* Not annualized.

+ Annualized for the seven-day period ending June 30, 1999. The current yield figure shown more closely reflects the current earnings of the Portfolio than total return figures. Although Seligman Cash Management Portfolio seeks to preserve the value of investments at \$1.00 per share, it is possible to lose money by investing in the Portfolio.

Trillium Fixed Account's rate for the five year Guarantee Period was 4.50% as of June 30, 1999. Rates for each Guarantee Period will be different, and are subject to change on a monthly basis. The 3,5,7, and 10 year Guarantee Periods are currently not approved in all states. Please call 800-221-2783 for state approval and the current rates on these Guarantee Periods.

Performance quoted represents past performance, and the investment return and principal value of an investment will fluctuate so that units, when surrendered, may be worth more or less than their original cost. Performance of the variable portfolios reflects the performance of Seligman Portfolios, Inc., the underlying investment vehicle for the Trillium Variable Account, adjusted for the current fees and charges (excluding CDSC) associated with Trillium. For performance figures with CDSC, please see reverse side. The variable account commenced operations on 5/3/93. The fixed account is held in the general account of Canada Life Insurance Company of America (CLICA) and provides a guarantee, by CLICA, against loss of principal, and guarantees payment of a specified current rate of interest. Please contact your financial advisor or call Seligman Advisors at 800-221-2783 for a prospectus containing full details including information of fees and charges. Please read the prospectus carefully before investing or sending money.

There are specific risks associated with global technology investing, such as currency fluctuations, foreign taxation, differences in financial reporting practices, and changes in political conditions. A portfolio that concentrates its investments in one sector of the economy may be subject to greater share price fluctuations than a more diversified portfolio. There are specific risks associated with global investing, such as currency fluctuations, foreign taxation, differences in financial reporting practices, and changes in political conditions. A portfolio with fewer holdings, such as Seligman Large-Cap Value Portfolio and Seligman Small-Cap Value Portfolio, may be subject to greater volatility than a portfolio with a greater number of holdings. High-yield bonds are subject to a greater risk of loss of principal and interest than higher-rated investment grade bonds. Purchasers should carefully assess the risks associated with an investment in Seligman High-Yield Bond Portfolio.
