SUMMARY SECTION

DSM Small-Mid Cap Growth Fund

Investment Objective

The DSM Small-Mid Cap Growth Fund (the “Fund”) seeks long-term capital appreciation.

Fees and Expenses of the Fund

This table describes the fees and expenses that you may pay if you buy and hold shares of the Fund.

Shareholder Fees <i>(fees paid directly from your investment)</i>	Institutional Class
Redemption Fee <i>(as a percentage of amount redeemed within 30 days of purchase)</i>	1.00%
Annual Fund Operating Expenses <i>(expenses that you pay each year as a percentage of the value of your investments)</i>	Institutional Class
Management Fees	0.90%
Other Expenses ⁽¹⁾	1.64%
Total Annual Fund Operating Expenses	2.54%
Fee Waiver/Expense Reimbursement ⁽²⁾	-1.39%
Total Annual Fund Operating Expenses After Fee Waiver and/or Expense Reimbursement	1.15%

⁽¹⁾ Other expenses are based on estimated customary Fund expenses for the current fiscal year.

⁽²⁾ DSM Capital Partners LLC (the “Advisor”) has contractually agreed to reduce its fees and pay Fund expenses (excluding Acquired Fund Fees and Expenses, interest expense in connection with investment activities, taxes, dividends on short positions and extraordinary expenses) in order to limit the Total Annual Operating Expenses After Fee Waiver and/or Expense Reimbursement to 1.15% of average daily net assets of the Fund’s Institutional Class shares through March 31, 2014 (the “Expense Cap”). To the extent that the Advisor waives its fees and absorbs expenses to satisfy the Expense Cap, it may seek repayment of a portion or all of such amounts at any time within three fiscal years after the fiscal year in which such amounts were waived or absorbed, subject to the Expense Cap.

Example

This Example is intended to help you compare the cost of investing in the Fund with the cost of investing in other mutual funds. The Example assumes that you invest \$10,000 in the Fund for the time periods indicated. The Example also assumes that your investment has a 5% return each year and that the Fund’s operating expenses remain the same (taking into account the Expense Cap for the first year only). Although your actual costs may be higher or lower, under these assumptions, your costs would be:

	1 Year	3 Years
Institutional Class	\$117	\$516

Portfolio Turnover

The Fund pays transaction costs, such as commissions, when it buys and sells securities (or “turns over” its portfolio). A higher portfolio turnover may indicate higher transaction costs and may result in higher taxes when Fund shares are held in a taxable account. These costs, which are not reflected in annual fund operating expenses or in the above example, affect the Fund’s performance. The Advisor anticipates the Fund’s portfolio turnover rate to be greater than 100% in a given year; however the rate may vary depending on market conditions in any given year.

Principal Investment Strategies

Permissible Securities. Under normal circumstances, the Fund will invest at least 80% of its net assets (plus any borrowings for investment purposes) in equity securities of small and mid-sized capitalization companies. Equity securities include, but are not limited to, common stocks, preferred stocks, securities convertible into common stocks, rights and warrants. The Fund currently considers a small and mid-sized capitalization company to be one that has a market capitalization between \$500 million and \$10 billion at the time of purchase. Companies whose capitalization rise above this level after purchase continue to be considered small or mid-sized companies for purposes of the 80% policy. The Fund may also invest up to 20% of its net assets in equity securities of issuers that have market capitalizations outside the defined small and mid-sized level at the time of purchase. In addition, the Fund may invest up to 20% of its assets in equity securities of foreign companies through, but not limited to, American Depositary Receipts or similar securities. The Fund generally will contain 35 to 55 equity securities.

The Fund is a non-diversified fund and may, from time to time, have significant exposure to one or more issuers, industries, geographic regions or sectors of the global economy. The Fund may invest greater than 25% of its assets in any market sector (*i.e.*, consumer discretionary, consumer staples, energy, financials, health care, industrials, materials, technology and telecommunications services).

Management Process. The Advisor manages the Fund using a bottom-up, “idea-driven,” growth-style with a long-term (*i.e.*, three-year) investment horizon. This means in general terms that the Advisor identifies companies which it believes exhibit certain growth characteristics. For instance, the Advisor may select companies that it believes have growing businesses with solid fundamentals, attractive profitability, and successful managements. These companies will typically have projected revenue and earnings growth as determined by the Advisor in excess of 10% and are often expected to have higher returns on equity and assets than average businesses. Generally, these businesses will be generating free cash flow and will have financial returns that are stable or rising, driven by improving business fundamentals. The Advisor generally sells a stock when it believes its projected future return becomes unattractive relative to the rest of the portfolio or the investable universe.

Principal Risks

There is the risk that you could lose all or a portion of your money on your investment in the Fund. The Fund is subject to many of the risks common to mutual funds that invest in equity securities of domestic and foreign companies. In particular, the following risks could affect the value of your investment in the Fund:

- **General Market Risk.** The stock market declines or stocks in the Fund’s portfolio may not increase their earnings at the rate anticipated.
- **Small and Mid-Sized Company Stock Risk.** Small to mid-sized company stocks have historically been subject to greater investment risk than large company stocks. The prices of small to mid-sized company stocks tend to be more volatile and less liquid than large company stocks. Small and mid-sized companies may have no or relatively short operating histories, or be newly formed public companies. Some of these companies have aggressive capital structures, including high debt levels, or are involved in rapidly growing or changing industries and/or new technologies, which pose additional risks.
- **Equity Market Risk.** Equity investments are susceptible to general stock market fluctuations and to volatile increases and decreases in value. If the market prices of the securities owned by the Fund fall, the value of your investment in the Fund will decline.
- **Growth Style Investment Risk.** Growth-oriented funds may underperform when value investing is in favor. In addition, growth securities typically trade at higher multiples of current earnings than other securities and, therefore, may be more sensitive to changes in current or expected earnings than other equity securities and may be more volatile.
- **Foreign Securities and Emerging Markets Risks.** The performance of foreign securities depends on the political and economic environments and other overall economic conditions in the countries where the Fund invests. Emerging markets involve greater risk and volatility than more developed markets. Some emerging markets countries may have fixed or managed currencies that are not free-floating against the U.S. dollar. Certain of these currencies have experienced, and may experience in the future, substantial fluctuations or a steady devaluation relative to the U.S. dollar.
- **Non-Diversification Risk.** A non-diversified fund may hold a significant percentage of its assets in the securities of fewer companies or even one company, and therefore events affecting those companies have a greater impact on the Fund than on a diversified fund.

- **Sector-Focus Risk.** Investing a significant portion of the Fund's assets in one sector of the market exposes the Fund to greater market risk and potential monetary losses than if those assets were spread among various sectors.
- **Management Risk.** The Advisor's investment strategy does not achieve the Fund's objective or the Advisor does not implement the strategy properly.
- **Regulatory Risk.** Changes in government regulations may adversely affect the value of a security.
- **New Fund Risk.** The Fund is new with no operating history and there can be no assurance that the Fund will grow to or maintain an economically viable size.

Performance

Because the Fund recently commenced operations, it does not have a full calendar year of performance to compare against a broad measure of market performance. Accordingly, performance information is not available. Performance information will be available after the Fund has been in operation for one calendar year. At that time, the performance information will provide some indication of the risks of investing in the Fund by comparing it against a broad measure of market performance. Updated performance information is available on the Fund's website at www.dsmfunds.com or by calling the Fund toll-free at 1-877-862-9555.

Purchase and Sale of Fund Shares

Investors may purchase or redeem Fund shares on any business day by written request, wire transfer, or telephone. You may conduct transactions by mail (DSM Small-Mid Cap Growth Fund, c/o U.S. Bancorp Fund Services, LLC, P.O. Box 701, Milwaukee, WI 53201-0701), or by telephone at 1-877-862-9555. Investors who wish to purchase or redeem Fund shares through a broker-dealer should contact the broker-dealer directly. The minimum initial and subsequent investment amounts for various types of accounts are shown below, although we may reduce or waive the minimums in some cases.

Account Types	To Open Your Account	To Add To Your Account
Standard, Traditional and Roth IRA Accounts	\$100,000	\$25,000

Tax Information

The Fund's distributions are taxable, and will be taxed as ordinary income or capital gains, unless you are investing through a tax-deferred arrangement, such as a 401(k) plan or an IRA, that does not use borrowed funds. Distributions on investments made through tax-deferred arrangements may be taxed later upon withdrawal of assets from those accounts.

Payments to Broker-Dealers and Other Financial Intermediaries

You may buy and sell shares of the Fund through certain financial intermediaries and their agents that have made arrangements with the Fund and are authorized to buy and sell shares of the Fund (collectively, "Financial Intermediaries"). If you purchase the Fund through a broker-dealer or other Financial Intermediary, the Fund and its related companies may pay the broker-dealer or other Financial Intermediary for the sale of Fund shares and related services. These payments may create a conflict of interest by influencing the broker-dealer or other Financial Intermediary and your salesperson to recommend the Fund over another investment. Ask your salesperson or visit your Financial Intermediary's website for more information.

MORE ABOUT THE FUND'S INVESTMENT STRATEGIES AND RISKS

Investment Objective

The Fund's investment objective is long-term capital appreciation. The Fund's investment objective is non-fundamental and may be changed without shareholder approval upon at least a 60-day written notice to shareholders. There is no assurance that this objective will be obtained.

Principal Investment Strategies

Permissible Securities. Under normal circumstances, the Fund will invest at least 80% of its net assets (plus any borrowings for investment purposes) in equity securities of small and mid-sized capitalization companies. Equity securities include, but are not limited to, common stocks, preferred stocks, securities convertible into common stocks, rights and warrants. The Fund currently considers a small and mid-sized capitalization company to be one that has a market capitalization between \$500 million and \$10 billion at the time of purchase. Companies whose capitalization rise above this level after purchase continue to be considered small or mid cap companies for purposes of the 80% policy. The Fund may also invest up to 20% of its net assets in equity securities of issuers that have market capitalizations outside the defined small and mid-sized level at the time of purchase. In addition, the Fund may invest up to 20% of its assets in equity securities of foreign companies through, but not limited to, American Depositary Receipts or similar securities. The Fund generally will hold between 35 to 55 equity securities in its portfolio.

The Fund is a non-diversified fund and may, from time to time, have significant exposure to one or more issuers, industries, geographic regions or sectors of the global economy. The Fund may invest greater than 25% of its assets in any market sector (*i.e.*, consumer discretionary, consumer staples, energy, financials, health care, industrials, materials, technology and telecommunications services).

Management Process. The Advisor specializes in investing in growing businesses with solid fundamentals. In general, the Advisor's approach is "bottom-up" (described below) with a long-term (*i.e.*, three year) investment horizon. The Advisor seeks to purchase stocks of companies for the Fund that typically have projected revenue and earnings growth as determined by the Advisor to be in excess of 10% and may have higher returns on equity and assets than average businesses. Generally, these businesses generate free cash flow and have financial returns that are stable or rising, driven by improving business fundamentals.

The Advisor is a research-driven investment manager. Potential investments are identified based on each company's financial and operational history and on proprietary projections of future company results prepared by in-house analysts. These projections are typically based on modeling of the company, discussions with the management of the company and its competitors, interviews with industry experts, a study of the candidate's industry and the significant factors that drive industry growth. The "bottom-up" research process involves using various criteria, including reviewing a company's:

- revenue growth
- earnings growth
- free cash flow
- profitability
- prudent use of debt
- lack of earnings misses
- open and experienced management

In addition to superior fundamental characteristics, in order for the Advisor to purchase a stock the company must also have an attractive valuation. One of the Advisor's valuation methods involves an historical evaluation of investor sentiment regarding each company's shares to determine typical price-to-earnings ratios when the company is "in favor" or "out of favor." In addition, the Advisor studies the effect of past and current interest rates on the P/E ratio of each company's shares, and projects these effects going forward. These valuation methods help support investment decisions regarding the price and timing of purchases and sales of shares as well as the size of positions.

Risk Management. The Advisor seeks to reduce risk primarily by owning high-quality growth companies that demonstrate strong revenue growth, superior profitability, the ability to accelerate earnings and have high-quality balance sheets. As a further element of risk management, when valuing companies, the Advisor normally projects relatively low earnings and price-to-earnings scenarios. The Advisor also monitors sector and sub-sector weightings with an eye on events or changes that could impact the Fund's holdings.

Selling Strategy. The Advisor generally sells a stock when its projected future return becomes unattractive relative to the rest of the portfolio or investable universe. The Advisor will also generally sell a security if the company disappoints on its earnings report or if the fundamental thesis for owning the company deteriorates.

Temporary or Defensive Cash Investments. Under normal market conditions, the Fund will invest according to its principal investment strategies described above. However, in response to adverse market, economic or political conditions, the Fund may temporarily depart from its principal investment strategies by making short-term investments in cash and cash equivalents. As a result, the Fund may not achieve its investment objective to the extent that it makes such "defensive" investments. A defensive position, taken at the wrong time, may have an adverse impact on the Fund's performance. In the event that the Fund uses a money market fund for its cash position, there will be some duplication of expenses because the Fund would bear its pro rata portion of such money market fund's advisory fees and operational expenses.

Changes in Policy. The Fund will not change its investment policy of investing at least 80% of its net assets in equity securities of small and medium capitalization companies without first changing the Fund's name and providing shareholders with at least a 60-day prior written notice.

Principal Risks

As discussed in the Summary Section and described further below, the Fund is subject to many of the risks common to mutual funds that invest in U.S. and foreign equity securities. You may lose money by investing in this Fund.

General Market Risk. General market risk is the risk that the market value of a security may fluctuate, sometimes rapidly and unpredictably. These fluctuations may cause a security to be worth less than its cost when originally purchased or less than it was worth at an earlier time. General market risk may affect a single issuer, industry, sector of the economy or the market as a whole. The financial markets may continue to experience periods of extreme stress which may result in unusual and extreme volatility in the equity markets and in the prices of individual stocks. In some cases, the prices of stocks of individual companies have been negatively impacted even though there may be little or no apparent degradation in the financial conditions or prospects of that company. These market conditions add significantly to the risk of short-term volatility of the Fund.

- **Small and Mid-Sized Company Stock Risk.** Small and mid-sized cap stocks have historically been subject to greater investment risk than large cap stocks. The prices of small to mid-sized company stocks tend to be more volatile and less liquid than large cap stocks. Small and mid-sized companies may have no or relatively short operating histories, or be newly formed public companies. Some of these companies have aggressive capital structures, including high debt levels, or are involved in rapidly growing or changing industries and/or new technologies, which pose additional risks.

- **Equity Market Risk.** Equity investments are susceptible to general stock market fluctuations and to volatile increases and decreases in value. Investor perceptions may impact the market and are based on various and unpredictable factors including expectations regarding government, economic, monetary and fiscal policies; inflation and interest rates; economic expansion or contraction; and global or regional political, economic and banking crises. If you hold equity investments of any given issuer, you would generally be exposed to greater risk than if you hold debt obligations of the issuer because equity investments generally have inferior rights to receive payments from issuers in comparison with the rights of bondholders and other creditors of such issuers.

Growth Style Investment Risk. Growth stocks can perform differently from the market as a whole and from other types of stocks. Growth stocks may be designated as such and purchased based on the premise that the market will eventually reward a given company's long-term earnings growth with a higher stock price when that company's earnings grow faster than both inflation and the economy in general. Thus a growth style investment strategy attempts to identify companies whose earnings may grow or are growing at a faster rate than inflation and the economy. While growth stocks may react differently to issuer, political, market and economic developments than the market as a whole and other types of stocks by rising in price in certain environments, growth stocks also tend to be sensitive to changes in the earnings of their underlying companies and more volatile than other types of stocks, particularly over the short term. During periods of adverse economic and market conditions, the stock prices of growth stocks may fall despite favorable earnings trends.

-

Foreign Securities and Emerging Markets Risk. Foreign securities involve risks relating to adverse political, social and economic developments. Foreign companies may not be subject to accounting standards or governmental supervision comparable to U.S. companies, and there may be less public information about their operations. Foreign markets may also be less liquid and more volatile than U.S. markets. Rapid increases in money supply may result in speculative investing, contributing to volatility. Foreign markets may offer less legal protection to investors. Enforcing legal rights may be difficult, costly and slow. There may be special problems enforcing claims against foreign governments. Emerging market countries entail greater investment risk than developed markets. Such risks could include government dependence on a few industries or resources, government-imposed taxes on foreign investment or limits on the removal of capital from a country, unstable government, and volatile markets.

Current political uncertainty surrounding the European Union and its membership could add to increased market volatility. The ongoing deterioration of financial stability in several countries, including Greece, Italy, Ireland, Spain and Portugal, together with the risk of contagion to other, more stable countries, particularly France and Germany, has exacerbated the global economic crisis. This situation has also raised a number of uncertainties regarding the stability and overall standing of the European Monetary Union. Given the global effect of today's economy, the volatility of the Euro may affect the risk of an investment in the Fund. Emerging market countries entail greater investment risk than developed markets. Such risks could include government dependence on a few industries or resources, government-imposed taxes on foreign investment or limits on the removal of capital from a country, unstable government, and volatile markets.

Non-Diversification Risk. The Fund is non-diversified, which means that there is no restriction under the Investment Company Act of 1940, as amended ("1940 Act") on how many different issuers must be included in the Fund's portfolio. As a result, the Fund's shares may be more volatile and fluctuate more than shares of a fund that invests in a broader range of issuers because the Fund will be impacted to a greater extent by any adverse economic, political or regulatory developments affecting the issuers in its portfolio. The Fund is still subject to certain diversification requirements for federal income tax purposes, which are less rigorous than the diversification requirements under federal securities law. See "Taxation" in the Fund's Statement of Additional Information ("SAI") for more information.

-

Sector-Focus Risk. Investing a significant portion of the Fund's assets in one sector of the market exposes the Fund to greater market risk and potential monetary losses than if those assets were spread among various sectors. If the Fund's portfolio is overweighted in a certain sector, any negative development affecting that sector will have a greater impact on the Fund than a fund that is not overweighted in that sector.

Management Risk. Management risk describes the Fund's ability to meet its investment objective based on the Advisor's success or failure at implementing investment strategies for the Fund. The value of your investment is subject to the effectiveness of the Advisor's research, analysis and asset allocation among portfolio securities. If the Advisor's investment strategies do not produce the expected results, your investment could be diminished.

- **Regulatory Risk.** Changes in government regulations may adversely affect the value of a security in the Fund. An insufficiently regulated market might also permit inappropriate practices that adversely affect an investment in the Fund.

- **New Fund Risk.** The Fund is new with no operating history and there can be no assurance that the Fund will grow to or maintain an economically viable size, in which case the Board may determine to liquidate the Fund. The Board can initiate liquidation without shareholder approval if it determines it is in the best interest of shareholders. As a result, the timing of any liquidation may not be favorable to certain individual shareholders.

Portfolio Holdings Information

A complete description of the Fund's policies and procedures with respect to the disclosure of the Fund's portfolio holdings is available in the Fund's SAI.

MANAGEMENT OF THE FUND

Investment Advisor

DSM Capital Partners LLC, located at 116 Radio Circle Drive, Suite 200, Mount Kisco, New York 10549, is the investment advisor to the Fund. The Advisor manages the Fund, subject to oversight by the Board. The Advisor was founded in 2001 and serves as investment advisor to endowments and foundations, pensions plans, family offices, high net worth individual investors, and corporations. As of January 1, 2013, the Advisor managed approximately \$ 3.7 billion in assets.

Under the investment advisory agreement that the Advisor has with the Fund, the Advisor is entitled to receive, on a monthly basis, an annual rate of 0.90% of the Fund's average daily net assets.

Portfolio Managers

The Fund is co-managed by the Advisor's Chief Investment Officers, who are supported by a team of research analysts. The SAI provides additional information about the portfolio managers' method of compensation, other accounts managed by the portfolio managers and the portfolio managers' ownership of the Fund's shares.

Portfolio Manager	Business Experience
Daniel Strickberger Co-Chief Investment Officer of the Fund since its inception February 2013.	Daniel Strickberger co-founded the Advisor in February 2001 with Mr. Memishian and has served as a Managing Member ever since. Prior to starting the Advisor, Mr. Strickberger held several portfolio management and senior executive positions at companies such as W.P. Stewart & Company, Lazard Freres & Co., Oppenheimer & Co. and Morgan Guaranty. Mr. Strickberger holds a Bachelor of Science in Business Administration and Finance from the University of Delaware and a Master of Business Administration in Finance and International Business from New York University. He serves on the Investment Committee of the University of Delaware Endowment.
Stephen Memishian, CFA Co-Chief Investment Officer of the Fund since its inception February 2013.	Stephen Memishian, CFA, co-founded the Advisor in February 2001 with Mr. Strickberger and has served as a Managing Member ever since. Prior to starting the Advisor, Mr. Memishian held executive and other positions at companies such as W.P. Stewart & Company, Paine Webber, Columbia Pictures Industries, and McKinsey & Company. Mr. Memishian holds a Bachelor of Science in Engineering from Tufts University, and a Master of Science in Management from the Massachusetts Institute of Technology. He has been active at MIT and serves as trustee and officer of the Greenwich Country Day School.

Fund Expenses

In addition to the advisory fees discussed above, the Fund incurs other expenses such as custodian, transfer agency, interest, Acquired Fund Fees and Expenses and other customary Fund expenses. (Acquired Fund Fees and Expenses are indirect fees that the Fund incurs from investing in the shares of other investment companies.) The Advisor has contractually agreed to reduce its fees and/or pay Fund expenses (excluding Acquired Fund Fees and Expenses, interest expense in connection with investment activities, taxes, dividends on short positions and extraordinary expenses) in order to limit Total Annual Fund Operating Expenses After Fee Waiver and/or Expense Reimbursement for the Fund to 1.15% of the Institutional Class's average daily net assets.

Any reduction in advisory fees or payment of expenses made by the Advisor is subject to reimbursement by the Fund if requested by the Advisor, and the Board approves such reimbursement in subsequent fiscal years. This reimbursement may be requested by the Advisor if the aggregate amount actually paid by the Fund toward operating expenses for such fiscal year (taking into account any reimbursements) does not exceed the Expense Cap. The Advisor is permitted to be reimbursed for fee reductions and/or expense payments it made in the prior three fiscal years. The Fund must pay its current ordinary operating expenses before the Advisor is entitled to any reimbursement of fees and/or expenses. The current Expense Cap is in place indefinitely, and at least through March 31, 2014. The Agreement may thereafter be terminated at any time by the Board of Trustees upon 60 days' written notice to the Advisor, or by the Advisor with the consent of the Board.

A discussion regarding the basis of the Board's approval of the Advisory Agreement with the Advisor will be available in the next shareholder report for the period ending June 30, 2013.

Additional Payments to Dealers

The Advisor or distributor, out of its own resources, and without additional cost to the Fund or its shareholders, may provide additional cash payments or non-cash compensation to Financial Intermediaries who sell shares of the Fund, including affiliates of the Advisor. Such payments and compensation are in addition to any service fees paid by the Fund. These additional cash payments are generally made to Financial Intermediaries that provide shareholder servicing, marketing support and/or access to sales meetings, sales representatives and management representatives of the Financial Intermediary. Cash compensation may also be paid to Financial Intermediaries for inclusion of the Fund on a sales list, including a preferred or select sales list, in other sales programs or as an expense reimbursement in cases where the Financial Intermediary provides shareholder services to the Fund's shareholders. The Advisor or distributor may also pay cash compensation in the form of finder's fees that vary depending on the dollar amount of the shares sold.

The Advisor's Prior Performance of Substantially Similar Accounts

The performance information shown below represents the prior performance of discretionary accounts managed by the Advisor with substantially similar investment objective, policies and strategies as the Fund. The performance information is referred to as the SMID Composite. The Advisor maintains all performance records for the SMID Composite.

The SMID Composite is provided to illustrate the past performance of the composite of the Advisor's Small-Mid Cap growth strategy as measured against a broad based market index, and does not represent the historical performance of the Fund. **You should not consider this performance data to be an indication of future performance of the Fund.**

The Advisor first offered the Small-Mid Cap growth product to clients on January 2, 2003 through a limited partnership, which subsequently liquidated on December 29, 2006. The Advisor also offered the Small-Mid Cap growth style to clients through a U.K. based Open Ended Investment Company ("OEIC") beginning on January 23, 2004. On January 2, 2007, the Advisor began managing a separate account in accordance with the Small-Mid Cap growth style. Therefore, the SMID Composite begins with the performance of the limited partnership, joined by the performance of the OEIC, and continued as of January 2, 2007 with separately managed accounts and the OEIC. Moreover, the SMID Composite includes all discretionary Small-Mid Cap growth accounts managed by the Advisor with the exception of accounts that: (a) experienced a capital flow during the month equal to, or greater than, 15% of the opening market value on the day of the flow; (b) on any day of the month that had absolute variance from target in individual security positions (including cash) that, taken together, equal or exceed 12% of the opening value of that day, and (c) balanced accounts including bonds.

The performance of the limited partnership in the SMID Composite was calculated using its pre-fee performance, with cash flows calculated at the beginning of the day. Post-fee performance was modeled with a flat fee of 1% per annum on assets, assumed charged quarterly in advance, which were no higher (or equal to) than the actual fees charged. Therefore, the performance figures do not reflect the deduction of investment advisory fees actually charged. Rather, the performance presented reflects the deduction of a model advisory fee. The post-fee returns calculated were created by deducting the monthly amount of the model annual fee from actual gross returns. All other expenses of the partnership, such as administration and accounting were not modeled in calculating the post-fee performance. Cash flow effects on performance due to the modeled fee are believed to be de minimus. The limited partnership experienced one significant cash flow in excess of 15%, the impact of which is included in the gross performance.

SMID Composite performance is presented in U.S. dollars. Results are time-weighted and asset-weighted based on beginning-of-period assets values. Valuation is on a trade-date basis. Results include the reinvestment of dividends and other earnings. Dividends are realized on an accrual basis, cash equivalent dividends are realized on a cash basis. Pre-fee results include the effect of commissions; post-fee results include the effect of commissions and management fees. Custody charges, where applicable, are not deducted from pre-fee or post-fee performance.

There were four accounts in the SMID Composite as of December 31, 2012 totaling approximately \$24,400,000.

The SMID Composite does not reflect any sales loads or placement fees.

As noted above, the discretionary accounts for which results are reported is not of a registered mutual fund and is not subject to the same types of expenses as the Fund or to the diversification requirements, specific tax restrictions and investment limitations imposed on the Fund by the 1940 Act, or the Internal Revenue Code of 1987, as amended, which, if applicable, may have adversely affected the performance results of the SMID Composite.

Consequently, the performance results for the SMID Composite could have been adversely affected if it had been regulated as an investment company. In addition, the operating expenses incurred in the SMID Composite were lower than the anticipated operating expenses of the Fund, and, accordingly, the performance results of the composite are greater than what the Fund's performance would have been.

The performance results have been time-weighted and dollar-weighted and prepared in accordance with Global Investment Performance Standards (GIPS). These standards are different from the standardized SEC method. Investors should also be aware that the use of a methodology different from that used above to calculate performance could result in different performance data.

The performance data below is for the Advisor's SMID Composite and is not the performance results of the DSM Small-Mid Cap Growth Fund.

Average Annual Total Returns for the Periods Ended December 31, 2012

Period	Advisor SMID ⁽¹⁾ Account Composite	Russell 2500 Growth Total Index ⁽²⁾
1 Year	18.1%	16.1%
3 Years	18.2%	13.8%
5 Years	2.1%	4.1%
10 Years	11.0%	10.5%
Since Inception (1/2/03)	11.0%	10.5%

⁽¹⁾ As of December 31, 2012, the SMID Composite was comprised of four accounts with approximately \$24.4 million in assets of the Advisor's \$3.7 billion in assets under management.

⁽²⁾ The Russell 2500 Growth Index measures the performance of the small to mid-cap growth segment of the U.S. equity universe. It includes those Russell 2500 Index companies with higher price-to-book ratios and higher forecasted growth values. You cannot invest directly in an index.

SHAREHOLDER INFORMATION

Description of Class

The following table lists the key features of the Fund's Institutional Class.

Institutional Class	
Minimum Initial Investment	\$100,000
Subsequent Minimum Investment	\$25,000
Waiver/Reduction of Investment Minimums	<p>Although not limited to the list below, the Advisor may waive or reduce the initial or subsequent minimum investment amounts in any of following circumstances:</p> <ul style="list-style-type: none"> • Retirement, defined benefit and pension plans with plan assets of at least \$25 million; • Bank or Trust companies investing for their own accounts or acting in a fiduciary or similar capacity; • Institutional clients of the Advisor; • Trustees and Officers of the Trust; • Employees of the Advisor and its affiliates and their immediate families (<i>i.e.</i>, parent, child, spouse, domestic partner, sibling, step or adopted relationships, grandparent, grandchild and Uniform Gift or Transfer to Minors Act accounts naming qualifying persons); • As determined by the Advisor.
Fees	<ul style="list-style-type: none"> • Redemption Fee of 1.00% if shares are redeemed within 30 days of purchase (with some exceptions)
Eligible Investors	<p>Designed for proprietary accounts of institutions maintained directly with the Fund's transfer agent. Such institutions include:</p> <ul style="list-style-type: none"> • financial institutions • pension plans • retirement accounts • qualified plans • corporations, trusts, estates, religious and charitable organizations

Special Instructions for Institutional Class Shares.

The Fund offers Institutional Class shares primarily for direct investment by investors such as pension and profit-sharing plans, employee benefit trusts, endowments, foundations and corporations. Institutional Class shares may also be offered through Financial Intermediaries that charge their customers transaction or other distribution or service fees with respect to their customers' investments in the Fund. If you are purchasing shares through a Financial Intermediary, you must follow the procedures established by your Financial Intermediary. Your Financial Intermediary is responsible for sending your purchase order and wiring payment to the transfer agent. Your Financial Intermediary holds the shares in your name and receives all confirmations of purchases and sales. Financial Intermediaries placing orders for themselves or on behalf of their customers should call the Fund toll free at 1-877-862-9555, or follow the instructions under "By Mail," "By Telephone" and "By Wire."

Institutional Class shares of the Fund are purchased or redeemed at their NAV per share next calculated after your purchase order and payment or redemption order is received by the Fund, less any applicable redemption fees. If you place an order for Fund shares through a Financial Intermediary, the Fund will be deemed to have received a purchase or redemption order when the Financial Intermediary receives the order. The Financial Intermediary must send to the transfer agent immediately available funds in the amount of the purchase price in accordance with the transfer agent's instructions. If payment is not received within the time specified, the transfer agent may rescind the transaction and the Financial Intermediary will be held liable for any resulting fees or losses. For more information about your Financial Intermediary's rules and procedures and whether your Financial Intermediary has been authorized by the Fund to receive purchase and redemption orders on their behalf, you should contact your Financial Intermediary directly.

How to Purchase Shares of the Fund

Minimum Investments. To purchase shares of the Fund, you must make at least the minimum initial investment (or subsequent investment) as shown in the table below. The minimum investment requirements may be waived from time to time.

Account Types	To Open Your Account	To Add To Your Account
Standard, Traditional and Roth IRA Accounts	\$100,000	\$25,000

- **Checks** for all accounts, including individual, sole proprietorship, joint, Uniform Gift to Minors Act (“UGMA”) or Uniform Transfer to Minors Act (“UTMA”) accounts, must be made payable to “DSM Small-Mid Cap Growth Fund.” A charge of \$25 will be applied for any payment that is returned. Additionally, the investor may also be responsible for any loss sustained by the Fund as a result of any payment that is returned.
- **ACH** refers to the “Automated Clearing House” System maintained by the Federal Reserve Bank, which allows banks to process checks, transfer funds and perform other tasks. Your financial institution may charge you a fee for this service.
- **Wires** instruct your financial institution with whom you have an account to make a Federal Funds wire payment to us. Your financial institution may charge you a fee for this service.

Purchase by Mail

For direct investments through the Fund’s transfer agent, you should:

- Complete and sign the account application;
- To open an account, write a check payable to: “DSM Small-Mid Cap Growth Fund”;
- Send your account application and check to one of the addresses listed below;
For subsequent investments, detach the stub that is attached to the account statement you will receive after each transaction and mail it with a check made payable to the Fund in the envelope provided with your statement or to one of the addresses noted below. Write your account number on the check. If you do not have the stub from your account statement, include your name, address and account number on a separate piece of paper.

For regular mail delivery:	For an overnight delivery:
DSM Funds c/o U.S. Bancorp Fund Services, LLC P.O. Box 701 Milwaukee, Wisconsin 53201-0701	DSM Funds c/o U.S. Bancorp Fund Services, LLC 615 East Michigan Street, 3rd Floor Milwaukee, Wisconsin 53202-5207

The Fund does not consider the U.S. Postal Service or other independent delivery services to be its agents. Therefore, deposit in the mail or with such services, or receipt at U.S. Bancorp Fund Services, LLC post office box, of purchase orders or redemption requests does not constitute receipt by the transfer agent of the Fund.

The Fund will not accept payment in cash or money orders. The Fund also does not accept cashier’s checks in amounts of less than \$10,000. To prevent check fraud, the Fund will not accept third party checks, Treasury checks, credit card checks, traveler’s checks or starter checks for the purchase of shares. All purchases must be made in U.S. dollars drawn on a bank located in the United States. The Fund is unable to accept post dated checks, post dated on-line bill pay checks, or any conditional order or payment.

Additionally, shares of the Fund have not been registered for sale outside of the United States. The Fund generally does not sell shares to investors residing outside the United States, even if they are United States citizens or lawful permanent residents, except to investors with United States military APO or FPO addresses.

Purchase by Wire

If you are making your first investment in the Fund, before you wire funds, please contact the transfer agent by phone to make arrangements with a telephone service representative to submit your completed account application via mail, overnight delivery or facsimile. Upon receipt of your completed account application, an account will be established for you and a service representative will contact you within 24 hours to provide you with an account number and wiring instructions. Once your account has been established, you may instruct your bank to initiate the wire using the instructions you were given.

For either initial or subsequent investments, prior to sending the wire, please call the transfer agent at 1-877-862-9555 to advise of your wire to ensure proper credit upon receipt. Your bank must include the name of the Fund, your name and account number so that your wire can be correctly applied.

Instruct your bank to send the wire to:

U.S. Bank N.A.
777 East Wisconsin Avenue
Milwaukee, Wisconsin 53202
ABA #075000022
Credit: U.S. Bancorp Fund Services, LLC
Account #112-952-137
Further Credit: DSM Small-Mid Cap Growth Fund
(Shareholder Name, Shareholder Account #)

Your bank may impose a fee for investments by wire. Neither the Fund nor the transfer agent will be responsible for delays resulting from the banking or Federal Reserve wire systems. You will receive the NAV from the day that your wired funds have been received by the Fund or the transfer agent. Wires received after the close of the NYSE will be considered received by the next business day.

Wired funds must be received prior to 4:00 p.m., Eastern Time, to be eligible for same day pricing. The Fund and the transfer agent are not responsible for the consequences of delays resulting from the banking or Federal Reserve wire system or from incomplete wiring instructions. If you have questions about how to invest by wire, you may call the Fund at 1-877-862-9555.

Purchase by Telephone

If you did not decline telephone transactions on your account application, and if you included a voided check, you may purchase additional shares in the amount of \$25,000 or more from your bank account upon request by telephoning the Fund toll free at 1-877-862-9555. Telephone orders will be accepted via electronic funds transfer from your pre-designated bank account through the Automated Clearing House (“ACH”) network. You must have banking information established on your account prior to making a purchase. Only bank accounts held at domestic institutions that are ACH members may be used for telephone transactions. If your order is received prior to 4:00 p.m. Eastern Time, shares will generally be purchased at the NAV next calculated. For security reasons, requests by telephone may be recorded.

Purchases Placed with Financial Intermediaries

You may buy and sell shares of the Fund through certain financial intermediaries and their agents that have made arrangements with the Fund and are authorized to buy and sell shares of the Fund (collectively, “Financial Intermediaries”). Your order will be priced at the Fund’s NAV next computed after it is received by a Financial Intermediary. A Financial Intermediary may hold your shares in an omnibus account in the Financial Intermediary’s name and the Financial Intermediary may maintain your individual ownership records. The Fund may pay the Financial Intermediary for maintaining individual ownership records as well as providing other shareholder services. Financial Intermediaries may charge fees for the services they provide to you in connection with processing your transaction order or maintaining your account with them. Financial Intermediaries are responsible for placing your order correctly and promptly with the Fund, forwarding payment promptly, as well as ensuring that you receive copies of the Fund’s Prospectus. If you transmit your order with these Financial Intermediaries before the close of regular trading (generally 4:00 p.m., Eastern Time) on a day that the NYSE is open for business, your order will generally be priced at the Fund’s NAV next computed after it is received by the Financial Intermediary. Investors should check with their Financial Intermediary to determine if it is subject to these arrangements.

Retirement Plans

The Fund offers IRA plans. You may obtain information about opening an IRA by calling 1-877-862-9555. If you wish to open a Keogh, Section 403(b) or other retirement plan, please contact your Financial Intermediary.

How to Redeem Shares of the Fund

How to Redeem Shares. If you redeem through a Financial Intermediary, the Financial Intermediary may charge you a transaction fee. If you purchased your shares by check, you may not receive your redemption proceeds until your check has cleared, which may take up to 15 calendar days. Redemptions will be processed only on a day during which the NYSE is open for business. You may receive the proceeds of redemption by check, wire or via electronic funds transfer through the Automated Clearing House (“ACH”) network. Please note that certain fees may apply depending on the timing or manner in which you redeem shares. Requests to redeem shares are processed at the NAV next calculated after the Fund or your Financial Intermediary receives your request in proper form.

Shareholders who have an IRA or other retirement plan must indicate on their redemption request whether or not to withhold federal income tax. Redemption requests failing to indicate an election to have taxes withheld will generally be subject to a 10% withholding tax.

Redeem by Mail

To redeem by mail, please:

- Provide your name and account number;
- Specify the number of shares or dollar amount and the Fund name or number;
- Sign the redemption request (the signature must be exactly the same as the one on your account application). Make sure that all parties that are required by the account registration sign the request, and any applicable signature guarantees are on the request; and
- Send your request to the appropriate address as given under purchasing by mail.

Redeem by Telephone

Unless you declined the option on your account application, you may redeem your shares of the Fund by telephone. In order to arrange for the telephone redemption option after your account has been established, or to change the bank account or address designated to which redemption proceeds are sent, you must send the Fund’s transfer agent a written request. The request must be signed by each shareholder of the account. The transfer agent may require a signature(s) guarantee or a signature verification from a Signature Validation Program member or other acceptable form of authentication from a financial institution source. To redeem by telephone, call the transfer agent at 1-877-862-9555 between the hours of 9:00 a.m. and 8:00 p.m. Eastern Time on a day the NYSE is open for business. Shares of the Fund will be sold in your account at the NAV determined on the day your order is placed prior to market close (generally, 4:00 p.m., Eastern Time); any redemption requests made after market close will receive the Fund next calculated NAV price. For your protection against fraudulent telephone transactions, we will use reasonable procedures to verify your identity. As long as we follow these procedures, we will not be liable for any loss or cost to you if we act on instructions to redeem your account that we reasonably believe to be authorized by you. You will be notified if we refuse a telephonic redemption transaction. Once a telephone transaction is placed, it cannot be cancelled or modified. Telephone trades must be received by or prior to market close. Please allow sufficient time to place your telephone transaction. Telephone redemptions may be difficult during periods of extreme market or economic conditions. If this is the case, please send your redemption request by mail or overnight courier.

Through a Financial Intermediary

You may redeem Fund shares through your Financial Intermediary. Redemptions made through a Financial Intermediary may be subject to procedures established by that institution. Your Financial Intermediary is responsible for sending your order to the Fund and for crediting your account with the proceeds. For redemptions through Financial Intermediaries, orders will be processed at the NAV next effective after receipt of the order by the Financial Intermediary. Please keep in mind that your Financial Intermediary may charge additional fees for its services. Investors should check with their Financial Intermediary to determine if it is subject to these arrangements.

Exchanging Shares

You may exchange all or a portion of your investment, from one DSM Fund to another DSM Fund, by mail or telephone provided you established telephone exchange privileges on your account application. Any new account established through an exchange will be subject to a minimum investment requirement described above. In addition, existing accounts are subject to a minimum exchange requirement of \$25,000. Exchanges will be executed on the basis of the relative NAV of the shares exchanged. An exchange is considered to be a sale of shares for federal income tax purposes on which you may realize a taxable gain or loss. Additionally, an exchange will be considered a sale of shares for the purpose of assessing redemption fees. See the "Account and Transaction Policies -- Redemption Fee" section below for additional information. You may make exchanges only between identically registered accounts (name(s), address and taxpayer ID number) and within the same share class. Call the Fund at 1-877-862-9555 to learn more about exchanges.

Account and Transaction Policies

Redemption Fee. The Fund is intended for long-term investors. Short-term "market-timers" that engage in frequent purchases and redemptions can disrupt the Fund's investment program and create additional transaction costs that are borne by all of the Fund's shareholders. For these reasons, the Fund will assess a 1.00% fee on the redemption of Fund shares held for 30 days or less. The Fund uses the "first in first out" ("FIFO") method to determine the holding period; this means that if you purchase shares on different days, the shares you held longest will be redeemed first for purposes of determining whether the short-term trading fee applies. The redemption fee is deducted from your proceeds and is retained by the Fund for the benefit of its long-term shareholders. This fee does not apply to (1) shares purchased through reinvested dividends or capital gains; or (2) the involuntary redemption of low balance accounts. The Fund's redemption fee will also be waived on sales of Fund shares made in connection with non-discretionary portfolio rebalancing associated with certain wrap accounts and certain retirement plans. The Fund reserves the right to change the terms and amount of this fee upon at least 60 days' notice to shareholders.

Although the Fund has the goal of applying this redemption fee to most redemptions of shares held for less than 30 days, the Fund may not always be able to track short-term trading effected through Financial Intermediaries in non-disclosed or omnibus accounts. While the Fund has entered into information sharing agreements with such Financial Intermediaries as described under "Tools to Combat Frequent Transactions" which contractually require such Financial Intermediaries to provide the Fund with information relating to its customers investing in the Fund through non-disclosed or omnibus accounts, the Fund cannot guarantee the accuracy of the information provided to them from Financial Intermediaries and may not always be able to track short-term trading effected through these Financial Intermediaries. In addition, because the Fund is required to rely on information provided by the Financial Intermediary as to the applicable redemption fee, the Fund cannot ensure that the Financial Intermediary is always imposing such fee on the underlying shareholder in accordance with the Fund's policies.

Tools to Combat Frequent Transactions. The Fund is intended for long-term investors. Short-term "market-timers" who engage in frequent transactions and redemptions may disrupt the Fund's investment program and create additional transaction costs that are borne by all shareholders. The Board has adopted a policy regarding excessive trading. The Fund discourages excessive, short-term trading and other abusive trading practices that may disrupt portfolio management strategies and harm performance. The Fund takes steps to reduce the frequency and effect of these activities in the Fund. These steps may include, among other things, monitoring trading activity, imposing redemption fees, or using fair value pricing when appropriate, under procedures as adopted by the Board, when the Advisor determines current market prices are not readily available. As approved by the Board, these techniques may change from time to time as determined by the Fund in its sole discretion.

In an effort to discourage abusive trading practices and minimize harm to the Fund and its shareholders, the Fund reserves the right, in its sole discretion, to reject any purchase order, in whole or in part, for any reason (including, without limitation, purchases by persons whose trading activity in the Fund's shares is believed by the Advisor to be harmful to the Fund) and without prior notice. The Fund may decide to restrict purchase and sale activity in its shares based on various factors, including whether frequent purchase and sale activity will disrupt portfolio management strategies and adversely affect the Fund's performance. Although these efforts are designed to discourage abusive trading practices, these tools cannot eliminate the possibility that such activity will occur. The Fund seeks to exercise its judgment in implementing these tools to the best of its ability in a manner that it believes is consistent with shareholder interests. Except as noted in the Prospectus, the Fund applies all restrictions uniformly in all applicable cases.

Due to the complexity and subjectivity involved in identifying abusive trading activity and the volume of shareholder transactions the Fund handles, there can be no assurance that the Fund's efforts will identify all trades or trading practices that may be considered abusive. In particular, since the Fund receives purchase and sale orders through Financial Intermediaries that use group or omnibus accounts, the Fund cannot always detect frequent trading. However, the Fund will work with Financial Intermediaries as necessary to discourage shareholders from engaging in abusive trading practices and to impose restrictions on excessive trades. In this regard, the Fund has entered into information sharing agreements with Financial Intermediaries pursuant to which these intermediaries are required to provide to the Fund, at its request, certain information relating to its customers investing in the Fund through non-disclosed or omnibus accounts. The Fund will use this information to attempt to identify abusive trading practices. Financial Intermediaries are contractually required to follow any instructions from the Fund to restrict or prohibit future purchases from shareholders that are found to have engaged in abusive trading in violation of the Fund's policies. However, the Fund cannot guarantee the accuracy of the information provided to it from Financial Intermediaries and cannot ensure that they will always be able to detect abusive trading practices that occur through non-disclosed and omnibus accounts. As a consequence, the Fund's ability to monitor and discourage abusive trading practices in omnibus accounts may be limited.

Proceeds. Proceeds will generally be sent no later than seven calendar days after the Fund receives your redemption request. If elected on your account application, you may have the proceeds of a redemption request sent by check to your address of record, by wire to a pre-determined bank, or by electronic funds transfer via the ACH network to a bank account designated by you on your account application. When proceeds are sent via the ACH network, the funds are usually available in your bank account in 2-3 business days. A wire fee of \$15 will be deducted from your redemption proceeds for full account and share specific redemptions. In the case of a partial redemption, the fee will be deducted from the remaining account balance.

Check Clearance. The proceeds from a redemption request may be delayed up to 15 calendar days from the date of the receipt of a purchase check until the check clears. If the check does not clear, you will be responsible for any losses suffered by the Fund as well as a \$25 service charge imposed by the transfer agent. This delay can be avoided by purchasing shares by wire.

Suspension of Redemptions. The Fund may temporarily suspend the right of redemption or postpone payments under certain circumstances or when the SEC orders a suspension.

Signature Guarantees. The transfer agent may require a signature guarantee for certain redemption requests. A signature guarantee assures that your signature is genuine and protects you from unauthorized account redemptions. A signature guarantee of each owner may be required in the following situations:

- For all redemption requests in excess of \$50,000.
- If a change of address request has been received by the transfer agent within the last 30 days.
- When requesting a change in ownership on your account.
- When redemption proceeds are payable or sent to any person, address or bank account not on record.

Non-financial transactions including establishing or modifying certain services on an account may require a signature guarantee, signature verification from a Signature Validation Program member, or other acceptable form of authentication from a financial institution source.

In addition to the situations described above, the Fund and/or the transfer agent may require a signature guarantee in other instances based on the circumstances relative to the particular situation. Signature guarantees will generally be accepted from domestic banks, brokers, dealers, credit unions, national securities exchanges, registered securities associations, clearing agencies and savings associations, as well as from participants in the New York Stock Exchange Medallion Signature Program and the Securities Transfer Agents Medallion Program (“STAMP”). *A notary public is not an acceptable signature guarantor.*

Customer Identification Program. Please note that, in compliance with the USA PATRIOT Act of 2001, the transfer agent will verify certain information on your account application as part of the Funds’ Anti-Money Laundering Program. As requested on the account application, you should supply your full name, date of birth, social security number and permanent street address. Mailing addresses containing only a P.O. Box will not be accepted. If you do not supply the necessary information, the transfer agent may not be able to open your account. Please contact the transfer agent at 1-877-862-9555 if you need additional assistance when completing your application. If the transfer agent is unable to verify your identity or that of another person authorized to act on your behalf, or if it believes it has identified potentially criminal activity, the Fund reserves the right to temporarily limit additional share purchases, close your account or take any other action they deem reasonable or required by law. The Fund also reserves the right to close the account within 5 business days if clarifying information/documentation is not received.

No Certificates. The Fund does not issue share certificates.

Right to Reject Purchases. The Fund reserves the right to reject any purchase in whole or in part. The Fund may cease taking purchase orders at any time when it believes that it is in the best interest of the Fund’s current shareholders. The purpose of such action is to limit increased Fund expenses incurred when investors buy and sell shares of the Fund over the short-term.

Redemption In-Kind. The Fund reserves the right to pay redemption proceeds to you in whole or in part by a distribution of securities from the Fund’s portfolio (a “redemption in-kind”). It is not expected that the Fund would do so except during unusual market conditions. If the Fund pays your redemption proceeds by a distribution of securities, you could incur brokerage or other charges in converting the securities to cash and will bear any market risks associated with such securities until they are converted into cash. A redemption in-kind is treated as a taxable transaction and a sale of the redeemed shares, generally resulting in capital gain or loss to you, subject to certain loss limitation rules.

Small Accounts. To reduce its expenses, the Fund may redeem an account if the total value of the account falls below \$10,000. You will be given 30 days’ prior written notice of this redemption. During that period, you may purchase additional shares to avoid the redemption.

Householding. In an effort to decrease costs, the Fund will reduce the number of duplicate Prospectuses and annual and semi-annual reports that you receive by sending only one copy of each to those addresses shown by two or more accounts. Please call the transfer agent toll free at 1-877-862-9555 to request individual copies of these documents. The Fund will begin sending individual copies 30 days after receiving your request. This policy does not apply to account statements.

Unclaimed Property. Your mutual fund account may be transferred to your state of residence if no activity occurs within your account during the “inactivity period” specified in your State’s abandoned property laws.

Pricing Fund Shares

Net Asset Value. Shares of the Fund are sold at its NAV. The NAV is determined by dividing the value of the Fund’s securities, cash and other assets, minus all liabilities, by the number of shares outstanding (assets – liabilities / number of shares = NAV). The NAV takes into account the expenses and fees of the Fund, including management, administration and other fees, which are accrued daily. The Fund’s share price is calculated as of the close of regular trading (generally 4:00 p.m. Eastern Time) on each day that the New York Stock Exchange (“NYSE”) is open for business.

All shareholder transaction orders received in good form (as described below under “How to Purchase Shares”) by U.S. Bancorp Fund Services, LLC (the “transfer agent”) or an authorized Financial Intermediary by 4:00 p.m., Eastern Time will be processed at that day’s NAV. Transaction orders received after 4:00 p.m., Eastern Time will receive the next day’s NAV. The Fund’s NAV, however, may be calculated earlier if trading on the NYSE is restricted or as permitted by the SEC. The Fund does not determine the NAV of its shares on any day when the NYSE is not open for trading, such as weekends and certain national holidays as disclosed in the SAI (even if there is sufficient trading in its portfolio securities on such days to materially affect the NAV). In certain cases, fair value determinations may be made as described below under procedures as adopted by the Board.

Fair Value Pricing. Occasionally, reliable market quotations are not readily available or there may be events affecting the value of securities held by the Fund that occur when regular trading on exchanges is closed. Fair value determinations are then made in good faith in accordance with procedures adopted by the Board. Generally, the fair value of a portfolio security or other asset shall be the amount that the owner of the security or asset might reasonably expect to receive upon its current sale.

Attempts to determine the fair value of securities introduce an element of subjectivity to the pricing of securities. As a result, the price of a security determined through fair valuation techniques may differ from the price quoted or published by other sources and may not accurately reflect the market value of the security when trading resumes. If a reliable market quotation becomes available for a security formerly valued through fair valuation techniques, the Fund would compare the new market quotation to the fair value price to evaluate the effectiveness of its fair valuation procedures. If any significant discrepancies are found, the Fund may adjust its fair valuation procedures.

DISTRIBUTIONS AND TAXES

Dividends and Capital Gains Distributions. Dividends from net investment income and distributions from net capital gains from the sale of securities are distributed at least annually. Net investment income generally consists of interest income and dividends received on investments, less expenses.

The Fund typically distributes any undistributed net investment income each December. Any net capital gains realized through the period ended October 31 of each year also are typically distributed by December 31 of each year. The Fund may make an additional payment of dividends or distributions if it deems it desirable at other times during the year.

All distributions will be reinvested in Fund shares unless you choose one of the following options: (1) receive dividends in cash, while reinvesting capital gain distributions in additional Fund shares; (2) reinvest dividends in additional Fund shares and receive capital gain distributions in cash; or (3) receive all dividends and capital gain distributions in cash. If you wish to change your distribution option, write to the transfer agent. Your request must be received at least five days prior to the payment date of the distribution. If you elect to receive dividends and/or capital gains paid in cash, and the U.S. Postal Service cannot deliver your check, or if a check remains uncashed for six months, the Fund reserves the right to reinvest the distribution check in your account at the Fund’s then current net asset value and to reinvest all subsequent distributions.

Federal Income Tax Issues. The Fund has elected and intends to continue to qualify to be taxed as a regulated investment company under Subchapter M of the Internal Revenue Code of 1986, as amended (the “Code”). As a regulated investment company, the Fund will not be subject to federal income tax if it distributes its income as required by the tax law and satisfies certain other requirements that are described in the SAI. The Fund intends to make distributions of dividends and capital gains. In general, if you are subject to taxes, Fund distributions are taxable to shareholders as ordinary income, qualified dividend income or as capital gain distributions depending on the source of the Fund’s income. The rate of tax you pay on capital gain distributions will depend on how long the Fund held the securities that generated the gains, not on how long you owned your Fund shares. You will be taxed in the same manner whether you receive your dividends and capital gain distributions in cash or reinvest them in additional Fund shares. Qualified dividend income, the amount of which will be reported to you by the Fund, is currently taxed at a maximum rate of 20%. Lower rates apply for taxpayers in the lower income tax brackets.

By law, the Fund must withhold as backup withholding a percentage of your taxable distributions and redemption proceeds if you do not provide your correct social security or taxpayer identification number and certify that you are not subject to backup withholding, if you have been notified by the IRS that you are subject to backup withholding, or if the IRS instructs the Fund to do so.

If you sell your Fund shares, it is considered a taxable event for you. Depending on the purchase price and the sale price of the shares you sell, and your adjusted tax basis at the time of such sale, you may have a taxable gain or a loss on the transaction. Limitations on the ability to deduct capital losses apply under the Code in certain situations. You are responsible for any tax liabilities generated by your transaction.

The Fund's SAI provides additional information about taxes. You should consult your professional tax advisor regarding the federal, state, local and foreign tax consequences of an investment in the Fund based on your circumstances.

FINANCIAL HIGHLIGHTS

Financial highlights are not available at this time because the Fund had not commenced operations prior to the date of this Prospectus.

PRIVACY NOTICE

The Fund collects non-public personal information about you from the following sources:

- Information it receives about you on applications or other forms;
- Information you give it verbally; and/or
- Information about your transactions with it or others.

The Fund does not disclose any non-public personal information about shareholders or former shareholders without the shareholder's authorization, except as permitted by law or in response to inquiries from governmental authorities. The Fund may share information with affiliated parties and unaffiliated third parties with whom it has contracts for servicing the Fund. The Fund will provide unaffiliated third parties with only the information necessary to carry out their assigned responsibilities. All shareholder records will be disposed of in accordance with applicable law. The Fund maintains physical, electronic and procedural safeguards to protect your non-public personal information and require third parties to treat your non-public personal information with the same high degree of confidentiality.

In the event that you hold shares of the Fund through a financial intermediary, including, but not limited to, a broker-dealer, bank or trust company, the privacy policy of that financial intermediary would govern how your non-public personal information would be shared with unaffiliated third parties.

You can find more information about the Fund in the following documents:

- **Statement of Additional Information.** The Fund's SAI provides additional details about the investments and techniques of the Fund and certain other additional information. A current SAI is on file with the SEC and is herein incorporated into this Prospectus by reference. It is legally considered a part of this Prospectus.
- **Annual and Semi-Annual Reports.** Additional information about the Fund's investments will be available in the Fund's Annual and Semi-Annual Reports to shareholders. The Fund's Annual Report will contain a discussion of the market conditions and investment strategies that affected the Fund's performance during the Fund's fiscal year.

SUMMARY SECTION

DSM Small-Mid Cap Growth Fund

Investment Objective

The DSM Small-Mid Cap Growth Fund (the “Fund”) seeks long-term capital appreciation.

Fees and Expenses of the Fund

This table describes the fees and expenses that you may pay if you buy and hold shares of the Fund.

Shareholder Fees <i>(fees paid directly from your investment)</i>	Retail Class
Redemption Fee <i>(as a percentage of amount redeemed within 30 days of purchase)</i>	1.00%
Annual Fund Operating Expenses <i>(expenses that you pay each year as a percentage of the value of your investments)</i>	Retail Class
Management Fees	0.90%
Distribution (12b-1) Fees	0.25%
Other Expenses ⁽¹⁾	1.64%
Total Annual Fund Operating Expenses	2.79%
Fee Waiver/Expense Reimbursement ⁽²⁾	-1.39%
Total Annual Fund Operating Expenses After Fee Waiver and/or Expense Reimbursement	1.40%

⁽¹⁾Other expenses are based on estimated customary Fund expenses for the current fiscal year.

⁽²⁾DSM Capital Partners LLC (the “Advisor”) has contractually agreed to reduce its fees and pay Fund expenses (excluding Acquired Fund Fees and Expenses, interest expense in connection with investment activities, taxes, dividends on short positions and extraordinary expenses) in order to limit the Total Annual Operating Expenses After Fee Waiver and/or Expense Reimbursement to 1.40% of average daily net assets of the Fund’s Retail Class shares through March 31, 2014 (the “Expense Cap”). To the extent that the Advisor waives its fees and absorbs expenses to satisfy the Expense Cap, it may seek repayment of a portion or all of such amounts at any time within three fiscal years after the fiscal year in which such amounts were waived or absorbed, subject to the Expense Cap.

Example

This Example is intended to help you compare the cost of investing in the Fund with the cost of investing in other mutual funds. The Example assumes that you invest \$10,000 in the Fund for the time periods indicated. The Example also assumes that your investment has a 5% return each year and that the Fund’s operating expenses remain the same (taking into account the Expense Cap for the first year only). Although your actual costs may be higher or lower, under these assumptions, your costs would be:

	1 Year	3 Years
Retail Class	\$143	\$593

Portfolio Turnover

The Fund pays transaction costs, such as commissions, when it buys and sells securities (or “turns over” its portfolio). A higher portfolio turnover may indicate higher transaction costs and may result in higher taxes when Fund shares are held in a taxable account. These costs, which are not reflected in annual fund operating expenses or in the above Example, affect the Fund’s performance. The Advisor anticipates the Fund’s portfolio turnover rate to be greater than 100% in a given year; however the rate may vary depending on market conditions in any given year.

Principal Investment Strategies

Permissible Securities. Under normal circumstances, the Fund will invest at least 80% of its net assets (plus any borrowings for investment purposes) in equity securities of small and mid-sized capitalization companies. Equity securities include, but are not limited to, common stocks, preferred stocks, securities convertible into common stocks, rights and warrants. The Fund currently considers a

small and mid-sized capitalization company to be one that has a market capitalization between \$500 million and \$10 billion at the time of purchase. Companies whose capitalization rise above this level after purchase continue to be considered small or mid-sized companies for purposes of the 80% policy. The Fund may also invest up to 20% of its net assets in equity securities of issuers that have market capitalizations outside the defined small and mid-sized level at the time of purchase. In addition, the Fund may invest up to 20% of its assets in equity securities of foreign companies through, but not limited to, American Depositary Receipts or similar securities. The Fund generally will contain 35 to 55 equity securities.

The Fund is a non-diversified fund and may, from time to time, have significant exposure to one or more issuers, industries, geographic regions or sectors of the global economy. The Fund may invest greater than 25% of its assets in any market sector (*i.e.*, consumer discretionary, consumer staples, energy, financials, health care, industrials, materials, technology and telecommunications services).

Management Process. The Advisor manages the Fund using a bottom-up, “idea-driven,” growth-style with a long-term (*i.e.*, three-year) investment horizon. This means in general terms that the Advisor identifies companies which it believes exhibit certain growth characteristics. For instance, the Advisor may select companies that it believes have growing businesses with solid fundamentals, attractive profitability, and successful managements. These companies will typically have projected revenue and earnings growth as determined by the Advisor in excess of 10% and are often expected to have higher returns on equity and assets than average businesses. Generally, these businesses will be generating free cash flow and will have financial returns that are stable or rising, driven by improving business fundamentals. The Advisor generally sells a stock when it believes its projected future return becomes unattractive relative to the rest of the portfolio or the investable universe.

Principal Risks

There is the risk that you could lose all or a portion of your money on your investment in the Fund. The Fund is subject to many of the risks common to mutual funds that invest in equity securities of domestic and foreign companies. In particular, the following risks could affect the value of your investment in the Fund:

- **General Market Risk.** The stock market declines or stocks in the Fund’s portfolio may not increase their earnings at the rate anticipated.
- **Small and Mid-Sized Company Stock Risk.** Small to mid-sized company stocks have historically been subject to greater investment risk than large company stocks. The prices of small to mid-sized company stocks tend to be more volatile and less liquid than large company stocks. Small and mid-sized companies may have no or relatively short operating histories, or be newly formed public companies. Some of these companies have aggressive capital structures, including high debt levels, or are involved in rapidly growing or changing industries and/or new technologies, which pose additional risks.
- **Equity Market Risk.** Equity investments are susceptible to general stock market fluctuations and to volatile increases and decreases in value. If the market prices of the securities owned by the Fund fall, the value of your investment in the Fund will decline.
- **Growth Style Investment Risk.** Growth-oriented funds may underperform when value investing is in favor. In addition, growth securities typically trade at higher multiples of current earnings than other securities and, therefore, may be more sensitive to changes in current or expected earnings than other equity securities and may be more volatile.
- **Foreign Securities and Emerging Markets Risks.** The performance of foreign securities depends on the political and economic environments and other overall economic conditions in the countries where the Fund invests. Emerging markets involve greater risk and volatility than more developed markets. Some emerging markets countries may have fixed or managed currencies that are not free-floating against the U.S. dollar. Certain of these currencies have experienced, and may experience in the future, substantial fluctuations or a steady devaluation relative to the U.S. dollar.
- **Non-Diversification Risk.** A non-diversified fund may hold a significant percentage of its assets in the securities of fewer companies or even one company, and therefore events affecting those companies have a greater impact on the Fund than on a diversified fund.

- **Sector-Focus Risk.** Investing a significant portion of the Fund’s assets in one sector of the market exposes the Fund to greater market risk and potential monetary losses than if those assets were spread among various sectors.
- **Management Risk.** The Advisor’s investment strategy does not achieve the Fund’s objective or the Advisor does not implement the strategy properly.
- **Regulatory Risk.** Changes in government regulations may adversely affect the value of a security.
- **New Fund Risk.** The Fund is new with no operating history and there can be no assurance that the Fund will grow to or maintain an economically viable size.

Performance

Because the Fund recently commenced operations, it does not have a full calendar year of performance to compare against a broad measure of market performance. Accordingly, performance information is not available. Performance information will be available after the Fund has been in operation for one calendar year. At that time, the performance information will provide some indication of the risks of investing in the Fund by comparing it against a broad measure of market performance. Updated performance information is available on the Fund’s website at www.dsmfunds.com or by calling the Fund toll-free at 1-877-862-9555.

Purchase and Sale of Fund Shares

Investors may purchase or redeem Fund shares on any business day by written request, wire transfer, or telephone. You may conduct transactions by mail (DSM Small-Mid Cap Growth Fund, c/o U.S. Bancorp Fund Services, LLC, P.O. Box 701, Milwaukee, WI 53201-0701), or by telephone at 1-877-862-9555. Investors who wish to purchase or redeem Fund shares through a broker-dealer should contact the broker-dealer directly. The minimum initial and subsequent investment amounts for various types of accounts are shown below, although we may reduce or waive the minimums in some cases.

Account Types	To Open Your Account	To Add To Your Account
Standard, Traditional and Roth IRA Accounts	\$100,000	\$25,000

Tax Information

The Fund’s distributions are taxable, and will be taxed as ordinary income or capital gains, unless you are investing through a tax-deferred arrangement, such as a 401(k) plan or an IRA, that does not use borrowed funds. Distributions on investments made through tax-deferred arrangements may be taxed later upon withdrawal of assets from those accounts.

Payments to Broker-Dealers and Other Financial Intermediaries

You may buy and sell shares of the Fund through certain financial intermediaries and their agents that have made arrangements with the Fund and are authorized to buy and sell shares of the Fund (collectively, “Financial Intermediaries”). If you purchase the Fund through a broker-dealer or other Financial Intermediary, the Fund and its related companies may pay the broker-dealer or other Financial Intermediary for the sale of Fund shares and related services. These payments may create a conflict of interest by influencing the broker-dealer or other Financial Intermediary and your salesperson to recommend the Fund over another investment. Ask your salesperson or visit your Financial Intermediary’s website for more information.

MORE ABOUT THE FUND'S INVESTMENT STRATEGIES AND RISKS

Investment Objective

The Fund's investment objective is long-term capital appreciation. There is no assurance that this objective will be obtained.

Principal Investment Strategies

Permissible Securities. Under normal circumstances, the Fund will invest at least 80% of its net assets (plus any borrowings for investment purposes) in equity securities of small and mid-sized capitalization companies. Equity securities include, but are not limited to, common stocks, preferred stocks, securities convertible into common stocks, rights and warrants. The Fund currently considers a small and mid-sized capitalization company to be one that has a market capitalization between \$500 million and \$10 billion at the time of purchase. Companies whose capitalization rise above this level after purchase continue to be considered small or mid cap companies for purposes of the 80% policy. The Fund may also invest up to 20% of its net assets in equity securities of issuers that have market capitalizations outside the defined small and mid-sized level at the time of purchase. In addition, the Fund may invest up to 20% of its assets in equity securities of foreign companies through, but not limited to, American Depositary Receipts or similar securities. The Fund generally will hold between 35 to 55 equity securities in its portfolio.

The Fund is a non-diversified fund and may, from time to time, have significant exposure to one or more issuers, industries, geographic regions or sectors of the global economy. The Fund may invest greater than 25% of its assets in any market sector (*i.e.*, consumer discretionary, consumer staples, energy, financials, health care, industrials, materials, technology and telecommunications services).

Management Process. The Advisor specializes in investing in growing businesses with solid fundamentals. In general, the Advisor's approach is "bottom-up" (described below) with a long-term (*i.e.*, three year) investment horizon. The Advisor seeks to purchase stocks of companies for the Fund that typically have projected revenue and earnings growth as determined by the Advisor to be in excess of 10% and may have higher returns on equity and assets than average businesses. Generally, these businesses generate free cash flow and have financial returns that are stable or rising, driven by improving business fundamentals.

The Advisor is a research-driven investment manager. Potential investments are identified based on each company's financial and operational history and on proprietary projections of future company results prepared by in-house analysts. These projections are typically based on modeling of the company, discussions with the management of the company and its competitors, interviews with industry experts, a study of the candidate's industry and the significant factors that drive industry growth. The "bottom-up" research process involves using various criteria, including reviewing a company's:

- revenue growth
- earnings growth
- free cash flow
- profitability
- prudent use of debt
- lack of earnings misses
- open and experienced management

In addition to superior fundamental characteristics, in order for the Advisor to purchase a stock the company must also have an attractive valuation. One of the Advisor's valuation methods involves an historical evaluation of investor sentiment regarding each company's shares to determine typical price-to-earnings ratios when the company is "in favor" or "out of favor." In addition, the Advisor studies the effect of past and current interest rates on the P/E ratio of each company's shares, and projects these effects going forward. These valuation methods help support investment decisions regarding the price and timing of purchases and sales of shares as well as the size of positions.

Risk Management. The Advisor seeks to reduce risk primarily by owning high-quality growth companies that demonstrate strong revenue growth, superior profitability, the ability to accelerate earnings and have high-quality balance sheets. As a further element of risk management, when valuing companies, the Advisor normally projects relatively low earnings and price-to-earnings scenarios. The Advisor also monitors sector and sub-sector weightings with an eye on events or changes that could impact the Fund's holdings.

Selling Strategy. The Advisor generally sells a stock when its projected future return becomes unattractive relative to the rest of the portfolio or investable universe. The Advisor will also generally sell a security if the company disappoints on its earnings report or if the fundamental thesis for owning the company deteriorates.

Temporary or Defensive Cash Investments. Under normal market conditions, the Fund will invest according to its principal investment strategies described above. However, in response to adverse market, economic or political conditions, the Fund may temporarily depart from its principal investment strategies by making short-term investments in cash and cash equivalents. As a result, the Fund may not achieve its investment objective to the extent that it makes such “defensive” investments. A defensive position, taken at the wrong time, may have an adverse impact on the Fund’s performance. In the event that the Fund uses a money market fund for its cash position, there will be some duplication of expenses because the Fund would bear its pro rata portion of such money market fund’s advisory fees and operational expenses.

Changes in Policy. The Fund will not change its investment policy of investing at least 80% of its net assets in equity securities of small and medium capitalization companies without first changing the Fund’s name and providing shareholders with at least a 60-day prior written notice.

Principal Risks

As discussed in the Summary Section and described further below, the Fund is subject to many of the risks common to mutual funds that invest in U.S. and foreign equity securities. You may lose money by investing in this Fund.

General Market Risk. General market risk is the risk that the market value of a security may fluctuate, sometimes rapidly and unpredictably. These fluctuations may cause a security to be worth less than its cost when originally purchased or less than it was worth at an earlier time. General market risk may affect a single issuer, industry, sector of the economy or the market as a whole. The financial markets may continue to experience periods of extreme stress which may result in unusual and extreme volatility in the equity markets and in the prices of individual stocks. In some cases, the prices of stocks of individual companies have been negatively impacted even though there may be little or no apparent degradation in the financial conditions or prospects of that company. These market conditions add significantly to the risk of short-term volatility of the Fund.

- **Small and Mid-Sized Company Stock Risk.** Small and mid-sized cap stocks have historically been subject to greater investment risk than large cap stocks. The prices of small to mid-sized company stocks tend to be more volatile and less liquid than large cap stocks. Small and mid-sized companies may have no or relatively short operating histories, or be newly formed public companies. Some of these companies have aggressive capital structures, including high debt levels, or are involved in rapidly growing or changing industries and/or new technologies, which pose additional risks.

- **Equity Market Risk.** Equity investments are susceptible to general stock market fluctuations and to volatile increases and decreases in value. Investor perceptions may impact the market and are based on various and unpredictable factors including expectations regarding government, economic, monetary and fiscal policies; inflation and interest rates; economic expansion or contraction; and global or regional political, economic and banking crises. If you hold equity investments of any given issuer, you would generally be exposed to greater risk than if you hold debt obligations of the issuer because equity investments generally have inferior rights to receive payments from issuers in comparison with the rights of bondholders and other creditors of such issuers.

- **Growth Style Investment Risk.** Growth stocks can perform differently from the market as a whole and from other types of stocks. Growth stocks may be designated as such and purchased based on the premise that the market will eventually reward a given company’s long-term earnings growth with a higher stock price when that company’s earnings grow faster than both inflation and the economy in general. Thus a growth style investment strategy attempts to identify companies whose earnings may grow or are growing at a faster rate than inflation and the economy. While growth stocks may react differently to issuer, political, market and economic developments than the market as a whole and other types of stocks by rising in price in certain environments, growth stocks also tend to be sensitive to changes in the earnings of their underlying companies and more volatile than other types of stocks, particularly over the short term. During periods of adverse economic and market conditions, the stock prices of growth stocks may fall despite favorable earnings trends.

Foreign Securities and Emerging Markets Risk. Foreign securities involve risks relating to adverse political, social and economic developments. Foreign companies may not be subject to accounting standards or governmental supervision comparable to U.S. companies, and there may be less public information about their operations. Foreign markets may also be less liquid and more volatile than U.S. markets. Rapid increases in money supply may result in speculative investing, contributing to volatility. Foreign markets may offer less legal protection to investors. Enforcing legal rights may be difficult, costly and slow. There may be special problems enforcing claims against foreign governments. Emerging market countries entail greater investment risk than developed markets. Such risks could include government dependence on a few industries or resources, government-imposed taxes on foreign investment or limits on the removal of capital from a country, unstable government, and volatile markets.

-

Current political uncertainty surrounding the European Union and its membership could add to increased market volatility. The ongoing deterioration of financial stability in several countries, including Greece, Italy, Ireland, Spain and Portugal, together with the risk of contagion to other, more stable countries, particularly France and Germany, has exacerbated the global economic crisis. This situation has also raised a number of uncertainties regarding the stability and overall standing of the European Monetary Union. Given the global effect of today's economy, the volatility of the Euro may affect the risk of an investment in the Fund. Emerging market countries entail greater investment risk than developed markets. Such risks could include government dependence on a few industries or resources, government-imposed taxes on foreign investment or limits on the removal of capital from a country, unstable government, and volatile markets.

Non-Diversification Risk. The Fund is non-diversified, which means that there is no restriction under the Investment Company Act of 1940, as amended ("1940 Act") on how many different issuers must be included in the Fund's portfolio. As a result, the Fund's shares may be more volatile and fluctuate more than shares of a fund that invests in a broader range of issuers because the Fund will be impacted to a greater extent by any adverse economic, political or regulatory developments affecting the issuers in its portfolio. The Fund is still subject to certain diversification requirements for federal income tax purposes, which are less rigorous than the diversification requirements under federal securities law. See "Taxation" in the Fund's Statement of Additional Information ("SAI") for more information.

-

Sector-Focus Risk. Investing a significant portion of the Fund's assets in one sector of the market exposes the Fund to greater market risk and potential monetary losses than if those assets were spread among various sectors. If the Fund's portfolio is overweighted in a certain sector, any negative development affecting that sector will have a greater impact on the Fund than a fund that is not overweighted in that sector.

-

Management Risk. Management risk describes the Fund's ability to meet its investment objective based on the Advisor's success or failure at implementing investment strategies for the Fund. The value of your investment is subject to the effectiveness of the Advisor's research, analysis and asset allocation among portfolio securities. If the Advisor's investment strategies do not produce the expected results, your investment could be diminished.

-

- **Regulatory Risk.** Changes in government regulations may adversely affect the value of a security in the Fund. An insufficiently regulated market might also permit inappropriate practices that adversely affect an investment in the Fund.

- **New Fund Risk.** The Fund is new with no operating history and there can be no assurance that the Fund will grow to or maintain an economically viable size, in which case the Board may determine to liquidate the Fund. The Board can initiate liquidation without shareholder approval if it determines it is in the best interest of shareholders. As a result, the timing of any liquidation may not be favorable to certain individual shareholders.

Portfolio Holdings Information

A complete description of the Fund's policies and procedures with respect to the disclosure of the Fund's portfolio holdings is available in the Fund's SAI.

MANAGEMENT OF THE FUND

Investment Advisor

DSM Capital Partners LLC, located at 116 Radio Circle Drive, Suite 200, Mount Kisco, New York 10549, is the investment advisor to the Fund. The Advisor manages the Fund, subject to oversight by the Board. The Advisor was founded in 2001 and serves as investment advisor to endowments and foundations, pensions plans, family offices, high net worth individual investors, and corporations. As of January 1, 2013, the Advisor managed approximately \$ 3.7 billion in assets.

Under the investment advisory agreement that the Advisor has with the Fund, the Advisor is entitled to receive, on a monthly basis, an annual rate of 0.90% of the Fund's average daily net assets.

Portfolio Managers

The Fund is co-managed by the Advisor's Chief Investment Officers, who are supported by a team of research analysts. The SAI provides additional information about the portfolio managers' method of compensation, other accounts managed by the portfolio managers and the portfolio managers' ownership of the Fund's shares.

Portfolio Manager	Business Experience
Daniel Strickberger Co-Chief Investment Officer of the Fund since its inception March 2013.	Daniel Strickberger co-founded the Advisor in February 2001 with Mr. Memishian and has served as a Managing Member ever since. Prior to starting the Advisor, Mr. Strickberger held several portfolio management and senior executive positions at companies such as W.P. Stewart & Company, Lazard Freres & Co., Oppenheimer & Co. and Morgan Guaranty. Mr. Strickberger holds a Bachelor of Science in Business Administration and Finance from the University of Delaware and a Master of Business Administration in Finance and International Business from New York University. He serves on the Investment Committee of the University of Delaware Endowment and the Advisory Board of Delaware's Lerner College of Business & Economics.
Stephen Memishian, CFA Co-Chief Investment Officer of the Fund since its inception March 2013.	Stephen Memishian, CFA, co-founded the Advisor in February 2001 with Mr. Strickberger and has served as a Managing Member ever since. Prior to starting the Advisor, Mr. Memishian held executive and other positions at companies such as W.P. Stewart & Company, Paine Webber, Columbia Pictures Industries, and McKinsey & Company. Mr. Memishian holds a Bachelor of Science in Engineering from Tufts University, and a Master of Science in Management from the Massachusetts Institute of Technology. He has been active at MIT and serves as trustee and officer of the Greenwich Country Day School.

Fund Expenses

In addition to the advisory fees discussed above, the Fund incurs other expenses such as custodian, transfer agency, interest, Acquired Fund Fees and Expenses and other customary Fund expenses. (Acquired Fund Fees and Expenses are indirect fees that a Fund incurs from investing in the shares of other investment companies.) The Advisor has contractually agreed to reduce its fees and/or pay Fund expenses (excluding Acquired Fund Fees and Expenses, interest expense in connection with investment activities, taxes, dividends on short positions and extraordinary expenses) in order to limit Total Annual Fund Operating Expenses for the Fund to 1.40% of the Retail Class's average daily net assets.

Any reduction in advisory fees or payment of expenses made by the Advisor is subject to reimbursement by the Fund if requested by the Advisor, and the Board approves such reimbursement in subsequent fiscal years. This reimbursement may be requested by the Advisor if the aggregate amount actually paid by a Fund toward operating expenses for such fiscal year (taking into account any reimbursements) does not exceed the Expense Cap. The Advisor is permitted to be reimbursed for fee reductions and/or expense payments it made in the prior three fiscal years. The Fund must pay its current ordinary operating expenses before the Advisor is entitled to any reimbursement of fees and/or expenses. The current Expense Cap is in place indefinitely, and at least through March 31, 2014. The Agreement may thereafter be terminated at any time by the Board of Trustees upon 60 days' written notice to the Advisor, or by the Advisor with the consent of the Board.

MANAGEMENT OF THE FUND

A discussion regarding the basis for the Board's approval of the Advisory Agreement with the Advisor will be available in the next shareholder report for the period ending June 30, 2013.

Distribution Plan and Additional Payments to Dealers

Distribution Plan. Although not currently implemented, the Fund has adopted a Distribution Plan (the "Plan") pursuant to Rule 12b-1 under the 1940 Act on behalf of its Retail Class of shares. Under the Plan, the Fund is authorized to pay the distributor a fee for the sale and distribution of the Fund's shares and services it provides to Retail Class shareholders. The maximum amount of the fee authorized is 0.25% of the Retail Class's average daily net assets annually. Because these fees are paid out of the Fund's assets on an on-going basis, over time these fees will increase the cost of your investment in the Fund's shares and may cost you more than paying other types of sales charges. The Fund will notify shareholders when it has implemented the Plan.

In addition to paying fees under the Plan, the Fund may pay service fees to Financial Intermediaries such as banks, broker-dealers, financial advisors or other financial institutions, including affiliates of the Advisor, for sub-administration, sub-transfer agency and other shareholder services associated with shareholders whose shares are held of record in omnibus, other group accounts or accounts traded through registered securities clearing agents.

Additional Payments to Dealers. The Advisor or distributor, out of its own resources, and without additional cost to the Fund or its shareholders, may provide additional cash payments or non-cash compensation to Financial Intermediaries who sell shares of the Fund, including affiliates of the Advisor. Such payments and compensation are in addition to the Rule 12b-1 fees and any service fees paid by the Fund. These additional cash payments are generally made to Financial Intermediaries that provide shareholder servicing, marketing support and/or access to sales meetings, sales representatives and management representatives of the Financial Intermediary. Cash compensation may also be paid to Financial Intermediaries for inclusion of the Fund on a sales list, including a preferred or select sales list, in other sales programs or as an expense reimbursement in cases where the Financial Intermediary provides shareholder services to the Fund's shareholders. The Advisor or distributor may also pay cash compensation in the form of finder's fees that vary depending on the dollar amount of the shares sold.

The Advisor's Prior Performance of Substantially Similar Accounts

The performance information shown below represents the prior performance of discretionary accounts managed by the Advisor with substantially similar investment objective, policies and strategies as the Fund. The performance information is referred to as the SMID Composite. The Advisor maintains all performance records for the SMID Composite.

The SMID Composite is provided to illustrate the past performance of the composite of the Advisor's Small-Mid Cap growth strategy as measured against a broad based market index, and does not represent the historical performance of the Fund. **You should not consider this performance data to be an indication of future performance of the Fund.**

The Advisor first offered the Small-Mid Cap growth product to clients on January 2, 2003 through a limited partnership, which subsequently liquidated on December 29, 2006. The Advisor also offered the Small-Mid Cap growth style to clients through a U.K. based Open Ended Investment Company ("OEIC") beginning on January 23, 2004. On January 2, 2007, the Advisor began managing a separate account in accordance with the Small-Mid Cap growth style. Therefore, the SMID Composite begins with the performance of the limited partnership, joined by the performance of the OEIC, and continued as of January 2, 2007 with separately managed accounts and the OEIC. Moreover, the SMID Composite includes all discretionary Small-Mid Cap growth accounts managed by the Advisor with the exception of accounts that: (a) experienced a capital flow during the month equal to, or greater than, 15% of the opening market value on the day of the flow; (b) on any day of the month that had absolute variance from target in individual security positions (including cash) that, taken together, equal or exceed 12% of the opening value of that day, and (c) balanced accounts including bonds.

MANAGEMENT OF THE FUND

The performance of the limited partnership in the SMID Composite was calculated using its pre-fee performance, with cash flows calculated at the beginning of the day. Post-fee performance was modeled with a flat fee of 1% per annum on assets, assumed charged quarterly in advance, which were no higher (or equal to) than the actual fees charged. Therefore, the performance figures do not reflect the deduction of investment advisory fees actually charged. Rather, the performance presented reflects the deduction of a model advisory fee. The post-fee returns calculated were created by deducting the monthly amount of the model annual fee from actual gross returns. All other expenses of the partnership, such as administration and accounting were not modeled in calculating the post-fee performance. Cash flow effects on performance due to the modeled fee are believed to be de minimus. The limited partnership experienced one significant cash flow in excess of 15%, the impact of which is included in the gross performance.

SMID Composite performance is presented in U.S. dollars. Results are time-weighted and asset-weighted based on beginning-of-period assets values. Valuation is on a trade-date basis. Results include the reinvestment of dividends and other earnings. Dividends are realized on an accrual basis, cash equivalent dividends are realized on a cash basis. Pre-fee results include the effect of commissions; post-fee results include the effect of commissions and management fees. Custody charges, where applicable, are not deducted from pre-fee or post-fee performance.

There were four accounts in the SMID Composite as of December 31, 2012 totaling approximately \$24,400,000.

The SMID Composite does not reflect any sales loads or placement fees.

As noted above, the discretionary accounts for which results are reported is not of a registered mutual fund and is not subject to the same types of expenses as the Fund or to the diversification requirements, specific tax restrictions and investment limitations imposed on the Fund by the 1940 Act, or the Internal Revenue Code of 1987, as amended, which, if applicable, may have adversely affected the performance results of the SMID Composite.

Consequently, the performance results for the SMID Composite could have been adversely affected if it had been regulated as an investment company. In addition, the operating expenses incurred in the SMID Composite were lower than the anticipated operating expenses of the Fund, and, accordingly, the performance results of the composite are greater than what the Fund's performance would have been.

The performance results have been time-weighted and dollar-weighted and prepared in accordance with Global Investment Performance Standards (GIPS). These standards are different from the standardized SEC method. Investors should also be aware that the use of a methodology different from that used above to calculate performance could result in different performance data.

The performance data below is for the Advisor's SMID Composite and is not the performance results of the DSM Small-Mid Cap Growth Fund.

Average Annual Total Returns for the Periods Ended December 31, 2012

Period	Advisor SMID ⁽¹⁾ Account Composite	Russell 2500 Growth Total Index ⁽²⁾
1 Year	18.1%	16.1%
3 Years	18.2%	13.8%
5 Years	2.1%	4.1%
10 Years	11.0%	10.5%
Since Inception (1/2/03)	11.0%	10.5%

(1) As of December 31, 2012, the SMID Composite was comprised of four accounts with approximately \$24.4 million in assets of the Advisor's \$3.7 billion in assets under management.

(2) The Russell 2500 Growth Index measures the performance of the small to mid-cap growth segment of the U.S. equity universe. It includes those Russell 2500 Index companies with higher price-to-book ratios and higher forecasted growth values. You cannot invest directly in an index.

SHAREHOLDER INFORMATION

Description of Class

The following table lists the key features of the Fund's Retail Class.

Retail Class	
Minimum Initial Investment	\$10,000
Subsequent Minimum Investment	\$2,500
Waiver/Reduction of Investment Minimums	See below
Fees	<ul style="list-style-type: none"> • Redemption Fee of 1.00% if shares are redeemed within 30 days of purchase (with some exceptions) • 12b-1 fee of 0.25% (not yet implemented)
Conversion Feature	Subject to the Advisor's approval, if investors currently holding Retail Class shares meet the criteria for eligible investors and would like to convert to Institutional Class shares, there are no tax consequences and investors are not subject to the redemption fee. To inquire about converting your Retail Class shares to Institutional Class shares, please call 1-877-862-9555.
Eligible Investors	Includes accounts maintained through Financial Intermediaries.

How to Purchase Shares of the Fund

Minimum Investments. To purchase shares of the Fund, you must make at least the minimum initial investment (or subsequent investment) as shown in the table below. The minimum investment requirements may be waived from time to time.

Account Types	To Open Your Account	To Add To Your Account
Standard, Traditional and Roth IRA Accounts	\$100,000	\$25,000

- **Checks** for all accounts, including individual, sole proprietorship, joint, Uniform Gift to Minors Act ("UGMA") or Uniform Transfer to Minors Act ("UTMA") accounts, must be made payable to "DSM SMALL-MID CAP Growth Fund." A charge of \$25 will be applied for any payment that is returned. Additionally, the investor may also be responsible for any loss sustained by the Fund as a result of any payment that is returned.
- **ACH** refers to the "Automated Clearing House" System maintained by the Federal Reserve Bank, which allows banks to process checks, transfer funds and perform other tasks. Your financial institution may charge you a fee for this service.
- **Wires** instruct your financial institution with whom you have an account to make a Federal Funds wire payment to us. Your financial institution may charge you a fee for this service.

Purchase by Mail

For direct investments through the Fund's transfer agent, you should:

- Complete and sign the account application;
 - To open an account, write a check payable to: "DSM Small-Mid Cap Growth Fund";
 - Send your account application and check to one of the addresses listed below;
- For subsequent investments, detach the stub that is attached to the account statement you will receive after each transaction and mail it with a check made payable to the Fund in the envelope provided with your statement or to one of the addresses noted below. Write your account number on the check. If you do not have the stub from your account statement, include your name, address and account number on a separate piece of paper.

SHAREHOLDER INFORMATION

For regular mail delivery:	For an overnight delivery:
DSM Small-Mid Cap Growth Fund c/o U.S. Bancorp Fund Services, LLC P.O. Box 701 Milwaukee, Wisconsin 53201-0701	DSM Small-Mid Cap Growth Fund c/o U.S. Bancorp Fund Services, LLC 615 East Michigan Street, 3rd Floor Milwaukee, Wisconsin 53202-5207

The Fund does not consider the U.S. Postal Service or other independent delivery services to be its agents. Therefore, deposit in the mail or with such services, or receipt at U.S. Bancorp Fund Services, LLC post office box, of purchase orders or redemption requests does not constitute receipt by the transfer agent of the Fund.

The Fund will not accept payment in cash or money orders. The Fund also does not accept cashier's checks in amounts of less than \$10,000. To prevent check fraud, the Fund will not accept third party checks, Treasury checks, credit card checks, traveler's checks or starter checks for the purchase of shares. All purchases must be made in U.S. dollars drawn on a bank located in the United States. The Fund is unable to accept post dated checks, post dated on-line bill pay checks, or any conditional order or payment.

Additionally, shares of the Fund have not been registered for sale outside of the United States. The Fund generally does not sell shares to investors residing outside the United States, even if they are United States citizens or lawful permanent residents, except to investors with United States military APO or FPO addresses.

Purchase by Wire

If you are making your first investment in the Fund, before you wire funds, please contact the transfer agent by phone to make arrangements with a telephone service representative to submit your completed account application via mail, overnight delivery or facsimile. Upon receipt of your completed account application, an account will be established for you and a service representative will contact you within 24 hours to provide you with an account number and wiring instructions. Once your account has been established, you may instruct your bank to initiate the wire using the instructions you were given.

For either initial or subsequent investments, prior to sending the wire, please call the transfer agent at 1-877-862-9555 to advise of your wire to ensure proper credit upon receipt. Your bank must include the name of the Fund, your name and account number so that your wire can be correctly applied.

Instruct your bank to send the wire to:

U.S. Bank N.A.
777 East Wisconsin Avenue
Milwaukee, Wisconsin 53202
ABA #075000022
Credit: U.S. Bancorp Fund Services,
LLC
Account #112-952-137
Further Credit: DSM Small-Mid Cap
Growth Fund
(Shareholder Name, Shareholder
Account #)

Your bank may impose a fee for investments by wire. Neither the Fund nor the transfer agent will be responsible for delays resulting from the banking or Federal Reserve wire systems. You will receive the NAV from the day that your wired funds have been received by the Fund or the transfer agent. Wires received after the close of the NYSE will be considered received by the next business day.

Wired funds must be received prior to 4:00 p.m., Eastern time, to be eligible for same day pricing. The Fund and the transfer agent are not responsible for the consequences of delays resulting from the banking or Federal Reserve wire system or from incomplete wiring instructions. If you have questions about how to invest by wire, you may call the Fund at 1-877-862-9555.

SHAREHOLDER INFORMATION

Purchase by Telephone

If you did not decline telephone transactions on your account application, and if you included a voided check, you may purchase additional shares in the amount of \$25,000 or more from your bank account upon request by telephoning the Fund toll free at 1-877-862-9555. Telephone orders will be accepted via electronic funds transfer from your pre-designated bank account through the Automated Clearing House (“ACH”) network. You must have banking information established on your account prior to making a purchase. Only bank accounts held at domestic institutions that are ACH members may be used for telephone transactions. If your order is received prior to 4:00 p.m. Eastern time, shares will generally be purchased at the NAV next calculated. For security reasons, requests by telephone may be recorded.

Purchasing with an Automatic Investment Plan

If you intend to use the Automatic Investment Plan (“AIP”), you may open your account with an initial minimum investment of \$5,000. Once an account has been opened, you can make additional purchases of shares of the Fund through an AIP. The AIP provides a convenient method to have monies deducted directly from your bank account for investment into the Fund. You can make automatic monthly, quarterly or annual purchases of \$250 or more into the Fund. Only bank accounts held at domestic institutions that are ACH members may be used for this option. If you wish to change the amount of your investment or to terminate the plan, please contact the transfer agent at least 5 days prior to the effective date. Additionally, the transfer agent will charge a \$25 fee for any payment returned. The Fund may alter, modify or terminate the AIP at any time. To begin participating in the AIP, please complete the Automatic Investment Plan section found on the account application or contact the Fund at 1-877-862-9555.

Purchases Placed with Financial Intermediaries

You may buy and sell shares of the Fund through certain financial intermediaries and their agents that have made arrangements with the Fund and are authorized to buy and sell shares of the Fund (collectively, “Financial Intermediaries”). Your order will be priced at the Fund’s NAV next computed after it is received by a Financial Intermediary. A Financial Intermediary may hold your shares in an omnibus account in the Financial Intermediary’s name and the Financial Intermediary may maintain your individual ownership records. The Fund may pay the Financial Intermediary for maintaining individual ownership records as well as providing other shareholder services. Financial Intermediaries may charge fees for the services they provide to you in connection with processing your transaction order or maintaining your account with them. Financial Intermediaries are responsible for placing your order correctly and promptly with the Fund, forwarding payment promptly, as well as ensuring that you receive copies of the Fund’s Prospectus. If you transmit your order with these Financial Intermediaries before the close of regular trading (generally 4:00 p.m., Eastern time) on a day that the NYSE is open for business, your order will generally be priced at the Fund’s NAV next computed after it is received by the Financial Intermediary. Investors should check with their Financial Intermediary to determine if it is subject to these arrangements.

Retirement Plans

The Fund offers IRA plans. You may obtain information about opening an IRA by calling 1-877-862-9555. If you wish to open a Keogh, Section 403(b) or other retirement plan, please contact your Financial Intermediary.

How to Redeem Shares of the Fund

How to Redeem Shares. If you redeem through a Financial Intermediary, the Financial Intermediary may charge you a transaction fee. If you purchased your shares by check, you may not receive your redemption proceeds until your check has cleared, which may take up to 15 calendar days. Redemptions will be processed only on a day during which the NYSE is open for business. You may receive the proceeds of redemption by check, wire or via electronic funds transfer through the Automated Clearing House (“ACH”) network. Please note that certain fees may apply depending on the timing or manner in which you redeem shares. Requests to redeem shares are processed at the NAV next calculated after the Fund or your Financial Intermediary receives your request in proper form.

SHAREHOLDER INFORMATION

Shareholders who have an IRA or other retirement plan must indicate on their redemption request whether or not to withhold federal income tax. Redemption requests failing to indicate an election to have taxes withheld will generally be subject to a 10% withholding tax.

Redeem by Mail

To redeem by mail, please:

- Provide your name and account number;
- Specify the number of shares or dollar amount and the Fund name or number;
- Sign the redemption request (the signature must be exactly the same as the one on your account application). Make sure that all parties that are required by the account registration sign the request, and any applicable signature guarantees are on the request; and
- Send your request to the appropriate address as given under purchasing by mail.

Redeem by Telephone

Unless you declined the option on your account application, you may redeem your shares of the Fund by telephone. In order to arrange for the telephone redemption option after your account has been established, or to change the bank account or address designated to which redemption proceeds are sent, you must send the Fund's transfer agent a written request. The request must be signed by each shareholder of the account. The transfer agent may require a signature(s) guarantee or a signature verification from a Signature Validation Program member or other acceptable form of authentication from a financial institution source. To redeem by telephone, call the transfer agent at 1-877-862-9555 between the hours of 9:00 a.m. and 8:00 p.m. Eastern Time on a day the NYSE is open for business. Shares of the Fund will be sold in your account at the NAV determined on the day your order is placed prior to market close (generally, 4:00 p.m., Eastern Time); any redemption requests made after market close will receive the Fund next calculated NAV price. For your protection against fraudulent telephone transactions, we will use reasonable procedures to verify your identity. As long as we follow these procedures, we will not be liable for any loss or cost to you if we act on instructions to redeem your account that we reasonably believe to be authorized by you. You will be notified if we refuse a telephonic redemption transaction. Once a telephone transaction is placed, it cannot be cancelled or modified. Telephone trades must be received by or prior to market close. Please allow sufficient time to place your telephone transaction. Telephone redemptions may be difficult during periods of extreme market or economic conditions. If this is the case, please send your redemption request by mail or overnight courier.

Systematic Withdrawal Plan

If you own or are purchasing shares of the Fund having a current value of at least \$10,000, you may participate in a Systematic Withdrawal Plan ("SWP"). The SWP provides for automatic redemptions of at least \$100 on a monthly, quarterly, semi-annually or annual basis. You may have the proceeds of the SWP sent by check to your address of record or by electronic funds transfer via the ACH network to the bank account designated by you on the Fund account application. You may establish the SWP by completing this section on the account application or by calling the Fund at 1-877-862-9555. You may terminate or modify your participation in the Plan by calling the Fund's transfer agent five days prior to the next scheduled payment.

Through a Financial Intermediary

You may redeem Fund shares through your Financial Intermediary. Redemptions made through a Financial Intermediary may be subject to procedures established by that institution. Your Financial Intermediary is responsible for sending your order to the Fund and for crediting your account with the proceeds. For redemptions through Financial Intermediaries, orders will be processed at the NAV next effective after receipt of the order by the Financial Intermediary. Please keep in mind that your Financial Intermediary may charge additional fees for its services. Investors should check with their Financial Intermediary to determine if it is subject to these arrangements.

Exchanging Shares

You may exchange all or a portion of your investment, from one DSM Fund to another DSM Fund, by mail or telephone provided you established telephone exchange privileges on your account application. Any new account established through an exchange will be subject to a minimum investment requirement described above. In addition, existing accounts are subject to a minimum exchange requirement of \$25,000. Exchanges will be executed on the basis of the relative NAV of the shares exchanged. An exchange is considered to be a sale of shares for federal income tax purposes on which you may realize a taxable gain or loss. Additionally, an exchange will be considered a sale of shares for the purpose of assessing redemption fees. See the "Account and Transaction Policies -- Redemption Fee" section below for additional information. You may make exchanges only between identically registered accounts (name(s), address and taxpayer ID number) and within the same share class. Call the Fund at 1-877-862-9555 to learn more about exchanges.

SHAREHOLDER INFORMATION

Account and Transaction Policies

Redemption Fee. The Fund is intended for long-term investors. Short-term “market-timers” that engage in frequent purchases and redemptions can disrupt the Fund’s investment program and create additional transaction costs that are borne by all of the Fund’s shareholders. For these reasons, the Fund will assess a 1.00% fee on the redemption of Fund shares held for 30 days or less. The Fund uses the “first in first out” (“FIFO”) method to determine the holding period; this means that if you purchase shares on different days, the shares you held longest will be redeemed first for purposes of determining whether the short-term trading fee applies. The redemption fee is deducted from your proceeds and is retained by the Fund for the benefit of its long-term shareholders. This fee does not apply to (1) shares purchased through reinvested dividends or capital gains; or (2) the involuntary redemption of low balance accounts. The Fund’s redemption fee will also be waived on sales of Fund shares made in connection with non-discretionary portfolio rebalancing associated with certain wrap accounts and certain retirement plans. The Fund reserves the right to change the terms and amount of this fee upon at least 60 days’ notice to shareholders.

Although the Fund has the goal of applying this redemption fee to most redemptions of shares held for less than 30 days, the Fund may not always be able to track short-term trading effected through Financial Intermediaries in non-disclosed or omnibus accounts. While the Fund has entered into information sharing agreements with such Financial Intermediaries as described under “Tools to Combat Frequent Transactions” which contractually require such Financial Intermediaries to provide the Fund with information relating to its customers investing in a Fund through non-disclosed or omnibus accounts, the Fund cannot guarantee the accuracy of the information provided to them from Financial Intermediaries and may not always be able to track short-term trading effected through these Financial Intermediaries. In addition, because the Fund is required to rely on information provided by the Financial Intermediary as to the applicable redemption fee, the Fund cannot ensure that the Financial Intermediary is always imposing such fee on the underlying shareholder in accordance with the Fund’s policies.

Tools to Combat Frequent Transactions. The Fund is intended for long-term investors. Short-term “market-timers” who engage in frequent transactions and redemptions may disrupt the Fund’s investment program and create additional transaction costs that are borne by all shareholders. The Board has adopted a policy regarding excessive trading. The Fund discourages excessive, short-term trading and other abusive trading practices that may disrupt portfolio management strategies and harm performance. The Fund takes steps to reduce the frequency and effect of these activities in the Fund. These steps may include, among other things, monitoring trading activity, imposing redemption fees, or using fair value pricing when appropriate, under procedures as adopted by the Board, when the Advisor determines current market prices are not readily available. As approved by the Board, these techniques may change from time to time as determined by the Fund in its sole discretion.

In an effort to discourage abusive trading practices and minimize harm to the Fund and its shareholders, the Fund reserves the right, in its sole discretion, to reject any purchase order, in whole or in part, for any reason (including, without limitation, purchases by persons whose trading activity in the Fund’s shares is believed by the Advisor to be harmful to the Fund) and without prior notice. The Fund may decide to restrict purchase and sale activity in its shares based on various factors, including whether frequent purchase and sale activity will disrupt portfolio management strategies and adversely affect the Fund’s performance. Although these efforts are designed to discourage abusive trading practices, these tools cannot eliminate the possibility that such activity will occur. The Fund seeks to exercise its judgment in implementing these tools to the best of its ability in a manner that it believes is consistent with shareholder interests. Except as noted in the Prospectus, the Fund applies all restrictions uniformly in all applicable cases.

SHAREHOLDER INFORMATION

Due to the complexity and subjectivity involved in identifying abusive trading activity and the volume of shareholder transactions the Fund handles, there can be no assurance that the Fund's efforts will identify all trades or trading practices that may be considered abusive. In particular, since the Fund receives purchase and sale orders through Financial Intermediaries that use group or omnibus accounts, the Fund cannot always detect frequent trading. However, the Fund will work with Financial Intermediaries as necessary to discourage shareholders from engaging in abusive trading practices and to impose restrictions on excessive trades. In this regard, the Fund has entered into information sharing agreements with Financial Intermediaries pursuant to which these intermediaries are required to provide to the Fund, at its request, certain information relating to its customers investing in the Fund through non-disclosed or omnibus accounts. The Fund will use this information to attempt to identify abusive trading practices. Financial Intermediaries are contractually required to follow any instructions from the Fund to restrict or prohibit future purchases from shareholders that are found to have engaged in abusive trading in violation of the Fund's policies. However, the Fund cannot guarantee the accuracy of the information provided to it from Financial Intermediaries and cannot ensure that they will always be able to detect abusive trading practices that occur through non-disclosed and omnibus accounts. As a consequence, the Fund's ability to monitor and discourage abusive trading practices in omnibus accounts may be limited.

Proceeds. Proceeds will generally be sent no later than seven calendar days after the Fund receives your redemption request. If elected on your account application, you may have the proceeds of a redemption request sent by check to your address of record, by wire to a pre-determined bank, or by electronic funds transfer via the ACH network to a bank account designated by you on your account application. When proceeds are sent via the ACH network, the funds are usually available in your bank account in 2-3 business days. A wire fee of \$15 will be deducted from your redemption proceeds for full account and share specific redemptions. In the case of a partial redemption, the fee will be deducted from the remaining account balance.

Check Clearance. The proceeds from a redemption request may be delayed up to 15 calendar days from the date of the receipt of a purchase check until the check clears. If the check does not clear, you will be responsible for any losses suffered by the Fund as well as a \$25 service charge imposed by the transfer agent. This delay can be avoided by purchasing shares by wire.

Suspension of Redemptions. The Fund may temporarily suspend the right of redemption or postpone payments under certain circumstances or when the SEC orders a suspension.

Signature Guarantees. The transfer agent may require a signature guarantee for certain redemption requests. A signature guarantee assures that your signature is genuine and protects you from unauthorized account redemptions. A signature guarantee of each owner may be required in the following situations:

- For all redemption requests in excess of \$50,000;
- If a change of address request has been received by the transfer agent within the last 30 days;
- When requesting a change in ownership on your account; and
- When redemption proceeds are payable or sent to any person, address or bank account not on record.

Non financial transactions including establishing or modifying certain services on an account may require a signature guarantee, signature verification from a Signature Validation Program member, or other acceptable form of authentication from a financial institution source.

In addition to the situations described above, the Fund and/or the transfer agent may require a signature guarantee in other instances based on the circumstances relative to the particular situation. Signature guarantees will generally be accepted from domestic banks, brokers, dealers, credit unions, national securities exchanges, registered securities associations, clearing agencies and savings associations, as well as from participants in the New York Stock Exchange Medallion Signature Program and the Securities Transfer Agents Medallion Program ("STAMP"). *A notary public is not an acceptable signature guarantor.*

Customer Identification Program. Please note that, in compliance with the USA PATRIOT Act of 2001, the transfer agent will verify certain information on your account application as part of the Funds' Anti-Money Laundering Program. As requested on the account application, you should supply your full name, date of birth, social security number and permanent street address. Mailing addresses containing only a P.O. Box will not be accepted. If you do not supply the necessary information, the transfer agent may not be able to open your account. Please contact the transfer agent at 1-877-862-9555 if you need additional assistance when completing your application. If the transfer agent is unable to verify your identity or that of another person authorized to act on your behalf, or if it believes it has identified potentially criminal activity, the Fund reserves the right to temporarily limit additional share purchases, close your account or take any other action they deem reasonable or required by law. The Fund also reserves the right to close the account within 5 business days if clarifying information/documentation is not received.

SHAREHOLDER INFORMATION

No Certificates. The Fund does not issue share certificates.

Right to Reject Purchases. The Fund reserves the right to reject any purchase in whole or in part. The Fund may cease taking purchase orders at any time when it believes that it is in the best interest of the Fund's current shareholders. The purpose of such action is to limit increased Fund expenses incurred when investors buy and sell shares of the Fund over the short-term.

Redemption In-Kind. The Fund reserves the right to pay redemption proceeds to you in whole or in part by a distribution of securities from the Fund's portfolio (a "redemption in-kind"). It is not expected that the Fund would do so except during unusual market conditions. If the Fund pays your redemption proceeds by a distribution of securities, you could incur brokerage or other charges in converting the securities to cash and will bear any market risks associated with such securities until they are converted into cash. A redemption in-kind is treated as a taxable transaction and a sale of the redeemed shares, generally resulting in capital gain or loss to you, subject to certain loss limitation rules.

Small Accounts. To reduce its expenses, the Fund may redeem an account if the total value of the account falls below \$10,000. You will be given 30 days' prior written notice of this redemption. During that period, you may purchase additional shares to avoid the redemption.

Householding. In an effort to decrease costs, the Fund will reduce the number of duplicate Prospectuses and annual and semi-annual reports that you receive by sending only one copy of each to those addresses shown by two or more accounts. Please call the transfer agent toll free at 1-877-862-9555 to request individual copies of these documents. The Fund will begin sending individual copies 30 days after receiving your request. This policy does not apply to account statements.

Unclaimed Property. Your mutual fund account may be transferred to your state of residence if no activity occurs within your account during the "inactivity period" specified in your State's abandoned property laws.

Pricing Fund Shares

Net Asset Value. Shares of the Fund are sold at its NAV. The NAV is determined by dividing the value of the Fund's securities, cash and other assets, minus all liabilities, by the number of shares outstanding ($\text{assets} - \text{liabilities} / \text{number of shares} = \text{NAV}$). The NAV takes into account the expenses and fees of the Fund, including management, administration and other fees, which are accrued daily. The Fund's share price is calculated as of the close of regular trading (generally 4:00 p.m. Eastern time) on each day that the New York Stock Exchange ("NYSE") is open for business.

All shareholder transaction orders received in good form (as described below under "How to Purchase Shares") by U.S. Bancorp Fund Services, LLC (the "transfer agent") or an authorized Financial Intermediary by 4:00 p.m., Eastern time will be processed at that day's NAV. Transaction orders received after 4:00 p.m., Eastern time will receive the next day's NAV. The Fund's NAV, however, may be calculated earlier if trading on the NYSE is restricted or as permitted by the SEC. The Fund does not determine the NAV of its shares on any day when the NYSE is not open for trading, such as weekends and certain national holidays as disclosed in the SAI (even if there is sufficient trading in its portfolio securities on such days to materially affect the NAV). In certain cases, fair value determinations may be made as described below under procedures as adopted by the Board.

SHAREHOLDER INFORMATION

Fair Value Pricing. Occasionally, reliable market quotations are not readily available or there may be events affecting the value of securities held by the Fund that occur when regular trading on exchanges is closed. Fair value determinations are then made in good faith in accordance with procedures adopted by the Board. Generally, the fair value of a portfolio security or other asset shall be the amount that the owner of the security or asset might reasonably expect to receive upon its current sale.

Attempts to determine the fair value of securities introduce an element of subjectivity to the pricing of securities. As a result, the price of a security determined through fair valuation techniques may differ from the price quoted or published by other sources and may not accurately reflect the market value of the security when trading resumes. If a reliable market quotation becomes available for a security formerly valued through fair valuation techniques, the Fund would compare the new market quotation to the fair value price to evaluate the effectiveness of its fair valuation procedures. If any significant discrepancies are found, the Fund may adjust its fair valuation procedures.

DISTRIBUTIONS AND TAXES

Dividends and Capital Gains Distributions. Dividends from net investment income and distributions from net capital gains from the sale of securities are distributed at least annually. Net investment income generally consists of interest income and dividends received on investments, less expenses.

The Fund typically distributes any undistributed net investment income each December. Any net capital gains realized through the period ended October 31 of each year also are typically distributed by December 31 of each year. The Fund may make an additional payment of dividends or distributions if it deems it desirable at other times during the year.

All distributions will be reinvested in Fund shares unless you choose one of the following options: (1) receive dividends in cash, while reinvesting capital gain distributions in additional Fund shares; (2) reinvest dividends in additional Fund shares and receive capital gain distributions in cash; or (3) receive all dividends and capital gain distributions in cash. If you wish to change your distribution option, write to the transfer agent. Your request must be received at least 5 days prior to the payment date of the distribution. If you elect to receive dividends and/or capital gains paid in cash, and the U.S. Postal Service cannot deliver your check, or if a check remains uncashed for six months, the Fund reserves the right to reinvest the distribution check in your account at the Fund's then current net asset value and to reinvest all subsequent distributions.

Federal Income Tax Issues. The Fund has elected and intends to continue to qualify to be taxed as a regulated investment company under Subchapter M of the Internal Revenue Code of 1986, as amended (the "Code"). As a regulated investment company, the Fund will not be subject to federal income tax if it distributes its income as required by the tax law and satisfies certain other requirements that are described in the SAI. The Fund intends to make distributions of dividends and capital gains. In general, if you are subject to taxes, Fund distributions are taxable to shareholders as ordinary income, qualified dividend income or as capital gain distributions depending on the source of the Fund's income. The rate of tax you pay on capital gain distributions will depend on how long the Fund held the securities that generated the gains, not on how long you owned your Fund shares. You will be taxed in the same manner whether you receive your dividends and capital gain distributions in cash or reinvest them in additional Fund shares. Qualified dividend income, the amount of which will be reported to you by the Fund, is currently taxed at a maximum rate of 20%. Lower rates apply for taxpayers in the lower income tax brackets.

By law, the Fund must withhold as backup withholding a percentage of your taxable distributions and redemption proceeds if you do not provide your correct social security or taxpayer identification number and certify that you are not subject to backup withholding, if you have been notified by the IRS that you are subject to backup withholding, or if the IRS instructs the Fund to do so.

If you sell your Fund shares, it is considered a taxable event for you. Depending on the purchase price and the sale price of the shares you sell, and your adjusted tax basis at the time of such sale, you may have a taxable gain or a loss on the transaction. Limitations on the ability to deduct capital losses apply under the Code in certain situations. You are responsible for any tax liabilities generated by your transaction.

SHAREHOLDER INFORMATION

The Fund's SAI provides additional information about taxes. You should consult your professional tax advisor regarding the federal, state, local and foreign tax consequences of an investment in the Fund based on your circumstances.

FINANCIAL HIGHLIGHTS

Financial highlights are not available at this time because the Fund had not commenced operations prior to the date of this Prospectus.

PRIVACY NOTICE

The Fund collects non-public personal information about you from the following sources:

- Information it receives about you on applications or other forms;
- Information you give it verbally; and/or
- Information about your transactions with it or others.

The Fund does not disclose any non-public personal information about shareholders or former shareholders without the shareholder's authorization, except as permitted by law or in response to inquiries from governmental authorities. The Fund may share information with affiliated parties and unaffiliated third parties with whom it has contracts for servicing the Fund. The Fund will provide unaffiliated third parties with only the information necessary to carry out their assigned responsibilities. All shareholder records will be disposed of in accordance with applicable law. The Fund maintains physical, electronic and procedural safeguards to protect your non-public personal information and require third parties to treat your non-public personal information with the same high degree of confidentiality.

In the event that you hold shares of the Fund through a financial intermediary, including, but not limited to, a broker-dealer, bank or trust company, the privacy policy of that financial intermediary would govern how your non-public personal information would be shared with unaffiliated third parties.

You can find more information about the Fund in the following documents:

- **Statement of Additional Information.** The Fund's SAI provides additional details about the investments and techniques of the Fund and certain other additional information. A current SAI is on file with the SEC and is herein incorporated into this Prospectus by reference. It is legally considered a part of this Prospectus.
- **Annual and Semi-Annual Reports.** Additional information about the Fund's investments will be available in the Fund's Annual and Semi-Annual Reports to shareholders. The Fund's Annual Report will contain a discussion of the market conditions and investment strategies that affected the Fund's performance during the Fund's fiscal year.

You can obtain a free copy of these documents, request other information or make general inquiries about the Fund by contacting the Fund at:

THE TRUST

The Trust is a Massachusetts business trust organized on February 24, 1987, and is registered with the SEC as an open-end management investment company. Prior to May 1991, the Trust was known as the Avondale Investment Trust. The Trust's Agreement and Declaration of Trust (the "Declaration of Trust") permits the Trust's Board of Trustees (the "Board") to issue an unlimited number of full and fractional shares of beneficial interest, without par value, which may be issued in any number of series. The Trust consists of various series that represent separate investment portfolios. The Board may from time to time issue other series, the assets and liabilities of which will be separate and distinct from any other series. This SAI relates only to the Fund.

The shareholders of a Massachusetts business trust could, under certain circumstances, be held personally liable as partners for its obligations. However, the Declaration of Trust contains an express disclaimer of shareholder liability for acts or obligations of the Trust.

The Declaration of Trust also provides for indemnification and reimbursement of expenses out of the Fund's assets for any shareholder held personally liable for obligations of the Fund or the Trust. The Declaration of Trust provides that the Trust shall, upon request, assume the defense of any claim made against any shareholder for any act or obligation of the Fund or the Trust and satisfy any judgment thereon. All such rights are limited to the assets of the Fund. The Declaration of Trust further provides that the Trust may maintain appropriate insurance (for example, fidelity bonding and errors and omissions insurance) for the protection of the Trust, its shareholders, trustees, officers, employees and agents to cover possible tort and other liabilities. However, the activities of the Trust as an investment company would not likely give rise to liabilities in excess of the Trust's total assets. Thus, the risk of a shareholder incurring financial loss on account of shareholder liability is limited to circumstances in which both inadequate insurance exists and the Fund itself is unable to meet its obligations.

The Fund's Prospectuses and this SAI are a part of the Trust's Registration Statement filed with the SEC. Copies of the Trust's complete Registration Statement may be obtained from the SEC upon payment of the prescribed fee or may be accessed free of charge at the SEC's website at www.sec.gov.

The Fund is a series of the Trust. With the exception of the DSM Large Cap Growth Fund and the DSM Global Growth Fund, which are offered in two separate prospectuses, the Fund does not hold itself out as related to any other series of the Trust for purposes of investment and investor services, nor does it share the same investment advisor with any other series of the Trust.

It is anticipated that the Fund will commence operations on or about the date of this SAI.

INVESTMENT POLICIES AND RISKS

The following information supplements the discussion of the Fund's principal investment strategies as set forth in its Prospectuses. The Fund may invest in the following types of investments, each of which is subject to certain risks, as discussed below.

Non-Diversification.

The Fund is a "non-diversified" mutual fund and, as such, its investments are not required to meet certain diversification requirements under federal securities law. The Fund is permitted to invest a greater percentage of its assets in the securities of a single issuer than a diversified fund. Thus, the Fund may have fewer holdings than diversified funds. As a result, a decline in the value of those holdings would cause the Fund's overall value to decline to a greater degree than if the Fund held a more diversified portfolio.

Although the Fund is a “non-diversified” investment company, and consequently is not limited in the proportion of its assets that may be invested in the securities of a single issuer, the Fund intends to conduct its operations so as to qualify to be taxed as a “regulated investment company” for federal income tax purposes, which will relieve the Fund of any liability for federal income tax to the extent its income and capital gains are distributed to shareholders. To so qualify, among other requirements, the Fund will limit its investment so that, at the close of each quarter of the taxable year, (1) not more than 25% of the Fund’s total assets will be invested in the securities of a single issuer, and (2) with respect to 50% of its total assets, not more than 5% of its total assets will be invested in the securities of a single issuer and the Fund will not own more than 10% of the outstanding voting securities of a single issuer. The Fund’s investments in U.S. government securities are not subject to these limitations.

Recent Regulatory Events.

Legal, tax and regulatory changes could occur that may adversely affect the Fund and its ability to pursue its investment strategies and/or increase the costs of implementing such strategies. The U.S. government, the Federal Reserve, the Treasury, the SEC, the Commodity Futures Trading Commission, the Federal Deposit Insurance Corporation and other governmental and regulatory bodies have recently taken or are considering taking actions in light of the recent financial crisis. These actions include, but are not limited to, the enactment by the United States Congress of the “Dodd-Frank Wall Street Reform and Consumer Protection Act,” which was signed into law on July 21, 2010, and imposes a new regulatory framework over the U.S. financial services industry and the consumer credit markets in general, and proposed regulations by the SEC. Given the broad scope, sweeping nature, and relatively recent enactment of some of these regulatory measures, the potential impact they could have on securities held by the Fund is unknown. There can be no assurance that these measures will not have an adverse effect on the value or marketability of securities held by the Fund. Furthermore, no assurance can be made that the U.S. government or any U.S. regulatory body (or other authority or regulatory body) will not continue to take further legislative or regulatory action in response to the continuing economic turmoil or otherwise, and the effect of such actions, if taken, cannot be known.

Recent Economic Events.

Although the U.S. economy has seen gradual improvement since 2008, the effects of the global financial crisis that began to unfold in 2007 continue to exist and economic growth has been slow and uneven. In addition, the negative impacts and continued uncertainty stemming from the sovereign debt crisis and economic difficulties in Europe and U.S. fiscal and political matters, including deficit reduction and U.S. debt ratings, have impacted and may continue to impact the global economic recovery. These events and possible continuing market turbulence may have an adverse effect on the Fund. In response to the global financial crisis, the United States and other governments and the Federal Reserve and certain foreign central banks took steps to support financial markets. However, risks to a robust resumption of growth persist: a weak consumer weighed down by too much debt and increasing joblessness, the growing size of the federal budget deficit and national debt, and the threat of inflation. A number of countries in Europe have experienced severe economic and financial difficulties. Many non-governmental issuers, and even certain governments, have defaulted on, or been forced to restructure, their debts; many other issuers have faced difficulties obtaining credit or refinancing existing obligations; financial institutions have in many cases required government or central bank support, have needed to raise capital, and/or have been impaired in their ability to extend credit; and financial markets in Europe and elsewhere have experienced extreme volatility and declines in asset values and liquidity. There is continued concern about national-level support for the euro and the accompanying coordination of fiscal and wage policy among European Economic and Monetary Union (“EMU”) member countries. Member countries are required to maintain tight control over inflation, public debt, and budget deficit to qualify for membership in the European EMU. These requirements can severely limit European EMU member countries’ ability to implement monetary policy to address regional economic conditions. A return to unfavorable economic conditions could impair the Fund’s ability to execute its investment strategies.

Equity Securities.

Common stocks, preferred stocks, convertible securities, rights and warrants are examples of equity securities in which the Fund may invest. All investments in equity securities are subject to market risks that may cause their prices to fluctuate over time. Historically, the equity markets have moved in cycles and the value of the securities in the Fund's portfolio may fluctuate substantially from day to day. Owning an equity security can also subject the Fund to the risk that the issuer may discontinue paying dividends.

Common Stock.

Common stocks represent a proportionate share of the ownership of a company and its value is based on the success of the company's business, any income paid to stockholders, the value of its assets, and general market conditions. In addition to the general risks set forth above, investments in common stocks are subject to the risk that in the event a company in which the Fund invests is liquidated, the holders of preferred stock and creditors of that company will be paid in full before any payments are made to the Fund as a holder of common stock. It is possible that all assets of that company will be exhausted before any payments are made to the Fund.

Preferred Stock.

Preferred stocks are equity securities that often pay dividends at a specific rate and have a preference over common stocks in dividend payments and liquidation of assets. A preferred stock has a blend of the characteristics of a bond and common stock. It can offer the higher yield of a bond and has priority over common stock in equity ownership, but does not have the seniority of a bond and, unlike common stock, its participation in the issuer's growth may be limited. Although the dividend is set at a fixed annual rate, in some circumstances it can be changed or omitted by the issuer.

Convertible Securities.

Convertible securities (such as debt securities or preferred stock) may be converted into or exchanged for a prescribed amount of common stock of the same or different issuer within a particular period of time at a specified price or formula. A convertible security entitles the holder to receive interest paid or accrued on debt or dividends paid on preferred stock until the convertible stock matures or is redeemed, converted or exchanged. While no securities investment is without some risk, investments in convertible securities generally entail less risk than the issuer's common stock. However, the extent to which such risk is reduced depends in large measure upon the degree to which the convertible security sells above its value as a fixed income security. In addition to the general risk associated with equity securities discussed above, the market value of convertible securities is also affected by prevailing interest rates, the credit quality of the issuer and any call provisions. While convertible securities generally offer lower interest or dividend yields than nonconvertible debt securities of similar quality, they do enable the investor to benefit from increases in the market price of the underlying common stock.

Rights and Warrants.

Rights and warrants are securities which entitle the holder to purchase the securities of a company (usually, its common stock) at a specified price during a specified time period. The value of a right or warrant is affected by many of the same factors that determine the prices of common stocks. Rights and warrants may be purchased directly or acquired in connection with a corporate reorganization or exchange offer. A right is an instrument granting rights to existing shareholders of a corporation to subscribe to shares of a new issue of common stock at below the public offering price before the stock is offered to the public. A warrant is an instrument issued by a corporation that gives the holder the right to subscribe to a specific amount of the corporation's capital stock at a set price for a specified period of time. Rights and warrants do not represent ownership of the securities, but only the right to buy the securities. The prices of rights and warrants do not necessarily move parallel to the prices of underlying securities. Rights and warrants may be considered speculative in that they have no voting rights, pay no dividends and have no rights with respect to the assets of a corporation issuing them.

Other Investment Companies.

The Fund may invest in the securities of other registered investment companies, subject to the limitations set forth in the Investment Company Act of 1940, as amended, (the "1940 Act"). Investments in the securities of other investment companies will likely result in the duplication of advisory fees and certain other expenses. By investing in another investment company, the Fund becomes a shareholder of that investment company. As a result, Fund shareholders indirectly will bear the Fund's proportionate share of the fees and expenses paid by shareholders of the other investment company, in addition to the fees and expenses Fund shareholders directly bear in connection with the Fund's own operations.

Section 12(d)(1)(A) of the 1940 Act generally prohibits a fund from purchasing (1) more than 3% of the total outstanding voting stock of another fund; (2) securities of another fund having an aggregate value in excess of 5% of the value of the acquiring fund; and (3) securities of the other fund and all other funds having an aggregate value in excess of 10% of the value of the total assets of the acquiring fund. There are some exceptions, however, to these limitations pursuant to various rules promulgated by the SEC.

In accordance with Section 12(d)(1)(F) and Rule 12d1-3 of the 1940 Act, the provisions of Section 12(d)(1) shall not apply to securities purchased or otherwise acquired by the Fund if (i) immediately after such purchase or acquisition not more than 3% of the total outstanding stock of such registered investment company is owned by the Fund and all affiliated persons of the Fund; and (ii) the Fund is not proposing to offer or sell any security issued by it through a principal underwriter or otherwise at a public or offering price including a sales load that exceeds the limits set forth in Rule 2830 of the Conduct Rules of the Financial Industry Regulatory Authority ("FINRA") applicable to a fund of funds (i.e., 8.5%).

Exchange-Traded Funds.

The Fund may also invest in shares of exchange-traded funds ("ETFs"). ETFs are investment companies which seek to replicate the performance, before fees and expenses, of an underlying index of securities. An ETF is similar to a traditional mutual fund but trades at different prices during the day on a securities exchange like a stock. Similar to investments in other investment companies discussed above, the Fund's investments in ETFs will involve duplication of advisory fees and other expenses since the Fund will be investing in another investment company. In addition, the Fund's investment in ETFs is also subject to its limitations on investments in investment companies discussed above. To the extent the Fund invests in ETFs which focus on a particular market segment or industry, the Fund will also be subject to the risks associated with investing in those sectors or industries. The shares of the ETFs in which the Fund will invest will be listed on a national securities exchange and the Fund will purchase and sell these shares on the secondary market at their current market price, which may be more or less than their NAV. Investors in the Fund should be aware that ETFs are subject to "tracking risk," which is the risk that an ETF will not be able to replicate exactly the performance of the index it tracks.

As a purchaser of ETF shares on the secondary market, the Fund will be subject to the market risk associated with owning any security whose value is based on market price. ETF shares historically have tended to trade at or near their NAV, but there is no guarantee that they will continue to do so. Unlike traditional mutual funds, shares of an ETF may be purchased and redeemed directly from the ETF only in large blocks (typically 50,000 shares or more) and only through participating organizations that have entered into contractual agreements with the ETF. The Fund does not expect to enter into such agreements and therefore will not be able to purchase and redeem its ETF shares directly from the ETF, but will instead purchase and sell shares on the secondary market.

American Depositary Receipts.

The Fund may invest up to 20% of its total net assets in U.S. dollar-denominated securities of foreign issuers traded in the United States, including, but not limited to, American Depositary Receipts, Global Depositary Receipts and European Depositary Receipts (collectively, ADRs).

ADRs are certificates evidencing ownership of shares of a foreign issuer. These certificates are issued by depositary banks, and the underlying shares are held in trust by a custodian bank or similar financial institution in the issuer's home country. ADRs may be purchased in OTC (defined below) markets or on securities exchanges. The Fund may make arrangements through a broker/dealer to purchase a foreign security on the issuer's primary securities exchange and convert the security to a U.S. dollar-denominated ADR. ADRs may also be sold in a similar manner. ADRs may be sponsored or unsponsored. A sponsored ADR is issued by a depositary which has an exclusive relationship with the issuer of the underlying security. An unsponsored ADR may be issued by any number of U.S. depositaries. Under the terms of most sponsored arrangements, depositaries agree to distribute notices of shareholder meetings and voting instructions, and to provide shareholder communications and other information to the ADR holders at the request of the issuer of the deposited securities. The depositary of an unsponsored ADR, on the other hand, is under no obligation to distribute shareholder communications received from the issuer of the deposited securities or to pass through voting rights to ADR holders in respect of the deposited securities. The Fund may invest in either type of ADR. A foreign issuer of the security underlying an ADR is generally not subject to the same reporting requirements in the United States as a domestic issuer. Accordingly, information available to a U.S. investor will be limited to the information the foreign issuer is required to disclose in its country, and the market value of an ADR may not reflect undisclosed material information concerning the issuer of the underlying security. ADRs may also be subject to exchange rate risks if the underlying foreign securities are denominated in a foreign currency.

ADRs do not eliminate the risks inherent in investing in the securities of foreign issuers. By investing in ADRs rather than directly in the foreign security, however, the Fund may avoid currency risks during the settlement period for either purchases or sales. There is a large, liquid market in the United States for most ADRs.

Market Characteristics.

The Fund may purchase foreign equity securities in over-the-counter ("OTC") markets or on U.S. securities exchanges and on local foreign securities exchanges as described below under "Foreign Securities." The OTC market includes securities of foreign issuers quoted through the OTC Bulletin Board Service ("OTCBB"). The OTCBB provides real-time quotations for securities of foreign issuers, including ADRs convertible into such securities, which are registered with the SEC under Section 12 of the Securities Exchange Act of 1934. The OTC market also includes "pink sheet" securities ("Pink Sheets") published by Pink Sheets LLC (formerly known as the National Quotation Bureau, Inc.), a quotation medium for unregistered securities of domestic and foreign issuers, including unregistered ADRs convertible into such securities. Pink Sheets LLC is not registered with the SEC as a stock exchange, nor does the SEC regulate its activities. Pink Sheets LLC is not required to provide real-time quotations and does not require companies whose securities are quoted on its systems to meet any listing requirements. With the exception of a few foreign issuers, the companies quoted in the Pink Sheets tend to be thinly traded. Many of these companies do not file periodic reports or audited financial statements with the SEC. For these reasons, companies quoted in the Pink Sheets can involve greater risk. Investments in certain markets may be made through ADRs, EDRs and GDRs traded in the United States or on foreign exchanges. Foreign markets are generally not as developed or efficient as, and may be more volatile than, those in the U.S. While growing in volume, they usually have substantially less volume than U.S. markets and the Fund's portfolio securities may be less liquid and subject to more rapid and erratic price movements than securities of comparable U.S. companies. Securities may trade at price/earnings multiples higher than comparable U.S. securities and such levels may not be sustainable. Commissions on foreign exchanges are generally higher than commissions on U.S. exchanges. While there are an increasing number of overseas securities markets that have adopted a system of negotiated rates, a number are still subject to an established schedule of minimum commission rates. There is generally less government supervision and regulation of foreign exchanges, brokers and listed companies than in the U.S. Moreover, settlement practices for transactions in foreign markets may differ from those in U.S. markets. Such differences may include delays beyond periods customary in the U.S. and practices, such as delivery of securities prior to receipt of payment, which increase the likelihood of a "failed settlement." Failed settlements can result in losses to the Fund.

Foreign Securities.

The Fund may invest in equity securities of foreign corporations. In determining whether a company is foreign, the Advisor will consider various factors including where the company is headquartered, where the company's principal operations are located, where the company's revenues are derived, where the principal trading market is located and the country in which the company is legally organized. The weight given to each of these factors will vary depending upon the circumstances and as determined by the Advisor. Investments in stock of foreign corporations may involve a greater degree of risk than those in domestic securities.

Securities of foreign issuers may be subject to greater fluctuations in price than domestic securities. The price of foreign securities is affected by changes in the currency exchange rates. Potential political or economic instability of the country of the issuer, especially in emerging or developing countries, could cause rapid and extreme changes in the value of the Fund's assets to the extent it is invested in securities of foreign issuers. Foreign countries have different accounting, auditing and financial reporting standards, and foreign issuers may be subject to less governmental regulation and oversight and higher levels of taxation than U.S. issuers. Also, many countries where the Fund invests are not as politically or economically developed as the United States. Acts of foreign governments interfering in capital markets, such as capital or currency controls, nationalization of companies or industries, expropriation of assets, or imposition of punitive taxes would have an adverse effect on the Fund. In addition, additional costs may be incurred in connection with the Fund's foreign investments. Foreign brokerage commissions are generally higher than those in the United States. Expenses may also be incurred on currency conversions when the Fund moves investments from one country to another. Increased custodial costs, as well as administrative difficulties, may be experienced in connection with maintaining assets in foreign jurisdictions.

While the Fund intends to invest primarily in foreign companies located in developed countries, it may also invest in developing or emerging market securities. The considerations noted above regarding the risk of investing in foreign securities are generally more significant for investments in emerging or developing countries, such as countries in Eastern Europe, Latin America, South America or Southeast Asia. These countries may have relatively unstable governments and securities markets in which only a small number of securities trade. Markets of developing or emerging countries may generally be more volatile than markets of developed countries. Investment in these markets may involve significantly greater risks, as well as the potential for greater gains.

Short-Term Instruments

The Fund may invest in short-term money market instruments issued in the United States or abroad (*e.g.*, Australia, Canada, etc.), denominated in U.S. dollars or any foreign currency. Short-term money market instruments include repurchase agreements, short-term fixed or variable rate certificates of deposit, time deposits with a maturity no greater than 180 days, bankers' acceptances, commercial paper rated A-1 by S&P or Prime-1 by Moody's or in similar other money market securities. Certificates of deposit represent an institution's obligation to repay funds deposited with it that earn a specified interest rate over a given period. Bankers' acceptances are negotiable obligations of a bank to pay a draft, which has been drawn by a customer, and are usually backed by goods in international trade. Time deposits are non-negotiable deposits with a banking institution that earn a specified interest rate over a given period. Certificates of deposit and time deposits generally may be withdrawn on demand by the Fund but may be subject to early withdrawal penalties that could reduce the Fund's performance.

The Fund may also invest in other high quality fixed income securities denominated in U.S. dollars, any foreign currency or in a multi-national currency unit (*e.g.*, the European Currency Unit).

Temporary Defensive Position.

The Fund may assume a temporary defensive position by investing all or a portion of its assets in cash, cash equivalents money market instruments, or securities of other no-load mutual funds. Money market instruments usually have maturities of one year or less and fixed rates of return. The money market instruments in which the Fund may invest include short-term U.S. government securities, commercial paper, bankers' acceptances, certificates of deposit, interest-bearing savings deposits of commercial banks, repurchase agreements concerning securities in which the Fund may invest and money market mutual funds. The Fund may also invest in short-term money market instruments issued outside the U.S. If the Fund invests in shares of another mutual fund, shareholders of the Fund will bear the advisory and other fees of both the Fund and the mutual fund in which it invests.

The risk of this strategy to the Fund is the opportunity cost associated with the market moving higher.

Illiquid Securities.

The Fund may not invest more than 15% of the value of its net assets in illiquid securities. The Advisor will monitor the amount of illiquid securities in the Fund's portfolio, under the supervision of the Board, to ensure compliance with the Fund's investment restrictions.

Historically, illiquid securities have included securities subject to contractual or legal restrictions on resale because they have not been registered under the Securities Act of 1933, as amended (the "Securities Act"), securities which are otherwise not readily marketable and repurchase agreements having a maturity of longer than seven days. As described below, in some cases, securities subject to legal or contractual restrictions on resales may not be deemed to be illiquid (see "Restricted Securities" below). Mutual funds do not typically hold a significant amount of these illiquid securities because of the potential for delays on resale and uncertainty in valuation. Limitations on resale may have an adverse effect on the marketability of portfolio securities and the Fund might be unable to dispose of illiquid securities promptly or at reasonable prices and might thereby experience difficulty satisfying redemption requests within seven days.

Restricted Securities.

The Fund may invest in securities that are subject to restrictions on resale because they have not been registered under the Securities Act. These securities are sometimes referred to as private placements. Although securities which may be resold only to "qualified institutional buyers" in accordance with the provisions of Rule 144A under the Securities Act are technically considered "restricted securities," the Fund may purchase Rule 144A securities without regard to the limitation on investments in illiquid securities described above in the "Illiquid Securities" section, provided that a determination is made that such securities have a readily available trading market. The Fund may also purchase certain commercial paper issued in reliance on the exemption from regulations in Section 4(2) of the Securities Act ("4(2) Paper"). The Advisor will determine the liquidity of Rule 144A securities and 4(2) Paper under the supervision of the Board. The liquidity of Rule 144A securities and 4(2) Paper will be monitored by the Advisor, and if as a result of changed conditions it is determined that a Rule 144A security or 4(2) Paper is no longer liquid, the Fund's holdings of illiquid securities will be reviewed to determine what action, if any, is appropriate. The Fund may determine that it is appropriate to continue to hold such instrument for a period of time to avoid a distressed sale which would be harmful to shareholders.

Limitations on the resale of restricted securities may have an adverse effect on the marketability of portfolio securities and the Fund might be unable to dispose of restricted securities promptly or at reasonable prices and might thereby experience difficulty satisfying redemption requirements. The Fund might also have to register such restricted securities in order to dispose of them, resulting in additional expense and delay. Adverse market conditions could impede such a public offering of securities.

Repurchase Agreements.

Although the Fund has no present intention to do so, the Fund may enter into repurchase agreements. However, the Fund may not invest more than 15% of its net assets in repurchase agreements. For purposes of the 1940 Act, a repurchase agreement may be deemed to be a loan from the Fund to the seller of the security subject to the repurchase agreement. Under such agreements, the seller of the security agrees to repurchase it at a mutually agreed upon time and price. The repurchase price may be higher than the purchase price, the difference being income to the Fund, or the purchase and repurchase prices may be the same, with interest at a stated rate due to the Fund together with the repurchase price on repurchase. In either case, the income to the Fund is unrelated to the interest rate on the security itself. Such repurchase agreements will be made only with banks with assets of \$500 million or more that are insured by the Federal Deposit Insurance Corporation or with government securities dealers recognized by the Federal Reserve Board and registered as broker-dealers with the SEC or exempt from such registration. The Fund will generally enter into repurchase agreements of short durations, from overnight to one week, although the underlying securities generally have longer maturities. The Fund may not enter into a repurchase agreement with more than seven days to maturity if, as a result, more than 15% of the value of its net assets would be invested in illiquid securities, including such repurchase agreements.

Because a repurchase agreement may be deemed to be a loan under the 1940 Act, it is not clear whether a court would consider the security acquired by the Fund subject to a repurchase agreement as being owned by the Fund or as being collateral for a loan by the Fund to the seller. In the event of the commencement of bankruptcy or insolvency proceedings with respect to the seller of the security before its repurchase under a repurchase agreement, the Fund may encounter delays and incur costs before being able to sell the security. Delays may involve loss of interest or a decline in price of the security. If a court characterizes the transaction as a loan, and the Fund has not perfected a security interest in the security, the Fund may be required to return the security to the seller's estate and be treated as an unsecured creditor of the seller. As an unsecured creditor, the Fund would be at risk of losing some or all of the principal and income involved in the transaction. As with any unsecured debt instrument purchased for the Fund, the Advisor seeks to minimize the risk of loss through repurchase agreements by analyzing the creditworthiness of the other party, in this case the seller of the security.

Apart from the risk of bankruptcy or insolvency proceedings, there is also the risk that the seller may fail to repurchase the security. However, the Fund will always receive as collateral for any repurchase agreement to which it is a party securities acceptable to it, the market value of which is equal to at least 100% of the amount invested by the Fund plus accrued interest, and the Fund will make payment against such securities only upon physical delivery or evidence of book entry transfer to the account of its custodian. If the market value of the security subject to the repurchase agreement becomes less than the repurchase price (including interest), the Fund will direct the seller of the security to deliver additional securities so that the market value of all securities subject to the repurchase agreement will equal or exceed the repurchase price. It is possible that the Fund will be unsuccessful in seeking to impose on the seller a contractual obligation to deliver additional securities.

Reverse Repurchase Agreements.

Although the Fund has no intention to do so, the Fund may borrow funds for temporary purposes by entering into reverse repurchase agreements in accordance with the Fund's investment restrictions. Pursuant to such agreements, the Fund would sell portfolio securities to financial institutions such as banks and broker-dealers, and agree to repurchase the securities at the mutually agreed-upon date and price. The Fund would enter into reverse repurchase agreements only to avoid otherwise selling securities during unfavorable market conditions to meet redemptions. When the Fund enters into a reverse repurchase agreement, it will place in a segregated custodial account assets consistent with the Fund's investment restrictions having a value equal to the repurchase price (including accrued interest), and will subsequently monitor the account to ensure that such equivalent value is maintained. Such assets will include U.S. government securities or other liquid, high-grade debt securities.

The use of reverse repurchase agreements by the Fund creates leverage which increases the Fund's investment risk. If the income and gains on securities purchased with the proceeds of reverse repurchase agreements exceed the cost of the agreements, the Fund's earnings or net asset value will increase faster than otherwise would be the case. Conversely, if the income and gains fail to exceed the costs, earnings or net asset value would decline faster than otherwise would be the case. The Fund will seek to enter reverse repurchase agreements only when the interest income to be earned from the investment of the proceeds of the transaction is greater than the interest expense of the transaction. Reverse repurchase agreements involve the risk that the market value of the securities sold by the Fund may decline below the price at which the Fund is obligated to repurchase the securities. Reverse repurchase agreements are considered to be borrowing by under the 1940 Act.

Industry Sector Focus.

If the Fund's portfolio is heavily invested in a certain industry, any negative development affecting that industry will have a greater impact on the Fund than a fund that is not as heavily invested in that industry.

Borrowing.

The Fund may borrow money in amounts of up to one-third of its total assets (including the amount borrowed) from banks. In addition, the Fund is authorized to borrow money from time to time for temporary, extraordinary or emergency purposes or for clearance of transactions. The use of borrowing by the Fund involves special risk considerations that may not be associated with other funds having similar objectives and policies. Since substantially all of the Fund's assets fluctuate in value, while the interest obligation resulting from a borrowing will be fixed by the terms of the Fund's agreement with its lender, the net asset value per share of the Fund will tend to increase more when its portfolio securities increase in value and to decrease more when its portfolio assets decrease in value than would otherwise be the case if the Fund did not borrow funds. In addition, interest costs on borrowings may fluctuate with changing market rates of interest and may partially offset or exceed the return earned on borrowed funds. Under adverse market conditions, the Fund might have to sell portfolio securities to meet interest or principal payments at a time when fundamental investment considerations would not favor such sales.

Securities Lending.

The Fund does not currently intend to lend securities. If the Fund determines in the future to lend securities, the Fund would need Board approval. The Fund would lend securities from its portfolio to brokers, dealers and financial institutions (but not individuals) in order to increase the return on its portfolio. The SEC currently requires that the following conditions must be met whenever a fund's portfolio securities are loaned: (1) the Fund must receive at least 100% cash collateral from the borrower; (2) the borrower must increase such collateral whenever the market value of the securities rises above the level of such collateral; (3) the Fund must be able to terminate the loan at any time; (4) the Fund must receive reasonable interest on the loan, as well as any dividends, interest or other distributions on the loaned securities, and any increase in market value; (5) the Fund may pay only reasonable custodian fees approved by the Board in connection with the loan; (6) while voting rights on the loaned securities may pass to the borrower, the Board must terminate the loan and regain the right to vote the securities if a material event adversely affecting the investment occurs, and (7) the Fund may not loan its portfolio securities so that the value of the loaned securities is more than one-third of its total asset value, including collateral received from such loans. These conditions may be subject to future modification. Such loans will be terminable at any time upon specified notice. The Fund might experience the risk of loss if the institution with which it has engaged in a portfolio loan transaction breaches its agreement with the Fund. In addition, the Fund will not enter into any portfolio security lending arrangement having a duration of longer than one year. The principal risk of portfolio lending is potential default or insolvency of the borrower. In either of these cases, the Fund could experience delays in recovering securities or collateral or could lose all or part of the value of the loaned securities. As part of participating in a lending program, the Fund may be required to invest in collateralized debt or other securities that bear the risk of loss of principal. In addition, all investments made with the collateral received are subject to the risks associated with such investments. If such investments lose value, the Fund will have to cover the loss when repaying the collateral.

Any loans of portfolio securities are fully collateralized based on values that are marked-to-market daily. Any securities that the Fund may receive as collateral will not become part of the Fund's investment portfolio at the time of the loan and, in the event of a default by the borrower, the Fund will, if permitted by law, dispose of such collateral except for such part thereof that is a security in which the Fund is permitted to invest. During the time securities are on loan, the borrower will pay the Fund any accrued income on those securities, and the Fund may invest the cash collateral and earn income or receive an agreed-upon fee from a borrower that has delivered cash-equivalent collateral.

When-Issued Securities and Forward Commitments.

The Fund may purchase securities offered on a "when-issued" basis and may purchase or sell securities on a "forward commitment" basis. When these transactions are negotiated, the price, which is generally expressed in yield terms, is fixed at the time the commitment is made, but delivery and payment for the securities take place at a later date. Normally, the settlement date occurs within two months after the transaction, but delayed settlements beyond two months may be negotiated. During the period between a commitment and settlement, no payment is made for the securities purchased by the purchaser and thus, no interest accrues to the purchaser from the transaction. At the time the Fund makes the commitment to purchase securities on a when-issued or delayed delivery basis, the Fund will record the transaction as a purchase and thereafter reflect the value each day of such securities in determining its net asset value ("NAV").

The Fund will not enter into a when-issued transaction if, as a result, more than 10% of the Fund's total assets would be committed to such transactions.

INVESTMENT RESTRICTIONS

The Trust (on behalf of the Fund) has adopted the following restrictions as fundamental policies, which may not be changed without the affirmative vote of the holders of a "majority" of the outstanding voting securities of the Fund. Under the 1940 Act, the "vote of the holders of a majority of the outstanding voting securities" means the vote of the holders of the lesser of (i) 67% of the shares of the Fund represented at a meeting at which the holders of more than 50% of the Fund's outstanding shares are represented or (ii) more than 50% of the outstanding shares of the Fund.

As a matter of fundamental policy, the Fund may not:

1. Borrow money or issue senior securities, except through reverse repurchase agreements or otherwise as permitted under the 1940 Act, as interpreted, modified or otherwise permitted by regulatory authority. Generally, issuing senior securities is prohibited under the 1940 Act; however, certain exceptions apply such as in the case of reverse repurchase agreements, borrowing, and certain other leveraging transactions;
2. Act as underwriter (except to the extent the Fund may be deemed to be an underwriter in connection with the sale of securities in its investment portfolio);
3. Invest 25% or more of its net assets, calculated at the time of purchase and taken at market value, in securities of issuers in any one industry or group of industries (other than U.S. government securities);
4. Purchase or sell real estate, unless acquired as a result of ownership of securities (although the Fund may purchase and sell securities that are secured by real estate and securities of companies that invest or deal in real estate);
5. Purchase or sell physical commodities, unless acquired as a result of ownership of securities or other instruments. This limitation shall not prevent the Fund from purchasing, selling, or entering into futures contracts, or acquiring securities or other instruments and options thereon backed by, or related to, physical commodities; or
6. Make loans of money (except purchases of debt securities consistent with the investment policies of the Fund). For purposes of this limitation, entering into repurchase agreements, lending securities and acquiring any debt security are not deemed to be the making of loans.

The following is a list of non-fundamental investment restrictions applicable to the Fund. These restrictions can be changed by the Board, but the change will only be effective after notice is given to shareholders of the Fund.

1. The Fund may not, with respect to fundamental investment restriction 1 above, purchase portfolio securities while outstanding borrowings exceed 5% of its assets.
2. The Fund may not mortgage, pledge or hypothecate any of its assets except in connection with any such borrowings and only with respect to 33-1/3% of its assets.
3. The Fund will not make investments for the purpose of exercising control of management of any company.

Except with respect to borrowing, if a percentage or rating restriction on investment or use of assets set forth herein or in the Prospectuses is adhered to at the time a transaction is effected, later changes in the percentage or rating resulting from any cause other than actions by the Fund will not be considered a violation of the Fund's investment restrictions. If the value of the Fund's holdings of illiquid securities at any time exceeds the percentage limitation applicable due to subsequent fluctuations in value or other reasons, the Board will consider what actions, if any, are appropriate to maintain adequate liquidity.

PORTFOLIO TURNOVER

Although the Fund generally will not invest for short-term trading purposes, portfolio securities may be sold without regard to the length of time they have been held when, in the opinion of the Advisor, investment considerations warrant such action. Portfolio turnover rate is calculated by dividing (1) the lesser of purchases or sales of portfolio securities for a fiscal year by (2) the monthly average of the value of portfolio securities owned during such fiscal year. A 100% turnover rate would occur if all the securities in the Fund's portfolio, with the exception of securities whose maturities at the time of acquisition were one year or less, were sold and either repurchased or replaced within one year. A high rate of portfolio turnover (100% or more) generally leads to higher transaction costs and may result in a greater number of taxable transactions. (See "Execution of Portfolio Transactions".)

PORTFOLIO HOLDINGS INFORMATION

The Trust, on behalf of the Fund, has adopted a portfolio holdings disclosure policy that governs the timing and circumstances of disclosure of portfolio holdings of the Fund. The Advisor has also adopted a policy with respect to disclosure of portfolio holdings of the Fund (the "Advisor's Policy"). Information about the Fund's portfolio holdings will not be distributed to any third party except in accordance with the portfolio holdings policies and the Advisor's Policy (the "Disclosure Policies"). The Advisor and the Board consider the circumstances under which the Fund's portfolio holdings may be disclosed under the Disclosure Policies and the actual and potential material conflicts that could arise in such circumstances between the interests of the Fund's shareholders and the interests of the Advisor, distributor or any other affiliated person of the Fund. After due consideration, the Advisor and the Board may determine that the Fund has a legitimate business purpose for disclosing portfolio holdings to persons described in the Disclosure Policies, including mutual fund rating or statistical agencies, or persons performing similar functions, and internal parties involved in the investment process, administration or custody of the Fund. Pursuant to the Disclosure Policies, the Trust's Chief Compliance Officer ("CCO"), President and Treasurer are each authorized to consider and authorize dissemination of portfolio holdings information to additional third parties, after considering the best interests of the Fund shareholders and potential conflicts of interest in making such disclosures.

The Board exercises continuing oversight of the disclosure of the Fund's portfolio holdings by (1) overseeing the implementation and enforcement of the Disclosure Policies, Codes of Ethics and other relevant policies of the Fund and its service providers by the Trust's CCO, (2) by considering reports and recommendations by the Trust's CCO concerning any material compliance matters (as defined in Rule 38a-1 under the 1940 Act), and (3) by considering to approve any amendment to the Disclosure Policies. The Board reserves the right to amend the Disclosure Policies at any time without prior notice to shareholders in its sole discretion.

Disclosure of the Fund's complete holdings is required to be made quarterly within 60 days of the end of each period covered by the Annual Report and Semi-Annual Report to Fund shareholders and in the quarterly holdings report on Form N-Q. These reports are available, free of charge, on the EDGAR database on the SEC's website at www.sec.gov. The Fund discloses its top ten portfolio holdings on its website at www.dsmfunds.com within 60 days after the quarter-end. Portfolio holdings information posted on the Fund's website may be separately provided to any person, commencing on the day after it is first published on the Fund's website. In addition, the Fund may provide its complete portfolio holdings at the same time or after it is filed with the SEC.

In the event of a conflict between the interests of the Fund and the interests of Advisor or an affiliated person of the Advisor, the CCO of the Advisor, in consultation with the Trust's CCO, shall make a determination in the best interests of the Fund, and shall report such determination to the Board at the end of the quarter in which such determination was made. Any employee of the Advisor who suspects a breach of this obligation must report the matter immediately to the Advisor's CCO or to his or her supervisor.

In addition, material non-public holdings information may be provided without lag as part of the normal investment activities of the Fund to each of the following entities, which, by explicit agreement or by virtue of their respective duties to the Fund, are required to maintain the confidentiality of the information disclosed, including a duty not to trade on material non-public information: the Fund's administrator, Fund's accountant, custodian, transfer agent, auditors, counsel to the Fund or the Board, broker-dealers (in connection with the purchase or sale of securities or requests for price quotations or bids on one or more securities) and regulatory authorities. Portfolio holdings information not publicly available with the SEC or through the Fund's website may only be provided to additional third parties, including mutual fund ratings or statistical agencies, in accordance with the Disclosure Policies.

In no event shall the Advisor, its affiliates or employees, the Fund, or any other party receive any direct or indirect compensation in connection with the disclosure of information about the Fund's portfolio holdings.

There can be no assurance that the Disclosure Policies will protect the Fund from potential misuse of portfolio holdings information by individuals or entities to which it is disclosed.

From time to time, the Advisor may make additional disclosure of the Fund's portfolio holdings on the Fund's website. Shareholders can access the Fund's website at www.dsmfunds.com for additional information about the Fund, including, without limitation, the periodic disclosure of its portfolio holdings.

TRUSTEES AND EXECUTIVE OFFICERS

The Board is responsible for the overall management of the Trust, including general supervision and review of the investment activities of the Fund. The Board, in turn, elects the officers of the Trust, who are responsible for the day-to-day operations of the Trust and its separate series. The current Trustees and executive officers of the Trust, their birth dates, positions with the Trust, terms of office with the Trust and length of time served, their principal occupations during the past five years and other directorships are set forth in the table below.

Name, Address and Age	Positions with the Trust	Term of Office and Length of Time Served	Principal Occupation During Past Five Years	Number of Portfolios in Fund Complex ⁽²⁾ Overseen by Trustees	Other Directorships Held
Independent Trustees of the Trust⁽¹⁾					
Dorothy A. Berry (born 1943) c/o U.S. Bancorp Fund Services, LLC 2020 E. Financial Way Suite 100 Glendora, CA 91741	Chairman and Trustee	Indefinite Term; Since May 1991.	President, Talon Industries, Inc. (administrative, management and business consulting); formerly, Executive Vice President and Chief Operating Officer, Integrated Asset Management (investment advisor and manager) and formerly, President, Value Line, Inc. (investment advisory and financial publishing firm).	3	Trustee, Allegiant Funds.
Wallace L. Cook (born 1939) c/o U.S. Bancorp Fund Services, LLC 2020 E. Financial Way Suite 100 Glendora, CA 91741	Trustee	Indefinite Term; Since May 1991.	Investment Consultant; formerly, Chief Executive Officer, Rockefeller Trust Co., (prior thereto Senior Vice President), and Managing Director, Rockefeller & Co. (Investment Manager and Financial Advisor); formerly, Senior Vice President, Norton Simon, Inc.	3	The Dana Foundation; The University of Virginia Law School Foundation.
Carl A. Froebel (born 1938) c/o U.S. Bancorp Fund Services, LLC 2020 E. Financial Way Suite 100 Glendora, CA 91741	Trustee	Indefinite Term; Since May 1991.	Formerly President and Founder, National Investor Data Services, Inc. (investment related computer software).	3	None.
Steven J. Paggioli (born 1950) c/o U.S. Bancorp Fund Services, LLC 2020 E. Financial Way Suite 100 Glendora, CA 91741	Trustee	Indefinite Term; Since May 1991.	Consultant, since July 2001; formerly, Executive Vice President, Investment Company Administration, LLC (mutual fund administrator).	3	Independent Trustee, The Managers Funds, Managers AMG Funds; Aston Funds; Advisory Board Member, Sustainable Growth Advisers, LP; Independent

- (1) The Trustees of the Trust who are not “interested persons” of the Trust as defined under the 1940 Act (“Independent Trustees”). The Trust is comprised of numerous series managed by unaffiliated investment advisors. The term “Fund Complex” applies to the Fund, the DSM Large Cap Growth Fund and the DSM Global Growth Fund. With the exception of the DSM Large Cap Growth Fund and the DSM Global Growth Fund, the Fund does not hold itself out as related to any other series within the Trust for purposes of investment and investor services, nor does it share the same investment advisor with any other series.
- (2) Mr. Falkeis is an “interested person” of the Trust as defined by the 1940 Act. Mr. Falkeis is an interested Trustee of the Trust by virtue of the fact that he is an interested person of Quasar Distributors, LLC who acts as principal underwriter to the series of the Trust.

Additional Information Concerning the Board of Trustees

The Role of the Board

The Board oversees the management and operations of the Trust. Like all mutual funds, the day-to-day management and operation of the Trust is the responsibility of the various service providers to the Trust, such as the Advisor, the Distributor, the Administrator, the Custodian, and the Transfer Agent, each of whom are discussed in greater detail in this SAI. The Board has appointed various senior employees of the Administrator as officers of the Trust, with responsibility to monitor and report to the Board on the Trust's operations. In conducting this oversight, the Board receives regular reports from these officers and the service providers. For example, the Treasurer reports as to financial reporting matters and the President reports as to matters relating to the Trust's operations. In addition, the Advisor provides regular reports on the investment strategy and performance of the Fund. The Board has appointed a Chief Compliance Officer who administers the Trust's compliance program and regularly reports to the Board as to compliance matters. These reports are provided as part of formal "Board Meetings" which are typically held quarterly, in person, and involve the Board's review of recent operations. In addition, various members of the Board also meet with management in less formal settings, between formal "Board Meetings," to discuss various topics. In all cases, however, the role of the Board and of any individual Trustee is one of oversight and not of management of the day-to-day affairs of the Trust and its oversight role does not make the Board a guarantor of the Trust's investments, operations or activities.

Board Structure, Leadership

The Board has structured itself in a manner that it believes allows it to perform its oversight function effectively. It has established four standing committees, a Nominating Committee, an Audit Committee, a Qualified Legal Compliance Committee, and a Valuation Committee, which are discussed in greater detail below under "Trust Committees". At least 80% of the Board is comprised of Trustees who are Independent Trustees, which are Trustees that are not affiliated with the Advisor, the principal underwriter, or their affiliates. The Nominating Committee, Audit Committee and Qualified Legal Compliance Committee are comprised entirely of Independent Trustees. The Chairman of the Board is an Independent Trustee. The Board has determined not to combine the Chairman position and the principal executive officer position and has appointed the sole Interested Trustee as the President of the Trust. The Board reviews its structure and the structure of its committees annually. The Board has determined that the structure of the Independent Chairman, the composition of the Board, and the function and composition of its various committees are appropriate means to address any potential conflicts of interest that may arise.

Board Oversight of Risk Management

As part of its oversight function, the Board of Trustees receives and reviews various risk management reports and discusses these matters with appropriate management and other personnel. Because risk management is a broad concept comprised of many elements (e.g., investment risk, issuer and counterparty risk, compliance risk, operational risks, business continuity risks, etc.), the oversight of different types of risks is handled in different ways. For example, the Audit Committee meets with the Treasurer and the Trust's independent registered public accounting firm to discuss, among other things, the internal control structure of the Trust's financial reporting function. The Board meets regularly with the Chief Compliance Officer to discuss compliance and operational risks and how they are managed. The Board also receives reports from the Advisor as to investment risks of the Fund. In addition to these reports, from time to time the Board receives reports from the Administrator and the Advisor as to enterprise risk management.

Information about Each Trustee's Qualification, Experience, Attributes or Skills

The Board believes that each of the Trustees has the qualifications, experience, attributes and skills ("Trustee Attributes") appropriate to their continued service as Trustees of the Trust in light of the Trust's business and structure. In addition to a demonstrated record of business and/or professional accomplishment, each of the Trustees has served on the Board for a number of years. They have substantial board experience and, in their service to the Trust, have gained substantial insight as to the operation of the Trust. They have demonstrated a commitment to discharging their oversight duties as trustees in the interests of shareholders. The Board annually conducts a "self-assessment" wherein the effectiveness of the Board and individual Trustees is reviewed.

In addition to the information provided in the chart above, below is certain additional information concerning each particular Trustee and his/her Trustee Attributes. The information is not all-inclusive. Many Trustee Attributes involve intangible elements, such as intelligence, integrity, work ethic, the ability to work together, the ability to communicate effectively, the ability to exercise judgment, to ask incisive questions, and commitment to shareholder interests.

Ms. Berry's Trustee Attributes include her substantial mutual fund experience, including her role as Chairman-elect of the Independent Directors Council and a member of the Board of Governors of the Investment Company Institute. She has executive experience as the President of Talon Industries, Inc. (a consulting company) and through her former positions as the Executive Vice President and Chief Operating Officer of Integrated Asset Management (an investment advisor and manager) and as the President of Value Line, Inc. (an investment advisory and financial publishing firm). Ms. Berry also has board experience with another investment management company. Ms. Berry has been determined to qualify as an Audit Committee financial expert for the Trust. The Board believes Ms. Berry's experience, qualifications, attributes or skills on an individual basis and in combination with those of the other Trustees lead to the conclusion that she possesses the requisite skills and attributes as a Trustee to carry out oversight responsibilities with respect to the Trust.

Mr. Cook's Trustee Attributes include his investment and executive experience through his investment consulting business and former Chief Executive Officer of Rockefeller Trust Company (an investment manager and financial advisor). He has substantial board experience, serving on the board of several foundations. Mr. Cook has been determined to qualify as an Audit Committee financial expert for the Trust. The Board believes Mr. Cook's experience, qualifications, attributes or skills on an individual basis and in combination with those of the other Trustees lead to the conclusion that he possesses the requisite skills and attributes as a Trustee to carry out oversight responsibilities with respect to the Trust.

Mr. Froebel's Trustee Attributes include his significant systems and operations experience. He was a Director of Scudder, Stevens & Clark (with responsibility for its systems department) and founder and President of Systems Dynamics Corp. ("SDC") and later Vice President of Bradford Computer & Systems after its acquisition of SDC, (providing record keeping and reporting for investment advisors and mutual funds). He also served as Vice President of Automatic Data Processing (automated services to the brokerage and investment advisory industry) and was the former President and founder of National Investor Data Services, Inc. (a software and computer vendor to the mutual fund industry with fund accounting and transfer agent systems). Mr. Froebel has been determined to qualify as an Audit Committee financial expert for the Trust. The Board believes Mr. Froebel's experience, qualifications, attributes or skills on an individual basis and in combination with those of the other Trustees lead to the conclusion that he possesses the requisite skills and attributes as a Trustee to carry out oversight responsibilities with respect to the Trust.

Mr. Paggioli's Trustee Attributes include his substantial mutual fund and investment advisory experience. Mr. Paggioli is an independent consultant on investment company and investment advisory matters. He has held a number of senior positions with mutual fund and investment advisory organizations and related businesses, including Executive Vice President, Director and Principal of the Wadsworth Group (fund administration, distribution transfer agency and accounting services). He serves on the boards of several investment management companies and advisory firms. He has served on various industry association and self-regulatory committees and formerly worked on the staff of the Securities and Exchange Commission. Mr. Paggioli has been determined to qualify as an Audit Committee financial expert for the Trust. The Board believes Mr. Paggioli's experience, qualifications, attributes or skills on an individual basis and in combination with those of the other Trustees lead to the conclusion that he possesses the requisite skills and attributes as a Trustee to carry out oversight responsibilities with respect to the Trust.

Mr. Falkeis' Trustee Attributes include his substantial mutual fund experience and his experience with financial, accounting, investment and regulatory matters through his position as Senior Vice President and Chief Financial Officer (and other positions) of U.S. Bancorp Fund Services, LLC, a full service provider to mutual funds and alternative investment products. In addition, he has experience consulting with investment advisors regarding the legal structure of mutual funds, distribution channel analysis and actual distribution of those funds. Mr. Falkeis sits on the Board of Quasar Distributors, a third-party mutual fund principal underwriter and affiliate of U.S. Bancorp Fund Services, LLC. The Board believes Mr. Falkeis' experience, qualifications, attributes or skills on an individual basis and in combination with those of the other Trustees lead to the conclusion that he possesses the requisite skills and attributes as a Trustee to carry out oversight responsibilities with respect to the Trust.

Trust Committees

The Trust has four standing committees: the Nominating Committee, the Audit Committee, which also serves as the Qualified Legal Compliance Committee (“QLCC”), and the Valuation Committee.

The Nominating Committee, comprised of all the Independent Trustees, is responsible for seeking and reviewing candidates for consideration as nominees for Trustees and meets only as necessary. The Nominating Committee will consider nominees nominated by shareholders. Recommendations by shareholders for consideration by the Nominating Committee should be sent to the President of the Trust in writing together with the appropriate biographical information concerning each such proposed Nominee, and such recommendation must comply with the notice provisions set forth in the Trust By-Laws. In general, to comply with such procedures, such nominations, together with all required biographical information, must be delivered to and received by the President of the Trust at the principal executive offices of the Trust not later than 120 days and no more than 150 days prior to the shareholder meeting at which any such nominee would be voted on.

The Audit Committee is comprised of all of the Independent Trustees. The Audit Committee generally meets on a quarterly basis with respect to the various series of the Trust, and may meet more frequently. The function of the Audit Committee, with respect to each series of the Trust, is to review the scope and results of the audit of such series’ financial statements and any matters bearing on the audit or the financial statements, and to ensure the integrity of the series’ pricing and financial reporting.

The function of the QLCC is to receive reports from an attorney retained by the Trust of evidence of a material violation by the Trust or by any officer, director, employee or agent of the Trust.

The Board has delegated day-to-day valuation issues to a Valuation Committee that is comprised of one or more Independent Trustees and the Trust’s Treasurer. The function of the Valuation Committee is to value securities held by any series of the Trust for which current and reliable market quotations are not readily available. Such securities are valued at their respective fair values as determined in good faith by the Valuation Committee, and the actions of the Valuation Committee are subsequently reviewed and ratified by the Board. The Valuation Committee meets as needed.

Trustee Ownership of Fund Shares and Other Interests

No Trustee owned shares of the Fund as of the calendar year ended December 31, 2012, which is prior to the inception date of the Fund. However, the following table shows the amount of shares in other portfolios of the Trust owned by the Trustees as of the calendar year ended December 31, 2012.

Name	Dollar Range of Fund Shares	Aggregate Dollar Range of Fund Shares in the Trust
Independent Trustees		
Dorothy A. Berry	None	\$10,001-\$50,000
Wallace L. Cook	None	Over \$100,000
Carl A. Froebel	None	\$10,001-\$50,000
Steven J. Paggioli	None	\$50,001-\$100,000
Interested Trustee		
Eric W. Falkeis	None	None

Furthermore, neither the Independent Trustees nor members of their immediate family, own securities beneficially or of record in the Advisor, the Fund's principal underwriter, or any of their affiliates. Accordingly, neither the Independent Trustees nor members of their immediate family, have had a direct or indirect interest during the two most recently completed calendar years, the value of which exceeds \$120,000, in the Advisor, the Fund's principal underwriter or any of its affiliates.

Compensation

Independent Trustees each will receive an annual retainer of \$65,000 allocated among each of the various portfolios comprising the Trust. The Chairman of the Board will receive an additional annual retainer of \$13,000 also allocated among each of the various portfolios comprising the Trust. Independent Trustees will receive additional fees from applicable portfolios for any special meetings at rates assessed by the Trustees depending on the length of the meeting and whether in-person attendance is required. Independent Trustees will also be reimbursed for expenses in connection with each Board meeting attended. These reimbursements will be allocated among applicable portfolios of the Trust. The Trust has no pension or retirement plan. No other entity affiliated with the Trust pays any compensation to the Trustees. Set forth below is the anticipated rate of compensation to be received by the following Independent Trustees from the Fund for the fiscal period ending June 30, 2013.

Name of Person/ Position	Estimated Aggregate Compensation From the Fund	Pension or Retirement Benefits Accrued as Part of Fund Expenses	Estimated Annual Benefits Upon Retirement	Estimated Total Compensation from Fund and Fund Complex ⁽¹⁾ Paid to Trustees
Dorothy A. Berry, Independent Trustee	\$[]	None	None	\$[]
Wallace L. Cook, Independent Trustee	\$[]	None	None	\$[]
Carl A. Froebel, Independent Trustee	\$[]	None	None	\$[]
Steve J. Paggioli, Independent Trustee	\$[]	None	None	\$[]
Eric W. Falkeis, Interested Trustee ⁽²⁾	None	None	None	None

There are currently numerous unaffiliated portfolios comprising the Trust. The term "Fund Complex" applies only to the Fund, the DSM Large Cap

⁽¹⁾ Growth Fund and the DSM Global Growth Fund. For the fiscal period ending June 30, 2013, Trustees' fees and expenses in the amount of \$[] are estimated to be incurred by the Trust.

(2) The Interested Trustee does not receive compensation from the Trust for his service as Trustee.

CODES OF ETHICS

The Trust, the Advisor and the principal underwriter have each adopted Codes of Ethics under Rule 17j-1 of the 1940 Act. These Codes permit, subject to certain conditions, personnel of the Advisor and Distributor to invest in securities that may be purchased or held by the Funds.

PROXY VOTING POLICIES AND PROCEDURES

The Board has adopted Proxy Voting Policies and Procedures (“Proxy Policies”) on behalf of the Trust which delegate the responsibility for voting proxies to the Advisor, subject to the Board’s continuing oversight. The Proxy Policies require that the Advisor vote proxies received in a manner consistent with the best interests of the Fund and its shareholders. The Proxy Policies also require the Advisor to present to the Board, at least annually, the Advisor’s Proxy Policies and a record of each proxy voted by the Advisor on behalf of the Fund, including a report on the resolution of all proxies identified by the Advisor as involving a conflict of interest.

The Advisor has adopted Proxy Policies, which may be amended from time to time. In voting proxies, the Advisor is guided by fiduciary principles. All proxies are to be voted solely in the best interests of the beneficial owners of the securities. As such, the Advisor has contracted with an independent third party to provide issue analysis and vote recommendations with respect to proxy proposals. It is important to note that the policy employed by the Third Party Administrator does not address all proxy proposals, but rather focuses on particular matters and is intended to give a general indication of how proxies are voted. Where a proxy proposal raises a material conflict between the Advisor’s interests and the Fund’s interests, the Advisor will disclose the conflict to the Board and obtain the Board’s consent to vote or direct the matter to an independent third party, selected by the Board, for a vote determination. If the Board’s consent or the independent third party’s determination is not received in a timely manner, the Advisor will abstain from voting the proxy. The Advisor’s Policy is attached as Appendix A.

The Trust is required to file a Form N-PX, with each Fund’s complete proxy voting record for the 12 months ended June 30, no later than August 31 of each year. Form N-PX for the Fund will be available without charge, upon request, by calling toll-free 1-877-862-9555 and on the SEC’s website at www.sec.gov.

CONTROL PERSONS, PRINCIPAL SHAREHOLDERS AND MANAGEMENT OWNERSHIP

A principal shareholder is any person who owns of record or beneficially owns 5% or more of the outstanding shares of the Fund. A control person is any person who owns beneficially or through controlled companies more than 25% of the voting securities of the Fund or acknowledges the existence of control.

Since the Fund was not operational prior to the date of this SAI, there were no principal shareholders or control persons and the Trustees and officers of the Trust as a group did not own more than 1% of the Fund's outstanding shares.

THE FUND'S INVESTMENT ADVISOR

Investment advisory services are provided to the Fund by DSM Capital Partners LLC, the Advisor, pursuant to an Investment Advisory Agreement (the "Advisory Agreement"). Messrs. Stephen Memishian, CFA and Daniel Strickberger, the portfolio managers of the Fund, are control persons of the Advisor.

After its initial two year term, the Advisory Agreement continues in effect from year to year only if such continuance is specifically approved at least annually by the Board or by vote of a majority of the Fund's outstanding voting securities and by a majority of the Independent Trustees, who are not parties to the Advisory Agreement or interested persons of any such party, in each case cast in person at a meeting called for the purpose of voting on the Advisory Agreement. The Advisory Agreement is terminable without penalty by the Trust on behalf of the Fund on not more than 60 days', nor less than 30 days', written notice to the Advisor when authorized either by a majority vote of the Fund's shareholders or by a vote of a majority of the Trustees, or by the Advisor on not more than 60 days', nor less than 30 days', written notice to the Trust, and will automatically terminate in the event of its "assignment" (as defined in the 1940 Act). The Advisory Agreement provides that the Advisor shall not be liable under such agreement for any error of judgment or mistake of law or for any loss arising out of any investment or for any act or omission in the execution of portfolio transactions for the Fund, except for willful misfeasance, bad faith or gross negligence in the performance of its duties, or by reason of reckless disregard of its obligations and duties thereunder.

In consideration of the services provided by the Advisor pursuant to the Advisory Agreement, the Advisor is entitled to receive from the Fund an investment advisory fee computed daily and paid monthly, at an annual rate of 1.00% of the Fund's average daily net assets. However, the Advisor may voluntarily agree to reduce a portion of the fees payable to it on a month-to-month basis.

The Fund is responsible for its own operating expenses. The Advisor has contractually agreed to reduce fees and/or pay Fund expenses (excluding Acquired Fund Fees and Expense, interest expense in connection with investment activities, taxes, dividends on short positions, and extraordinary expenses) in order to the limit Total Annual Fund Operating Expenses After Fee Waiver and/or Expense Reimbursement to 1.50% and 1.15% for the Retail Class and Institutional Class, respectively (the "Expense Caps"). The Expense Caps will remain in effect through March 31, 2014, as shown in the Example contained in the Prospectuses and may continue thereafter for an indefinite period, as determined by the Board. The Advisor is permitted to be reimbursed for fee reductions and expense payments made in the prior three fiscal years. Any such reimbursement is subject to the Board's review and approval. This reimbursement may be requested by the Advisor if the aggregate amount actually paid by the Fund toward operating expenses for such fiscal year (taking into account the reimbursement) does not exceed the Expense Caps.

Portfolio Managers.

Messrs. Stephen Memishian, CFA and Daniel Strickberger (the “Portfolio Managers”) serve as the Portfolio Managers for the Fund, and are jointly and primarily responsible for the day-to-day management of the Fund. The following table provides information regarding other accounts managed by the Portfolio Managers as of January 31, 2013 (all accounts are managed jointly by the Portfolio Managers).

Category of Account	Total Number of Accounts Managed	Total Assets in Accounts Managed	Number of Accounts for which Advisory Fee is Based on Performance	Assets in Accounts for which Advisory Fee is Based on Performance
Other Registered Investment Companies	[]	\$()	[]	\$()
Other Pooled Investment Vehicles	[]	\$()	[]	\$()
Other Accounts	[]	\$()	[]	\$()

The Advisor’s investment professionals receive a base salary commensurate with their level of experience. The Advisor’s goal is to maintain base salaries and bonus compensation competitive with the broad investment industry (including alternative investment firms). Bonus compensation, which is a multiple of base salary, is based on an employee’s long-term performance. Each individual’s contribution to fundamental research, valuation work and portfolio management is considered, both within and beyond the portfolio. Collaboration is expected and rewarded. Importantly, the entire investment team, as well as other employees of the firm, are also shareholders of the Advisor. This compensation and ownership structure provides incentive to attract and retain highly qualified people, as each member of the firm has the opportunity to share directly in the accomplishments of the business.

Because the Advisor performs investment advisory services for many types of clients, in general, various conflicts of interest could arise. For instance, the Advisor may give advice and take action with respect to its other clients that may differ from advice given or the timing or nature of action taken with respect to the Fund. The Advisor does not have an obligation to purchase or sell for the Fund, or to recommend for purchase or sale by the Fund, any security that the Advisor, its principals, its affiliates, or its employees may purchase for themselves or for their clients at the same time or at the same price.

The Advisor has adopted a Code of Ethics describing its commitment to integrity and high ethical standards. The Code of Ethics is based upon the principle that the Advisor and its employees owe a fiduciary duty to clients to conduct their affairs, including their personal securities transactions, in such a manner as to avoid any actual or potential conflict of interests. The Advisor’s Code of Ethics contains provisions relating to the prohibition against trading on material, non-public information. The Code of Ethics also describes permissible personal securities transactions, permissible gifts and entertainment, and permissible outside business activities as well as protecting the confidentiality of client information. All employees of the Advisor must acknowledge the terms of the Code of Ethics annually and as amended.

To align the interests of its employees with its clients, the Advisor encourages its employees to personally invest in the same portfolios and securities as its clients. This may cause a conflict as the Advisor, its employees and their related accounts may invest in the same securities, and at the same or different times, that it purchases and sells for clients. Moreover, the Advisor may purchase or sell securities for clients in which the Advisor, its employees, and their immediate family members have an interest. For instance, the Advisor may recommend that a client invest in a pooled investment vehicle that it advises or in which its employees are invested. This also presents a conflict of interests.

To address these, and other potential conflicts, the Advisor's employees and their immediate family members are required to follow the Advisor's Code of Ethics. Under the Code of Ethics, employees of the Advisor and their immediate family members must obtain pre-clearance for securities transactions. Approval of an employee or employee-related transaction is based upon a careful review by the Advisor's Chief Compliance Officer. Certain classes of securities have been designated as exempt, not needing pre-clearance, based upon a determination that these would not materially interfere with the best interest of the Advisor's clients. Account statements of employees of the Advisor and their immediate family members are also reviewed periodically by the Chief Compliance Officer of the Advisor. Nonetheless, because the Code of Ethics permits employees and immediate family member to invest in the same securities as clients, there is a possibility that employees and immediate family members might benefit from market activity resulting from a client transaction. Employee accounts and accounts of their immediate family members that trade in the same securities as clients are aggregated. In general, these accounts and the client accounts will share commission costs, be allocated on a pro rata basis, and receive securities at the same average price. The Advisor retains records of the pre-allocation trade order (specifying each participating account) and its allocation, which will be completed prior to the entry of the aggregated order. Completed orders will be allocated as specified in the trade order. Partially filled orders will be allocated on a pro rata basis. Any exceptions will be documented.

The Advisor has an obligation to seek to obtain "best execution" of a client's securities transactions. In general, best execution is a process in which an advisor seeks to execute securities transactions in such a manner that a client's total cost or proceeds from each transaction is the most favorable under the circumstances. The Advisor considers the full range and quality of a broker-dealer's services in placing a client's order including, among other things, the value of research provided as well as execution capability, commission rate, financial responsibility, and responsiveness of the broker-dealer. With regard to research offered by a broker-dealer, the Advisor considers the quality and frequency of its analytical work, the breadth and depth of its coverage, the availability of its analysts for discussion with the Advisor, its industry conferences, and its ability to organize meetings with company management. The determinative factor therefore is not the lowest possible commission cost but whether the transaction represents the best qualitative execution.

To address these and potentially other conflicts, the Advisor prepares a soft dollar budget prior to each calendar year. This budget is reviewed and updated periodically to reflect, among other factors, changes in the Advisor's opinion of the quality and usefulness of each research and brokerage product and service. In addition, all uses of soft dollars and the annual budget for soft dollars are approved by the Chief Compliance Officer. Lastly, the Advisor regularly evaluates the execution performance of the broker-dealers it uses to execute clients' transactions. These efforts help address the conflict of interests associated with soft dollars.

Some clients, or asset allocators acting on behalf of clients, already have a pre-existing relationship with a broker-dealer and they will instruct the Advisor to execute some or all transactions through that broker-dealer. When a client directs the Advisor to use a particular broker-dealer, the Advisor may have to trade such client account(s) after other client accounts, and the Advisor will not have authority to negotiate commission rates or obtain volume discounts, and therefore, best execution may not be achieved. In addition, under these circumstances, a disparity in commission charges may exist between the commissions charged to other clients. The Advisor reserves the right to decline to accept any client account that directs the use of a broker-dealer that the Advisor believes would adversely affect the Advisor's duty to obtain best execution.

There is a potential for a conflict of interests with the Advisor's system of broker-rotation. Although each client at a given broker-dealer obtains the average price achieved, the average price achieved by other broker-dealer blocks may be materially different. To verify the effectiveness of the Advisor's broker-rotation, executions achieved by clients in each broker-dealer block are analyzed quarterly, and monitored over a rolling period.

In some situations, the Advisor effectively does not have unlimited discretion to choose a broker-dealer, such as in recapture arrangements, wrap programs, certain custodial brokerage arrangements, and other directed brokerage situations. Nonetheless, the Advisor will generally rotate such restricted broker-dealers on the same basis as the non-restricted broker-dealers provided that doing so does not impair other clients of the Advisor. Where the Advisor determines that a directed broker-dealer situation impairs execution for other clients, the Advisor may trade such directed situations last or with a secondary priority.

Securities Owned in the Fund by the Portfolio Managers. As of the date of this SAI, the portfolio managers did not beneficially own any shares of the Fund as it had not commenced operations.

SERVICE PROVIDERS

Administrator, Transfer Agent and Fund Accountant

Pursuant to an administration agreement (the "Administration Agreement"), U.S. Bancorp Fund Services, LLC, ("USBFS") 615 East Michigan Street, Milwaukee, Wisconsin 53202 acts as the Administrator to the Fund. USBFS provides certain services to the Fund including, among other responsibilities, coordinating the negotiation of contracts and fees with, and the monitoring of performance and billing of, the Fund's independent contractors and agents; preparation for signature by an officer of the Trust of all documents required to be filed for compliance by the Trust and the Fund with applicable laws and regulations, excluding those of the securities laws of various states; arranging for the computation of performance data, including NAV and yield; responding to shareholder inquiries; and arranging for the maintenance of books and records of the Fund, and providing, at its own expense, office facilities, equipment and personnel necessary to carry out its duties. In this capacity, USBFS does not have any responsibility or authority for the management of the Fund, the determination of investment policy, or for any matter pertaining to the distribution of the Fund's shares.

Pursuant to the Administration Agreement, as compensation for its services, USBFS receives from the Fund, a fee based on the Fund's current average daily net assets of: 0.12% on the first \$50 million, 0.08 % on the next \$250 million and 0.05% on the remaining assets. USBFS also is entitled to certain out-of-pocket expenses. USBFS also acts as fund accountant, transfer agent and dividend disbursing agent under separate agreements. Additionally, USBFS provides Chief Compliance Officer services to the Trust under a separate agreement. The cost for the Chief Compliance Officer services is allocated to the Fund by the Board of Trustees.

Custodian

U.S. Bank National Association, is the custodian of the assets of the Fund (the “Custodian”) pursuant to a custody agreement between the Custodian and the Trust, whereby the Custodian provides for fees on a transactional basis plus out-of-pocket expenses. The Custodian’s address is 1555 N. River Center Drive, Suite 302, Milwaukee, Wisconsin 53212. The Custodian does not participate in decisions relating to the purchase and sale of securities by the Fund. USBFS, the Custodian, and the Fund’s principal underwriter are affiliated entities under the common control of U.S. Bancorp. The Custodian and its affiliates may participate in revenue sharing arrangements with the service providers of mutual funds in which the Fund may invest.

Independent Registered Public Accounting Firm and Legal Counsel

[], is the independent registered public accounting firm for the Fund.

Paul Hastings LLP, 75 East 55th Street, New York, New York 10022, serves as legal counsel to the Trust.

EXECUTION OF PORTFOLIO TRANSACTIONS

Pursuant to the Advisory Agreement, the Advisor determines which securities are to be purchased and sold by the Fund and which broker-dealers are eligible to execute the Fund’s portfolio transactions. Purchases and sales of securities in the OTC market will generally be executed directly with a “market-maker” unless, in the opinion of the Advisor, a better price and execution can otherwise be obtained by using a broker for the transaction.

Purchases of portfolio securities for the Fund also may be made directly from issuers or from underwriters. Where possible, purchase and sale transactions will be effected through dealers (including banks) that specialize in the types of securities that the Fund will be holding, unless better executions are available elsewhere. Dealers and underwriters usually act as principal for their own accounts. Purchases from underwriters will include a concession paid by the issuer to the underwriter and purchases from dealers will include the spread between the bid and the asked price.

The Advisor, as a fiduciary to the Fund, seeks to obtain best execution for securities transactions. In so doing, the Advisor seeks to obtain the best overall qualitative execution, which may not necessarily result in the lowest commission cost. In general, best execution is a process in which an advisor seeks to execute securities transactions in such a manner that a client’s total cost or proceeds from each transaction is the most favorable under the circumstances. The Advisor considers the full range and quality of a broker-dealer’s services in placing orders including, among other things, the value of research provided as well as execution capability, commission rate, financial responsibility, and responsiveness of the broker-dealer. With regard to research offered by a broker-dealer, the Advisor considers the quality and frequency of its analytical work, the breadth and depth of its coverage, the availability of its analysts for discussions, its industry conferences, and its ability to organize meetings with company management. The determinative factor therefore is not the lowest possible commission cost but whether the transaction represents the best qualitative execution.

Section 28(e) of the Securities Exchange Act of 1934, as amended protects an advisor from a breach of fiduciary duty claim solely because the advisor caused a client’s account to pay more than the lowest available commission in return for research and brokerage products and services. When an advisor causes a client’s account to pay more than the lowest available commission rate in return for research and brokerage products and services, these payments are referred to as “soft dollars.” For example, an advisor may direct securities transactions to a particular broker-dealer to be able to receive that broker’s research, which the advisor uses in connection with its investment decision-making process. To rely on Section 28(e), an advisor must make a good faith determination that the amount of commission paid is reasonable in relation to the value of the research and/or brokerage products and services provided, viewed in terms of the particular transaction or the advisor’s overall responsibilities to its clients’ accounts. In making this good faith determination, an advisor may consider not only the benefit to be derived by the account paying the commission, but also the benefits derived by other client accounts.

When the Advisor effects a transaction through a broker-dealer, the Advisor may purchase research and brokerage products and services with the Fund's commissions. In other words, the Advisor will be using "soft dollars" to pay for the research and brokerage products and services. As noted above, the Advisor may pay a higher commission rate to a broker-dealer that provided research and brokerage products and services than to another broker-dealer that did not provide research and brokerage products and services; provided, the Advisor determined in good faith that such commission rates are reasonable in relation to the products and service provided. The Advisor may also trade with a broker-dealer who does not provide its own research or brokerage products and services but pays third-parties who provide research products and services to the Advisor.

Research and brokerage products and services are generally considered to be products or services that provide lawful and appropriate assistance to the Advisor in connection with the performance of its investment decision-making responsibilities. Examples of such products and services include, but are not limited to, software that provides analyses of securities portfolios, market data and economic research, including stock quotes, last sale prices, and trading volumes, company financial data and economic data (e.g., unemployment, GDP figures), sell-side research, company news, and expert consultants. In the event that a broker-dealer, or a third party, provides the Advisor with products and services that only partially provide research or brokerage, the Advisor will make a good faith effort to determine the proportionate value of the research or brokerage products and services and pay for the balance of such products or services in cash (so-called, hard dollars).

As using a client's brokerage to obtain research and brokerage products and services could be viewed as a benefit to the Advisor, soft dollar practices are perceived as presenting a conflict of interests between the Advisor and its clients, and among its clients. For instance, there may be an incentive to select a broker-dealer based on receiving its research and brokerage products and services. In addition, research and brokerage products and services are generally used to benefit all client accounts of the Advisor, but it is important to note that research and brokerage products and services paid for by a given client's commission may not benefit that particular client's account while it may be used for the benefit of another client.

In placing portfolio transactions, the Advisor will use its reasonable efforts to choose broker-dealers capable of providing the services necessary to obtain the most favorable price and execution available. The full range and quality of services available will be considered in making these determinations, such as the size of the order, the difficulty of execution, the operational facilities of the firm involved, the firm's risk in positioning a block of securities, and other factors. Portfolio transactions may be placed with broker-dealers that sell shares of the Fund subject to rules adopted by the Financial Industry Regulatory Association ("FINRA") and the SEC.

Investment decisions for the Fund are made independently from those of other client accounts or mutual funds ("Other Accounts") managed or advised by the Advisor. Nevertheless, it is possible that at times identical securities will be acceptable for both the Fund and one or more of such other accounts. In such event, the position of the Fund and such other accounts in the same issuer may vary and the length of time that each may choose to hold its investment in the same issuer may likewise vary. However, to the extent any of such other accounts seeks to acquire the same security as the Fund at the same time, the Fund may not be able to acquire as large a portion of such security as it desires, or it may have to pay a higher price or obtain a lower yield for such security. Similarly, the Fund may not be able to obtain as high a price for, or as large an execution of, an order to sell any particular security at the same time. If one or more of such other accounts simultaneously purchases or sells the same security that the Fund is purchasing or selling, each day's transactions in such security will be allocated between the Fund and all such other accounts in a manner deemed equitable by the Advisor, taking into account the respective sizes of the accounts and the amount being purchased or sold. It is recognized that in some cases this system could have a detrimental effect on the price or value of the security insofar as the Fund is concerned. In other cases, however, it is believed that the ability of the Fund to participate in volume transactions may produce better executions for the Fund.

Moreover, the Advisor aggregates client trades where possible and when advantageous. In general, aggregation of trades allows the Advisor to execute groups of trades in a timely, equitable manner at an average share price. The Advisor will typically aggregate trades of various clients whose accounts can be traded at a given broker-dealer and the Advisor will generally rotate or vary the order of broker-dealers used to execute a given trades.

Transactions for a client's account may not be aggregated if the practice is prohibited by or inconsistent with the client's advisory agreement. The Advisor must also determine that the purchase or sale of the particular security is appropriate for the client and consistent with the client's investment objectives as well as with any investment guidelines or restrictions applicable to the client's account. In addition, the Advisor must reasonably believe that order aggregation will benefit each client by enabling the Advisor to seek best execution for all clients participating in the aggregated order. This requires a good faith judgment by the Advisor at the time the order is placed for execution. It does not mean that the determination made in advance of the transaction must prove to have been correct in hindsight.

In general, during the entry of an aggregated order, a pre-allocation ticket is generated that identifies each client account participating in the order and the proposed allocation of the order. If the order cannot be executed in full at the same price or time, the securities actually purchased or sold by the close of each business day will be allocated pro-rata among the participating client accounts in accordance with the pre-allocation ticket. However, adjustments to this pro-rata allocation may be made by the Advisor to participating client accounts. Adjustments to this pro-rata allocation may be made to avoid having odd amounts of shares held in any client account or to avoid excessive ticket charges in smaller accounts. Generally, each client that participates in the aggregated order will do so at the average price and shares in the commission rate on a pro rata basis.

The Advisor typically executes aggregated trades with approved broker-dealers, ranging from the Advisor's prime broker, broker-dealers providing research and brokerage products services to the Advisor, wrap-fee broker-dealers, broker-dealers directed by clients, and other broker-dealers. New broker-dealers can be used for a specific purpose including execution capability, research, order flow, their electronic systems, geographic location, or client direction. The Advisor rates all approved broker-dealers based on, among other things, quality and extent of research and brokerage products and services, perceived execution (pricing and market movement), ability to handle large or unusual orders: completeness and timeliness of reporting, financial stability, perceived discretion and settlement quality, reliability, and promptness. Resulting broker-dealer ratings are considered by the Advisor in developing its annual soft-dollar budget and also in preparing a broker-dealer rotation plan for each trade.

The Advisor will generally determine all of the broker-dealers that will participate in an aggregated trade based on, among other things, the securities involved, current market conditions, and the Advisor's rating of broker-dealers. The Advisor will also determine the size of the orders to be executed by each broker-dealer. The Advisor then will trade among the broker-dealers by breaking the trade into several blocks and interweaving parts of these blocks among the broker-dealers for execution. All client trades executed in a block by the same broker-dealer on the same day receive the average price achieved by that broker-dealer. The Advisor uses its discretion to rotate the order of trading with broker-dealers participating in an aggregated trade such that client accounts are treated in a fair and equitable manner over time. There is a potential for a conflict of interests with the Advisor's system of broker-rotation. Although each client at a given broker-dealer obtains the average price achieved, the average price achieved by other broker-dealer blocks may be materially different.

The Fund does not effect securities transactions through brokers in accordance with any formula, nor does it effect securities transactions through brokers for selling shares of the Fund. However, as stated above, broker-dealers who execute brokerage transactions may effect purchase of shares of the Fund for their customers.

CAPITAL STOCK

Shares issued by the Fund have no preemptive, conversion, or subscription rights. Shares issued and sold by the Fund are deemed to be validly issued, fully paid and non-assessable by the Trust. Shareholders have equal and exclusive rights as to dividends and distributions as declared by the Fund and to the net assets of the Fund upon liquidation or dissolution. The Fund, as a separate series of the Trust, votes separately on matters affecting only the Fund (*e.g.*, approval of the Advisory Agreement); all series of the Trust vote as a single class on matters affecting all series jointly or the Trust as a whole (*e.g.*, election or removal of Trustees). Voting rights are not cumulative, so that the holders of more than 50% of the shares voting in any election of Trustees can, if they so choose, elect all of the Trustees. While the Trust is not required and does not intend to hold annual meetings of shareholders, such meetings may be called by the Board in its discretion, or upon demand by the holders of 10% or more of the outstanding shares of the Trust, for the purpose of electing or removing Trustees.

DETERMINATION OF SHARE PRICE

As noted in the Prospectuses, the NAV of shares of the Fund will be determined once daily as of the close of public trading on the New York Stock Exchange (“NYSE”) (normally 4:00 p.m. Eastern Time) on each day that the NYSE is open for trading. It is expected that the Exchange will be closed on Saturdays and Sundays and on New Year’s Day, Martin Luther King Jr. Day, Presidents’ Day, Good Friday, Memorial Day, Independence Day, Labor Day, Thanksgiving Day and Christmas. The Fund does not expect to determine the NAV of shares on any day when the Exchange is not open for trading even if there is sufficient trading in its portfolio securities on such days to materially affect the NAV per share.

In valuing the Fund’s assets for calculating NAV, readily marketable portfolio securities listed on a national securities exchange are valued at the last sale price on the business day as of which such value is being determined. If there has been no sale on such exchange on such day, the security is valued at the mean between the bid and asked prices on such day. Securities primarily traded in the Nasdaq National Market System (“NASDAQ”) for which market quotations are readily available shall be valued using the Nasdaq Official Closing Price (“NOCP”). If the NOCP is not available, such securities shall be valued at the last sale price on the day of valuation, or if there has been no sale on such day, at the mean between the bid and asked prices. Readily marketable securities traded only in the OTC market and not on NASDAQ are valued at the most recent trade price. All other assets of the Fund are valued in such manner as the Board in good faith deems appropriate to reflect their fair value.

Trading in foreign securities markets is normally completed well before the close of the NYSE. In addition, foreign securities trading may not take place on all days on which the NYSE is open for trading, and may occur in certain foreign markets on days on which the Fund's NAV is not calculated. Events affecting the values of portfolio securities that occur between the time their prices are determined and the close of the NYSE will not be reflected in the calculation of NAV unless the Board deems that the particular event would affect NAV, in which case an adjustment will be made in such manner as the Board in good faith deems appropriate to determine fair market value. Assets or liabilities expressed in foreign currencies are translated, in determining NAV, into U.S. dollars based on the spot exchange rates, or at such other rates as the Advisor, pursuant to fair value procedures adopted by the Board, may determine to be appropriate.

ADDITIONAL PURCHASE AND REDEMPTION INFORMATION

The information provided below supplements the information contained in the Prospectuses regarding the purchase and redemption of the Fund's shares.

How to Buy Shares

In addition to purchasing shares directly from the Fund, you may purchase shares of the Fund through certain financial intermediaries and their agents that have made arrangements with the Fund and are authorized to buy and sell shares of the Fund (collectively, "Financial Intermediaries"). Investors should contact their Financial Intermediary directly for appropriate instructions, as well as information pertaining to accounts and any service or transaction fees that may be charged. If you transmit your order to these Financial Intermediaries before the close of regular trading (generally 4:00 p.m., Eastern Time) on a day that the NYSE is open for business, your order will be priced at the Fund's NAV next computed after it is received by the Financial Intermediary. Investors should check with their Financial Intermediary to determine if it participates in these arrangements.

The public offering price of the Fund's shares is the NAV. Shares are purchased at the public offering price next determined after the transfer agent receives your order in proper form, as discussed in the Fund's Prospectuses. In order to receive that day's public offering price, the transfer agent must receive your order in proper form before the close of regular trading on the NYSE, generally 4:00 p.m., Eastern Time.

The Trust reserves the right in its sole discretion (i) to suspend the continued offering of the Fund's shares and (ii) to reject purchase orders in whole or in part when in the judgment of the Advisor or the distributor such rejection is in the best interest of the Fund. The Trust has granted limited authority to the Advisor to reduce or waive the minimum for initial and subsequent investments for certain fiduciary accounts or under circumstances where certain economies can be achieved in sales of the Fund's shares.

In addition to cash purchases, the Fund's shares may be purchased by tendering payment in-kind in the form of shares of stock, bonds or other securities. Any securities used to buy the Fund's shares must be readily marketable, their acquisition consistent with the Fund's objective and otherwise acceptable to the Advisor and the Board.

Automatic Investment Plan

As discussed in the Retail Class Prospectus, the Fund's Retail Class provides an Automatic Investment Plan ("AIP") for the convenience of investors who wish to purchase shares of the Fund on a regular basis. All record keeping and custodial costs of the AIP are paid by the Fund. The market value of the Fund's shares is subject to fluctuation. Prior to participating in the AIP the investor should keep in mind that this plan does not assure a profit nor protect against depreciation in declining markets.

How to Sell Shares and Delivery of Redemption Proceeds

You can sell your Fund shares any day the NYSE is open for regular trading, either directly to the Fund or through your Financial Intermediary.

Payments to shareholders for shares of the Fund redeemed directly from the Fund will be made as promptly as possible, but no later than seven days after receipt by the Fund's transfer agent of the written request in proper form, with the appropriate documentation as stated in the Prospectuses, except that the Fund may suspend the right of redemption or postpone the date of payment during any period when (a) trading on the NYSE is restricted as determined by the SEC or the NYSE is closed for other than weekends and holidays; (b) an emergency exists as determined by the SEC making disposal of portfolio securities or valuation of net assets of the Fund not reasonably practicable; or (c) for such other period as the SEC may permit for the protection of the Fund's shareholders. Under unusual circumstances, the Fund may suspend redemptions, or postpone payment for more than seven days, but only as authorized by SEC rules.

The value of shares on redemption or repurchase may be more or less than the investor's cost, depending upon the market value of the Fund's portfolio securities at the time of redemption or repurchase.

Telephone Redemptions

Shareholders with telephone transaction privileges established on their account may redeem Fund shares by telephone. Upon receipt of any instructions or inquiries by telephone from the shareholder the Fund or its authorized agents may carry out the instructions and/or to respond to the inquiry consistent with the shareholder's previously established account service options. For joint accounts, instructions or inquiries from either party will be carried out without prior notice to the other account owners. In acting upon telephone instructions, the Fund and its agents use procedures that are reasonably designed to ensure that such instructions are genuine. These include recording all telephone calls, requiring pertinent information about the account and sending written confirmation of each transaction to the registered owner.

The transfer agent will employ reasonable procedures to confirm that instructions communicated by telephone are genuine. If the transfer agent fails to employ reasonable procedures, the Fund and the transfer agent may be liable for any losses due to unauthorized or fraudulent instructions. If these procedures are followed, however, that to the extent permitted by applicable law, neither the Fund nor its agents will be liable for any loss, liability, cost or expense arising out of any redemption request, including any fraudulent or unauthorized request. For additional information, contact the transfer agent.

Redemptions In-Kind

The Trust has filed an election under Rule 18f-1 of the 1940 Act committing to pay in cash all redemptions by a shareholder of record up to amounts specified by the rule (in excess of the lesser of (1) \$250,000 or (2) 1% of the Fund's assets). The Fund has reserved the right to pay the redemption price of its shares in excess of the amounts specified by the rule, either totally or partially, by a distribution in-kind of portfolio securities (instead of cash). The securities so distributed would be valued at the same amount as that assigned to them in calculating the NAV for the shares being sold. If a shareholder receives a distribution in-kind, the shareholder could incur brokerage or other charges in converting the securities to cash and will bear any market risks associated with such securities until they are converted into cash. A redemption in-kind is treated as a taxable transaction and a sale of the redeemed shares, generally resulting in capital gain or loss to you, subject to certain loss limitation rules.

The Fund does not intend to hold any significant percentage of its portfolio in illiquid securities, although the Fund, like virtually all mutual funds, may from time to time hold a small percentage of securities that are illiquid. In the unlikely event the Fund were to elect to make an in-kind redemption, the Fund expects that it would follow the normal protocol of making such distribution by way of a pro rata distribution based on its entire portfolio. If the Fund held illiquid securities, such distribution may contain a pro rata portion of such illiquid securities or the Fund may determine, based on a materiality assessment, not to include illiquid securities in the in-kind redemption. The Fund does not anticipate that it would ever selectively distribute a greater than pro rata portion of any illiquid securities to satisfy a redemption request. If such securities are included in the distribution, shareholders may not be able to liquidate such securities and may be required to hold such securities indefinitely. Shareholders' ability to liquidate such securities distributed in-kind may be restricted by resale limitations or substantial restrictions on transfer imposed by the issuers of the securities or by law. Shareholders may only be able to liquidate such securities distributed in-kind at a substantial discount from their value, and there may be higher brokerage costs associated with any subsequent disposition of these securities by the recipient.

DISTRIBUTIONS AND TAX INFORMATION

Distributions.

Dividends of net investment income and distributions of net capital gains from the sale of securities are generally made annually, as described in the Prospectuses. Also, the Fund typically distributes any undistributed net investment income on or about December 31 of each year. Any net capital gains realized through the period ended October 31 of each year will also typically be distributed by December 31 of each year.

Each distribution by the Fund is accompanied by a brief explanation of the form and character of the distribution. In January of each year, the Fund will issue to each shareholder a statement of the federal income tax status of all distributions that relate to the previous year.

Tax Information.

Each series of the Trust is treated as a separate entity for federal income tax purposes. The Fund has elected to qualify and intends to continue to qualify annually as a regulated investment company under Subchapter M of the Internal Revenue Code of 1986, as amended (the "Code"), provided it complies with all applicable requirements regarding the source of its income, diversification of its assets and timing and amount of distributions. The Fund's policy is to distribute to its shareholders all of its investment company taxable income and any net realized capital gains for each fiscal year in a manner that complies with the distribution requirements applicable to regulated investment companies under the Code, so that the Fund generally will not be subject to any federal income or excise taxes. However, the Fund can give no assurances that its distributions will be sufficient to eliminate all taxes. In order to avoid a 4% nondeductible excise tax, the Fund must also distribute (or be deemed to have distributed) by December 31 of each calendar year (1) at least 98% of its ordinary income for such year, (2) at least 98.2% of the excess of its realized capital gains over its realized capital losses for the 12-month period ending on November 31 during such year and (3) any amounts from the prior calendar year that were not distributed and on which the Fund paid no federal income tax. If the Fund fails to qualify as a regulated investment company under Subchapter M, it will be taxed as a regular corporation.

The Fund's ordinary income generally consists of interest and dividend income, less expenses. Net realized capital gains for a fiscal period are computed by taking into account any capital loss carry-forward of the Fund.

Distributions of net investment income and net short-term capital gains are taxable to shareholders as ordinary income. For individual shareholders, a portion of the distributions paid by the Fund may be qualified dividends currently eligible for taxation at long-term capital gain rates to the extent the Fund reports the amount distributed as a qualifying dividend and certain holding period requirements are met. In the case of corporate shareholders, a portion of the distributions may qualify for the inter-corporate dividends-received deduction to the extent the Fund reports the amount distributed as a qualifying dividend and certain holding period requirements are met. The aggregate amount so reported to either individual or corporate shareholders cannot, however, exceed the aggregate amount of qualifying dividends received by the Fund for its taxable year. In view of the Fund's investment policy, it is expected that dividends from domestic corporations will be part of the Fund's gross income and that, accordingly, part of the distributions by the Fund may be eligible for treatment as qualified dividend income by individual shareholders, or for the dividends-received deduction for corporate shareholders. However, the portion of the Fund's gross income attributable to qualifying dividends is largely dependent on the Fund's investment activities for a particular year and therefore cannot be predicted with any certainty. The deduction may be reduced or eliminated if the Fund shares held by an individual investor are held for less than 61 days, or Fund shares held by a corporate investor are treated as debt-financed or are held for less than 46 days.

The sale or exchange of Fund shares is a taxable transaction for federal income tax purposes. You will generally recognize a gain or loss on such transactions equal to the difference, if any, between the amount of your net sales proceeds and your adjusted tax basis in the Fund shares. Such gain or loss will be capital gain or loss if you held your Fund shares as capital assets. Any capital gain or loss will be treated as long-term capital gain or loss if you held the Fund shares for more than one year at the time of the sale or exchange. Any capital loss arising from the sale or exchange of shares held for six months or less, however, will be treated as long-term capital loss to the extent of the amount of net long-term capital gain distributions with regard to these shares. The Code imposes certain limitations on the ability of taxpayers to utilize capital losses.

The Fund may be subject to foreign taxes and withholding on dividends and interest earned with respect to securities of foreign corporations. Based on the principal investment strategies of the Fund, it is not expected that the Fund will be eligible to pass through to shareholders any credits or deductions with respect to such foreign taxes.

Under the Code, the Fund will be required to report to the Internal Revenue Service ("IRS") all distributions of ordinary income and capital gains as well as gross proceeds from the redemption or exchange of Fund shares, except in the case of exempt shareholders, which includes most corporations. Pursuant to the backup withholding provisions of the Code, distributions of any taxable income and capital gains and proceeds from the redemption of Fund shares may be subject to withholding of federal income tax at the current rate of 28% in the case of non-exempt shareholders who fail to furnish the Fund with their taxpayer identification numbers and with required certifications regarding their status under the federal income tax law or if the IRS notifies the Fund that such backup withholding is required. If the withholding provisions are applicable, any such distributions and proceeds, whether taken in cash or reinvested in additional shares, will be reduced by the amounts required to be withheld. Corporate and other exempt shareholders should provide the Fund with their taxpayer identification numbers or certify their exempt status in order to avoid possible erroneous application of backup withholding. Backup withholding is not an additional tax and any amounts withheld may be credited against a shareholder's ultimate federal tax liability if proper documentation is provided. The Fund reserves the right to refuse to open an account for any person failing to provide a certified taxpayer identification number.

Distributions and the transactions referred to in the preceding paragraphs may be subject to state and local income taxes, and the tax treatment thereof may differ from the federal income tax treatment.

The foregoing discussion of U.S. federal income tax law relates solely to the application of that law to U.S. citizens or residents and U.S. domestic corporations, partnerships, trusts and estates. Each shareholder who is not a U.S. person should consider the U.S. and foreign tax consequences of ownership of shares of the Fund, including the possibility that such a shareholder may be subject to a U.S. withholding tax at a rate of 30% (or at a lower rate under an applicable income tax treaty) on amounts constituting ordinary income.

In addition, the foregoing discussion of tax law is based on existing provisions of the Code, existing and proposed regulations thereunder, and current administrative rulings and court decisions, all of which are subject to change. Any such changes could affect the validity of this discussion. The discussion also represents only a general summary of tax law and practice currently applicable to the Fund and certain shareholders therein, and, as such, is subject to change. In particular, the consequences of an investment in shares of the Fund under the laws of any state, local or foreign taxing jurisdictions are not discussed herein. Each prospective investor should consult his or her own tax advisor to determine the application of the tax law and practice in his or her own particular circumstances.

The advice herein was prepared for the Fund. Any person reviewing this discussion should seek advice based on such person's particular circumstances from an independent tax advisor.

THE FUND'S PRINCIPAL UNDERWRITER AND DISTRIBUTOR

Quasar Distributors, LLC, 615 East Michigan Street, Milwaukee, Wisconsin 53202 ("Quasar"), serves as the Fund's principal underwriter in a continuous public offering of the Fund's shares. Pursuant to a distribution agreement between the Fund and Quasar (the "Distribution Agreement"), Quasar acts as the Fund's principal underwriter and distributor and provides certain administrative services and promotes and arranges for the sale of the Fund's shares. Quasar is a registered broker-dealer under the Securities Exchange Act of 1934, as amended, and is a member of FINRA.

The Distribution Agreement between the Fund and Quasar has an initial term of two years and will continue in effect thereafter only if such continuance is specifically approved at least annually by the Board or by vote of a majority of the Fund's outstanding voting securities and, in either case, by a majority of the Independent Trustees. The Distribution Agreement is terminable without penalty by the Trust on behalf of the Fund on a 60-day written notice when authorized either by a majority vote of the Fund's shareholders or by vote of a majority of the Board, including a majority of the Independent Trustees, or by the Quasar on a 60-day written notice, and will automatically terminate in the event of its "assignment" (as defined in the 1940 Act).

Distribution Plan

The Fund has adopted a Distribution Plan (the "Plan") pursuant to Rule 12b-1 under the 1940 Act on behalf of its Retail Class Shares under which the Retail Class pays the Distributor an amount which is accrued daily and paid quarterly, at an annual rate of up to 0.25% of the average daily net assets of the Fund. Amounts paid under the Plan, by the Fund, are paid to the Distributor to reimburse it for costs of the services it provides and the expenses it bears in the distribution of the Fund's shares, including overhead and telephone expenses; printing and distribution of prospectuses and reports used in connection with the offering of the Fund's shares to prospective investors; and preparation, printing and distribution of sales literature and advertising materials. Such fee is paid to the Distributor each year only to the extent of such costs and expenses of the Distributor under the Plan actually incurred in that year. In addition, payments to the Distributor under the Plan reimburse the Distributor for payments it makes to selected dealers and administrators which have entered into Service Agreements with the Distributor of periodic fees for services provided to shareholders of the Fund. The services provided by selected dealers pursuant to the Plan are primarily designed to promote the sale of shares of the Fund and include the furnishing of office space and equipment, telephone facilities, personnel and assistance to the Fund in servicing such shareholders. The services provided by the administrators pursuant to the Plan are designed to provide support services to the Fund and include establishing and maintaining shareholders' accounts and records, processing purchase and redemption transactions, answering routine client inquiries regarding the Fund and providing other services to the Fund as may be required.

Under the Plan, the Trustees will be furnished quarterly with information detailing the amount of expenses paid under the Plan and the purposes for which payments were made. The Plan may be terminated at any time by vote of a majority of the Trustees of the Trust who are not interested persons. Continuation of the Plan is considered by such Trustees no less frequently than annually. With the exception of the Distributor and the Advisor, in their capacities as the Fund's principal underwriter and distribution coordinator, respectively, no interested person has or had a direct or indirect financial interest in the Plan or any related agreement.

While there is no assurance that the expenditures of the Fund's assets to finance distribution of shares will have the anticipated results, the Board believes there is a reasonable likelihood that one or more of such benefits will result, and because the Board is in a position to monitor the distribution expenses, it is able to determine the benefit of such expenditures in deciding whether to continue the Plan.

As of the date of this SAI, the Plan has not yet been implemented.

MARKETING AND SUPPORT PAYMENTS

The Advisor, out of its own resources and without additional cost to the Fund or its shareholders, may provide additional cash payments or other compensation to certain Financial Intermediaries who sell shares of the Fund. The Advisor does not currently intend to make such payments, but reserves the right to initiate payments in the future without notice to shareholders. These payments may be divided into categories as follows:

Support Payments.

Payments may be made by the Advisor to certain Financial Intermediaries in connection with the eligibility of the Fund to be offered in certain programs and/or in connection with meetings between the Fund's representatives and Financial Intermediaries and their sales representatives. Such meetings may be held for various purposes, including providing education and training about the Fund and other general financial topics to assist Financial Intermediaries' sales representatives in making informed recommendations to, and decisions on behalf of, their clients.

Entertainment, Conferences and Events.

The Advisor also may pay cash or non-cash compensation to sales representatives of Financial Intermediaries in the form of (1) occasional gifts; (2) occasional meals, tickets or other entertainments; and/or (3) sponsorship support for the Financial Intermediary's client seminars and cooperative advertising. In addition, the Advisor pays for exhibit space or sponsorships at regional or national events of Financial Intermediaries.

The prospect of receiving, or the receipt of additional payments or other compensation as described above by Financial Intermediaries may provide such intermediaries and/or their salespersons with an incentive to favor sales of shares of the Fund, and other mutual funds whose affiliates make similar compensation available, over sale of shares of mutual funds (or non-mutual fund investments) not making such payments. You may wish to take such payment arrangements into account when considering and evaluating any recommendations relating to the Fund shares.

As of the date of this SAI, the Advisor does not have agreements with any firms to pay such Support Payments. Future Support Payments may be structured in three ways: (1) as a percentage of net sales; (2) as a percentage of net assets; and/or (3) a flat fee.

FINANCIAL STATEMENTS

Investors in the Fund will be informed of the Fund's progress through periodic reports. Financial statements certified by an independent registered public accounting firm will be submitted to shareholders at least annually. Since the Fund had not commenced operations as of the date of this SAI, no financial statements are available.

APPENDIX A

DSM CAPITAL PARTNERS LLC

SUMMARY

PROXY VOTING POLICY

DSM has a proxy voting policy that may be amended from time to time. In voting proxies, DSM is guided by fiduciary principles. All proxies are to be voted solely in the best interests of the beneficial owners of the securities. As such, DSM has contracted with an independent third party (currently, MSCI Inc.) (the “Third Party Administrator”) to provide issue analysis and vote recommendations with respect to proxy proposals.

The Third Party Administrator offers a U.S. policy, an International policy, a Canadian policy as well as specialty policies such as a Socially Responsible policy, a Faith-Based policy, a Taft-Hartley policy and a Public Fund policy, along with custom policies defined by its clients. DSM utilizes the U.S. Policy and the International Policy. A copy of all policies can be found at www.issgovernance.com.

Each year, the Third Party Administrator undertakes a process to update the policies that inform its proxy voting recommendations. The Third Party Administrator has a policy formulation process that collects feedback from a diverse range of market participants through multiple channels: an annual policy survey of institutional investors and corporate issuers, roundtables with industry groups, and ongoing feedback during proxy season. The Third Party Administrator uses this input to develop draft policy updates on important governance issues, which are then published for open review and comment. This information is also available at www.issgovernance.com. Updates and revisions by the Third Party Administrator are reviewed by DSM to determine whether they are consistent with its principals

Because the Third Party Administrator conducts issue analysis and makes vote recommendations based on its independent, objective analysis, the proxy voting process is designed to cast votes in the best interests of DSM’s clients.

While it is DSM’s policy to follow the vote recommendations of the Third Party Administrator, DSM retains the authority to vote differently than the recommendation on any proxy proposal. Below is a sample of DSM’s position on certain corporate issues. This sample is designed to give a general view of how DSM could vote a proxy in such a situation. However, this action is subject to an internal approval process, which includes a determination that the proxy decision is not influenced by any conflicts of interest. In instances in which the Third Party Administrator is unable to make a vote recommendation, DSM’s Proxy Voting Committee will, based on such advice as it deems necessary, determine the manner in which to vote such proxy.

DSM does not normally invest in stock mutual funds in the separate accounts of its clients and therefore does not generally take any action on these proposals.

Material Conflicts of Interest

DSM does not engage in any investment banking or corporate finance activities, nor does DSM produce research for publication. However, DSM personnel may have interests in securities, instruments, and companies that may be purchased or sold by DSM for its clients’ accounts.

The interests of DSM and/or its personnel may conflict with the interests of DSM clients in connection with any proxy issue. In addition, DSM may not be able to identify all of the conflicts of interest relating to any proxy matter.

If a potential conflict does arise, it is to be brought to the attention of the CCO to be resolved.

The Proxy Voting Committee

DSM has a Proxy Voting Committee (the “Committee”) comprised of Stephen Memishian, Daniel Strickberger, and Russell S. Katz. The Committee is to administer DSM’s proxy voting policy. The Committee will meet as necessary to discuss proxy issues. In addition, on an annual basis, the Committee will review the proxy voting policy of the Third Party Administrator.

Procedures

The Proxy Voting Committee will administer the voting of all client proxies. DSM has engaged a Third Party Administrator to assist in issue analysis and the voting of client proxies. Such entity will coordinate with each client’s custodian to help ensure that proxy materials reviewed by the custodians are processed in a timely fashion.

An analysis of proxy issues and vote recommendations will be provided, or be made available, to DSM, by the Third Party Administrator. The Proxy Voting Committee will notify the Third Party Administrator of any changes to the DSM policy voting policy or any deviations thereof.

Recordkeeping

DSM is required to maintain in an easily accessible place for five years all records relating to proxy voting. These records include the following:

- a copy of the proxy voting policy;
- a copy of each proxy statement received on behalf of DSM’s clients;
- a record of each vote cast on behalf of DSM’s clients;
- a copy of all documents created by DSM’s personnel that were material to making a decision on a vote or that memorializes the basis for the decision; and
- a copy of each written request by a client for information on how DSM voted proxies, as well as a copy of any written response.

DSM reserves the right to maintain certain proxy records with the Third Party Administrator or any other entity in accordance with all applicable regulations.

Disclosure

Any client may obtain information about how DSM voted its security ballots (but not the security ballots of any other client) and/or a copy of DSM’s proxy voting policy, without cost, by calling 914-242-1900 or by writing to DSM at 116 Radio Circle Drive, Suite 200, Mount Kisco, New York 10549, Attn: Legal and Compliance.

Specific Proxy Issues

As noted above, while it is DSM’s policy to follow the vote recommendations of the Third Party Administrator, DSM retains the authority to vote differently than the recommendation on any proxy proposal. The following are a sample of DSM’s position on certain corporate issues.

Operational Items – DSM generally supports policies that strengthen shareholders’ rights with regard to: annual and special shareholder meetings, ratification of auditors (unless auditor has a financial interest, has rendered an inaccurate opinion, has poor accounting practices, or if fees for non-audit services are excessive), maintaining shareholders’ ability to vote on transactions, compensation or other general corporate issues that may arise.

DSM will generally vote against proposals where wording is deemed to be too vague or if the proposal encompasses “other business.”

Board of Directors – DSM normally supports policies that allow for strong corporate governance, including a majority of independent directors and key committees that are chaired by independent directors. Declassified boards are generally supported and cumulative voting of stock is generally opposed. DSM also normally supports liability protections for directors but not protection for gross negligence, willful misconduct or fraud. DSM prefers stock ownership by boards, but does not require it.

DSM will typically vote on director nominees on a case-by-case basis, withholding or voting against a nominee for attending less than 75% of meetings, sitting on more than six public company boards, or serving as CEOs of public companies while sitting on boards of more than two public companies besides their own. DSM also generally votes against directors who lack accountability and oversight coupled with sustained poor performance.

Proxy Contests – In contested elections, the following is commonly taken into account by DSM: the target company’s long-term financial performance relative to its industry, management’s track record, background to the proxy contest, qualifications of director nominees (both slates), stock ownership positions, evaluation of what each side is offering shareholders, and the likelihood that the proposed objectives and goals can be met. DSM generally supports confidential voting.

Anti-Takeover Defenses and Voting Related Issues – DSM largely votes on a case-by-case basis on “advance notice” proposals, giving support to those proposals which allow shareholders to submit proposals/nominations as close to the meeting date as reasonably possible. DSM’s policy is to generally oppose proposals that weaken shareholders’ rights in the event of proposed mergers and acquisitions. DSM commonly supports shareholder proposals requesting that the company submit its poison pill to a shareholder vote or redeem it unless the company has a shareholder approved poison pill in place or the company has a policy in place concerning the adoption of a poison pill in the future specifying that it will only be adopted if shareholders have approved the plan or the board determines that it is in the best interest of shareholders and it is put to a shareholder vote within 12 months of adoption. DSM generally opposes giving the board of directors’ exclusive authority to amend the bylaws, and supports proposals to allow or make easier shareholder actions by written consent. DSM also generally opposes proposals that require a supermajority vote and votes for proposals to lower supermajority vote requirements. In general, DSM supports proposals for shareholders to call special meetings and supports proposals that remove restrictions on the right for shareholders to act independently of management.

Mergers and Corporate Restructuring – For mergers, acquisitions, divestitures, joint ventures, private placements, spin-offs, DSM evaluates the merits and drawbacks of the proposed transaction, taking into consideration at least the following factors:

- Valuation - is the value to be received (or paid) reasonable. Emphasis is placed on the offer premium, market reaction and strategic rationale;
- Market Reaction - how has the market reacted to the proposed deal;

- Strategic Rationale - does the deal make sense strategically. Cost and revenue synergies should be reasonably achievable. Management needs to have a favorable track record of successful integration of historical acquisitions;
- Negotiations and process - is the process fair and equitable;
- Conflicts of interest – will insiders benefit from the transaction disproportionately and inappropriately vs. non-insider shareholders. Could these interests have influenced certain directors or officers to support or recommend the merger;
- Governance - will the combined company have better or worse governance than the current governance profiles of the respective parties to the transaction;
- Dilution to existing shareholders;
- Control issues, and
- Other financial issues.

State of Incorporation – DSM largely votes against proposals to amend the charter to include control share acquisition provisions. DSM generally votes for proposals to adopt anti-greenmail charter or bylaw amendments or otherwise restrict a company’s ability to make greenmail payments. Reincorporation proposals are commonly supported that are based on sound business reasons and do not infringe upon or weaken shareholders’ rights. DSM generally votes against proposals that ask the board to consider non-shareholder constituencies when evaluating a merger or business combination. DSM votes on a case-by-case basis on proposals to “opt in” or “opt out” of state takeover statutes.

Capital Structure – Proposals to change capital structure are evaluated for their impact and ability to strengthen shareholder rights. DSM commonly opposes: creating new classes of stock with different voting rights; increasing authorized common stock for the explicit purpose of implementing a shareholder rights plan (poison pill), and increases in common stock that allow for excessive granting of options. Proposals authorizing new classes of stock with unspecified voting, conversion, dividend distribution, and other rights are normally opposed. Proposals that give the board exclusive authority to amend the bylaws are largely opposed and proposals that give the board, as well as shareholders, the ability to amend the bylaws are generally supported.

Executive and Director Compensation – As a general rule, DSM supports executive and director compensation policies that appropriately align management incentives with creating long-term shareholder value. The salaries, annual bonuses and option/restricted stock programs are considered together in determining the reasonableness of compensation packages. DSM also normally supports salaries that are consistent with industry standards, and annual bonuses that require management to achieve key business metrics that are definable, measurable, and are components to increasing shareholder value through sound business policies. DSM generally supports stock compensation programs that limit the dilution to public shareholders while providing incentive to management and directors to increase shareholder value. DSM commonly votes against equity plans if cost is unreasonable. DSM will generally oppose restricted stock programs that do not require management to achieve key business metrics that are definable, measurable, and are components to increasing shareholder value through sound business policies. DSM usually opposes accelerated vesting of stock options or restricted stock that would result from short-term stock price fluctuations, as well as re-pricing of stock options/stock appreciation rights with prior shareholder approval. Retirement and health care plans for non-employee directors are generally opposed, and DSM usually supports employee stock ownership plans (ESOPs) and 401(k) savings plans for employees. DSM also generally supports proposals requiring that golden parachutes or executive severance agreements be submitted for shareholder ratification, unless the proposal requires shareholder approval prior to entering into employment contracts.

Corporate Social Responsibility Issues – When evaluating social and environmental shareholder proposals, DSM generally considers the following:

- Whether adoption of the proposal is likely to enhance or protect shareholder value;
- Whether the information requested concerns business issues that relate to a meaningful percentage of the company's business as measured by sales, assets, and earnings;
- The degree to which the company's stated position on the issues raised in the proposal could affect its reputation or sales, or leave it vulnerable to a boycott or selective purchasing;
- Whether the issues presented are more appropriately/effectively dealt with through governmental vs. company-specific action;
- Whether the company has already responded in some appropriate manner to the request embodied in the proposal;
- Whether the company's analysis and voting recommendation to shareholders are professional and persuasive;
- What other companies have done in response to the issue addressed in the proposal;
- Whether the proposal itself is well-framed and the cost of preparing the report is reasonable;
- Whether implementation of the proposal's request is likely to achieve the proposal's objectives;
- Whether the subject of the proposal is best left to the discretion of the board;
- Whether the requested information is available to shareholders either from the company directly or from a public source; and
- Whether providing this information would reveal proprietary or confidential information that would place the company at a competitive disadvantage.

Item 29. Persons Controlled by or Under Common Control with Registrant

No person is directly or indirectly controlled by or under common control with the Registrant.

Item 30. Indemnification

Reference is made to Article VII of the Registrant's Declaration of Trust (previously filed with the Registration Statement on Form N-1A (File No. 33-12213) on December 29, 1995), Article VI of Registrant's Amended and Restated Bylaws (previously filed with the Registration Statement on Form N-1A (File No. 33-12213) on February 18, 2003), and Paragraph 6 of the Distribution Agreement (previously filed with the Registration Statement on Form N-1A (File No. 33-12213) on February 12, 2002). With respect to the Registrant, the general effect of these provisions is to indemnify any person (Trustee, director, officer, employee or agent, among others) who was or is a party to any proceeding by reason of their actions performed in their official or duly authorized capacity on behalf of the Trust. With respect to the distributor, the general effect of the relevant provisions is to indemnify those entities for claims arising out of any untrue statement or material fact contained in the Funds' Registration Statement, reports to shareholders or advertising and sales literature.

Pursuant to Rule 484 under the Securities Act of 1933, as amended, (the “1933 Act”) the Registrant furnishes the following undertaking: “Insofar as indemnification for liability arising under the 1933 Act may be permitted to trustees, officers and controlling persons of the Registrant pursuant to the foregoing provisions, or otherwise, the Registrant has been advised that, in the opinion of the SEC such indemnification is against public policy as expressed in the 1933 Act and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment by the Registrant of expenses incurred or paid by a trustee, officer or controlling person of the Registrant in the successful defense of any action, suit or proceeding) is asserted by such trustee, officer or controlling person in connection with the securities being registered, the Registrant will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the 1933 Act and will be governed by the final adjudication of such issue.”

Item 31. Business and Other Connections of Investment Adviser

With respect to the Advisers, the response to this Item will be incorporated by reference to the Advisers’ Uniform Applications for Investment Adviser Registration (“Form ADV”) on file with the SEC. Each Adviser’s Form ADV may be obtained, free of charge, at the SEC’s website at www.adviserinfo.sec.gov.

Item 32. Principal Underwriter
