The accompanying financial statements have been prepared assuming that the Company will continue as a going concern, which contemplates the recoverability of assets and the satisfaction of liabilities in the normal course of business. ## ITEM 2. PLAN OF OPERATION

We have registered our common stock on a Form 10-SB registration statement filed pursuant to the Securities Exchange Act of 1934, as amended (the “Exchange Act”) and Rule 12(g) thereof. We file with the Securities and Exchange Commission periodic and episodic reports under Rule 13(a) of the Exchange Act, including quarterly reports on Form 10-QSB and annual reports on Form 10-KSB.

We are currently seeking to engage in a merger with or acquisition of an unidentified foreign or domestic company which desires to become a reporting (“public”) company whose securities are qualified for trading in the United States secondary market. We meet the definition of a “blank check” company contained in Section (7)(b)(3) of the Securities Act of 1933, as amended. We have been in the developmental stage since inception and have no operations to date. Other than issuing shares to our sole stockholder, we have not commenced any operational activities.

We will not acquire or merge with any entity which does not intend to provide audited financial statements at or within a reasonable period of time after closing of the proposed transaction. We are subject to all the reporting requirements included in the Exchange Act. Included in these requirements is our duty to file audited financial statements as part of our Form 8-K to be filed with the Securities and Exchange Commission upon consummation of a merger or acquisition, as well as our audited financial statements included in our annual report on 10-KSB. If such audited financial statements are not available at closing, or within time parameters necessary to insure our compliance with the requirements of the Exchange Act, or if the audited financial statements provided do not conform to the representations made by the target business, the closing documents may provide that the proposed transaction will be voidable at the discretion of our present management.

We will not restrict our search for any specific kind of businesses, but may acquire a business which is in its preliminary or development stage, which is already in operation, or in essentially any stage of its business life. It is impossible to predict at this time the status of any business in which we may become engaged, in that such business may need to seek additional capital, may desire to have its shares publicly traded, or may seek other perceived advantages which we may offer.

A business combination with a target business will normally involve the transfer to the target business of the majority of our common stock, and the substitution by the target business of its own management and board of directors.

We have, and will continue to have, no capital with which to provide the owners of business opportunities with any cash or other assets. However, management believes we will be able to offer owners of acquisition candidates the opportunity to acquire a controlling ownership interest in a company with securities registered pursuant to Rule 12(g) of the Exchange Act. Our officer and director has not conducted market research and is not aware of statistical data to support the perceived benefits of a merger or acquisition transaction for the owners of a business opportunity.

Our audit reflects the fact that we have no current source of income. Further, that without realization of additional capital, it would be unlikely for the Company to continue as a going concern.

Our sole officer and director has agreed that he will advance any additional funds which we need for operating capital and for costs in connection with searching for or completing an acquisition or merger. Such advances have historically been converted to equity. There is no minimum or maximum amount the Officer and Director will advance to us. We will not borrow any funds for the purpose of repaying advances made by such Officer and Director, and we will not borrow any funds to make any payments to our promoters, management or their affiliates or associates.

The Board of Directors has passed a resolution which contains a policy that we will not seek an acquisition or merger with any entity in which our officer, director, stockholder or his affiliates or associates serve as officer or director or hold more than a 10% ownership interest.

### **Off-Balance Sheet Arrangements**

We do not have any off-balance sheet arrangements that have or are reasonably likely to have a current or future effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources that is material to investors.

### **Going Concern**

The financial statements included in this filing have been prepared in conformity with generally accepted accounting principles that contemplate the continuance of us as a going concern. Our lack of cash is inadequate to pay all of the costs associated with our operations. Management intends to use borrowings and security sales to mitigate the effects of its cash position, however no assurance can be given that debt or equity financing, if and when required will be available. The financial statements do not include any adjustments relating to the recoverability and classification of recorded assets and classification of liabilities that might be necessary should we be unable to continue existence.

## **ITEM 3. CONTROLS AND PROCEDURES**

We maintain disclosure controls and procedures designed to ensure that information required to be disclosed in reports filed under the Securities Exchange Act of 1934, as amended, is recorded, processed, summarized and reported within the specified time periods. As of the end of the period covered by this report, our sole officer evaluated the effectiveness of our disclosure controls and procedures. Based on the evaluation, which disclosed no significant deficiencies or material weaknesses, our sole officer concluded that our disclosure controls and procedures are effective. There were no changes in our internal control over financial reporting that occurred during our most recent fiscal quarter that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.
