PRELIMINARY TERMS SUPPLEMENT
 Filed Pursuant to Rule 433
 Registration Statement No. 333-178960
 Dated January 9, 2013

Preliminary Terms Supplement UBS AG Trigger Phoenix Autocallable Optimization Securities

UBS AG \$ Securities Linked to the common stock of Saks Incorporated due on or about January 16, 2014

Indicative Terms											
Issuer	UBS AG, London Branch										
Principal Amount	\$10.00 per security. The Securities are offered at a minimum investment of 100 Securities at \$10.00 per Security (representing a \$1,000 investment) and integral multiples of \$10.00 in excess thereof.										
Term	Approximately 12 months, unless called earlier.										
Underlying Equity	The common stock of Saks Incorporated										
Contingent Coupon	<p>If the closing price of the underlying equity is equal to or greater than the coupon barrier on any observation date, UBS will pay you the contingent coupon applicable to such observation date.</p> <p>If the closing price of the underlying equity is less than the coupon barrier on any observation date, the contingent coupon applicable to such observation date will not be payable and UBS will not make any payment to you on the relevant coupon payment date. The contingent coupon will be a fixed amount based upon equal quarterly installments at the per annum contingent coupon rate. Contingent coupon payments are not guaranteed and UBS will not pay you the contingent coupon for any observation date on which the closing price of the underlying equity is less than the coupon barrier. The table below sets forth each observation date and a hypothetical contingent coupon for the Securities. The table below assumes a contingent coupon rate of 11.48% per annum. The actual contingent coupon rate will be set at the time the trade is placed on the trade date. Amounts in the table below may have been rounded for ease of analysis.</p> <table border="1" style="width: 100%; border-collapse: collapse;"> <thead> <tr> <th style="text-align: left;">Observation Date*</th> <th style="text-align: left;">Contingent Coupon (per security)</th> </tr> </thead> <tbody> <tr> <td>09-Apr-2013</td> <td>\$0.2870</td> </tr> <tr> <td>09-Jul-2013</td> <td>\$0.2870</td> </tr> <tr> <td>09-Oct-2013</td> <td>\$0.2870</td> </tr> <tr> <td>09-Jan-2014</td> <td>\$0.2870</td> </tr> </tbody> </table>	Observation Date*	Contingent Coupon (per security)	09-Apr-2013	\$0.2870	09-Jul-2013	\$0.2870	09-Oct-2013	\$0.2870	09-Jan-2014	\$0.2870
Observation Date*	Contingent Coupon (per security)										
09-Apr-2013	\$0.2870										
09-Jul-2013	\$0.2870										
09-Oct-2013	\$0.2870										
09-Jan-2014	\$0.2870										
Contingent Coupon Rate	<p>11.48% to 13.01% per annum (or approximately 2.870% to 3.253% per outstanding quarter). The actual contingent coupon rate will be set at the time the trade is placed on the trade date.</p> <p>*Observation dates are subject to the market disruption event provisions set forth in the TPAOS product supplement.</p>										
Automatic Call Feature	<p>The Securities will be called automatically if the closing price of the underlying equity on any observation date is equal to or greater than the initial price. If the Securities are called on any observation date, UBS will pay you on the corresponding coupon payment date a cash payment per Security equal to your principal amount plus the contingent coupon otherwise due on such date pursuant to the contingent coupon feature. No further amounts will be owed to you under the Securities.</p>										
Payment at Maturity (per Security)	<p>If the Securities are not called and the final price is equal to or greater than the trigger price and coupon barrier, UBS will pay you a cash payment per Security on the maturity date equal to your principal plus the contingent coupon otherwise due on the maturity date.</p> <p>If the Securities are not called and the final price is less than the trigger price, UBS will pay you a cash payment on the maturity date of significantly less than the principal amount, if anything, resulting in a loss of principal that is proportionate to the decline of the underlying equity, for an amount equal to $\\$10 + (\\$10 \times \text{underlying return})$.</p>										
Underlying Return	$\frac{\text{Final Price} - \text{Initial Price}}{\text{Initial Price}}$										
Closing Price	On any trading day, the last reported sale price (or, in the case of NASDAQ, the official closing price) of the underlying equity during the principal trading session on the principal national securities exchange on which it is listed for trading, as determined by the calculation agent.										
Initial Price	The closing price of the underlying equity on the trade date. The initial price is subject to adjustments in the case of certain corporate events, as described in the TPAOS product supplement.										
Trigger Price/Coupon Barrier	Both 60.00% of the initial price of the underlying equity. The trigger price and coupon barrier are subject to adjustments in the case of certain corporate events, as described in the TPAOS product supplement.										
Final Price	The closing price of the underlying equity on the final valuation date.										
Trade Date	January 9, 2013										
Settlement Date	January 14, 2013										
Final Valuation Date	January 9, 2014. The final valuation date may be subject to postponement in the event of a market disruption event, as described in the TPAOS product supplement.										
Maturity Date	January 16, 2014. The maturity date may be subject to postponement in the event of a market disruption event, as described in the TPAOS product supplement.										
Coupon Payment Dates	Five business days following each observation date, except the coupon payment date for the final valuation date will be the maturity date.

Tax Treatment There is no tax authority that specifically addresses the tax treatment of the Securities. UBS and you agree, in the absence of a statutory, regulatory, administrative or judicial ruling to the contrary, to characterize the Securities as a pre-paid derivative contract with respect to the underlying equity and to treat any contingent coupon received by you (including on maturity or upon automatic call) as ordinary income in accordance with your regular method of accounting. Under this characterization you should generally recognize capital gain or loss upon the sale, automatic call, redemption or maturity of your Securities in an amount equal to the amount you receive at such time (other than with respect to any contingent coupon) and the amount that you paid for your Securities. For greater detail and possible alternative tax treatments please see the section entitled "What Are the Tax Consequences of the Securities?" on page 11 of the prospectus supplement and the section entitled "Supplemental U.S. Tax Considerations" beginning on page PS-47 of the Trigger Phoenix Autocallable Optimization Securities product supplement.

NOTICE TO INVESTORS: THE SECURITIES ARE SIGNIFICANTLY RISKIER THAN CONVENTIONAL DEBT INSTRUMENTS. THE ISSUER IS NOT NECESSARILY OBLIGATED TO REPAY THE FULL PRINCIPAL AMOUNT OF THE SECURITIES AT MATURITY, AND THE SECURITIES CAN HAVE DOWNSIDE MARKET RISK SIMILAR TO THE UNDERLYING EQUITY. THIS MARKET RISK IS IN ADDITION TO THE CREDIT RISK INHERENT IN PURCHASING A DEBT OBLIGATION OF UBS. YOU SHOULD NOT PURCHASE THE SECURITIES IF YOU DO NOT UNDERSTAND OR ARE NOT COMFORTABLE WITH THE SIGNIFICANT RISKS INVOLVED IN INVESTING IN THE SECURITIES. YOU SHOULD CAREFULLY CONSIDER THE RISKS DESCRIBED UNDER "KEY RISKS" BEGINNING ON PAGE 3, UNDER "KEY RISKS" BEGINNING ON PAGE 5 OF THE PROSPECTUS SUPPLEMENT AND UNDER "RISK FACTORS" BEGINNING ON PAGE PS-15 OF THE TPAOS PRODUCT SUPPLEMENT BEFORE PURCHASING ANY SECURITIES. EVENTS RELATING TO ANY OF THOSE RISKS, OR OTHER RISKS AND UNCERTAINTIES, COULD ADVERSELY AFFECT THE MARKET VALUE OF, AND THE RETURN ON, YOUR SECURITIES. YOU MAY LOSE SOME OR ALL OF YOUR INITIAL INVESTMENT IN THE SECURITIES.

Neither the Securities and Exchange Commission nor any other regulatory body has approved or disapproved of these Securities or passed upon the adequacy or accuracy of this preliminary terms supplement, or the previously delivered prospectus supplement, the Trigger Phoenix Autocallable Optimization Securities ("TPAOS") product supplement and the prospectus. Any representation to the contrary is a criminal offense. The Securities are not deposit liabilities of UBS AG and are not FDIC insured. See "Additional Information about UBS and the Securities" on page 3. The Securities we are offering will have the terms set forth in the Prospectus Supplement dated August 29, 2012 relating to the Securities, the Trigger Phoenix Autocallable Optimization Securities product supplement, the accompanying prospectus and this preliminary terms supplement.

Additional Information About UBS and the Securities

UBS has filed a registration statement (including a prospectus, as supplemented by a product supplement and a prospectus supplement for the Securities) with the Securities and Exchange Commission, or SEC, for the offering for which this preliminary terms supplement relates. Before you invest, you should read these documents and any other documents relating to the Securities that UBS has filed with the SEC for more complete information about UBS and this offering. You may obtain these documents for free from the SEC website at www.sec.gov. Our Central Index Key, or CIK, on the SEC website is 0001114446. Alternatively, UBS will arrange to send you these documents if you so request by calling toll-free 1-877-387-2275.

You may access these documents on the SEC website at www.sec.gov as follows:

- Prospectus supplement dated August 29, 2012
<http://www.sec.gov/Archives/edgar/data/1114446/000119312512373565/d403021d424b2.htm>
- TPAOS product supplement dated August 29, 2012
<http://www.sec.gov/Archives/edgar/data/1114446/000119312512373450/d403005d424b2.htm>
- Prospectus dated January 11, 2012:
<http://www.sec.gov/Archives/edgar/data/1114446/000119312512008669/d279364d424b3.htm>

References to "UBS," "we," "our" and "us" refer only to UBS AG and not to its consolidated subsidiaries. In this document, "Trigger Phoenix Autocallable Optimization Securities" or the "Securities" refer to the Securities that are offered hereby. Also, references to the "prospectus supplement" mean the UBS prospectus supplement, dated August 29, 2012, references to "TPAOS product supplement" mean the UBS product supplement, dated August 29, 2012, relating to the Securities generally, and references to the "accompanying prospectus" mean the UBS prospectus titled "Debt Securities and Warrants", dated January 11, 2012.

Key Risks

An investment in the Securities involves significant risks. Some of the risks that apply to the Securities are summarized here and are comparable to the corresponding risks discussed in the "Key Risks" section of the prospectus supplement, but we urge you to read the more detailed explanation of risks relating to the Securities generally in "Risk Factors" section of the TPAOS product supplement. We also urge you to consult your investment, legal, tax, accounting and other advisors before you invest in the Securities.

- Risk of loss at maturity** - The Securities differ from ordinary debt securities in that UBS will not necessarily pay the full principal amount of the Securities at maturity. If the Securities are not called, UBS will repay you the principal amount of your Securities in cash only if the final price of the underlying equity is greater

than or equal to the trigger price and will only make such payment at maturity. If the Securities are not called and the final price is less than the trigger price, you will be fully exposed to the negative underlying return and lose some or all of your initial investment in an amount proportionate to the decline in the price of the underlying equity.

The contingent repayment of your principal applies only at maturity - You should be willing to hold your Securities to maturity. If you are able to sell your Securities prior to maturity in the secondary market, you may have to sell them at a loss relative to your initial investment even if the underlying equity price is above the trigger price.

You may not receive any contingent coupons - UBS will not necessarily make periodic coupon payments on the Securities. If the closing price of the underlying equity on an observation date is less than the coupon barrier, UBS will not pay you the contingent coupon applicable to such observation date. If the closing price of the underlying equity is less than the coupon barrier on each of the observation dates, UBS will not pay you any contingent coupons during the term of, and you will not receive a positive return on, your Securities. Generally, this non-payment of the contingent coupon coincides with a period of greater risk of principal loss on your Securities.

Your potential return on the Securities is limited and you will not participate in any appreciation of the underlying equity - The return potential of the Securities is limited to the contingent coupon rate, regardless of the appreciation of the underlying equity. In addition, the total return on the Securities will vary based on the number of observation dates on which the requirements of the contingent coupon have been met prior to maturity or an automatic call. Further, if the Securities are called due to the automatic call feature, you will not receive any contingent coupons or any other payment in respect of any observation dates after the applicable call settlement date. Since the Securities could be called as early as the first observation date, the total return on the Securities could be minimal. If the Securities are not called, you will not participate in any appreciation in the price of the underlying equity even though you will be subject to the underlying equity's risk of decline. As a result, the return on an investment in the Securities could be less than the return on a direct investment in the underlying equity.

Higher contingent coupon rates are generally associated with a greater risk of loss - Greater expected volatility with respect to the underlying equity reflects a higher expectation as of the trade date that the price of such underlying equity could close below its trigger price on the final valuation date of the Securities. This greater expected risk will generally be reflected in a higher contingent coupon rate for that Security. However, an underlying equity's volatility can change significantly over the term of the Securities and the price of the underlying equity for your Securities could fall sharply, which could result in a significant loss of principal.

Reinvestment risk - The Securities will be called automatically if the closing price of the underlying equity is equal to or greater than the initial price on any observation date. In the event that the Securities are called prior to maturity, there is no guarantee that you will be able to reinvest the proceeds from an investment in the Securities at a comparable rate of return for a similar level of risk. To the extent you are able to reinvest such proceeds in an investment comparable to the Securities, you will incur transaction costs and the original issue price for such an investment is likely to include certain built-in costs such as dealer discounts and hedging costs.

Credit risk of UBS - The Securities are unsubordinated, unsecured debt obligations of the issuer, UBS, and are not, either directly or indirectly, an obligation of any third party. Any payment to be made on the Securities, including any repayment of principal, depends on the ability of UBS to satisfy its obligations as they come due. As a result, the actual and perceived creditworthiness of UBS may affect the market value of the Securities and, in the event UBS were to default on its obligations, you may not receive any amounts owed to you under the terms of the Securities and you could lose your entire investment.

Market risk - The price of the underlying equity can rise or fall sharply due to factors specific to that underlying equity and (i) in the case of common stock or American depository shares, its issuer ("underlying equity issuer") or (ii) in the case of an exchange traded fund, the securities, futures contracts or physical commodities constituting the assets of that underlying equity. These factors include price volatility, earnings, financial conditions, corporate, industry and regulatory developments, management changes and decisions and other events, as well as general market factors, such as general market volatility and levels, interest rates and economic and political conditions. You, as an investor in the Securities, should make your own investigation into the underlying equity issuer and the underlying equity for your Securities. **We urge you to review financial and other information filed periodically by the underlying equity issuer with the SEC.**

Owning the Securities is not the same as owning the underlying equity - The return on your Securities may not reflect the return you would realize if you actually owned the underlying equity. For instance, you will not receive or be entitled to receive any dividend payments or other distributions on the underlying equity over the term of your Securities. Furthermore, the underlying equity may appreciate substantially during the term of your Securities and you will not participate in such appreciation.

No assurance that the investment view implicit in the Securities will be successful - It is impossible to predict whether and the extent to which the price of the underlying equity will rise or fall. The price of the underlying equity will be influenced by complex and interrelated political, economic, financial and other factors that affect the issuer of the underlying equity. You should be willing to accept the risks of owning equities in general and the underlying equity in particular, and the risk of losing some or all of your initial investment.

There is no affiliation between the underlying equity issuer, or for Securities linked to exchange traded funds, the issuers of the constituent stocks comprising the underlying equity (the "underlying equity constituent stock issuers"), and UBS, and UBS is not responsible for any disclosure by such issuer(s) - We are not affiliated with the underlying equity issuer or, if applicable, any underlying equity constituent stock issuers. However, we and our affiliates may currently or from time to time in the future engage in business with such issuer(s). Nevertheless, neither we nor our affiliates assume any responsibility for the accuracy or the completeness of any information about such issuer(s). You, as an investor in the Securities, should make your own investigation into the underlying equity issuer or, if applicable, each underlying equity constituent stock issuer. Neither the underlying equity issuer nor any underlying equity constituent stock issuer is involved in the Securities offered hereby in any way and has no obligation of any sort with respect to your Securities. Such issuer(s) have no obligation to take your interests into consideration for any reason, including when taking any corporate actions that might affect the value of your Securities.

The calculation agent can make adjustments that affect the payment to you at maturity - For certain corporate events affecting the underlying equity, the calculation agent may make adjustments to the initial price, the coupon barrier and the trigger price of the underlying equity. However, the calculation agent will not make an adjustment in response to all events that could affect the underlying equity. If an event occurs that does not require the calculation agent to make an adjustment, the value of the Securities may be materially and adversely affected. In addition, all determinations and calculations concerning any such adjustments will be made by the calculation agent. You should be aware that the calculation agent may make any such adjustment, determination or calculation in a manner that differs from that discussed in the TPAOS product supplement as necessary to achieve an equitable result. In the case of common stock or American depository shares, following certain corporate events relating to the issuer of the underlying equity where the issuer is not the surviving entity, the amount of cash you receive at maturity may be based on the common stock or American depository share of a successor to the underlying equity issuer in combination with any cash or any other assets distributed to holders of the underlying equity in such corporate event. Additionally, if the issuer of the underlying equity becomes subject to (i) a reorganization event whereby the underlying equity is exchanged solely for cash or (ii) a merger or combination with UBS or any of its affiliates, the amount you receive at maturity may be based on the common stock or American depository shares issued by another company. In the case of an exchange traded fund, following a delisting or discontinuance of the underlying equity, the amount you receive at maturity may be based on a share of another exchange traded fund. The occurrence of these corporate events and the consequent adjustments may materially and adversely affect the value of the Securities. For more information, see the section "General Terms of the Securities — Antidilution Adjustments" beginning on page PS-34 of the TPAOS product supplement. Regardless of any of the events discussed above, any payment on the Securities is subject to the creditworthiness of UBS.

There may be little or no secondary market for the Securities - No offering of the Securities will be listed or displayed on any securities exchange or any electronic communications network. A secondary trading market for the Securities may not develop. UBS Securities LLC and other affiliates of UBS may make a market in the

Securities, although they are not required to do so and may stop making a market at any time. The price, if any, at which you may be able to sell your Securities prior to maturity could be dependant on the price offered by UBS and may be at a substantial discount from the issue price to public and to its intrinsic economic value; and as a result, you may suffer substantial losses.

Price of Securities prior to maturity - The market price of your Securities will be influenced by many unpredictable and interrelated factors, including the market price of, the expected price volatility of and the dividend rate on the underlying equity, as well as the time remaining to the maturity of your Securities, interest rates, geopolitical conditions, economic, financial and political, regulatory or judicial events.

Impact of fees on the secondary market price of Securities - Generally, the market price of the Securities immediately after issuance is expected to be lower than the issue price to public of the Securities, since the issue price included, and the secondary market prices are likely to exclude, commissions, hedging costs or other compensation paid with respect to the Securities.

Potential UBS impact on the market price of the underlying equity - Trading or transactions by UBS or its affiliates in the underlying equity and/or over-the-counter options, futures or other instruments with returns linked to the performance of the underlying equity may adversely affect the market price of the underlying equity and, therefore, the market value of your Securities.

Potential conflict of interest - UBS and its affiliates may engage in business with the issuer of the underlying equity, which may present a conflict between the obligations of UBS and you, as a holder of the Securities. There are also potential conflicts of interest between you and the calculation agent, which will be an affiliate of UBS. The calculation agent will determine whether the final price is below the trigger price and accordingly the payment at maturity on your Securities. The calculation agent may also postpone the determination of the final price and the maturity date if a market disruption event occurs and is continuing on the final valuation date and may make adjustments to the initial price, the trigger price, the coupon barrier and the underlying equity itself for certain corporate events affecting the underlying equity. For more information, see the section "General Terms of the Securities — Antidilution Adjustments" beginning on page PS-34 of the TPAOS product supplement.

Potentially inconsistent research, opinions or recommendations by UBS - UBS and its affiliates publish research from time to time on financial markets and other matters that may influence the value of the Securities, or express opinions or provide recommendations that are inconsistent with purchasing or holding the Securities.

Any research, opinions or recommendations expressed by UBS or its affiliates may not be consistent with each other and may be modified from time to time without notice. Investors should make their own independent investigation of the merits of investing in the Securities and the underlying equity to which the Securities are linked.

Dealer incentives - UBS and its affiliates act in various capacities with respect to the Securities. We and our affiliates may act as a principal, agent or dealer in connection with the sale of the Securities. Such affiliates, including the sales representatives, will derive compensation from the distribution of the Securities and such compensation may serve as an incentive to sell these Securities instead of other investments. We will pay total underwriting compensation of 0.75% per Security to any of our affiliates acting as agents or dealers in connection with the distribution of the Securities.

Uncertain tax treatment - Significant aspects of the tax treatment of the Securities are uncertain. You should read carefully the sections entitled "What are the Tax Consequences of the Securities" in the prospectus supplement and "Supplemental U.S. Tax Considerations" beginning on page PS-47 of the TPAOS product supplement and consult your tax advisor about your tax situation.

Information about the Underlying Equity

All disclosures regarding the underlying equity are derived from publicly available information. UBS has not conducted any independent review or due diligence of any publicly available information with respect to the underlying equity. **You should make your own investigation into the underlying equity.**

The underlying equity will be registered under the Securities Exchange Act of 1934, as amended (the "Exchange Act"). Companies with securities registered under the Exchange Act are required to file financial and other information specified by the SEC periodically. Information filed by the issuer of the underlying equity with the SEC can be reviewed electronically through a website maintained by the SEC. The address of the SEC's website is <http://www.sec.gov>. Information filed with the SEC by the issuer of the underlying equity under the Exchange Act can be located by reference to its SEC file number provided below. In addition, information filed with the SEC can be inspected and copied at the Public Reference Section of the SEC, 100 F Street, N.E., Room 1580, Washington, D.C. 20549. Copies of this material can also be obtained from the Public Reference Section, at prescribed rates.

Saks Incorporated

According to publicly available information, Saks Incorporated ("Saks") is a fashion retail organization offering a range of distinctive luxury fashion apparel, shoes, accessories, jewelry, cosmetics and gifts. Saks' operations consist of Saks Fifth Avenue, Saks Fifth Avenue OFF 5TH and Saks Fifth Avenue's e-commerce operations. Saks Fifth Avenue stores are free-standing stores in shopping destinations or anchor stores in upscale regional malls. Saks Fifth Avenue OFF 5TH stores are located in upscale mixed-use and off-price centers and offers luxury apparel, shoes, and accessories. Saks operates 46 Saks Fifth Avenue stores with a total of approximately 5.5 million square feet and 60 Saks Fifth Avenue OFF 5TH stores with a total of approximately 1.7 million square feet. Saks' stores and e-commerce operations carry luxury merchandise from both core vendors and new and emerging designers. Saks has relationships with American and European fashion houses, including Giorgio Armani, Chanel, Gucci, Prada, Louis Vuitton, St. John, Zegna, Theory, Cartier, David Yurman, Hugo Boss, Elie Tahari, Tory Burch, Ralph Lauren, Akris and Burberry, among others. Information filed by Saks with the SEC under the Exchange Act can be located by reference to its SEC file number: 001-13113, or its CIK Code: 0000812900. Saks' website is <http://www.saksincorporated.com>. Saks' common stock is listed on the New York Stock Exchange under the ticker symbol "SKS."

Information from outside sources is not incorporated by reference in, and should not be considered part of, this preliminary terms supplement or any accompanying prospectus. UBS has not conducted any independent review or due diligence of any publicly available information with respect to the underlying equity.

Historical Information

The following table sets forth the quarterly high and low closing prices for Saks' common stock, based on daily closing prices on the primary exchange for Saks. We obtained the closing prices below from Bloomberg Professional service ("Bloomberg"), without independent verification. The closing prices may be adjusted by Bloomberg for corporate actions such as stock splits, public offerings, mergers and acquisitions, spin-offs, extraordinary dividends, delistings and bankruptcy. UBS has not undertaken an independent review or due diligence of any publicly available information obtained from Bloomberg. Saks' closing price on January 8, 2013 was \$10.56. The actual initial price will be the closing price of Saks' common stock on the trade date. **Past performance of the underlying equity is not indicative of the future performance of the underlying equity.**

* As of the date of this preliminary terms supplement available information for the first calendar quarter of 2013 includes data for the period from January 2, 2013 through January 8, 2013. Accordingly, the "Quarterly High," "Quarterly Low" and "Quarterly Close" data indicated are for this shortened period only and do not reflect complete data for the first calendar quarter of 2013.

The graph below illustrates the performance of Saks' common stock for the period indicated, based on information from Bloomberg. The solid line represents a hypothetical trigger price and coupon barrier of \$6.30, which is equal to 60.00% of an intra-day price on January 9, 2013. The actual trigger price and coupon barrier will be based on the closing price of Saks' common stock on the trade date. **Past performance of the underlying equity is not indicative of the future performance of the underlying equity.**

Historical Pricing Data from January 8, 2003 to January 8, 2013

Supplemental Plan of Distribution (Conflicts of Interest)

We will agree to sell to UBS Financial Services Inc. and certain of its affiliates, together the "Agents," and the Agents will agree to purchase, all of the Securities at the issue price less the underwriting discount indicated on the cover of the final terms supplement, the document that will be filed pursuant to Rule 424(b) containing the final pricing terms of the Securities.

We or one of our affiliates may enter into swap agreements or related hedge transactions with one of our other affiliates or unaffiliated counterparties in connection with the sale of the Securities; and UBS or its affiliates may earn additional income as a result of payments pursuant to the swap or related hedge transactions.

Conflicts of Interest - Each of UBS Securities LLC and UBS Financial Services Inc. is an affiliate of UBS and, as such, has a "conflict of interest" in this offering within the meaning of FINRA Rule 5121. In addition, UBS will receive the net proceeds (excluding the underwriting discount) from the initial public offering of the Securities and, thus creates an additional conflict of interest within the meaning of FINRA Rule 5121. Consequently, the offering is being conducted in compliance with the provisions of Rule 5121. Neither UBS Securities LLC nor UBS Financial Services Inc. is permitted to sell Securities in the offering to an account over which it exercises discretionary authority without the prior specific written approval of the account holder.
