Prospectus Supplement No. 76
Dated March 10, 1994

(To Prospectus dated March 30, 1993 and
Prospectus Supplement dated July 1, 1993)

INTERNATIONAL LEASE FINANCE CORPORATION

\$800,000,000
Medium-Term Notes, Series F

Floating Rate Note

Principal Amount: \$50,000,000

Interest Rate Basis: Treasury Rate (Determined in the manner set forth below)

Index Maturity: Two Year (See Determination of Treasury Rate)

Determination of Treasury Rate: (i) The Treasury Rate is the rate for two-year U.S. Treasury securities at "constant maturity" as estimated from the U.S. Department of the Treasury's weekly yield curve, which is set forth in the most recently published Federal Reserve weekly publication H.15 (519) under the caption "This Week" and opposite the caption "Treasury Constant Maturities" as displayed on the Telerate Page 7052 (as hereinafter defined) [WEEKLY AVG YIELDS ON TREASURY CONSTANT MATURITIES] [FEDERAL RESERVE BOARD RELEASE H.15 MONDAY'S APPROX. 3:45 EST] under the column titled "2 YR" and column titled "Week End" on the row dated as of the last Business Day of the week immediately preceding the Interest Determination Date with respect to the applicable Interest Reset Date.

(ii) If the Treasury Rate as described in clause (i) above is not yet displayed on the Telerate Page 7052 by 3:00 p.m. New York City Time on the Calculation Date pertaining to such Interest Determination Date, then the Treasury Rate shall be the average rate for the week immediately preceding such Interest Determination Date as calculated by the Calculation Agent by the interpolation from a yield curve for 1, 2 and 3 year U.S. Treasury bills/notes using standard established industry practice from the closing bid prices reported to the Calculation Agent by three leading government securities dealers selected by the Calculation Agent.

(iii) If fewer than three dealers selected as aforesaid by the Calculation Agent are quoting as described in (ii) above, the Treasury Rate will be the Treasury Rate in effect on the immediately preceding Interest Reset Date.

(iv) "Telerate Page 7052" means the display page so designated on the Dow Jones Telerate Service (or such other page as may replace that page on that service, or such other service as may be nominated as the information vendor, for the purpose of displaying rates or prices comparable to the Treasury Rate).
