Summary
Prospectus April 2, 2012
 (as revised January 28,
 2013)

AllianzGI U.S. Emerging Growth Fund

(formerly Allianz AGIC U.S. Emerging Growth Fund)

Before you invest, you may want to review the Fund's statutory prospectus, which contains more information about the Fund and its risks. You can find the Fund's statutory prospectus and other information about the Fund, including its statement of additional information (SAI) and most recent reports to shareholders, online at www.allianzinvestors.com/prospectuses. You can also get this information at no cost by calling 1-800-498-5413 or by sending an email request to Orders@MySummaryProspectus.com. This Summary Prospectus incorporates by reference the Fund's entire statutory prospectus and SAI, each dated April 2, 2012, as revised or supplemented from time to time.

Investment Objective

The Fund seeks maximum long-term capital appreciation.

Fees and Expenses of the Fund

The tables below describe the fees and expenses that you may pay if you buy and hold shares of the Fund.

Shareholder Fees (fees paid directly from your investment): None

Annual Fund Operating Expenses (expenses that you pay each year as a percentage of the value of your investment)

Share Class	Management Fees	Distribution and/or Service (12b-1) Fees	Other Expenses	Total Annual Fund Operating Expenses	Expense Reductions ⁽¹⁾	Total Annual Fund Operating Expenses After Expense Reductions ⁽¹⁾
Institutional	0.90%	None	1.09%	1.99%	(0.84)%	1.15%
Class P	0.90	None	1.23	2.13	(0.88)	1.25
Class D	0.90	0.25 %	1.16	2.31	(0.83)	1.48

Total Annual Fund Operating Expenses After Expense Reductions reflect the effect of a contractual agreement by the Manager to irrevocably waive its management fee and/or reimburse the Fund through March 31, 2013 to the extent that Total Annual Fund Operating Expenses, including payment of organizational and/or offering expenses but excluding interest, tax, and extraordinary expenses, and certain credits and other expenses, exceed 1.15% for Institutional Class shares, 1.25% for Class P shares and 1.48% for Class D shares. Under the Expense Limitation Agreement, the Manager may recoup waived or reimbursed amounts for three years, provided total expenses, including such recoupment, do not exceed the annual expense limit.

Examples. The Examples are intended to help you compare the cost of investing in shares of the Fund with the costs of investing in other mutual funds. The Examples assume that you invest \$10,000 in the noted class of shares for the time periods indicated, your investment has a 5% return each year, and the Fund's operating expenses remain the same. Although your actual costs may be higher or lower, the Examples show what your costs would be based on these assumptions. The Examples are based, for the first year, on Total Annual Fund Operating Expenses After Expense Reductions and, for all other periods, on Total Annual Fund Operating Expenses.

Share Class	1 Year	3 Years	5 Years	10 Years
Institutional	\$117	\$543	\$995	\$2,249
Class P	127	582	1,063	2,393
Class D	151	642	1,160	2,582

Portfolio Turnover

The Fund pays transaction costs, such as commissions, when it buys and sells securities (or “turns over” its portfolio). The Fund’s portfolio turnover rate for the fiscal year ended November 30, 2011 was 111% of the average value of its portfolio. High levels of portfolio turnover may indicate higher transaction costs and may result in higher taxes for you if your Fund shares are held in a taxable account. These costs, which are not reflected in Total Annual Fund Operating Expenses or in the Examples above, can adversely affect the Fund’s investment performance.

Principal Investment Strategies

The Fund seeks to achieve its investment objective by normally investing at least 80% of its net assets (plus borrowings made for investment purposes) in equity securities of U.S. companies. The Fund currently defines “U.S. companies” as those companies that (i) are incorporated in the U.S., (ii) derive at least 50% of their revenue or profits from business activities in the U.S. or (iii) maintain at least 50% of their assets in the U.S. The Fund expects to invest typically in

companies with a market capitalization similar to the Russell 2000 Growth Index (between \$26 million and \$3.6 billion as of February 29, 2012). The portfolio managers follow a disciplined, fundamental bottom-up research process focusing on companies undergoing positive fundamental change, with sustainable growth characteristics. The portfolio managers look for what they believe to be the best risk-reward candidates within the investment universe,

AllianzGI U.S. Emerging Growth Fund

defined as equities that are expected to appreciate based on accelerating fundamental performance, rising expectations and related multiple expansion. Company-specific research includes industry and competitive analysis, revenue model analysis, profit analysis and balance sheet assessment. Once the portfolio managers believe that positive fundamental change is occurring and will likely lead to accelerating fundamental performance, they seek evidence that performance will be a longer-term sustainable trend. Lastly, the portfolio managers determine if the investment is timely with regard to relative valuation and price strength, exploiting stocks that are

The Fund's net asset value, yield and total return will be affected by the allocation determinations, investment decisions and techniques of the Fund's management, factors specific to the issuers of securities and other instruments in which the Fund invests, including actual or perceived changes in the financial condition or business prospects of such issuers, and factors influencing the U.S. or global economies and securities markets or relevant industries or sectors within them (**Management Risk, Issuer Risk, Market Risk**). Equity securities may react more strongly to changes in an issuer's financial condition or prospects than other securities of the same issuer, and securities issued by smaller companies may be more volatile and present increased liquidity risk (**Equity Securities Risk, Smaller Company Risk**). Other principal risks include: **Credit Risk** (an issuer or counterparty may default on obligations); **Derivatives Risk** (derivative instruments are complex, have different characteristics than their underlying assets and are subject to additional risks, including

under-priced relative to their potential. The Fund may have a high portfolio turnover rate, which may be up to 200% or more. In addition to common stocks and other equity securities (such as preferred stocks and convertible securities), the Fund may invest in securities issued in initial public offerings (IPOs), and may utilize foreign currency exchange contracts, options, stock index futures contracts, warrants and other derivative instruments. Although the Fund did not invest significantly in derivative instruments as of the most recent fiscal year end, it may do so at any time.

Principal Risks

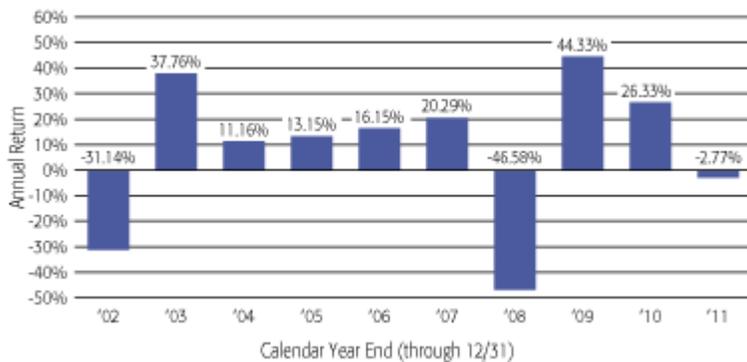

leverage, liquidity and valuation); **Focused Investment Risk** (focusing on a limited number of issuers, sectors, industries or geographic regions increases risk and volatility); **IPO Risk** (securities purchased in initial public offerings have no trading history, limited issuer information and increased volatility); **Leveraging Risk** (instruments and transactions that constitute leverage magnify gains or losses and increase volatility); **Liquidity Risk** (the lack of an active market for investments may cause delay in disposition or force a sale below fair value); and **Turnover Risk** (high levels of portfolio turnover increase transaction costs and taxes and may lower investment performance). Please see "Summary of Principal Risks" in the Fund's statutory prospectus for a more detailed description of the Fund's risks. It is possible to lose money on an investment in the Fund. An investment in the Fund is not a deposit of a bank and is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency.

Performance Information

The performance information below provides some indication of the risks of investing in the Fund by showing changes in its total return from year to year and by comparing the Fund's average annual total returns with those of a broad-based market index and a performance average of similar mutual funds. The bar chart and the information to its right show performance of the Fund's Institutional Class shares. Class P and Class D performance would be lower than Institutional Class performance because of the lower expenses paid by Institutional Class shares. For periods prior to the inception date of a share class, performance information shown for such class may be based on the performance of an older class of shares that dates back to the Fund's inception, as adjusted to reflect certain fees and expenses paid by the newer class. Similarly, for periods prior to a reorganization of the Fund, in which a predecessor fund was merged into the Fund, the

performance information is based on the performance of the predecessor fund, adjusted to reflect certain fees and expenses paid by the particular share class of the Fund. These adjustments generally result in estimated performance results for the newer class that are higher or lower than the actual results of the predecessor class and/or the predecessor fund, as the case may be, due to differing levels of fees and expenses paid. Details regarding the calculation of the Fund's class-by-class performance, including a discussion of any performance adjustments, are provided under "Additional Performance Information" in the Fund's statutory prospectus and SAI. *Past performance, before and after taxes, is not necessarily predictive of future performance.* Visit www.allianzinvestors.com for more current performance information.

After-tax returns are estimated using the highest historical individual federal marginal income tax rates and do not reflect the impact of state and local taxes. Actual after-tax returns depend on an investor's tax situation and may differ from those shown. After-tax returns are not relevant to investors who hold Fund shares through tax-deferred arrangements such as 401(k) plans or individual retirement accounts. In some cases the return after taxes may exceed the return before taxes due to an assumed tax benefit from any losses on a sale of Fund shares at the end of the measurement period. After-tax returns are for Institutional Class shares only. After-tax returns for other share classes will vary.

Portfolio Managers

K. Matthew Axline, CFA, Senior Vice President and Portfolio Manager at AGI U.S., which he joined via a predecessor firm in 2004, has managed the Fund since 2010.

Robert S. Marren, Managing Director and Portfolio Manager at AGI U.S., which he joined via a predecessor firm in 2007, has managed the Fund and the Nicholas-Applegate U.S. Emerging Growth Fund, the Fund's predecessor, since 2007.

John C. McCraw, Managing Director and Portfolio Manager at AGI U.S., which he joined via a predecessor firm in 1992, has managed the Fund and the Nicholas-Applegate U.S. Emerging Growth Fund, the Fund's predecessor, since such predecessor fund's inception in 1993.

Purchase and Sale of Fund Shares

You may purchase or sell (redeem) shares of the Fund on any business day through a broker, dealer, or other financial intermediary, or directly from the Fund's transfer agent by mail (Allianz Institutional Funds, P.O. Box 219968, Kansas City, MO 64121-9968), as further described in the Fund's statutory prospectus and SAI. To avoid delays in a purchase or redemption, please call 1-800-498-5413 with any

questions about the requirements before submitting a request. Generally, purchase and redemption orders for Fund shares are processed at the net asset value (NAV) next calculated after an order is received by the distributor or an authorized intermediary. NAVs are determined only on days when the New York Stock Exchange is open for regular trading. For Institutional Class and Class P shares, the minimum initial investment in the Fund is \$1 million, though minimums may be modified for certain financial intermediaries that aggregate trades on behalf of investors. For Class D shares, the minimum initial investment in the Fund is \$1,000 and the minimum subsequent investment is \$50, though financial service firms offering these shares may impose different minimums.

Tax Information

The Fund's distributions are generally taxable to you as ordinary income or capital gains, unless you are investing through a tax-deferred arrangement, such as a 401(k) plan or an individual retirement account.

Payments to Broker-Dealers and Other Financial Intermediaries

If you purchase shares of the Fund through a broker-dealer or other financial intermediary (such as a bank), the Fund, its distributor, its investment manager or their affiliates may pay the intermediary for the sale of Fund shares and related services. These payments may create a conflict of interest by influencing the broker-dealer or intermediary and your salesperson to recommend the Fund over another investment. Ask your salesperson or visit your financial intermediary's Web site for more information.

The Fund seeks maximum long-term capital appreciation.

Fees and Expenses of the Fund

The tables below describe the fees and expenses that you may pay if you buy and hold shares of the Fund. You may qualify for sales charge discounts if you and your family invest, or agree to invest in the future, at least \$50,000 in Class A Shares of eligible funds that are part of the family of mutual funds sponsored by Allianz. More information about these and other discounts is available in the "Classes of Shares" section beginning on page 200 of the Fund's statutory prospectus or from your financial advisor.
