These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with generally accepted auditing standards. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Nordson Corporation 1988 Employees Stock Purchase Plan at December 31, 1993 and the results of its operations and changes in its participants' equity for the five months ended May 31, 1994 (date of Plan termination) and each of the two years in the period ended December 31, 1993 in conformity with generally accepted accounting principles.

1. PROVISIONS OF THE PLAN.

The following description of the 1988 Employees Stock Purchase Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

The Plan authorized the sale of up to 1,200,000 common shares. As of May 31, 1994, there were no common shares available to be sold under this Plan.

The shares were purchased at certain times by eligible employees who entered into an agreement with the Registrant. The purchase price for the common shares offered under the Plan was 95% of the fair market value of the common shares at the date of purchase (May 1 of each year). Under the terms of the Plan, no agreements may be entered into after April 30, 1994. The Plan was intended to provide eligible employees with an opportunity to designate up to 15% of their gross earnings from the Registrant for the purchase of common shares either through payroll deductions, by lump sum payments, transfers to the Registrant by the employee of common shares having

a current market value equal to the purchase price, or by a combination of these methods. As of May 1, 1994, 1993 and 1992, 38,093, 53,244 and 34,416 common shares, respectively, were purchased under the Plan.

The Plan did not allow for any agreements to be entered into after April 30, 1994 and provided for the Plan to terminate when no further agreements may be entered into and no agreements are outstanding. There were no outstanding agreements as of May 31, 1994; therefore, the Plan has been terminated.
