ARTHUR ANDERSEN LLP

REPORT OF INDEPENDENT PUBLIC ACCOUNTANTS

To the Participants and Administration Committee of the Newmont Gold Company Hourly Retirement Savings Plan:

We have audited the accompanying statements of net assets available for plan benefits, with fund information, of the NEWMONT GOLD COMPANY HOURLY RETIREMENT SAVINGS PLAN as of December 31, 1995 and 1994, and the related statement of changes in net assets available for plan benefits, with fund information, for the year ended December 31, 1995. These financial statements and the schedules referred to below are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements and schedules based on our audits.

We conducted our audits in accordance with generally accepted auditing standards. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 1995 and 1994, and the changes in its net assets available for plan benefits, for the year ended December 31, 1995, in conformity with generally accepted accounting principles.

Our audits were performed for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedules of assets held for investment purposes and reportable transactions are presented for the purpose of additional analysis and are not a required part of the basic financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The fund information in the statements of net assets available for plan benefits and the statement of changes in net assets available for plan benefits is presented for purposes of additional analysis rather than to present the net assets available for plan benefits and changes in net assets available for plan benefits of each fund. The supplemental schedules and fund information have been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, are fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

ARTHUR ANDERSEN LLP

NEWMONT GOLD COMPANY HOURLY RETIREMENT SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 1995 AND 1994

(1) DESCRIPTION OF PLAN

Effective October 1, 1995, the Plan name was changed from the Retirement Savings Plan for Hourly-Rated Employees of Newmont Gold Company to the Newmont Gold Company Hourly Retirement Savings Plan (the "Plan").

The following description of the Plan provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan was established on October 1, 1991 by Newmont Gold Company (the "Company"). The Plan is a collectively bargained, defined contribution plan subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). Benefits under the Plan are not subject to guarantee by the Pension Benefit Guaranty Corporation.

Trust

Prior to October 1, 1995, the individual assets of the Plan were held under a trust agreement maintained by Wachovia Bank of North Carolina, N.A.

Effective October 1, 1995, trustee, record keeping, and investment management services were changed from Wachovia Bank of North Carolina, N.A. to the 401(k) MasterWorks Division of Wells Fargo Institutional Trust Company, N.A. and various new investment managers. Plan assets are held under a Trust Agreement (the "Trust") maintained by Wells Fargo Bank, N.A. (the "Trustee").

Barclays Bank PLC and certain of its affiliates acquired substantially all of Wells Fargo Institutional Trust Company, N.A. ("WFITC") as of December 31, 1995. As a result, the name WFITC was changed to BZW Barclays Global Investors, N.A. ("BGI"), effective January 1, 1996. Additionally, as a result of its acquisition of WFITC, BGI acquired the 401(k) MasterWorks Division of Wells Fargo and succeeded the business of the MasterWorks Division, effective January 1, 1996.

An Investment Committee consisting of not less than three nor more than five members is appointed by the Company's Board of Directors. The Investment Committee evaluates the performance of the Trustee, may retain independent advisors and consultants, and selects the investment options offered under the Plan.

Eligibility and Contributions

Effective October 1, 1995, hourly employees are eligible to participate in the Plan on the first day of the first month following 46 days of work. Prior to that date, hourly employees were eligible to participate in the Plan after twelve months of service. Participants may elect to contribute to the Plan up to 15% of their regular annual compensation, to a maximum of \$9,240 on a pre-tax basis for the 1995 and 1994 plan years. Participant's contributions are matched by the Company, not to exceed 4% of their regular compensation. Total annual additions under the Plan and all other plans sponsored by the Company are limited to the lesser of 25% of eligible compensation or \$30,000. Annual additions are defined as the participant's contributions and Company's matching contributions.

Vesting

Participants' contributions are fully vested. Participants vest 20% in Company contributions for each year of participation in the Plan to a maximum of 100% after four years of participation. Additionally, participants may become fully vested in the matching Company contributions under certain other circumstances,

including Plan termination.

At December 31, 1995, forfeited nonvested accounts totaled \$4,470. These accounts will be used to reduce future Company contributions. During 1995, Company contributions were reduced by \$22,144 from forfeited nonvested accounts.

The Plan provides that the Trustee may accept from a participant a contribution representing distributions from another plan which meets the requirements of Section 401(a) of the Internal Revenue Code (the "Code"). Such "rollover contributions" shall be fully vested and shall not be subject to, or affect in any way, the maximum annual contribution limitation.

Participant Accounts

Prior to October 1, 1995, each participant's account was credited with the participant's contribution, the Company's matching contribution and an allocation of Plan earnings, based on participant account balances, on a monthly basis. Effective October 1, 1995, the allocation of Plan earnings occurs on a daily basis.

Amounts payable to participants who have requested withdrawals from their account balances aggregated \$0 and \$29,532 at December 31, 1995 and 1994, respectively. Such amounts are included in Net Assets Available for Plan Benefits in the accompanying financial statement at year end. The distributions to participants were made after year end.

Payment of Benefits

Upon retirement, death, disability, or termination of service, a participant may elect to receive a lump sum distribution equal to his or her vested account balance.

-7-

11

Investments

Prior to October 1, 1995, participants could elect to invest their contributions and their portion of Company contributions in up to three individual funds. The short-term investment fund consisted of reserve funds held in the Dreyfus Liquid Assets Fund. The equity investment fund consisted of investments in a portfolio of corporate stocks, or securities convertible into stock, managed by American Mutual Fund, Inc. The fixed income investment fund consisted of a portfolio of investments in U.S. Short-Term Government Bonds held in Fidelity Management and Research Company's Short-Intermediate Government Portfolio.

Effective October 1, 1995, existing account balances were transferred to Wells Fargo Bank, N.A. and invested in the following three new funds during the transition period:

- U.S. Government Money Market Fund - Invests primarily in securities of the U.S. Government or its agencies with maturities of less than one year.
- PIMCO Low Duration Fund - Holds cash and shares of the PIMCO Low Duration Mutual Fund which invests in a diversified portfolio of fixed-income securities with an average duration between one and three years.
- Neuberger & Berman Guardian Trust - A growth and income fund which invests in stocks of established high-quality companies considered to be undervalued in comparison to stocks of similar companies.

All contributions made during the conversion period were directed into the U.S. Government Money Market Fund.

Beginning December 26, 1995, participants were offered new investment elections which included the three conversion period funds and the following additional funds:

- Stagecoach S&P 500 Stock Fund - Invests in the companies included in the Standard & Poor's 500 Index.
- AIM Constellation Fund - Aggressively seeks capital appreciation by investing principally in common stocks, with emphasis on medium-sized and smaller emerging-growth companies.
- Templeton Foreign Fund - Seeks long-term capital growth through a flexible policy of investing in stocks and debt obligations of companies and governments outside the United States.

-8-

- Newmont Gold Company Common Stock Fund - Invests solely in the common stock of Newmont Gold Company.
- LifePath Collective Trust (five fund elections) - The LifePath Funds invest in a changing mix of U.S. and international stocks, bonds, and money market securities according to the targeted retirement year of the investor.

The cost basis of the Plan's investments was \$12,265,671 and \$7,855,804 at December 31, 1995 and 1994, respectively. The fair market value of individual investments that represent 5% or more of the Plan's total investments as of December 31, 1995 and 1994 are as follows:

<TABLE>
<CAPTION>

	1995 -----	1994 -----
<S>	<C>	<C>
Wells Fargo - LifePath 2010 Fund	\$ 691,654	\$ --
Wells Fargo - LifePath 2020 Fund	687,842	--
Wells Fargo - U.S. Government Money Market Fund	1,171,435	--

Participant Loans	643,221	438,902
Dreyfus Liquid Assets Fund	--	1,233,487
American Mutual Fund	--	2,479,138
Fidelity U.S. Short Intermediate Government Portfolio	--	3,364,498

</TABLE>

At December 31, 1995, the Plan held no derivative instruments directly. However, the Plan held such instruments indirectly through their investments in the collective investment funds and mutual funds, which under their trust agreements, may invest in such instruments. These instruments consist mainly of future contracts and options. Credit risk exists with respect to these instruments. The credit related gains and losses during the year ended December 31, 1995 were immaterial.

Loans

Beginning January 1, 1994, loans are permitted from individual plan accounts on 50% of the participant's vested balance. The minimum loan amount is \$1,000 and the maximum is the lesser of 50% of the vested balance or \$50,000. The repayment period may be up to five years, or up to ten years if the loan is for the purchase of a principal residence. The interest rate is determined by the plan administrator based on prime plus 1% and is fixed over the life of the note.

-9-

(2) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting. The preparation of the financial statements in conformity with general accepted accounting principles requires the Plan's management to use estimates and assumptions that affect the accompanying financial statements and disclosures. Actual results could differ from these estimates.

Valuation of Investments

The Plan's investment funds are stated at fair value based on quoted market prices, which was readily determinable at December 31, 1995 and 1994. Cash equivalents and participant loans are stated at cost which approximates fair market value.

Net Appreciation (Depreciation) in Fair Value of Investments

Net realized and unrealized appreciation (depreciation) is recorded in the accompanying statement of changes in net assets available for plan benefits as net appreciation (depreciation) in fair value of investments.

Payment of Benefits

Benefits are recorded when paid.

The Company pays all administrative expenses of the Plan, except for loan processing fees.

(3) PLAN TERMINATION

Although it is the expectation of the Company to continue the Plan indefinitely, in the event of termination of the Plan, with respect to a group or class of participants, or partial discontinuance of contributions, the balance credited to the Company's matching contributions accounts of all participants subject to such partial termination or partial discontinuance of contributions, will become fully vested and nonforfeitable.

(4) TAX STATUS

The Trust established under the Plan is qualified under the Internal Revenue Code as exempt from Federal income taxes and a favorable determination letter has been received from the IRS dated July 14, 1995. The Plan administrator and the Plan's legal counsel believe that the Plan is being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, they believe that the Plan is qualified and the related trust is tax exempt as of the financial statement date.
