SECTION 1 - REGISTRANT'S BUSINESS AND OPERATIONS

ITEM 1.01 Entry into a Material Definitive Agreement.

Effective May 1, 2005, a subordinated promissory note issued by Ameren Energy Generating Company ("Genco"), an indirect subsidiary of Ameren Corporation ("Ameren"), to Central Illinois Public Service Company, doing business as AmerenCIPS ("CIPS"), a direct subsidiary of Ameren, as consideration for CIPS' transfer of its electric generating assets and related liabilities to Genco on May 1, 2000, was amended to extend its maturity from May 1, 2005 to May 1, 2010. A brief description of the terms and conditions of the amended promissory note is included under Item 2.03 below and the text of the amended note dated as of May 1, 2005 is included as Exhibit 4.1.

On May 2, 2005, the following material definitive agreements were entered into in conjunction with the intercompany asset transfers discussed under Item 8.01 below:

- An asset transfer agreement among Ameren and its subsidiaries, Union Electric Company, doing business as AmerenUE ("UE") and CIPS, providing for the transfer by UE of its Illinois-based electric and natural gas utility businesses to CIPS (the "UE Illinois Asset Transfer Agreement"). A brief description of the terms and conditions of the UE Illinois Asset Transfer Agreement is included under Item 8.01 below and the text of the agreement dated as of May 2, 2005 is included as Exhibit 10.1.

- A subordinated promissory note issued by CIPS to UE pursuant to the terms of the UE Illinois Asset Transfer Agreement. A brief description of the terms and conditions of this promissory note is included under Item 2.03 below and the text of the note dated as of May 2, 2005 is included as Exhibit 4.2.

- An asset transfer agreement between Genco and UE, providing for the transfer by Genco of its 232 megawatt combustion turbine electric generating station located in Kinmundy, Illinois, to UE. A brief description of the terms and conditions of this asset transfer agreement is included under Item 8.01 below and the text of the agreement dated as of May 2, 2005 is included as Exhibit 10.2.

- An asset transfer agreement between Genco and UE, providing for the transfer by Genco of its 320 megawatt combustion turbine electric generating station located in Pinckneyville, Illinois, to UE. A brief description of the terms and conditions of this asset transfer agreement is included under Item 8.01 below and the text of the agreement dated as of May 2, 2005 is included as Exhibit 10.3

SECTION 2 - FINANCIAL INFORMATION

ITEM 2.03 Creation of a Direct Financial Obligation or an Obligation under an Off-Balance Sheet Arrangement of a Registrant.

On May 1, 2000, Genco issued to CIPS a subordinated promissory note in the principal amount of approximately \$552 million (the "Original Genco Note") as consideration for CIPS' transfer of its electric generating assets and related liabilities to Genco on that date. The asset transfer agreement between CIPS and Genco, dated as of May 1, 2000, was filed as Exhibit 10 to CIPS Form 10-Q for the quarterly period ended June 30, 2000. The Original Genco Note had a 7 percent interest rate, a 10-year amortization schedule and a maturity date of May 1, 2005. The Original Genco Note was subordinated to all senior debt of Genco. As of April 30, 2005, the principal amount outstanding under the Original Genco Note was approximately \$249 million. Effective May 1, 2005, Genco amended certain terms of the Original Genco Note by the issuance to CIPS of an amended and restated subordinated promissory note (Exhibit 4.1 hereto) in the principal amount of approximately \$249 million with an interest rate of 7.125 percent per annum, a 5-year amortization schedule and a maturity date of May 1, 2010 and with terms of subordination identical to the Original Genco Note.

On May 2, 2005, pursuant to the terms of the UE Illinois Asset Transfer Agreement (Exhibit 10.1 hereto), CIPS issued to UE a subordinated promissory note (Exhibit 4.2 hereto) in the principal amount of approximately \$69 million as consideration for approximately 50 percent of the transferred assets. The subordinated promissory note bears interest at 4.70 percent per annum and has a 10-year amortization schedule and a maturity date of May 2, 2010. With the consent of UE, CIPS may prepay the promissory note in whole or in part without premium or penalty. The promissory note is subordinated to all senior debt of CIPS. A brief description of the transaction is included under Item 8.01 below.

SECTION 8 - OTHER EVENTS

Item 8.01 Other Events.

On May 2, 2005, following the receipt of all required regulatory approvals, UE completed the transfer of its Illinois-based electric and natural gas utility businesses, including its Illinois-based distribution assets, certain of its transmission assets and approximately 100 employees, at an estimated net book value of \$138 million, to its affiliate, CIPS. Under the terms of the UE Illinois Asset Transfer Agreement (Exhibit 10.1 hereto), the net book value will be adjusted within 60 days after the May 2 closing to reflect the actual net book value of the transferred assets as of the closing date. UE's electric generating facilities and a certain insignificant amount of its electric transmission and communications facilities in Illinois were not part of the transfer. Pursuant to the UE Illinois Asset Transfer Agreement, UE transferred 50 percent of the assets directly to CIPS in consideration for a CIPS subordinated promissory note in the principal amount of approximately \$69 million (discussed under Item 2.03 above) and 50 percent of the assets by means of a dividend in kind to Ameren, followed by a capital contribution by Ameren to CIPS. With the completion of this transfer, UE no longer operates as a public utility subject to Illinois Commerce Commission regulation and limits its public utility operations exclusively to the state of Missouri.

Also on May 2, 2005, following the receipt of all required regulatory approvals, Genco completed the transfer to UE of its 232 megawatt combustion turbine electric generating station located in Kinmundy, Illinois, for an estimated net book value of \$91 million, and its 320 megawatt combustion turbine electric generating station located in Pinckneyville, Illinois, for an estimated net book value of \$150 million. Under the terms of each asset transfer agreement (Exhibits 10.2 and 10.3 hereto), the net book value will be adjusted within 90 days after the closing to reflect the actual net book value of the transferred assets as of the closing date. The transfer of these electric generating assets satisfies the remainder of UE's commitment under its 2002 Missouri electric rate case settlement to add 700 megawatts of generation capacity by June 30, 2006. UE added 240 megawatts of generation capacity in 2002 in partial satisfaction of this commitment.

For additional information, reference is made to the press release dated May 2, 2005, which is included as Exhibit 99.1 and incorporated by reference herein.

STATEMENT OF SUBORDINATION

The indebtedness evidenced by this Note shall be subordinate and junior to any and all indebtedness, except that certain promissory note dated June 30, 2000 to Ameren Corporation in the amount of \$50,000,000 (hereafter referred to as "Senior Debt") of Maker, now existing or hereafter incurred, in respect of (i) borrowings (including renewals and extensions thereof) from any one or more banks, insurance companies, pension or profit sharing trusts, or other financial institutions whether secured or unsecured, and (ii) all other borrowings incurred, assumed or guaranteed by Maker, at any time, before or after the date of this Note, evidenced by a note, debenture, bond or other similar instrument (including capitalized lease and purchase money obligations, and/or for the acquisition (whether by way of purchase, merger or otherwise) of any business, real property or other assets (except assets acquired in the ordinary course of business) but excluding obligations other than for borrowed money including trade payables and other obligations to general creditors), except indebtedness which, by its terms or the terms of the instrument creating or evidencing it, provides that such indebtedness is not superior in right of payment to the payment of principal of or any interest on this Note, or that such indebtedness is subordinated to all other indebtedness of the Maker. Notwithstanding any other provision of this Note, "Senior Debt" shall include refinancings, renewals, extensions or refundings of the indebtedness described in clauses (i) and (ii) above. "Subordinate and junior" as used herein shall mean that in the event of:

(a) any default in, or violation of, the terms or covenants of any Senior Debt, including, without limitation, any default in payment of principal of, or premium, if any, or interest on, any Senior Debt whenever due (whether by acceleration of maturity or otherwise), and during the continuance thereof, or

(b) the institution of any liquidation, dissolution, bankruptcy, insolvency, reorganization or similar proceeding relating to Maker, its property or its creditors as such,

the holder of this Note shall not be entitled to receive any payment of principal of, or premium, if any, or interest on, this Note until all amounts owing in respect of Senior Debt (matured and unmatured) shall have been paid in full; and from and after the happening of any event described in clause (c) of this paragraph, all payments and distributions of any kind or character (whether in cash, securities or property) which, except for the subordination provisions hereof, would have been payable or distributable to the holder of this Note (whether directly or by reason of this Note's being superior to any other indebtedness), shall be made to and for the benefit of the holders of Senior Debt (who shall be entitled to make all necessary claims therefor) in accordance with the priorities of payment thereof until all Senior Debt (matured and unmatured) shall have been paid in full. Upon the happening of any event described in clauses (a) or (b) of this paragraph, all Senior Debt shall (at the option of the holder thereof and subject to the terms thereof) become immediately due and payable in full. No act or failure to act on the part of Maker, and no default under or breach of any agreement of Maker, whether or not herein set forth, shall in any way prevent or limit the holder of any Senior Debt from enforcing fully the subordination herein provided for, irrespective of any knowledge or notice which such holder

may at any time have or be charged with. So long as any Senior Debt shall be outstanding, Maker shall not, without the prior written consent of all holders thereof except as may be otherwise agreed to by such holders in such instruments, (i) pay any amount in respect of principal of this Note prior to the stated maturity thereof or purchase or redeem this Note in whole or in part, except as may be otherwise expressly required herein or (ii) alter or amend any of the terms of this paragraph. Maker and the holder hereof agree not to alter, amend or waive any of the terms of this Note or any right in respect thereto in any manner which might adversely affect the holders of Senior Debt without the prior written consent of all such holders except as may be otherwise agreed to by such holders in such instruments. Without limiting the above, any alteration, amendment or waiver providing for full or partial payment, purchase or redemption hereof, by Maker at any time other than as originally set forth herein, shall be deemed to adversely affect the holders of Senior Debt. Anything hereinabove to the contrary notwithstanding, in the event that any payment or distribution is made with respect to the indebtedness evidenced by this Note in violation of the terms hereof, any holder hereof receiving such payment or distribution shall hold it in trust for the benefit of, and shall remit it to, the holders of Senior Debt then outstanding in accordance with the priorities of payment thereof. The provisions of this paragraph are solely for the purpose of defining the relative rights of the holders of Senior Debt on the one hand, and the holder of this Note on the other hand, and nothing herein shall impair, as between Maker and the holder of this Note, the obligation of Maker, which is unconditional and absolute, to pay to the holder hereof the principal hereof, and the premium, if any, and interest hereon, in accordance with the terms hereof nor shall anything herein prevent the holder of this Note from exercising all remedies otherwise permitted by applicable law or hereunder upon default hereunder, subject to the rights, if any, under this paragraph of holders of Senior Debt. Any instrument defining the terms of any Senior Debt may include subordination provisions in respect of this Note and, in such case, in the event of any inconsistency between the terms of the subordination provisions of such Senior Debt instrument and the subordination provisions herein, the terms of the subordination provisions of such Senior Debt instrument shall govern.

This statement of subordination is hereby made a part of the attached Note as if set forth in full therein.

STATEMENT OF SUBORDINATION

The indebtedness evidenced by this Note shall be subordinate and junior to any and all indebtedness (hereafter referred to as "Senior Debt") of Maker, now existing or hereafter incurred, in respect of (i) borrowings (including renewals and extensions thereof) from any one or more banks, insurance companies, pension or profit sharing trusts, or other financial institutions whether secured or unsecured, and (ii) all other borrowings incurred, assumed or guaranteed by Maker, at any time, before or after the date of this Note, evidenced by a note, debenture, bond or other similar instrument (including capitalized lease and purchase money obligations, and/or for the acquisition (whether by way of purchase, merger or otherwise) of any business, real property or other assets (except assets acquired in the ordinary course of business) but excluding obligations other than for borrowed money including trade payables and other obligations to general creditors), except indebtedness which, by its terms or the terms of the instrument creating or evidencing it, provides that such indebtedness is not superior in right of payment to the payment of principal of or any interest on this Note, or that such indebtedness is subordinated to all other indebtedness of the Maker. Notwithstanding any other provision of this Note, "Senior Debt" shall include refinancings, renewals, extensions or refundings of the indebtedness described in clauses (i) and (ii) above. "Subordinate and junior" as used herein shall mean that in the event of:

(a) any default in, or violation of, the terms or covenants of any Senior Debt, including, without limitation, any default in payment of principal of, or premium, if any, or interest on, any Senior Debt whenever due (whether by acceleration of maturity or otherwise), and during the continuance thereof, or

(b) the institution of any liquidation, dissolution, bankruptcy, insolvency, reorganization or similar proceeding relating to Maker, its property or its creditors as such,

the holder of this Note shall not be entitled to receive any payment of principal of, or premium, if any, or interest on, this Note until all amounts owing in respect of Senior Debt (matured and unmatured) shall have been paid in full; and from and after the happening of any event described in clause (c) of this paragraph, all payments and distributions of any kind or character (whether in cash, securities or property) which, except for the subordination provisions hereof, would have been payable or distributable to the holder of this Note (whether directly or by reason of this Note's being superior to any other indebtedness), shall be made to and for the benefit of the holders of Senior Debt (who shall be entitled to make all necessary claims therefor) in accordance with the priorities of payment thereof until all Senior Debt (matured and unmatured) shall have been paid in full. No act or failure to act on the part of Maker, and no default under or breach of any agreement of Maker, whether or not herein set forth, shall in any way prevent or limit the holder of any Senior Debt from enforcing fully the subordination herein provided for, irrespective of any knowledge or notice which such holder may at any time have or be charged with. In the event that any payment or distribution is made with respect to the indebtedness evidenced by this Note in violation of the terms hereof, any holder hereof receiving such payment or distribution shall hold it in trust for the benefit of, and shall remit it to, the holders of Senior Debt then outstanding in accordance with the priorities of payment thereof. The

provisions of this paragraph are solely for the purpose of defining the relative rights of the holders of Senior Debt on the one hand, and the holder of this Note on the other hand, and nothing herein shall impair, as between Maker and the holder of this Note, the obligation of Maker, which is unconditional and absolute, to pay to the holder hereof the principal hereof, and the premium, if any, and interest hereon, in accordance with the terms hereof nor shall anything herein prevent the holder of this Note from exercising all remedies otherwise permitted by applicable law or hereunder upon default hereunder, subject to the rights, if any, under this paragraph of holders of Senior Debt. Any instrument defining the terms of any Senior Debt may include subordination provisions in respect of this Note and, in such case, in the event of any inconsistency between the terms of the subordination provisions of such Senior Debt instrument and the subordination provisions herein, the terms of the subordination provisions of such Senior Debt instrument shall govern.

This statement of subordination is hereby made a part of the attached Note as if set forth in full therein.

future payments of less than \$500,000 in the aggregate), that are non-assignable or non-transferable or cannot be subleased to Transferee without the consent of some other individual, partnership, corporation, association, joint stock company, trust, joint venture, limited liability company or Governmental Authority (collectively, "Person") and (ii) approvals of Governmental Authorities, including the Illinois Commerce Commission (the "ICC"), the Missouri Public Service Commission, the Federal Energy Regulatory Commission, the Securities and Exchange Commission and the Federal Communications Commission that are required for the consummation of the transactions contemplated by this Agreement. Transferor has commenced and shall continue to take, or cause to be taken by others, all necessary actions required to obtain or satisfy, at the earliest practicable date, all consents, novations, approvals, authorizations, requirements (including filing and registration requirements), waivers and agreements ("Consents") from any Persons necessary to authorize, approve or permit the full and complete conveyance, assignment, sublease or transfer of the Acquired Assets, and to consummate and make effective the transactions contemplated by this Agreement and to continue such efforts as may be required after the Closing Date to facilitate the full and expeditious transfer of legal title, or the sublease, as the case may be, of the Acquired Assets.

(b) Nonassignable Items. Anything in this Agreement to the contrary notwithstanding, this Agreement shall not constitute an Agreement to sell, convey, assign, sublease or transfer any Acquired Assets, including Contracts, Permits and Lease Agreements, if an attempted conveyance, assignment, sublease or transfer thereof, without the Consent of another party thereto or a Governmental Authority would constitute a breach of, or in any way affect the rights of Transferor or Transferee with respect to such Acquired Asset ("Nonassignable Items"). Transferor shall use its best efforts and Transferee shall cooperate in all reasonable respects with Transferor to obtain and satisfy all Consents and to resolve all impracticalities of conveyance, assignment, sublease or transfer necessary to convey to Transferee all Nonassignable Items.

ARTICLE 2 LIABILITIES

2.1 Assumption of Liabilities. On the terms and subject to the conditions set forth in this Agreement, Transferee shall assume, at the Closing and effective as of the Closing Date, and shall thereafter pay, perform and discharge as and when due the following, and only the following, liabilities and obligations of Transferor (collectively, the "Assumed Liabilities"):

(c) Contracts. All liabilities and obligations of Transferor arising under the terms of the Contracts other than contracts that constitute Non-Assigned Contracts but only to the extent such liabilities and obligations arise or accrue after the Closing Date in the ordinary and normal course and consistent with the representations, warranties, covenants, obligations and agreements set forth in this Agreement; provided, however, that Transferee shall not assume or be responsible for any such liabilities or obligations which arise from breaches thereof or defaults thereunder by Transferor, all of which liabilities and obligations shall constitute Retained Liabilities;

(d) Liabilities and Obligations. All liabilities and obligations of Transferor relating to environmental permits, variances or orders issued by local, state or federal governmental authorities that relate to the Business that is conducted at the Facilities;

(e) Litigation. ARTICLE 5 REPRESENTATIONS AND WARRANTIES

5.1 Representations and Warranties of Transferor. Subject only to those exceptions and qualifications listed and described (including an identification by section reference to the representations and warranties to which such exceptions and qualifications relate) on the Schedule, Transferor hereby represents and warrants to Transferee (it being understood that for purposes of this Article V, the portion of the Acquired Assets comprising the Dividend Assets will first be dividended to Parent and then contributed to Transferee) that:

(a) Organization and Standing; Power and Authority. Transferor is a corporation duly organized, validly existing and in good standing under the laws of the State of Missouri, and has full corporate power and authority to operate the Business, to own or lease the Acquired Assets, to carry on its Business as now being conducted, and to enter into and perform this Agreement and the transactions and other agreements and instruments contemplated by this Agreement. This Agreement and all other agreements and instruments executed and delivered or to be executed and delivered by Transferor in connection herewith (collectively, the "Transaction

Documents”) have been, or upon execution thereof will be, duly executed and delivered by Transferor, as the case may be. This Agreement and the transactions and other agreements and instruments contemplated hereby have been duly approved by the Board of Directors of Transferor, and constitute the valid and binding obligations of Transferor, enforceable in accordance with their respective terms.

(b) Conflicts; Defaults. Neither the execution and delivery of this Agreement and the other agreements and instruments executed or to be executed in connection herewith by Transferor, nor the performance by Transferor of the transactions contemplated hereby or thereby, will (i) violate, conflict with, or constitute a default under, any of the terms of Transferor’s Articles of Incorporation or By-Laws, or any provisions of, or result in the acceleration of any obligation under, any contract, sales commitment, license, purchase order, security agreement, mortgage, note, deed, lien, lease, agreement or instrument, including, without limitation, the Contracts, or any order, judgment or decree, relating to the Business or the Acquired Assets, or by which Transferor or the Acquired Assets are bound, (ii) result in the creation or imposition of any Liens or Claims in favor of any third Person or entity upon any of the Acquired Assets, (iii) violate any Law, statute, judgment, decree, order, rule or regulation of any Governmental Authority, (iv) constitute an event which, after notice or lapse of time or both, would result in such violation, conflict, default, acceleration, or creation or imposition of Liens or Claims, (v) constitute an event which, after notice or lapse of time or otherwise would create, or cause to be exercisable or enforceable, any option, agreement or right of any kind to purchase any of the Acquired Assets. Except as otherwise provided herein or in the Schedule, no consent, novation, approval, filing or authorization will be required to be obtained or satisfied for the continued performance by Transferee following the Closing of any contract, agreement, commitment or undertaking included in the Acquired Assets. Transferor is not in violation of or in default under its Articles of Incorporation or Bylaws, or any provision of any contract, sales commitment, license, purchase order, security agreement, mortgage, note, deed, lien, lease, agreement or instrument, including without limitation, the Contracts, or any order, judgment or decree, relating to the Business or the Acquired Assets, or by which Transferor or the Acquired Assets is bound, or in the payment of any of Transferor’s monetary obligations or debts relating to the Business, and there exists no condition or event which, after notice or lapse of time or both, would result in any such violation or default.

(c) Acquired Assets; Title to the Acquired Assets. Except for the Retained Assets, the Acquired Assets are the only assets, properties, rights and interests used by Transferor in connection with the Business that is conducted at the Facilities. The Acquired Assets to be conveyed to Transferee under this Agreement constitute all of the assets, properties, rights and interests necessary to conduct the Business at the Facilities in substantially the same manner as conducted by Transferor prior to the date of this Agreement. Transferor has good, marketable and exclusive title to, and the valid and enforceable power and unqualified right to use and transfer to Transferee, each of the Acquired Assets, and the Acquired Assets are free and clear of all Liens and Claims of any kind or nature whatsoever, except for Permitted Liens. The consummation of the transactions contemplated by this Agreement (including, without limitation, the transfer or assignment of the Acquired Assets, and all rights and interests therein, to Transferee as contemplated herein) will not adversely affect such title or rights, or any terms of the applicable agreements (whether written or oral) evidencing, creating or granting such title or rights. None of the Acquired Assets are subject to, or held under, any lease, mortgage,

security agreement, conditional sales contract or other title retention agreement, or are other than in the sole possession and under the sole control of Transferor except as otherwise provided herein. Transferor has the right under valid and existing leases to occupy, use or control all properties and assets leased by it and included in the Acquired Assets. The delivery to Transferee of the instruments of transfer of ownership contemplated by this Agreement will vest good, marketable and exclusive title (as to all Acquired Assets owned by Transferor) or full right to possess and use (as to all Acquired Assets not owned by Transferor) to the Acquired Assets in Transferee, free and clear of all Liens and Claims of any kind or nature whatsoever, except for (i) current real estate Taxes or governmental charges or levies which are a Lien but not yet due and payable, (ii) Liens disclosed as securing specified liabilities on the Balance Sheet with respect to which no default exists, (iii) Liens otherwise disclosed herein or in the Schedule and (iv) minor imperfections of title, if any, none of which are substantial in amount, or materially detract from the value or impair the use of the property subject thereto or the operation of the Business at the Facilities and which have arisen only in the ordinary and normal course of business consistent with past practice (the Liens described in clauses (i), (ii), (iii) and (iv) being collectively referred to herein as “Permitted Liens”).

Transferor agrees to assign, transfer or otherwise convey all environmental permits and licenses to Transferee and to take all necessary steps with the appropriate governmental authorities to effectuate such transfers. Transferor has delivered to Transferee list of all applicable permits that are used in the operation of the Business at the Facilities.

- (C) For purposes of this Agreement, the term “Environmental Damages” means any and all Liabilities (as defined in Section 11.1) which are incurred at any time as a result of the existence prior to Closing of Hazardous Material upon, about, beneath the Property or migrating or threatening to migrate to or from the Property, or the existence of a violation of Environmental Requirements pertaining to the Property, regardless of whether the existence of such Hazardous Material or the violation of Environmental Requirements arose prior to the present ownership or operation of the Property, and including without limitation:

- (1) Damages for personal injury, or injury to property or natural resources occurring upon or off of the Property, foreseeable or unforeseeable, including, without limitation, lost profits, consequential damages, the cost of demolition and rebuilding of any improvements on real property, interest and penalties;

(f) Approvals. Transferor has delivered to Transferee or its authorized representatives a list of all Consents that must be obtained or satisfied by Transferor for the consummation of the transactions contemplated by this Agreement, including, without limitation, all Consents that must be obtained pursuant to Section 1.5(a). All Consents prescribed by any Law, or any contract, agreement, commitment or undertaking, and which must be obtained or satisfied by Transferor for the consummation of the transactions contemplated by this Agreement, or for the continued performance by them of their rights and obligations thereunder, have been, or shall by the Closing have been, made, obtained and satisfied.

Transferor has delivered to Transferee or its authorized representatives a true, correct and complete list of all instruments and agreements creating any interest or right in real property relating to the Business that is conducted at the Facilities (including all easements, buildings, structures, fixtures and improvements). True, correct and complete copies of the instruments and agreements identified in such list have been delivered to Transferee or its authorized representatives. Each such instrument and agreement is in full force and effect and is a legal, binding and enforceable obligation of the parties thereto and no event has occurred which constitutes or, with the giving of notice or passage of time, or both, would constitute a default or breach thereunder. Transferor has the right to quiet enjoyment of all real property subject to Lease Agreements under any such instruments, for the full term of each such Lease Agreement and any renewal option related thereto. There has been no disturbance of or challenge to the Transferor's quiet possession under each such Lease Agreement, and no leasehold or other interest of Transferor in such real property is subject to or subordinate to any Liens except Permitted Liens. Neither the whole nor any portion of any real property leased or occupied by Transferor has been condemned, requisitioned or otherwise taken by any Governmental Authority, and, to the best of Transferor's knowledge, no such condemnation, requisition or taking is threatened or contemplated. All buildings, structures, fixtures and appurtenances comprising part of the Real Properties of Transferor are in good condition and have been well maintained, normal wear and tear excepted, and there are no material physical or mechanical defects of the Real Property which would interfere with the ongoing operations of the Business as currently conducted at the Facilities. All water, sewer, gas and drainage facilities required by the present use and operation of the Real Property by Transferor are installed to the property lines of the Real Property, are all connected and operating pursuant to valid permits, and are adequate to service the Real Property in accordance with the present use and operation of the Real Property by Transferor. The Real Property complies with all applicable Laws and insurance requirements and all zoning, building and other requirements relating to the use or occupancy of all or any portion of the Real Property. There are no pending, or to the best of Transferor's knowledge, contemplated zoning changes, variances or special zoning agreements affecting or which might affect the Real Property.

(h) Lease Agreements. Each of the Lease Agreements described in Section 1.1(d) has not been modified, altered, terminated or revoked, and is in full force and effect. Transferor, as the present tenant under each Lease Agreement, is not in default under, or in breach of, any of the terms of each Lease Agreement, and there are no existing facts or conditions which could give rise to any such breach or default, or any claim against Transferor, under each Lease Agreement. Each of the present lessors under each respective Lease Agreement is not in default thereunder, or in breach thereof, and there are no existing facts or conditions which could give rise to any such breach or default, or any claim against each lessor under each respective Lease Agreement.

This Agreement and the transactions and other agreements and instruments contemplated hereby have been duly approved by the Board of Directors of Parent, and constitute the valid and binding obligations of Parent, enforceable in accordance with their respective terms.

(b) Conflicts; Defaults. Neither the execution and delivery of this Agreement and the other agreements and instruments executed or to be executed in connection herewith by Parent, nor the performance by Parent of the transactions contemplated hereby or thereby, will (i) violate, conflict with, or constitute a default under, any of the terms of Parent's Articles of Incorporation or By-Laws, or any provisions of, or result in the acceleration of any obligation under, any contract, sales commitment, license, purchase order, security agreement, mortgage, note, deed, lien, lease, agreement or instrument, including, without limitation, the Contracts, or any order, judgment or decree, relating to the Business or the Acquired Assets, or by which Parent or the Dividend Assets are bound, (ii) result in the creation or imposition of any Liens or Claims in favor of any third Person or entity upon any of the Dividend Assets, (iii) violate any Law, statute, judgment, decree, order, rule or regulation of any Governmental Authority, (iv) constitute an event which, after notice or lapse of time or both, would result in such violation, conflict, default, acceleration, or creation or imposition of Liens or Claims, (v) constitute an event which, after notice or lapse of time or otherwise would create, or cause to be exercisable or enforceable, any option, agreement or right of any kind to purchase any of the Dividend Assets. Except as otherwise provided herein or in the Schedule, no consent, novation, approval, filing or authorization will be required to be obtained or satisfied for the continued performance by Transferee following the Closing of any contract, agreement, commitment or undertaking included in the Dividend Assets.

(c) Dividend Assets; Title to the Dividend Assets. Parent will immediately transfer to Transferee all Dividend Assets received by Parent from Transferor. The consummation of the transactions contemplated by this Agreement (including, without limitation, the transfer or assignment of the Dividend Assets, and all rights and interests therein, to Transferee as contemplated herein) will not adversely affect such title or rights, or any terms of the applicable agreements (whether written or oral) evidencing, creating or granting such title or rights. The delivery to Transferee of the instruments of transfer of ownership contemplated by this Agreement will vest good, marketable and exclusive title (as to all Dividend Assets owned by Parent) or full right to possess and use (as to all Dividend Assets not owned by Parent) to the Dividend Assets in Transferee, free and clear of all Liens and Claims of any kind or nature whatsoever, except for Permitted Liens.

(d) Approvals. Parent has delivered to Transferee or its authorized representatives a list of all Consents that must be obtained or satisfied by Parent for the consummation of the transactions contemplated by this Agreement, including, without limitation, all Consents that must be obtained pursuant to Section 1.5(a). All Consents prescribed by any Law, or any contract, agreement, commitment or undertaking, and which must be obtained or satisfied by Parent for the consummation of the transactions contemplated by this Agreement, or for the continued performance by them of their rights and obligations thereunder, have been, or shall by the Closing have been, made, obtained and satisfied.

During the period from the date hereof through the Closing Date, Transferor shall conduct the Business at the Facilities and operate the Acquired Assets diligently and in the ordinary and normal course and consistent with past practice (including, without limitation, using its best efforts to preserve beneficial relationships between Transferor and its distributors, agents, lessors, suppliers and customers) and continue normal maintenance, marketing, advertising, distributional and promotional expenditures in connection with the Business that is conducted at the Facilities. Transferor shall engage in no transactions in connection with the Business that is conducted at the Facilities or the Acquired Assets, including transactions relating to the purchase or sale of goods, raw materials, inventories or other operating or production items, intracorporate or otherwise, with any of its Affiliates from the date hereof until the Closing other than (a) transactions approved by Transferee; or (b) transactions on terms no more favorable to Transferor or its Affiliates than would have been obtainable in arm's-length dealing.

ARTICLE 8 COVENANTS OF TRANSFEE

8.1 Maintenance of, and Access to, Records. From and after the Closing, Transferee shall, whenever reasonably requested by Transferor, permit Transferor to have access to such Business Records turned over to Transferee pursuant to this Agreement as may be required by Transferor in connection with any audit or investigation by any Governmental Authority, or any matter relating to insurance coverage or third party Claims, in each such case to the extent

relating to the operation of the Business at the Facilities by Transferor prior to the Closing. Transferee shall preserve and maintain the records relating to the Business that is conducted at the Facilities which are part of the Acquired Assets for at least three years after the Closing Date.

8.2 Closing. Each of Transferee and Transferor and Parent, as applicable, shall use its best efforts to cause the conditions set forth in Sections 6.1, 6.2 and 6.3 to be satisfied by the Closing Date.

ARTICLE 9 CERTAIN ADDITIONAL COVENANTS

9.1 Expenses; Transfer Taxes. Each party hereto will bear the legal, accounting and other expenses incurred by such party in connection with the negotiation, preparation and execution of this Agreement, the Transaction Documents, and the transactions contemplated hereby. All sales, transfer, recordation and documentary Taxes and fees which may be payable in connection with the transactions contemplated by this Agreement shall be borne by Transferor.

9.2 Bulk Transfer Laws. Transferee hereby waives compliance by Transferor with the laws of any jurisdiction relating to bulk transfers which may be applicable in connection with the transfer of the Acquired Assets to Transferee.

9.3 Regulatory Approvals. Transferor will, and will cause its appropriate Affiliates to, and Transferee will, use, in each case, its best efforts to obtain any authorizations, consents, orders and approvals of any Governmental Authority necessary for the performance of its respective obligations pursuant to this Agreement and any of the other Transaction Documents, and the consummation of the transactions contemplated hereby and thereby, and will cooperate fully with each other in all reasonable respects in promptly seeking to obtain such authorizations, consents, orders and approvals.

9.4 Employee Matters. Transferor shall retain all liabilities and obligations in respect of its past, present and future employees. Provided, however, that Transferee shall hire a sufficient number of non-supervisory employees to operate and maintain the Metro East operations by initially making offers of employment to Transferor's current Metro East non-supervisory workforce at no less than the wage rates, and substantially equivalent fringe benefits and terms and conditions of employment that are in effect at the time that transfer of ownership occurs and that said wage rates and substantially equivalent fringe benefits and terms and conditions of employment shall continue for at least 30 months from the time of said transfer of ownership. Transferor shall offer a transition plan to those employees who are not offered jobs by Transferee in the event that Transferee has a need for fewer workers.

ARTICLE 10 TERMINATION

10.1 Termination. This Agreement and the transactions contemplated hereby may be terminated at any time prior to the Closing (any such date upon which this Agreement is terminated pursuant to this Article X shall be referred to herein as the "Termination Date"):

(a) Mutual Consent. By mutual written consent of Parent, Transferor and Transferee;

(b) Court Order. By Transferor, Transferee or Parent if consummation of the transactions contemplated hereby shall violate any non-appealable final order, decree or judgment of any court or Governmental Authority having competent jurisdiction;

(c) Transferee's Conditions. By Transferee, if any condition precedent to Transferee's obligation to effect the Closing as set forth in Section 6.1 is not satisfied, or shall have become incapable of fulfillment, and such condition is not waived, if waivable, by Transferee on or prior to the Termination Date; and

(d) Transferor's Conditions. By Transferor, if any condition precedent to Transferor's obligation to effect the Closing as set forth in Section 6.2 is not satisfied, or shall have become incapable of fulfillment, and such condition is not waived, if waivable, by Transferor on or prior to the Termination Date.

(e) Parent's Conditions. By Parent, if any condition precedent to Parent's obligation to effect the Closing as set forth in Section 6.3 is not satisfied, or shall have become incapable of fulfillment, and such condition is not waived, if waivable, by Parent on or prior to the Termination Date.

10.2 Effect of Termination. If this Agreement is terminated pursuant to Section 10.1, written notice thereof shall forthwith be given to the other party and this Agreement shall thereafter become void and have no further force and effect and all further obligations of Transferor and Transferee under this Agreement shall terminate without further liability of Transferor or Transferee.

ARTICLE 11 INDEMNIFICATION

11.1 Indemnification by Transferee.

(a) General. From and after the Closing, Transferee shall indemnify, defend and hold each of Transferor and Parent, their respective Affiliates, and their respective directors, officers, representatives, employees and agents, as the case may be, harmless from and against any and all claims, actions, suits, demands, assessments, judgments, losses, liabilities, damages, costs and expenses (including, without limitation, interest, penalties, attorneys' fees to the extent permitted by law, and accounting fees and investigation costs) (collectively, "Liabilities") that may be incurred by Transferor or Parent, as the case may be, resulting or arising from or related to, or incurred in connection with: (a) the failure of Transferee to assume, pay, perform and discharge the Assumed Liabilities, and (b) any breach of any representation, warranty, covenant, obligation or agreement of Transferee contained herein or in any other Transaction Document.

(b) Environmental Indemnification. Transferee agrees to indemnify, defend, reimburse and hold harmless Transferor and Parent, their respective Affiliates and their respective directors, officers, representatives, employees and agents, as the case may be, from and against any and all Assumed Environmental Liabilities. This obligation to indemnify shall include, but not be limited to, the expense of defending all Claims, suits and administrative proceedings (with counsel reasonably approved by the indemnified parties), even if such Claims, suits or proceedings are groundless, false or fraudulent, and paying and discharging, when and as the same become due, any and all judgments, penalties or other sums due against such

indemnified Persons; provided, however, that Transferee will be entitled to control any clean-up or remediation, and any related proceeding, and, except as provided in the following sentence, any other proceeding with respect to which indemnity may be sought under this Section. The procedures described in Section 11.3 shall apply to any Claim solely for monetary damages relating to a matter covered by this Section.

11.2 Indemnification by Transferor.

(a) General. From and after the Closing, Transferor shall indemnify, defend and hold Transferee and Parent, their respective Affiliates, and their respective directors, officers, representatives, employees and agents, as the case may be, harmless from and against any and all Liabilities that may be incurred by Transferee or Parent, as the case may be, resulting or arising from, related to or incurred in connection with: (i) the failure of Transferor to assume, pay, perform and discharge the Retained Liabilities and (ii) any breach of any representation, warranty, covenant, obligation or agreement of Transferor contained herein or in any other Transaction Document.

(b) Environmental Indemnification. Transferor agrees to indemnify, defend, reimburse and hold harmless Transferee and Parent, their respective Affiliates and their respective directors, officers, representatives, employees and agents, as the case may be, from and against any and all Non-Assumed Environmental Liabilities. This obligation to indemnify shall include, but not be limited to, the expense of defending all Claims, suits and administrative proceedings (with counsel reasonably approved by the indemnified parties), even if such Claims, suits or proceedings are groundless, false or fraudulent, and paying and discharging, when and as the same become due, any and all judgments, penalties or other sums due against such indemnified Persons; provided, however, that Transferor will be entitled to control any clean-up or remediation, and any related proceeding, and, except as provided in the following sentence, any other proceeding with respect to which indemnity may be sought under this Section. The procedures described in Section 11.3 shall apply to any Claim solely for monetary damages relating to a matter covered by this Section.

11.3 Notice of Claim; Right to Participate in and Defend Third Party Claim.

(a) If any indemnified party receives notice of the assertion of any Claim, the commencement of any suit, action or proceeding, or the imposition of any penalty or assessment by a third party in respect of which indemnity may be sought hereunder (a "Third Party Claim"), and the indemnified party intends to seek indemnity hereunder, then the indemnified party shall promptly provide the indemnifying party with prompt written notice of the Third Party Claim, but in any event not later than 30 calendar days after receipt of such notice of Third Party Claim. The failure by an indemnified party to notify an indemnifying party of a Third Party Claim shall not relieve the indemnifying party of any indemnification responsibility under this Article XI, unless such failure materially prejudices the ability of the indemnifying party to defend such Third Party Claim.

(b) The indemnifying party shall have the right to control the defense, compromise or settlement of the Third Party Claim with its own counsel (reasonably satisfactory to the indemnified party) if the indemnifying party delivers written notice to the indemnified

party within seven days following the indemnifying party's receipt of notice of the Third Party Claim from the indemnified party acknowledging its obligations to indemnify the indemnified party with respect to such Third Party Claim in accordance with this Article XI, and establishes security in form and substance reasonably satisfactory to the indemnified party to secure the indemnifying party's obligations under this Article XI with respect to such Third Party Claim; provided, however, that the indemnifying party shall not enter into any settlement of any Third Party Claim which would impose or create any obligation or any financial or other liability on the part of the indemnified party if such liability or obligation (i) requires more than the payment of a liquidated sum, or (ii) is not covered by the indemnification provided to the indemnified party hereunder. In its defense, compromise or settlement of any Third Party Claim, the indemnifying party shall timely provide the indemnified party with such information with respect to such defense, compromise or settlement as the indemnified party shall request, and shall not assume any position or take any action that would impose an obligation of any kind on, or restrict the actions of, the indemnified party. The indemnified party shall be entitled (at the indemnified party's expense) to participate in the defense by the indemnifying party of any Third Party Claim with its own counsel.

(c) In the event that the indemnifying party does not undertake the defense, compromise or settlement of a Third Party Claim in accordance with subsection (b) of this Section 11.3, the indemnified party shall have the right to control the defense or settlement of such Third Party Claim with counsel of its choosing; provided, however, that the indemnified party shall not settle or compromise any Third Party Claim without the indemnifying party's prior written consent, unless (i) the terms of such settlement or compromise release the indemnified party or the indemnifying party from any and all liability with respect to the Third Party Claim, or (ii) the indemnifying party shall not have acknowledged its obligations to indemnify the indemnified party with respect to such Third Party Claim in accordance with this Article XI and established security in form and substance reasonably satisfactory to the indemnified party to secure the indemnifying party's obligations under this Article XI with respect to such Third Party Claim. The indemnifying party shall be entitled (at the indemnifying party's expense) to participate in the defense of any Third Party Claim with its own counsel.

(d) Any indemnifiable Claim hereunder that is not a Third Party Claim shall be asserted by the indemnified party by promptly delivering notice thereof to the indemnifying party. If the indemnifying party does not respond to such notice within 60 days after its receipt, it shall have no further right to contest the validity of such Claim.

11.4 Time Limitations on Claims for Indemnification. The right of Transferee, Transferor or Parent to indemnification for any breach of any representation or warranty shall apply only to those claims for indemnification which are given pursuant to this Agreement on or before the date which is five years following the Closing Date.

Any waiver by either party of any violation of, breach of, or default under, any provision of this Agreement or any of the other Transaction Documents, by the other party shall not be construed as, or constitute, a continuing waiver of such provision, or waiver of any other violation of, breach of or default under any other provision of this Agreement or any of the other Transaction Documents.

No remedy shall be deemed to be a limitation on the amount or measure of damages resulting from any breach of this Agreement. The election of any one or more remedies shall not constitute a waiver of the right to pursue other available remedies.

12.13 Gender and Number. The masculine, feminine or neuter gender and the singular or plural number shall each be deemed to include the others whenever the context so indicates.

For purposes of this Agreement, the term "Laws" shall mean any statutes, laws, rules, regulations, orders, ordinances, codes and decrees of Governmental Authorities.

(f) Taxes. All liabilities and obligations of Transferor or any of its Affiliates other than Transferee (or any of their respective predecessors-in-interest) for any Taxes (as hereinafter defined) due or becoming due by reason of (i) the conduct of the Plant, or (ii) the ownership, possession, use, operation, purchase, acquisition, sale or disposition, of any of the Acquired Assets, including, without limitation, (i) Taxes attributable to the sale of electricity and employee withholding tax obligations; (ii) Taxes imposed on, or accruing as a result of the transfer of the Acquired Assets; and (iii) Taxes attributable to, or resulting from, recapture of depreciation, other tax benefit items, or otherwise arising from the transactions contemplated by this Agreement. ARTICLE V. REPRESENTATIONS AND WARRANTIES

5.1. Representations and Warranties of Transferor. Subject only to those exceptions and qualifications listed and described (including an identification by section reference to the representations and warranties to which such exceptions and qualifications relate) on the disclosure schedules attached to this Agreement, Transferor hereby represents and warrants to Transferee as follows.

(a) Organization and Standing; Power and Authority. Transferor is a corporation duly organized, validly existing and in good standing under the laws of the State of Illinois, and has full corporate power and authority to operate the Plant, to own or lease the Acquired Assets, and to enter into and perform this Agreement and the transactions and other agreements and instruments contemplated by this Agreement. This Agreement and all other agreements and instruments executed and delivered or to be executed and delivered by Transferor in connection herewith (collectively, the "Transaction Documents") have been, or upon execution thereof will be, duly executed and delivered by Transferor, as the case may be. This Agreement and the transactions and other agreements and instruments contemplated hereby have been duly approved by the board of directors of Transferor and constitute the valid and binding obligations of Transferor, enforceable in accordance with their respective terms.

(b) Conflicts; Defaults. Neither the execution and delivery of this Agreement and the other agreements and instruments executed or to be executed in connection herewith by Transferor, nor the performance by Transferor of the transactions contemplated hereby or thereby, will (i) violate, conflict with, or constitute a default under, any of the terms of Transferor's Articles of Incorporation or By-Laws, or any provisions of, or result in the acceleration of any obligation under, any contract, sales commitment, license, purchase order, security agreement, mortgage, note, deed, lien, lease, agreement or instrument, including, without limitation, the Contracts, or any order, judgment or decree, relating to the Plant or the Acquired Assets, or by which Transferor or the Acquired Assets are bound, (ii) result in the creation or imposition of any Liens or Claims in favor of any third Person or entity upon any of

the Acquired Assets, (iii) violate any law, statute, judgment, decree, order, rule or regulation of any Governmental Authority, (iv) constitute an event which, after notice or lapse of time or both, would result in such violation, conflict, default, acceleration, or creation or imposition of Liens or Claims, (v) constitute an event which, after notice or lapse of time or otherwise would create, or cause to be exercisable or enforceable, any option, agreement or right of any kind to purchase any of the Acquired Assets. Except as set forth on Schedule 5.1(d), no consent, novation, approval, filing or authorization will be required to be obtained or satisfied for the continued performance by Transferee following the Closing of any contract, agreement, commitment or undertaking included in the Acquired Assets. Transferor is not in violation of or in default under its Articles of Incorporation or Bylaws, or any provision of any contract, sales commitment, license, purchase order, security agreement, mortgage, note, deed, lien, lease, agreement or instrument, including without limitation, the Contracts, or any order, judgment or decree, relating to the Plant or the Acquired Assets, or by which Transferor or the Acquired Assets is bound, or in the payment of any of Transferor's monetary obligations or debts relating to the Plant, and there exists no condition or event which, after notice or lapse of time or both, would result in any such violation or default.

(c) Acquired Assets; Title to the Acquired Assets. Except for the Retained Assets, the Acquired Assets are the only assets, properties, rights and interests used by Transferor in connection with the Plant. The Acquired Assets to be conveyed to Transferee under this Agreement constitute all of the assets, properties, rights and interests necessary to operate the Plant in substantially the same manner as operated by Transferor prior to the date of this Agreement. Transferor has good, marketable and exclusive title to, and the valid and enforceable power and unqualified right to use and transfer to Transferee, each of the Acquired Assets, and the Acquired Assets are free and clear of all Liens and Claims of any kind or nature whatsoever, except for Permitted Liens. The consummation of the transactions contemplated by this Agreement (including, without limitation, the transfer or assignment of the Acquired Assets, and all rights and interests therein, to Transferee as contemplated herein) will not adversely affect such title or rights, or any terms of the applicable agreements (whether written or oral) evidencing, creating or granting such title or rights. None of the Acquired Assets are subject to, or held under, any lease, mortgage, security agreement, conditional sales contract or other title retention agreement, or are other than in the sole possession and under the sole control of Transferor except as described on Schedule 5.1(c) (Title to the Acquired Assets). Transferor has the right under valid and existing leases to occupy, use or control all properties and assets leased by it and included in the Acquired Assets. The delivery to Transferee of the instruments of transfer of ownership contemplated by this Agreement will vest good, marketable and exclusive title (as to all Acquired Assets owned by Transferor) or full right to possess and use (as to all Acquired Assets not owned by Transferor) to the Acquired Assets in Transferee, free and clear of all Liens and Claims of any kind or nature whatsoever, except for (i) current real estate Taxes or governmental charges or levies which are a Lien but not yet due and payable, (ii) Liens disclosed as securing specified liabilities on the Closing Date Balance Sheet with respect to which no default exists, (iii) Liens disclosed on Schedule 5.1(c) (Title to the Acquired Assets), under the heading "Liens," and (iv) minor imperfections of title, if any, none of which are substantial in amount, or materially detract from the value or impair the use of the property subject thereto or the operation of the Plant and which have arisen only in the ordinary and normal course of business consistent with past practice (the Liens described in clauses (i), (ii), (iii) and (iv) being collectively referred to herein as "Permitted Liens").

(d) Contracts. Schedule 5.1(d) (Contracts) contains a complete list or description of each material license, contract, agreement, commitment and undertaking relating to the Plant or to which Transferor is a party (collectively referred to as the "Contracts").

(e) Environmental and Safety Compliance.

(i) General. Transferee agrees that, except as expressly contained in this Agreement, no representations by or on behalf of Transferor have been made as to the condition of the Real Property and Fixed Assets, any restrictions related to the development of the Real Property and Fixed Assets, the applicability of any governmental requirements pertaining to the Real Property and Fixed Assets, or the suitability of the Real Property and Fixed Assets for any purpose whatsoever. Transferor agrees to assign, transfer or otherwise convey all environmental permits and licenses to Transferee and to take all necessary steps with the appropriate governmental authorities to effectuate such transfers. A list of all applicable permits are set forth on Schedule 5.1(e) (Environmental Matters).

(C) For purposes of this Agreement, the term "Environmental Damages" means any and all Liabilities (as defined in Section 11.1) which are incurred at any time as a result of the existence prior to Closing of Hazardous Material upon, about, beneath the Property or migrating or threatening to migrate to or from the Property, or the existence of a violation of Environmental Requirements pertaining to the Property, regardless of whether the existence of such Hazardous Material or the violation of Environmental Requirements arose prior to the present ownership or operation of the Property, and including without limitation:

(1) Damages for personal injury, or injury to property or natural resources occurring upon or off of the Property, foreseeable or unforeseeable, including, without limitation, lost profits, consequential damages, the cost of demolition and rebuilding of any improvements on real property, interest and penalties;

(4) Diminution of the value of the Property, and damages for the loss of business and restriction on the use of or adverse impact on the marketing of rentable or usable space or of any amenity of the Property.

(f) Approvals. Schedule 1.3(a) (Required Consents) sets forth a list of all Consents, which must be obtained or satisfied by Transferor for the consummation of the transactions contemplated by this Agreement, including, without limitation, all Consents, which must be obtained pursuant to Section 1.3(a). All Consents prescribed by any Law, or any contract, agreement, commitment or undertaking, and which must be obtained or satisfied by Transferor for the consummation of the transactions contemplated by this Agreement, or for the continued performance by them of their rights and obligations thereunder, have been, or shall by the Closing have been, made, obtained and satisfied.

(g) Real Property. Schedule 1.1(c) entitled "Real Estate" attached hereto contains a true, correct and complete list of all instruments and agreements creating any interest or right in real property relating to the Plant, or owned, leased or occupied by Transferor (including all easements, buildings, structures, fixtures and improvements). True, correct and complete copies of the instruments and agreements identified in such Schedule 1.1(c) have been delivered to Transferee. Each such instrument and agreement is in full force and effect and is a legal, binding, and enforceable obligation of the parties thereto and no event has occurred which constitutes or, with the giving of notice or passage of time, or both, would constitute a default or breach thereunder. Transferor has the right to quiet enjoyment of all real property subject to leaseholds under any such instruments, for the full term of each such lease and any renewal option related thereto. There has been no disturbance of or challenge to the Transferor's quiet possession under each such lease, and no leasehold or other interest of Transferor in such real property is subject to or subordinate to any Liens except Permitted Liens. Neither the whole nor any portion of any real property leased or occupied by Transferor has been condemned, requisitioned or otherwise taken by any Governmental Authority, and, to the best of Transferor's knowledge, no such condemnation, requisition or taking is threatened or contemplated. All buildings, structures, fixtures and appurtenances comprising part of the real properties of Transferor are in good condition and have been well maintained, normal wear and tear excepted, and there are no material physical or mechanical defects of the Fee Property which would interfere with the ongoing operations of the Plant as currently conducted. All water, sewer, gas and drainage facilities required by the present use and operation of the Fee Property by Transferor are installed to the property lines of the Fee Property, are all connected and operating pursuant to valid permits, and are adequate to service the Fee Property in accordance with the present use and operation of the Fee Property by Transferor. The Fee Property complies with all applicable laws and insurance requirements and all zoning, building and other requirements relating to the use or occupancy of all or any portion of the Fee Property. There are no pending, or to the best of Transferor's knowledge, contemplated zoning changes, variances or special zoning agreements affecting or which might affect the Fee Property.

(h) Leases. Each of the Leases described on Schedule 1.1(c) entitled "Real Estate" has not been modified, altered, terminated or revoked, and is in full force and effect. Transferor, as the present tenant under each Lease, is not in default under, or in breach of, any of the terms of each Lease, and there are no existing facts or conditions which could give rise to any such breach or default, or any claim against Transferor, under each Lease. Each of the present lessors under each respective Lease is not in default thereunder, or in breach thereof, and there are no existing facts or conditions which could give rise to any such breach or default, or any claim against each lessor under each respective Lease.

5.2. Representations and Warranties of Transferee. Transferee represents and warrants to Transferor that:

(d) Transferor's Conditions. By Transferor, if any condition precedent to Transferor's obligation to effect the Closing as set forth in Section 6.2 is not satisfied, or shall have become incapable of fulfillment, and such condition is not waived, if waivable, by Transferor on or prior to the Termination Date.

ARTICLE XI. INDEMNIFICATION

11.1. Indemnification by Transferee. From and after the Closing, Transferee shall indemnify, defend and hold Transferor, its Affiliates, and their respective directors, officers, representatives, employees and agents harmless from and against any and all claims, actions, suits, demands, assessments, judgments, losses, liabilities, damages, costs and expenses (including, without limitation, interest, penalties, attorneys' fees to the extent permitted by law, and accounting fees and investigation costs) (collectively, "Liabilities") that may be incurred by Transferor resulting or arising from or related to, or incurred in connection with: (a) the failure of Transferee to assume, pay, perform and discharge the Assumed Liabilities, and (b) any breach of any representation, warranty, covenant, obligation or agreement of Transferee contained herein or in any other Transaction Document.

11.2. Indemnification by Transferor. From and after the Closing, Transferor shall indemnify, defend and hold Transferee, its Affiliates, and their respective directors, officers, representatives, employees and agents harmless from and against any and all Liabilities that may be incurred by Transferee resulting or arising from, related to or incurred in connection with: (i) the failure of Transferor to assume, pay, perform and discharge the Retained Liabilities and (ii) any breach of any representation, warranty, covenant, obligation or agreement of Transferor contained herein or in any other Transaction Document.

11.3. Notice of Claim; Right to Participate in and Defend Third Party Claim.

(a) If any indemnified party receives notice of the assertion of any Claim, the commencement of any suit, action or proceeding, or the imposition of any penalty or assessment by a third party in respect of which indemnity may be sought hereunder (a "Third Party Claim"), and the indemnified party intends to seek indemnity hereunder, then the indemnified party shall promptly provide the indemnifying party with prompt written notice of the Third Party Claim, but in any event not later than 30 calendar days after receipt of such notice of Third Party Claim. The failure by an indemnified party to notify an indemnifying party of a Third Party Claim shall not relieve the indemnifying party of any indemnification responsibility under this Article XI,

unless such failure materially prejudices the ability of the indemnifying party to defend such Third Party Claim.

(b) The indemnifying party shall have the right to control the defense, compromise or settlement of the Third Party Claim with its own counsel (reasonably satisfactory to the indemnified party) if the indemnifying party delivers written notice to the indemnified party within seven days following the indemnifying party's receipt of notice of the Third Party Claim from the indemnified party acknowledging its obligations to indemnify the indemnified party with respect to such Third Party Claim in accordance with this Article XI, and establishes security in form and substance reasonably satisfactory to the indemnified party to secure the indemnifying party's obligations under this Article XI with respect to such Third Party Claim; provided, however, that the indemnifying party shall not enter into any settlement of any Third Party Claim which would impose or create any obligation or any financial or other liability on the part of the indemnified party if such liability or obligation (i) requires more than the payment of a liquidated sum, or (ii) is not covered by the indemnification provided to the indemnified party hereunder. In its defense, compromise or settlement of any Third Party Claim, the indemnifying party shall timely provide the indemnified party with such information with respect to such defense, compromise or settlement as the indemnified party shall request, and shall not assume any position or take any action that would impose an obligation of any kind on, or restrict the actions of, the indemnified party. The indemnified party shall be entitled (at the indemnified party's expense) to participate in the defense by the indemnifying party of any Third Party Claim with its own counsel.

(c) In the event that the indemnifying party does not undertake the defense, compromise or settlement of a Third Party Claim in accordance with subsection (b) of this Section 11.3, the indemnified party shall have the right to control the defense or settlement of such Third Party Claim with counsel of its choosing; provided, however, that the indemnified party shall not settle or compromise any Third Party Claim without the indemnifying party's prior written consent, unless (i) the terms of such settlement or compromise release the indemnified party or the indemnifying party from any and all liability with respect to the Third Party Claim, or (ii) the indemnifying party shall not have acknowledged its obligations to indemnify the indemnified party with respect to such Third Party Claim in accordance with this Article XI and established security in form and substance reasonably satisfactory to the indemnified party to secure the indemnifying party's obligations under this Article XI with respect to such Third Party Claim. The indemnifying party shall be entitled (at the indemnifying party's expense) to participate in the defense of any Third Party Claim with its own counsel.

(d) Any indemnifiable Claim hereunder that is not a Third Party Claim shall be asserted by the indemnified party by promptly delivering notice thereof to the indemnifying party. If the indemnifying party does not respond to such notice within 60 days after its receipt, it shall have no further right to contest the validity of such Claim.

11.4. Time Limitations on Claims for Indemnification. The right of Transferee to indemnification for any breach of any representation or warranty shall apply only to those claims for indemnification which are given pursuant to this Agreement on or before the date which is one year following the Closing Date.

Any party by written notice to the other given in accordance with this Section 12.4 may change the address or the contact to whom notices or copies thereof shall be directed.

12.5. Counterparts. This Agreement may be executed in any number of counterparts, each of which shall be deemed to be an original, and all of which together will constitute one and the same instrument.

12.6. Assignment. This Agreement shall be binding upon and inure to the benefit of the successors and assigns of each party hereto, but no rights, obligations or liabilities hereunder shall be assignable by either party without the prior written consent of the other party.

12.7. Waivers. Except as otherwise provided herein, Transferee or Transferor (acting on behalf of itself and its appropriate Affiliates), may waive in writing compliance by any of the other party hereto (to the extent such compliance is for the benefit of the party giving such waiver) with any of the terms, covenants or conditions contained in this Agreement or in any of the other Transaction Documents (except such as may be imposed by law). Any waiver by either party of any violation of, breach of, or default under, any provision of this Agreement or any of the other Transaction Documents, by the other party shall not be construed as, or constitute, a continuing waiver of such provision, or waiver of any other violation of, breach of or default under any other provision of this Agreement or any of the other Transaction Documents.

12.8. Third Parties. Nothing expressed or implied in this Agreement is intended, or shall be construed, to confer upon or give any Person or entity other than Transferee and Transferor any rights or remedies under or by reason of this Agreement.

No remedy shall be deemed to be a limitation on the amount or measure of damages resulting from any breach of this Agreement. The election of any one or more remedies shall not constitute a waiver of the right to pursue other available remedies.

12.13. Gender and Number. The masculine, feminine or neuter gender and the singular or plural number shall each be deemed to include the others whenever the context so indicates.

All of the assets, properties, rights and interests owned, used, occupied or held by or for the benefit of the Transferor in the operation of the Plant, which are to be sold, transferred, conveyed, assigned and delivered by Transferor to Transferee at the Closing as contemplated herein, including without limitation, those described in clauses (a) through (k) above, but excluding the Retained Assets, are referred to herein collectively as the "Acquired Assets."

1.2. Retained Assets. Anything in Section 1.1 to the contrary notwithstanding, the following assets (collectively, the "Retained Assets") shall be retained by Transferor, and Transferee shall in no way be construed to have acquired (or to be obligated to acquire) any interest whatsoever in any of the following.

(a) Designated Assets. Any of the assets, properties, rights and/or interests, owned, used, occupied or held by or for the benefit of Transferor in the operation of the Plant that are identified on Schedule 1.2(a) (Retained Property) (collectively, the "Designated Assets").

(b) Nonassignable Items. Anything in this Agreement to the contrary notwithstanding, this Agreement shall not constitute an Agreement to sell, convey, assign, sublease or transfer any Acquired Assets, including Contracts, Permits and Lease Agreements, if an attempted conveyance, assignment, sublease or transfer thereof, without the Consent of another party thereto or a Governmental Authority would constitute a breach of, or in any way affect the rights of Transferor or Transferee with respect to such Acquired Asset ("Nonassignable Items"). Transferor shall use its best efforts and Transferee shall cooperate in all reasonable respects with Transferor to obtain and satisfy all Consents and to resolve all impracticalities of conveyance, assignment, sublease or transfer necessary to convey to Transferee all Nonassignable Items.

On the terms and subject to the conditions set forth in this Agreement, Transferee shall assume, at the Closing and effective as of the Closing Date, and shall thereafter pay, perform and discharge as and when due the following, and only the following, liabilities and obligations of Transferor (collectively, the "Assumed Liabilities").

All liabilities and obligations of Transferor arising under the terms of the Contracts other than contracts that constitute Non-Assigned Contracts (the "Assumed Contracts") but only to the extent such liabilities and obligations arise or accrue after the Closing Date in the ordinary and normal course and consistent with the representations, warranties, covenants, obligations and agreements set forth in this Agreement; provided, however, that Transferee shall not assume or be responsible for any such liabilities or obligations which arise from breaches thereof or defaults thereunder by Transferor, all of which liabilities and obligations shall constitute Retained Liabilities (as defined in Section 2.2).

(d) Employee Matters. Transferor represents that there are no employees of Transferor or any Ameren affiliate employed at the Plant.

conditions occurring or existing in connection with, or arising out of, or otherwise relating to, the Plant as operated by Transferor or any of its Affiliates (or any of their respective predecessors-in-interest) except Transferee, or the ownership, possession, use, operation, sale or other disposition prior to the Closing Date of any of the Acquired Assets (or any other assets, properties, rights or interests associated, at any time prior to the Closing Date, with the Plant).

(e) Product, Environmental and Safety Liability. All liabilities and obligations relating to the Plant or the Acquired Assets (or any other assets, properties, rights or interests associated, at any time prior to the Closing Date, with the Plant or the Acquired Assets), based in whole or in part on events or conditions occurring or existing prior to the Closing Date and connected with, arising out of or relating to (i) any dispute for services rendered or goods manufactured, including, without limitation, product warranty Claims and product liability Claims, and Claims for refunds, returns, personal injury and property damage, (ii) Hazardous Materials, Environmental Requirements or Environmental Damages (all as defined in Section 5.1(e)), (iii) Claims relating to employee health and safety, including Claims for injury, sickness, disease or death of any Person, or (iv) compliance with any Laws relating to any of the foregoing. For purposes of this Agreement, the term "Laws" shall mean any statutes, laws, rules, regulations, orders, ordinances, codes and decrees of Governmental Authorities.

(f) Taxes. All liabilities and obligations of Transferor or any of its Affiliates other than Transferee (or any of their respective predecessors-in-interest) for any Taxes (as hereinafter defined) due or becoming due by reason of (i) the conduct of the Plant, or (ii) the ownership, possession, use, operation, purchase, acquisition, sale or disposition, of any of the Acquired Assets, including, without limitation, (i) Taxes attributable to the sale of electricity and employee withholding tax obligations; (ii) Taxes imposed on, or accruing as a result of the transfer of the Acquired Assets; and (iii) Taxes attributable to, or resulting from, recapture of depreciation, other tax benefit items, or otherwise arising from the transactions contemplated by this Agreement. For purposes of this Agreement, the term "Tax" or "Taxes" means all net income, gross income, gross receipts, sales, use, ad valorem, personal property, real property, transfer, franchise, profits, license, withholding, payroll, employment, excise, severance, stamp, occupation, premium, property or windfall profits, taxes, customs duties or other taxes, fees, assessments or charges of any kind whatsoever, including without limitation, any assessment which Transferor may have had the option to pay in installment payments over a period of time which extends beyond the Closing Date, together with any interest and any penalties, additions to tax or additional amounts imposed by any taxing authority (domestic or foreign). (b) Transferee and Transferor shall use their reasonable best efforts to calculate all prorations. The credit that Transferee is entitled to receive from Transferor for the unpaid portion (as of the Closing Date) of the 2004 real estate taxes shall be referred to herein as the "2004 Real Estate Tax Credit", and the credit that Transferee is entitled to receive from Transferor for the 2005 real estate taxes owed for the period during which Transferor owned the Fee Property during the year 2005 shall be referred to herein as the "2005 Real Estate Tax Credit".

ARTICLE IV. CLOSING

4.2. Documents to be Delivered by Transferor. At the Closing, Transferor shall deliver to Transferee.

(a) Copies of the resolutions of the Boards of Directors of Transferor authorizing and approving this Agreement and all other transactions and agreements contemplated hereby certified by the respective corporate Secretaries or Assistant Secretaries of Transferor and Parent to be true, correct, complete and in full force and effect and unmodified as of the Closing Date.

(g) FIRPTA Affidavit (a Non-Foreign Person Affidavit as required by Section 1445 of the Internal Revenue Code of 1986, as amended).

(h) Such other deeds, endorsements, assignments, affidavits, and other good and sufficient instruments of assignment, conveyance and transfer in form and substance satisfactory to Transferee, as are required to effectively vest in Transferee good and marketable title in and to all of the Acquired Assets, free and clear of any and all Liens other than Permitted Liens.

4.3. Documents and Payment to be Delivered by Transferee. At the Closing, Transferee shall deliver to Transferor.

(a) A copy of the resolutions of the Board of Directors of Transferee authorizing and approving this Agreement and all other transactions and agreements contemplated hereby certified by the Secretary or an Assistant Secretary of Transferee to be true, correct, complete and in full force and effect and unmodified as of the Closing Date.

(c) Promptly upon calculation of the real estate credits referred to in Section 3.2(b), Transferor shall pay to Transferee the 2004 Real Estate Tax Credit and the 2005 Real Estate Tax Credit. If the Closing Date Balance Sheet shows that the estimated Cash Payment paid on the Closing Date was more or less than the actual Cash Payment calculated based on the Closing Date Balance Sheet, the appropriate payment will be made promptly from Transferor to Transferee or vice versa. Payments due to or from the parties under this Section 4.4(c) may be offset against each other.

ARTICLE V. REPRESENTATIONS AND WARRANTIES

5.1. Representations and Warranties of Transferor. Subject only to those exceptions and qualifications listed and described (including an identification by section reference to the representations and warranties to which such exceptions and qualifications relate) on the disclosure schedules attached to this Agreement, Transferor hereby represents and warrants to Transferee as follows.

(a) Organization and Standing; Power and Authority. Transferor is a corporation duly organized, validly existing and in good standing under the laws of the State of Illinois, and has full corporate power and authority to operate the Plant, to own or lease the Acquired Assets, and to enter into and perform this Agreement and the transactions and other agreements and instruments contemplated by this Agreement. This Agreement and all other agreements and instruments executed and delivered or to be executed and delivered by Transferor in connection herewith (collectively, the "Transaction Documents") have been, or upon execution thereof will be, duly executed and delivered by Transferor, as the case may be. This Agreement and the transactions and other agreements and instruments contemplated hereby have been duly approved by the board of directors of Transferor and constitute the valid and binding obligations of Transferor, enforceable in accordance with their respective terms.

(b) Conflicts; Defaults. Neither the execution and delivery of this Agreement and the other agreements and instruments executed or to be executed in connection herewith by Transferor, nor the performance by Transferor of the transactions contemplated hereby or thereby, will (i) violate, conflict with, or constitute a default under, any of the terms of Transferor's Articles of Incorporation or By-Laws, or any provisions of, or result in the acceleration of any obligation under, any contract, sales commitment, license, purchase order, security agreement, mortgage, note, deed, lien, lease, agreement or instrument, including, without limitation, the Contracts, or any order, judgment or decree, relating to the Plant or the Acquired Assets, or by which Transferor or the Acquired Assets are bound, (ii) result in the creation or imposition of any Liens or Claims in favor of any third Person or entity upon any of

the Acquired Assets, (iii) violate any law, statute, judgment, decree, order, rule or regulation of any Governmental Authority, (iv) constitute an event which, after notice or lapse of time or both, would result in such violation, conflict, default, acceleration, or creation or imposition of Liens or Claims, (v) constitute an event which, after notice or lapse of time or otherwise would create, or cause to be exercisable or enforceable, any option, agreement or right of any kind to purchase any of the Acquired Assets. Except as set forth on Schedule 5.1(d), no consent, novation, approval, filing or authorization will be required to be obtained or satisfied for the continued performance by Transferee following the Closing of any contract, agreement, commitment or undertaking included in the Acquired Assets. Transferor is not in violation of or in default under its Articles of Incorporation or Bylaws, or any provision of any contract, sales commitment, license, purchase order, security agreement, mortgage, note, deed, lien, lease, agreement or instrument, including without limitation, the Contracts, or any order, judgment or decree, relating to the Plant or the Acquired Assets, or by which Transferor or the Acquired Assets is bound, or in the payment of any of Transferor's monetary obligations or debts relating to the Plant, and there exists no condition or event which, after notice or lapse of time or both, would result in any such violation or default.

(c) Acquired Assets; Title to the Acquired Assets. Except for the Retained Assets, the Acquired Assets are the only assets, properties, rights and interests used by Transferor in connection with the Plant. The Acquired Assets to be conveyed to Transferee under this Agreement constitute all of the assets, properties, rights and interests necessary to operate the Plant in substantially the same manner as operated by Transferor prior to the date of this Agreement. Transferor has good, marketable and exclusive title to, and the valid and enforceable power and unqualified right to use and transfer to Transferee, each of the Acquired Assets, and the Acquired Assets are free and clear of all Liens and Claims of any kind or nature whatsoever, except for Permitted Liens. The consummation of the transactions contemplated by this Agreement (including, without limitation, the transfer or assignment of the Acquired Assets, and all rights and interests therein, to Transferee as contemplated herein) will not adversely affect such title or rights, or any terms of the applicable agreements (whether written or oral) evidencing, creating or granting such title or rights. None of the Acquired Assets are subject to, or held under, any lease, mortgage, security agreement, conditional sales contract or other title retention agreement, or are other than in the sole possession and under the sole control of Transferor except as described on Schedule 5.1(c) (Title to the Acquired Assets). Transferor has the right under valid and existing leases to occupy, use or control all properties and assets leased by it and included in the Acquired Assets. The delivery to Transferee of the instruments of transfer of ownership contemplated by this Agreement will vest good, marketable and exclusive title (as to all Acquired Assets owned by Transferor) or full right to possess and use (as to all Acquired Assets not owned by Transferor) to the Acquired Assets in Transferee, free and clear of all Liens and Claims of any kind or nature whatsoever, except for (i) current real estate Taxes or governmental charges or levies which are a Lien but not yet due and payable, (ii) Liens disclosed as securing specified liabilities on the Closing Date Balance Sheet with respect to which no default exists, (iii) Liens disclosed on Schedule 5.1(c) (Title to the Acquired Assets), under the heading "Liens," and (iv) minor imperfections of title, if any, none of which are substantial in amount, or materially detract from the value or impair the use of the property subject thereto or the operation of the Plant and which have arisen only in the ordinary and normal course of business consistent with past practice (the Liens described in clauses (i), (ii), (iii) and (iv) being collectively referred to herein as "Permitted Liens").

(d) Contracts. Schedule 5.1(d) (Contracts) contains a complete list or description of each material license, contract, agreement, commitment and undertaking relating to the Plant or to which Transferor is a party (collectively referred to as the "Contracts").

(e) Environmental and Safety Compliance.

(i) General. Transferee agrees that, except as expressly contained in this Agreement, no representations by or on behalf of Transferor have been made as to the condition of the Real Property and Fixed Assets, any restrictions related to the development of the Real Property and Fixed Assets, the applicability of any governmental requirements pertaining to the Real Property and Fixed Assets, or the suitability of the Real Property and Fixed Assets for any purpose whatsoever. Transferor agrees to assign, transfer or otherwise convey all environmental permits and licenses to Transferee and to take all necessary steps with the appropriate governmental authorities to effectuate such transfers. A list of all applicable permits are set forth on Schedule 5.1(e) (Environmental Matters).

(ii) Definitions.

(A) For purposes of this Agreement, the term "Hazardous Material" means any substance:

(1) the presence of which requires investigation or remediation under any federal, state or local statute, regulation, ordinance, order, action, policy or common law; or

(2) which is or has been identified as a potential "hazardous waste," "hazardous substance," pollutant or contaminant under any federal, applicable state or local statute, regulation, rule or ordinance or amendments thereto including, without limitation, the Comprehensive Environmental Response, Compensation and Liability Act (42 U.S.C. §§ 9601 et seq.) and/or the Resource Conservation and Recovery Act (42 U.S.C. §§ 6901 et seq.); or

(3) which is toxic, explosive, corrosive, flammable, infectious, radioactive, carcinogenic, mutagenic, reactive, or otherwise hazardous and has been identified as regulated by any Governmental Authority.

(B) For purposes of this Agreement, the term "Environmental Requirements" means all applicable Laws, Permits and similar items of all Governmental Authorities and all applicable judicial, administrative, and regulatory judgments, decrees, orders, writs or injunctions relating to the protection of human health or the environment, including, without limitation:

(1) All requirements pertaining to reporting, licensing, permitting, investigation, and remediation of emissions, discharges, releases, or threatened releases of Hazardous Materials;

- (2) All requirements pertaining to the protection of the health and safety of employees or the public; and
- (3) All other limitations, restrictions, conditions, standards, prohibitions, obligations, schedules and timetables contained therein or in any notice or demand letter issued, entered, promulgated or approved thereunder.

(C) For purposes of this Agreement, the term "Environmental Damages" means any and all Liabilities (as defined in Section 11.1) which are incurred at any time as a result of the existence prior to Closing of Hazardous Material upon, about, beneath the Property or migrating or threatening to migrate to or from the Property, or the existence of a violation of Environmental Requirements pertaining to the Property, regardless of whether the existence of such Hazardous Material or the violation of Environmental Requirements arose prior to the present ownership or operation of the Property, and including without limitation:

(1) Damages for personal injury, or injury to property or natural resources occurring upon or off of the Property, foreseeable or unforeseeable, including, without limitation, lost profits, consequential damages, the cost of demolition and rebuilding of any improvements on real property, interest and penalties;

(2) Fees incurred for the services of attorneys, consultants, contractors, experts, laboratories and all other costs incurred in connection with the investigation or remediation of such Hazardous Materials or violation of Environmental Requirements including, but not limited to, the preparation of any feasibility studies or reports or the performance of any cleanup, remediation, removal, response, abatement, containment, closure, restoration or monitoring work required by any Governmental Authority, or reasonably necessary to make full economic use of the Property or any other property in a manner consistent with its intended use or otherwise expended in connection with such conditions, and including without limitation any attorneys' fees, costs and expenses incurred in enforcing this Agreement or collecting any sums due hereunder;

(3) Liability to any third Person or Governmental Authority to indemnify such Person or Governmental Authority for costs expended in connection with the items referenced in subparagraph (iii) of Section 11.2(b); and

(4) Diminution of the value of the Property, and damages for the loss of business and restriction on the use of or adverse impact on the marketing of rentable or usable space or of any amenity of the Property.

(f) Approvals. Schedule 1.3(a) (Required Consents) sets forth a list of all Consents, which must be obtained or satisfied by Transferor for the consummation of the transactions contemplated by this Agreement, including, without limitation, all Consents, which must be obtained pursuant to Section 1.3(a). All Consents prescribed by any Law, or any contract, agreement, commitment or undertaking, and which must be obtained or satisfied by Transferor for the consummation of the transactions contemplated by this Agreement, or for the continued performance by them of their rights and obligations thereunder, have been, or shall by the Closing have been, made, obtained and satisfied.

(g) Real Property. Schedule 1.1(c) entitled "Real Estate" attached hereto contains a true, correct and complete list of all instruments and agreements creating any interest or right in real property relating to the Plant, or owned, leased or occupied by Transferor (including all easements, buildings, structures, fixtures and improvements). True, correct and complete copies of the instruments and agreements identified in such Schedule 1.1(c) have been delivered to Transferee. Each such instrument and agreement is in full force and effect and is a legal, binding, and enforceable obligation of the parties thereto and no event has occurred which constitutes or, with the giving of notice or passage of time, or both, would constitute a default or breach thereunder. Transferor has the right to quiet enjoyment of all real property subject to leaseholds under any such instruments, for the full term of each such lease and any renewal option related thereto. There has been no disturbance of or challenge to the Transferor's quiet possession under each such lease, and no leasehold or other interest of Transferor in such real property is subject to or subordinate to any Liens except Permitted Liens. Neither the whole nor any portion of any real property leased or occupied by Transferor has been condemned, requisitioned or otherwise taken by any Governmental Authority, and, to the best of Transferor's knowledge, no such condemnation, requisition or taking is threatened or contemplated. All buildings, structures, fixtures and appurtenances comprising part of the real properties of Transferor are in good condition and have been well maintained, normal wear and tear excepted, and there are no material physical or mechanical defects of the Fee Property which would interfere with the ongoing operations of the Plant as currently conducted. All water, sewer, gas and drainage facilities required by the present use and operation of the Fee Property by Transferor are installed to the property lines of the Fee Property, are all connected and operating pursuant to valid permits, and are adequate to service the Fee Property in accordance with the present use and operation of the Fee Property by Transferor. The Fee Property complies with all applicable laws and insurance requirements and all zoning, building and other requirements relating to the use or occupancy of all or any portion of the Fee Property. There are no pending, or to the best of Transferor's knowledge, contemplated zoning changes, variances or special zoning agreements affecting or which might affect the Fee Property.

(h) Leases. Each of the Leases described on Schedule 1.1(c) entitled "Real Estate" has not been modified, altered, terminated or revoked, and is in full force and effect. Transferor, as the present tenant under each Lease, is not in default under, or in breach of, any of the terms of each Lease, and there are no existing facts or conditions which could give rise to any such breach or default, or any claim against Transferor, under each Lease. Each of the present lessors under each respective Lease is not in default thereunder, or in breach thereof, and there are no existing facts or conditions which could give rise to any such breach or default, or any claim against each lessor under each respective Lease.

5.2. Representations and Warranties of Transferee. Transferee represents and warrants to Transferor that:

(a) Organization and Standing; Corporate Power and Authority. Transferee is a corporation duly organized, validly existing and in good standing under the laws of the State of Missouri, and has full corporate power and authority to make and perform this Agreement, and to perform the transactions contemplated by this Agreement. This Agreement and all other agreements and instruments executed and delivered by Transferee in connection herewith have been duly executed and delivered by Transferee. This Agreement and the transactions and other agreements and instruments contemplated by this Agreement have been duly approved by the board of directors of Transferee (approval of Transferee's shareholders not being required), and constitute the valid and binding obligations of Transferee, enforceable in accordance with their respective terms.

(b) Conflicts; Defaults. Neither the execution and delivery of this Agreement by Transferee, nor the performance of its obligations hereunder, will conflict with or constitute a default under any of the terms of Transferee's Articles of Incorporation, as amended, or Bylaws.

ARTICLE VI. CONDITIONS TO CLOSING

6.1. Conditions to Transferee's Obligations. The obligation of Transferee to consummate the transactions provided for by this Agreement is subject to the satisfaction, on or prior to the Closing Date, of each of the following conditions, any of which may be waived by Transferee except for the conditions set forth in subsection (c) (as to Consents of Governmental Authorities) of this Section 6.1.

In its defense, compromise or settlement of any Third Party Claim, the indemnifying party shall timely provide the indemnified party with such information with respect to such defense, compromise or settlement as the indemnified party shall request, and shall not assume any position or take any action that would impose an obligation of any kind on, or restrict the actions of, the indemnified party. The indemnified party shall be entitled (at the indemnified party's expense) to participate in the defense by the indemnifying party of any Third Party Claim with its own counsel.

(c) In the event that the indemnifying party does not undertake the defense, compromise or settlement of a Third Party Claim in accordance with subsection (b) of this Section 11.3, the indemnified party shall have the right to control the defense or settlement of such Third Party Claim with counsel of its choosing; provided, however, that the indemnified party shall not settle or compromise any Third Party Claim without the indemnifying party's prior written consent, unless (i) the terms of such settlement or compromise release the indemnified party or the indemnifying party from any and all liability with respect to the Third Party Claim, or (ii) the indemnifying party shall not have acknowledged its obligations to indemnify the indemnified party with respect to such Third Party Claim in accordance with this Article XI and established security in form and substance reasonably satisfactory to the indemnified party to secure the indemnifying party's obligations under this Article XI with respect to such Third Party Claim. The indemnifying party shall be entitled (at the indemnifying party's expense) to participate in the defense of any Third Party Claim with its own counsel.

(d) Any indemnifiable Claim hereunder that is not a Third Party Claim shall be asserted by the indemnified party by promptly delivering notice thereof to the indemnifying party. If the indemnifying party does not respond to such notice within 60 days after its receipt, it shall have no further right to contest the validity of such Claim.

Any waiver by either party of any violation of, breach of, or default under, any provision of this Agreement or any of the other Transaction Documents, by the other party shall not be construed as, or constitute, a continuing waiver of such provision, or waiver of any other violation of, breach of or default under any other provision of this Agreement or any of the other Transaction Documents.

FOR IMMEDIATE RELEASE

**AMEREN ANNOUNCES TRANSFER OF AMERENUE ILLINOIS ELECTRIC AND GAS
UTILITY BUSINESSES TO AMERENCIPS,
TWO ILLINOIS GENERATING UNITS TO AMERENUE**

St. Louis, MO., May 2, 2005—Ameren Corporation (NYSE:AEE) today announced that its subsidiary—AmerenUE--has transferred certain of its Illinois electric distribution and transmission assets and natural gas distribution assets, along with related personnel to another subsidiary--- Springfield, Ill.-based AmerenCIPS. The utility asset transfer at net book value of approximately \$138 million takes effect today.

In addition, to meet current generation capacity needs, Ameren also announced the transfer of approximately 550 megawatts of combustion turbines at Pinckneyville and Kinmundy, Ill., from Ameren's non rate-regulated generating subsidiary, AmerenEnergy Generating Company, to AmerenUE. Priced at net book value of approximately \$240 million, the transfer of these peak generating assets, which also takes effect today, will complete AmerenUE's 2002 Missouri electric rate case settlement commitment to make certain generating capacity investments prior to June 30, 2006.

"This initiative will allow us to more effectively allocate our energy resources, and it will help us reduce future administrative costs," said Gary L. Rainwater, chairman, president and chief executive officer of St. Louis-based Ameren. "Consolidating the two Illinois territories establishes a clean division between Illinois and Missouri for AmerenUE and AmerenCIPS. This action reflects our commitment to reducing costs, increasing efficiency and ensuring reliable energy supply."

The transfer of AmerenUE-Illinois utility properties has been approved by the Illinois Commerce Commission (ICC), the Missouri Public Service Commission (MoPSC), the Federal Energy Regulatory Commission (FERC) and the Securities and Exchange Commission (SEC). The transfer of the generating assets received approval from the FERC and the SEC.

The move of AmerenUE-Illinois customers and properties to AmerenCIPS will have no impact on the reliability of energy delivery or on energy rates/prices for any customer class. Also, consolidating Illinois electric and natural gas transmission and distribution assets will not have an impact on the existing customers of AmerenCIPS. AmerenUE's Illinois operations provide natural gas to approximately 18,000 customers and electricity to approximately 62,000 customers. AmerenUE-Illinois operated in the four southwestern Illinois counties of Jersey, Macoupin, Madison and St. Clair.

AmerenUE's electric generating facilities and certain of its electric transmission and communications facilities in Illinois were not part of the transfer. These Illinois facilities continue to be owned by Missouri-based rate-regulated AmerenUE.

Based in St. Louis, Ameren Corporation companies provide energy services to 3.2 million customers in a 64,000-square-mile area of Missouri and Illinois. Ameren is the parent of the utility operating subsidiaries, AmerenCIPS, AmerenCILCO, based in Peoria, Ill., AmerenIP based in Decatur, Ill., and of AmerenUE based in St. Louis, MO.
