company obtained the exclusive rights of production and exploration on certain parcels in Storey County, Nevada. The terms of the operating agreement provide that on each anniversary of the operating agreement, up to and including the thirty-ninth (39th) anniversary, the Company will make contributions in the amount of \$862,500, in the form of Series A-1 Convertible Preferred Stock or cash upon request of Northern Comstock. If an event of default occurs under the operating agreement, the additional capital contributions could be accelerated and the entire unpaid amount of the Company’s capital contribution, up to the aggregate 34,500 shares of Series A-1 Convertible Preferred Stock (approximately 53 million shares of Common Stock as converted), could become issuable immediately. The Company has made the first three capital contributions and therefore there are capital contributions of 31,912.5 shares of Series A-1 Convertible Preferred Stock (approximately 49.0 million shares of Common Stock as converted) remaining as of October 31, 2012. The operating agreement further requires the Company to make certain capital expenditures of not less than \$750,000 over five years with respect to each parcel.

Mineral production from the DWC-contributed property is subject to a royalty on a sliding scale to DWC. At gold prices over \$750 per ounce, production of the first 500,000 ounces is subject to a 3% net smelter royalty. Production over 500,000 ounces is subject to a 6% net smelter royalty.

Mineral production on the Sutro property is subject to a royalty on a sliding scale to John Winfield. At gold prices over \$250 per ounce, production of the first 500,000 ounces is subject to a 1% net smelter royalty. Production over 500,000 ounces is subject to a 2% net smelter royalty.

Under the terms of the operating agreement, all operating activities from the minerals or finished products produced from the parcel are conducted by the Company and recognized in the Company's consolidated financial statements. The Company has no right to receive periodic or liquidating distributions related to any amounts contributed to Northern Comstock. The payments to Northern Comstock do not result in the acquisition of any equity interest in Northern Comstock as there is no entitlement to receive future distributions or changes in the fair value of the net assets of Northern Comstock.

Tax Indemnification

On October 20, 2010, the Company exchanged senior secured convertible and senior indebtedness owed to Mr. Winfield and certain entities affiliated with Mr. Winfield (the "Winfield Group") for shares of Series A-1 Convertible Preferred Stock. As part of the exchange, the Company agreed to indemnify the Winfield Group for any amounts as part of the exchange that are determined to be taxable as ordinary income to each member of the Winfield Group. Such indemnified amounts would include (i) any federal, state and local income tax, penalties and interest such member is actually obligated to pay out-of-pocket as a result of such determination, after taking into account (a) all increases in federal, state and local income taxes actually payable as a result of the receipt of any such indemnity payment and (b) the deduction to which such member would be entitled for federal income tax purposes for state and local income taxes paid. The Company may at its option, pay the indemnity amount either in cash or in a number of common shares equal to the indemnity amount divided by the average of the volume weighted average closing prices of common shares for the five consecutive trading days ending on the trading day that is immediately prior to the date of such payment. As of September 30, 2012, the Company has recorded a liability of \$3,985,664 for this tax indemnification at the amount that is probable of being indemnified by the Company.

Recent Developments

Production

Our strategic plan called for a return to mine production during the third quarter of 2012. During the second quarter of 2012, we completed the expansion of the heap leach pad from its three existing cells to five cells. We also received and installed the new Merrill Crowe facility. We installed the crushing facility, including the jaw and cone crusher, the super stacker, conveyors and related components on site.

We have hired essentially all of our planned mine and processing staff. This includes the mining operations, crushing plant, Merrill Crowe facility, laboratory, and metallurgical process staff. With the additions of these staff, we are able to run our full mining operations.

In the third quarter of 2012, we commissioned the crushing and Merrill Crowe facilities, including successful calibration and testing of the facility's equipment. We commenced the haulage of mineralized material from the mine to the crushing facility, and crushing and stacking material. Once material was stacked, we commenced processing and poured doré beginning in late September 2012.

Through October 31, 2012, the Company shipped 1,258 ounces of gold and 14,802 ounces of silver. In addition, the Company delivered 28 ounces of gold and 292 ounces of silver to the Northwest Territorial Mint, in Dayton, Nevada, to facilitate the minting of the commemorative bar celebrating the first pour. The combined sale of metal (received payments and payments due on gold and silver sold) was in excess of \$2.5 million.

Through October 31, 2012, the Company has crushed over 175,000 dry tons of mineralized material. Material placed on the heap leach pad after crushing remains under solution for as long as the pad is utilized. Throughout this period, the recovery of gold and silver continues, but the most effective economic recovery of gold and silver takes between 45 to 60 days to complete. The recovery of gold and silver from the first month represents only a portion of the expected recovery. Once initiated, the Merrill-Crowe process is continuous. Likewise, the heap is continuously expanded as new material is brought from the mine and sent through the crusher. As a result, the amount of gold and silver recovered and shipped for payment always represents only a fraction of the ultimately recovered amount of gold and silver potential in the amount actually on the heap.

The Company has completed a financial analysis for the Lucerne mine and anticipates annual operating expenses, including mining, processing, royalties and mine administration costs of approximately \$13.3 million per annum, with a production schedule that commences processing at a rate of one million tons per annum. The Company anticipates temporary, higher haulage costs of \$2.25 million for the first nine months of operations in 2013, associated with hauling on an alternative route until a new Right of Way permit is issued to us by the BLM. These mining, processing and related costs do not include corporate administration or other general and administrative costs, nor do they include exploration and mine development costs.

Surety Bond

In July 2012, the Company placed a \$4.67 million reclamation surety bond, through the Lexon Surety Group with the State of Nevada's Bureau of Mining Regulation Reclamation. The bond insures for the estimated costs required to safely reclaim the natural environment to the regulatory standards established by the State of Nevada's Division of Environmental Protection with the purposes of ensuring public safety, protecting the waters of the state, and providing for post mining land use.

Working Capital and Equipment Financings

In July 2012, the Company entered into a Master Loan and Security Agreement and other arrangements with Caterpillar Financial Services Corporation (the "Cat Equipment Facility") pursuant to which the Company may borrow up to \$5 million secured by certain equipment of the Company. On July 30, 2012, the Company borrowed \$2 million under the Cat Equipment Facility. The Cat Equipment Facility will bear interest at a rate of 5.85% with a term of 30 months except in the event of a default, including the occurrence of certain liquidity events, the principal balance will bear interest at a rate of the lesser of 18% per annum or the highest applicable rate allowed by law.

In July 2012, the Company also entered into an agreement with Resource Income Fund ("RIF"), with Auramet Trading, LLC ("Auramet") acting as gold agent, pursuant to which the Company may borrow up to \$5 million outstanding at any one time. The Company's obligations under the agreement are secured by a security interest in all personal property of the Company and its wholly-owned subsidiary Comstock Mining LLC (the "Subsidiary"), and certain real estate owned by the Company within the Company's starter mine (the "Starter Mine Patents"). The proceeds will be used for working capital and capital expenditures associated with the commencement of production. The proceeds will be repaid through the delivery of 3,720 ounces of gold payable in 12 semi-monthly deliveries of 310 ounces each beginning February 2013 and ending July 2013, or December 2013, if any amounts are redrawn under the agreement. The agreement is non-interest bearing except in the event of a default, in which case the balance would then bear interest at the lesser rate of 15% per annum or the highest applicable rate allowed by law.

The Company also granted to RIF a call option to purchase 5,950 ounces of gold at a strike price of \$2,000 per ounce, exercisable on, and expiring on, July 24, 2013. In connection with entry into the agreement, the Company and the Subsidiary have also entered into a purchase and sale agreement with Auramet, and the Company entered into a trading agreement the terms of which will govern all transactions of metals between Auramet and the Company. The Company drew down \$5 million under the agreement in July 2012.

- an exchange distribution in accordance with the rules of the applicable exchange;
- privately negotiated transactions;
- settlement of short sales entered into after the effective date of the registration statement of which this prospectus is a part;
- broker-dealers may agree with the sellers to sell a specified number of such shares at a stipulated price per share;
- a combination of any such methods of sale;

- through the writing or settlement of options or other hedging transactions, whether through an options exchange or otherwise; or
- any other method permitted pursuant to applicable law.

The sellers may also sell shares under Rule 144 under the Securities Act of 1933, as amended (the “Securities Act”), if available, rather than under this prospectus.

Broker-dealers engaged by the sellers may arrange for other brokers-dealers to participate in sales. Broker-dealers may receive commissions or discounts from the sellers (or, if any broker-dealer acts as agent for the purchaser of shares, from the purchaser) in amounts to be negotiated, but, except as set forth in a supplement to this Prospectus, in the case of an agency transaction not in excess of a customary brokerage commission in compliance with the rules of the Trading Market or other stock exchange on which the Common Stock is traded.

In connection with the sale of the Common Stock or interests therein, the sellers may enter into hedging transactions with broker-dealers or other financial institutions, which may in turn engage in short sales of the Common Stock in the course of hedging the positions they assume. The sellers may also sell shares of the Common Stock short and deliver these securities to close out their short positions, or loan or pledge the Common Stock to broker-dealers that in turn may sell these securities. The sellers may also loan or pledge shares of Common Stock to broker-dealers that in turn may sell such shares. The sellers may also enter into option or other transactions with broker-dealers or other financial institutions or the creation of one or more derivative securities which require the delivery to such broker-dealer or other financial institution of shares offered by this prospectus, which shares such broker-dealer or other financial institution may resell pursuant to this prospectus (as supplemented or amended to reflect such transaction).

The sellers and any broker-dealers or agents that are involved in selling the shares may be deemed to be “underwriters” within the meaning of the Securities Act in connection with such sales. In such event, any commissions received by such broker-dealers or agents and any profit on the resale of the shares purchased by them may be deemed to be underwriting commissions or discounts under the Securities Act.

The Company is required to pay certain fees and expenses incurred by the Company incident to the registration of the shares. The Company has agreed to indemnify the sellers against certain losses, claims, damages and liabilities, including liabilities under the Securities Act.

We agreed to keep this prospectus effective until the earlier of (i) the date on which the shares may be resold by the sellers without registration and without regard to any volume limitations by reason of Rule 144(e) under the Securities Act or any other rule of similar effect or (ii) all of the shares have been sold pursuant to the prospectus or Rule 144 under the Securities Act or any other rule of similar effect. The resale shares will be sold only through registered or licensed brokers or dealers if required under applicable state securities laws. In addition, in certain states, the resale shares may not be sold unless they have been registered or qualified for sale in the applicable state or an exemption from the registration or qualification requirement is available and is complied with.

Under applicable rules and regulations under the Exchange Act, any person engaged in the distribution of the resale shares may not simultaneously engage in market making activities with respect to the Common Stock for a period of two business days prior to the commencement of the distribution. In addition, the sellers will be subject to applicable provisions of the Exchange Act and the rules and regulations thereunder, including Regulation M, which may limit the timing of purchases and sales of shares of the Common Stock by the sellers or any other person. At the time a particular offering of the shares of Common Stock is made, a prospectus supplement, if required as determined by the Company in its sole discretion, will be distributed which will set forth the aggregate amount of shares of Common Stock being offered and the terms of the offering, including the name or names of any broker-dealers or agents, any discounts, commissions and other terms constituting compensation from the sellers and any discounts, commissions or concessions allowed or reallocated or paid to broker-dealers. We will make copies of this prospectus available to the sellers and have informed them of the need to deliver a copy of this prospectus to each purchaser at or prior to the time of the sale unless exempted from the prospectus delivery requirement.

The sellers may pledge or grant a security interest in some or all of the shares of Common Stock owned by them and, if they default in the performance of their secured obligations, the pledgees or secured parties may offer and sell the shares of Common Stock from time to time pursuant to this prospectus or any amendment or supplement to this prospectus under Rule 424(b)(3) or other applicable provision of the Securities Act, amending, if necessary, the list of sellers to include the pledgee, transferee or other successors in interest as sellers under this prospectus. The sellers also may transfer and donate the shares of Common Stock in other circumstances in which case the transferees, donees, pledgees or other successors in interest will be the selling beneficial owners for purposes of this prospectus.

There can be no assurance that any sellers will sell any or all of the shares of Common Stock registered pursuant to the registration statement, of which this prospectus forms a part.

Once sold under the registration statement, of which this prospectus forms a part, the shares of Common Stock will be freely tradable in the hands of persons other than our affiliates.

We will not receive any of the proceeds from the sale by the sellers of the shares of Common Stock. We will pay all expenses of the registration of the shares of Common Stock pursuant to the registration rights agreement, including, without limitation, Securities and Exchange Commission filing fees and expenses of compliance with state securities or "blue sky" laws; provided, however, that a sellers will pay all underwriting discounts and selling commissions, if any.
