PROXY STATEMENT

This Proxy Statement is furnished in connection with the solicitation of proxies by the Board of Directors of Digital Fusion, Inc. (the "Company") for use at the 2005 Annual Meeting of Stockholders to be held on Tuesday, June 28, 2005 at 10:30 a.m. local time at the Huntsville Marriott located at 5 Tranquility Base, Huntsville, Alabama, or at any postponements or adjournments thereof. Your vote at the Annual Meeting is important to us. Please vote your shares of Digital Fusion common stock (the "Common Stock") by completing the enclosed proxy card and returning it in the enclosed envelope. The approximate date on which this Proxy Statement and the accompanying proxy card will be mailed to stockholders is May 10, 2005.

GENERAL INFORMATION ABOUT THE ANNUAL MEETING

What is the purpose of the Annual Meeting?

At our Annual Meeting, stockholders will act upon the matters outlined in the notice of meeting on the cover page of this Proxy Statement, including the election of seven directors, approval of an amendment to the Restated Certificate of Incorporation to increase the number of authorized shares of common stock, approval of the 2005 Stock Option Plan, and ratification of the appointment of our Company's independent auditors.

Who is entitled to vote?

Only stockholders of record at the close of business on May 2, 2005, the record date for the meeting, are entitled to receive notice of and to participate in the Annual Meeting. If you were a stockholder of record on that date, you will be entitled to vote all of the shares that you held on that date at the Annual Meeting, or any postponements or adjournments of the meeting. Each outstanding share of Common Stock owned by you on May 2, 2005 entitles you to one vote on each matter considered at the Annual Meeting. The enclosed proxy card shows the number of shares owned by you as of the record date.

Who can attend the Annual Meeting?

All stockholders of record as of the record date, or their duly appointed proxies, may attend the meeting.

What constitutes a quorum?

The presence at the Annual Meeting, in person or by proxy, of the holders of a majority of the aggregate voting power of the Common Stock outstanding on the record date will constitute a quorum. As of April 20, 2005, a total of 10,804,214 shares of Common Stock, representing the same number of votes, were outstanding. Thus, the presence of the holders of Common Stock representing at least 51% of the votes will be required to establish a quorum for the transaction of business at the Annual Meeting.

How do I vote?

If you complete and properly sign the accompanying proxy card and return it, your shares of Common Stock will be voted as you direct. If you are a registered stockholder and attend the meeting, you may deliver your completed proxy card in person. "Street name" stockholders who wish to vote at the meeting will need to obtain a proxy form from the institution that holds their shares.

Can I change my vote after I return my proxy card?

Yes. Even after you have submitted your proxy, you may revoke or change your vote at any time before the proxy is exercised by providing Elena I. Crosby, our Corporate Secretary, either a written notice of revocation or a duly executed proxy bearing a later date. The powers of the proxy holders will be suspended if you attend the Annual Meeting in person and so request, although attendance at the meeting will not by itself revoke a previously granted proxy.

What are the Board's recommendations?

Unless you give other instructions on your proxy card, the persons named as proxy holders on the proxy card will vote in accordance with the recommendations of the Company's Board of Directors. The Board's recommendation is set forth together with the description of each item in this Proxy Statement. In summary, the Board recommends a vote:

- for election of the nominated slate of Directors (see Proposal 1);
- for amending the Restated Certificate of Incorporation to increase the number of authorized shares of common stock (see Proposal 2);
- for approval of the adoption of the Digital Fusion, Inc. 2005 Stock Option Plan (see Proposal 3); and
- for ratification of the appointment of Pender Newkirk & Company as the Company's independent auditors for fiscal 2005 (see Proposal 4).

What vote is required to approve each item?

Election of Directors. The affirmative vote of a plurality of the votes cast at the Annual Meeting is required for the election of the directors. A properly executed proxy marked "Withhold Authority" with respect to the election of one or more directors will not be voted with respect to the director or directors indicated, although it will be counted for purposes of determining whether there is a quorum.

Other Items. For each other item, the affirmative vote of the holders of a majority of the shares represented in person or by proxy and entitled to vote on the item will be required for approval. A properly executed proxy marked "ABSTAIN" with respect to any such matter will not be voted, although it will be counted for purposes of determining whether there is a quorum. Accordingly, an abstention will have the effect of a negative vote.

If you hold your shares in "street name" through a broker or other nominee, your broker or nominee may not be permitted to exercise voting discretion with respect to some of the matters to be acted upon. Thus, if you do not give your broker or nominee specific instructions, your shares may not be voted on those matters and will not be counted in determining the number of shares necessary for approval. Shares represented by such "broker non-votes" will, however, be counted in determining whether there is a quorum.

What if other matters come up at the Annual Meeting?

Aside from the election of the directors, approval of an amendment to the Company's articles of incorporation to increase the number of authorized shares of the Company's common stock, approval of the 2005 Stock Option Plan and the

ratification of the selection of our auditors, the Board of Directors knows of no other matters to be presented at the Annual Meeting. If any other matter should be presented at the meeting upon which a vote properly may be taken, the shares represented by the proxy holders will be voted in the discretion of the proxy holders.

Who pays for this proxy solicitation?

We do. The proxies being solicited in connection with this Proxy Statement are being solicited by the Board of Directors and the costs will be borne by the Company. In addition to sending you these materials, some of our employees may contact you by telephone, by mail, or in person. None of these employees will receive any extra compensation for doing this. We will, upon request, reimburse brokerage firms and others for their reasonable expenses in forwarding solicitation material to the beneficial owners of our stock.

CORPORATE GOVERNANCE AND BOARD MATTERS

Board of Directors

During the fiscal year ended December 31, 2004, the Board of Directors held a total of six meetings (including regularly scheduled and special meetings) and took action twelve times by unanimous written consent. Each incumbent director attended all of the meetings of the Board held in 2004. The Board of Directors has three standing committees: an Audit Committee, Corporate Governance and Nominating Committee, and Compensation Committee. No incumbent director attended fewer than 75% of the total number of meetings held by all committees on which such director served.

Director Independence

The Board of Directors has determined that four out of five non-management directors, Messrs. Garner, Greene, Libutti and Lofty, are independent within the meaning of the director independence standards adopted by the Board of Directors and the director independence standards of The NASDAQ Stock Market (although the Company is not currently listed on the NASDAQ but has its securities traded on the Over the Counter Bulletin Board). Therefore, the Board has determined that a majority of our Company's seven person Board of Directors is currently independent as so defined.

Given that these same four non-management directors mentioned above constitute membership of the Audit Committee, the Corporate Governance and Nominating Committee, and the Compensation Committee of the Board of Directors, the foregoing independence determination included the conclusion that each of them is respectively:

- independent for purposes of membership on the Audit Committee under Rule 4350(d) of the NASDAQ listing standards, that includes the independence requirements of NASD Marketplace Rule 4200 and additional independence requirements under SEC Rule 10A-3(b);
- independent under the NASDAQ listing standards for purposes of membership on the Corporate Governance and Nominating Committee; and
- independent under the NASDAQ listing standards for purposes of membership on the Compensation Committee.

The NASDAQ listing standards require that our Company implement the revised requirements regarding director independence, independent committees, and regularly scheduled executive sessions at which only independent directors are present by the date of the Annual Meeting. It is presently contemplated that these executive sessions will occur at least once during the fiscal year ending December 31, 2005, in conjunction with regularly scheduled meetings of the Board of Directors, in addition to the separate meetings of the other key standing committees of the Board.

Board Committees and Charters. Our board currently has, and appoints the members of, audit, compensation, and nominating and corporate governance committees. Each member of the audit, compensation and nominating and corporate governance committees is an independent director in accordance with NASDAQ standards (although the Company is not currently listed on the NASDAQ but has its securities traded on the Over the Counter Bulletin Board). Each of our board committees has a written charter approved by our board. Copies of the current committee charters for each committee are posted on our website at www.digitalfusion.com/corporategovernance.htm.

The following table provides membership and meeting information for 2004 for each of the Board committees:

</TABLE>

- (1) Ahmad Al-Khaled resigned from the Board of Directors during January 2004.
- (2) Based upon our adopted charter requiring all member of the Compensation Committee to be independent, Mr. Crippen resigned from the Committee at the April 2004 Board Meeting.
- (3) Mr. Lofty was appointed as a member of the Board of Directors and Audit Committee on December 28, 2004.
- (4) Mr. Loglisci resigned from the Board of Directors during March 2005.

Below is a description of each committee of the Board of Directors. The charter of each committee can be found at our corporate website, at www.digitalfusion.com/corporategovernance.htm.

Audit Committee. The functions of the Audit Committee and its activities during fiscal year 2004 are described below under the heading Report of the Audit Committee. During the year, the Board examined the composition of the Audit Committee in light of the adoption by the Nasdaq Stock Market of new rules governing audit committees. Based upon this examination, the Board confirmed that the two members of the Audit Committee, Messrs. Greene and Loglisci are "independent" within the meaning of the Nasdaq's new rules. Mr. Greene is the independent director who has been determined to be an audit committee financial expert. Shareholders should understand that this designation is a disclosure requirement of the SEC related to Mr. Greene's experience and understanding with respect to certain accounting and auditing matters. The designation does not impose upon Mr. Greene any duties, obligations or liabilities that are greater than those that are generally imposed on him as a member of the audit committee and our board, and his designation as our audit committee financial expert pursuant to this SEC requirement does not affect the duties, obligations or liability of any other member of the audit committee or our board. The current members of the Audit committee, Messrs. Garner, Greene and Lofty, are "independent" within the meaning of NASDAQ's new rules. The Audit Committee met 3 times during fiscal 2004.

During fiscal 2000, the Audit Committee of the Board of Directors developed a charter for the Audit Committee, which was approved by the full Board on August 2, 2000. The charter, a copy of which is attached as Appendix A remains effective and is posted on our website at www.digitalfusion.com/corporategovernance.htm.

Mr. Al-Khaled, who resigned as a Director of the Company effective January 17, 2004, was an independent member of the Audit Committee.

Compensation Committee. The Compensation Committee, subject to existing contractual obligations, is responsible for setting and administering the policies that govern executive compensation and the granting of employee stock options. The Compensation Committee met one time and acted nine times by unanimous written consent during fiscal (200)(4)(.)

Because our adopted charter requires all members of the Committee to be independent, Mr. Crippen resigned from the Committee at the April 2004 Board Meeting. The current members of the Compensation committee, Messrs. Garner, Greene and Lofty, are "independent" within the meaning of NASDAQ's new rules.

The Compensation Committee acts pursuant to a written charter adopted by the Board on April 27, 2004, which is posted on our website at www.digitalfusion.com/corporategovernance.htm and was attached to our 2004 proxy statement as Appendix B.

Nominating and Corporate Governance Committee. We have a Nominating and Corporate Governance Committee currently consisting of Messrs. Greene and Lofty. The Nominating and Corporate Governance Committee was formed in April 2004. The Nominating and Corporate Governance Committee acts pursuant to a written charter adopted by the Board on April 27, 2004, which is posted on our website at www.digitalfusion.com/corporategovernance.htm. The purpose of the Nominating and Corporate Governance Committee is to:

- identify individuals qualified to become members of the Board of Directors of the Company and its subsidiaries;
- recommend to the Board of Directors director nominees for election at the annual meeting of shareholders or for election by the Board of Directors to fill open seats between annual meetings;

- recommend to the Board of Directors committee appointments for directors;
- develop and recommend to the Board of Directors corporate governance guidelines applicable to the Company; and
- monitor the Company's compliance with good corporate governance standards.

In connection with carrying out its responsibility to identify individuals qualified to become members of the Board of Directors, the Committee has developed guidelines and criteria as to the desired qualifications of candidates for nomination for election as a director of the Company. Under our Corporate Governance Guidelines, such criteria include considerations of age, skill, integrity, experience, time availability, appropriate listing standards, and applicable federal and state law and regulation. Such guidelines and criteria have been approved by the Board and are available on the Company's website at www.digitalfusion.com/corporategovernance.htm.

The Committee may use various sources for identifying and evaluating nominees for Directors including referrals from our current Directors and management, as well as input from third party executive search firms retained at the Company's expense. If the Committee retains one or more search firms, such firms may be asked to identify possible nominees, interview and screen such nominees and act as a liaison between the Committee and each nominee during the screening and evaluation process. The Committee will review the resume and qualifications of each candidate and determine whether the candidate would add value to the Board. With respect to candidates that are determined by the Committee to be potential nominees, the Committee will obtain such background and reference checks as it deems necessary and the Chair of the Committee and the Chairman of the Board will interview qualified candidates. Once it is determined that a candidate is a good prospect, the candidate will be invited to meet the other members of the Committee. If the candidate is approved by the Committee, the candidate will have an opportunity to meet with the remaining Directors and the senior management team. At the end of this process, if the Committee determines that the candidate will be able to add value to the Board and the candidate expresses his or her interest in serving on the Board, the Committee will then recommend to the Board that the candidate be selected by the Board to stand for election by the shareholders or fill a vacancy or newly created position on the Board.

The Committee will also consider qualified nominees recommended by shareholders who may submit recommendations, in accordance with our bylaws and applicable SEC rules and regulations, to the Committee in care of our Corporate Secretary, Digital Fusion, Inc., 4940-A Corporate Drive, Huntsville, Alabama 35805. Any shareholder nominating an individual for election as a director at an annual meeting must provide written notice to the Secretary of the Company, along with the information specified below, which notice must be received at the principal business office of the Company no later than the date designated for receipt of shareholders' proposals as set forth in the Company's proxy statement for its annual shareholders' meeting.

To be considered by the Committee, shareholder nominations must be accompanied by: (1) the name, age, business and residence address of the nominee; (2) the principal occupation or employment of the nominee for at least the last five years and a description of the qualifications of the nominee; (3) the number of shares of our stock that are beneficially owned by the nominee; and (4) any other information relating to the nominee that is required to be disclosed in solicitations for proxies for election of Directors under Regulation 14A of the Securities Exchange Act of 1934, together with a written statement from the nominee that he or she is willing to be nominated and desires to serve, if elected. Also, the shareholder making the nomination should include: (1) his or her name and record address, together with the name and address of any other shareholder known to be supporting the nominee; and (2) the number of shares of our stock that are beneficially owned by the shareholder making the nomination and by any other supporting shareholders. Nominees for Director who are recommended by our shareholders will be evaluated in the same manner as any other nominee for Director.

We may require that the proposed nominee furnish us with other information as we may reasonably request to assist us in determining the eligibility of the proposed nominee to serve as a Director. At any meeting of shareholders, the Chairman of the Board may disregard the purported nomination of any person not made in compliance with these procedures.

In addition to its responsibility with respect to the nomination of directors, the Committee also is responsible for establishing, reviewing and monitoring compliance with the Company's Corporate Governance Guidelines, including the Company's Code of Ethics and Business Conduct. The Committee will annually review the Corporate Governance Guidelines and the Code of Ethics and

recommend modifications, as it deems necessary. Further, the Committee is charged with the review and consideration of any issues that may involve possible director conflicts of interest.

The Committee is governed by a written charter, which will be reviewed on an annual basis. Certain Relationships and Related Transactions

During March 2000, the Company purchased digital fusion, inc. ("DFI"), an information technology consulting services company. Roy E. Crippen, III received 399,396 shares of the Company's common stock for his ownership interests in DFI and a promissory note in the original principal amount of \$215,891. On November 12, 2002, the Company renegotiated the terms of this note; which extended the maturity date from March 1, 2003 to March 1, 2005 and increased the interest rate from 6% to 8 % per annum. All accrued interest was converted into principal at March 2, 2003 which increased the principal of the note to \$258,123. Roy E. Crippen, III joined the Board of Directors of the Company in March 2000 and is the Company's current Chief Executive Officer and President.

During 2004, a note to PowerCerv Corporation was paid by Digital Fusion's President and CEO, Roy E. Crippen, III, tendering to PowerCerv \$110,000 in cash and 25,000 shares of PowerCerv preferred stock. In consideration therefor, Digital Fusion issued a note to Mr. Crippen in the amount of \$136,580.32 (representing the amount of principal and interest on the PowerCerv note at the time of its retirement). The note bears an interest rate of prime plus 6% and is payable at \$600 per month plus interest for the first twelve months, \$4,400 per month plus interest for the next eleven months, and a balloon payment of approximately \$81,000 plus interest on January 15, 2006. Subject to a subordination agreement with Digital Fusion's primary lender, the note is secured by a security interest in property currently owned or later acquired by the Debtor (Digital Fusion) to secure the prompt payment and performance of all liabilities, obligations, and indebtedness of the Debtor under the note.

On April 29, 2005, the Company and Mr. Crippen agreed to consolidate the two promissory notes described in the two preceding paragraphs. The resulting obligation is a convertible promissory note in the principal amount of Three Hundred and Seventy Four Thousand Three Hundred and Three and 52/100 Dollars (\$374,303.52). Interest at the prime rate is payable monthly, and the entire principal amount is due on April 29, 2007. Mr. Crippen has the option of converting the principal portion of the note into common stock of the Company at a conversion price equal to the sum of the 10-day average closing price of the common stock immediately prior to the date of the note, multiplied by 115%. Additionally, Mr. Crippen is granted piggy-back registration rights for any shares of common stock that are acquired by conversion.

Report of the Audit Committee

The following Report of the Audit Committee does not constitute soliciting material and should not be deemed filed or incorporated by reference into any other Company filing under the Securities Act of 1933 or the Securities Exchange Act of 1934, except to the extent the Company specifically incorporates this Report by reference therein.

The Audit Committee reviewed and discussed the Company's December 31, 2004 audited financial statements with the Company's management and have discussed with Pender Newkirk & Company ("PNC"), our independent auditors for our 2004 financial statements, the matters required to be discussed by the Statement on Auditing Standards No. 61 (Communication with Audit Committees).

The audit committee has received written disclosures and a letter from PNC as required by the Independence Standards Board Standard No. 1, Independence Discussions with Audit Committees, and the committee has discussed the issue of auditor independence with PNC.

Based on this review and these discussions, we recommended to the board of directors that these audited financial statements be included in our Annual Report on Form 10-KSB for the fiscal year ended December 31, 2004.

PNC did not provide any services other than annual audits, quarterly reviews and a review of the Company's Employee Benefit Plan.

Generally, the Committee pre-approves particular services in the defined categories of audit services, audit-related services, tax services and other non-audit services, specifying the maximum fee payable with respect to that service. Pre-approval may be given as part of the Audit Committee's approval of the scope of the engagement of the independent auditor or on an individual explicit case-by-case basis before the independent auditor

is engaged to provide each service. The pre-approval of services may be delegated to one or more of the Audit Committee's members, but as of April 20, 2005, has not been so delegated.

REPORT OF THE COMPENSATION COMMITTEE

The compensation committee of the Board of Directors administers our executive compensation program. The current members of the compensation committee are Jay M. Garner, O.G. Greene and Charles F. Lofty. Each of these persons is a non-employee director within the meaning of Section 16 of the Securities Exchange Act of 1934, as amended, and an "outside director" within the meaning of Section 162(m) of the Internal Revenue Code. The Board has determined that each said member is "independent" within the meaning of NASDAQ's new rules. None of Messrs. Garner, Greene and Lofty has any interlocking relationships as defined by the rules promulgated by the SEC.

General Compensation Philosophy

The role of the compensation committee is to set the salaries and other compensation of the executive officers and certain other key employees of Digital Fusion, and to make grants under, and to administer, the stock option and other employee equity and bonus plans. Digital Fusion's compensation philosophy for executive officers is to relate compensation to corporate performance and increases in stockholder value, while providing a total compensation package that is competitive and enables Digital Fusion to attract, motivate, reward and retain key executives and employees. Accordingly, each executive officer's compensation package may, in one or more years, be comprised of the following three elements:

- base salary that is designed primarily to be competitive with base salary levels in effect at high technology companies in similar locations that are of comparable size to Digital Fusion and with which Digital Fusion competes for executive personnel;
- annual variable performance awards, such as bonuses, payable in cash and tied to the achievement of performance goals, financial or otherwise, established by the compensation committee; and
- long-term stock-based incentive awards which strengthen the mutuality of interests between the executive officers and Digital Fusion's stockholders.

Executive Compensation

Base Salary. Salaries for executive officers for 2004 were generally determined on an individual basis by evaluating each executive's scope of responsibility, performance, prior experience and salary history, as well as the salaries for similar positions in similar locations at comparable companies. In addition, Digital Fusion's Human Resources Department provided information to us regarding salary range guidelines for specific positions.

Base salary is adjusted each year to take into account the executive officer's performance and to maintain a competitive salary structure. We conduct reviews of executive compensation practices on an annual basis and may change each executive officer's salary based on the individual's contributions and responsibilities over the prior twelve months and any change in median comparable company pay levels. We believe that, on the basis of our knowledge of executive compensation in the industry, that Digital Fusion's salary levels for the executive officers are reasonable and necessary given the competition for executive talent in the industry and Digital Fusion's financial resources.

Bonus Plan. Digital Fusion has established a broad based bonus plan. Certain employees, including executive officers, are eligible to participate in this plan. Target bonuses become payable upon the achievement of specified total company financial goals and personal and team objectives. We administer this plan with regard to executive management. The executive management team administers the plan for all other employees.

Digital Fusion's total compensation philosophy is based on the concept that variable pay is earned through effective performance and contribution to the success of the company. Bonus payments are based on actual performance in achieving corporate, business unit (or divisional) and individual targets. The executive management team determines weightings for each element and establishes the corporate financial goals for bonus measurement purposes. The executive management team is responsible for ensuring that actual results are confirmed before they are applied against the bonus plan for payment purposes. The corporate target is based on Digital Fusion's earnings per share, total consolidated revenue, and success in managing corporate expenses to plan. Each business unit or divisional vice president is responsible for developing the targets and objectives for their division. All targets and objectives are aligned with the business plan for the fiscal year and monitored by Digital

Fusion's corporate finance department. Individual performance is measured relative to the individual's personal contribution to the success of the organization. This element is objective and tied to individual documented objectives for the bonus year. All targets and related objectives are defined and measured on a quarterly basis, with a final annual measurement.

Long-Term Incentive Awards. We believe that equity-based compensation in the form of stock options links the interests of executive officers with the long-term interests of Digital Fusion's stockholders and encourages executive officers to remain in Digital Fusion's employ. Stock options generally have value for executive officers only if the price of Digital Fusion's stock increases above the exercise price on the grant date and the officer remains in Digital Fusion's employ for the period required for the shares to vest.

Digital Fusion has granted stock options in accordance with the 1998, 1999 and 2000 Digital Fusion, Inc. Incentive Stock Options Plans. Stock options typically have been granted to executive officers when the executive first joins Digital Fusion, in connection with a significant change in responsibilities and, occasionally, to achieve equity within a peer group. We may, however, grant additional stock options to executive officers for other reasons. The number of shares subject to each stock option granted is within our discretion and is based on anticipated future contribution and ability to impact Digital Fusion's results, past performance or consistency within the executive officer's peer group. In 2004, we considered these factors, as well as the number of unvested option shares held by the executive officer as of the date of grant. We may also grant stock options to executive officers to provide greater incentives to continue their employment with Digital Fusion and to strive to increase the value of Digital Fusion's common stock. The stock options generally become exercisable over a three-year period and are granted at a price that is equal to the fair market value of Digital Fusion's common stock on the date of grant.

Chief Executive Officer Compensation

Mr. Crippen's base salary, target bonus, bonus paid and long-term incentive awards for 2004 were determined by us in a manner consistent with the factors described above for all executive officers. Mr. Crippen's base salary for 2004 was set at the annual rate of \$137,200. Mr. Crippen did not receive a bonus for 2004. Any bonuses would be paid in accordance with Digital Fusion's regular bonus plan and would be based on Digital Fusion's actual performance in any given year, in achieving corporate financial and other targets described above as compared to planned results for these criteria. We also considered Mr. Crippen's achievement of his individual objectives. An important aspect of Digital Fusion's continued success was, and will continue to be, Mr. Crippen's

leadership in developing and articulating the long-term strategic direction of Digital Fusion, as well as his continued attention to the development of the appropriate senior management team to support and execute that strategy. Finally, in considering competitive compensation practices with respect to Mr. Crippen's total compensation, we paid particular attention to the compensation practices of competitor companies and sought to assure that Mr. Crippen's total compensation was appropriate relative to the total compensation paid to the chief executive officers at similarly situated companies.

Internal Revenue Code Section 162(m) Limitation

Section 162(m) of the Internal Revenue Code limits the tax deduction to \$1.0 million for compensation paid to certain executives of public companies, unless compensation is commission- or performance-based. Having considered the requirements of Section 162(m), we believe that grants made pursuant to the 1998, 1999 and 2000 Incentive Stock Option Plans meet the requirements that such grants be "performance based" and are, therefore, exempt from the limitations on deductibility.

A Stock Option Change of Control is deemed to occur if any of the following events occur:

- (i) Any "person" or "group" within the meaning of Sections 13(d) and 14(d)(2) of the Securities Exchange Act of 1934, as amended (the "Exchange Act"), (a) becomes the "beneficial owner," as defined in Rule 13d-3 under the Exchange Act, of 50% or more of the combined voting power of Digital Fusion's then outstanding securities, otherwise than through a transaction or series of related transactions arranged by, or consummated with the prior approval of, the Board of Directors of Digital Fusion; or (b) acquires by proxy or otherwise the right to vote 50% or more of the then outstanding voting securities of Digital Fusion, otherwise than through an arrangement or arrangements

consummated with the prior approval of the Board for the election of directors, for any merger or consolidation of Digital Fusion or for any other matter or question.

(ii) During any period of 24 consecutive months, Present Directors and/or New Directors (each as defined in the 1998, 1999 or 2000 Stock Option Plan) cease for any reason to constitute a majority of the Board.

(iii) Consummation of (a) any consolidation or merger of Digital Fusion occurs in which Digital Fusion is not the continuing or surviving corporation or pursuant to which shares of our stock would be converted into cash, securities or other property, other than a

merger of Digital Fusion in which the holders of Digital Fusion's stock immediately prior to the merger have the same proportion and ownership of common stock of the surviving corporation immediately after the merger; or (b) any sale, lease, exchange or other transfer (in one transaction or a series of related transactions) of all, or substantially all, of the assets of Digital Fusion occurs.

PROPOSAL 2 - APPROVAL OF AN AMENDMENT TO THE RESTATED CERTIFICATE OF INCORPORATION TO INCREASE THE NUMBER OF AUTHORIZED SHARES OF COMMON STOCK

The Board of Directors has approved an amendment to the second sentence of the article numbered "Fourth" of the Company's Restated Certificate of Incorporation to increase the number of authorized shares of common stock the Company is authorized to issue from Sixteen Million (16,000,000) shares to Thirty Million (30,000,000) shares. The Company's authorized Preferred Stock of One Million (1,000,000) shares will remain unchanged.

Under the proposed amendment, the second and third sentences of the article numbered "Fourth" would be amended as follows:

"The total number of shares of all classes of stock that the Corporation shall have the authority to issue is Thirty-One Million (31,000,000) shares, of which Thirty Million (30,000,000) shall be Common Stock, having a par value of \$0.01 per share (the "Common Stock"), and One Million (1,000,000) shares shall be classified as Preferred Stock, par value \$0.01 per share (the "Preferred Stock")."

As of April 20, 2005 approximately 10,804,214 of the Company's sixteen million currently authorized shares of common stock were issued and outstanding. Of the remaining authorized shares of common stock, approximately 4.7 million were reserved for issuance in connection with the Company's benefit plans, the exercise of stock warrants, and conversion of the convertible notes.

Our Board of Directors believes that it is in the best interests of the Company and our stockholders to increase the number of authorized shares of our common stock to insure that we have a sufficient number of shares for future issuance. The availability of such shares will provide us with flexibility to issue common stock to meet our business and financial needs, such as an equity offering to raise capital and adoption or renewal of Company benefit plans. Further, our Board of Directors believes the availability of additional shares of common stock will enable us to attract and retain talented employees through the grant of stock options or other stock-based incentives.

If this proposal is approved, all or a portion of the newly authorized shares may be issued without any further stockholder action, except as required by applicable law, and without first offering these shares to the Company's then existing stockholders for purchase. Any issuance of these shares, other than on a pro-rata basis to all stockholders, would decrease the existing stockholders' percentage equity ownership and, depending on the price at which they are issued, could be dilutive to the existing stockholders. The holders of common stock have no preemptive rights.

The Company does not have any current plans, agreements or understandings under which any of the additional shares of the common stock to be authorized would be issued.

The Board has unanimously adopted this proposed amendment to the Restated Certificate of Incorporation and directed that the proposed amendment be submitted to the stockholders of the Company for their approval at the annual meeting. If approved by the stockholders, this amendment will become effective upon its filing with the Secretary of State of Delaware.

Recommendation of the Board of Directors

The Board of Directors recommends a vote "FOR" the proposal to amend the Restated Certificate of Incorporation to increase the number of authorized shares of common stock.

PROPOSAL 3 - APPROVAL OF 2005 STOCK OPTION PLAN

Being submitted to the stockholders for approval at the 2005 Annual Meeting is the 2005 Digital Fusion, Inc. Stock Option Plan (the "2005 Stock Option Plan"), an incentive and non-qualified stock option plan which authorizes the issuance of up to 750,000 shares of our common stock. The 2005 Stock Option Plan was approved by the Board of Directors subject to stockholder approval. If the 2005 Stock Option Plan is approved, the 750,000 shares of common stock being authorized will be used to grant non-qualified stock options to our employees, directors, officers and consultants and incentive stock options to our employees.

With respect to incentive stock options, the 2005 Stock Option Plan provides that the exercise price of each such option must be at least equal to 100% of the fair market value of our common stock on the date of grant (110% in the case of stockholders who, at the time the option is granted, own more than 10% of the outstanding common stock), and requires that all such options have an expiration date not later than that date which is one day before the tenth anniversary of the date of the grant (or the fifth anniversary of the date of grant in the case of 10% stockholders). Pursuant to the provisions of the 2005 Stock Option Plan, the aggregate fair market value, determined as of the date(s) of grant, for which incentive stock options are first exercisable by an option holder during any one calendar year cannot exceed \$100,000.

With respect to non-qualified stock options, the 2005 Stock Option Plan requires that the exercise price of all such options be at least equal to 100% of the fair market value of our common stock on the date such option is granted and requires that all such options have an expiration date not later than that date which is one day before the tenth anniversary of the date of the grant of such option.

The Board of Directors believes that the Company and its stockholders have benefited from the grant of stock options in the past and that similar benefits will result from the adoption of the 2005 Stock Option Plan. It is believed that stock options play an important role in providing eligible employees with an incentive and inducement to contribute fully to our Company's and our subsidiaries' further growth and development because of the opportunity to acquire a proprietary interest in the Company on an attractive basis. Our current policy is to grant every full-time employee an option to purchase a minimum of 250 shares of common stock.

Options granted under the 2005 Stock Option Plan terminate on the date the optionee's relationship with us is terminated except if termination is by reason of death or disability. In such event, the option remains exercisable for three months after the optionee's death or termination of employment by reason of disability (twelve months in the case of incentive stock options). If an optionee's employment or service is terminated within three months following a Stock Option Change of Control, then the options will remain exercisable for three months after the optionee's termination.

The Board of Directors has a limited right to modify or amend the 2005 Stock Option Plan, which does not include the right to increase the number of shares available for the grant of options.

During the term of the 2005 Stock Option Plan, our eligible employees will receive, for no consideration prior to exercise, the opportunity to profit from any rise in the market value of our common stock. This will dilute the equity interest of our other stockholders. The grant and exercise of the options also may affect our ability to obtain additional capital during the term of any options.

The 2005 Stock Option Plan will be administered by the Compensation Committee appointed by the Board of Directors. The Compensation Committee is comprised of Messrs. Garner, Greene and Lofty. The description of the proposed 2005 Stock Option Plan set forth above is a summary of various provisions of the 2005 Stock Option Plan and is not a complete description of the plan. The Plan is attached to this proxy statement as Appendix A.

Federal Income Tax Consequences

The following is a summary of the federal income tax treatment of the stock options which may be granted under the 2005 Stock Option Plan based upon the

current provisions of the Internal Revenue Code. This summary does not purport to be a complete and detailed description of all possible tax consequences to the recipient of a stock option. It describes the federal tax consequences in effect as of the date of this Proxy Statement. Each holder of a stock option is advised to consult his or her tax advisor because tax consequences may vary depending on the individual circumstances of the holder.

An option holder who exercises a non-qualified stock option will recognize taxable compensation at the date of exercise with respect to the difference between the fair market value of the option shares at exercise and the exercise price paid to purchase such shares. Digital Fusion is entitled to a corresponding deduction for such compensation. At such time as the option stock is sold, the option holder will recognize either short-term or long-term capital gain income (depending upon the length of time such stock has been held) with respect to the excess of the stock sale price over the exercise price paid to purchase such shares.

An option holder who exercises an incentive stock option will not realize any regular taxable income. At the date of exercise, the option holder may, depending on his or her personal tax situation, be subject to Alternative Minimum tax ("AMT") because the difference between the fair market value of the shares at exercise and the exercise price represents an AMT preference item.

The tax consequences of a disposition of an incentive stock option depends upon the length of time the stock has been held by the employee. If the employee holds the option stock for at least two years after the option is granted and one year after the exercise of the option, any gain realized on the sale is long-term capital gain. In order to receive long-term capital gain treatment, the employee must remain in our employ from the time the option is granted until three months before its exercise (twelve months in the event of termination due to disability of the employee). We will not be entitled to a deduction in this instance.

If the incentive option stock is not held for the requisite holding period described above, a "disqualifying disposition" will occur. A disqualifying disposition results in the employee recognizing ordinary compensation income to the extent of the lesser of: (1) the fair market value of the option stock on the date of exercise less the exercise price ("the spread") or (2) the amount realized on disposition of the option stock less the exercise price. If the amount realized on the disposition is greater than the fair market value of the stock on the date the stock option was exercised, such excess will be treated as a capital gain, which will be a long-term capital gain if the stock was held for the appropriate holding period (currently more than one year). We will be entitled to a deduction at this time for such ordinary compensation income. The option holder's basis in such shares will be the fair market value on the date of exercise.

The 2005 Stock Option Plan is attached as Appendix B to this proxy statement.

Recommendation of the Board of Directors

The Board of Directors recommends a vote "FOR" approval of the 2005 Stock Option Plan.

1. Support the independence of the independent auditors and their objective review and audit of the Corporation's annual financial statements.
2. Support the independence and funding of the internal auditors to help to assure that they have sufficient independence and resources to conduct internal audits as appropriate or necessary, free of interference or pressure.

The Audit Committee has the authority to conduct any investigation appropriate to fulfilling its responsibilities, and it has direct access to the independent auditors as well as anyone in the organization. The Audit Committee has the ability to retain, at the Corporation's expense, special legal, accounting or other consultants or experts it deems necessary in the performance of its duties.

In addition, the Audit Committee and the Board have the ultimate authority and responsibility to select, evaluate, and where appropriate, replace the independent auditors. The independent auditors are ultimately accountable to the Audit Committee and the entire Board for such auditors' review of the financial statements and controls of the Corporation.

II. Audit Committee Composition and Meetings

1. Audit Committee members shall meet the applicable requirements of the National Association of Securities Dealers, Inc. The Audit Committee shall be comprised of three or more directors as determined by the Board, the majority of whom shall be independent, non-employee directors, free from any relationship that would interfere with the exercise of his or her independent judgment. The Audit Committee Chair shall prepare and/or approve an agenda in advance of each meeting. The Audit Committee should meet privately in executive session at least annually with the Corporation's management, the director of the internal auditing department, the independent auditors, and as an Audit Committee to discuss any matters that the Audit Committee or each of these groups believe should be discussed. In addition, the Audit Committee, or at least its Chair, should communicate with management and the independent auditors quarterly to review the Corporation's financial statements and significant findings based upon the auditors' limited review procedures.

III. Audit Committee Responsibilities and Duties

The Committee shall determine with respect to each Award of Stock Options and designate in the Award Agreement whether a Participant is to receive Incentive Stock Options or Non-Qualified Stock Options.

6.2 Option Price. The exercise price of each share of Stock subject to a Stock Option shall be specified in the grant. Notwithstanding the foregoing, no Stock Option shall be awarded which has an exercise price less than the Fair Market Value of the Stock on the date of grant, if such grant date is subsequent to an initial public offering of Stock by the Company. Additionally, if the Participant to whom an ISO is granted owns, at the date of grant, more than ten percent (10%) of the combined voting power of the Company, the exercise price of the ISO subject to such grant shall be not less than one hundred ten percent (110%) of the Fair Market Value.

6.3 Vesting and Exercisability of Options. A Stock Option by its terms shall not be exercisable after such period as determined by the Committee, provided, that, in no event shall a Stock Option be exercisable after the expiration of ten (10) years from the date such option is granted, except that an ISO granted to a Participant who, at the date of grant, owns Stock representing more than ten percent (10%) of the combined voting power of the Participating Company shall by its terms not be exercisable after the expiration of more than five (5) years from the date such Option is granted.

Subject to the preceding paragraph and except as otherwise provided herein, an Option shall be only exercisable by a Participant while the Participant is actively employed by or providing service to the Company, except the Option may be exercised: (i) in the case of a Participant's death, by the executor or administrator of Participant's estate or Participant's distributee during the three (3) month period commencing on the date of Participant's death; (ii) by the Participant during the three (3) month period commencing on the date of a Participant's Disability or termination of service or employment by the Company other than for cause; (iii) by the Participant during the three (3) month period commencing on the date of the Participant's termination of service or employment, by the Participant or the Company, after a Change in Control, unless such termination of employment is for

cause; or (iv) if the Committee decides that it is in the best interest of the Company to permit individual exceptions. For purposes hereof, "cause" shall mean: (i) the disclosure or misuse of confidential information or trade secrets; (ii) activities in violation of Company policies; (iii) the violation or breach of any material provision in any employment contract or agreement between a Participant and any Company; (iv) engaging in conduct relating to the Participant's service to or employment with the Company for which either criminal or civil penalties may be sought; and (v) engaging in activities which adversely affect or which are inimical, contrary or harmful to the interest of the Company or its business operations. An Option may not be exercised pursuant to this paragraph after the expiration date of the Option. In no event may an Incentive Stock Option be exercised more than 12 months after a Participant's employment terminates due to Disability or three (3) months after such employment terminates for any other reason.

6.4 Exercise of Option. Subject to the terms and conditions hereof and the terms and conditions specified in the respective Award Agreement, an Option may be exercised with respect to part or all of the shares subject to the Option by giving written notice to the Company of the exercise of the Stock Option. The Option Price for the shares for which an Option is exercised shall be paid within ten business days after the date of exercise in cash, in whole shares of Stock, in a combination of cash and such shares of Stock, or in any other manner that the Committee may approve. The value of any share of Stock delivered in payment of the Option Price shall be its Fair Market Value on the date the Option is exercised.

The fair market value of such shares of Stock shall be the Fair Market Value on the date the related Stock Option is granted.

7. Settlement of Awards.

At the Committee's discretion, Awards may be settled in cash, shares of Stock, or any combination thereof. The Committee may (i) require or permit Participants to defer the issuance or vesting of shares of Stock or the settlement of Awards in cash and (ii) provide that deferred settlements include the payment or crediting of interest on deferred amounts.

8. General Provisions.

8.1 Transferability of Awards. Awards under the Plan shall not be transferable otherwise than by will or the laws of descent and distribution or, in the case of Non-Qualified Stock Options only, unless otherwise determined by the Committee.
