Report of Independent Registered Public Accounting Firm

The Shareholders and Board of Trustees
ING Intermediate Bond Portfolio

In planning and performing our audit of the financial statements of ING Intermediate Bond Portfolio, as of and for the year ended December 31, 2012, in accordance with the standards of the Public Company Accounting Oversight Board (United States), we considered the Portfolio's internal control over financial reporting, including controls over safeguarding securities, as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements and to comply with the requirements of Form N-SAR, but not for the purpose of expressing an opinion on the effectiveness of the Portfolio's internal control over financial reporting. Accordingly, we express no such opinion.

Management of the Portfolio is responsible for establishing and maintaining effective internal control over financial reporting. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of controls. A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles (GAAP). A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with GAAP, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and trustees of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of a company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

A deficiency in internal control over financial reporting exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control over financial reporting, such that there is a reasonable possibility that a material misstatement of the Portfolio's annual or interim financial statements will not be prevented or detected on a timely basis.

Our consideration of the Portfolio's internal control over financial reporting was for the limited purpose described in the first paragraph and would not necessarily disclose all deficiencies in internal control that might be material weaknesses under standards established by the Public Company Accounting Oversight Board (United States). However, we noted no deficiencies in the Portfolio's internal control over financial reporting and its operation, including controls over safeguarding securities, that we consider to be a material weakness as defined above as of December 31, 2012.

This report is intended solely for the information and use of management and the Board of Trustees of ING Intermediate Bond Portfolio and the Securities and Exchange Commission and is not intended to be and should not be used by anyone other than these specified parties.

Boston, Massachusetts
February 25, 2013

Policies with Respect to Security Investments

On or about August 6, 2012, ING Intermediate Bond Portfolio's non-fundamental investment policy was revised. The new non-fundamental investment policy is included below:

The Portfolio normally invests at least 80% of its net assets (plus borrowings for investment purposes) in a portfolio of bonds, including but not limited to corporate, government and mortgage bonds, which, at the time of purchase, are rated investment grade (for example, rated at least BBB- by Standard & Poor's Rating Services or Baa3 by Moody's Investors Service, Inc.) or have an equivalent rating by a nationally recognized statistical rating organization, or of comparable quality if unrated. An underlying fund's investment in bonds or its investments in derivatives and synthetic instruments that have economic characteristics similar to the above investments, and the Portfolio's investment in derivatives and synthetic instruments that have economic characteristics similar to the above investments may be counted toward satisfaction of the 80% policy.

Transactions effected pursuant to Rule 10f-3
