- [1] As of September 30, 2023, qualifying assets represented 97.48% of total assets. Under the 1940 Act we may not acquire any non-qualifying assets unless, at the time the acquisition is made, qualifying assets represent at least 70% of our total assets.
- [2] Categorized as Level 1 assets under the definition of ASC 820 fair value hierarchy.

The spread may change based on the type of rate used. The terms in the Consolidated Schedule of Investments disclose the actual interest rate in effect as of the reporting period. LIBOR and SOFR loans are typically indexed to 30-day, 60-day, 90-day or 180-day rates (1M, 3M or 6M, respectively) at the borrower’s option. LIBOR and SOFR loans may be subject to interest floors. - [1] As of September 30, 2023, qualifying assets represented 97.48% of total assets. Under the 1940 Act we may not acquire any non-qualifying assets unless, at the time the acquisition is made, qualifying assets represent at least 70% of our total assets.
- [2] Categorized as Level 1 assets under the definition of ASC 820 fair value hierarchy.

The spread may change based on the type of rate used. The terms in the Consolidated Schedule of Investments disclose the actual interest rate in effect as of the reporting period. LIBOR and SOFR loans are typically indexed to 30-day, 60-day, 90-day or 180-day rates (1M, 3M or 6M, respectively) at the borrower’s option. LIBOR and SOFR loans may be subject to interest floors. As of September 30, 2023, rates for weekly 1M L, 3M L 6M L, 1M S, 3M S and 6M S are 5.43%, 5.66%, 5.90%, 5.32%, 5.40% and 5.47%, respectively. As of September 30, 2023, the U.S. Prime rate was 8.50%.

- [1] As of September 30, 2023, qualifying assets represented 97.48% of total assets. Under the 1940 Act we may not acquire any non-qualifying assets unless, at the time the acquisition is made, qualifying assets represent at least 70% of our total assets.
- [2] Categorized as Level 1 assets under the definition of ASC 820 fair value hierarchy.
- [3] Generally, the interest rate on floating interest rate investments is at benchmark rate plus spread. The borrower has an option to choose the benchmark rate, such as the London Interbank Offered Rate ("LIBOR"), Secured Overnight Financing Rate including adjustment, if any ("SOFR") or the U.S. Prime rate. The spread may change based on the type of rate used. The terms in the Consolidated Schedule of Investments disclose the actual interest rate in effect as of the reporting period. LIBOR and SOFR loans are typically indexed to 30-day, 60-day, 90-day or 180-day rates (1M, 3M or 6M, respectively) at the borrower's option. LIBOR and SOFR loans may be subject to interest floors. As of September 30, 2023, rates for weekly 1M L, 3M L 6M L, 1M S, 3M S and 6M S are 5.43%, 5.66%, 5.90%, 5.32%, 5.40% and 5.47%, respectively. As of September 30, 2023, the U.S. Prime rate was 8.50%.
- [4] Non-income producing investment.
- [5] Percentages are based on net assets.
- [6] Unless otherwise indicated, all securities are valued using significant unobservable inputs, which are categorized as Level 3 assets under the definition of Financial Accounting Standards Board's Accounting Standards Codification 820 fair value hierarchy.
- [7] Unless otherwise indicated, all securities represent co-investments made with the Fund's affiliates in accordance with the terms of the exemptive relief received from the U.S. Securities and Exchange Commission. See Note 3 "Related Party Transactions". Certain previously disclosed industry classifications have been expanded to add additional sub-industries.
