| Total Realized Gain (Loss)        | -          |
| Total Unrealized Gain (Loss)      | -          |
| Cost of Purchases                 | -          |
| Proceeds of Sales                 | -          |

|   |           |
|---|-----------|
| Amortization/Accretion  | -         |
| Transfers in to Level 3   | -         |
| Transfers out of Level 3  | (563,258) |
| Ending Balance  | \$ -      |
| The change in unrealized gain (loss) for the period attributable to Level 3 securities held at March 31, 2010 | \$ -      |

The information used in the above reconciliation represents fiscal year to date activity for any Investments in Securities identified as using Level 3 inputs at either the beginning or the end of the current fiscal period. Transfers in or out of Level 3 represents the beginning value of any Security or Instrument where a change in the pricing level occurred from the beginning to the end of the period. The cost of purchases and the proceeds of sales may include securities received or delivered through corporate actions or exchanges.

### **Income Tax Information**

At March 31, 2010, the cost of investment securities for income tax purposes was \$639,070,090. Net unrealized appreciation aggregated \$46,359,595, of which \$51,996,602 related to appreciated investment securities and \$5,637,007 related to depreciated investment securities.

### **Investment Valuation**

Investments are valued as of 4:00 p.m. Eastern time on the last calendar day of the period. Security transactions are accounted for as of trade date. The Fund uses independent pricing services approved by the Board of Trustees to value its investments. When current market prices or quotations are not readily available or reliable, valuations may be determined in good faith in accordance with procedures adopted by the Board of Trustees. Factors used in determining value may include market or security specific events, changes in interest rates and credit quality. The frequency with which these procedures are used cannot be predicted and they may be utilized to a significant extent. The value used for net asset value calculation under these procedures may differ from published prices for the same securities. The Fund categorizes the inputs to valuation techniques used to value its investments into a disclosure hierarchy consisting of three levels. Level 1 - quoted prices in active markets for identical investments. Level 2 - other significant observable inputs (including quoted prices for similar investments, interest rates, prepayment speeds etc.). Level 3 - unobservable inputs (including the Fund's own assumptions based on the best information available). Changes in valuation techniques may result in transfers in or out of an assigned level within the disclosure hierarchy. Valuation techniques used to value the Fund's investments by major category are as follows.

Debt securities, including restricted securities, are valued based on evaluated prices received from independent pricing services or from dealers who make markets in such securities. For corporate bonds, foreign government and government agency obligations, preferred securities, and supranational obligations, pricing services utilize matrix pricing which considers yield or price of bonds of comparable quality, coupon, maturity and type as well as dealer supplied prices and are generally categorized as Level 2 in the hierarchy.

Investments in open-end mutual funds, including the Fidelity Central Funds, are valued at their closing net asset value each business day and are categorized as Level 1 in the hierarchy.
