# AllianzGI Retirement 2055 Fund

(formerly Allianz Global Investors Solutions 2055 Fund)

Before you invest, you may want to review the Fund's statutory prospectus, which contains more information about the Fund and its risks. You can find the Fund's statutory prospectus and other information about the Fund, including its statement of additional information (SAI) and most recent reports to shareholders, online at [www.allianzinvestors.com/prospectuses](http://www.allianzinvestors.com/prospectuses). You can also get this information at no cost by calling 1-800-498-5413 or by sending an email request to [Orders@MySummaryProspectus.com](mailto:Orders@MySummaryProspectus.com). This Summary Prospectus incorporates by reference the Fund's entire statutory prospectus and SAI, each dated April 2, 2012, as revised or supplemented from time to time.

## Investment Objective

The Fund seeks capital growth and preservation consistent with its asset allocation as 2055 approaches, and thereafter current income and, secondarily, capital appreciation.

## Fees and Expenses of the Fund

The tables below describe the fees and expenses that you may pay if you buy and hold shares of the Fund.

**Shareholder Fees (fees paid directly from your investment):** None

**Annual Fund Operating Expenses (expenses that you pay each year as a percentage of the value of your investment)**

Share Class	Advisory Fees(1)	Distribution and/or Service (12b-1) Fees	Estimated Other Expenses(1)	Total Annual Fund Operating Expenses	Acquired Fund Fees and Expenses	Expense Reductions(2)	Total Annual Fund Operating Expenses After Expense Reductions(2)
Institutional	0.05%	None	0.10%	0.92%	1.07%	(0.37)%	0.70%
Class P	0.05	None	0.15	0.92	1.12	(0.32)	0.80
Administrative	0.05	0.25 %	0.15	0.92	1.37	(0.32)	1.05

Other Expenses are based upon estimated amounts for the Fund's initial fiscal year and include organizational expenses. Other Expenses (1) represent administrative fees paid by the Fund to Allianz Global Investors Fund Management LLC ("AGIFM") pursuant to an Administration Agreement between AGIFM and the Trust.

The Manager has contractually agreed, until March 31, 2013, to irrevocably waive its advisory and administrative fees and reimburse any additional Other Expenses or Acquired Fund Fees and Expenses, to the extent that Total Annual Fund Operating Expenses After Expense Reductions, excluding, interest, taxes, and extraordinary expenses, exceed 0.70% for Institutional Class, 0.80% for Class P and 1.05% for Administrative Class. Under the Expense Limitation Agreement, the Manager may recoup waived or reimbursed amounts for three years, provided total expenses, including such recoupment, do not exceed the annual expense limit.

**Examples.** The Examples are intended to help you compare the cost of investing in shares of the Fund with the costs of investing in other mutual funds. The Examples assume that you invest \$10,000 in the noted class of shares for the time periods indicated, your investment has a 5% return each year, and the Fund's operating expenses remain the same. Although your actual costs may be higher or lower, the Examples show what your costs would be based on these assumptions. The Examples are based, for the first year, on Total Annual Fund Operating Expenses After Expense Reductions and, for all other periods, on Total Annual Fund Operating Expenses.

Share Class	1 Year	3 Years
Institutional	\$72	\$304
Class P	82	324
Administrative	107	402

## Portfolio Turnover

The Fund pays transaction costs, such as commissions, when it buys and sells securities (or “turns over” its portfolio). High levels of portfolio turnover may indicate higher transaction costs and may result in higher taxes for you if your Fund shares are held in a taxable account. These costs, which are not reflected in Total Annual Fund Operating Expenses or in the Examples above, can adversely affect the Fund’s investment performance.

**Principal Investment Strategies**

The Fund seeks to achieve its objective by normally investing primarily in certain affiliated mutual funds and exchange-traded funds (ETFs) sponsored by Allianz and Pacific Investment Management Company LLC (“PIMCO”) (the “Underlying Funds”). The Fund may invest

without limit in Underlying Funds and may invest significantly in one or a small number of the Underlying Funds. Underlying Funds in turn invest in or have exposure to (i) **return-generating assets**, such as U.S. and global equities, commodities, real estate, mortgage securities,

## AllianzGI Retirement 2055 Fund

high yield securities, corporate bonds, emerging market bonds, public securities of infrastructure companies and private equity companies, and alternative investment strategies such as long-short and market neutral strategies and/or (ii) **defensive assets**, such as Treasury Inflation-Protected Securities (“TIPS”), short-term U.S. and non-U.S. bonds and core (e.g., investment grade) U.S. and non-U.S. bonds. The Fund may also invest in ETFs and mutual funds and pooled vehicles other than the Underlying Funds (together, “Other Acquired Funds”). The Fund does not currently intend to invest more than 10% of its assets in Other Acquired Funds that are not advised by the Manager or its affiliates. The Fund may also invest significantly in other securities and instruments as a complement or adjustment to its exposure to Underlying Funds and Other Acquired Funds. The Sub-Adviser normally seeks to maintain significant economic exposure to a number of countries outside the U.S., and the Fund may have exposure to companies in a broad range of market capitalizations and geographic and industry distributions, as well as to fixed income and convertible instruments with a broad range of credit quality ratings and durations. The Fund may also utilize derivative instruments, such as options, forwards or futures contracts and swap agreements. The

Fund uses an actively-managed strategy and modifies asset allocations over time with the intent of progressively reducing anticipated risk and volatility as the target date of 2055 approaches, and becoming increasingly conservative over time. The chart below illustrates the Sub-Adviser’s schedule of target allocations between defensive and return-generating assets as of the date of this Prospectus, according to the number of years remaining to the target retirement date. Upon reaching this target date, the Fund’s objective and strategy will change to closely resemble that of the AllianzGI Retirement Income Fund, which the Fund is expected to merge into approximately three years after its target date, provided that the Fund’s Board of Trustees determines the transaction is in the best interest of shareholders. The Retirement Income Fund is intended for investors who have already retired or begun withdrawing portions of their investments, or are seeking a conservative allocation fund, and its objective is to seek current income and, secondarily, after-inflation capital appreciation. More information about the Fund’s asset allocation and portfolio construction strategy, the Retirement Income Fund and the Underlying Funds is available in the Fund’s statutory prospectus.

### Sub-Adviser’s Glidepath

The table below illustrates the Sub-Adviser’s allocations among different asset classes within the defensive and return-gathering categories, as reflected in the Fund’s portfolio as of November 30, 2012. The asset allocation is computed by assigning each underlying investment to the most representative asset class(es).

#### Fund Asset Allocation as of November 30, 2012

Asset Group	Asset Class	Percent of the Portfolio Invested
Defensive	Short-Duration Bonds & Cash	2.1 %
	U.S. Core Fixed Income	8.0 %

	Developed Non-US Small/Mid Cap Equity	2.8 %
	Emerging Market Equity	4.2 %
	Global Fixed-Income	14.9%
	Commodity-Related Futures & Equities	12.6%
Global Real Estate	7.7 %	

## Principal Risks

The Fund's net asset value, yield and total return will be affected by: the allocation determinations, investment decisions and techniques of the Fund's management; factors, risks and performance specific to the Underlying Funds, Other Acquired Funds, issuers of securities and other instruments in which the Fund invests, including actual or perceived changes in the financial condition or business prospects of such issuers; and factors influencing the U.S. or global economies and securities markets or relevant industries or sectors within them (**Management Risk, Allocation Risk, Underlying Fund and Other Acquired Fund Risks, Issuer Risk, Market Risk**). Equity securities may react more strongly to changes in an issuer's financial condition or prospects than other securities of the same issuer, and securities issued by smaller companies may be more volatile and present increased liquidity risk (**Equity Securities Risk, Smaller Company Risk**). There is no guarantee that the Fund will provide adequate income at and/or through an investor's retirement and it is possible to lose money on an investment in the Fund near, at, or after the Fund's target date. Other principal risks include: **Commodity Risk** (commodity-linked derivative instruments may increase volatility); **Convertible Securities Risk, Credit Risk, Fixed Income Risk, High Yield Risk, Interest Rate Risk** (convertible and fixed income (debt) securities, particularly high-yield or junk bonds, are subject to greater levels of credit and liquidity risk, may be speculative and may decline in value due to changes in interest rates or an issuer's or counterparty's deterioration or default); **Derivatives Risk** (derivative instruments are complex, have different characteristics than their underlying assets and are subject to additional risks, including leverage, liquidity and valuation); **Focused Investment Risk** (focusing on a limited number of issuers, sectors, industries or geographic

regions increases risk and volatility); **Index Risk** (investments in index-linked derivatives are subject to the risks associated with the applicable index); **IPO Risk** (securities purchased in initial public offerings have no trading history, limited issuer information and increased volatility); **Leveraging Risk** (instruments and transactions that constitute leverage magnify gains or losses and increase volatility); **Liquidity Risk** (the lack of an active market for investments may cause delay in disposition or force a sale below fair value); **Mortgage-Related and other Asset-Backed Risk** (investing in mortgage- and asset-backed securities involves interest rate, credit, valuation, extension and liquidity risks and the risk that payments on the underlying assets are delayed, prepaid, subordinated or defaulted on); **Non-U.S. Investment Risk, Emerging Markets Risk, Currency Risk** (non-U.S. securities markets and issuers may be more volatile, smaller, less-liquid, less transparent and subject to less oversight, particularly in emerging markets, and non-U.S. securities values may also fluctuate with currency exchange rates); **REIT and Real Estate-Linked Derivatives Risk** (adverse changes in the real estate markets may affect the value of REIT investments or real estate-linked derivatives); **Short Selling Risk** (short selling enhances leveraging risk, involves counterparty risk and may potentially involve the risk of unlimited loss); and **Variable Distribution Risk** (periodic distributions by investments of variable or floating interest rates vary with fluctuations in market interest rates). Please see "Summary of Principal Risks" in the Fund's statutory prospectus for a more detailed description of the Fund's risks. An investment in the Fund is not a deposit of a bank and is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency.

Before you invest, you may want to review the Fund's statutory prospectus, which contains more information about the Fund and its risks. You can find the Fund's statutory prospectus and other information about the Fund, including its statement of additional information (SAI) and most recent reports to shareholders, online at [www.allianzinvestors.com/prospectuses](http://www.allianzinvestors.com/prospectuses). You can also get this information at no cost by calling 1-800-988-8380 or by sending an email request to [Orders@MySummaryProspectus.com](mailto:Orders@MySummaryProspectus.com). This Summary Prospectus incorporates by reference the Fund's entire statutory prospectus and SAI, each dated April 2, 2012, as revised or supplemented from time to time.

## Investment Objective

The Fund seeks capital growth and preservation consistent with its asset allocation as 2055 approaches, and thereafter current income and, secondarily, capital appreciation.

## Fees and Expenses of the Fund

The tables below describe the fees and expenses that you may pay if you buy and hold shares of the Fund. You may qualify for sales charge discounts if you and your family invest, or agree to invest in the future, at least \$50,000 in Class A Shares of eligible funds that are part of the family of mutual funds sponsored by Allianz. More information about these and other discounts is available in the "Classes of Shares" section beginning on page 200 of the Fund's statutory prospectus or from your financial advisor.

### Shareholder Fees (fees paid directly from your investment)

Share Class	Maximum Sales Charge (Load) Imposed on Purchases (as a percentage of offering price)	Maximum Contingent Deferred Sales Charge (CDSC) (Load) (as a percentage of the lower of original purchase price or NAV) <sup>(1)</sup>
Class A	5.50 %	1 %
Class R	None	None

### Annual Fund Operating Expenses (expenses that you pay each year as a percentage of the value of your investment)
