Dear Fellow DBV Shareholders,

At DBV, our mission remains steadfast in addressing the real-world needs of families with children living with life-threatening food allergies who are actively seeking treatment options. In a context of a shift in the landscape of allergy management, moving from a passive approach of avoidance to an active and targeted treatment strategy, DBV is well positioned to play a pivotal role as a key component in the allergists' toolkit for managing food allergy. To accomplish this, we remain focused on three pillars: safety, efficacy, and ease of use with a target population of peanut-allergic children aged 1 through 7 years old.

The publication of our EPITOPE study in the prestigious New England Journal of Medicine (NEJM) was a significant achievement in 2023. The publication of this groundbreaking study, focused on peanut-allergic toddlers aged 1 through 3 years-old, underscores the significance and importance of our product and its potential. Notably, the study data shows that 67% of subjects treated with Viaskin[™] Peanut 250 µg met response criteria after 12 months, compared to 33.5% in the placebo arm.

Late last year, DBV had the opportunity to give a late-breaking presentation, at the American College of Allergy, Asthma & Immunology (ACAAI), of the EPITOPE open-label extension. Highlighted in that presentation was a 24-month readout of the interim data which showed a continued benefit of long-term treatment with Viaskin Peanut. Significantly, 56% of children in the open-label extension were able to consume an equivalent of 12-14 peanuts without experiencing an allergic reaction during the year-two food challenge. Moreover, 81% achieved an increase in eliciting dose from a median of 100mg (the equivalent of approximately 1/3 of a peanut) to 3-4 peanuts. We view this data as being highly meaningful and motivating to our continued mission to bring Viaskin Peanut to market.

In 2023, we launched the VITESSE study, focusing on safety and efficacy in 4 through 7-year-olds, recognizing this is an age group where children's lifestyle involves an increase in social interactions, school, and extracurricular activities. As an update, enrollment is ongoing and we expect to screen the last subject in VITESSE in 2024.

As the typical age of diagnosis for a peanut allergy in children is between the ages of 1 through 5 years old, we believe that initiating immunotherapy with Viaskin Peanut in children 1 through 7 is optimal. Parents are highly motivated to seek treatment upon diagnosis. We strive to protect peanut allergic children in this age group from accidental peanut consumption and hope to provide greater peace of mind for the children and all their loved ones. The three pillars of Viaskin Peanut: safety, efficacy, and ease of use without restrictions on daily life, are intended to achieve that outcome. Furthermore, as our data shows, and like other immunotherapies with the potential to reeducate the immune system, the earlier treatment is initiated, the better the clinical outcome, as the immune system is particularly susceptible to being reeducated in early life.

DBV continues to expand a substantial clinical dataset, with already close to 1,700 children on active treatment across age groups when we combine data from our prior Phase 3 trials, including approximately 600 toddlers aged 1 through 3 years and 1,100 children aged 4 through 7. We are accumulating the largest ever cumulative exposure to an investigational product in pediatric food allergy. More than one million Viaskin Peanut patches have been applied to peanut-allergic children in our trials—which is the equivalent to more than one million days of therapy.

Based on the number of children on active treatment, Viaskin Peanut is clearly a well-studied therapeutic, which gives us confidence in the potential of Viaskin as a novel treatment option and the science of epicutaneous immunotherapy as a platform. The allergist community and patient advocacy groups are emphatic in their support of Viaskin Peanut as a treatment option and are eager to welcome it when it is approved and becomes commercially available. Therefore, we are dedicating all our efforts towards filing parallel Biologic License Applications (BLAs) in 1 through 3-year-olds and 4 through 7-year-olds, reflecting our mission to advancing treatment options for young children living with peanut allergy.

[Table of Contents](#)

To accomplish this, our commitment to financial discipline and focused spending remains a cornerstone of our culture and day-to-day life. We appreciate the support and confidence of our shareholders so that we may continue to prioritize the completion of our studies for Viaskin Peanut. The PIPE and ATM offerings conducted in 2022 and 2023 allowed us to fuel Viaskin Peanut development progress in 2023. More than 90% of our expenditures and efforts are directed toward operations for Viaskin Peanut's clinical development and preparing for BLA filings. With a cash balance of \$141 million at year-end 2023, we will continue to employ the requisite financial discipline necessary to give us the ability to further advance Viaskin Peanut development throughout the year.

While Viaskin Peanut is our near-term priority program, our belief in epicutaneous immunotherapy as a platform is reflected in the Viaskin Milk program which is being readied to advance to Phase 2b for both cow's milk allergy and cow's milk induced eosinophilic esophagitis (EoE). In addition, we continue to investigate the potential application of Viaskin in other immunologic indications with a high unmet need, such as celiac disease.

Our mission-driven focus centers on people living with food allergies and other immunologic conditions with significant unmet medical need. We are building a future with more options and better outcomes for these people and their families. We are grateful for the ongoing support from our shareholders in realizing this vision.

In closing, I wish to state that we believe our current stock price undervalues our company and does not reflect the potential of Viaskin Peanut. We remain steadfast in our efforts to bring Viaskin Peanut to market.

Thank you for your belief in DBV Technologies and its future.

Sincerely,

Michel de Rosen

What does a DBV ADS represent?

Each ADS represents one-half of one Ordinary Share of DBV Technologies S.A. Each Ordinary Share is entitled to one vote.

As of March 31, 2024, 96, 434, 369 Ordinary Shares were outstanding, of which 23, 081,400 were represented by 46,162,800 ADSs.

What if another matter is properly brought before the meeting?

At this time, the Board of Directors is unaware of any matters to be presented at the Annual General Meeting, other than as set forth above and the possible additional shareholder resolutions that may properly be submitted before the Annual General Meeting in accordance with applicable French law.

Holders of Ordinary Shares: To address the possibility of another matter being presented at the Annual General Meeting, holders of Ordinary Shares may use their proxy card to (i) abstain from voting on such matters, (ii) vote "AGAINST" on such matters, or (iii) grant a proxy to the chairman of the Annual General Meeting to vote on any new matters that are proposed during the meeting, or (iv) grant a voting proxy to another shareholder, their spouse, or their partner with whom they have entered into a civil union. Holders of ADSs: Ordinary Shares underlying ADSs will not be voted on any matter not disclosed in the proxy statement.

Why is the Company soliciting my proxy?

Our Board of Directors is soliciting your proxy to vote at the 2024 annual meeting of shareholders to be held at the Company's new headquarters located at 107 avenue de la République 92320 Châtillon, France, on May 16, 2024, at 10:00 AM Paris time. This proxy statement, along with the accompanying Notice of Annual Meeting of Shareholders, summarizes the purposes of the meeting and the information you need to know to vote at the annual meeting.

We have sent you this proxy statement, the Notice of Annual Meeting of Shareholders, the proxy card and a copy of our Annual Report on Form 10-K for the fiscal year ended December 31, 2023, because you owned our Ordinary Shares or ADSs on April 25, 2024. Our Depositary, Citibank, N.A., intends to commence mailing the proxy materials to holders of our ADSs on or about April 30, 2024. Our registrar, Société Générale Securities Services intends to commence distribution of the proxy materials to shareholders of Ordinary Shares on or about April 29, 2024, in accordance with French law and requirements.

Who may vote?

Ordinary shareholders of record and bearer shareholders

If you are a holder of Ordinary Shares at zero hour Paris time on May 14, 2024 you will be eligible to vote at the Annual General Meeting. In deciding all matters at the Annual General Meeting, each shareholder will be entitled to one vote for each share of our Ordinary Shares held by them on the record date.

In accordance with article R. 225-85 of the French Commercial Code, only those holders of Ordinary Shares who can prove their status by having their shares registered in their name, or in the name of an intermediary duly registered on their behalf, on the second business day prior to the meeting, i.e. May 14, 2024 at zero hour Paris time (the "Ordinary Share Record Date"), either in the registered share accounts or in the bearer share accounts held by their authorized intermediary, will be eligible to vote.

For registered shareholders, this registration in the registered share accounts on the Ordinary Share Record Date is sufficient to enable them to vote their Shares.

For bearer shareholders, it is the authorized intermediaries who maintain the bearer share accounts who directly prove their clients' status as shareholders to Société Générale Securities Services (the centralizing institution for the meeting mandated by DBV Technologies) by producing a certificate of participation which they attach to the single postal voting or proxy form drawn up in the name of the shareholder or on behalf of the shareholder represented by the registered intermediary.

Holders of American Depositary Shares

If you are a registered holder of ADSs on the books of Citibank, N.A. on April 25, 2024 (the "ADS Record Date"), then at or prior to 10:00 AM Eastern Time on May 10, 2024, you may provide instructions to the Depositary as to how to vote the Ordinary Shares underlying your ADSs on the issues set forth in this proxy statement. The Depositary will mail you a voting instruction card if you hold ADSs in your own name on the Depositary's share register ("Registered Holders"). If, however, on the ADS Record Date you held your ADSs through a bank, broker, custodian or other nominee/agent ("Beneficial Holders"), it is anticipated that such bank, broker, custodian or nominee/agent will forward voting instruction forms to you.

Registered Holders. Registered holders of ADSs must complete, sign and return a Voting Instruction Form to be actually received by the Depositary on or prior to 10:00 AM Eastern Time on May 10, 2024.

Beneficial Holders. If our ADSs are held on your behalf in a stock brokerage account or by a bank or other nominee, you are considered the beneficial owner of those ADSs held in "street name," and this

Table of Contents

proxy statement was forwarded to you by your broker or nominee. A holder of ADSs held through a broker, bank or other nominee should follow the instructions that its broker, bank or other nominee provides to vote the Ordinary Shares underlying its ADSs.

As an ADS holder, you will not be entitled to vote in person at the Annual General Meeting. To the extent you provide the Depositary or your broker, bank or other nominee, as applicable, with voting instructions, the Depositary will, to the extent practicable and subject to French law and the terms of the deposit agreement, vote the Ordinary Shares underlying your ADSs in accordance with your instructions.

How many votes do I have?

Each share of our Ordinary Shares that you own entitles you to one vote. Each ADS represents one-half of one Ordinary Share. Voting instructions with respect to ADSs may be given only in respect of a number of ADSs representing an integral number of Ordinary Shares.

How will my Ordinary Shares be voted if I do not vote?

If you hold Ordinary Shares and do not (i) grant your voting proxy directly to the chairman of the Annual General Meeting, (ii) vote in person at the Annual General Meeting, (iii) grant your voting proxy to another shareholder, your spouse, or your partner with whom you have entered into a civil union, (iv) vote by submitting your proxy card by mail or (v) vote electronically via Votaccess, your Ordinary Shares will not be counted as votes cast and will have no effect on the outcome of the vote with respect to any matter.

If you hold Ordinary Shares and grant your voting proxy directly to the chairman of the Annual General Meeting without specifying how you wish to vote with respect to a particular matter, your Ordinary Shares will be voted in accordance with the Board of Directors' recommendations.

If you own Ordinary Shares in "street name" through a broker, bank or other nominee and you do not direct your broker how to vote your shares on the proposals, your shares will not be voted on any proposal on which the broker does not have discretionary authority to vote. This is referred to as a broker non-vote. We believe that all of our proposals are non-routine matters and your broker cannot vote your shares for which you have not provided voting instructions. Broker non-votes on a particular proposal will not be counted as votes cast and will have no effect on the outcome of the vote with respect to such matter.

How will the Ordinary Shares underlying my ADSs be voted if I do not provide voting instructions to the Depositary or my broker, bank or other nominee?

With respect to Ordinary Shares represented by ADSs for which no timely voting instructions are received by the Depositary from a holder of ADSs, the Depositary shall not vote such Ordinary Shares. The Depositary will not itself exercise any voting discretion in respect of any Ordinary Shares.

If you own ADSs in "street name" through a broker, bank or other nominee and you do not direct your broker how to instruct the Depositary how to vote the Ordinary Shares represented by your ADSs on the proposals, your shares will not be voted on any proposal on which the broker does not have discretionary authority to provide voting instructions to the Depositary. This is referred to as a broker non-vote. We believe that all of our proposals are non-routine matters and your broker cannot provide voting instructions to the Depositary with respect to how to vote the Ordinary Shares represented by your ADSs for which you have not provided voting instructions. Broker non-votes on a particular proposal will not be counted as votes cast and will have no effect on the outcome of the vote with respect to such matter.

How will my Ordinary Shares be voted if I grant my proxy to the chairman of the Annual General Meeting?

If you are a holder of Ordinary Shares and you grant your proxy to the chairman of the Annual General Meeting, the chairman of the Annual General Meeting will vote your Ordinary Shares in accordance with the Board of Directors' recommendations. As a result, your Ordinary Shares would be voted "FOR" the nominees of the Board of Directors in Proposal Nos. 6 to 9 and "FOR" each of Proposal Nos. 1 to 5 and 10 to 38.

How many votes are needed for approval of each proposed resolution?

Proposal Nos. 1 to 17 and Proposal 38: The affirmative vote of a majority of the total number of votes cast is required for the election of each director nominee in Proposal Nos. 6 to 9 and for the approval of each matter described in Proposal Nos. 1 to 5, 10 to 17, and 38.

Proposal Nos. 18 to 37: For approval of Proposal Nos. 18 to 37, the affirmative vote of two-thirds of the total number of votes cast is required.

What is an "abstention" and how would it affect the vote?

With respect to Ordinary Shares, an "abstention" occurs when a shareholder votes by mail with instructions to abstain from voting regarding a particular matter or without making a selection with respect to a particular matter.

With respect to ADSs, an abstention occurs when a holder of ADSs sends proxy instructions to the Depository to abstain from voting regarding a particular matter.

Abstentions by holders of Ordinary Shares or by holders of ADSs will not be counted toward a quorum and will not be counted as votes cast and will have no effect on the outcome of the vote on matters on which a holder has abstained.

Who will count the votes at the Annual General Meeting?

Representatives of Société Générale Securities Services and our legal department will tabulate the votes and act as inspectors of election.

What Constitutes a Quorum for the Annual Meeting?

Consistent with French law, our by-laws provide that a quorum requires the presence of shareholders having at least:

- (1) 20% of the shares entitled to vote in the case of an ordinary shareholders' general meeting or at an extraordinary shareholders' general meeting where shareholders are voting on a capital increase by capitalization of reserves, profits or share premium, or
- (2) 25% of the shares entitled to vote in the case of any other extraordinary shareholders' general meeting.

How can I vote my Ordinary Shares or ADSs?

If you hold Ordinary Shares

In order to facilitate their participation in the Annual General Meeting, the Company offers its holders of Ordinary Shares the possibility of voting via Votaccess.

The Votaccess website will be open from April 26, 2024, at 9:00 AM Paris time to May 15, 2024, at 3:00 PM Paris time.

Table of Contents

In order to avoid any possible bottleneck on the Votaccess platform, shareholders are strongly recommended not to wait until the end of the opening period of Votaccess to enter their instructions.

Only holders of bearer shares whose account-holding institution has subscribed to the Votaccess system and offers them this service for this general meeting will be able to access it. The securities account holder of the bearer shareholder, who does not subscribe to Votaccess or who makes access to the site subject to conditions of use, will indicate to the shareholder how to proceed.

Shareholders wishing to participate in the Annual General Meeting may choose one of the following options:

vote in person at the Annual General Meeting;

give your voting proxy to the chairman of the Annual General Meeting;

I share an address with another holder of ADSs, and we received only one paper copy of the proxy materials. How may I obtain an additional copy of the proxy materials?

SEC rules concerning the delivery of annual disclosure documents allow us or your broker to send a single set of our proxy materials to any household at which two or more of our ADS holders of record reside, if we or your broker believe that the ADS holders of record are members of the same family. This practice, referred to as “householding,” benefits both you and us. It reduces the volume of duplicate information received at your household and helps to reduce our expenses. The rule applies to our annual reports, proxy statements and information statements. Once you receive notice from your broker or from us that communications to your address will be “householded,” the practice will continue until you are otherwise notified or until you revoke your consent to the practice. ADS holders who participate in householding will continue to have access to and utilize separate proxy voting instructions.

If a broker or other nominee holds your ADSs and (1) your household received a single set of proxy materials this year, but you would prefer to receive your own copy or you do not wish to participate in householding and would like to receive your own set of our proxy materials in future years or (2) you share an address with another ADS holder and together both of you would like to receive only a single set of proxy materials, please contact the broker or other nominee directly and inform them of your request. Be sure to include your name, the name of your brokerage firm and your account number.

Can I receive Company shareholder communications by electronic delivery?

Most shareholders can elect to view or receive copies of future proxy materials over the Internet instead of receiving paper copies in the mail. You can choose this option and save us the cost of producing and mailing these documents by following the instructions provided on your proxy card or by following the instructions provided when you vote over the Internet.

Where can I find documents referenced in this proxy statement?

Corporate Governance

Board Independence

As required under the Nasdaq listing standards, a majority of the members of a listed company's Board must qualify as "independent," as affirmatively determined by the Board. The Board consults with our counsel to ensure that the Board's determinations are consistent with relevant securities and other laws and regulations regarding the definition of "independent," including those set forth in pertinent listing standards of Nasdaq, as in effect from time to time.

Consistent with these considerations, after review of all relevant identified transactions or relationships between each director, or any of his or her family members, and us, our senior management and our independent auditors, the Board has affirmatively determined all of our directors, other than Mr. Tassé, are independent directors within the meaning of the applicable Nasdaq listing standards. In accordance with the Nasdaq Listing Rules, a director shall be considered independent if she/he does not have any relationship which, in the opinion of the Board, would interfere with the exercise of independent judgment in carrying out the responsibilities of a

Table of Contents

director. In addition, in accordance with Nasdaq Listing Rules, to be considered independent, a director shall not be subject to any of the mandatory bars to independence set forth in Rule 5605(a) of the Nasdaq Listing Rules. However, pursuant to French law requirements, only Michel de Rosen, Daniele Guyot-Caparrós, Timothy E. Morris, Adora Ndu, Julie O' Neill, Daniel B. Soland and Ravi M. Rao are considered to be "independent directors." In making such determination, our Board of Directors considered the relationships that each non-employee director has with us and all other facts and circumstances our Board of Directors deemed relevant in determining the director's independence, including the number of Ordinary Shares beneficially owned by the director and his or her affiliated entities (if any).

Board Structure and Director Election

We currently have ten directors, half of whom are citizens or residents of the United States. Under French law and our by-laws, our Board of Directors must be composed of between three and eighteen members. Within this limit, the number of directors is determined by our shareholders. Since January 1, 2017, the number of directors of each gender may not be less than 40%. Any appointment made in violation of this limit that is not remedied will be null and void. Directors are elected, re-elected and may be removed at a shareholders' general meeting with a simple majority vote of our shareholders.

Pursuant to our by-laws, the term of a director is three years, subject to a lesser period which could either be one or two year(s) for the purpose of a staggered board. In accordance with French law, our by-laws also provide that our directors may be removed with or without cause by the affirmative vote of the holders of at least a majority of the votes of the shareholders present, represented by a proxy or voting by mail at the relevant ordinary shareholders' meeting, and that any vacancy on our Board of Directors resulting from the death or resignation of a director, provided there are at least three directors remaining, may be filled by vote of a majority of our directors then in office provided that there has been no shareholders meeting since such death or resignation. Directors chosen or appointed to fill a vacancy shall be elected by the Board of Directors for the remaining duration of the current term of the replaced director. The appointment must then be ratified at the next shareholders' general meeting. In the event the Board of Directors would be composed of less than three directors as a result of a vacancy, the remaining directors shall immediately convene a shareholders' general meeting to elect one or several new directors so there are at least three directors serving on the Board of Directors, in accordance with French law.

We believe that the structure of our Board of Directors and its committees provides strong overall governance of our Company. The Chairman of our Board of Directors monitors the content, quality and timeliness of information sent to our Board of Directors and is available for consultation with our Board of Directors regarding the oversight of our business affairs. Mr. de Rosen has served as Chairman of the Board of Directors since March 4, 2019. He is an independent director under the listing standards of Nasdaq. Our Board of Directors believes that, given his perspective and experience in matters of the board and his ability to liaison between our non-independent directors and our independent directors, Mr. de Rosen's service as our chairman is appropriate and is in the best interests of our Board of Directors, our Company and our shareholders.

Board Meetings and Committees

During our fiscal year ended December 31, 2023, the Board of Directors held 14 meetings (including regularly scheduled and special meetings), and each director attended at least (i) 94% of the total number of meetings of our Board of Directors held during the period for which he or she has been a director and (ii) 100% of the total number of meetings held by all committees of our Board of Directors on which he or she served during the periods that he or she served as required under the charter of our Board of Directors.

We encourage, but do not require, members of our Board of Directors to attend our Annual General Meetings of shareholders. Nine of our directors attended the General Meeting of April 12, 2023.

Table of Contents

Our Board of Directors has established an Audit Committee, a Compensation Committee and a Nominating and Governance Committee. The composition and functioning of all of our committees comply with all applicable requirements of the French Commercial Code, the Exchange Act, and Nasdaq and SEC rules and regulations. In accordance with French law, committees of our Board of Directors only have an advisory role on matters requiring approval of the Board of Directors under French law and can only make recommendations to our Board of Directors on such matters. As a result, decisions are made by our Board of Directors taking into account non-binding recommendations of the relevant board committee. The composition and responsibilities of each of the committees of our Board of Directors is described below. Members will serve on these committees until their resignation or until as otherwise determined by our Board of Directors.

Role of the Board in Risk Oversight

Our Board of Directors is primarily responsible for the oversight of our risk management activities and has delegated to the Audit Committee the responsibility to assist our board in this task. While our board oversees our risk management, our management is responsible for day-to-day risk management processes, including, without limitation, management of cybersecurity, data privacy, and information technology risks and procedures. Our Board of Directors expects our management to consider risk and risk management in each business decision, to proactively develop and monitor risk management strategies and processes for day-to-day activities and to effectively implement risk management strategies adopted by the Board of Directors. We believe this division of responsibilities is the most effective approach for addressing the risks we face.

Committees of the Board of Directors

The Board of Directors has established an Audit Committee, a Nominating and Governance Committee and a Compensation Committee, each of which operate pursuant to a written charter adopted by our Board of Directors that satisfies the applicable rules and regulation of the SEC and the listing standards of Nasdaq. The composition and functioning of all of our committees complies with all applicable requirements of the French Commercial Code, the Exchange Act, Nasdaq, and SEC rules and regulations.

Subject to the following paragraph concerning the Audit Committee, in accordance with French law, committees of our Board of Directors only have an advisory role on matters requiring approval of the Board of Directors under French law and can only make recommendations to our Board of Directors on such matters. As a result, decisions are made by our Board of Directors taking into account non-binding recommendations of the relevant board committee.

Our Board of Directors has further determined that Mr. Morris is an "audit committee financial expert" as defined by SEC rules and regulations and that Mr. Morris qualifies as financially sophisticated under the applicable exchange listing rules.

Our Audit Committee has the following responsibilities:

Nasdaq rules require that the Audit Committee have the specific Audit Committee responsibilities and authority necessary to comply with Rule 10A-3(b)(2), (3), (4) and (5) under the Exchange Act, which requires, among other things, that the Audit Committee have direct responsibility for the appointment, compensation, retention and oversight of our auditors. However, Rule 10A-3 provides that if the laws of a company's home country prohibit the full board of directors from delegating such responsibilities to the Audit Committee, the Audit Committee's powers with respect to such matters may instead be advisory. As indicated above, under French law, our Audit Committee may only have an advisory role on matters requiring approval of the Board of Directors under French law and can only make recommendations to our Board of Directors on such matters. Moreover, Rule 10A-3 also provides that its Audit Committee requirements do not conflict with any laws of a

company's home country that require shareholder approval of such matters. Under French law, our shareholders must appoint, or renew the appointment of, the statutory auditors once every six fiscal years. In accordance with the applicable requirements of the French Commercial Code, we have two statutory auditors.

Our shareholders renewed Deloitte & Associés S.A, as our independent registered public accounting firm, at the 2023 Annual General Meeting, for a term of six years ending on the date of the 2029 Annual General Meeting, and KPMG S.A., as our other independent registered public accounting firms, at the 2020 Annual General Meeting for a term of six years ending on the date of the 2026 Annual General Meeting.

Considerations in Evaluating Director Nominees

As set out in the charter of the Board of Directors, the Nominating Committee works with the Board of Directors to determine periodically, as appropriate, to the extent permitted or required under applicable laws, the qualifications, expertise and characteristics of the Board of Directors, including such factors as business experience and diversity of gender, race, ethnicity, nationality, differences in professional background, education, skill, and other individual qualities and attributes that contribute to the total mix of viewpoints and experience represented on the Board of Directors. The Nominating Committee evaluates each individual in the context of the membership of the Board of Directors as a group, with the objective of having a board that can best perpetuate the success of the business and represent shareholder interests through the exercise of sound judgment using its diversity of background and experience across various areas. Each director should be an individual of high character and integrity. In determining whether to recommend a director for re-election, the Nominating Committee also considers the director's past attendance at meetings, participation in and contributions to the activities of the Board of Directors and the Company and other relevant qualifications and characteristics.

Each director must ensure that other existing and anticipated future commitments do not materially interfere with the members' service as a director.

Code of Business Conduct and Ethics

We have adopted a Code of Business Conduct and Ethics applicable to all of our directors, officers and employees. The Code of Business Conduct and Ethics is available on the Corporate Governance section of our website at <https://www.dbv-technologies.com>. We expect that any amendments to this code or any waivers of its requirements will be disclosed on our website.

Narrative Disclosure to Summary Compensation Table

Compensation Philosophy and Strategy of our employees and executive officers

At DBV we have a competitive and innovative way to reward our employees. Our reward system builds on the foundations of our company culture, what we refer to as the 4C' s - Courage, Curiosity, Collaboration and Credibility. We incentivize our for value creation and align our activities to the benefits of our stakeholders: patients, shareholders and broad society.

As we navigate a competitive market environment, we benchmark against similarly sized U.S. and French biopharmaceutical companies to offer the best possible compensation elements to meet our goals. We refer to this approach as Total Rewards. Moreover, we not only use competitive financial rewards but also prioritize internal talent development as foundational to our future success. Our Total Rewards strive to ensure we are and remain attractive to current and prospective talent in the biopharmaceutical market. We foster a culture of performance to reward contribution to the company' s achievements, as well as behaviors that reflect our culture, our 4C' s.

Our Total Rewards policy, reviewed annually, consists of:

- Base salary, pegged to local compensation market
- Annual incentive, paid in cash, subject to Company and individual achievement against annual corporate objectives
- Long-term incentive, using a mix of restricted share units and stock options
- Benefits, aligned with local market practices
- Talent management and development programs and opportunities, supporting our talent' s professional development

The overall objectives of the compensation policies and programs of our executive officers are to:

- attract, retain and motivate superior executive talent;
- provide incentives that reward the achievement of performance goals that directly correlate to the enhancement of stockholder value, as well as to facilitate executive retention;
- align our executives' interests with those of our stockholders;
- link pay to company performance; and
- offer pay opportunities that are competitive with the biopharmaceutical market in which we compete in order to recruit and retain top talent, while maintaining reasonable cost and dilution to our shareholders.

In establishing specific compensation levels for our executive officers, we consider benchmarking information provided from our independent compensation consultant.

Our executive compensation program generally consists of, and is intended to strike a balance among, the following three principal components: base salary, annual performance-based incentives and long-term incentive compensation. Our compensation philosophy with respect to these elements is as follows:

Base salary (fixed cash):

Base salary reflects level of expertise and competencies. It is aligned and competitive with local and country standards. Salary increases are managed annually, based on merit budget envelopes. Merit increase aims at rewarding our employees for the execution of their mission, specified in their job description.

Table of Contents

Annual Incentive:

All employees are eligible for an annual incentive plan rewarding personal contribution towards Company and individual goals, as well as how they are delivered. As such, our annual performance management process encompasses assessment of behavioral competencies tied to our 4C's. Targets are expressed in percentage of based salary and benchmarked with industry local market practices and peers.

For 2023, the Board of Directors, on the recommendation of the Compensation Committee, determined that our company had achieved 106% of the corporate objectives established by the Board. See Annex D for further information about our 2023 corporate objectives.

Long-term incentives (at-risk equity):

Value in the biotechnology industry is often created over a few years. We seek to align employee's compensation with long term company value creation. We believe that our ability to grant equity awards is a credible and effective compensation tool.

Equity incentives aim at attracting and retaining talent at all levels of the organization by providing an extra layer of incentives to employees and promoting our growth as a collective achievement.

Includes a mix of Stock-Options ("SOs") and RSUs in line with market practice in some comparable US peer companies. The size of the award is a percentage of the capital share outstanding (CSO) which may vary depending on where the role is based.

Annual equity opportunities are generally reviewed and determined annually or as appropriate during the year for new hires, promotions, or other special circumstances, such as to encourage retention, or as an incentive for significant achievement. Individual grants are determined based on a number of factors, including current corporate and individual performance, outstanding equity holdings and their retention value and total ownership, historical value of our stock, internal equity among executives and market data provided by our independent compensation consultant.

We focus on time-vesting awards. Time based vesting allows for retention that is aligned to the biotechnology industry's longer time horizon for value creation and is competitive with market practices. Further, our focus on time-vesting awards allows us to most optimally allocate our resources by enabling us to shift resources towards the most promising opportunities for shareholder value creation.

The Compensation Committee aims to structure a significant portion of the named executive officers' total target compensation to be comprised of performance-based bonus opportunities and LTIs, in order to align the executive officers' incentives with the interests of our stockholders and our corporate objectives. In evaluating our executive compensation policies and programs, as well as the short-term and long-term value of our executive compensation plans, we consider both the performance and skills of each of our executives, as well as the compensation paid to executives at similar companies with similar responsibilities. We focus on providing a competitive compensation package which provides significant short-term and long-term incentives for the achievement of measurable corporate objectives. We believe this approach provides an appropriate blend of short-term and long-term incentives to maximize stockholder value.

Executive Compensation Arrangements

For a discussion of our employment arrangements with our executive officers, see “Certain Relationships and Related Person Transactions–Related-Party Transactions–Agreements with Our Directors and Executive Officers.” Except as disclosed therein, there are no arrangements or understanding between us and any of our other executive officers providing for benefits upon termination of their employment, other than as required by applicable law.

French Law Requirements Related to Corporate Officers’ Compensation

Ex-ante and ex-post votes of the shareholders’ meeting

French laws applicable to our company require that all type of compensation granted to certain corporate officers be presented and approved by the shareholders at our annual shareholders’ general meeting, on one hand for the compensation policy applicable to these corporate officers for the coming year (Ex Ante Vote) and on the other hand the compensation that was granted to these executive officers for the past year (Ex Post Vote).

Decision making process for the determination of the corporate officers’ compensation policy

The determination, review and implementation of the compensation policy for each of the corporate officers (Chairman of the Board, directors, chief executive officers, deputy chief executive officers, if any) is carried out by the Board on the recommendation of the Compensation Committee.

The Compensation Committee and the Board of Directors systematically meet in the absence of the Chief Executive Officer and the management team to discuss the establishment of the compensation policy for corporate officers. When the Board decides on a compensation component or a commitment in favor of the Chairman of the Board or the Chief Executive Officer, the interested party may not take part in the deliberations or vote on the component or commitment concerned.

Such compensation policy is submitted to the vote of our annual shareholders’ general meeting (ex-ante vote). No compensation component, of any nature whatsoever, may be determined, allocated or paid by our company, nor any commitment made by our company if it is not in accordance with the approved compensation policy.

In the event of a change in governance, the compensation policy will be applied to the Company’ s new corporate officers, with necessary adjustments where applicable.

Compensation policy principles and objectives

When setting the compensation policy, the Compensation Committee and the Board of Directors ensure that it complies with the Company’ s corporate interests, contributes to its long-term viability and is in line with its business strategy, notably through variable remuneration targets and, where applicable, performance conditions. The Compensation Committee and the Board of Directors seek to ensure consistency with market and industry practices, in order to ensure (i) competitive levels of remuneration, (ii) a close link between the Company’ s performance and the remuneration of its officers, and in particular the maintenance of a balance between short-term and medium/long-term performance, and (iii) compliance with the principles of the Middenext Code on which the level and terms of the officers remunerations are based.

The governance standards taken into account by the Board of Directors in determining the total compensation of corporate officers are those set out in recommendation R16 of the Middenext Code:

Completeness: each company is free to determine the components of executive directors’ compensation. Disclosure of executive directors’ compensation to shareholders must be exhaustive: fixed portion, variable portion (bonus), stock options, free shares, compensation for “Board member” duties, exceptional compensation, retirement conditions and special benefits, other... In the case of variable compensation, the assessment of performance takes into account quantitative criteria–financial and non-financial–as well as qualitative criteria;

Table of Contents

Balance between remuneration components: each component of remuneration must be justified and in the company' s interest;

Benchmark: as far as possible, remuneration should be assessed in the context of a business line and the reference market, and be proportionate to the Company' s situation, while taking care to avoid inflationary effects;

Consistency: the remuneration of executive directors must be consistent with that of the company' s other directors and employees;

Rules must be simple and transparent. The performance criteria used to establish the variable portion of compensation or, where applicable, for the granting of stock options or free shares, must be linked to the company' s performance, correspond to its objectives, be demanding, explainable and, as far as possible, sustainable. They must be detailed, without however calling into question the confidentiality that may be justified for certain elements;

Measure: the determination of remuneration and the granting of stock options or free shares must strike a fair balance, taking into account the company' s general interest, market practices and the performance of senior executives;

Transparency: in accordance with the law, companies whose shares are listed on a regulated market must publish all the components of executive compensation in their corporate governance report. In the case of variable compensation, the weighting of the various criteria is communicated to shareholders.

The Compensation Committee and the Board of Directors also take into account the votes cast at previous Annual General Meetings on the remuneration policy for corporate officers.

In accordance with French rules, the Annual General Meeting of May 16, 2024 will be asked to approve the CEO, Chairman and directors' compensation policy for 2024.

The proposed compensation policy of the CEO, the named executive officers, the Chairman and the directors for 2024 is described in our annual corporate governance report in chapter 3 of our 2023 Universal Registration Document. For reference, an English translation of our proposed compensation policy is set forth in Annex B to this proxy statement.

Ex Post vote

The annual ordinary shareholders' meeting must decide each year on the remuneration awarded or paid during the financial year to the corporate officers. This "ex-post" vote concerns two sets of resolutions, one concerning all corporate officers (CEO, Chairman and directors), the others concerning only some of them (CEO and Chairman).

With regard to the vote on the information concerning all corporate officers, and in the event that the proposed resolution is rejected, the Board of Directors must convene a meeting and submit a revised remuneration policy for approval at the next general meeting; the payment of sums allocated for the current financial year to the directors as remuneration for their activity is suspended until this approval. A further negative vote on the resolution on the new remuneration policy will result in a permanent ban on the payment of the suspended remuneration.

With regard to the vote on the fixed, variable, and exceptional components of the total compensation and benefits of any kind paid or granted during the past financial year to the Chairman of the Board of Directors and the CEO, and if the proposed resolution is rejected by the general meeting, the remuneration components remain in place, but the variable and exceptional remuneration components may not be paid to the said corporate officer.

Table of Contents

A description of our CEO, Chairman and directors' compensations for 2023 is included in Annex C to this proxy statement.

US Requirements Related to Named Executive Officers Compensation

Limitations on Liability and Indemnification Matters

Under French law, provisions of by-laws that limit the liability of directors are prohibited. However, French law allows sociétés anonymes to contract for and maintain liability insurance against civil liabilities incurred by any of their directors and officers involved in a third-party action, provided that they acted in good faith and within their capacities as directors or officers of the company. Criminal liability cannot be indemnified under French law, whether directly by the company or through liability insurance.

We maintain liability insurance for our directors and officers, including insurance against liability under the Securities Act and we intend to enter into agreements with our directors and executive officers to provide contractual indemnification. With certain exceptions and subject to limitations on indemnification under French law, these agreements will provide for indemnification for damages and expenses including, among other things, attorneys’ fees, judgments, fines and settlement amounts incurred by any of these individuals in any action or proceeding arising out of his or her actions in that capacity. We believe that this insurance and these agreements are necessary to attract qualified directors and executive officers.

These agreements may discourage shareholders from bringing a lawsuit against our directors and executive officers for breach of their fiduciary duty. These provisions also may have the effect of reducing the likelihood

of derivative litigation against directors and executive officers, even though such an action, if successful, might otherwise benefit us and our shareholders. Furthermore, a shareholder's investment may be adversely affected to the extent we pay the costs of settlement and damage awards against directors and officers pursuant to these insurance agreements.

Certain of our non-employee directors may, through their relationships with their employers or partnerships, be insured against certain liabilities in their capacity as members of our Board of Directors.

DELINQUENT SECTION 16(a) REPORTS

Section 16(a) of the Exchange Act requires our directors and executive officers, and persons who own more than ten percent of a registered class of our equity securities, to file with the SEC initial reports of ownership and reports of changes in ownership of our common stock and other equity securities. Officers, directors and greater than ten percent shareholders are required by SEC regulations to furnish us with copies of all Section 16(a) forms they file. To our knowledge, based on a review of the copies of such reports filed on the SEC's EDGAR system and written representations that no other reports were required, during the fiscal year ended December 31, 2023, all Section 16(a) filing requirements applicable to its officers, directors and greater than ten percent beneficial owners were complied with except for the following: on August 14, 2023, late Forms 4 were filed for Daniel Tassé, Pharis Mohideen, and Sebastien Robitaille, and on December 19, 2023, a late Form 4 was filed for Pharis Mohideen.

CERTAIN RELATIONSHIPS AND RELATED PERSON TRANSACTIONS

Policies and Procedures for Related Person Transactions

We have adopted a related-party transaction policy that sets forth our procedures for the identification, review, consideration and approval or ratification of related-party transactions. Under French law, a related-party transaction is a transaction, arrangement or relationship, or any series of similar transactions, arrangements or relationships, in which we and any related parties are, were or will be participants, which are not (1) in the ordinary course of business, and (2) at arms' length. Transactions involving compensation for services provided to us as an employee or director are not covered by this policy. For purposes of this policy, a related party is any executive officer, director (or nominee for director) or beneficial owner of more than ten percent (10%) of any class of our voting securities, including any entity owned or controlled by such persons.

Under the policy, if a transaction has been identified as a related-party transaction, including any transaction that was not a related-party transaction when originally consummated or any transaction that was not initially identified as a related-party transaction prior to consummation, our management must present information regarding the related-party transaction to our Board of Directors for review, consideration and approval. The presentation must include a description of, among other things, the material facts, the interests, direct and indirect, of the related parties, the benefits to us of the transaction and whether the transaction is on terms that are comparable to the terms available to or from, as the case may be, an unrelated third-party or to or from employees generally.

Under the policy, we will collect information that we deem reasonably necessary from each director, executive officer and, to the extent feasible, significant shareholder to enable us to identify any existing or potential related-party transactions and to effectuate the terms of the policy. In addition, under our Code of Business Conduct and Ethics, our employees and directors have an affirmative responsibility to disclose any transaction or relationship that reasonably could be expected to give rise to a conflict of interest.

Transactions concluded under "normal terms and conditions" are those agreed by the Company under the same terms and conditions as those that it habitually applies in its relationships with third parties, such that they do not allow the contracting party to obtain a benefit that a third party would not have obtained.

To determine whether these terms and conditions are "normal", the terms and conditions under which the agreements concerned are habitually agreed by other companies in the same business sector are also taken into account.

The normalness of the terms and conditions are primarily assessed by reference to:

- the economic data of the agreement: the price must correspond to a market price or a price generally applied by companies in the same business sector;
- the notion of "balance of mutual benefits" which takes into consideration all the terms and conditions under which the transaction is concluded (payment deadline, guarantees, etc.);
- in general, the legal terms and conditions of the agreement which must be balanced and standard for the type of transaction in question.

If our management believes that the agreement in question is an ordinary agreement entered into under normal terms and conditions, they will bring to the attention of the Audit Committee a report of their review including the essential terms of that agreement and their conclusions, for the latter to judge whether it is advisable to bring it to the immediate attention of the Board of Directors.

The assessment of the criteria is reexamined whenever a previously concluded agreement is amended, renewed, extended, or terminated.

Table of Contents

In determining whether to approve, ratify or reject a related-party transaction, our Board of Directors, must consider, in light of known circumstances, whether the transaction is in, or is not inconsistent with, our best interests, as our Board of Directors determines in the good faith exercise of its discretion.

Related-Party Transactions

Since January 1, 2022, we have engaged in the following transactions with our directors, executive officers and holders of more than ten percent (10%) of our outstanding voting securities and their affiliates, which we refer to as our related parties.

Participation in June 2022 PIPE Financing

In June 2022, we completed a \$194 million PIPE financing from the sale of (i) 32,855,669 Ordinary Shares, nominal value 0.10 per share at a price per Ordinary Share of 3.00 (corresponding to \$3.22 on the basis of an exchange rate of \$1.0739 = 1.00 published by the European Central Bank on June 8, 2022), and (ii) pre-funded warrants to purchase an aggregate of 28,276,331 Ordinary Shares, or the Warrant Shares, at a pre-funded price per pre-funded warrant of 2.90 (corresponding to \$3.11), which equals the per share price of the Ordinary Shares less the exercise price of 0.10 per pre-funded warrant (the "PIPE Financing"). Each pre-funded warrant has an exercise price of 0.10 per Warrant Share.

The following table sets forth the aggregate number of Ordinary Shares and pre-funded warrants that two of our holders of more than 5% of our outstanding voting securities and their affiliates purchased:

<u>Related Party</u>	<u>Number of Ordinary Shares</u>	<u>Number of Pre-Funded Warrants</u>
Entities affiliated with Baker Bros. Advisors LP (1)	11,875,000	13,116,331
Bpifrance Participations S.A.	2,483,161	0

- (1) Consists of 1,252,432 Ordinary Shares and 1,383,352 Pre-Funded Warrants issued to 667, L.P. and 10,622,568 Ordinary Shares and 11,732,979 Pre-Funded Warrants issued to Baker Brothers Life Sciences, L.P.

Registration Rights

In March 2018, we entered into a registration rights agreement, or the Registration Rights Agreement, with entities affiliated with Baker Bros. Advisors LP, or Baker Brothers, pursuant to which Baker Brothers is entitled to rights with respect to the registration under the Securities Act of Ordinary Shares and ADSs, including Ordinary Shares or ADSs issuable upon the exercise or conversion of any other securities (whether equity, debt or otherwise) owned or subsequently acquired by Baker Brothers. These rights include demand registration rights and piggyback registration rights. All fees, costs and expenses of underwritten registrations will be borne by us and all selling expenses, including underwriting commissions, will be borne by Baker Brothers. Under the terms of the Registration Rights Agreement, we are required, upon the request of Baker Brothers, to file a registration statement covering, and use our reasonable best efforts to effect, the registration of the Ordinary Shares, including in the form of ADSs, requested to be registered for public resale. In addition, if we register our securities either for our own account or for the account of other security holders under certain circumstances more than six months following the completion of our March 2018 underwritten global offering, Baker Brothers is entitled to include its Ordinary Shares or ADSs in such registration. Subject to certain exceptions, we and the underwriters may limit the number of Ordinary Shares or ADSs included in an underwritten offering conducted pursuant to the terms of the Registration Rights Agreement if the underwriters believe that including such securities would adversely affect the offering. The registration rights granted under the Registration Rights Agreement will terminate ten years after the date of the Registration Rights Agreement.

In connection with the PIPE Financing, pursuant to a registration rights agreement, or the 2022 Registration Rights Agreement, with the investors, the Company filed a registration statement with the SEC registering the

resale of 59,269,629 ordinary shares issued in the PIPE financing, including ordinary shares underlying the pre-funded warrants. The Company also filed a registration statement with the SEC registering the resale of 11,593,170 ordinary shares by entities affiliated with Baker Bros. Advisors, issued in the PIPE financing, including ordinary shares underlying the pre-funded warrants. As a result, subject to certain beneficial ownership limitations contained in the pre-funded warrants, these shares are freely tradable, without restriction, in the public market. In addition, the exercise of some or all of the pre-funded warrants will increase the number of our outstanding ordinary shares, which may dilute the ownership percentage or voting power of our shareholders.

Agreements with Our Directors and Executive Officers

Employment and Consulting Arrangements

Daniel Tassé. In November 2018, we entered into an executive agreement (as French “mandataire social”) with Mr. Daniel Tassé, our current Chief Executive Officer. He is entitled to an annual base salary. Mr. Tassé is also eligible to receive equity grants as our Board of Directors may determine and to participate in our bonus plan.

In December 2018, our Board of Directors fixed the performance criteria in the event of termination of Mr. Daniel Tassé’s duties as our Chief Executive Officer. He will benefit from a severance package if all the following objectives are achieved: (i) Viaskin Peanut is approved in a major market; (ii) an EPIT pipeline with three ongoing clinical trials is built; and (iii) six months cash runway is achieved, as defined by the last quarter of spend on the day of severance. Compliance with these performance conditions will be established by our Board of Directors prior to any payment.

In the event of termination “without cause” or for “good reason,” we will pay an amount equal to the sum of: (i) 18 months of Mr. Tassé’s base salary and (ii) the target bonus at a 100% achievement level.

In case of termination without “cause” or for “good reason” outside of a change of control, the severance benefits will get paid out over a 12-month period. In case of termination without “cause” or for “good reason” in connection with a change of control, those same amounts will be paid in a lump sum.

Virginie Boucinha. In November 2023, we entered into an employment agreement with Ms. Boucinha, our current Chief Financial Officer. Ms. Boucinha is entitled to an annual base salary. Ms. Boucinha is also eligible to receive equity grants as our board may determine and to participate in our bonus plan.

Dr. Mohideen is also eligible to receive equity grants as our board may determine and to participate in our bonus plan. In the event of termination “without cause” or for “good reason,” we will pay an amount equal to the sum of 12 months of Dr. Mohideen’s base salary. In case of termination without “cause” or for “good reason” outside of a change of control, the severance benefits will get paid out over a 12-month period. In case of termination without “cause” or for “good reason” in connection with a change of control, Dr. Mohideen will be paid in an amount equal to the sum of: (i) 12 months of Dr. Mohideen’s base salary and (ii) the target bonus at a 100% achievement level.

Bonus Plans

All our executive officers are entitled to a bonus ranging between 50% and 150% based on yearly objectives determined by our Board of Directors upon recommendation of our Compensation Committee.

Indemnification Agreements

We intend to enter into indemnification agreements with each of our directors and executive officers. See “Executive Compensation—Limitations on Liability and Indemnification Matters” above.

Insofar as indemnification for liabilities arising under the Securities Act may be permitted to directors, officers or persons controlling us pursuant to the foregoing provisions, we have been informed that in the opinion of the SEC such indemnification is against public policy as expressed in the Securities Act and is therefore unenforceable.

Audit and Non-Audit Services Pre-Approval Policy

The Audit Committee has responsibility for appointing, setting compensation of and overseeing the work of the independent registered public accounting firm. In recognition of this responsibility, the Audit Committee has adopted a policy, approved by the Board of Directors on December 3, 2020, applicable since January 1st, 2021 governing the pre-approval of all audit and permitted non-audit services performed by our independent registered public accounting firm to ensure that the provision of such services does not impair the independent registered public accounting firm's independence from us and our management. Unless a type of service to be provided by our independent registered public accounting firm has received general pre-approval from the Audit Committee, it requires specific pre-approval by the Audit Committee. The payment for any proposed services in excess of pre-approved cost levels requires specific pre-approval by the Audit Committee.

Pursuant to its pre-approval policy, the Audit Committee may delegate its authority to pre-approve services to the chairperson of the Audit Committee. The decisions of the chairperson to grant pre-approvals must be presented to the full Audit Committee at its next scheduled meeting. The Audit Committee may not delegate its responsibilities to pre-approve services to the management.

The Audit Committee has considered the non-audit services provided by KPMG S.A. and Deloitte & Associés as described above and believes that they are compatible with maintaining KPMG S.A.' s and Deloitte & Associés' s independence as our independent registered public accounting firm.

PROPOSAL NO. 13

ADVISORY OPINION ON THE COMPENSATION OF NAMED EXECUTIVE OFFICERS OTHER THAN THE CHIEF EXECUTIVE OFFICER

In accordance with the requirements of Section 14A of the Exchange Act, we are including in this proxy statement a proposal, subject to shareholder vote, to approve, on a non-binding advisory basis, the compensation of our named executive officers other than the Chief Executive Officer (as disclosed under “Executive Compensation” and the tables that follow). Shareholder approval of the compensation of our Chief Executive Officer is required as a matter of French law and is addressed by Proposal No. 16.

We believe that our compensation programs for our named executive officers have been effective at promoting the achievement of positive results, appropriately aligning pay and performance and enabling us to attract and retain very talented executives within our industry, while at the same time avoiding the encouragement of unnecessary or excessive risk-taking.

We are asking our shareholders to indicate their support for the compensation of our named executive officers as described in this proxy statement. This proposal, commonly known as a “say-on-pay” proposal, gives you as a shareholder the opportunity to express your views on our 2023 compensation for our named executive officers. This vote is not intended to address any specific item of compensation; rather, the vote relates to the overall compensation of our named executive officers as described in this proxy statement in accordance with the compensation disclosure rules of the SEC.

Although this is an advisory vote which will not be binding on our Compensation Committee or Board of Directors, our Compensation Committee and Board of Directors will carefully review the results of the shareholder vote. Our Compensation Committee and Board of Directors will consider potential shareholders’ concerns and take them into account in future determinations concerning compensation of our named executive officers. Our Board of Directors therefore recommends that you indicate your support for the compensation of our named executive officers in 2024 as outlined in this proxy statement, by voting “FOR” Proposal No. 13.

PROPOSAL NO. 17:

AUTHORIZATION TO BE GRANTED TO THE BOARD OF DIRECTORS TO BUY BACK COMPANY SHARES ON THE COMPANY' S BEHALF PURSUANT TO ARTICLE L.22-10-62 OF THE FRENCH COMMERCIAL CODE

Pursuant to the following resolution, shareholders are asked to approve a delegation of authority to buy back the Company' s shares to use as acquisition consideration and/or to underlie incentive instruments granted to the employees and executive officers of the Company and its subsidiaries.

The Board proposes the shareholders authorize it, for a period of 18 months, pursuant to Articles L. 225-209 et seq. of the French Commercial Code, to buy back, on one or more occasions and at the times of its choosing, company shares up to the limit of 5% of the number of shares comprising the share capital at the date of purchase, adjusted, if necessary, to take into account any increase or reduction in capital that may have taken place during the course of the program.

The shares may be bought back in order to:

support the secondary market for or the liquidity of the Company' s shares through a liquidity agreement with an investment service provider, in accordance with the standard practice accepted by the regulations, in which context, the number of shares taken into account for the calculation of the aforementioned limit corresponds to the number of shares purchased, after deduction of the number of shares resold;

provide coverage to meet obligations arising from stock option plans and/or free share allocation plans (or similar plans) for the group' s employees and/or corporate officers, as well as all share allocations arising under company or group employee savings plans (or similar plans), employee profit-sharing plans and/or any other form of share allocation arrangement for the group' s employees and/or corporate officers;

hedge the securities giving access to the company' s shares, pursuant to current regulations;

hold the purchased shares and ultimately return them for future exchange or as payment under external growth transactions;

where applicable, cancel all or part of the shares acquired; or

more generally, operate for any purpose that may be authorized by law or any market practice that may be permitted by the market authorities, it being specified that, in such a case, the Company would inform its shareholders by way of a press release.

The acquisition, sale, exchange or transfer of these shares may be executed by any means, including through the purchase of share blocks, at the time deemed appropriate by the Board of Directors. The Board may not, without the prior authorization of the shareholders' meeting, use this authorization during a public offer period initiated by a third party for the shares of the Company until the end of the offer period.

The Company does not intend to use options or derivatives.

The maximum purchase price is set at 25 per share (excluding charges). In the event of a capital transaction, in particular a stock split or reverse split, or the allocation of free shares to shareholders, the abovementioned amount will be adjusted in the same proportions (multiplier coefficient equal to the ratio between the number of shares comprising the capital before the transaction and the number of shares after the transaction).

The overall ceiling is set at 240,000,000.

Table of Contents

The Annual General Meeting hereby authorizes the Board of Directors to carry out these transactions, set the terms and methods thereof, finalize all agreements and complete all formalities when necessary.

If approved, this authorization would cancel the authorization granted to the Board of Directors under the eighteenth ordinary resolution of the General Meeting of April 12, 2023.

DELEGATION TO BE GRANTED TO THE BOARD OF DIRECTORS FOR THE COMPANY TO CANCEL THE SHARES BOUGHT BACK PURSUANT TO ARTICLE L.22-10-62 OF THE FRENCH COMMERCIAL CODE

The shareholders are asked to grant all powers to the Board of Directors for the purpose of canceling, on one or more occasions, all or part of the Company shares acquired as a result of the share repurchases authorized by the shareholders pursuant to Proposal No. 18. The shares to be canceled pursuant to this authorization shall not exceed 10% of our share capital in any 24-month period.

The Board proposes the shareholders authorize the Board of Directors to, for a period of 18 months, pursuant to Article L. 22-10-62 of the French Commercial Code:

cancel, at its discretion, on one or more occasions, up to 10% of the capital calculated on the date of the decision to cancel, less any shares canceled during the last 24 months, shares the company holds or may hold following buy-backs performed pursuant to Article L. 22-10-62 of the French Commercial Code and to reduce the share capital accordingly in compliance with legal and regulatory provisions in force; and

carry out all necessary operations to perform such cancellations and the resulting reductions of the share capital, accordingly amending the company's Bylaws and fulfilling all formalities required.

REVERSE SPLIT OF THE COMPANY' S SHARES BY ALLOCATION OF ONE NEW SHARE WITH A PAR VALUE OF 1 FOR TEN (10) EXISTING SHARES WITH A PAR VALUE OF 0.10 EACH AND DELEGATION OF POWERS TO THE BOARD OF DIRECTORS FOR THE PURPOSE OF IMPLEMENTING THE REVERSE SPLIT

The shareholders are asked to carry out a reverse split of the ordinary shares comprising the Company' s share capital so that ten (10) ordinary shares with a par value of 0.10 each (the "Existing Shares") shall be exchanged for one (1) new share with a par value of 1.00 (the "New Shares").

The reverse split operations would commence, at the earliest, upon expiry of a period of fifteen (15) days from the date of publication, by the Company, of a notice. The exchange period during which the shareholders would have to purchase and sell the Existing Shares required to effect the reverse split would be of a maximum duration of thirty (30) days from the start of the reverse split operations, the date of which would be set in the notice of reverse split published by the Company.

Shareholders who own an isolated number of Existing Shares or a number of Existing Shares that is less than the number required for the reverse split would be obliged to carry out the necessary purchases or sales of Existing Shares for the reverse split within a period of thirty (30) days from the start of the reverse split operation. At the end of the exchange period, the New Shares that could not be allocated individually and corresponding to fractional rights would be sold, and the proceeds of this sale would be allocated in proportion to the fractional rights of each rights holder, in accordance with French law.

The New Shares resulting from the reverse split would have the same characteristics and grant the same rights as the Existing Shares they replace. At the end of the reverse split period, the non-consolidated Existing Shares would lose their voting rights and would no longer be included in the calculation of the quorum and their rights to future dividends would be suspended.

The Board proposes the shareholders grant all powers to the Board of Directors, for a period of twelve (12) months from the date of this General Meeting, with the power to sub-delegate, to implement the reverse split.

PROPOSAL NO. 19.**

**PROPOSALS NOS. 20 TO 31:
FINANCIAL AUTHORIZATIONS**

We are a clinical-stage specialty biopharmaceutical company focused on changing the field of immunotherapy by developing our novel Viaskin technology platform. Developing, seeking regulatory approval of, and commercializing product candidates requires significant resources. We expect expenses associated with developing and seeking regulatory approval for Viaskin Peanut to increase. We also anticipate significant resource needs when establishing relevant infrastructure to support supply, launch and commercialization of Viaskin Peanut.

We may also need to secure capital to accelerate development of a promising new product candidate, to expand the geographical reach of our commercialization, or to pursue a promising business development opportunity.

A range of financing options are available in the marketplace, and we wish to be able to pursue the most appropriate financing for our company. We understand the need to be good stewards of our investors' money and will continue to seek financing with a reasonable risk profile and attention to investor dilution. We also need to have resolutions that ensure consistency between U.S. (SEC) and French (AMF) market practices and regulatory standards.

That is why we ask for:

an applicable discount of up to 15% for the delegation of authority to increase the share capital with cancellation of subscription rights in favor of categories of persons meeting specified characteristics (24th resolution)

the delegation of authority to increase the share capital with cancellation of subscription rights in favor of categories of persons meeting specified characteristics within the framework of an equity financing agreement on the United States stock market known as "At-The-Market" or "ATM Program" (25th resolution)

a total ceiling set at 300% dilution.

We are therefore seeking approval at the Annual General Meeting of the following resolutions that would allow raising capital even in adverse situations, to best ensure the continuity of our operations. These resolutions will be suspended in case of a hostile takeover attempt.

Unlike most companies incorporated under U.S. state law, which traditionally have a specified amount of authorized shares available for issuance with limited restriction on the purpose of such issuance, in accordance with French law, in order for our Board of Directors to increase our share capital, it must have a specific delegation of authority authorizing it to increase the share capital for each specific purpose.

The proposed financial authorizations would provide our Board of Directors with additional flexibility to respond quickly to changes in market conditions and thereby be able to obtain financing under the best possible conditions.

The financial delegations of authority presented for your approval at the 2024 Annual General Meeting are subject to the following important limitations:

the maximum global nominal amount of the share capital increases which may be completed pursuant to Resolutions 21, 22, 24, 25, 26, 27 and 29 cannot exceed EUR 28,929,000, i.e. approximately 300% of our share capital on the date of the 2024 Annual General Meeting;

any share capital increase pursuant to Resolution 26, which grants a customary over-allotment option for any issuance pursuant to Resolutions 20, 21, 22, 24 and 25 would be at the same price as, and limited to a maximum of 15% of, the initial issuance;

Table of Contents

the aggregate amount of share capital increases pursuant to Resolution 31 cannot exceed EUR4,821,000, i.e. approximately 50% of our share capital on the date of the 2024 Annual General Meeting.

Our Board of Directors will continue to use these authorizations in accordance with our corporate and strategic needs, and, in any case, does not intend to use these authorizations in the context of an unsolicited tender offer by a third party our shares.

Under French law, in the case of issuance of additional shares or other securities for cash or set-off against cash debts, our existing shareholders have preferential subscription rights to these securities on a pro-rata basis, unless such rights are waived by a two-thirds majority of the votes held by the shareholders present at the extraordinary meeting deciding or authorizing the capital increase, represented by proxy or voting by mail. In case such rights are not waived by the extraordinary general meeting, each shareholder may individually either exercise, assign or not exercise its preferential rights. Such rights would be waived pursuant to Resolutions 21, 22, 24, 25, 27 and 29, if approved. Accordingly, the issuance of additional Ordinary Shares or other securities pursuant to such resolutions might, under certain circumstances, dilute the ownership and voting rights of shareholders.

Vote Required

Proposals Nos. 20 to 31 require the affirmative vote of a 2/3 majority of the votes cast by the shareholders present in person, represented by proxy, or voting by mail at the Annual General Meeting and entitled to vote thereon. The votes cast will not include those attached to shares for which the shareholders did not participate in the vote, abstained or voted blank or void. Abstentions will not be counted as votes cast and will have no effect on the outcome of the votes.

PROPOSAL NO. 20:

DELEGATION OF POWERS TO BE GRANTED TO THE BOARD OF DIRECTORS TO ISSUE ORDINARY SHARES AND/OR EQUITY SECURITIES GIVING ACCESS TO OTHER EQUITY SECURITIES OR TO THE ALLOCATION OF DEBT SECURITIES AND/OR SECURITIES GIVING ACCESS TO ORDINARY SHARES WITH PRE-EMPTIVE RIGHTS

The purpose of this delegation of authority is to enable the Company to obtain financing any time through the issuance of ordinary shares and any type of securities giving, by any means, immediately and/or in the future, access to ordinary shares, by calling on the Company's shareholders. The Company's shareholders will be awarded, under the applicable legal provision and in proportion to their ownership interest in the Company's share capital, a preferential right to subscribe for new shares or securities. This detachable and negotiable right will make it possible, if the holder does not wish to subscribe to the capital increase, to financially offset the dilution resulting from the non-subscription to the capital increase.

The Company intends to use this delegation of authority to raise the funds and have the financial flexibility necessary to enable it to execute its strategic objectives, including, but not limited to, with respect to financing potential external growth. In particular, the implementation of this authorization could provide us quick access to a source of financing and allow us to respond quickly to changes in market conditions.

The share capital increases carried out pursuant to this authorization cannot exceed EUR28,929,000 i.e. approximately 300% of our share capital on the date of the 2024 Annual General Meeting. In the case of issuances of debt securities, the nominal amount of any issuances will be limited to EUR200,000,000.

The terms of the securities to be authorized, including dividend or interest rates, conversion prices, voting rights, redemption prices, maturity dates and similar matters would be determined by the board of directors. Any transaction where the Company sells such securities will be reviewed and approved by the board of directors at the time of issuance.

This delegation of authority would be granted for a 26-month period.

The Board of Directors shall be granted, within the limits set above, the powers required to set the terms for the issues and determine the issue price, and if applicable, record the execution of the resulting capital increases, amend the Bylaws accordingly, impute, as it sees fit, the costs of the capital increase to the amount of the related premiums and deduct the necessary sums from this amount to bring the statutory reserve to one tenth of the new share capital after each increase and more generally, perform all tasks required in similar matters.

The Board cannot, unless authorized in advance by the General Meeting, make use of this delegation in a period public offering initiated by a third party targeting the securities of the Company until the end of the offering period.

This delegation supersedes, as from the date hereof, the unused portion, if applicable, of the delegation of authority granted by the General Meeting of April 12, 2023, in its twentieth resolution.

DELEGATION OF POWERS TO BE GRANTED TO THE BOARD OF DIRECTORS TO ISSUE ORDINARY SHARES AND/ OR EQUITY SECURITIES GIVING ACCESS TO OTHER EQUITY SECURITIES OR TO THE ALLOCATION OF DEBT SECURITIES, AND/OR SECURITIES GIVING ACCESS TO EQUITY SECURITIES TO BE ISSUED, WITHOUT PRE-EMPTIVE RIGHTS, BY MEANS OF A PUBLIC OFFER (EXCLUDING THE OFFERS SET OUT IN PARAGRAPH 1 OF ARTICLE L.411-2 OF THE FRENCH MONETARY AND FINANCIAL CODE), AND/OR AS CONSIDERATION FOR SECURITIES IN THE CONTEXT OF A PUBLIC EXCHANGE OFFER

The Board of directors is requesting the necessary authority to issue through a public offering ordinary shares and/or any type of securities giving access, by any means, immediately or in the future, to ordinary shares.

Resolution 21 is intended:

To comply with the approach currently promoted by French regulatory authorities, pursuant to which, irrespective of whether a public offering is underwritten, this Resolution should be used to complete any such public offering because it is grounded on provisions of the French commerce code meant precisely for public offerings. In particular, if the end result of the planned transaction is a public offering of securities in France, Resolution 21 should be approved in order to ensure that the French regulatory authorities would view the financial delegations being granted at the Annual General Meeting as sufficient for all potential market participants; and

To allow for a direct public offering, without the involvement of underwriters.

Any issuance pursuant to this delegation would be carried out without shareholders' preferential subscription rights.

However, shareholders could be granted a priority subscription period in accordance with applicable French law.

Pursuant to the French Commercial Code, the issue price to be determined by the Board pursuant to this Resolution 21 shall be at least equal to the weighted average of the prices of the last three trading sessions preceding the beginning of the public offering, possibly reduced by a maximum discount of 10%.

The Company intends to use this delegation of authority to raise the funds and have the financial flexibility necessary to enable it to execute its strategic objectives. We do not intend to use it in the context of an unsolicited tender offer by a third party for DBV shares.

As a result, we believe that a share capital increase in an amount not to exceed EUR28,929,000, i.e. approximately 300% of our share capital on the date of the 2024 Annual General Meeting, will provide us with sufficient flexibility in pursuing our strategic objectives. In particular, the implementation of this authorization could provide us quick access to sources of financing, in a similar manner to U.S. companies, and allow us to respond quickly to changes in market conditions.

In the case of issuances of debt securities, the nominal amount of any issuances will be limited to EUR200,000,000. The amount of any debt securities issued will be subject to (and deducted from) the global limit of 200,000,000, and the amount of any share capital increase will be subject to the global limit of EUR28,929,000, i.e. approximately 300% of our share capital on the date of the 2024 Annual General Meeting, in each case as approved pursuant to Resolution 30.

This delegation of authority would be granted for a 26-month period.

Table of Contents

The Board of Directors shall be granted, within the limits set above, the powers required to set the terms for the issues and determine the issue price, and if applicable, record the execution of the resulting capital increases, amend the Bylaws accordingly, impute, as it sees fit, the costs of the capital increase to the amount of the related premiums and deduct the necessary sums from this amount to bring the statutory reserve to one tenth of the new share capital after each increase and more generally, perform all tasks required in similar matters.

The Board cannot, unless authorized in advance by the General Meeting, make use of this delegation in a period public offering initiated by a third party targeting the securities of the Company until the end of the offering period.

DELEGATION OF POWERS TO BE GRANTED TO THE BOARD OF DIRECTORS TO ISSUE ORDINARY SHARES AND/OR EQUITY SECURITIES GIVING ACCESS, AS THE CASE MAY BE, TO EQUITY SECURITIES OR TO THE ALLOCATION OF DEBT SECURITIES (OF THE COMPANY OR A GROUP COMPANY), AND/OR SECURITIES GIVING ACCESS TO ORDINARY SHARES (OF THE COMPANY OR A GROUP COMPANY), WITHOUT PRE-EMPTIVE RIGHTS, BY MEANS OF A PUBLIC OFFER REFERRED TO IN PARAGRAPH 1 OF ARTICLE L.411-2 OF THE FRENCH MONETARY AND FINANCIAL CODE

The goal of this delegation of authority is to allow the Company to issue ordinary shares and any type of securities giving access, by any means, immediately and/or in the future, to ordinary shares, in one or more private placements to qualified investors or to a limited circle of investors (less than 150) as described in paragraph 1° of Article L. 411-2 of the French Monetary and Financial Code.

Furthermore, the terms of this Resolution 22 set important limits on the amount of potential dilution. While our stock may vary, we believe that a share capital increase in an amount not to exceed EUR28,929,000 and not to exceed the limit determined by applicable laws and regulations at the time of the implementation of this delegation (on an indicative basis, currently 20% of the Company's share capital per year), which would be subject to and deducted from the global limit provided in Resolution 30, will provide us with sufficient flexibility in pursuing our plan.

In the case of issuances of debt securities, the nominal amount of any issuances will be limited to EUR200,000,000. The amount of any securities issued under Resolution 22 will be subject to (and deducted from) the global limits pursuant to Resolution 30.

Pursuant to the French Commercial Code, the issue price to be determined by the Board under this Resolution 22 shall be at least equal to the weighted average of the prices of the last three trading sessions preceding the beginning of the private placement, possibly reduced by a maximum discount of 10%.

In addition to Resolution 21 and Resolution 22, which are intended to enable the Board of Directors to increase the Company's share capital through a public offering or a private placement, the Board of Directors also is requesting the necessary authority to issue through a reserved offering Ordinary Shares or any type of securities giving access, by any means, immediately and/or in the future, to our share capital (including, without limitation, any bonds redeemable or convertible for Ordinary Shares and any warrants attached or not to Ordinary Shares or other types of securities).

The Company intends to use this delegation of authority to raise the funds and have the financial flexibility necessary to enable it to execute its strategic objectives. We do not intend to use it in the context of an unsolicited tender offer by a third party for DBV shares. As a result, we believe that a share capital increase in an amount not to exceed EUR28,929,000, i.e. approximately 300% of our share capital on the date of the 2024 Annual General Meeting, will provide us with sufficient flexibility in pursuing our strategic objectives. In particular, the implementation of this authorization could provide us quick access to sources of financing, in a similar manner to our U.S. competitors, and allow us to respond quickly to changes in market conditions.

The issue price of Ordinary Shares that may be issued under the scope of this delegation of powers will be set by the Board of Directors and must be at least equal to at the discretion of the Board of Directors or the Chief Executive Officer:

the last closing price of the Company's shares on the regulated market Euronext Paris prior to the date on which the issue price is set, possibly reduced by a maximum discount of 15%, or

the volume-weighted average of the Company's share price on the Euronext Paris regulated market over a period determined by the Board of Directors of between one to five consecutive trading days, chosen from the 30 trading days preceding the pricing date which may be reduced by a maximum discount of 15%.

The shareholders are asked to waive shareholders' preferential subscription rights to the Ordinary Shares and securities that would be issued by virtue of this delegation, and to reserve this subscription for the following category of persons:

natural person(s) or legal entity(ies), including companies, trusts, investment funds or other investment vehicle(s), regardless of their form, under French or foreign law, investing on a regular basis in the pharmaceutical, biotechnological or medical technology sector ; and/or

French or foreign companies, institutions or entities of any form, carrying out a significant portion of their business in these sectors or in the pharmaceutical chemical sector or in the field of medical devices or technologies or research in these areas ; and/or

French or foreign investment service provider(s), or any foreign establishment(s) with equivalent status, likely to guarantee the completion of an issue intended to be placed with the persons referred to in (a) and/or (b) above or within the framework of the implementation of an equity or bond financing line and, in this context, to subscribe to the securities issued.

In the case of issuances of debt securities, the nominal amount of any issuances will be limited to EUR 200,000,000.

Table of Contents

The amount of any debt securities issued will be subject to (and deducted from) the global limit of EUR200,000,000, and the amount of any share capital increase will be subject to the global limit of EUR28,929,000, i.e. approximately 300% of our share capital on the date of the 2024 Annual General Meeting, in each case as approved pursuant to Resolution 30.

This delegation of authority would be granted for an 18-month period.

The Board cannot, unless authorized in advance by a shareholder's general meeting, make use of this delegation in a period public offering initiated by a third party targeting the securities of the Company until the end of the offering period.

This delegation supersedes, as from the date hereof, the unused portion, if any, of the delegation of authority granted by the General Meeting of April 12, 2023, in its twenty-fourth resolution.

PROPOSAL NO. 28:

DELEGATION OF POWERS TO BE GRANTED TO THE BOARD OF DIRECTORS FOR THE PURPOSE OF DECIDING ON ANY OPERATION OF MERGER-ABSORPTION, DEMERGER, OR PARTIAL CONTRIBUTION OF ASSETS

Article L. 236-9 of the French Commercial Code provides that (i) the extraordinary shareholders meeting of the acquiring company may delegate to the board of directors its competence in making decisions relating to a merger for a period that cannot exceed 26 months and (ii) the extraordinary shareholders meeting of the acquiring company may determine the merger and grant to the board of directors the power to set definitive terms and conditions of such merger for a period that cannot exceed five years.

Pursuant to Resolution 28 and in accordance with the amended Article L. 236-9 of the French Commercial Code, we are asking shareholders to (i) delegate authority to the board of directors of the Company to decide on any merger-absorption, split or partial contribution of assets and (ii) grant to the board of directors full powers to implement this delegation, in accordance with the provisions set forth in French Laws and the by-laws of the Company, for the purpose of deciding all terms of any transaction that would be decided under this delegation.

If an operation by the board of directors pursuant to this delegation requires an increase in the Company's share capital, it must be carried out within the limits set forth in Resolution 29 (i.e., the maximum nominal amount of share capital increases to be completed pursuant to Resolution 29, immediately or in the future, may not exceed 10% of the share capital of the Company on the date of the decision to increase the share capital by the Board).

We are asking shareholders to approve Resolution 28 because this authorization granted to the Board would facilitate any potential external growth by paying all or part of the price with our securities, and we believe that shareholders' approval in these circumstances is often a cumbersome process and could create uncertainty with respect to the ability to consummate such a transaction. Additionally, we believe that the process of submitting such a transaction for shareholders' approval could prevent us from seizing opportunities in a timely manner. The delegation provided for in Resolution 28 is intended to simplify the merger-absorption process.

This delegation of authority would be granted for a 26-month period.

This delegation supersedes, as from the date hereof, the unused portion, if any, of the delegation of authority granted by the General Meeting of April 12, 2023, in its twenty-eighth resolution.

This limit does not apply to securities the issuance of which is decided or authorized by the board of directors in accordance with Article L. 228-40 of the French Commercial Code.

OVERALL LIMIT ON THE MAXIMUM AUTHORIZED AMOUNTS SET UNDER THE 21ST, 22^D, 24TH, 25TH, 26TH, 27TH AND 29TH RESOLUTIONS

The Board proposes that the shareholders set the total par value of any shares that may be issued under the 21st, 22^d, 24th, 25th, 26th, 27th and 29th Resolutions, at EUR28,929,000, i.e. approximately 300% of our share capital on the date of the 2024 Annual General Meeting. DELEGATION OF POWERS TO BE GRANTED TO THE BOARD OF DIRECTORS TO INCREASE THE SHARE CAPITAL BY THE ISSUE OF ORDINARY SHARES AND/OR SECURITIES GRANTING ACCESS TO THE CAPITAL, WITH PRE-EMPTIVE SUBSCRIPTION RIGHTS WAIVED IN FAVOR OF THE MEMBERS OF A COMPANY SAVINGS PLAN PURSUANT TO ARTICLES L. 3332-18 ET SEQ. OF THE FRENCH LABOR CODE

Under the provisions of Articles L. 225-129 et seq. and L. 225-138-1 of the French Commercial Code and the provisions of Articles L. 3332-1 et seq. of the French Labor Code, the Board of Directors is required to submit for approval by the shareholders a resolution to authorize the Board of Directors to increase the share capital through the issuance of shares and securities for the benefit of employees who are members of a Company savings plan (plan d' épargne groupe).

The aggregate nominal amount of share capital increases that would be carried out pursuant to this delegation of authority would not exceed 2% of the share capital at the date of this Annual General Meeting (this amount is separate to any other maximum amounts set by other authorizations relating to capital increases).

The price of any shares to be issued under this delegation may not be more than 30% (or 40% if the vesting period stipulated by the scheme pursuant to Articles L. 3332-25 and L. 3332-26 of the French Labor Code is greater than or equal to ten years) below the average opening price of our Ordinary Shares for the 20 trading days prior to the decision setting the date for the opening of subscriptions, nor may it be higher than this average.

Under the conditions set forth in Articles L. 3332-18 to L. 3332-23 of the French Labor Code, the Board of Directors would determine the issue price of the newly created shares or securities granting access to the share capital. For the benefit of the members of a company savings plan (plan d' épargne entreprise), the shareholders' preferential subscription right to the shares or securities would be eliminated.

However, approving this resolution will enable our Board of Directors to adopt such a company savings plan if it determines in the future that such a plan is appropriate to strengthen employee retention and further align employee and shareholder interests.

This delegation of authority would be granted for a 26-month period.

This delegation supersedes, as from the date hereof, the unused portion, if any, of the delegation of authority granted by the General Meeting of April 12, 2023, in its thirty-second resolution.

**PROPOSALS NOS. 33 TO 35:
EQUITY RESOLUTIONS**

The following is an overview of the equity plan-related proposals being submitted for the approval of our shareholders, which are described in more detail below.

Pursuant to Resolution 33 of the General Meeting of April 12, 2023, our shareholders authorized the Board of Directors to grant share warrants. As such authorization shall expire on October 12, 2024, in order to continue our equity compensation program beyond such date, pursuant to Resolution 33 below, we are requesting that our shareholders renew their prior authorization to the Board of Directors to grant, share warrants for the 18-month period following the date of the 2024 Annual General Meeting.

Pursuant to Resolutions 34 and 35 of the General Meeting of April 12, 2023, our shareholders authorized the Board of Directors to grant, respectively, (i) stock options to subscribe for or purchase Ordinary Shares, and (ii) free Ordinary Shares. As such authorizations will expire on October 12, 2024, in order to continue our equity compensation program beyond such date, pursuant to Resolutions 34 and 35 below, we are requesting that our shareholders renew their prior authorization to the Board of Directors to grant, respectively, stock options, and free Ordinary Shares for the 18-month period following the date of the 2024 Annual General Meeting.

PROPOSAL NO. 33:

**DELEGATION OF POWERS TO BE GRANTED TO THE BOARD OF DIRECTORS TO ISSUE STOCK WARRANTS (BSA),
SUBSCRIPTION AND/OR ACQUISITION OF NEW AND/OR EXISTING STOCK WARRANTS (BSAANE) AND/OR SUBSCRIPTION
AND/OR ACQUISITION OF NEW AND/OR EXISTING REDEEMABLE STOCK WARRANTS (BSAAR) WITH PRE-EMPTIVE
SUBSCRIPTION RIGHTS WAIVED IN FAVOR OF A CATEGORY OF PERSONS**

Our Board of Directors recommends the approval of this delegation of authority to grant warrants in order to ensure the Company can attract, recruit and compensate independent directors and consultants competitively by providing for customary compensatory grants to our existing and future non-employee directors.

To continue to attract and retain highly talented directors with deep industry knowledge and experience, we must be able to offer our directors compensation in line with market standards, which include an equity-based component. However, pursuant to French law, non-employee directors may not be granted stock options or free shares. As a result, the right to subscribe for BSAs is a key element of our current non-employee director compensation.

This delegation of authority is critical to our business strategy because it enables us to continue issuing BSAs, which is vital to our ability to attract and retain highly talented directors, compete with compensation arrangements provided by our U.S.-based peers and strengthen the alignment of our directors' interests with those of our shareholders.

We are also seeking authorization to grant BSAs to persons bound to the Company or one of its subsidiaries by a consultancy agreement who, pursuant to French law, cannot be granted stock options or free shares. In certain circumstances, it is important for the Company to be able to offer a long-term compensation element to such persons in order to engender loyalty in our highly competitive industry and align their incentives with the long-term interests of our shareholders.

The Board proposes the shareholders delegate to the Board of Directors, for a period of 18 months its competence to proceed, on one or more occasions, in the proportions and at the time it deems appropriate, both in France and abroad, with the issue of new stock warrants (BSA), subscription and/or acquisition of new and/or existing stock warrants (BSAANE) and/or subscription and/or acquisition of new and/or existing redeemable stock warrants (BSAAR) with cancellation of preferential subscription rights reserved for the categories of persons defined below.

The total nominal amount of shares to which the warrants issued pursuant to this delegation give entitlement may not exceed 0.5% of the share capital on the date of the allocation decision. To this maximum amount will be added, as necessary, the nominal amount of the capital increase necessary to preserve the rights of the holders of rights or securities giving access to the Company's capital, pursuant to the law, and where applicable, the contractual stipulations providing for other forms of preservation. This maximum amount is separate from all maximum amounts set by the other resolutions of this Annual General Meeting.

The issue price of the warrant will be fixed by the Board of Directors. In the event of assignment to non-executive directors, the warrant issue price will coincide with its market value.

The subscription and/or acquisition price of the shares acquired by exercising the warrants shall be at least equal to the average closing price of DBV Technologies' shares for the 20 trading days preceding the decision to issue the warrants, if applicable, less the warrant issue price.

Approval of this proposal eliminates the preferential subscription rights of shareholders to the BSAs, BSAANEs and BSAARs to be issued, to the benefit of the following categories of persons: corporate officers,

Table of Contents

scientific committee members, employees of the company and persons associated with the company and the French or foreign companies related to the company, via a service agreement or as a consultant, in accordance with Article L.225-180 of the French Commercial Code.

This delegation means that the shareholders waive their pre-emptive rights to shares that may be issued by the exercising of warrants to the holders of BSAs, BSAANEs and/or BSAARs.

The Board cannot, unless authorized in advance by the Annual General Meeting, make use of this delegation in a period public offering initiated by a third party targeting the securities of the Company until the end of the offering period.

The Board of Directors shall be granted all necessary powers, under the terms set by the law and stipulated above, to issue BSAs, BSAANEs and/or BSAARs and in particular to:

set the specific list of beneficiaries within the categories of persons defined above, the nature and number of warrants to be allocated to each beneficiary, the number of shares to which each warrant shall give entitlement, the issue price of the warrants and the subscription and/or acquisition price of the shares to which the warrants give entitlement under the terms outlined above, the terms and deadlines for the subscription and exercise of the warrants, the associated adjustment mechanisms and more generally, all terms and conditions with respect to the issue

prepare an additional report describing the final terms and conditions of the transaction;

conduct the necessary share acquisitions within the framework of the share buyback program and to allocate them via the allocation plan;

record the completion of the capital increase resulting from the exercising of the BSAs, BSAANEs and/or BSAARs and to amend the Bylaws accordingly;

at its sole discretion, impute the cost of the capital increase to the amount of the associated premiums and deduct the necessary sums from this amount to bring the statutory reserve to one tenth of the new share capital after each increase;

delegate, under the conditions provided for by law, the powers required to enact the capital increase, and to delay the capital increase, within the limits and according to the terms and conditions previously set by the Board of Directors;

and more generally, perform all tasks required in similar matters.

The validity of this delegation is set at 18 months from the date of the Annual General Meeting.

Description of Principle Features of the BSAs

Pursuant to SEC rules, we are providing the following description of the material terms of the BSA awards we expect to be included in our BSA award agreement letters.

Type of Awards. BSAs are granted at fair market value and entitle a holder to exercise the warrant for the underlying vested Ordinary Shares at an exercise price per share determined by the Board of Directors based and shall be at least equal to the average closing price of our Ordinary Shares for the 20 trading days preceding the decision to issue the warrants, if applicable, less the warrant issue price. We use BSAs as part of our compensation for non-employee directors and consultants.

Administration. Subject to shareholder approval of this Proposal No. 33, the Board of Directors will determine the recipients, dates of grant and exercise price of BSAs, the number of BSAs to be granted and the terms and conditions of the BSAs, including the period of their exercisability and their vesting schedule.

Table of Contents

Governing Law. The BSAs are governed by the laws of France.

Certain Federal Income Tax Consequences for U.S. holders. In general, no taxable income is realized by a participant upon the grant of a BSA. Rather, at the time of exercise of the BSA, the participant will recognize ordinary income for income tax purposes in an amount equal to the excess, if any, of the fair market value of the Ordinary Shares purchased over the sum of (a) the exercise price and (b) the subscription price paid at grant. The participant's tax basis in any Ordinary Shares received upon exercise of a BSA will be the fair market value of the Ordinary Share on the date of exercise, and if the shares are later sold or exchanged, then the difference between the amount received upon such sale or exchange and the fair market value of such shares on the date of exercise will generally be taxable as long-term or short-term capital gain or loss (if the shares are a capital asset of the participant) depending upon the length of time such shares were held by the participant.

New Plan Benefits

The benefits or amounts that will be awarded or allocated under the delegation of authority to grant BSAs are not determinable at this time because the number of shares underlying BSA awards depends on the Company's stock price, which cannot be predicted, the fair market value, the decision of directors of whether to subscribe for the BSA awards and the exercise of discretion by our Board of Directors.

This delegation supersedes, as from the date hereof, the unused portion, if any, of the delegation of authority granted by the General Meeting of April 12, 2023, in its thirty-third resolution.

Vote Required

Proposal No. 33 requires the affirmative vote of a 2/3 majority of the votes cast by the shareholders present in person, represented by proxy, or voting by mail at the Annual General Meeting and entitled to vote thereon. The votes cast will not include those attached to shares for which the shareholders did not participate in the vote, abstained or voted blank or void. Abstentions will not be counted as votes cast and will have no effect on the outcome of the votes.

PROPOSAL NO. 33.**

PROPOSAL NO. 34:

AUTHORIZATION TO BE GRANTED TO THE BOARD OF DIRECTORS TO ALLOCATE FOR FREE SHARES TO MEMBERS OF STAFF AND/OR CERTAIN CORPORATE OFFICERS OF THE COMPANY

Under French law, our Board of Directors must have a specific delegation of authority from shareholders to increase the Company's share capital by issuing free Ordinary Shares.

If approved, the new authorization to grant free shares options will supersede the authorization to grant free shares. The renewal of this authority is fundamental to our business strategy because it enables us to continue issuing free shares as necessary to attract and retain the high-quality executives and key employees that are critical to our success, while aligning employee interests with those of shareholders. For a detailed discussion of our executive compensation policy and objectives, see "Executive Compensation" elsewhere in this proxy statement.

Because we are a Nasdaq-listed company and considered a U.S. domestic registrant under SEC rules, our shareholders continue to benefit from the protections afforded to them under the rules and regulations of the Nasdaq and SEC, including those rules that limit our ability to issue shares in specified circumstances. In addition, we follow U.S. capital markets and governance standards to the extent permitted by French law and emphasize that this authorization is required as a matter of French law and is not otherwise required for other U.S. companies listed on the Nasdaq with which we compete.

The Board then proposes the shareholders authorize the Board of Directors, for a period of 18 months, to allocate existing or future Ordinary Shares in the Company, reserved for:

members of staff of the company or companies or economic interest groups that are directly or indirectly related to it as defined by Article L. 225-197-2 of the French Commercial Code;

and/or corporate officers who meet the conditions set out in Article L. 225-197-1 of the French Commercial Code.

The total number of shares that can be assigned free of charge pursuant to this authorization will not exceed 2% of the share capital on the date of the allocation decision. This limit will exclude, if applicable, the par value of any capital increase required to preserve the rights of the beneficiaries of bonus share awards in the event of transactions involving the Company's capital during the vesting period.

The allocation of shares to beneficiaries will become definitive after a vesting period to be determined by the Board of Directors, which may not be less than one year.

Beneficiaries shall, where applicable, be required to hold these shares for a period, set by the Board of Directors, at least equal to that necessary to ensure that the cumulative duration of the vesting and, where applicable, holding periods cannot be less than two years.

By way of exception, final allocation will take place before the end of the vesting period in the event that the beneficiary is classified as disabled under the second and third categories set out in Article L. 341-4 of the French Social Security Code.

All powers are granted to the Board of Directors:

to decide to issue shares and/or securities and to determine their characteristics, determine the amount to be issued, the issue price and the amount of the premium that can, if applicable, be demanded at

Table of Contents

issue, the terms and conditions of their subscription and payment and their date of entitlement to dividends, and to determine the dates and terms of issue, the nature, number and characteristics of the shares and/or securities to be created and issued;

in the event of the issue of stock warrants, to determine the number and characteristics of such warrants and to decide, if it deems appropriate, on terms and conditions to be determined by it, that the warrants may be redeemed or repurchased, or that they shall be allocated free of charge to the shareholders in proportion to their interest in the share capital;

more generally, to determine the characteristics of all securities and, in particular, the terms and conditions for the allotment of shares, the duration of loans that may be issued in the form of bonds, whether they are subordinated or not, the currency of issue, the terms of repayment of the principal, with or without premium, the terms and conditions of redemption and, where applicable, of purchase, exchange or early redemption, the interest rate, whether fixed or variable, and the date of payment ; the remuneration may include a variable portion calculated by reference to factors relating to the Company' s business and results and a deferred payment in the absence of distributable profits;

if applicable, to suspend the exercise of rights attached to the securities issued, for up to three months in accordance with legal and regulatory provisions;

at its sole discretion, to charge the costs of the capital increase against the amount of the related premiums and deduct the necessary sums from this amount to fund the legal reserve;

to determine and make all adjustments to take into account the impact of transactions on the Company' s capital or shareholders' equity;

to record each share capital increase and make the corresponding amendments to the by-laws;

generally, to enter into any agreements, take all measures and complete any formalities required for the issue and for the financial administration of the securities issued pursuant to this delegation and for the exercise of any attached rights and, more generally, perform all tasks required in this regard.

This authorization shall imply that shareholders waive their pre-emptive rights to subscribe to newly issued shares through the capitalization of reserves, share premium and profits.

Description of Principle Features of the Free Shares

Pursuant to SEC rules, we are providing the following description of the material terms of the free shares awards we expect to be included in our free shares award agreement letters.

Type of Awards. The 2023 free share plan is expected to provide for the grant of free shares to our employees and employees of any company or group in which we hold, directly or indirectly, 10% or more of the share capital or voting rights as of the date of grant. Participants in the 2023 free share plan are determined at the discretion of the Board of Directors subject to the terms of the 2023 free share plan.

Shares available. The total number of shares that can be assigned free of charge pursuant to this authorization will not exceed 2% of the share capital on the date of the allocation decision.

Administration. Subject to shareholder approval of this Proposal No. 34, the Board of Directors is expected to have the authority, in its discretion, to determine (i) the terms, conditions and restrictions applicable to free shares (which need not be identical) to any participant and any shares acquired pursuant to such grant and (ii) whether, to what extent, and under what circumstances an award of free shares may be settled, canceled, forfeited, exchanged or surrendered.

Vesting; Holding Period. Free shares are expected to vest at the times and upon the conditions that our Board of Directors may determine, as reflected in an applicable award grant letters and the 2024 free share plan, subject to waiver and release by our Board of Directors in its sole discretion. Awards of free shares granted under

Table of Contents

the 2024 free share plan generally are expected to vest on the basis of continued employment through the end of the vesting period and may require the satisfaction of performance conditions to be determined by the Board of Directors.

Equitable Adjustments. In the event certain changes occur our capitalization such as (i) an amortization or reduction of our share capital, (ii) a change to the allocation of our profits, (iii) a distribution of our free shares, (iv) the capitalization of reserves, profits, issuance premiums or (v) an issuance of shares or securities giving right to shares to be subscribed for in cash or by set-off of existing indebtedness offered exclusively to all our then-existing shareholders, the Board of Directors is expected to have the ability to adjust the maximum number of shares or take other such action as may be provided in Article L. 228-99 of the French Commercial Code.

Governing Law. The free shares are governed by the laws of France.

Certain Federal Income Tax Consequences For U.S. Taxpayers

The following is a summary of certain U.S. federal income tax consequences of an award of free shares granted under the 2024 free share plan, the material terms of which are discussed above. It does not purport to be a complete description of all applicable rules, and those rules (including those summarized here) are subject to change. The summary discusses only U.S. federal income tax laws and does not discuss any state or local or non-U.S. tax laws that may be applicable.

In general, the grant of an award of free shares will not result in U.S. taxable income for a U.S. taxpayer-recipient or in a U.S. tax deduction for DBV Technologies. Upon the vesting of the shares (or, if earlier, upon the timely filing of an election under Section 83(b) of the U.S. Internal Revenue Code of 1986, as amended), the U.S. participant will recognize ordinary income equal to the fair market value of the shares on the vesting date, subject to withholding for employees or former employees, and DBV Technologies (or the surviving corporation following a change in control) generally will be entitled to a tax deduction at the same time and in the same amount. If the shares are later sold or exchanged, then the difference between the amount recognized upon vesting and the sale or exchange value of such shares will generally be taxable as long-term or short-term capital gain or loss (if the shares are a capital asset of the participant) depending upon the length of time such shares were held by the participant.

New Plan Benefits

Awards of free shares are within the discretion of our Board of Directors. As a result, the benefits or amounts that will be awarded or allocated thereunder are not determinable at this time.

This delegation, for the part not used, if applicable, supersedes, as from the date hereof, the unused portion, if any, of the delegation of authority granted by the General Meeting of April 12, 2023, in its thirty-fourth resolution.

For the full text of Proposal No. 34, please see Annex A.

Vote Required

Proposal No. 34 requires the affirmative vote of a 2/3 majority of the votes cast by the shareholders present in person, represented by proxy, or voting by mail at the Annual General Meeting and entitled to vote thereon. The votes cast will not include those attached to shares for which the shareholders did not participate in the vote, abstained or voted blank or void. Abstentions will not be counted as votes cast and will have no effect on the outcome of the votes.

**THE BOARD OF DIRECTORS RECOMMENDS A VOTE “FOR”
PROPOSAL NO. 34.**

PROPOSAL NO. 35:

AUTHORIZATION TO BE GRANTED TO THE BOARD OF DIRECTORS TO GRANT SHARE SUBSCRIPTION AND/OR PURCHASE OPTIONS (STOCK OPTIONS) TO MEMBERS OF STAFF AND/OR CERTAIN CORPORATE OFFICERS OF THE COMPANY OR RELATED COMPANIES OR ECONOMIC INTEREST GROUPS

Under French law, our Board of Directors must have a specific delegation of authority from shareholders to increase the Company's share capital by issuing Ordinary Shares in the form of stock options.

As a result, the shareholders are asked to grant the Board of Directors the authority to issue and grant stock options, each representing a right to receive one Ordinary Share.

The renewal of this authority is fundamental to our business strategy because it enables us to continue granting options as necessary to attract and retain the high-quality executives and key employees that are critical to our success, while aligning executive and employee interests with those of shareholders. For a detailed discussion of our executive compensation policy and objectives, see "Executive Compensation" elsewhere in this proxy statement.

Because we are a Nasdaq-listed company and considered a U.S. domestic registrant under SEC rules, our shareholders continue to benefit from the protections afforded to them under the rules and regulations of the Nasdaq and SEC, including those rules that limit our ability to issue shares in specified circumstances. In addition, we follow U.S. capital markets and governance standards to the extent permitted by French law and emphasize that this authorization is required as a matter of French law and is not otherwise required for other U.S. companies listed on the Nasdaq with which we compete.

The Board then proposes the shareholders authorize the Board of Directors, for a period of 18 months, to grant the beneficiaries indicated below, on one or more occasions, options giving access to new shares in the company to be issued in respect of a capital increase or to the purchase of existing shares in the company as a result of buybacks carried out under the terms set by law.

The beneficiaries of these options may only be:

firstly, some or all members of staff, or certain categories of staff and where appropriate, those companies or economic interest groups related to it under the conditions of Article L. 225-180 of the French Commercial Code; or

secondly, corporate officers who meet the conditions set out in Articles L22-10-58 and L. 225-185 of the French Commercial Code.

The total number of options that may be granted by the Board of Directors under this authorization may not grant entitlement to subscribe to or purchase more than 7.5% of the share capital on the date of the allocation decision. To this amount will be added, as necessary, the par value of any capital increase necessary to preserve the rights of the beneficiaries of the options in the event of transactions involving the Company's capital, pursuant to the law and, if applicable, any contractual stipulations providing for other forms of preservation.

The subscription and/or acquisition price of the shares to be paid by the beneficiaries will be set on the day the options are granted by the Board of Directors in accordance with the regulations in effect and must not be less than the average opening price of the shares for the twenty trading days prior to the grant decision.

No options may be granted during the blackout periods set out in the regulations.

This authorization includes, in favor of the beneficiaries of options giving access to shares, an express waiver by shareholders of their pre-emptive rights to subscribe to the shares that will be issued as and when the options are exercised.

Table of Contents

Approval of this proposal delegates all powers to the Board of Directors to set the other terms and conditions for the granting of options and their exercise, in particular to:

determine the conditions under which the options shall be granted and to draft the list or categories of beneficiaries as scheduled above; to determine, where appropriate, the seniority and performance conditions that must be met by these beneficiaries; to determine the conditions under which the price and number of shares must be adjusted, particularly in the presumptions set out under Articles R. 225-137 to R. 225-142 of the French Commercial Code;

define the exercise period(s) for the options granted, with the understanding that the term of the options may not exceed a period of ten years from the grant date;

provide the option to temporarily suspend the exercise of options for a maximum period of three months in the event that financial transactions are performed involving the exercise of a right attached to shares;

if applicable, conduct the necessary share acquisitions within the framework of the share buyback program and to allocate them via the option plan;

proceed with all acts and formalities required to make final those capital increases that may, if necessary, be performed pursuant to the authorization granted by this resolution; amend the by-laws accordingly and generally to do whatever is necessary; or

at its own discretion and if it sees fit, impute the cost of increases in share capital to the amount of the associated premiums and deduct the necessary sums from this amount to bring the statutory reserve to one tenth of the new share capital after each increase.

Description of Principle Features of the Stock Options

Pursuant to SEC rules, we are providing the following description of the material terms of the stock option awards we expect to be included in our stock options award agreement letters.

Type of Awards. Stock options may be granted to any individual employed by us or by any affiliated company under the terms and conditions of an employment contract. Employee share options may also be granted to the chairman of our Board of Directors, our chief executive officer and our deputy chief executive officers, if any. Participants in the 2024 stock option plan are determined at the discretion of the Board of Directors subject to the terms of the 2024 stock option plan.

Stock Options are granted at fair market value and entitle a holder to exercise the option for the underlying vested Ordinary Shares at an exercise price per share determined by the Board of Directors based and shall be not less than the average opening price of DBV Technologies shares for the 20 trading days preceding the decision to issue the stock options (or, for U.S. taxpayers, at no less than the fair market value of DBV Technologies shares on the date of grant).

Shares available. The total number of options that may be granted by the Board of Directors under this authorization may not grant entitlement to subscribe to or to purchase more than 7.5% of the share capital on the date of the allocation decision. Under French law, the maximum number of shares issuable upon the exercise of outstanding stock options may not exceed one-third of the outstanding share capital on a non-diluted basis as of the date of grant.

Administration. Our Board of Directors has the authority to administer the 2024 stock option plan. Subject to the expected terms and conditions of the 2023 stock option plan, our Board of Directors determines the recipients, dates of grant, exercise prices, number of Ordinary Shares underlying and the terms and conditions of the stock options, including their periods of exercisability and their vesting schedules.

Table of Contents

The Board of Directors has the authority to amend or modify employee share options outstanding under the delegation under this Proposal No. 35, including in particular the authority to extend the post-termination exercise period of the options, subject to the written consent of the optionees holding such options, if such amendments or modifications impair the rights of the optionees.

Vesting; Holding Period. Stock options are expected to vest at the times and upon the conditions that our Board of Directors may determine, as reflected in an applicable award grant letters and the 2024 stock option plan, subject to waiver and release by our Board of Directors in its sole discretion. Awards of stock options granted under the 2024 stock option plan generally are expected to vest on the basis of continued employment or presence through the end of the vesting period and may require the satisfaction of performance conditions to be determined by the Board of Directors.

Equitable Adjustments. In the event of the carrying out by the company of any of the financial operations pursuant to Article L. 225-181 of the French Commercial Code as follows: (i) amortization or reduction of share capital, (ii) a change to the allocation of profits, (iii) a distribution of free shares, (iv) capitalization of reserves, profits or issuance premiums, (v) a distribution of reserves, or (vi) an issuance of shares or securities giving right to shares to be subscribed for in cash or by set-off of existing indebtedness offered exclusively to shareholders, the Board of Directors will take the required measures to protect the interest of the optionees in the conditions set forth in Article L. 228-99 of the French Commercial Code.

Governing Law. The stock options are governed by the laws of France.

U.S. Tax Limitations on incentive stock options. The aggregate fair market value, determined at the time of grant, of our Ordinary Shares issuable under incentive stock options that are exercisable for the first time by an optionee during any calendar year under all of our Stock Option Plans may not exceed \$100,000. Stock options, or portions thereof, that exceed such limit will generally be treated as non-statutory share options. No incentive stock option may be granted to any person who, at the time of the grant, owns or is deemed to own shares possessing more than 10% of our total combined voting power or that of any of our affiliates unless (1) the exercise price is at least 110% of the fair market value of the shares subject to the stock options on the date of grant and (2) the term of the incentive stock option does not exceed five years from the date of grant.

Certain Federal Income Tax Consequences for U.S. Taxpayers

The following is a summary of certain U.S. federal income tax consequences of an award of employee share options granted under the delegation under this Proposal No. 26, the material terms of which are discussed above. It does not purport to be a complete description of all applicable rules, and those rules (including those summarized here) are subject to change. The summary discusses only U.S. federal income tax laws and does not discuss any state or local or non-U.S. tax laws that may be applicable.

Incentive Stock Options

An optionee does not recognize income for regular income tax purposes as a result of the grant or exercise of a stock option that qualifies as an incentive stock option under Section 422 of the Code. However, the exercise of an incentive stock option may result in the recognition of income for purposes of the alternative minimum tax imposed under the Code, as described below. If an optionee exercises the option and then later sells or otherwise disposes of the ordinary Shares acquired through the exercise of the option after both the two-year anniversary of the date the option was granted and the one-year anniversary of the date of exercise, the optionee will recognize a capital gain or loss equal to the difference between the sale price of the ordinary Shares and the exercise price, and we will not be entitled to any deduction for federal income tax purposes.

However, if the optionee disposes of such ordinary Shares on or before *either* the two-year anniversary of the date of grant or on *or* the one-year anniversary of the date of exercise (a “disqualifying disposition”), any gain up to the excess of the fair market value of the Ordinary Shares on the date of exercise over the exercise

Table of Contents

price generally will be taxed as ordinary income, unless the Ordinary Shares are disposed of in a transaction in which the participant would not recognize a loss (such as a gift). Any gain in excess of that amount will be a capital gain. If a loss is recognized, there will be no ordinary income, and such loss will be a capital loss. Any ordinary income recognized by the optionee upon the disqualifying disposition of the Ordinary Shares generally should be deductible by us for federal income tax purposes, except to the extent such deduction is limited by applicable provisions of the Code.

For purposes of the alternative minimum tax, the difference between the option exercise price and the fair market value of the ordinary Shares on the exercise date is treated as an adjustment item in computing the optionee's alternative minimum taxable income in the year of exercise. In addition, special alternative minimum tax rules may apply to certain subsequent disqualifying dispositions of the Ordinary Shares or provide certain basis adjustments or tax credits.

Non-Statutory Stock Options

An optionee generally recognizes no taxable income as the result of the grant of a non-statutory employee share option. However, upon exercising the option, the optionee normally recognizes ordinary income equal to the amount that the fair market value of the ordinary Shares on such date exceeds the exercise price. If the optionee is or was an employee, such ordinary income generally is subject to withholding of income and employment taxes. Upon the sale of the Ordinary Shares acquired by the exercise of a non-statutory stock option, any gain or loss (based on the difference between the sale price and the fair market value on the exercise date) will be taxed as capital gain or loss.

New Plan Benefits

Awards of stock options are within the discretion of our Board of Directors. As a result, the benefits or amounts that will be awarded or allocated thereunder are not determinable at this time.

This delegation supersedes, as from the date hereof, the unused portion, if any, of the delegation of authority granted by the General Meeting of April 12, 2023, in its thirty-fifth resolution.

**COMPENSATION POLICY FOR CORPORATE OFFICERS
(SAY ON PAY EX ANTE)**

(Resolutions 14 to 16 presented to the Combined General Shareholders' Meeting of May 16, 2024)

Based on the recommendations of the Compensation Committee and considering the recommendations of the Middelnext Code, the Board of Directors has established a compensation policy for the following corporate officers of DBV Technologies): Chairman of the Board, Board members, Chief Executive Officer and Deputy Chief Executive Officers (if any).

1/ Compensation policy for the Chairman of the Board and for Board members

The compensation policy mentioned below is applicable to Board members and to the Chairman of the Board, when he/she does not hold the position of Chief Executive Officer. The components of the total compensation and benefits of any kind that may be granted to the Chairman and Board members in respect of their mandates, as well as their respective importance, are as follows:

Fixed compensation (fourteenth resolution)

The Chairman of the Board may receive an annual fixed compensation, which is determined in respect of practices noted in comparable companies, and which takes into account his specific functions as well as his membership of one or more committees, if applicable. For information purposes, as of the date of this report, the annual fixed compensation is set at 150,000 euros.

Compensation at the end of the mandate

The Chairman of the Board does not benefit from any agreement providing for an indemnity in the event of termination of his corporate mandate.

Compensation paid in respect of Board Member duties (fifteenth resolution)

In the 16th ordinary resolution submitted to the vote of the 2024 Annual General Meeting, it is proposed to set the remuneration of the Board members at the maximum annual sum of 800,000 euros valid for the current financial year and until further decision of the Annual General Meeting.

The criteria for allocating the fixed annual sum allocated by the Annual General Meeting to the Board members were set by the Board on the proposal of the Compensation Committee and take into account Committee membership and Committee chairmanship.

As of the date of this report, and for information purposes, the allocation of Board members' compensation is the following:

each Board member, with the exception of the Chairman of the Board and the CEO, is entitled to receive 100,000 euros.

the Chairman of the Audit Committee is entitled to receive an additional compensation of 20,000 euros.

the Chairman of the Compensation Committee is entitled to receive an additional compensation of 10,000 euros.

the Chairman of the Nominating and Governance Committee is entitled to receive an additional compensation of 10,000 euros.

Table of Contents

The members of the above-mentioned committees are entitled to receive an additional compensation of 5,000 euros.

The Board meeting on February 14, 2023, has added an additional criterion to the directors' compensation policy. The above allocation of compensation is calculated by considering the presence (physical or by means of videoconference or telecommunication means allowing their identification and guaranteeing their effective participation) of each member as follows:

- (b) For attendance at least 90% of the meetings of the Board of Directors and the Committees scheduled during the year: the director will be entitled to 100% of the amounts referred to above;
- (c) For attendance at less than 90% of the meetings of the Board of Directors and the Committees scheduled during the financial year: the compensation is calculated on a pro rata basis according to the actual attendance of the Director concerned.

The Board decided on February 12, 2024, to maintain the maximum annual sum of 800,000 euros and the above-mentioned allocation criteria.

Long-term compensation

The Company bases its long-term compensation policy on a global strategy of retention and motivation that is competitive in terms of market practices in the biotechnology industry.

Pursuant to this compensation policy, the Company may decide to grant share subscription warrants (BSA), at fair market value, to the Chairman of the Board and/or Board members.

Benefits of any kind

The Chairman of the Board and Board members may be entitled to be reimbursed for reasonable travel, accommodation and other expenses incurred in the interest of the Company, including attendance at meetings of the Board.

Compensation for exceptional missions

Board members may also receive additional compensation for exceptional missions carried out pursuant to a specific agreement.

Services agreements

The Company may enter into services agreements with any Board member for assignments that are distinct from their duties as Board members.

2/ Compensation policy for the Chief Executive Officer and/or for any other Executive Corporate Officer (sixteenth resolution)

The compensation policy mentioned below is applicable to the Chief Executive Officer, whether or not he or she simultaneously holds the position of Chairman of the Board.

The fixed, variable and exceptional items constituting the total compensation and benefits of any kind that may be granted to the Chief Executive Officer pursuant to his mandate, as well as their respective importance, are as follows:

Fixed compensation

The fixed compensation of the Chief Executive Officer is determined by considering the level and difficulty of the responsibilities, experience in the role and practices noted in comparable companies.

Table of Contents

The Board, in its meeting held on November 14, 2018, decided to set the fixed annual compensation of the Chief Executive Officer at US\$600,000. This amount remains unchanged as of the date of this report. This compensation is payable on a bi-monthly basis.

Annual variable compensation

The Chief Executive Officer receives annual variable compensation for which the Board, on the recommendations of the Compensation Committee, defines each year financial and non-financial performance criteria that are diversified and demanding, precise and pre-established, allowing a complete analysis of performance.

These criteria are aligned with the Company's short and medium-term strategy.

Each year, the Board determines the rate of achievement of each objective, according to a predefined scale, of the annual variable compensation.

For 2024, the criteria and objectives of the variable compensation are the following:

<u>Criteria</u>	<u>Description</u>	
Qualitative	72%	Execution of clinical studies and preparation of BLA files, Preparation of BLA module 3 in 1-3-year-olds, pipeline development, advancing preclinical programs
Quantitative	28%	Strengthen corporate capabilities, keep operating costs under control
Total	100%	

The maximum amount of annual variable compensation for the Chief Executive Officer corresponds to 150% of the annual fixed compensation, it being specified that if the overall rate of achievement of the objectives predefined by the Board is less than 50% (interpreted strictly), no annual variable compensation would be due.

Exceptional Compensation

The Board may decide on the proposal of the Compensation Committee, to grant exceptional compensation to the Chief Executive Officer in view of very special circumstances, and unrelated to the fixed and variable remuneration components. The payment of this type of compensation must be justified by an event such as the completion of a major event for the Company. The amount of the exceptional compensation may not exceed a maximum of 25% of the annual fixed compensation.

The payment of the variable and, where applicable, exceptional compensation components allocated to the Chief Executive Officer for the past financial year is subject to the approval by the Ordinary General Meeting of the compensation components paid to him during or allocated to him for the said financial year (ex post vote).

Long-term compensation

The Company's long-term compensation policy is part of an overall strategy to retain and motivate its managers and employees and to be competitive with market practices in the biotechnology industry.

The long-term compensation policy implemented for the Chief Executive Officer is mainly based on the granting of stock options based on the recommendations of the Compensation Committee. Where applicable, these grants may be subject to the satisfaction of performance conditions that may be set by the Board at the time of grant.

The vesting and exercise of the stock-options are subject to the fulfillment of a presence condition. Stock-options have a term of ten years.

Table of Contents

Additionally, the Chief Executive Officer is, in accordance with the law and methods adopted by the Board, required to retain a significant number of shares.

The Chief Executive Officer may also be granted free shares.

Benefits of any kind

In addition to the reimbursement of expenses incurred in the performance of his duties, the Chief Executive Officer may be reimbursed for the cost of his tax consultations and will benefit from a tax equalization clause with respect to his status as a US resident. He may also be reimbursed for the costs of legal advice incurred in the performance of his duties.

The Chief Executive Officer may also benefit from the coverage by the Company of his residence expenses in France.

Welcome bonus

When a new Chief Executive Officer is appointed, the Board may decide, on the recommendation of the Compensation Committee, to grant compensation, indemnity or benefit on taking up his/her duties.

Commitments made by the Company in the event of termination of the Chief Executive Officer's term of office

The Chief Executive Officer benefits from the following commitment:

Commitments made by the company

Severance indemnity

<u>Main characteristics</u>	<u>Criteria for award</u>	<u>Termination Conditions</u>
On December 12, 2018, the Board decided, in accordance with the recommendations of the Compensation Committee and in accordance with Article L.225-42-1 of the French Commercial Code, that in the event of termination of Mr. Daniel Tassé's duties as Chief Executive Officer, for any reason whatsoever, he would be paid a severance payment provided that all criteria have been met.	Severance package will therefore be paid to the Chief Executive Officer if all the following criteria are met: Viaskin Peanut approved on a major market; Construction of an EPIT pipeline with three trials in progress; 6 months' cash flow as determined by the expenses of the last quarter prior to the date on which he leaves his post.	In the event of termination without cause or for good reason outside of a change of control, the severance benefits get paid out over 12 months. In the event of termination without cause or for good in connection with a change of control, those same amounts get paid in a lump sum.
This commitment was approved by the Shareholders' Meeting of May 24, 2019, in its fifth ordinary resolution.	Compliance with these performance conditions will be established by the Board prior to any payment.	

The Chief Executive Officer does not benefit from any agreement providing for the payment of compensation in the event of resignation from his corporate office to carry out new functions.

Claw back policy

As a public company, if we are required to restate our financial results due to our material noncompliance with any financial reporting requirements under the federal securities laws as a result of misconduct, the CEO and Chief Financial Officer may be legally required to reimburse the Company for any bonus or other incentive-based or equity-based compensation they receive in accordance with the provisions of section 304 of the Sarbanes-Oxley Act of 2002, as amended. Additionally, we have implemented a Dodd-Frank Act-compliant clawback policy, as required by SEC rules.

This new provision of the compensation policy for the Chief Executive Officer was approved by a decision of the Board of Directors on November 20, 2023, in accordance with the Nasdaq rules, which required this provision to be adopted December 1, 2023, at the latest.

Compensation policy for any other Executive Corporate Officer

The principles and criteria for compensation mentioned above also apply to any other executive corporate officer of the Company (such as Deputy Chief Executive Officers).

For instance, Deputy Chief Executive Officers may therefore receive, pursuant to their mandate, fixed, variable and exceptional compensation as well as long-term compensation, benefits in kind and a welcome bonus under the same conditions as those described for the Chief Executive Officer.

They may also be granted with free shares. With respect to the allocation of free shares, vesting and, where applicable, holding periods are defined by the Board at the time of the grant and comply with the authorization of the General Meeting.

These levels of compensation will be determined taking into account the difficulty and degree of responsibility, experience in the position, seniority in the company, and practices observed in comparable companies.

Employment Contract

The Deputy Chief Executive Officers may benefit from an employment contract. The variable and fixed portions of the compensation received by the Deputy Chief Executive Officers under their employment contract, distinct from their corporate mandate, are subject to the same rules and criteria for determination, distribution and allocation as those set for the Company's employees.

Please refer to Annex E for information regarding the mandates and employment and/or service contracts of corporate officers entered into with the Company.

The recorded webcast of the Annual General Meeting will remain accessible on the Company's website for two years following the date of the Annual General Meeting.

These proxy materials will be mailed by the Depositary commencing on or about April 30, 2024, to all holders of the Company's ADSs, each representing one-half of one ordinary share of the Company, having a nominal value of 0.10 per share. The Company's registrar, Société Générale Securities Services, will commence mailing proxy materials to all holders of the Company's Ordinary Shares on or about April 29, 2024, in accordance with French law and requirements.

The enclosed materials are provided to allow you to vote at the Annual General Meeting. The Company has requested the Depositary to provide you with instructions on the voting process.

If you do not wish to vote as an ADS holder but rather wish to vote as a holder of the Company's Shares, you will need to arrange for the cancellation of your ADSs and become a Shareholder in France before the French Record Date. You are advised to proceed with the cancellation of your ADSs well in advance of the French Record Date as the cancellation of ADSs and the delivery of the corresponding Shares in France may be subject to unexpected processing delays.

Please note that the Company has informed the Depositary that in accordance with Article R. 225-85 of the French Commercial Code, if you are holder of Ordinary Shares that are registered in your name or in the name of an intermediary duly registered on your behalf as of Tuesday, May 14, 2024 at 00:00 A.M. (Paris time), which is the second business day prior to the meeting (the "French Record Date"), either in the registered share accounts or in the bearer share accounts held by their authorized intermediary, you will be eligible to vote your Ordinary Shares and you may vote in person at the Annual General Meeting. In order to exercise voting rights, holders of Share in bearer form are required to have their Shares registered in the name of a registered financial intermediary and obtain from an accredited financial intermediary, and provide to the Company, an attendance certificate attesting to the registration of such Shares in the financial intermediary's account as of the French Record Date.

Please further note that a holder as of the ADS Record Date who desires to exercise its voting rights with respect to ADSs representing Shares in registered or bearer form is required to: (a) be a holder of the ADSs as of the French Record Date, (b) deliver voting instructions to the Depositary by the ADS Voting Deadline, (c) instruct the Depositary to request that the Custodian deliver a voting form to the Company prior to the deadline established by the Company, and (d) in the case of ADSs representing Shares in bearer form, instruct the Depositary to request that the Custodian deposit the requisite attendance certificate with the Company. The delivery of voting instructions by an ADS Holder to the Depositary shall be deemed instructions to request delivery of the voting form and the attendance certificate.

If the Depositary receives from a Holder voting instructions which fail to specify the manner in which the Depositary is to vote the Deposited Securities represented by such Holder's ADSs, the Depositary will deem such Holder to have instructed the Depositary to vote in favor of all resolutions endorsed by the Company's board of directors. Deposited Securities represented by ADSs for which no timely voting instructions are received by the Depositary from the Holder shall not be voted. Additionally, the Company has informed the Depositary that, under French company law, shareholders holding a certain percentage of the Company's Shares, the workers'

council or the board of directors may submit a new resolution and the board of directors may also modify the resolutions proposed in the Company's Notice of Annual General Meeting. In such case, ADS Holders who have given prior instructions to vote on such resolutions shall be deemed to have voted in favor of the new or modified resolutions if approved by the Board and against if not approved by the Company's board of directors.

Upon receipt from a Holder (as of the ADS Record Date and who continues to hold the ADS as of the French Record Date) of a signed and completed Voting Instructions Card prior to the ADS Voting Instructions Deadline, the Depositary shall endeavor, insofar as practicable and permitted under applicable law and provisions of the Deposited Securities, to cause the Custodian to vote (or to cause to be voted by means of the appointment of a proxy or otherwise) the Shares in respect of which Voting Instructions have been received in accordance with the instructions contained therein.

Please note that Voting Instructions may be given only in respect of a number of ADSs representing an integral number of Shares.
