ADAPTIMMUNE THERAPEUTICS PLC

NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

Note 1 — General

Adaptimmune Therapeutics plc is registered in England and Wales. Its registered office is 60 Jubilee Avenue, Milton Park, Abingdon, Oxfordshire, OX14 4RX, United Kingdom. Adaptimmune Therapeutics plc and its subsidiaries (collectively "Adaptimmune" or the "Company") is a commercial-stage biopharmaceutical company primarily focused on the treatment of solid tumor cancers with cell therapies. The Company's proprietary platform enables it to identify cancer targets, find and develop cell therapy candidates active against those targets and produce therapeutic candidates for administration to patients.

The Company is subject to a number of risks similar to other biopharmaceutical companies in the clinical development stage including, but not limited to, the need to obtain adequate additional funding, possible failure of preclinical programs or clinical programs, the need to obtain marketing approval for its cell therapies, competitors developing new technological innovations, the need to successfully commercialize and gain market acceptance of its cell therapies, the need to develop a reliable commercial manufacturing process, the need to commercialize any cell therapies that may be approved for marketing, and protection of proprietary technology. If the Company does not successfully commercialize any of its cell therapies, it will be unable to generate product revenue or achieve profitability. The Company had an accumulated deficit of $1,002,155,000 as of June 30, 2024.

Note 2 — Summary of Significant Accounting Policies

(a) Basis of presentation

The condensed consolidated financial statements of Adaptimmune Therapeutics plc and its subsidiaries and other financial information included in this Quarterly Report are unaudited and have been prepared in accordance with generally accepted accounting principles in the United States of America ("U.S. GAAP") and are presented in U.S. dollars. All significant intercompany accounts and transactions between the Company and its subsidiaries have been eliminated on consolidation.

The unaudited condensed consolidated financial statements presented in this Quarterly Report should be read in conjunction with the consolidated financial statements and accompanying notes included in the Company's Annual Report on Form 10-K filed with the SEC on March 6, 2024 (the "Annual Report"). The balance sheet as of December 31, 2023 was derived from audited consolidated financial statements included in the Company's Annual Report but does not include all disclosures required by U.S. GAAP. The Company's significant accounting policies are described in Note 2 to those consolidated financial statements.

Certain information and footnote disclosures normally included in financial statements prepared in accordance with U.S. GAAP have been condensed or omitted from these interim financial statements. However, these interim financial statements include all adjustments, consisting only of normal recurring adjustments, which are, in the opinion of management, necessary to fairly state the results of the interim period. The interim results are not necessarily indicative of results to be expected for the full year.

(b) Use of estimates in interim financial statements

The preparation of interim financial statements, in conformity with U.S. GAAP and SEC regulations, requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the interim financial statements and reported amounts of revenues and expenses during the reporting period. Estimates and assumptions are made in various areas, including in relation to valuation allowances relating to deferred tax assets, revenue recognition, the fair value of assets acquired, liabilities assumed and consideration transferred in business combinations, and estimation of the incremental borrowing rate for operating leases. If actual results differ from the Company's estimates, or to the extent these estimates are adjusted in future

periods, the Company's results of operations could either benefit from, or be adversely affected by, any such change in estimate.

(c) Fair value measurements

The Company is required to disclose information on all assets and liabilities reported at fair value that enables an assessment of the inputs used in determining the reported fair values. The fair value hierarchy prioritizes valuation inputs based on the observable nature of those inputs. The hierarchy defines three levels of valuation inputs:

Level 1 - Quoted prices in active markets for identical assets or liabilities

Level 2 - Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly

Level 3 - Unobservable inputs that reflect the Company's own assumptions about the assumptions market participants would use in pricing the asset or liability

The carrying amounts of the Company's cash and cash equivalents, restricted cash, accounts receivable, accounts payable and accrued expenses approximate fair value because of the short-term nature of these instruments. The fair value of marketable securities, which are measured at fair value on a recurring basis is detailed in Note 6, Fair value measurements.

(d) Significant concentrations of credit risk

The Company held cash and cash equivalents of $211,810,000, marketable securities of $2,979,000 and restricted cash of $2,866,000 as of June 30, 2024. The cash and cash equivalents and restricted cash are held with multiple banks and the Company monitors the credit rating of those banks. The Company maintains cash balances in excess of amounts insured by the Federal Deposit Insurance Corporation in the United States and the U.K. Government Financial Services Compensation Scheme in the United Kingdom. The Company's investment policy limits investments to certain types of instruments, such as money market instruments, corporate debt securities and commercial paper, places restrictions on maturities and concentration by type and issuer and specifies the minimum credit ratings for all investments and the average credit quality of the portfolio.

The Company had three customers during the three and six months ended June 30, 2024 which are Galapagos, Genentech and GSK. There were accounts receivable of $2,335,000 as of June 30, 2024 and $821,000 as of December 31, 2023. The Company has been transacting with Galapagos since 2024, Genentech since 2021 and GSK since 2014, during which time no credit losses have been recognized. As of June 30, 2024, no allowance for expected credit losses is recognized on the basis that the possibility of credit losses arising on its receivables as of June 30, 2024 is considered to be remote. As of June 30, 2024 there are no receivables, either accrued or billed, due from Genentech that are no longer recoverable following the termination of the Genentech Collaboration and License Agreement.

Management analyzes current and past due accounts and determines if an allowance for credit losses is required based on collection experience, credit worthiness of customers and other relevant information. The process of estimating the uncollectible accounts involves assumptions and judgments and the ultimate amounts of uncollectible accounts receivable could be in excess of the amounts provided.

(e) New accounting pronouncements

Adopted in the current period

Improvements to Reportable Segment Disclosures

In November 2023, the FASB issued ASU 2023-07 – Segment Reporting (Topic 280) – Improvements to Reportable Segment Disclosures, which improves segment disclosure requirements, primarily through enhanced disclosure requirements for significant segment expenses. The improved disclosure requirements apply to all public entities that are required to report segment information, including those with only one reportable segment. The Company adopted the guidance in the fiscal year beginning January 1, 2024. There was no impact on the Company's reportable segments identified and additional required disclosures have been included in Note 15.

In March 2024, the FASB issued ASU 2024-02 - Codification Improvements—Amendments to remove References to the Concepts Statements, which contains amendments to the Codification that remove references to various FASB Concepts Statements. The amendments apply to all reporting entities within the scope of the affected accounting guidance and are effective for public business entities for fiscal years beginning after December 15, 2024, with early adoption permitted for all entities. The Company adopted the guidance in the fiscal year beginning January 1, 2024. There was no impact on the Company's financial statements.

To be adopted in future periods

Improvements to Income Tax Disclosures

In December 2023, the FASB issued ASU 2023-09 – Income Taxes (Topic 740) – Improvements to Income Tax Disclosures, which improves income tax disclosures primarily relating to the rate reconciliation and income taxes paid information. This includes a tabular reconciliation using both percentages and reporting currency amounts, covering various tax and reconciling items, and disaggregated summaries of income taxes paid during the period. For public business entities, the guidance is effective for annual periods beginning after December 15, 2024, with early adoption permitted. The Company intends to adopt the guidance in the fiscal year beginning January 1, 2025. The Company is currently evaluating the impact of the guidance on its Consolidated financial statements.

(f) Borrowings

The Company recognizes borrowings comprised solely of contractual payments on fixed or determinable dates that are issued solely for cash equal to their face value, at face value with the difference between the face amount and proceeds received upon issuance shown as either a discount or premium.

These notes are subsequently measured using the Interest Method, with the total interest being measured as the difference between the actual amount of cash received by the Company and the total amount agreed to be repaid. The interest charge in a given period is based on the effective interest rate, which is the rate implicit in the note based on the contractual cash flows. The discount or premium on the note is amortized as interest expense over the life of the note so as to produce a constant rate of interest.

Note 3 — Revenue

The Company generates development revenue from collaboration agreements with customers. The Company had three revenue-generating contracts with customers in the three and six months ended June 30, 2024, compared to three customers in the three months ended June 30, 2023, and two customers in the six months ended June 30, 2023: a termination and transfer agreement with GSK that was effective on April 6, 2023, a collaboration and license agreement with Galapagos signed on May 30, 2024, a strategic collaboration and license agreement with Genentech and a collaboration agreement with Astellas that was terminated as of March 6, 2023. The collaboration and licence agreement with Genentech was terminated in April 2024 and the termination is effective from October 2024.

	$ 128,231	**$ 5,130**	**$ 133,909**	**$ 52,731**

Deferred revenue decreased by $39,756,000 from $178,033,000 at December 31, 2023 to $138,277,000 at June 30, 2024 due to revenue recognized during the period of $133,011,000 that was included in deferred revenue at December 31, 2023 and a $1,211,000 decrease caused by the change in the exchange rate between pound sterling and the U.S. dollar from £1.00 to $1.27 at December 31, 2023 to £1.00 to $1.26 at June 30, 2024. This was partially offset by a

payment of $85,000,000 from Galapagos and milestones totalling $9,583,000 from GSK that were met and paid or accrued at June 30, 2024.

The aggregate amount of the transaction price that is allocated to performance obligations that are unsatisfied or partially satisfied under the agreements as of June 30, 2024 was $154,393,000.

The Galapagos Collaboration and Exclusive License Agreement

On May 30, 2024, the Company entered into a clinical collaboration agreement with Galapagos NV. The agreement includes an option for Galapagos to exclusively license the TCR T-cell therapy candidate uza-cel, manufactured on Galapagos' decentralized manufacturing platform, in head and neck cancer and potential future solid tumor indications. Under the agreement, we will conduct a clinical proof-of-concept trial (the "POC Trial") to evaluate the safety and efficacy of uza-cel produced on Galapagos' decentralized manufacturing platform in patients with head and neck cancer.

The Company will receive initial payments of $100 million, comprising $70 million upfront and $30 million of research and development funding of which $15 million is due upfront and $15 million is due once the first patient is infused in the POC Trial, option exercise fees of up to $100 million (the amount depending on the number of indications in relation to which the option is exercised), additional development and sales milestone payments of up to a maximum of $465 million, plus tiered royalties on net sales. The $70 million upfront payment and $15 million of upfront research and development funding was received in June 2024.

The Company determined that Galapagos is a customer and has accounted for the agreement under ASC 606 *Revenue from Contracts with Customers*. The Company has identified a performance obligation relating to the various activities required to complete the POC trial and a material right associated with the exclusive license option.

The aggregate transaction price at inception of the agreement was $100,000,000 comprising the $70,000,000 upfront payment and the $30,000,000 research and development funding. The fees for the exclusive license option exercise and development milestone payments are not considered probable as of June 30, 2024 and have not been included in the transaction price. The sales milestones and royalties for future sales of therapies have not been included within the transaction price as of June 30, 2024 because they are sales-based and would be recognized when the subsequent sales occur.

The aggregate transaction price is allocated to the performance obligations depending on the relative standalone selling price of the performance obligations. In determining the best estimate of the relative standalone selling price, the Company considered the internal pricing objectives it used in negotiating the contract, together with internal data regarding the expected costs and a standard margin on those costs, for completing the POC Trial. The residual approach was used to value the material right associated with the exclusive license option as the Company has not previously sold uza-cel on a standalone basis and has not established a price for uza-cel.

The Company expects to satisfy the POC Trial obligation over time over the period that the trial is completed, based on an estimate of the percentage of completion of the trial determined based on the costs incurred on the trial as a percentage of the total expected costs. The revenue allocated to the material right associated with the exclusive licence option will be recognized from the point that the option is either exercised and control of the license has passed to Galapagos or the option lapses.

The amount of the transaction price that is allocated to performance obligations that are unsatisfied or partially satisfied under the agreement as of June 30, 2024 was $100,000,000, of which $44,400,000 is allocated to the POC Trial performance obligation and $55,600,000 is allocated to the material right for the exclusive option.

The Genentech Collaboration and License Agreement

On April 12, 2024 the Company announced the termination of the collaboration with Genentech in relation to the research, development and commercialization of cancer targeted allogeneic T-cell therapies which will be effective from October 7, 2024. The termination was accounted for as a contract modification on a cumulative catch-up basis. The termination did not change the nature the performance obligations identified but resulted in a reduction in the transaction price as the additional payments and variable consideration that would have been due in periods after October 7, 2024 will now never be received.

The Company originally expected to satisfy the performance obligations relating to the initial 'off-the-shelf' collaboration targets and the personalized therapies as development progressed and recognized revenue based on an estimate of the percentage of completion of the project determined based on the costs incurred on the project as a

percentage of the total expected costs. The Company expected to satisfy the performance obligations relating to the material rights to designate additional ‘off-the-shelf’ collaboration targets from the point that the options would have been exercised and then as development progressed, in line with the initial ‘off-the-shelf’ collaboration targets, or at the point in time that the rights expired. The Company expected to satisfy the performance obligations relating to the material rights

to extend the research term from the point that the options would have been exercised and then over the period of the extension, or at the point in time that the rights expired.

The aggregate remaining transaction price that had not yet been recognized as revenue as of the date of the termination was $146,301,000 which included the remaining deferred income that had not been recognized as revenue as of the date of the modification and the variable consideration to be billed under the collaboration until the effective date of the termination that is still considered probable. The termination resulted in a cumulative catch-up adjustment at the date of the termination of $101,348,000.

The amount of the transaction price that is allocated to performance obligations that are unsatisfied or partially satisfied under the Genentech agreement as of June 30, 2024 was $24,515,000. Of this amount $7,926,000 is allocated to the research services and rights granted for the initial 'off-the-shelf' collaboration targets, $5,086,000 is allocated to the research services and rights granted for the personalized therapies, $7,764,000 is allocated to the material rights to designate the additional 'off-the-shelf' collaboration targets, $2,991,000 is allocated to the material right for the first option to extend the research term and $748,000 is allocated to the material right for the option to extend the research term a second time.

The GSK Termination and Transfer Agreement

On April 6, 2023, the Company and GSK entered into a Termination and Transfer Agreement (the "Termination and Transfer Agreement") regarding the return of rights and materials comprised within the PRAME and NY-ESO cell therapy programs. The parties will work collaboratively to ensure continuity for patients in ongoing lete-cel clinical trials forming part of the NY-ESO cell therapy program.

As part of the agreement, sponsorship and responsibility for the ongoing IGNYTE and long-term follow-up ("LTFU") trials relating to the NY-ESO cell therapy program will transfer to Adaptimmune. In return for this, Adaptimmune received an upfront payment of £7.5 million in June 2023 following the signing of the agreement and milestone payments of £3 million, £12 million and £6 million in September and December 2023 and June 2024, respectively. A further milestone payment of £1.5 million had been met and accrued, but not billed, at June 30, 2024.

The Company determined that GSK is a customer and has accounted for the agreement under ASC 606 *Revenue from Contracts with Customers*. The agreement is accounted for as a separate contract from the original GSK Collaboration and License Agreement. The Company has identified the following performance obligations under the agreement: (i) to take over sponsorship for the IGNYTE trial and (ii) to take over sponsorship for the LTFU trial.

The aggregate transaction price at inception of the agreement was $37,335,000 comprising the total £30,000,000 upfront and milestone payments. No value was ascribed to non-cash consideration and there was no variable consideration identified. The aggregate transaction price is allocated to the performance obligations depending on the relative standalone selling price of the performance obligations. In determining the best estimate of the relative standalone selling price, the Company considered the internal pricing objectives it used in negotiating the contract, together with internal data regarding the expected costs and a standard margin on those costs, for completing the trials. The amount of the transaction price allocated to the performance obligation is recognized as or when the Company satisfies the performance obligation.

The Company expects to satisfy the performance obligations over time from the point that sponsorship of the active trials that make up the trial transfers and then over the period that the trial is completed, based on the number of patients transferred and still actively enrolled to date on the trial at a given period-end relative to the total estimated periods of active patient enrollment over the estimated duration of the trial.

The Company considers that this depicts the progress of the completion of the trials under the Termination and Transfer Agreement, as the status of patients on the trial is not directly affected by decisions that the Company might make relating to its own development of the NY-ESO cell therapy program.

The amount of the transaction price that is allocated to performance obligations that are unsatisfied or partially satisfied under the agreement as of June 30, 2024 was $29,878,000, of which $13,958,000 is allocated to the IGNYTE performance obligation and $15,920,000 is allocated to the LTFU performance obligation.

The Astellas Collaboration Agreement

The Company and Universal Cells mutually agreed to terminate the Astellas Collaboration Agreement as of March 6, 2023 (the "Termination Date"). In connection with the termination, all licenses and sublicenses granted to either party pursuant to the Collaboration Agreement ceased as of the Termination Date. There were no termination penalties in connection with the termination; however the Company is still entitled to receive reimbursement for research and development work performed up to and including a period of 30 days after the Termination Date.

The termination was accounted for as a contract modification on a cumulative catch-up basis. No performance obligations were identified as a result of the modification as there were no further goods or services to be provided by the Company and the modification resulted in the remaining unsatisfied and partially satisfied performance obligations under the collaboration becoming fully satisfied. The aggregate transaction price of the contract modification was $42,365,000 which included the remaining deferred income that had not been recognized as revenue as of the date of the modification and variable consideration from the remaining reimbursement income to be billed under the collaboration at the end of the 30 day period after the Effective Date. The transaction price of the modification was recognized in full in March 2023 and there is no remaining transaction price allocated to performance obligations that are unsatisfied or partially satisfied under, no remaining deferred income relating to, the agreement as of June 30, 2024 and no revenue was recognized in 2024.

Note 5 — Accumulated other comprehensive (loss)/income

The Company reports foreign currency translation adjustments and the foreign exchange gain or losses arising on the revaluation of intercompany loans of a long-term investment nature within Other comprehensive (loss) income. Unrealized gains and losses on available-for-sale debt securities are also reported within Other comprehensive (loss) income until a gain or loss is realized, at which point they are reclassified to Other (expense) income, net in the Condensed Consolidated Statement of Operations.

The following tables show the changes in Accumulated other comprehensive (loss) income (in thousands):

	Accumulated foreign currency translation adjustments	Accumulated unrealized (losses) gains on available-for-sale debt securities	Total accumulated other comprehensive (loss) income

Note 6 — Fair value measurements

Assets and liabilities measured at fair value on a recurring basis based on Level 1, Level 2, and Level 3 fair value measurement criteria as of June 30, 2024 are as follows (in thousands):

		Fair value measurements using		
	June 30, 2024	Level 1	Level 2	Level 3
Assets classified as available-for-sale debt securities:				
Corporate debt securities	$ 2,979	2,979	$ —	—
	$ 2,979	**$ 2,979**	**$ —**	**$ —**

The Company estimates the fair value of available-for-sale debt securities with the aid of a third party valuation service, which uses actual trade and indicative prices sourced from third-party providers on a daily basis to estimate the fair value. If observed market

prices are not available (for example securities with short maturities and infrequent secondary market trades), the securities are priced using a valuation model maximizing observable inputs, including market interest rates.

Note 7 — Marketable securities – available-for-sale debt securities

As of June 30, 2024, the Company has the following investments in marketable securities (in thousands):

	Remaining contractual maturity	Amortized cost	Gross unrealized gains	Gross unrealized losses	Aggregate estimated fair value
Available-for-sale debt securities:					
Corporate debt securities	3 months to 1 year	$ 2,979	$ —	$ —	$ 2,979
		$ 2,979	**$ —**	**$ —**	**$ 2,979**

The aggregate fair value (in thousands) and number of securities held by the Company (including those classified as cash equivalents) in an unrealized loss position as of June 30, 2024 and December 31, 2023 are as follows:

	June 30, 2024			December 31, 2023		
	Fair market value of investments in an unrealized loss position	Number of investments in an unrealized loss position	Unrealized losses	Fair market value of investments in an unrealized loss position	Number of investments in an unrealized loss position	Unrealized losses
Marketable securities in a continuous loss position for less than 12 months:						
Corporate debt securities	$ 1,987	1	$ —	$ 1,600	1	$ (1)
	$ 1,987	**1**	**$ —**	**$ 1,600**	**1**	**$ (1)**

As of June 30, 2024, no allowance for expected credit losses has been recognized in relation to the security in an unrealized loss position. This is because the unrealized loss is not severe, does not represent a significant proportion of the total fair market value of the investment and the security has an investment-grade credit rating. Furthermore, the Company does not intend to sell the debt security in an unrealized loss position, believes that it has the ability to hold the debt security to maturity, and it is currently unlikely that the Company will be required to sell this security before the recovery of the amortized cost.

Note 12 — Stockholders' equity

On April 8, 2022 the Company entered into a sales agreement with Cowen (the "Sales Agreement") under which we may from time to time issue and sell ADSs representing our ordinary shares through Cowen in ATM offerings for an aggregate offering price of up to $200 million. In the six months ended June 30, 2024 the Company sold 27,278,176 ADSs under the agreement representing 163,669,056 ordinary shares resulting in net proceeds to the Company of $29,155,317

after deducting commissions payable under the Sales Agreement and issuance costs. As of June 30, 2024, approximately $156,228,841 remained available for sale under the Sales Agreement.

Note 13 – Business combinations

On March 6, 2023 the Company announced entry into a definitive agreement under which it would combine with TCR^2 Therapeutics Inc. ("TCR^2") in an all-stock transaction to create a preeminent cell therapy company focused on treating solid tumors. TCR^2 is a Boston, Massachusetts-based T-cell therapy company focused on treating solid tumours, with clinical franchises undergoing trials and a preclinical pipeline. The combination provides extensive benefits for clinical development and product delivery supported by complementary technology platforms.

The transaction was approved by the Company's shareholders and TCR^2 stockholders on May 30, 2023 and the merger became effective on June 1, 2023. The Company issued 357,429,306 shares to TCR^2 stockholders in return for 100% of TCR^2's stock. As a result, TCR^2 and all entities within the TCR^2 group, became wholly owned by the Company. Following the completion of the transaction, the former TCR^2 stockholders held approximately 25% of the Company, whereas the Company's pre-existing shareholders held approximately 75%.

The Company was identified as the acquirer, with TCR^2 as the acquiree, and June 1, 2023 was determined to be the acquisition date.

The consideration transferred for TCR^2 includes the shares issued by the Company to former TCR^2 shareholders, plus the fair value of replacement awards of the Company granted to TCR^2 grantholders attributable to pre-combination vesting. The table below summarizes the consideration transferred and the amounts of the assets acquired and liabilities assumed recognized at the acquisition date:

Consideration transferred:		
Fair value of 357,429,306 ordinary shares issued	$	60,763
Fair value of replacement options and RSU-style options granted attributable to pre-combination service:		963
Purchase consideration	**$**	**61,726**
Identifiable assets acquired and liabilities assumed:		
Assets acquired		
Cash and cash equivalents	$	43,610
Restricted cash		1,654
Marketable securities - available-for-sale debt securities		39,532
Other current assets and prepaid expenses		6,029
Property, plant and equipment		2,712
Operating lease right-of-use assets		5,145
Intangible assets		58
Total assets acquired	**$**	**98,740**
Liabilities assumed		
Accounts payable		(6,210)
Accrued expenses and other current liabilities		(4,537)
Operating lease liabilities, current		(1,974)
Operating lease liabilities, non-current		(2,244)
Total liabilities assumed	**$**	**(14,965)**
Net assets acquired and liabilities assumed	**$**	**83,775**

The fair value of the 357,429,306 ordinary shares issued to TCR^2 stockholders of $60,763,000 was determined on the basis of the closing market price of $1.02 ($0.17 per ordinary share) of the Company's ADSs as of May 31, 2023.

The assets acquired and liabilities assumed were measured based on management's estimates of the fair value as of the acquisition date, excluding leases.

The lease contracts acquired by the Company relate to the rental of office and manufacturing spaces in which TCR^2 was the lessee. The Company retained TCR^2's previous classification of acquired leases as operating leases as there were no lease modifications as a result of the combination, with the exception of leases with a remaining lease term of 12 months or less at the acquisition date, for which no assets or liabilities were recognized at the acquisition date. The lease liabilities were measured at the present value of the remaining lease payments as if the leases were a new lease as of June 1, 2023, discounted using the incremental borrowing rate. The right-of-use assets were measured at the same amount as the lease liabilities, with adjustments to reflect favorable or unfavorable terms compared to market terms. No intangible assets were identified in relation to lease contracts acquired.

The table below summarises the calculation for the gain on bargain purchase, recognized in the Gain on bargain purchase line in the Consolidated Statement of Operations:

Gain on bargain purchase		
Purchase consideration	$	(61,726)
Net assets acquired and liabilities assumed		83,775
Gain on bargain purchase	**$**	**22,049**

The gain on bargain purchase above includes the impact of a $106,000 reduction recognized in the third quarter of 2023 following finalization of provisional amounts relating to replacement awards.

The transaction resulted in a gain on bargain purchase as the purchase consideration included in the agreement on March 6, 2023 comprising Company ADSs was based on a fixed ratio of 1.5117 of the Company's ADSs to be issued for each TCR^2 stock acquired. As the transaction was an all-stock transaction, the value of the consideration was highly sensitive to changes in the Company's ADS price. The price of a Company ADS fell from a closing price of $1.32 on March 6, 2023 compared to a closing price of $1.02 on May 31, 2023.

The amount of revenue and earnings of the combined entity for the six months ended June 30, 2023, had the acquisition date been January 1, 2022, would be as follows:

		Six months ended June 30, 2023
Revenue	$	52,731
Net loss		(86,202)

The supplemental pro forma earnings for the six months ended June 30, 2023 were adjusted to exclude the $22 million Gain on bargain purchase, $7.2 million of acquisition-related costs recognized by the Company, as detailed below, and the $7.7 million of acquisition-related costs incurred by TCR^2 during that period. The supplemental pro forma earnings was adjusted to include the impact of replacement options issued, as if these had been issued as of January 1, 2022. Accordingly, the share-based compensation expense recognized by TCR^2 in the five months ended May 31, 2023 prior to the acquisition by the Company, of $1.0 million were excluded from the pro forma earnings.

TCR^2 did not generate revenue in the period from January 1, 2023 to June 30, 2023, as it has no contracts with customers, so there was no impact on the revenue included in the Company's Consolidated Statement of Operations or in the supplemental pro forma revenue and earnings presented above.

The Company incurred the following acquisition-related costs that were recognized as an expense in 2023:

		Six months ended June 30, 2023		**Total acquisition-related costs**
Legal, professional and accounting fees	$	4,993	$	5,174
Bankers' fees		2,172		2,172
Total acquisition-related costs	**$**	**7,165**	**$**	**7,346**

Note 14 – Borrowings

On May 14, 2024 (the "Closing Date"), we entered into a Loan and Security Agreement (the "Loan Agreement"), with several banks and other financial institutions or entities and Hercules Capital, Inc. ("Hercules Capital"), for a term loan facility of up to $125.0 million (the "Term Loan"), consisting of a term loan advance in the aggregate principal amount equal to $25.0 million on the Closing Date (the "Tranche 1 Advance"), and three further term loan advances available to the Company subject to certain terms and conditions in aggregate principal amounts of $25.0 million, $5.0 million and $30.0 million, respectively, and a term loan advance available in the sole discretion of the lenders and subject to certain terms and conditions in the aggregate principal amount of $40.0 million. The proceeds of the Term Loan will be used solely to repay related fees and expenses in connection with the Loan Agreement and for working capital and general corporate purposes.

The Term Loan attracts interest on the outstanding principal in the form of both cash and payment-in-kind ("PIK") interest. The cash interest rate is the greater of the Prime Rate plus 1.15% and 9.65% and is paid monthly in arrears. The PIK interest rate is 2% per annum. The outstanding principal used to determine both the cash and PIK interest is inclusive of capitalized PIK interest. The Term Loan also attracts an End of Term Charge of 5.85% payable on maturity which is based on the aggregate original principal amount (i.e. excluding capitalized PIK interest).

The Term Loan matures on June 1, 2029 and payments are interest-only until the Amortization Date after which the monthly payments include repayments of both principal and interest. The Amortization Date is June 1, 2027 but can be extended if certain criteria are met and the Company chooses to extend the date. The final Term Loan Maturity Date cannot be extended.

The Term Loan is secured by a lien on substantially all of Borrower's existing or after-acquired assets, including intellectual property, subject to customary exceptions. In addition, the Loan Agreement contains customary closing and commitment fees, prepayment fees and provisions, events of default and representations, warranties and affirmative and negative covenants, including a financial covenant requiring the Company to maintain certain levels of cash in accounts subject to a control agreement in favor of Hercules Capital (the "Qualified Cash") during the period commencing on January 1, 2025 (which initial commencement date is subject to adjustment if certain performance milestones are met) and at all times thereafter, provided that if the Company has achieved certain performance milestones, the amount of Qualified Cash is subject to certain reductions. The Loan Agreement also includes customary events of default, including payment defaults, breaches of covenants following any applicable cure period, the occurrence of certain events that could reasonably be expected to have a "material adverse effect" as set forth in the Loan Agreement, cross acceleration to third-party indebtedness and certain events relating to bankruptcy or insolvency.

Each loan tranche has been identified as a separate unit of account within the scope of ASC 835-30 *Imputation of interest*, with the Tranche 1 Advance constituting a debt instrument and the remaining tranches being loan commitments.

The Company drew down the Tranche 1 Advance of $25,000,000 on May 14, 2024 and received proceeds of $24,500,000 after charges payable to Hercules Capital. No qualifying debt issuance costs were incurred in relation to the Tranche 1 Advance. The Tranche 1 Advance was initially recognized at $24,750,000. At June 30, 2024 the face value of the outstanding principal (including capitalized PIK interest) on the Term Loan was $25,067,000, less unamortized discount and unaccreted value of the End of Term Charge of $113,000 based on the imputed interest rate of 13.5%.

The fair value of the Term Loan at June 30, 2024 is a Level 2 measurement considered to approximate its book value of $25.0 million due to the short period of time since the Term Loan was entered into and the interest rates upon which the terms of the Term Loan were based, notably the Prime Rate, have not changed since the Term Loan was drawn.

The aggregate maturity of the term loan for the next five years from June 30, 2024 is as follows:

	Maturity
2024	$ —
2025	—
2026	—
2027	6,380
2028	11,793
2029	9,035
Total principal repayments	**$ 27,208**
Composition of principal repayments	
Original principal	**$** 25,000
Capitalized PIK interest	2,208
Total principal repayments	**$ 27,208**

The payments included in the table include capitalized PIK interest, as this forms part of the principal balance to be repaid once incurred. Payments relating to cash interest and the End of Term Charge are excluded as they do not constitute repayments of the principal.

Note 15 – Segment reporting

The Company has one reportable segment relating to the research, development and planned commercialization of its novel cell therapies. The segment derives its current revenues from research and development collaborations.

The Company's Chief Operating Decision Maker (the "CODM"), its Chief Executive Officer and the senior leadership team (comprising the Executive Team members and three senior vice presidents), manages the Company's operations on an integrated basis for the purposes of allocating resources. When evaluating the Company's financial performance, the CODM reviews total revenues, total expenses and expenses by function and the CODM makes decisions using this information on a global basis.

The table below is a summary of the segment profit or loss, including significant segment expenses (in thousands):

Note 16 – Subsequent events

On August 1, 2024, we announced receipt of accelerated approval for Tecelra from the FDA, the first engineered cell therapy for a solid tumor cancer approved in the U.S. Tecelra was approved for advanced MAGE-A4+ synovial sarcoma in adults with certain HLA types who have received prior chemotherapy.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion and analysis of our financial condition and results of operations should be read in conjunction with our unaudited consolidated financial statements and related notes appearing elsewhere in this Quarterly Report and the audited consolidated financial statements and notes thereto and management's discussion and analysis of financial condition and results of operations for the year ended December 31, 2023, included in our Annual Report on Form 10-K that was filed with the SEC on March 6, 2024. Some of the information contained in this discussion and analysis or set forth elsewhere in this Quarterly Report, including information with respect to our plans and strategy for our business, includes forward-looking statements that involve risks and uncertainties. As a result of many factors, including those factors set forth in the "Risk Factors" section of this Quarterly Report and our Annual Report on Form 10-K for the year ended December 31, 2023, our actual results could differ materially from the results described in, or implied by, these forward-looking statements.

Overview

We are a commercial-stage biopharmaceutical company working to redefine the treatment of solid tumor cancers with cell therapies. With the approval by the U.S. Food and Drug Administration ("FDA") of our first biologics license application ("BLA") for Tecelra® (afamitresgene autoleucel) ("Tecelra"), which is the first engineered cell therapy for a solid tumor cancer approved in the U.S., we are now focused on its launch and commercialization. Tecelra is a genetically modified autologous T-cell immunotherapy indicated for the treatment of adults with unresectable or metastatic synovial sarcoma who have received prior chemotherapy, are HLA-A*02:01P, -A*02:02P, -A*02:03P, or -A*02:06P positive and whose tumor expresses the MAGE-A4 antigen as determined by FDA-approved or cleared companion diagnostic devices. This indication is approved under the FDA's accelerated approval based on overall response rate ("ORR") and durability of response. Continued approval for this indication may be contingent upon verification and description of clinical benefits from a confirmatory trial.

Tecelra is the first product in our sarcoma franchise. The second product, lete-cel (letetresgene autoleucel), is planned for regulatory submission starting in 2025. Behind lete-cel we have an active pipeline of T-cell therapies, including our uza-cel (uzatresgene autoleucel) product which is in phase 2 trials in ovarian cancer.

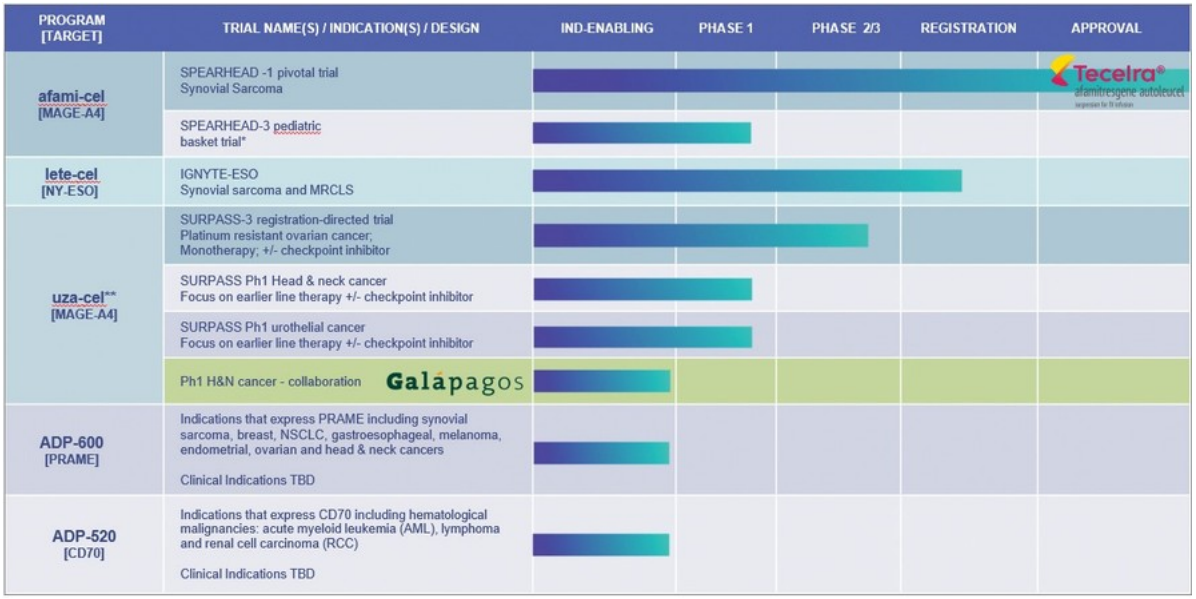
Tecelra

We are focussed on the launch and commercialization of Tecelra for the treatment of advanced synovial sarcoma and for which we received FDA approval on August 1, 2024. The approval of TECELRA was based on results of the SPEARHEAD-1 (Cohort 1) trial, which included 44 patients. The major efficacy outcome was overall response rate (ORR) determined by independent review and supported by duration of response. TECELRA treatment resulted in an ORR of 43% with a complete response rate of 4.5%. The median duration of response was 6 months (95% CI: 4.6, not reached). Among patients who were responsive to the treatment, 39% had a duration of response of 12 months or longer. We plan to have at least six to ten authorized treatment centers (ATCs) up and running this year and to onboard approximately 30 treatment centers within the first two years.

Lete-cel

Lete-cel targets the NY-ESO antigen and has been in clinical trials (the IGNYTE-ESO trial) for people with synovial sarcoma and myxoid round cell liposarcoma (MRCLS). Data for the IGNYTE-ESO trial was reported at the American Society of Clinical Oncology (ASCO) in June 2024. Interim Analysis data was presented and provided an ORR of 40% consistent across both synovial sarcoma and myxoid round cell liposarcoma (MRCLS), a median duration of response of approximately 11 months and with patients still in response at the time of data analysis. Full results from the IGNYTE-ESO trial are expected through the end of 2024 and we plan to file a rolling BLA submission during 2025.

Clinical Pipeline



**Synovial sarcoma, Malignant Peripheral Nerve Sheath Tumor (MPNST), Neuroblastoma, Osteosarcoma, Temporary suspension of enrolment as per protocol in SPEARHEAD-3 trial*
***uzatresgene autoleucel, formerly ADP-A2M4CD8; SURPASS Ph 1 no longer enrolling. Adaptimmune and Galapagos to conduct a clinical proof-of- concept trial to evaluate the safety and efficacy of uza-cel produced on Galapagos' decentralized manufacturing platform in patients with head & neck cancer*

We have clinical trials ongoing in certain indications in which the MAGE-A4 antigen is expressed.

- ***SPEARHEAD Trials with afami-cel.*** The SPEARHEAD trial is ongoing in the EU for treatment of patients with synovial sarcoma. A pediatric trial is ongoing in the US in tumors expressing the MAGE-A4 antigen, enrolment in this trial has been temporarily suspended as per protocol.

- ***SURPASS-3 Phase 2 Trial with uza-cel.*** A Phase 2 trial for people with platinum resistant ovarian cancer is ongoing. We have received Regenerative Medicine Advanced Therapy ("RMAT") designation for uza-cel for the treatment of this indication from the FDA. The Phase 2 trial evaluates ADP-A2M4CD8 as both monotherapy and in combination with a checkpoint inhibitor, nivolumab, in ovarian cancer. The trial is open in the U.S., Canada, Spain, the U.K. and France.

Our ADP-A2AFP Phase 1 trial, SURPASS-2 trial, gavo-cel and TC-510 trials have closed to enrollment. Screening for the SURPASS phase 1 trial has ceased and enrollment will close shortly.

Pre-clinical Pipeline

Our aim is to utilize the insights we obtain from our clinical trials and translational sciences work to improve the efficacy of our existing products and approaches; and to increase the scope of our cell therapies and ability to treat an increasing number of patients. We are currently focusing our preclinical pipeline on the development of T-cell therapies directed to PRAME (ADP-600) and CD70 (ADP-520) and on our allogeneic cell therapy platform.

- PRAME is highly expressed across a broad range of solid tumors including ovarian, endometrial, lung and breast cancers. We are developing TCR T-cells directed to PRAME, with the initial candidate (ADP-600) currently in preclinical testing and next-generation candidates being developed over the longer term.

- The CD70 program targets the CD70 antigen which is expressed across a range of hematological malignancies (acute

myeloid leukemia and lymphoma) and solid tumors (renal cell carcinoma). We are using TRuC technology to develop a T-cell therapy (ADP-520) against CD70, with membrane bound IL-15 to enhance persistence. ADP-520 is currently in pre-clinical testing.

- Our allogeneic platform utilizes cells derived from induced Pluripotent Stem Cells ("iPSCs"), which can be gene-edited to express our engineered TCRs or other constructs and then differentiated into the required end cell type, for example T-cells. The platform is applicable to all of our cell therapies. We have a collaboration with Genentech Inc ("Genentech"). Termination of the agreement for the collaboration was announced on April 12, 2024 with termination becoming effective 180 days after receipt of notice of termination. The collaboration covered the development of two types of allogeneic T-cell therapies: (i) off-the-shelf αβ T-cell therapies directed to up to five collaboration targets and (ii) personalized therapies utilizing αβ T-cell receptors (TCRs) isolated from a patient, with these therapies being administered to the same patient. As of the effective date of termination, Adaptimmune will not be entitled to receive any additional milestones due after the date of termination and will also cease to have any further development obligations under the agreement.

Corporate News

On May 14, 2024, we entered into a Loan and Security Agreement (the "Loan Agreement"), with several banks and other financial institutions or entities and Hercules Capital, Inc. ("Hercules Capital"), for a term loan facility of up to $125.0 million (the "Term Loan"), consisting of a term loan advance in the aggregate principal amount equal to $25.0 million on the Closing Date (the "Tranche 1 Advance"), a term loan advance available to the Company subject to certain terms and conditions in the aggregate principal amount of $25.0 million (the "Tranche 2 Advance'), a term loan advance available subject to certain terms and conditions in the aggregate amount of $5.0 million (the "Tranche 3 Advance"), a term loan advance available subject to certain terms and conditions in the aggregate principal amount of $30.0 million (the "Tranche 4 Advance") and a term loan advance available in the sole discretion of the lenders and subject to certain terms and conditions in the aggregate principal amount of $40.0 million (the "Tranche 5 Advance" and together with each Tranche Advance, the "Term Loan Advances"). The proceeds of the Term Loan will be used solely to repay related fees and expenses in connection with the Loan Agreement and for working capital and general corporate purposes. Following the receipt of FDA approval for Tecelra, the Company is eligible to draw down the Tranche 2 Advance of $25.0 million and is in the process of requesting the Tranche 2 Advance.

On May 30, 2024, we announced the entry into a clinical collaboration agreement with Galapagos NV. The agreement includes an option for Galapagos to exclusively license the TCR T-cell therapy candidate uza-cel, manufactured on Galapagos' decentralized manufacturing platform, in head and neck cancer and potential future solid tumor indications. Under the agreement, we will conduct a clinical proof-of-concept trial to evaluate the safety and efficacy of uza-cel produced on Galapagos' decentralized manufacturing platform in patients with head and neck cancer. The construct has shown encouraging results in head & neck cancer in our SURPASS-1 trial with partial responses in four out of five patients and using our manufacturing platform. We will receive initial payments of $100 million, comprising $70 million upfront and $30 million of research and development funding (of which $85 million has been received), option exercise fees of up to $100 million (the amount depending on the number of indications in relation to which the option is exercised), additional development and sales milestone payments of up to a maximum of $465 million, plus tiered royalties on net sales. We retain the right to develop, manufacture, commercialize and otherwise exploit uza-cel for platinum-resistant ovarian cancer.

Financial Operations Overview

Revenue

The Company had three customers in the three and six months ended June 30, 2024, three customers in the three months ended June 30, 2023, and two customers in the six months ended June 30, 2023: the Astellas Collaboration Agreement (until March 6, 2023), the Galapagos Collaboration Agreement (from May 30, 2024), the Genentech Collaboration Agreement and the GSK Termination and Transfer Agreement (from April 11, 2023).

The Astellas Collaboration Agreement

In January 2020, the Company entered into a collaboration agreement with Astellas. The Company received $50.0 million as an upfront payment after entering into the agreement. Under the agreement the parties would agree on up to three targets and would co-develop T-cell therapies directed to those targets pursuant to an agreed research plan. For each target, Astellas would fund co-development

up until completion of a Phase 1 trial for products directed to such target. In addition, Astellas was also granted the right to develop, independently of Adaptimmune, allogeneic T-cell therapy candidates directed to two targets selected by Astellas. Astellas would have sole rights to develop and commercialize products resulting from these two targets.

The agreement consisted of the following performance obligations: (i) research services and rights granted under the co-exclusive license for each of the three co-development targets and (ii) the rights granted for each of the two independent Astellas targets. The revenue allocated to the co-development targets was recognized as the development of products directed to the targets progressed up until completion of a Phase 1 trial. The revenue allocated to each of the research licenses for the targets being independently developed by Astellas was to be recognized when the associated license commenced, which was upon designation of a target by Astellas.

The Company and Universal Cells mutually agreed to terminate the Astellas Collaboration Agreement as of the Termination Date. In connection with the termination, all licenses and sublicenses granted to either party pursuant to the Collaboration Agreement ceased as of the Termination Date. There were no termination penalties in connection with the termination, however the Company was still entitled to receive reimbursement for research and development work performed up to and including a period of 30 days after the Termination Date.

The termination was accounted for as a contract modification and the modification resulted in the remaining unsatisfied and partially satisfied performance obligations under the collaboration becoming fully satisfied. The aggregate transaction price of the contract modification was $42.4 million, which was primarily comprised of deferred income relating to the third co-development target and the two independent targets, and was recognized in full in March 2023. No revenue was recognized for Astellas in 2024.

The Genentech Collaboration Agreement

On September 3, 2021, Adaptimmune Limited, a wholly owned subsidiary of Adaptimmune Therapeutics plc, entered into a Strategic Collaboration and License Agreement with Genentech, Inc. (“Genentech”) and F. Hoffman-La Roche Ltd. The collaboration has two components:

1) development of allogeneic T-cell therapies for up to five shared cancer targets
2) development of personalized allogeneic T-cell therapies utilizing αβ T-cell receptors (TCRs) isolated from a patient, with such therapies being administered to the same patient.

The parties would collaborate to perform a research program, initially during an eight-year period (which may be extended for up to two additional two-year terms at Genentech’s election upon payment of an extension fee for each two-year term), to develop the cell therapies, following which Genentech would determine whether to further develop and commercialize such therapies. The Company received an upfront payment of $150 million in October 2021 and milestone payments of $20 million and $15 million in December 2022 and 2023, respectively.

The Company identified the following performance obligations under the agreement: (i) research services and rights granted under the licenses for each of the initial “off-the-shelf” collaboration targets, (ii) research services and rights granted under the licenses for the personalized therapies, (iii) material rights relating to the option to designate additional “off-the-shelf” collaboration targets and (iv) material rights relating to the two options to extend the research term. The revenue allocated to the initial “off-the-shelf” collaboration targets and the personalized therapies was recognized as development progressed. The revenue allocated to the material rights to designate additional ‘off-the-shelf’ collaboration targets would have been recognized from the point that the options were exercised and then as development progressed, in line with the initial “off-the-shelf” collaboration targets, or at the point in time that the rights expired. The revenue from the material rights to extend the research term would have been recognized from the point that the options were exercised and then over the period of the extension, or at the point in time that the options expired.

On April 12, 2024 we announced the termination of the strategic collaboration between us and Genentech in relation to the research, development and commercialization of cancer targeted allogeneic T-cell therapies. The termination was accounted for as a contract modification on a cumulative catch-up basis. The termination did not change the nature the performance obligations identified but resulted in a reduction in the transaction price as the additional payments and

variable consideration that would have been due in periods after October 7, 2024 will now never be received. The termination resulted in a cumulative catch-up adjustment at the date of the termination of $101.3 million.

The GSK Termination and Transfer Agreement

On April 11, 2023, the Company announced the entry of the Company and GSK into a Termination and Transfer regarding the return to Adaptimmune of rights and materials comprised within the PRAME and NY-ESO cell therapy programs. The parties will work collaboratively to ensure continuity for patients in ongoing lete-cel clinical trials forming part of the NY-ESO cell therapy program.

As part of the agreement, sponsorship of the ongoing IGNYTE and LTFU trials relating to the NY-ESO cell therapy program will transfer to Adaptimmune. In return for this, Adaptimmune received an upfront payment of £7.5 million in June 2023 following the signing of the agreement and further milestone payments of £3 million, £12 million and £6 million to Adaptimmune in September and December 2023 and June 2024, respectively. The final milestone of £1.5 million was billed in July 2024.

The Company has identified the following performance obligations under the agreement: (i) to take over sponsorship and complete the IGNYTE trial and (ii) to take over sponsorship and complete the LTFU trial. The revenue allocated to both obligations is recognized over time from the point that sponsorship of the active trials that make up the trial transfer, based on the number of patients transferred and still actively enrolled to date on the trial at a given period-end relative to the total estimated periods of active patient enrollment over the estimated duration of the trial.

The Galapagos Collaboration and Exclusive License Agreement

On May 30, 2024, the Company entered into a clinical collaboration agreement with Galapagos NV. The agreement includes an option for Galapagos to exclusively license the TCR T-cell therapy candidate uza-cel, manufactured on Galapagos' decentralized manufacturing platform, in head and neck cancer and potential future solid tumor indications. Under the agreement, we will conduct a clinical proof-of-concept trial to evaluate the safety and efficacy of uza-cel produced on Galapagos' decentralized manufacturing platform in patients with head and neck cancer.

The Company will receive initial payments of $100 million, comprising $70 million upfront and $30 million of research and development funding, option exercise fees of up to $100 million (the amount depending on the number of indications in relation to which the option is exercised), additional development and sales milestone payments of up to a maximum of $465 million, plus tiered royalties on net sales. The $70 million upfront payment and $15 million of upfront research and development funding was received in June 2024.

The Company has identified a performance obligation relating to the various activities required to complete the POC trial and a material right associated with the exclusive license option. The Company expects to satisfy the POC Trial obligation over time over the period that the trial is completed, based on an estimate of the percentage of completion of the trial determined based on the costs incurred on the trial as a percentage of the total expected costs. The revenue allocated to the material right associated with the exclusive licence option will be recognized from the point that the option is either exercised and control of the license has passed to Galapagos or the option lapses.

Research and Development Expenses

Research and development expenditures are expensed as incurred. Research and development expenses consist principally of the following:

- salaries for research and development staff and related expenses, including benefits;
- costs for production of preclinical compounds and drug substances by contract manufacturers;
- fees and other costs paid to contract research organizations in connection with additional preclinical testing and the performance of clinical trials;
- costs associated with the development of a process to manufacture and supply our lentiviral vector and cell therapies for use in clinical trials;

- costs to develop manufacturing capability at our U.S. facility for manufacture of cell therapies for use in clinical trials;

- costs relating to facilities, materials and equipment used in research and development;
- costs of acquired or in-licensed research and development which does not have alternative future use;
- costs of developing assays and diagnostics;
- an allocation of indirect costs clearly related to research and development;
- amortization and depreciation of property, plant and equipment and intangible assets used to develop our cells therapies; and
- share-based compensation expenses.

These expenses are partially offset by:

- reimbursable tax and expenditure credits from the U.K. government.

Research and development expenditure is presented net of reimbursements from reimbursable tax and expenditure credits from the U.K. government.

As a company that carries out extensive research and development activities, we benefit from the U.K. research and development tax credit regime for small and medium sized companies ("SME R&D Tax Credit Scheme"), whereby our principal research subsidiary company, Adaptimmune Limited, is able to surrender the trading losses that arise from its research and development activities for a payable tax credit of up to approximately 18.6% of eligible research and development expenditures. Qualifying expenditures largely comprise employment costs for research staff, consumables and certain internal overhead costs incurred as part of research projects for which we do not receive income. Subcontracted research expenditures are eligible for a cash rebate of up to approximately 12.1%. A large proportion of costs in relation to our pipeline research, clinical trials management and manufacturing development activities, all of which are being carried out by Adaptimmune Limited, are eligible for inclusion within these tax credit cash rebate claims.

Expenditures incurred in conjunction with our collaboration agreements are not qualifying expenditures under the SME R&D Tax Credit Scheme but certain of these expenditures can be reimbursed through the U.K. research and development expenditure credit scheme (the "RDEC Scheme"). Under the RDEC Scheme tax relief is given at 20% of allowable research and development costs, which may result in a payable tax credit at an effective rate of approximately 15% of qualifying expenditure for the year ended December 31, 2024.

On July 18, 2023, the U.K. Government released draft legislation on proposed changes to the U.K. research and development regimes which was subsequently enacted on February 22, 2024. These changes include combining the current SME R&D Tax Credit Scheme and RDEC Schemes with a single 20% gross rate applying to all claims with an exception for R&D Intensive SMEs. For entities which qualify as R&D Intensive SMEs, a higher effective cash tax benefit of 27% will be available. The legislation also includes changes to other rules and types of qualifying expenditure, such as the treatment of subcontracted and overseas costs.

Our research and development expenses may vary substantially from period to period based on the timing of our research and development activities, which depends upon the timing of initiation of clinical trials and the rate of enrollment of patients in clinical trials. The duration, costs, and timing of clinical trials and development of our cell therapies will depend on a variety of factors, including:

- the scope, rate of progress, and expense of our ongoing as well as any additional clinical trials and other research and development activities;
- uncertainties in clinical trial enrollment rates;
- future clinical trial results;

- significant and changing government regulation;
- the timing and receipt of any regulatory approvals; and

- supply and manufacture of lentiviral vector and cell therapies for clinical trials.

A change in the outcome of any of these variables may significantly change the costs and timing associated with the development of that cell therapy. For example, if the FDA, or another regulatory authority, requires us to conduct clinical trials beyond those that we currently anticipate will be required for regulatory approval, or if we experience significant delays in enrollment in any of our clinical trials, we could be required to expend significant additional financial resources and time on the completion of clinical development.

General and Administrative Expenses

Our general and administrative expenses consist principally of:

- salaries for employees other than research and development staff, including benefits;
- business development expenses, including travel expenses;
- professional fees for auditors, lawyers and other consulting expenses;
- costs of facilities, communication, and office expenses;
- cost of establishing commercial operations;
- information technology expenses;
- amortization and depreciation of property, plant and equipment and intangible assets not related to research and development activities; and
- share-based compensation expenses.

Interest Income

Interest income primarily comprises interest on cash, cash equivalents and marketable securities.

Interest Expense

Interest expense primarily comprises loan interest on the Hercules Capital loan facility.

Other Income (Expense), Net

Other income (expense), net primarily comprises foreign exchange gains (losses). We are exposed to foreign exchange rate risk because we currently operate facilities in the United Kingdom and United States. Our expenses are generally denominated in the currency in which our operations are located, which are the United Kingdom and United States. However, our U.K.-based subsidiary incurs significant research and development costs in U.S. dollars and, to a lesser extent, Euros. Our U.K. subsidiary has an intercompany loan balance in U.S. dollars payable to the ultimate parent company, Adaptimmune Therapeutics plc. Since July 1, 2019, the intercompany loan has been considered as being a long-term investment as repayment is not planned or anticipated in the foreseeable future. It is Adaptimmune Therapeutics plc's intent not to request payment of the intercompany loan for the foreseeable future. The foreign exchange gains or losses arising on the revaluation of intercompany loans of a long-term investment nature are reported within other comprehensive (loss) income, net of tax.

Our results of operations and cash flows will be subject to fluctuations due to changes in foreign currency exchange rates, which could harm our business in the future. We seek to minimize this exposure by maintaining currency cash balances at levels appropriate to meet forthcoming expenditure in U.S. dollars and pounds sterling. To date, we have not used hedging contracts to manage exchange rate exposure, although we may do so in the future.

In addition to currency fluctuations, adverse macroeconomic conditions, including inflation, slower growth or recession, new or increased tariffs, changes to fiscal and monetary policy, tighter credit, and higher interest rates, could materially adversely affect the Company by, for example, driving higher input costs and/or impacting the Company's ability to raise future financing.

Taxation

We are subject to corporate taxation in the United Kingdom and the United States. We typically incur tax losses and tax credit carryforwards in the United Kingdom on an annual basis. No net deferred tax assets are recognized on our U.K. losses and tax credit carryforwards because there is currently no indication that we will make sufficient taxable profits to utilize these tax losses and tax credit carryforwards. The rate of U.K. corporation tax is 25% for the year ended December 31, 2024.

We benefit from reimbursable tax credits in the United Kingdom through the SME R&D Tax Credit Scheme as well as the RDEC Scheme which are presented as a deduction to research and development expenditure.

Our pre-existing subsidiary in the United States, Adaptimmune LLC, has generated taxable profits due to a Service Agreement between our U.S. and U.K. operating subsidiaries and is subject to U.S. federal corporate income tax of 21%. Due to its activity in the United States, and the sourcing of its revenue, the Adaptimmune LLC is not currently subject to any state or local income taxes. The Company also benefits from the U.S Research Tax Credit and Orphan Drug Credit.

TCR^2 Therapeutics, Inc. ("TCR^2") has incurred net losses since acquisition and generates research and development tax credits. TCR^2's operating loss and tax credit carryforwards and other tax attributes are reduced by a valuation allowance to the amount supported by reversing taxable temporary differences because there is currently no indication that we will make sufficient taxable profits to utilize these deferred tax assets.

In the future, if we generate taxable income in the United Kingdom, we may benefit from the United Kingdom's "patent box" regime, which would allow certain profits attributable to revenues from patented products to be taxed at a rate of 10%. As we have many different patents covering our products, future upfront fees, milestone fees, product revenues, and royalties may be taxed at this favorably low tax rate.

U.K. Value Added Tax ("VAT") is charged on all qualifying goods and services by VAT-registered businesses. An amount of 20% of the value of the goods or services is added to all relevant sales invoices and is payable to the U.K. tax authorities. Similarly, VAT paid on purchase invoices paid by Adaptimmune Limited and Adaptimmune Therapeutics plc is reclaimable from the U.K. tax authorities.

Critical Accounting Policies and Significant Judgments and Estimates

The preparation of our unaudited condensed consolidated financial statements requires us to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities, and the revenues and expenses incurred during the reported periods. We base our estimates on historical experience and on various other factors that we believe are relevant under the circumstances, the results of which form the basis for making judgments about the carrying value of assets and liabilities that are not apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions. The accounting policies considered to be critical to the judgments and estimates used in the preparation of our financial statements are disclosed in the Management's Discussion and Analysis of Financial Condition and Results of Operations included in our Annual Report on Form 10-K for the year ended December 31, 2023.

In addition, the following estimate was considered to be critical to the judgements and estimates used in the preparation of our financial statements for the three and six months ending June 30, 2024.

Allocation of transaction price using the relative standalone selling price

Upfront and other payments included in the transaction price of a contract are allocated between performance obligations using the Company's best estimate of the relative standalone selling price of the performance obligation. The

relative standalone selling price is estimated by determining the market values of development and license obligations. As these inputs are not directly observable, the estimate is determined considering all reasonably available information including internal pricing objectives used in negotiating the contract, together with internal data regarding the cost and margin of providing services for each deliverable, taking into account the

different stage of development of each development program and consideration of adjusted-market data from comparable arrangements, where applicable and available. This assessment involves significant judgment and could have a significant impact on the amount and timing of revenue recognition.

An assessment of the allocation of transaction price using the relative standalone selling price was required in the six months ending June 30, 2024 and 2023 for the Galapagos Collaboration and Exclusive License Agreement and the GSK Termination and Transfer Agreement, respectively, although the assessment for the GSK Termination and Transfer Agreement in 2023 was not considered to be a significant estimate.

Revenue

Revenue increased by $123.1 million to $128.2 million for the three months ended June 30, 2024 compared to $5.1 million for the three months ended June 30, 2023. The increase is primarily due to the termination of the Genentech collaboration in April 2024, resulting in a cumulative catch-up adjustment of $101.3 million, representing the majority of deferred revenue at March 31, 2024 being recognized as revenue in the current quarter.

Research and Development Expenses

Research and development expenses increased by 35% to $40.4 million for the three months ended June 30, 2024 from $30.0 million for the three months ended June 30, 2023.

Our research and development expenses comprise the following (in thousands):

	Three months ended June 30,			
	2024	2023	Increase/decrease	
Salaries, materials, equipment, depreciation of property, plant and equipment and other employee-related costs[1]	$ 25,089	$21,608	$ 3,481	16 %
Subcontracted expenditure	13,962	9,480	4,482	47 %
Manufacturing facility expenditure	2,772	1,884	888	47 %
Share-based compensation expense	994	1,285	(291)	(23)%
In-process research and development costs	11	(1,863)	1,874	(101)%
Reimbursements receivable for research and development tax and expenditure credits	(2,380)	(2,429)	49	(2)%
	$ 40,448	**$29,965**	**$10,483**	**35 %**

(1) These costs are not analyzed by project since employees may be engaged in multiple projects simultaneously.

The net increase in our research and development expenses of $10.5 million for the three months ended June 30, 2024 compared to the same period in 2023 was primarily due to the following:

- an increase of $3.5 million in salaries, materials, equipment, depreciation of property, plant and equipment and other employee-related costs, which is driven by an increase in the average number of employees engaged in research and development following the acquisition of TCR^2 in June 2023 and increased costs relating to property due to additional lease properties acquired following the acquisition of TCR^2;

- an increase of $4.5 million in subcontracted expenditure due primarily to an increase in clinical trial expenses which includes the impact of TCR^2 clinical trial expenses that were only incurred for one month in the second quarter of 2023 compared to the full quarter in 2024, and companion diagnostic development costs; and

- an increase of $1.9 million in in-process research and development costs due to a credit of $1.9 million in 2023 that was not repeated in 2024.

Our subcontracted costs for the three months ended June 30, 2024 were $14.0 million, compared to $9.5 million in the same period of 2023. This includes $9.7 million of costs directly associated with our afami-cel, lete-cel and uza-cel T-cells and $4.3 million of other development costs.

General and Administrative Expenses

General and administrative expenses decreased by 5% to $19.1 million for the three months ended June 30, 2024 from $20.1 million in the same period in 2023. Our general and administrative expenses consist of the following (in thousands):

	Three months ended June 30,			
	2024	2023	Increase/decrease	
Salaries, depreciation of property, plant and equipment and other employee-related costs	$ 10,128	$ 12,296	$ (2,168)	(18)%
Other corporate costs	10,692	7,703	2,989	39 %
Share-based compensation expense	2,063	2,552	(489)	(19)%
Reimbursements	(3,800)	(2,478)	(1,322)	53 %
	$ 19,083	**$ 20,073**	**$ (990)**	**(5)%**

The net decrease in our general and administrative expenses of $1.0 million for the three months ended June 30, 2024 compared to the same period in 2023 was largely due to

- a decrease of $2.2 million in salaries, depreciation of property, plant and equipment and other employee-related costs, due primarily to these costs being high in the second quarter of 2023 due to severance and other related costs for former TCR[2] leadership and employees in June 2023, which was partially offset by an increase in depreciation; offset by

- an increase of $3.0 million in other corporate costs due to an increase in accounting, legal and professional fees, due to a combination of fees relating to business development work (including the Hercules Capital loan facility and Galapagos agreement) and fees relating to preparation for commercialization.

Gain on Bargain Purchase

The gain on bargain purchase arose in June 2023 from the strategic combination with TCR2 Therapeutics Inc on June 1, 2023.

Income Taxes

Income taxes arise in the United States due to Adaptimmune LLC generating taxable profits. We typically incur taxable losses in the United Kingdom on an annual basis and have incurred losses in TCR[2] Therapeutics Inc. since acquisition.

Revenue

Revenue increased by $81.2 million to $133.9 million in the three months ended June 30, 2024 compared to $52.7 million for the six months ended June 30, 2023 primarily due to the termination of the Genentech collaboration in April 2024, resulting in a cumulative catch-up adjustment of $101.3 million, compared to the termination of the Astellas collaboration in the first quarter of 2023, which resulted in the remaining deferred revenue for the collaboration of $42.4 million being recognized as revenue in March 2023. The revenue recognized in the six months ended June 30, 2024 relates to development revenue under the Genentech collaboration agreement and the GSK termination and transfer agreement.

Research and Development Expenses

Research and development expenses increased by 36% to $75.7 million for the six months ended June 30, 2024 from $55.5 million for the six months ended June 30, 2023.

Our research and development expenses comprise the following (in thousands):

	Six months ended June 30,			
	2024	2023	Increase/decrease	
Salaries, materials, equipment, depreciation of property, plant and equipment and other employee-related costs[(1)]	$ 49,114	39,715	$ 9,399	24 %
Subcontracted expenditure	25,419	20,645	4,774	23 %
Manufacturing facility expenditure	5,172	3,392	1,780	52 %

Reimbursements receivable for research and development tax and expenditure credits	(5,879)	(7,777)	1,898	(24)%
	$ 75,655	**$55,513**	**$20,142**	**36 %**

(1) These costs are not analyzed by project since employees may be engaged in multiple projects simultaneously.

The net increase in our research and development expenses of $20.1 million for the three months ended June 30, 2024 compared to the same period in 2023 was primarily due to the following:

- an increase of $9.4 million in salaries, materials, equipment, depreciation of property, plant and equipment and other employee-related costs, which is driven primarily by an increase in the average number of employees engaged in research and development following the acquisition of TCR[2] in June 2023 and increased costs relating to property due to additional lease properties acquired following the acquisition of TCR[2];

- an increase of $4.8 million in subcontracted expenditure due primarily to an increase in clinical trial expenses which includes the impact of TCR[2] clinical trial expenses that were only incurred from June 1, 2023 compared to the full period in the six months to June 30, 2024, and an increase in companion diagnostic development costs. This was partially offset by a decrease in external lentiviral vector manufacturing costs;

- an increase of $1.8 million in manufacturing facility expenditure due to pre-commercialization purchases and to the consumption of batches of clinical materials that had not previously been impaired, compared to 2023 where clinical materials consumed were primarily those that had been impaired to nil in previous years and therefore no corresponding expense was recognised;

- an increase of $1.9 million in in-process research and development costs due to a credit of $1.9 million in 2023 that was not repeated in 2024; and

- a decrease of $1.9 million in reimbursements receivable for research and development tax and expenditure credits due to decreases in the associated research and development costs for which the credits may be claimed and a reduction in the effective rate at which the tax credits can be claimed which was effective from April 1, 2023.

Our subcontracted costs for the six months ended June 30, 2024 were $25.4 million, compared to $20.6 million in the same period of 2023. This includes $18.0 million of costs directly associated with our afami-cel, lete-cel and uza-cel T-cells and $7.4 million of other development costs.

General and Administrative Expenses

General and administrative expenses decreased by 4% to $38.8 million for the six months ended June 30, 2024 from $40.5 million in the same period in 2023. Our general and administrative expenses consist of the following (in thousands):

	Six months ended June 30,		Increase/decrease	
	2024	2023		
Salaries, depreciation of property, plant and equipment and other employee-related costs	$ 20,008	$ 20,664	$ (656)	(3)%
Restructuring charges	—	1,703	(1,703)	(100)%
Other corporate costs	18,255	16,469	1,786	11 %
Share-based compensation expense	4,352	4,112	240	6 %
Reimbursements	(3,800)	(2,478)	(1,322)	53 %
	$ 38,815	**$ 40,470**	**$ (1,655)**	**(4)%**

The net decrease in our general and administrative expenses of $1.7 million for the six months ended June 30, 2024 compared to the same period in 2023 was largely due to:

- a reduction in restructuring charges of $1.7 million, which related to the restructuring programme completed in the first quarter of 2023; offset by
- an increase of $1.8 million in other corporate costs due to an increase in accounting, legal and professional fees, due to a combination of fees relating to business development work (including the Hercules Capital loan facility and Galapagos agreement) and fees relating to preparation for commercialization.

Gain on Bargain Purchase

The gain on bargain purchase arose in June 2023 from the strategic combination with TCR2 Therapeutics Inc on June 1, 2023.

Income Taxes

Income taxes arise in the United States due to Adaptimmune LLC generating taxable profits. We typically incur taxable losses in the United Kingdom on an annual basis and have incurred losses in TCR^2 Therapeutics Inc. since acquisition.

Liquidity and Capital Resources

Sources of Funds

Since our inception, we have incurred significant net losses and negative cash flows from operations. We financed our operations primarily through sales of equity securities, cash receipts under our collaboration arrangements and research and development tax and expenditure credits. From inception through to June 30, 2024, we have raised:

- $900.2 million, net of issuance costs, through the issuance of shares;
- $24.5 million, net of discount, drawn from the Hercules Capital loan facility;
- $530.9 million through collaborative arrangements with Galapagos, Genentech, GSK and Astellas; and

- $141.3 million in the form of reimbursable U.K. research and development tax credits and receipts from the U.K. RDEC Scheme.

$45.3 million in cash and cash equivalents and restricted cash and $39.5 million of marketable securities were also acquired as part of the strategic combination with TCR^2 Therapeutics Inc.

We use a non-GAAP measure, Total Liquidity, which is defined as the total of cash and cash equivalents and marketable securities, to evaluate the funds available to us in the near-term. A description of Total Liquidity and reconciliation to cash and cash equivalents, the most directly comparable U.S. GAAP measure, are provided below under "Non-GAAP measures".

As of June 30, 2024, we had cash and cash equivalents of $211.8 million and Total Liquidity of $214.8 million.

Cash Flows

The following table summarizes the results of our cash flows for the six months ended June 30, 2024 and 2023 (in thousands):

	Six months ended June 30,	
	2024	**2023**
Net cash provided by/(used in) operating activities	$ 15,449	$ (81,045)
Net cash (used in)/provided by investing activities	(1,101)	51,035
Net cash provided by financing activities	53,747	210
Cash, cash equivalents and restricted cash	214,676	80,200

Operating Activities

Net cash provided by operating activities was $15.4 million for the six months ended June 30, 2024 compared to net cash used in operating activities of $81.0 million for the six months ended June 30, 2023. Our activities typically result in net use of cash in operating activities. The net cash provided by operating activities for the six months ended June 30, 2024 increased primarily due to the receipt of Research and development credits of $30.8 million, an $85 million upfront payment from Galapagos and a $7.7 million milestone payment from GSK which was offset by an increase in Research and development operating expenditure.

Net cash used in operating activities of $15.4 million for the six months ended June 30, 2024 comprised a net profit of $21.0 million and a net cash outflow of $17.0 million from changes in operating assets and liabilities, offset by non-cash items of $11.4 million. The changes in operating assets and liabilities include the impact of a $25.0 million decrease in reimbursements receivable for research and development tax credits and the recognition of deferred revenue following the termination of the Genentech agreement. The non-cash items consisted primarily of depreciation expense on plant and equipment of $5.5 million, share-based compensation expense of $6.2 million, unrealized foreign exchange losses of $0.3 million and other items of $0.1 million.

Investing Activities

Net cash used in investing activities was $1.1 million for the six months ended June 30, 2024 compared to $51.0 million provided investing activities for the six months ended June 30, 2023. The net cash used in or provided by investing activities for the respective periods consisted primarily of:

- purchases of property, plant and equipment of $0.5 million and $3.6 million for the six months ended June 30, 2024 and 2023, respectively. Purchases of property, plant and equipment were higher in 2023 compared to 2024 due to expanding our manufacturing facilities, which was largely completed in 2022 and finalised in 2023; and

- there were no cash inflows from maturity or redemption of marketable securities in the six months ended June 30, 2024 compared to $76.1 million for the three months ended March 31, 2023.

The Company invests surplus cash and cash equivalents in marketable securities.

Financing Activities

Net cash provided by financing activities was $53.7 million and $0.2 million for the six months ended June 30, 2024 and 2023, respectively. The net cash provided by financing activities in the six months ended June 30, 2024 consisted of net proceeds of $29.2 million from shares issued in an At-The-Market offering, net of commissions and issuance costs, and $24.5 million proceeds from the issuance of borrowings, net of discount. The net cash provided by financing activities in the six months ended June 30, 2023 consisted primarily of net proceeds of $0.2 million from shares issued in an At-The-Market offering, net of commissions and issuance costs.

Non-GAAP Measures

Total Liquidity (a non-GAAP financial measure)

Total Liquidity (a non-GAAP financial measure) is the total of cash and cash equivalents and marketable securities. Each of these components appears in the condensed consolidated balance sheet. The U.S. GAAP financial measure most directly comparable to Total Liquidity is cash and cash equivalents as reported in the condensed consolidated financial statements, which reconciles to Total Liquidity as follows (in thousands):

	June 30, 2024	December 31, 2023
Cash and cash equivalents	$ 211,810	$ 143,991
Marketable securities - available-for-sale debt securities	2,979	2,947
Total Liquidity	**$ 214,789**	**$ 146,938**

We believe that the presentation of Total Liquidity provides useful information to investors because management reviews Total Liquidity as part of its management of overall solvency and liquidity, financial flexibility, capital position and leverage. The definition of Total Liquidity includes marketable securities, which are highly-liquid and available to use in our current operations.

PART II - OTHER INFORMATION

Item 1. Legal Proceedings.

As of June 30, 2024 we were not a party to any material legal proceedings.

Item 1A. Risk Factors.

Our business has significant risks. You should carefully consider the risk factors set out in Part I, Item 1A "Risk Factors" of our Annual Report on Form 10-K for the year ended December 31, 2023 and the disclosures and risk factors set out in this Quarterly Report, including our condensed consolidated financial statements and the related notes, before making an investment decision regarding our securities. The risks and uncertainties described are those material risk factors currently known and specific to us that we believe are relevant to our business, results of operations and financial condition. Additional risks and uncertainties not currently known to us or that we now deem immaterial may also impair our business, results of operations and financial condition.

As of and for the period ended June 30, 2024, save as provided below there have been no material changes from the risk factors previously disclosed by us in Part I, Item 1A. Risk Factors of our Annual Report on Form 10-K for the year ended December 31, 2023.

Our business is, in part, dependent on the successful commercialization of Tecelra in the United States.

Tecelra received FDA approval in August 2024. Tecelra is a genetically modified autologous T-cell immunotherapy indicated for the treatment of adult patients with unresectable or metastatic synovial sarcoma who have received prior systemic therapy, are positive for HLA-A*02:01P, -A*02:02P, -A*02:03P, or -A*02:06P, and negative for HLA-A*02:05P, and whose tumor expresses the MAGE-A4 antigen as detected by an FDA-approved test. The success of our business, including our ability to finance our company and generate any revenue in the future, will, at this point, depend on the successful commercialization of Tecelra in the U.S. Any failure to successfully commercialize Tecelra in the U.S. would have a material and adverse impact on our business.

The commercial success of Tecelra will depend on a number of factors, including the following:

- our ability to obtain any additional required capital or equivalent sources of finance to support the commercialization on acceptable terms, or at all;
- our ability to consistently manufacture Tecelra on a timely basis and sufficient to meet demand;
- our ability to activate authorized treatment centres (ATC) capable of administering Tecelra and the timing of activation of those authorized treatment centres;
- the ability of our authorized treatment centres to facilitate treatments with Tecelra given Tecelra is a novel T-cell therapy requiring patient specific administration;
- the availability of the tests required to assess for the required HLA types and antigen presentation ahead of treatment with Tecelra and the ability of third party suppliers of such tests to make those tests available when required;
- the prevalence, duration and severity of potential side effects or other safety issues that patients may experience with Tecelra;

- achieving and maintaining, and, where applicable, ensuring that our third-party contractors (including those responsible for supply of Tecelra or any raw or intermediate materials required for such supply) achieve and maintain, compliance with our contractual obligations and with all regulatory requirements applicable to Tecelra;
- the willingness of physicians, operators of hospitals and clinics and patients to adopt and administer Tecelra;
- the availability of coverage and adequate reimbursement from managed care plans, private insurers, government payors (such as Medicare and Medicaid and similar foreign authorities) and other third-party payors for Tecelra;

- patients' ability and willingness to pay out-of-pocket for Tecelra in the absence of coverage and/or adequate reimbursement from third-party payors;
- patient demand for Tecelra;
- the identification of patients eligible for treatment by the authorized treatment centres (including by referral from other hospitals and treatment centres) and the ability of the authorized treatment centres to progress such patients through to treatment;
- prevalence of the required HLA types and antigen within the synovial sarcoma population and the ability of the tests for HLA and antigen to function as expected;
- our ability to avoid third-party patent interference, intellectual property challenges or intellectual property infringement claims; and
- our ability to comply with any post marketing requirements and obligations including those imposed by the FDA as part of the authorization for Tecelra.

These factors, many of which are beyond our control, could cause us to experience significant delays or an inability to obtain regulatory approvals or commercialize Tecelra. While we have obtained regulatory approval of Tecelra in the United States, we may never be able to successfully commercialize Tecelra in the United States or receive regulatory approval of Tecelra outside the United States. Accordingly, we cannot provide assurances as to the revenue obtainable through the sale of Tecelra.

Tecelra is approved under accelerated approval in the United States, and additional confirmatory work is required in order to maintain that approval. Inability to maintain approval or to otherwise meet the requirements imposed by the FDA will have a significant impact on our ability to commercialize Tecelra.

Tecelra is approved under accelerated approval in the U.S. based on overall response rate and duration of response. Continued approval for this indication is contingent upon verification and description of clinical benefit in a confirmatory trial. Our ability to obtain traditional approval for Tecelra may require the conduction of additional studies and will require ongoing discussions with the FDA. Any additional work required to satisfy the conditions of accelerated approval will require additional finances, and any ability to obtain any additional required capital or equivalent sources of finance may delay or prevent our ability to maintain approval for Tecelra.

As part of the approval of Tecelra, certain post approval requirements apply which, if not satisfied, could impact continued approval of Tecelra.

Tecelra is subject to continuing regulation by the FDA Failure to meet any of these requirements may result in negative consequences including adverse publicity, judicial or administrative enforcement, warning letters from the FDA, mandated corrective advertising or communications with doctors, and civil or criminal penalties.

These requirements include submissions of safety and other postmarketing information and reports, registration and listing, as well as continued compliance with cGMPs and cGCPs for any clinical trials that we conduct post-approval. In addition, the FDA and other regulatory authorities may impose additional restrictions or require amendments to our product label after marketing approval in the event of additional adverse events with our cell therapy or of other adverse events seen with similar cell therapy products.

As part of the approval of Teclera, the FDA has imposed certain Postmarketing Commitments ("PMCs") and Postmarketing Requirements ("PMRs"), including certain requirements to conduct additional studies under proscribed timelines. Failure to conduct these PMCs and PMRs in a timely manner could result in enforcement action from the FDA.

We and our contract manufacturers will be subject to periodic unannounced inspections by the FDA to monitor and ensure compliance with cGMPs. We must also comply with requirements concerning advertising and promotion for any cell therapies for which we obtain marketing approval. Promotional communications with respect to prescription drugs, including biologics, are subject to a variety of legal and regulatory restrictions and must be consistent with the information in the product's approved labeling. Thus, we will not be able to promote any cell therapies we develop for indications or uses for which they are not approved.

The approval of Tecelra is limited to adult patients with unresectable or metastatic synovial sarcoma who have received prior systemic therapy, are positive for HLA-A*02:01P, -A*02:02P, -A*02:03P, or -A*02:06P, and negative for HLA-A*02:05P, and whose tumor expresses the MAGE-A4 antigen.

As is common for initial approval of cancer therapies, Tecelra has been approved by the FDA for use in a limited patient population, who have unresectable or metastatic synovial sarcoma and who have already received prior systemic therapy. As a result, our ability to market Tecelra is generally limited to that patient population.

The use of prior therapies or treatment for synovial sarcoma may reduce the effectiveness of our cell therapies.

This is the first time we as an organization are marketing a product and we have limited experience as a commercial company and have never generated revenue from product sales.

Tecelra is the first product for which we have obtained FDA approval. As a company we have not yet launched any approved products for commercial sale and have not previously generated any revenue from product sales. Accordingly, we will need to continue to transition from a company with a research and development focus to a company capable of supporting commercial activities. We may not be successful in such a transition. We have recruited experienced commercial and medical affairs teams and we will need to continue to develop those teams and the associated support network in order to supply Tecelra on a commercial basis.

We will have to compete with other pharmaceutical and biotechnology companies to recruit, hire, train, and retain suitably skilled and experienced marketing and sales personnel. This process may result in additional delays in bringing our cell therapies to market or in certain cases require us to enter into alliances with third parties in order to do so. However, there can be no assurance that we will be able to establish or maintain such collaborative arrangements, or even if we are able to do so, that they will result in effective sales forces. Any revenue we receive will depend upon the efforts of such third parties, which may not be successful. We may have little or no control over the efforts of such third parties, and our revenue from cell therapy sales may be lower than if we had commercialized our cell therapies ourselves.

For Tecelra, we are using certain third parties to supplement the internal commercial facing teams. We are also using a third party distributor to supply Tecelra and third parties to provide some of the systems required to supply Tecelra and support patients prescribed with Tecelra. We are reliant on those third parties to provide the services we require in accordance with our planned timelines. If any critical third party supplier fails to provide the services as required that may result in a delay to the commercialization of Tecelra. Any inability on our part to develop inhouse sales and commercial distribution capabilities or to establish and maintain relationships with third-party collaborators that can successfully commercialize any cell therapy in the U.S. or elsewhere will have a materially adverse effect on our business and results of operations.

As a novel cell therapy, Tecelra may not gain market acceptance among physicians, patients, hospitals, cancer treatment centers and others in the medical community, including referral centers.

The use of engineered T-cells and cell therapies more generally as a potential cancer treatment is a recent development and may not become broadly accepted by physicians, patients, hospitals, cancer treatment centers and others in the medical community. For example, the product labelling and prescribing information for Tecelra describe certain limitations of use, adverse events, and warnings and precautions, including a boxed warning related to Cytokine Release Syndrome (CRS), which may be severe or life threatening and which occurred in patients receiving Tecelra in clinical trials. Additional factors will influence whether Tecelra is accepted in the market, including:

- physicians, hospitals, cancer treatment centers and patients considering Tecelra as a safe and effective treatment;
- the potential and perceived advantages of Tecelra over alternative treatments;
- the prevalence and severity of any side effects;
- willingness of treating centers to test for the required HLA types and MAGE A4 antigen using the FDA approved tests;
- our product labeling and prescribing information describe certain limitations of use, adverse events, and warnings and precautions;
- the cost of Tecelra in relation to alternative treatments;

- the willingness of referral centers and awareness of referral centers to refer patients to our authorized treatment centers;
- the availability of coverage, adequate reimbursement and pricing by third-party payors and government authorities;

- the willingness of patients to pay for Tecelra on an out-of-pocket basis in the absence of coverage by third-party payors and government authorities;
- relative convenience and ease of administration as compared to alternative treatments and competitive therapies; and
- the effectiveness of our sales and marketing efforts.

The product labelling and prescribing information for Tecelra includes a boxed warning for CRS as well as other warnings and precautions. As Tecelra is used commercially, the rate and nature of adverse reactions may increase and as afamitresgene autoleucel (afami-cel) is studied in additional indications and populations, toxicities may further limit its development and use.

Coverage, price flexibility, and reimbursement may be limited or unavailable in certain market segments for Tecelra.

Successful sales of Tecelra may depend on the availability of coverage and adequate reimbursement from third-party payors. In addition, because Tecelra represents a new approach to the treatment of synovial sarcoma, we cannot accurately estimate the potential revenue from Tecelra.

Patients who are provided medical treatment for their conditions generally rely on third-party payors to reimburse all or part of the costs associated with their treatment. Obtaining coverage and adequate reimbursement from governmental healthcare programs, such as Medicare and Medicaid, and commercial payors is critical to new product acceptance. Government authorities and third-party payors, such as private health insurers and health maintenance organizations, decide which drugs and treatments they will cover and the amount of reimbursement. Reimbursement by a third-party payor may depend upon a number of factors, including, but not limited to, the third-party payor's determination that use of a product is:

- a covered benefit under its health plan;
- safe, effective and medically necessary;
- appropriate for the specific patient; and
- cost-effective.

Obtaining coverage and reimbursement approval of Tecelra from a government or other third-party payor is a time consuming and costly process which could require us to provide to the payor supporting scientific, clinical and cost-effectiveness data for the use of our products. Even if we obtain coverage for Tecelra, the resulting reimbursement payment rates might not be adequate for us to achieve or sustain profitability or may require co-payments that patients find unacceptably high. Patients are unlikely to use Tecelra unless coverage is provided and reimbursement is adequate to cover a significant portion of the cost of Tecelra.

In the U.S., no uniform policy of coverage and reimbursement for products exists among third-party payors. Therefore, coverage and reimbursement for products can differ significantly from payor to payor. As a result, the coverage determination process is often a time-consuming and costly process that will require us to provide scientific and clinical support for the use of our cell therapies to each payor separately, with no assurance that coverage and adequate reimbursement will be obtained.

There have been, and likely will continue to be, legislative and regulatory proposals at the foreign, national and state levels directed at broadening the availability of healthcare and containing or lowering the cost of healthcare, including the Affordable Care Act ("ACA") or provisions of the Inflation Reduction Act ("IRA"). Such regulatory changes may bring prescription drug pricing reform or healthcare affordability programs that, for example, seek to lower prescription drug costs by allowing governmental healthcare programs to negotiate prices with drug companies, put an inflation cap on drug prices, and lower out-of-pocket expenses for recipients of governmental healthcare programs. We cannot predict the initiatives that may be adopted in the future.

Tecelra represents a novel approach to treatment of synovial sarcoma that could result in heightened regulatory scrutiny.

Use of Tecelra to treat a patient involves genetically engineering a patient's T-cells. This is a relatively novel treatment approach that carries inherent development risks including the following, any of which can result in delays to our ability to provide confirmatory evidence of Tecelra's effectiveness:

- Further development, characterization and evaluation may be required if post-marketing or clinical data suggest any potential safety risk for patients. The need to develop further assays, or to modify in any way the protocols related to Tecelra to improve safety or effectiveness, may delay the commercialization and further clinical development;
- End users and medical personnel require a substantial amount of education and training in their administration of Tecelra either to engage in confirmatory clinical trials and recruit patients or ultimately to provide Tecelra to patients.
- Regulatory requirements governing gene and cell therapy products have changed frequently and may continue to change in the future.
- There is the potential for delayed adverse events following exposure to gene therapy products due to persistent biological activity of the genetic material or other components of products used to carry the genetic material. In part for this reason, the FDA recommends a 15-year follow-up observation period for all surviving patients who receive treatment using gene therapies in clinical trials.
- Negative results seen in third party clinical trials utilizing gene therapy products may result in regulators halting development and commercialization of our cell therapies, including Tecelra, or in requiring additional data or requirements prior to our cell therapies progressing to the next stage of development.

Manufacturing and supply of cell therapies is complex, and if we encounter any difficulties in manufacture or supply of Tecelra or our ability to provide supply for confirmatory clinical trials commercial supply of Tecelra could be delayed or stopped.

The process of manufacturing and administering Tecelra is complex and highly regulated. Manufacture requires the harvesting of white blood cells from the patient, isolating certain T-cells from these white blood cells, combining patient T-cells with our lentiviral delivery vector through a process known as transduction, expanding the transduced T-cells to obtain the desired dose, and ultimately infusing the modified T-cells back into the patient. As a result of the complexities, our manufacturing and supply costs are likely to be higher than those at more traditional manufacturing processes and the manufacturing process is less reliable and more difficult to reproduce.

Delays or failures in the manufacture of Tecelra (whether by us, any collaborator or our third party contract manufacturers) may result in a patient being unable to receive Tecelra or a requirement to re-manufacture which itself then causes delays in manufacture for other patients. Any delay or failure or inability to manufacture on a timely basis can adversely affect a patient's outcomes and delay the timelines for our confirmatory clinical trials and commercialization. With a commercial product delays or failure to manufacture could additionally lead to claims by patients for reimbursement or damages. Such delays or failure or inability to manufacture can result from:

- a failure in the manufacturing process itself for example, by an error in manufacturing process (whether by us or our third party contract manufacturing organization), equipment or reagent failure, failure in any step of the manufacturing process, failure to maintain a GMP environment, failure in quality systems applicable to manufacture, sterility failures, contamination during process;
- variations in patient starting material or apheresis product resulting in less product than expected or product which is not viable, or which cannot be used to successfully manufacture a cell therapy;
- product loss or failure due to logistical issues including issues associated with the differences between patients' white blood cells or characteristics, interruptions to process, contamination, failure to supply patient apheresis material within required timescales (for example, as a result of an import or export hold-up) or supplier error;
- inability to have enough manufacturing slots to manufacture cell therapies for patients as and when those patients require manufacture;
- inability to procure components, consumables, ingredients, or starting materials, or to manufacture starting materials (including at our U.K. vector facility), as a result of supply chain issues;
- loss of or close-down of any manufacturing facility used in the manufacture of our cell therapies. For example, we will be manufacturing Tecelra at our Navy Yard manufacturing facility. Should there be a contamination event at the facility resulting in the close-down of that facility, it would not be possible to find alternative manufacturing capability for Tecelra within the timescales required for patient supply including for commercial supply.
- loss or contamination of patient starting material, requiring the starting material to be obtained again from the patient or the manufacturing process to be re-started. In the context of commercial supply, this could result in cancellation of order for the commercial cell therapy or a claim from the patient;

- a requirement to modify or make changes to any manufacturing process. Such changes may additionally require comparability testing which then may reduce the amount of manufacturing slots available for manufacture of Tecelra. Delays in our ability to

make the required modifications or perform any required comparability testing within currently anticipated timeframes or that such modifications or comparability testing, when made, will obtain regulatory approval or that the new processes or modified processes will successfully be transferred to the third party contract suppliers within currently anticipated timeframes can also impact timelines for manufacture;
- reduction or loss of the staff resources required to manufacture our cell therapies at our facilities or those of our CMOs;
- allocation of the resources, materials, and services of any collaborator or our third party contract manufacturers away from our cell therapy programs;
- reduction in available workforce to perform manufacturing processes, for example, as a result of a COVID-19 outbreak or workforce exhibiting potential COVID-19 symptoms, and pending receipt of test results for COVID-19 infection;
- changes in the manufacturing and supply process. Any changes to the manufacturing process may require amendments to be made to regulatory applications or comparability tests to be conducted which can further delay timeframes. If Tecelra manufactured under the new process has a worse safety or efficacy profile than the prior product or the process is less reproducible than the previous process, we may need to re-evaluate the use of that manufacturing process, which could significantly delay or even result in the halting of our confirmatory clinical trials and commercialization.

We will be subject to ongoing regulatory obligations and continued regulatory review, which may result in significant additional expense as well as significant penalties if we fail to comply with regulatory requirements or experience unanticipated problems with Tecelra.

FDA approval is accompanied by requirements to conduct surveillance to monitor the safety and efficacy of Tecelra.

Later discovery of previously unknown problems with Tecelra, including adverse events of unanticipated severity or frequency, or with our third-party manufacturers or manufacturing processes, or failure to comply with regulatory requirements, may result in, among other things:

- restrictions on our ability to conduct further clinical trials, including full or partial clinical holds on ongoing or planned trials;
- restrictions on Tecelra's manufacturing processes;
- restrictions on the marketing of Tecelra;
- restrictions on product distribution;
- requirements to conduct additional post-marketing clinical trials;
- untitled or warning letters;
- withdrawal of Tecelra from the market;
- refusal to approve pending supplements to the Tecelra that we submit;
- recall of products;
- fines, restitution or disgorgement of profits or revenue;
- suspension or withdrawal of regulatory approvals;
- refusal to permit the import or export of our products;
- product seizure;
- injunctions;
- imposition of civil penalties; or
- criminal prosecution

The FDA's and other regulatory authorities' policies may change, and additional government regulations may be enacted that could adversely impact the approval of Tecelra. We cannot predict the likelihood, nature or extent of government regulation that may arise from future legislation or administrative action, either in the U.S. or abroad. If we are slow or unable to adapt to changes in existing requirements or the adoption of new requirements or policies, or if we are not able to maintain regulatory compliance, we may lose marketing approval and we may not achieve or sustain profitability.

In addition, FDA has required us to conduct a confirmatory trial to verify the clinical benefit of Tecelra. The results from the confirmatory trial or trials may not support the clinical benefit, which could result in the approval being withdrawn.

(i) Tranche 1. Subject to the terms and conditions of this Agreement, on the Closing Date, Lenders will severally (and not jointly) make, and Borrower agrees to draw, a Term Loan Advance in an aggregate principal amount equal to Twenty-Five Million Dollars ($25,000,000) (such Term Loan Advance, the "Tranche 1 Advance").

(ii) Tranche 2. Subject to the terms and conditions of this Agreement, Borrower may request, and Lenders shall severally (and not jointly) make, during the Tranche 2 Draw Period, an additional Term Loan Advance in an aggregate principal amount equal to Twenty-Five Million Dollars ($25,000,000) (such Term Loan Advance, the "Tranche 2 Advance").

(iii) Tranche 3. Subject to the terms and conditions of this Agreement, Borrower may request, and the Lenders shall severally (and not jointly) make, during the Tranche 3 Draw Period, an additional Term Loan

Advance in an aggregate principal amount equal to Five Million Dollars ($5,000,000)) (such Term Loan Advance, the "Tranche 3 Advance").

(iv) Tranche 4. Subject to the terms and conditions of this Agreement, Borrower may request, and the Lenders shall severally (and not jointly) make, during the Tranche 4 Draw Period, an additional Term Loan Advance in an aggregate principal

amount equal to Thirty Million Dollars ($30,000,000) (such Term Loan Advance, the "Tranche 4 Advance").

(v) Tranche 5. Subject to the terms and conditions of this Agreement, Borrower may request, and the Lenders shall severally (and not jointly) make, in each case, beginning on Closing Date and continuing through the last Business Day prior to the Amortization Date, and conditioned on approval by Lenders' investment committee in is sole and unfettered discretion, an additional Term Loan Advance in an aggregate principal amount equal to Forty Million Dollars ($40,000,000) (such Term Loan Advance, the "Tranche 5 Advance").

(b) Maximum Term Loan Amount. The aggregate outstanding Term Loan Advances shall not exceed the Maximum Term Loan Amount *plus*, for the avoidance of doubt, any amount equal to the payment-in-kind interest added to principal pursuant to Section 2.1(d)(ii). Each Term Loan Advance of each Lender shall not exceed its respective Term Commitment *plus*, for the avoidance of doubt, any amount equal to the Term Loan PIK Interest Rate added to principal pursuant to Section 2.2(d)(ii). After repayment, no Term Loan Advance (or any portion thereof) may be reborrowed.

(c) Advance Request. To obtain a Term Loan Advance, Borrower shall complete, sign and deliver an Advance Request (at least one (1) Business Day before the Closing Date and at least five (5) Business Days before each Advance Date other than the Closing Date to Agent. Lenders shall fund the Term Loan Advance in the manner requested by the Advance Request provided that each of the conditions precedent set forth in Section 4 and applicable to such Term Loan Advance is satisfied as of the requested Advance Date. The proceeds of any Term Loan Advance shall be deposited into an account that is (x) if in the United States subject to an Account Control Agreement in favor of Agent and (y) if in the United Kingdom subject to the Debenture.

(d) Interest.

(i) Term Loan Cash Interest Rate. In addition to interest accrued pursuant to the Term Loan PIK Interest Rate, the principal outstanding balance (including, for the avoidance of doubt, any accrued and capitalised-in-kind interest added to principal pursuant to Section 2.2(d)(ii)) of each Term Loan Advance shall bear interest thereon from such Advance Date at the Term Loan Cash Interest Rate based on a year consisting of three hundred sixty (360) days, with interest computed daily based on the actual number of days elapsed. The Term Loan Cash Interest Rate will float and change on the day the Prime Rate changes from time to time.

(ii) Term Loan PIK Interest Rate. In addition to interest accrued pursuant to the Term Loan Cash Interest Rate, the principal outstanding balance of each Term Loan Advance shall bear interest thereon from such Advance Date at the Term Loan PIK Interest Rate based on a year consisting of three

hundred sixty (360) days, with interest computed daily based on the actual number of days elapsed, which amount shall be added to the outstanding principal balance so as to increase the outstanding principal balance of such Term Loan Advance on each Payment Date for such Advance, which principal amount shall accrue interest payable as provided in Section 2.2(d)(i) and which accrued and unpaid amount shall be payable when the principal amount of the Advance is payable in accordance with Section 2.2(e).

(iii) Payment. Borrower will pay accrued but unpaid interest on each Term Loan Advance on the first Business Day of each month (each such date, a "Payment Date"), beginning the month after the Advance Date. Borrower shall repay the aggregate principal balance of the Term Loan Advances that is outstanding as of the day immediately preceding the relevant Amortization Date, in equal monthly installments of principal and interest (mortgage style) beginning on the Amortization Date and continuing on the first Business Day of each month thereafter until the Secured Obligations (other than inchoate indemnity obligations which, by their terms, survive termination of this Agreement) are repaid. The entire outstanding principal balance of the Term Loan Advances and all accrued but unpaid interest hereunder, and all other Secured Obligations with respect to the Term Loan Advances, shall be due and payable on the Term Loan Maturity Date. Borrower shall make all payments under this Agreement without setoff, recoupment or deduction and regardless of any counterclaim or defense. If a payment hereunder becomes due and payable on a day that is not a Business Day, the due date thereof shall be the immediately subsequent Business Day. Agent or Lenders will initiate debit entries to Borrower's account as authorized on the ACH Authorization (provided that prior to the delivery of an executed ACH Authorization Borrower shall wire such payments) (i) on each Payment Date of all periodic obligations payable to Lenders under each Term Loan Advance and (ii) reasonable and documented out-of-pocket legal fees and costs incurred by Agent or Lenders in connection with Section 11.12; provided that, with respect to clause (i) above, in the event that Lenders or Agent informs Borrower that Lenders will not initiate a debit entry to Borrower's account for a certain amount of the periodic obligations due on a specific Payment Date, Borrower shall pay to Lenders, such amount of periodic obligations in full in immediately available funds on such Payment Date; provided, further, that, with respect to clause (i) above, if Lenders or Agent informs Borrower that Lenders will not initiate a debit entry as described above later than the date that is three (3) Business Days prior to such Payment Date, Borrower shall pay to Lenders such amount of periodic obligations in full in immediately available funds on the date that is three (3) Business Days after the date on which Lenders or Agent notifies Borrower of such; provided, further, that, with respect to clause (ii) above, in the event that Lenders or Agent informs Borrower that Lenders will not initiate a debit entry to Borrower's account for specified out-of-pocket legal fees and costs incurred by Agent or Lenders, Borrower shall pay to Lenders such amount in full in immediately available funds within three (3) Business Days.

2.3 Maximum Interest. Notwithstanding any provision in this Agreement or any other Loan Document, it is the parties' intent not to contract for, charge or receive interest at a rate that is greater than the maximum rate permissible by law that a court of competent jurisdiction shall deem applicable hereto (which under the laws of the State of California shall be deemed to be the laws relating to permissible rates of interest on commercial loans) (the "Maximum Rate"). If a court of competent jurisdiction shall

finally determine that Borrower has actually paid to Lenders an amount of interest in excess of the amount that would have been payable if all of the Secured Obligations had at all times borne interest at the Maximum Rate, then such excess interest actually paid by Borrower shall be applied as follows: first, to the payment of the Secured Obligations consisting of the outstanding principal; second, after all principal is repaid, to the payment of Lenders' accrued interest, costs, expenses, professional fees and any other Secured Obligations; and third, after all Secured Obligations are repaid, the excess (if any) shall be refunded to Borrower.

2.4 Default Interest. In the event any payment is not paid on the scheduled payment date and results in an Event of Default under Section 9.1, an amount equal to (***) of such past due amount shall be payable on demand. In addition, upon the occurrence and during the continuation

of an Event of Default hereunder, all outstanding Secured Obligations, including principal and interest shall bear interest at a rate per annum equal to the rate set forth in Section 2.2(d) plus (***) per annum. In the event any interest is not paid when due hereunder, delinquent interest shall be added to principal and shall bear interest on interest, compounded at the rate set forth in Section 2.2(d) or 2.4, as applicable.

2.5 Prepayment. At its option upon at least seven (7) Business Days prior written notice to Agent, Borrower may at any time voluntarily prepay all or a portion (***) of the outstanding Advances by paying the entire outstanding principal balance (or such portion thereof), all accrued and unpaid interest thereon, all unpaid Lender's fees and expenses due hereunder accrued to the date of the repayment (including, without limitation, the portion of the End of Term Charge applicable to the aggregate original principal amount of the Term Loan Advances being prepaid in accordance with Section 2.6(b)), together with a prepayment charge equal to the following percentage of the outstanding principal amount of such Advance amount being so prepaid: with respect to each Advance (a) (***); (b) (***); and (c) thereafter through (***) (each, a "Prepayment Charge"). If at any time Borrower elects to make a prepayment, and at such time, there are outstanding Advances under multiple Tranches, the Prepayment Charge shall be determined by applying the amount of such prepayment in the following order: first, to the outstanding principal amount (and accrued but unpaid interest thereon) of Advances outstanding under the Tranche with the latest initial funding date; second, to the outstanding principal amount (and accrued but unpaid interest thereon) of Advances outstanding under the Tranche with the next latest initial funding date and so on until the entire principal balance of all Advances made hereunder (and all accrued but unpaid interest thereon) is paid in full. Borrower agrees that the Prepayment Charge is a reasonable calculation of Lenders' lost profits in view of the difficulties and impracticality of determining actual damages resulting from an early repayment of the Advances. Borrower shall prepay the outstanding amount of all principal and accrued interest through the prepayment date and the Prepayment Charge upon the occurrence of a Change in Control or any other prepayment hereunder. Notwithstanding the foregoing, Agent and Lenders agree to waive the Prepayment Charge if Agent and Lenders or their Affiliates (in their sole and absolute discretion) agree in writing to refinance the Advances prior to the Term Loan Maturity Date. Any amounts paid under this Section shall be applied by Agent to the then unpaid amount of any outstanding Secured Obligations (including principal and interest) in such order and priority as Agent may choose in its sole discretion acting reasonably. For the avoidance of doubt, if a payment hereunder becomes due and payable on a day that is not a Business Day, the due date thereof shall be the immediately subsequent Business Day.

2.6 End of Term Charge.

(a) On any date that Borrower partially prepays the outstanding Secured Obligations pursuant to Section 2.5 (other than, for the avoidance of doubt, any partial prepayment that would result in all remaining outstanding Secured Obligations being prepaid in full), Borrower shall pay the Lenders a charge of equal to (***) *multiplied* by the aggregate principal amount of such Term Loan Advances being prepaid.

(b) On the earliest to occur of (i) the Term Loan Maturity Date, (ii) the date that Borrower prepays in full the outstanding Secured Obligations (other than any inchoate indemnity obligations and any other obligations which, by their terms, are to survive the termination of this Agreement), (iii) the date that the outstanding Secured Obligations become due and payable in full, Borrower shall pay Lenders (i) a charge equal to (***) *multiplied* by the aggregate original principal amount of such Term Loan Advances funded, minus (ii) the aggregate amount of payments made pursuant to Section 2.6(a) (together, the "End of Term Charge").

(c) Notwithstanding the required payment date of such End of Term Charge, the applicable pro rata portion of the End of Term Charge shall be deemed earned by Lenders as of each date that an applicable Term Loan Advance is made. For the avoidance of doubt, if a payment hereunder becomes due and payable on a day that is not a Business Day, the due date thereof shall be the immediately preceding Business Day.

2.7 Pro Rata Treatment. Each payment (including prepayment) on account of any fee and any reduction of the Term Loan Advances shall be made pro rata according to the Term Commitments of the relevant Lender.

2.8 Taxes; Increased Costs. Borrower, Agent and Lenders each hereby agree to the terms and conditions set forth on Addendum 1 attached hereto.

2.9 Treatment of Prepayment Charge and End of Term Charge. Borrower agrees that any Prepayment Charge and any End of Term Charge payable shall be presumed to be the liquidated damages sustained by each Lender as the result of the early termination, and Borrower agrees that it is reasonable under the circumstances currently existing and existing as of the Closing Date. The Prepayment Charge and the End of Term Charge shall also be payable in the event the Secured Obligations (and/or this Agreement) are satisfied or released by foreclosure (whether by power of judicial proceeding), deed in lieu of foreclosure, or by any other means. Each Loan Party expressly waives (to the fullest extent it may lawfully do so) the provisions of any present or future statute or law that prohibits or may prohibit the collection of the foregoing Prepayment Charge and End of Term Charge in connection with any such acceleration. Borrower agrees (to the fullest extent that each may lawfully do so): (a) each of the Prepayment Charge and the End of Term Charge is reasonable and is the product of an arm's length transaction between sophisticated business people, ably represented by counsel; (b) each of the Prepayment Charge and the End of Term Charge shall be payable notwithstanding the then prevailing market rates at the time payment is made; (c) there has been a course of conduct between Lenders and Borrower giving specific consideration in this transaction for such agreement to pay the Prepayment Charge and the End of Term Charge as a charge (and not interest) in the event of prepayment or acceleration; and (d) Borrower shall be estopped from claiming differently than as agreed to in this Section. Borrower expressly acknowledges that its agreement to pay each of the Prepayment Charge and the End of Term Charge to Lenders as herein described was on the Closing Date and continues to be a material inducement to Lenders to provide the Term Loan Advances.

SECTION 3. SECURITY INTEREST

3.1 Grant of Security Interest. Each Borrower, other than any English Borrower, as security for the prompt and complete payment when due (whether on the payment dates or otherwise) of all the Secured Obligations, grants to Agent a security interest in all of such Borrower's right, title, and interest in, to and under all of such Borrower's personal property and other assets including without limitation the following (except as set forth herein) whether now owned or hereafter acquired (collectively,

(l) Except as described on Schedule 5.10(l), Borrower has all material rights with respect to Intellectual Property necessary or material in the operation or conduct of Borrower's business as currently conducted and proposed to be conducted by Borrower. Each such Material Agreement is in full force and effect and is legal, valid, binding, and enforceable in accordance with its respective terms, except as may be limited by bankruptcy, insolvency, reorganization, moratorium or similar laws relating to or limiting creditors' rights generally or by equitable principles relating to enforceability. Except as set forth on Schedule 5.10(n), to the knowledge of Borrower, neither Borrower nor any of its Subsidiaries, as applicable, is in breach of or default in any manner that could reasonably be expected to materially affect the Borrower Products under any such Material Agreement to which it is a party, and no circumstances or grounds exist that would give rise to a claim of breach or right of rescission or termination of any such Material Agreements, including the execution, delivery and performance of this Agreement and the other Loan Documents.

5.11 Borrower Products. Except as set forth on Schedule 5.11 and as provided for in any Registration or applications therefore, no Borrower Product is subject to any actual or, to the knowledge of Borrower, threatened litigation, proceeding or outstanding decree, order, judgment, settlement agreement or stipulation that restricts in any manner Borrower's use, transfer or licensing thereof or that may affect the use. There is no decree, order, judgment, agreement, stipulation, arbitral award or other provision entered into in connection with any litigation or proceeding that obligates Borrower to grant licenses or ownership interest in any future Intellectual Property related to the operation or conduct of the business of Borrower or Borrower Products.

5.12 Financial Accounts. Exhibit D, as may be updated by Borrower in a written notice provided to Agent after the Closing Date, is a true, correct and complete list of (a) all banks and other financial institutions at which Borrower or any Subsidiary maintains Deposit Accounts and (b) all institutions at which Borrower or any Subsidiary maintains an account holding Investment Property, and such exhibit correctly identifies the name and address of each bank or other institution, the name in which the account is held, a description of the purpose of the account, and the complete account number therefor.

If Borrower fails to obtain the insurance called for by this Section 6.1 or fails to pay any premium thereon or fails to pay any other amount which Borrower is obligated to pay under this Agreement or any other Loan Document or which may be required to preserve the Collateral, Agent may obtain such insurance or make such payment, and all amounts so paid by Agent are immediately due and payable, bearing interest at the then highest rate applicable to the Secured Obligations, and secured by the Collateral. Agent will make reasonable efforts to provide Borrower with notice of Agent obtaining such insurance at the time it is obtained or within a reasonable time thereafter. No payments by Agent are deemed an agreement to make similar payments in the future or Agent's waiver of any Event of Default.

6.2 Certificates. Borrower shall deliver to Agent certificates of insurance that evidence Borrower's compliance with its insurance obligations in Section 6.1 and the obligations contained in this Section 6.2. Other than in respect of an English Borrower, Borrower's insurance certificate shall reflect Agent (shown as "Hercules Capital, Inc., as Agent, and its successors and/or assigns") is an additional insured for commercial general liability, a lenders loss payable for all risk property damage insurance, subject to the insurer's approval, and a lenders loss payable for property insurance and additional insured for liability insurance for any future insurance that Borrower may acquire from such insurer. Other than in respect of an English Borrower, attached to the certificates of insurance will be additional insured endorsements for liability and lender's loss payable endorsements for all risk property damage insurance. Other than in respect of an English Borrower, all certificates of insurance will provide for a minimum of thirty (30) days advance written notice to Agent of cancellation (other than cancellation for non-payment of premiums, for which ten (10) days' advance written notice shall be sufficient) or any other change adverse to Agent's interests. Any failure of Agent to scrutinize such insurance certificates for compliance is not a waiver of any of Agent's rights, all of which are reserved. Upon entering into or amending any insurance policy required hereunder, Borrower shall, in the then-next Compliance Certificate delivered in accordance with Section 7.1(d), provide Agent with copies of such policies and shall promptly deliver to Agent updated insurance certificates with respect to such policies.

6.3 Indemnity. Each Borrower agrees to indemnify and hold Agent, Lenders and their officers, directors, employees, agents, in-house attorneys, representatives and shareholders (each, an "Indemnified Person") harmless from and against any and all third-party claims, costs, expenses, damages and liabilities (including such claims, costs, expenses, damages and liabilities based on liability in tort, including strict liability in tort), including reasonable attorneys' fees and disbursements and other costs of investigation or defense (including those incurred upon any appeal) (collectively, "Liabilities"), that may be instituted or asserted against or incurred by such Indemnified Person as the result of credit having been extended, suspended or terminated under this Agreement and the other Loan Documents or the administration of such credit, or in connection with or arising out of the transactions contemplated hereunder and thereunder, or any actions or failures to act in connection therewith, or arising out of the disposition or utilization of the Collateral,

excluding in all cases Liabilities to the extent such Liabilities arise solely out of gross negligence or willful misconduct of any Indemnified Person or changes in income tax rates. This Section 6.3 shall not apply with respect to Taxes other than any Taxes that represent losses, claims, damages, etc. arising from any non-Tax claim. In no event shall any Indemnified Person be liable on any theory of liability for any special, indirect, consequential or punitive damages (including any loss of profits, business or anticipated savings). This Section 6.3 shall survive the repayment of indebtedness under, and otherwise shall survive the expiration or other termination of, this Agreement, in each case, subject to the applicable statute of limitations.

In addition, Agent or Lenders shall be entitled at reasonable times and intervals to consult with and advise the management and officers of Borrower concerning

significant business issues affecting Borrower (provided that Borrower is not required to adopt or comply with such advice). Such consultations shall not unreasonably interfere with Borrower's business operations. The parties intend that the rights granted Agent and Lenders shall constitute "management rights" within the meaning of 29 C.F.R. Section 2510.3-101(d)(3)(ii), but that any advice, recommendations or participation by Agent or Lenders with respect to any business issues shall not be deemed to give Agent or Lenders, nor be deemed an exercise by Agent or Lenders of, control over Borrower's management or policies.

Borrower shall from time to time procure any instruments or documents as may be reasonably requested by Agent, and take all further action that may be necessary, or that Agent may reasonably request, to perfect and protect the Liens granted hereby or pursuant to applicable Loan Documents. In addition, and for such purposes only, Borrower hereby authorizes Agent to execute and deliver on behalf of Borrower and to file any relevant financing statements (including an indication that the financing statement covers "all assets or all personal property" of Borrower in accordance with Section 9504 of the UCC), collateral assignments, notices, control agreements, security agreements and other documents without the signature of Borrower either in Agent's name or in the name of Agent as agent and attorney-in-fact for Borrower in satisfaction of such obligation. Borrower shall protect and defend Borrower's title to the Collateral and Agent's Lien thereon against all Persons claiming any interest adverse to Borrower or Agent other than Permitted Liens.

7.4 Indebtedness. Borrower shall not create, incur, assume, guarantee or be or remain liable with respect to any Indebtedness, or permit any Subsidiary so to do, other than Permitted Indebtedness, or prepay any Indebtedness or take any actions which impose on Borrower an obligation to prepay any Indebtedness, except for (a) the conversion of Indebtedness into equity securities and the payment of cash in lieu of fractional shares in connection with such conversion, (b) purchase money Indebtedness pursuant to its then applicable payment schedule, (c) prepayment by any Subsidiary of (i) inter-company Indebtedness owed by such Subsidiary to any Borrower, or (ii) if such Subsidiary is not a Borrower, intercompany Indebtedness owed by such Subsidiary

7.5 Collateral. Borrower shall at all times (a) keep the Collateral and all other property and assets used in Borrower's business or in which Borrower now or hereafter holds any interest free and clear from any Liens whatsoever (except for Permitted Liens and Permitted Transfers), (b) ensure that the Co-Owned Intellectual Property does not become subject to any Liens (except for Permitted

Liens, Permitted Transfers and, to the extent constituting a Lien, any customary restrictions or encumbrances that would be applicable to such Co-Owned Intellectual Property by the virtue of the terms of the applicable agreement governing such Co-Owned Intellectual Property) and (c) shall give Agent prompt written notice of any legal process affecting the Collateral (and to the extent the Borrower is aware of such process, any Co-Owned Intellectual Property) or such other property and assets, in each case that is reasonably likely to be adversely detrimental and if so detrimental, would reasonably be expected to result in Material Adverse Effect, or any Liens thereon, provided however, that the Collateral and such other property or assets may be subject to Permitted Liens. Borrower shall not agree with any Person other than Agent or Lenders not to encumber its property other than in connection with Permitted Liens, Permitted Transfers and any customary restrictions or encumbrances that would be applicable to Co-Owned Intellectual Property by the virtue of the terms of the applicable agreement governing Co-Owned Intellectual Property. Borrower shall not enter into or suffer to exist or become effective any agreement that prohibits or limits the ability of any Borrower to create, incur, assume or suffer to exist any Lien upon any of its property (including Intellectual Property), whether now owned or hereafter acquired, to secure its obligations under the Loan Documents to which it is a party other than (i) this Agreement and the other Loan Documents, (ii) any agreements governing any purchase money Liens or capital lease obligations otherwise permitted hereby (in which case, any prohibition or limitation shall only be effective against the assets financed thereby) (iii) customary restrictions on the assignment of leases, licenses and other agreements and (iv) customary restrictions or encumbrances that would be applicable to Co-Owned Intellectual Property by the virtue of the terms of the applicable agreement governing such Co-Owned Intellectual Property. Borrower shall cause its Subsidiaries to protect and defend such Subsidiary's title to its assets from and against all Persons claiming any interest adverse to such Subsidiary, and Borrower shall cause its Subsidiaries at all times to keep such Subsidiary's property and assets free and clear from any legal process or Liens whatsoever (except for Permitted Liens, Permitted Transfers and any customary restrictions or encumbrances that would be applicable to Co-Owned Intellectual Property by the virtue of the terms of the applicable agreement governing Co-Owned Intellectual Property).

7.7 Distributions. Except to the extent constituting Permitted Investments or Permitted Transfers, Borrower shall not, and shall not allow any Subsidiary to, (a) repurchase or redeem any class of stock or other Equity Interest other than pursuant to employee, director or consultant repurchase plans or other similar agreements, provided, however, in each case the repurchase or redemption price does not exceed the original consideration paid for such stock or Equity Interest, or (b) declare or pay any cash dividend or make any other cash distribution on any class of stock or other Equity Interest, except that a Subsidiary may pay dividends or make other distributions to Borrower or any Subsidiary of Borrower, or (c) except for Permitted Investments, lend money to any employees, officers or directors or guarantee the payment of any such

loans granted by a third party in excess of (***) in the aggregate or as part of a 401k plan, or (d) the conversion of any of its convertible securities into other securities pursuant to the terms of such convertible securities or otherwise in exchange thereof, or (e) waive, release or forgive any Indebtedness owed by any employees, officers or directors in excess of (***) in the aggregate.

7.9 Mergers and Consolidations. Except for Permitted Acquisitions, Borrower shall not, nor will it permit any Subsidiary to, merge, dissolve, liquidate, consolidate with or into another Person, or dispose of (whether in one transaction or in a series of transactions) all or substantially all of its assets (whether now owned or hereafter acquired) to or in favor of any Person (other than mergers or consolidations of (a) a Subsidiary (or the target of any Permitted Acquisition if such target becomes a Loan Party hereunder) which is not a Borrower into another Subsidiary or into Borrower or (b) a Borrower into another Borrower).

7.10 Taxes. Borrower shall, and shall cause each of its Subsidiaries to, pay when due all material Taxes of any nature whatsoever now or hereafter imposed or assessed against Borrower or such Subsidiary or the Collateral or upon Borrower's (or such Subsidiary's) ownership, possession, use, operation or disposition thereof or upon Borrower's (or such Subsidiary's) rents, receipts or earnings arising therefrom. Borrower shall, and shall cause each of its Subsidiaries to, accurately file on or before the due date therefor (taking into account proper extensions) all federal and state income Tax returns and other material Tax returns required to be filed. (e) If Borrower intends to deliver any portion of Borrower's assets or property valued, individually or in the aggregate, in excess of (***) to a bailee (excluding locations holding only clinical trial material, apheresis material, patient samples, viral vectors, test kits or finished drug product), and Agent and such bailee are not already parties to a bailee agreement governing both the Collateral and the

location to which Borrower intends to deliver the Collateral, then Borrower will use commercially reasonable efforts to procure such bailee to execute and deliver a bailee agreement in form and substance reasonably satisfactory to Agent.

(f) The Borrower will not, and will not permit any Subsidiary to, engage to any material extent in any business other than those businesses conducted by the Borrower and its Subsidiaries on the date hereof or any business reasonably related or incidental thereto or representing a reasonable expansion thereof.

(g) Without the prior written consent of Agent, the Borrower will not make, or agree to make, any modification, amendment or waiver of any of the terms or provisions of Borrower's Organizational Documents that is materially adverse to the rights of Lenders.

Agent's foregoing appointment as Borrower's attorney in fact, and all of Agent's rights and powers, coupled with an interest, are irrevocable until all Secured Obligations (other than inchoate indemnity obligations which, by their terms, survive termination of this Agreement) have been fully repaid and performed and the Loan Documents have been terminated. The proceeds of any

sale, disposition or other realization upon all or any part of the Collateral shall be applied by Agent in the following order of priorities:

First, to Agent, in an amount equal to the sum of all fees owing to Agent hereunder and under any other Loan Document;

10.5 Cumulative Remedies. The rights, powers and remedies of Agent hereunder shall be in addition to all rights, powers and remedies given by statute or rule of law and are cumulative. The exercise of any one or more of the rights, powers and remedies provided herein shall not be construed as a waiver of or election of remedies with respect to any other rights, powers and remedies of Agent.

Whenever possible each provision of this Agreement shall be interpreted in such manner as to be effective and valid under applicable law, but if any provision of this Agreement shall be prohibited by or invalid under such law, such provision shall be ineffective only to the extent and duration of such prohibition or invalidity, without invalidating the remainder of such provision or the remaining provisions of this Agreement.

11.3 Entire Agreement; Amendments.

(a) This Agreement and the other Loan Documents constitute the entire agreement and understanding of the parties hereto in respect of the subject matter hereof and thereof, and supersede and replace in their entirety any prior proposals, term sheets, non-disclosure or confidentiality agreements, letters, negotiations or other documents or agreements, whether written or oral, with respect to the subject matter hereof or thereof (including Agent's revised proposal letter dated April 22, 2024 and the Non-Disclosure Agreement).

(b) Neither this Agreement, any other Loan Document, nor any terms hereof or thereof may be amended, supplemented or modified except in accordance with the provisions of this Section 11.3(b). The Required Lenders and Loan Parties party to the relevant Loan Document may, or, with the written consent of the Required Lenders, Agent and Loan Parties party to the relevant Loan Document may, from time to time, (i) enter into written amendments, supplements or modifications hereto and to the other Loan Documents for the purpose of adding any provisions to this Agreement or the other Loan Documents or changing in any manner the rights of Lenders or of Loan Parties hereunder or thereunder or (ii) waive, on such terms and conditions as the Required Lenders or Agent, as the case may be, may specify in such instrument, any of the requirements of this Agreement or the other Loan Documents or any Default or Event of Default and its consequences; provided, however, that no such waiver and no

such amendment, supplement or modification shall (A) forgive the principal amount or extend the final scheduled date of maturity of any Loan, extend the scheduled date of any amortization payment in respect of any Term Loan Advance, reduce the stated rate of any interest (or fee payable hereunder) or extend the scheduled date of any payment thereof, in each case without the written consent of each Lender directly

Any such waiver and any such amendment, supplement or modification shall apply equally to each Lender and shall be binding upon the applicable Loan Parties, Lenders, Agent and all future holders of the Loans.

11.4 No Strict Construction. The parties hereto have participated jointly in the negotiation and drafting of this Agreement. In the event an ambiguity or question of intent or interpretation arises, this Agreement shall be construed as if drafted jointly by the parties hereto and no presumption or burden of proof shall arise favoring or disfavoring any party by virtue of the authorship of any provisions of this Agreement.

11.5 No Waiver. The powers conferred upon Agent and Lenders by this Agreement are solely to protect their rights hereunder and under the other Loan Documents and their interest in the Collateral and shall not impose any duty upon Agent or Lenders to exercise any such powers. No omission or delay by Agent or Lenders at any time to enforce any right or remedy reserved to them, or to require performance of any of the terms, covenants or provisions hereof by Borrower at any time designated, shall be a waiver of any such right or remedy to which Agent or Lenders are entitled, nor shall it in any way affect the right of Agent or Lenders to enforce such provisions thereafter.

11.6 Survival. All agreements, representations and warranties contained in this Agreement and the other Loan Documents or in any document delivered pursuant hereto or thereto shall be for the benefit of Agent and Lenders and shall survive the execution and delivery of this Agreement. Sections 6.3, 11.9, 11.11, 11.14, 11.15, 11.17 and 11.18 shall survive the termination of this Agreement.

11.7 Successors and Assigns. The provisions of this Agreement and the other Loan Documents shall inure to the benefit of and be binding on Borrower and its permitted assigns (if any). No Loan Party shall assign its obligations under this Agreement or any of the other Loan Documents without Agent's express prior written consent, and any such attempted assignment shall be void and of no effect. Agent and Lenders may assign, transfer, or endorse its rights hereunder and under the other Loan Documents without prior notice to Borrower, and all of such rights shall inure to the benefit of Agent's and Lenders' successors and assigns; provided that as long as no Event of Default has occurred and is continuing, neither Agent nor any Lender may assign, transfer or endorse its rights hereunder or under the Loan Documents to (i) any party that is a direct competitor of Borrower or (ii) a distressed debt, loan-to-own or vulture fund (in each case, as reasonably determined by the Agent), without the prior written consent of the Company (such consent to be in its sole and absolute discretion), it

being acknowledged that in all cases, any transfer to an Affiliate of any Lender or Agent shall be allowed. Notwithstanding the foregoing, (x) in connection with any assignment by a Lender as a result of a forced divestiture at the request of any regulatory agency, the restrictions set forth herein shall not apply and Agent and Lenders may assign, transfer or endorse its rights hereunder and under the other Loan Documents to any Person or party and (y) in connection with a Lender's own financing or securitization transactions, the restrictions set forth herein shall not apply and Agent and Lenders may assign, transfer or endorse its rights hereunder and under the other Loan Documents to any Person or party providing such financing or formed to undertake such securitization transaction and any transferee of such Person or party upon

the occurrence of a default, event of default or similar occurrence with respect to such financing or securitization transaction; provided that no such sale, transfer, pledge or assignment under this clause (y) shall release such Lender from any of its obligations hereunder or substitute any such Person or party for such Lender as a party hereto until Agent shall have received and accepted an effective assignment agreement from such Person or party in form satisfactory to Agent executed, delivered and fully completed by the applicable parties thereto, and shall have received such other information regarding such assignee as Agent reasonably shall require. Agent, acting solely for this purpose as a non-fiduciary agent of Borrower, shall maintain at one of its offices in the United States a register for the recordation of the names and addresses of Lender(s), and the Term Commitments of, and principal amounts (and stated interest) of the Loans owing to, each Lender pursuant to the terms hereof from time to time (the "Register"). The entries in the Register shall be conclusive absent manifest error, and Borrower, Agent and Lender(s) shall treat each Person whose name is recorded in the Register pursuant to the terms hereof as a Lender hereunder for all purposes of this Agreement. The Register shall be available for inspection by Borrower and any Lender, at any reasonable time and from time to time upon reasonable prior notice.

11.8 Participations. Each Lender that sells a participation shall, acting solely for this purpose as a non-fiduciary agent of Borrower, maintain a register on which it enters the name and address of each participant and the principal amounts (and stated interest) of each participant's interest in the Loans or other obligations under the Loan Documents (the "Participant Register"); provided that no Lender shall have any obligation to disclose all or any portion of the Participant Register (including the identity of any participant or any information relating to a participant's interest in any commitments, loans, its other obligations under any Loan Document) to any Person except to the extent that such disclosure is necessary to establish that such commitment, loan, letter of credit or other obligation is in registered form under Section 5f.103-1(c) and proposed Section 1.163-5(b) of the United States Treasury Regulations. The entries in the Participant Register shall be conclusive absent manifest error, and such Lender shall treat each Person whose name is recorded in the Participant Register as the owner of such participation for all purposes of this Agreement notwithstanding any notice to the contrary. For the avoidance of doubt, Agent (in its capacity as Agent) shall have no responsibility for maintaining a Participant Register. Borrower agrees that each participant shall be entitled to the benefits of the provisions in Addendum 1 attached hereto (subject to the requirements and limitations therein, including the requirements under Section 7 of Addendum 1 attached hereto (it being understood that the documentation required under Section 7 of Addendum 1 attached hereto shall be delivered to the participating Lender)) to the same extent as if it were a Lender and had acquired its interest by assignment pursuant to Section 11.7; provided that such participant shall not be entitled to receive any greater payment under Addendum 1 attached hereto, with respect to any participation, than its participating Lender would have been entitled to receive, except to the extent such entitlement to receive a greater payment results from a change in law that occurs after the participant acquired the applicable participation.

11.9 Governing Law. This Agreement and the other Loan Documents have been negotiated and delivered to Agent and Lenders in the State of California, and shall have been accepted by Agent and Lenders in the State of California. Payment to Agent and Lenders by Borrower of the Secured Obligations is due in the State of California. This Agreement and the other Loan Documents shall (unless otherwise specified therein) be governed by, and construed and enforced in accordance with, the laws of the State of California, excluding conflict of laws principles that would cause the application of laws of any other jurisdiction.

11.10 Consent to Jurisdiction and Venue. All judicial proceedings (to the extent that the reference requirement of Section 11.11 is not applicable) arising in or under or related to this Agreement or any of the other Loan Documents may be brought in any state or federal court located

in the State of California. By execution and delivery of this Agreement, each party hereto generally and unconditionally: (a) consents to nonexclusive personal jurisdiction in Santa Clara County, State of California; (b) waives any objection as to jurisdiction or venue in Santa Clara County, State of California; (c) agrees not to assert any defense based on lack of jurisdiction or venue in the aforesaid courts; and (d) irrevocably agrees to be bound by any judgment rendered thereby in connection with this Agreement or the other Loan Documents. Service of process on any party hereto in any action arising out of or relating to this Agreement shall be effective if given in accordance with the requirements for notice set forth in Section 11.2 and shall be deemed effective and received as set forth in Section 11.2. Nothing herein shall affect the right to serve process in any other manner permitted by law or shall limit the right of either party to bring proceedings in the courts of any other jurisdiction.

11.11 Mutual Waiver of Jury Trial / Judicial Reference.

(a) Because disputes arising in connection with complex financial transactions are most quickly and economically resolved by an experienced and expert Person and the parties wish applicable state and federal laws to apply (rather than arbitration rules), the parties desire that their disputes be resolved by a judge applying such applicable laws. EACH OF BORROWER, AGENT AND LENDERS SPECIFICALLY WAIVES ANY RIGHT IT MAY HAVE TO TRIAL BY JURY OF ANY CAUSE OF ACTION, CLAIM, CROSS-CLAIM, COUNTERCLAIM, THIRD PARTY CLAIM OR ANY OTHER CLAIM (COLLECTIVELY, "CLAIMS") ASSERTED BY BORROWER AGAINST AGENT, LENDERS OR THEIR RESPECTIVE ASSIGNEE OR BY AGENT, LENDERS OR THEIR RESPECTIVE ASSIGNEE AGAINST BORROWER. This waiver extends to all such Claims, including Claims that involve Persons other than Agent, Borrower or any Lenders; Claims that arise out of or are in any way connected to the relationship among Borrower, Agent and Lenders; and any Claims for damages, breach of contract, tort, specific performance, or any equitable or legal relief of any kind, arising out of this Agreement, any other Loan Document.

(b) If the waiver of jury trial set forth in Section 11.11(a) is ineffective or unenforceable, the parties agree that all Claims shall be resolved by reference to a private judge sitting without a jury, pursuant to Code of Civil Procedure Section 638, before a mutually acceptable referee or, if the parties cannot agree, a referee selected by the Presiding Judge of the Santa Clara County, California. Such proceeding shall be conducted in Santa Clara County, California, with California rules of evidence and discovery applicable to such proceeding.

(c) In the event Claims are to be resolved by judicial reference, either party may seek from a court identified in Section 11.10, any prejudgment order, writ or other relief and have such prejudgment order, writ or other relief enforced to the fullest extent permitted by law notwithstanding that all Claims are otherwise subject to resolution by judicial reference.

11.12 Professional Fees. Borrower promises to pay Agent's and Lenders' reasonable and documented fee and expenses necessary to finalize the Loan Documents, including but not limited to reasonable and documented attorneys' fees, UCC searches, filing costs, and other miscellaneous expenses. In addition, Borrower promises to pay any and all reasonable and documented attorneys' and other professionals' fees (including allocated costs of in-house counsel) and expenses incurred by Agent and Lenders after the Closing Date in connection with or related to: (a) the Loan; (b) the administration, collection, or enforcement of the Loan; (c) the amendment or modification of the Loan Documents; (d) any waiver, consent, release, or termination under the Loan Documents; (e) the protection, preservation, audit, field exam, sale, lease, liquidation, or disposition of Collateral or the exercise of remedies with respect to the Collateral; (f) any legal, litigation, administrative,

arbitration, or out of court proceeding in connection with or related to Borrower or the Collateral, and any appeal or review thereof; and (g) any bankruptcy, restructuring, reorganization, assignment for the benefit of creditors, workout, foreclosure, or other action related to Borrower, the Collateral, the Loan Documents, including representing Agent or Lenders in any adversary proceeding or contested matter commenced or continued by or on behalf of Borrower's estate, and any appeal or review thereof.

11.13 Confidentiality. Agent and Lenders acknowledge that certain items of Collateral and information provided to Agent and Lenders by Borrower are confidential and proprietary information of Borrower, if and to the extent such information either (x) is marked as confidential by Borrower at the time of disclosure, or (y) should reasonably be understood to be confidential (the "Confidential Information"). Accordingly, Agent and Lenders agree that any Confidential Information it may obtain in the course of acquiring, administering, or perfecting Agent's security interest in the Collateral shall not be disclosed to any other Person or entity in any manner whatsoever, in whole or in part, without the prior written consent of Borrower, except that Agent and Lenders may disclose any such information: (a) to its Affiliates and its partners, investors, lenders, directors, officers, employees, agents, advisors, counsel, accountants, representatives and other professional advisors if Agent or Lenders in their sole discretion determine that any such party should have access to such information in connection with such party's responsibilities in connection with the Loan or this Agreement and, provided that such recipient of such Confidential Information either (i) agrees to be bound by the confidentiality provisions of this Section or (ii) is otherwise subject to confidentiality restrictions that reasonably protect against the disclosure of Confidential Information; (b) if such information is generally available to the public or to the extent such information becomes publicly available other than as a result of a breach of this Section or becomes available to Agent or any Lender, or any of their respective Affiliates on a non-confidential basis from a source other than Borrower; (c) if required or appropriate in any report, statement or testimony submitted to any Governmental Authority having or claiming to have jurisdiction over Agent or Lenders and any rating agency; (d) if required or appropriate in response to any summons or subpoena or in connection with any litigation, to the extent permitted or deemed advisable by Agent's or Lenders' counsel; (e) to comply with any legal requirement or law applicable to Agent or Lenders or demanded by any Governmental Authority; (f) to the extent reasonably necessary in connection with the exercise of, or preparing to exercise, or the enforcement of, or preparing to enforce, any right or remedy under any Loan Document (including Agent's sale, lease, or other disposition of Collateral after the occurrence of a Default), or any action or proceeding relating to any Loan Document; (g) to any participant or assignee of Agent or Lenders or any prospective participant or assignee, provided, that such participant or assignee or prospective participant or assignee is subject to confidentiality restrictions that reasonably protect against the disclosure of Confidential Information; (h) to any investor or potential investor (and each of their respective Affiliates or clients) in Agent or Lenders (or each of their respective Affiliates); provided that such investor, potential investor, Affiliate or client is subject to confidentiality obligations with respect to the Confidential Information; (i) otherwise to the extent consisting of general portfolio information that does not identify Borrower; or (j) otherwise with the prior consent

of Borrower; provided, that any disclosure made in violation of this Agreement shall not affect the obligations of Borrower or any of its Affiliates or any guarantor under this Agreement or the other Loan Documents. Agent's and Lenders' obligations under this Section 11.13 shall supersede all of their respective obligations under the Non-Disclosure Agreement.

11.14 Assignment of Rights. Borrower acknowledges and understands that Agent or Lenders may, subject to Section 11.7, sell and assign all or part of its interest hereunder and under the Loan Documents to any Person or entity (an "Assignee"). After such assignment the term "Agent" or "Lender" as used in the Loan Documents shall mean and include such Assignee, and

such Assignee shall be vested with all rights, powers and remedies of Agent and Lenders hereunder with respect to the interest so assigned; but with respect to any such interest not so transferred, Agent and Lenders shall retain all rights, powers and remedies hereby given. No such assignment by Agent or Lenders shall relieve Borrower of any of its obligations hereunder. Lenders agree that in the event of any transfer by it of the promissory note(s) (if any), it will endorse thereon a notation as to the portion of the principal of the promissory note(s), which shall have been paid at the time of such transfer and as to the date to which interest shall have been last paid thereon.

11.15 Revival of Secured Obligations. This Agreement and the Loan Documents shall remain in full force and effect and continue to be effective if any petition is filed by or against Borrower for liquidation or reorganization, if Borrower becomes insolvent or makes an assignment for the benefit of creditors, if a receiver or trustee is appointed for all or any significant part of Borrower's assets, or if any payment or transfer of Collateral is recovered from Agent or Lenders. The Loan Documents and the Secured Obligations and Collateral security shall continue to be effective, or shall be revived or reinstated, as the case may be, if at any time payment and performance of the Secured Obligations or any transfer of Collateral to Agent, or any part thereof is rescinded, avoided or avoidable, reduced in amount, or must otherwise be restored or returned by, or is recovered from, Agent, Lenders or by any obligee of the Secured Obligations, whether as a "voidable preference," "fraudulent conveyance," or otherwise, all as though such payment, performance, or transfer of Collateral had not been made. In the event that any payment, or any part thereof, is rescinded, reduced, avoided, avoidable, restored, returned, or recovered, the Loan Documents and the Secured Obligations shall be deemed, without any further action or documentation, to have been revived and reinstated except to the extent of the full, final, and indefeasible payment to Agent or Lenders in Cash.

11.16 Counterparts. This Agreement and any amendments, waivers, consents or supplements hereto may be executed in any number of counterparts, and by different parties hereto in separate counterparts, each of which when so delivered shall be deemed an original, but all of which counterparts shall constitute but one and the same instrument.

11.17 No Third-Party Beneficiaries. No provisions of the Loan Documents are intended, nor will be interpreted, to provide or create any third-party beneficiary rights or any other rights of any kind in any Person other than Agent, Lenders and Borrower unless specifically provided otherwise herein, and, except as otherwise so provided, all provisions of the Loan Documents will be personal and solely among Agent, Lenders and the Loan Parties party thereto.

11.18 Agency. Agent and each Lender hereby agree to the terms and conditions set forth on Addendum 3 attached hereto. Borrower acknowledges and agrees to the terms and conditions set forth on Addendum 3 attached hereto.

11.19 Publicity. Notwithstanding anything else herein to the contrary, Borrower hereby agrees that the Agent and Lender may with the prior consultation with

Borrower and, at Agent's or such Lender's sole expense make a public announcement of the transactions contemplated by this Agreement, and may publicize or use (a) the other party's name (including a brief description of the relationship among the parties hereto), logo or hyperlink to such other parties' web site, separately or together, in written and oral presentations, advertising, promotional and marketing materials, client lists, public relations materials or on its web site (together, the "Publicity Materials"); (b) the names of officers of such other parties in the Publicity Materials; and (c) such other parties' name, trademarks, servicemarks in any news or press release concerning such party, in each case to the extent such information is not deemed confidential in accordance with Section 11.13.

11.20 Multiple Borrowers. Each Borrower hereby agrees to the terms and conditions set forth on Addendum 4 attached hereto.

11.21 [Reserved.]

11.22 Managerial Assistance. Borrower acknowledges that Hercules Capital, Inc. has elected to be regulated as a business development company under the 1940 Act, and as such is required to make available significant managerial assistance to its portfolio companies. Significant managerial assistance may include, but is not limited to, guidance and counsel concerning the portfolio company's management, operations, business objectives and policies, arrangement of financing, management of relationships with financing sources, recruitment of management personnel and evaluation of acquisition and divestiture opportunities. Borrower hereby acknowledges and agrees that it may request such assistance at any time from Hercules Capital, Inc. by contacting legal@htgc.com.

11.23 Electronic Execution of Certain Other Documents. The words "execution," "execute", "signed," "signature," and words of like import in or related to any document to be signed in connection with this Agreement and the transactions contemplated hereby (including without limitation assignments, assumptions, amendments, waivers and consents) shall be deemed to include electronic signatures, the electronic matching of assignment terms and contract formations on electronic platforms approved by Agent, or the keeping of records in electronic form, each of which shall be of the same legal effect, validity or enforceability as a manually executed signature or the use of a paper-based recordkeeping system, as the case may be, to the extent and as provided for in any applicable law, including the Federal Electronic Signatures in Global and National Commerce Act, the California Uniform Electronic Transaction Act, or any other similar state laws based on the Uniform Electronic Transactions Act.

h. "**Other Taxes**" means all present or future stamp, court or documentary, intangible, recording, filing or similar Taxes that arise from any payment made under, from the execution, delivery, performance, enforcement or registration of, from the receipt or perfection of a security interest under, or otherwise with respect to, any Loan Document, except any such Taxes that are Other Connection Taxes imposed with respect to an assignment.

s. "**UK Treaty State**" shall mean a jurisdiction having a double taxation agreement (a "**Treaty**") with the United Kingdom which makes provision for full exemption from UK Tax Deductions.

t. "**Withholding Agent**" means Borrower and Agent.

2. **Payments Free of Taxes**. Subject to Section 10, any and all payments by or on account of any obligation of Borrower under any Loan Document shall be made without deduction or withholding for any Taxes, except as required by applicable law. If any applicable law (as determined in the good faith discretion of an applicable Withholding Agent) requires the deduction or withholding of any Tax from

any such payment by a Withholding Agent, then the applicable Withholding Agent shall be entitled to make such deduction or withholding and shall timely pay the full amount deducted or withheld to the relevant Governmental Authority in accordance with applicable law and, if such Tax is an Indemnified Tax, then the sum payable by Borrower shall be increased as necessary so that after such deduction or withholding has been made (including such deductions and withholdings applicable to additional sums payable under this Section 2 or Section 4 of this Addendum 1) the applicable Recipient receives an amount equal to the sum it would have received had no such deduction or withholding been made.

3. **Payment of Other Taxes by Borrower**. Without duplication of other amounts payable by the Borrower under this Section, Borrower shall timely pay to the relevant Governmental Authority in accordance with applicable law, or at the option of Agent timely reimburse it for the payment of, any Other Taxes.

4. **Indemnification by Borrower**. Borrower shall indemnify each Recipient, within ten (10) days after demand therefor, for the full amount of any Indemnified Taxes (including Indemnified Taxes imposed or asserted on or attributable to amounts payable under Section 2 of this Addendum 1 or this Section 4) payable or paid by such Recipient or required to be withheld or deducted from a payment to such Recipient and any reasonable expenses arising therefrom or with respect thereto, whether or not such Indemnified Taxes were correctly or legally imposed or asserted by the relevant Governmental Authority. A certificate describing the amount of such payment or liability delivered to Borrower by a Lender (with a copy to Agent), or by Agent on its own behalf or on behalf of a Lender, shall be conclusive absent manifest error. In addition, Borrower agrees to pay, and to hold Agent and any Lender harmless from, any and all liabilities with respect to, or resulting from any delay in paying, any and all excise, sales or other similar Taxes (excluding Taxes imposed on or measured by the net income of Agent or such Lender) that may be payable or determined to be payable with respect to any of the Collateral or this Agreement.

5. **Indemnification by Lenders**. Each Lender shall severally indemnify Agent, within ten (10) days after demand therefor, for (a) any Indemnified Taxes attributable to such Lender (but only to the extent that Borrower has not already indemnified Agent for such Indemnified Taxes and without limiting or expanding the obligation of Borrower to do so), (b) any Taxes attributable to such Lender's failure to comply with the provisions of Section 11.8 of the Agreement relating to the maintenance of a Participant Register and (c) any Excluded Taxes attributable to such Lender, in each case, that are payable or paid by Agent in connection with any Loan Document, and any reasonable expenses arising therefrom or with respect thereto, whether or not such Taxes were correctly or legally imposed or asserted by the relevant Governmental Authority. A certificate as to the amount of such payment or liability delivered to any Lender by Agent shall be conclusive absent manifest error. Each Lender hereby authorizes Agent to set off and apply any and all amounts at any time owing to such Lender under any Loan Document or otherwise payable by Agent to Lenders from any other source against any amount due to Agent under this Section 5.

6. **Evidence of Payments**. As soon as practicable after any payment of Taxes by Borrower to a Governmental Authority pursuant to the provisions of this Addendum 1, Borrower shall deliver to Agent the original or a certified copy of a receipt issued by such Governmental Authority evidencing such payment, a copy of the return reporting such payment or other evidence of such payment reasonably satisfactory to Agent.

7. **Status of Lenders**.

    a. Subject to Section 10, any Lender that is entitled to an exemption from or reduction of withholding Tax with respect to payments made under any Loan Document shall deliver to

Borrower and Agent, at the time or times reasonably requested by Borrower or Agent, such properly completed and executed documentation reasonably requested by Borrower or Agent as will permit such payments to be made without withholding or at a reduced rate of withholding. In addition, any Lender, if reasonably requested by Borrower or Agent, shall deliver such other documentation prescribed by applicable law or reasonably requested by Borrower or Agent as will enable Borrower or Agent to determine whether or not such Lender is subject to backup withholding or information reporting requirements. Notwithstanding anything to the contrary in the preceding two sentences, the completion, execution and submission of such documentation (other than such documentation set forth in Sections 7(b)(i), 7(b)(ii) and 7(b)(iv) of this Addendum 1) shall not be required if in such Lender's reasonable judgment such completion, execution or submission would subject such Lender to any material unreimbursed cost or expense or would materially prejudice the legal or commercial position of such Lender.

b. Without limiting the generality of the foregoing, in the event that Borrower is a U.S. Person,

   i. any Lender that is a U.S. Person shall deliver to Borrower and Agent on or prior to the date on which such Lender becomes a Lender under this Agreement (and from time to time thereafter upon the reasonable request of Borrower or Agent), executed copies of IRS Form W-9 certifying that such Lender is exempt from U.S. federal backup withholding tax;

   ii. any Foreign Lender shall, to the extent it is legally entitled to do so, deliver to Borrower and Agent (in such number of copies as shall be requested by the recipient) on or prior to the date on which such Foreign Lender becomes a Lender under this Agreement (and from time to time thereafter upon the reasonable request of Borrower or Agent), whichever of the following is applicable:

      A. in the case of a Foreign Lender claiming the benefits of an income tax treaty to which the United States is a party (x) with respect to payments of interest under any Loan Document, executed copies of IRS Form W-8BEN or IRS Form W-8BEN-E establishing an exemption from, or reduction of, U.S. federal withholding Tax pursuant to the "interest" article of such tax treaty and (y) with respect to any other applicable payments under any Loan Document, IRS Form W-8BEN or IRS Form W-8BEN-E establishing an exemption from, or reduction of, U.S. federal withholding Tax pursuant to the "business profits" or "other income" article of such tax treaty;

      B. executed copies of IRS Form W-8ECI;

C. in the case of a Foreign Lender claiming the benefits of the exemption for portfolio interest under Section 881(c) of the Code, (x) a certificate substantially in the form of Exhibit J-1 to the effect that such Foreign Lender is not a "bank" within the meaning of Section 881(c)(3)(A) of the Code, a "10 percent shareholder" of Borrower within the meaning of Section 871(h)(3)(B) of the Code, or a "controlled foreign corporation" related to Borrower as described in Section 881(c)(3)(C) of the Code (a "U.S. Tax Compliance Certificate") and (y) executed copies of IRS Form W-8BEN or IRS Form W-8BEN-E; or

D. to the extent a Foreign Lender is not the beneficial owner, executed copies of IRS Form W-8IMY, accompanied by IRS Form W-8ECI, IRS Form W-8BEN, IRS Form W-8BEN-E, a U.S. Tax Compliance Certificate substantially in the form of Exhibit J-2 or Exhibit J-3, IRS Form W-9, and/or other certification documents from each beneficial owner, as applicable; provided that if the Foreign Lender is a partnership and one or more direct or indirect partners of such Foreign Lender are claiming the portfolio interest exemption, such Foreign Lender may provide a U.S. Tax Compliance Certificate substantially in the form of Exhibit J-4 on behalf of each such direct and indirect partner;

iii. any Foreign Lender shall, to the extent it is legally entitled to do so, deliver to Borrower and Agent (in such number of copies as shall be requested by the recipient) on or prior to the date on which such Foreign Lender becomes a Lender under this Agreement (and from time to time thereafter upon the reasonable request of Borrower or Agent), executed copies of any other form prescribed by applicable law as a basis for claiming exemption from or a reduction in U.S. federal withholding Tax, duly completed, together with such supplementary documentation as may be prescribed by applicable law to permit Borrower or Agent to determine the withholding or deduction required to be made; and

iv. if a payment made to a Lender under any Loan Document would be subject to U.S. federal withholding Tax imposed by FATCA if such Lender were to fail to comply with the applicable reporting requirements of FATCA (including those contained in Section 1471(b) or 1472(b) of the Code, as applicable), such Lender shall deliver to Borrower and Agent at the time or times prescribed by law and at such time or times reasonably requested by Borrower or Agent such documentation prescribed by applicable law (including as prescribed by Section 1471(b)(3)(C)(i) of the Code) and such additional documentation reasonably requested by Borrower or Agent as may be necessary for Borrower and Agent to comply with their obligations under FATCA and to determine that such Lender has complied with such Lender's obligations under FATCA or to determine the amount, if any, to deduct and withhold from such payment. Solely for purposes of this clause (iv), "FATCA" shall include any amendments made to FATCA after the date of this Agreement.

c. Each Lender agrees that if any form or certification it previously delivered expires or becomes obsolete or inaccurate in any respect, it shall update such form or certification, provide such successor form or promptly notify Borrower and Agent in writing of its legal inability to do so.

8. **Treatment of Certain Refunds**. If any party determines, in its sole discretion exercised in good faith, that it has received a refund of any Taxes as to which it has been indemnified pursuant to the provisions of this Addendum 1 (including by the payment of additional amounts pursuant to the provisions of this Addendum 1), it shall pay to the indemnifying party an amount equal to such refund (but only to the extent of indemnity payments made under the provisions of this Addendum 1 with respect to the Taxes giving rise to such refund), net of all out-of-pocket expenses (including Taxes) of such indemnified party and without interest (other than any interest paid by the relevant Governmental Authority with respect to such refund). Such indemnifying party, upon the request of such indemnified party, shall repay to such indemnified party the amount paid over pursuant to this Section 8 (plus any penalties, interest or other charges imposed by the relevant Governmental Authority) in the event that such indemnified party is required to repay such refund to such Governmental Authority. Notwithstanding anything to the contrary in this Section 8, in no event will the indemnified party be required to pay any

amount to an indemnifying party pursuant to this Section 8 the payment of which would place the indemnified party in a less favorable net after-Tax position than the indemnified party would have been in if the Tax subject to indemnification and giving rise to such refund had not been deducted, withheld or otherwise imposed and the indemnification payments or additional amounts with respect to such Tax had never been paid. This Section 8 shall not be construed to require any indemnified party to make available its Tax returns (or any other information relating to its Taxes that it deems confidential) to the indemnifying party or any other Person.

9. **Increased Costs**. If any change in applicable law shall subject any Recipient to any Taxes (other than (A) Indemnified Taxes, (B) Taxes described in clauses (ii) through (v) of the definition of Excluded Taxes and (C) Connection Income Taxes) on its loans, loan principal, commitments, or other obligations, or its deposits, reserves, other liabilities or capital attributable thereto, and the result shall be to increase the cost to such Recipient of making, converting to, continuing or maintaining any Term Loan Advance or of maintaining its obligation to make any such Loan, or to reduce the amount of any sum received or receivable by such Recipient (whether of principal, interest or any other amount), then, upon the request of such Recipient, Borrower will pay to such Recipient such additional amount or amounts as will compensate such Recipient for such additional costs incurred or reduction suffered.

10. UK Taxes on payments

a. **UK Specific Provisions.**

The provisions of this Section 10 shall apply in respect of Taxes imposed by any taxing authority on payments made in respect of the UK Facility.

b. UK Tax Gross-Up.

i. Each Loan Party shall make all payments to be made by it without any UK Tax Deduction, unless a UK Tax Deduction is required by law.

ii. A Loan Party shall promptly upon becoming aware that it must make a UK Tax Deduction (or that there is any change in the rate or the basis of a UK Tax Deduction) notify the Agent accordingly. Similarly, a Lender shall notify the Agent on becoming so aware in respect of a payment payable to that Lender. If the Agent receives such notification from a Lender it shall notify the UK Loan Party.

iii. If a UK Tax Deduction is required by law to be made by a Loan Party, the amount of the payment due from that Loan Party shall be increased to an amount which (after making any UK Tax Deduction) leaves an amount equal to the payment which would have been due if no UK Tax Deduction had been required.

iv. A payment shall not be increased under Section 10(b)(iii) above by reason of a UK Tax Deduction on account of Tax imposed by the United Kingdom, if on the date on which the payment falls due:

A. the payment could have been made to the relevant Lender without a UK Tax Deduction if the Lender had been a UK Qualifying Lender, but on that date that Lender is not or has ceased to be a UK Qualifying Lender other than as a result of any change after the date it became a Lender under this Agreement in (or in the interpretation,administration, or application of) any law or Treaty

or any published practice or publishedconcession of any relevant taxing authority; or

B. the relevant Lender is a UK Qualifying Lender solely by virtue of paragraph (1)(b) of the definition of UK Qualifying Lender and:

a. an officer of H.M. Revenue & Customs has given (and not revoked) a direction (a "**Direction**") under section 931 of the Income Tax Act 2007 which relates to the payment and that Lender has received from the UK Loan Party making the payment a certified copy of that Direction; and

b. the payment could have been made to the Lender without any UK Tax Deduction if that Direction had not been made; or

C. the relevant Lender is a UK Qualifying Lender solely by virtue of paragraph (1)(b) of the definition of UK Qualifying Lender and:

a. the relevant Lender has not given a UK Tax Confirmation to the Borrower; and

b. the payment could have been made to the Lender without any UK Tax Deduction if the Lender had given a UK Tax Confirmation to the UK Loan Party, on the basis that the UK Tax Confirmation would have enabled the UK Loan Party to have formed a reasonable belief that the payment was an “excepted payment” for the purpose of section 930 of the Income Tax Act 2007; or

D. the relevant Lender is a UK Treaty Lender and the payment could have been made to the Lender without the UK Tax Deduction had that Lender compliedwith its obligations under Section 10(b)(vii) or Section 10(b)(viii) (as applicable) below.

v. If a UK Loan Party is required to make a UK Tax Deduction, that UK Loan Party shall make that UK Tax Deduction and any payment required in connection with thatUK Tax Deduction within the time allowed and in the minimum amount required by law.

vi. Within thirty days of making either a UK Tax Deduction or any payment required in connection with that UK Tax Deduction, the UK Loan Party making that UK Tax Deduction shall deliver to the Agent for the Lender entitled to the payment a statement under section 975 of the Income Tax Act 2007 or other evidence reasonably satisfactory to that Lender that the UK Tax Deduction has been made or (as applicable) any appropriate payment paid to the relevant taxing authority.

vii.

A. Subject to Section 10(b)(vii)(B) below, a UK Treaty Lender and each UK Loan Party which makes a payment to which that UK Treaty Lender is entitledshall promptly complete any procedural formalities necessary for that UK

Loan Party toobtain authorisation to make that payment without a UK Tax Deduction.

B.

a. A UK Treaty Lender which is a party to this Agreement on the date of this Agreement and that holds a passport under the HMRC DT Treaty Passport scheme, and which wishes that scheme to apply to the UK Facility, shall confirm its scheme reference number and its jurisdiction of tax residence in Schedule 1.1 to this Agreement; and

b. a UK Treaty Lender which is not a party to this Agreement on the date of this Agreement and that holds a passport under the HMRC DT Treaty Passport scheme, and which wishes that scheme to apply to theUK Facility, shall confirm its scheme reference number and its jurisdiction of taxresidence in the documentation which it executes on becoming a Lender,

and, having done so, that Lender shall be under no obligation pursuant to Section 10(b)(vii)(A) above in relation to the UK Facility.

viii. If a Lender has confirmed its scheme reference number and its jurisdiction of tax residence in accordance with Section 10(b)(vii)(B) above and:

A. A UK Loan Party making a payment to that Lender has not made a UK DTTP Filing in respect of that Lender; or

B. A UK Loan Party making a payment to that Lender has made a UK DTTP Filing in respect of that Lender but:

a. that UK DTTP Filing has been rejected by HM Revenue & Customs; or

b. HM Revenue & Customs has not given the Borrower authority to make payments to that Lender without a UK Tax Deduction within 45 days of the date of the UK DTTP Filing,

and in each case, the UK Loan Party has notified that Lender in writing, that Lender and the UK Loan Party shall promptly complete any additional procedural formalities necessary for that UK Loan Party to obtain authorisation to make that payment without a UK Tax Deduction.

ix. If a Lender has not confirmed its scheme reference number and jurisdiction of tax residence in accordance with Section 10(b)(vii)(B) above, no UK Loan Partyshall make a UK DTTP Filing or file any other form relating to the HMRC DT Treaty Passport scheme in respect

of that Lender's Advance or its participation in any UK Facility unless the Lender otherwise agrees.

x. A UK Loan Party shall, promptly on making a UK DTTP Filing, deliver a copy of that UK DTTP Filing to the Agent for delivery to the relevant Lender.

xi. A UK Non-Bank Lender shall promptly notify the Company and the Agent if there is any change in the position from that set out in its UK Tax Confirmation.

c. UK Lender Status Confirmation. Each Original Lender confirms that, at the date of this Agreement, it is a UK Qualifying Lender. Each Lender which is not an Original Lender shall indicate, in the documentation which it executes on becoming a Lender which of the following categories it falls in:

A. not a UK Qualifying Lender;

B. a UK Qualifying Lender (other than a UK Treaty Lender); or

C. a UK Treaty Lender.

If such a Lender fails to indicate its status in accordance with this Section 10(c) then that Lender shall be treated for the purposes of this Agreement (including by each UK Loan Party) as if it is not a UK Qualifying Lender until such time as it notifies the Agent which category applies (and the Agent, upon receipt of such notification, shall inform the UK Loan Party). For the avoidance of doubt, the documentation which a Lender executes on becoming a Party as a Lender shall not be invalidated by any failure of a Lender to comply with this Section 10(c). A Lender must promptly notify the Agent if its status changes and provide reasonable details of such change (and the Agent on receipt of such notification shall promptly inform the UK Loan Party) including, for the avoidance of doubt, if a Lender ceases to be beneficially entitled to all or part of the interest payable to it under the UK Facility due to a sale, assignment or transfer of all or part of such UK Lender's rights and/or obligations in respect of the UK Facility (including of participations therein).

d. If:

i. a Lender (the "***Existing Lender***") sells, assigns, transfers or otherwise disposes of any of its rights or obligations under the UK Facility (or participations therein) to another party (the "***New Lender***") or changes the lending office through which it holds its rights under the UK Facility; and

ii. as a result of circumstances existing at the date the sale, assignment, transfer, disposal or change occurred the Borrower would be obliged to make a payment to the Lender under Section 10(b).

then the New Lender (or, in the case of a change to the lending office, the Existing Lender) is only entitled to receive payment under Section 10(b) to the same extent that the Existing Lender would have been if the sale, assignment, transfer, disposal or change (as applicable) had not occurred.

11. **Value Added Tax**

a. All amounts expressed to be payable under a Loan Document to a Lender or Agent which (in whole or in part) constitute the consideration for any supply for VAT purposes are deemed to be exclusive of any VAT which is chargeable on that supply, and accordingly if VAT is or becomes chargeable on any supply made by any Lender or Agent to any Loan Party under a Loan Document and such Lender or Agent is required to account to the relevant tax authority for the VAT, that Loan Party must pay to such Lender or Agent (in addition to and at the same

time as paying any other consideration for such supply) an amount equal to the amount of the VAT (and such Lender or Agent must promptly provide an appropriate VAT invoice to that Loan Party).

b. Where a Loan Document requires any Loan Party to reimburse or indemnify a Lender or Agent for any cost or expense, that Loan Party shall reimburse or indemnify (as the case may be) such Lender or Agent for the full amount of such cost or expense, including such part thereof as represents VAT, save to the extent that such Lender or Agent reasonably determines that it is entitled to credit or repayment in respect of such VAT from the relevant tax authority.

12. **Survival**. Each party's obligations under the provisions of this Addendum 1 shall survive the resignation or replacement of Agent or any assignment of rights by, or the replacement of, a Lender, the termination of the Term Commitments and the repayment, satisfaction or discharge of all obligations under any Loan Document

ADDENDUM 3 to LOAN AND SECURITY AGREEMENT

Agent and Lender Terms

(a) Each Lender hereby irrevocably appoints Hercules Capital, Inc. to act on its behalf as Agent hereunder and under the other Loan Documents and authorizes Agent to take such actions on its behalf and to exercise such powers as are delegated to Agent by the terms hereof or thereof, together with such actions and powers as are reasonably incidental thereto. Agent shall have only those duties which are specified in this Agreement and it may perform such duties by or through its agents, representatives or employees. In performing its duties on behalf of Lenders, Agent shall exercise the same care which it would exercise in dealing with loans made for its own account, but it shall not be responsible to any Lender for the execution, effectiveness, genuineness, validity, enforceability, collectability or sufficiency of all or any of the Loan Documents, or for any representations, warranties, recitals or statements made therein or made in any written or oral statement or in any financial or other statements, instruments, reports, certificates or any other documents furnished or delivered in connection herewith or therewith by Agent to any Lender or by or on behalf of Borrower to Agent or any Lender, or be required to ascertain or inquire as to the performance or observance of any of the terms, conditions, provisions, covenants or agreements contained herein or therein, as to the use of the proceeds of the Term Loan Advances, the contents of any certificate, report or other document delivered hereunder or thereunder or in connection herewith or therewith, the validity, enforceability, effectiveness or genuineness of this Agreement, any other Loan Document or any other agreement, instrument or document or the satisfaction of any condition set forth in Section 4 or elsewhere herein, other than to confirm receipt of items expressly required to be delivered to Agent. Agent shall not be responsible for insuring the Collateral or for the payment of any Taxes, assessments, charges or any other charges or liens of any nature whatsoever upon the Collateral or otherwise for the maintenance of the Collateral, except in the event Agent enters into possession of a part or all of the Collateral, in which event Agent shall preserve the part in its possession. Unless the officers of Agent acting in their capacity as officer of Agent on Borrower's account have actual knowledge thereof or have been notified in writing thereof by Lenders, Agent shall not be required to ascertain or inquire as to the existence or possible existence of any Event of Default.

(b) In addition to the appointment above and to confirm the effectiveness of the appointment under English law, each Lender hereby irrevocably appoints the Agent as security trustee and acknowledges and confirms that the references to the Agent in this Agreement and the other Loan Documents shall be deemed to include the Agent acting as agent and security trustee for the Lenders under all Loan Documents under English law. The Agent hereby declares itself security trustee of the Collateral and shall hold the Collateral on trust for the Lenders. The rights, powers, authorities and discretions given to the Agent under or in connection with the Loan Documents shall be supplemental to the Trustee Act 1925 and the Trustee Act 2000 and in addition to any which may be vested in the Agent in relation to the trusts constituted by the Loan Documents. Where there are any inconsistencies between the Trustee Act 1925

or the Trustee Act 2000 and the provisions of this Agreement, the provisions of this Agreement shall, to the extent permitted by law and regulation, prevail and, in the case of any inconsistency with the Trustee Act 2000, the provisions of this Agreement shall constitute a restriction or exclusion for the purposes of that Act.

(c) Neither Agent nor any of its officers, directors, employees, attorneys, representatives or agents shall be liable to Lenders for any action taken or omitted hereunder or under any of the other Loan Documents or in connection herewith or therewith unless caused by its or their gross negligence or willful misconduct. No provision of this Agreement or of any other Loan Document shall be deemed to impose any duty or obligation on Agent to perform any act or

to exercise any power in any jurisdiction in which it shall be illegal, or shall be deemed to impose any duty or obligation on Agent to perform any act or exercise any right or power if such performance or exercise (a) would subject Agent to a Tax in a jurisdiction where it is not then subject to a Tax or (b) would require Agent to qualify to do business in any jurisdiction where it is not so qualified. Without prejudice to the generality of the foregoing, no Lender shall have any right of action whatsoever against Agent as a result of Agent acting or (where so instructed) refraining from acting under this Agreement or under any of the other Loan Documents in accordance with the instructions of Lenders. Agent shall be entitled to refrain from exercising any power, discretion or authority vested in it under this Agreement unless and until it has obtained the written instructions of Lenders. The agency hereby created shall in no way impair or affect any of the rights and powers of, or impose any duties or obligations upon Agent in its individual capacity. With respect to its participation in the Loan Agreement hereunder, Agent shall have the same rights and powers hereunder as any other Lender and may exercise the same rights and powers as though it were not performing the duties and functions delegated to it hereunder and the term "Lender" or "Lenders" or any similar term shall unless the context clearly indicates otherwise include Agent in its individual capacity.

(d) Agent may rely, and shall be fully protected in acting, or refraining to act, upon, any resolution, statement, certificate, instrument, opinion, report, notice, request, consent, order, bond or other paper or document that it has no reason to believe to be other than genuine and to have been signed or presented by the proper party or parties or, in the case of cables, telecopies and telexes, to have been sent by the proper party or parties. In the absence of its gross negligence or willful misconduct, Agent may conclusively rely, as to the truth of the statements and the correctness of the opinions expressed therein, upon any certificates or opinions furnished to Agent and conforming to the requirements of this Agreement or any of the other Loan Documents. Agent may consult with counsel, and any opinion or legal advice of such counsel shall be full and complete authorization and protection in respect of any action taken, not taken or suffered by Agent hereunder or under any Loan Documents in accordance therewith. Agent shall have the right at any time to seek instructions concerning the administration of the Collateral from any court of competent jurisdiction. Agent shall not be under any obligation to exercise any of the rights or powers granted to Agent by this Agreement and the other Loan Documents at the request or direction of Lenders unless Agent shall have been provided by Lenders with adequate security and indemnity against the costs, expenses and liabilities that may be incurred by it in compliance with such request or direction.

(e) Each Lender agrees to indemnify Agent in its capacity as such (to the extent not reimbursed by Borrower and without limiting the obligation of Borrower to do so), according to its respective Term Commitment percentages (based upon the total outstanding Term Commitments) in effect on the date on which indemnification is sought under this Addendum 3, from and against any and all liabilities, obligations, losses, damages, penalties, actions, judgments, suits, costs, expenses or disbursements of any kind whatsoever that may at any time be imposed on, incurred by or asserted

against Agent in any way relating to or arising out of, this Agreement, any of the other Loan Documents or any documents contemplated by or referred to herein or therein or the transactions contemplated hereby or thereby or any action taken or omitted by Agent under or in connection with any of the foregoing; The agreements in this Section shall survive the payment of the Loans and all other amounts payable hereunder.

(f) To the extent not reimbursed either by Borrower or from the application of Collateral proceeds pursuant to Section 10.2, a Lender (the "Indemnified Lender") shall be indemnified by the other Lender (an "Indemnifying Lender"), on a several basis in proportion to each Lender's pro rata portion of the Term Commitment, and each Indemnifying Lender agrees to

reimburse the Indemnified Lender for the Indemnifying Lender's pro rata share of the following items (an "Indemnified Payment"):

(i) all reasonable out-of-pocket costs and expenses of the Indemnified Lender incurred by the Indemnified Lender in connection with the discharge of its activities under this Agreement or the Loan Agreement, including reasonable legal expenses and attorneys' fees; provided, that the Indemnified Lender shall consult with the other Lender regarding the incurrence of such costs and expenses at reasonable intervals (but not more often than monthly) and any such reasonable costs and expenses shall be "Claims" hereunder notwithstanding any disagreement by the other Lender as to their incurrence; and

(ii) from and against any and all liabilities, obligations, losses, damages, penalties, actions, judgments, suits, costs, expenses or disbursements of any kind or nature whatsoever, which may be imposed on, incurred by or asserted against the Indemnified Lender in any way relating to or arising out of this Agreement, or any action taken or omitted by the Indemnified Lender hereunder;

provided, however, that the Indemnified Lender shall not be reimbursed or indemnified for an Indemnified Payment, except to the extent that the Indemnified Lender paid more than its ratable share of such payment. All Indemnified Payments as set forth in this clause (e) to an Indemnified Lender are intended to be paid ratably by the other Lender.

(g) Agent in Its Individual Capacity. The Person serving as Agent hereunder shall have the same rights and powers in its capacity as a Lender as any other Lender and may exercise the same as though it were not Agent and the term "Lender" shall, unless otherwise expressly indicated or unless the context otherwise requires, include each such Person serving as Agent hereunder in its individual capacity.

(h) Exculpatory Provisions. Agent shall have no duties or obligations except those expressly set forth herein and in the other Loan Documents. Without limiting the generality of the foregoing, Agent shall not:

(i) be subject to any fiduciary, advisory or other implied duties, regardless of whether any Default or any Event of Default has occurred and is continuing;

(ii) have any duty to take any discretionary action or exercise any discretionary powers, except discretionary rights and powers expressly contemplated hereby or by the other Loan Documents that Agent is required to exercise as directed in writing by Lenders, provided that Agent shall not be required to take any action that, in its opinion or the opinion of its counsel, may expose Agent to liability or that is contrary to any Loan Document or applicable law; and

(iii) except as expressly set forth herein and in the other Loan Documents, have any duty to disclose, and Agent shall not be liable for the failure to disclose, any information relating to Borrower or any of its Affiliates that is communicated to or obtained by any Person serving as Agent or any of its Affiliates in any capacity.

(i) In connection with any exercise of Enforcement Actions hereunder, neither any Agent nor any Lender or any of its partners, or any of their respective directors, officers, employees, attorneys, accountants, or agents shall be liable as such for any action taken or omitted by it or

them, except for its or their own gross negligence or willful misconduct with respect to its duties under this Agreement.

(j) Each Lender and Agent may execute any of its powers and perform any duties hereunder either directly or by or through agents or attorneys-in-fact. Each Lender and Agent shall be entitled to advice of counsel concerning all matters pertaining to such powers and duties. No Lender or Agent shall be responsible for the negligence or misconduct of any agents or attorneys-in-fact selected by it, if the selection of such agents or attorneys-in-fact was done without gross negligence or willful misconduct.

(k) Each Lender agrees that it will make its own independent investigation of the financial condition and affairs of Borrower in connection with the making of Term Loan Advances pursuant to the Loan Agreement and has made and shall continue to make its own appraisal of the creditworthiness of Borrower. Neither Agent nor any Lender shall have any duty or responsibility either initially or on a continuing basis to make any such investigation or any such appraisal on behalf of all Lenders or to provide the other Lenders with any credit or other information with respect thereto whether coming into its possession before the date hereof or any time or times thereafter and shall further have no responsibility with respect to the accuracy of or the completeness of the information provided to Lenders by Borrower.

ADDENDUM 4 to LOAN AND SECURITY AGREEMENT

Multiple Borrower Terms

(a) Borrower's Agent. Each Borrower hereby irrevocably appoints Company as its agent, attorney-in-fact and legal representative for all purposes, including requesting disbursement of the Term Loan and receiving account statements and other notices and communications to Borrowers (or any of them) from Agent or any Lender. Agent may rely, and shall be fully protected in relying, on any request for the Term Loan Advances, disbursement instruction, report, information or any other notice or communication made or given by Company, whether in its own name or on behalf of one or more of the other Borrowers, and Agent shall not have any obligation to make any inquiry or request any confirmation from or on behalf of any other Borrower as to the binding effect on it of any such request, instruction, report, information, other notice or communication, nor shall the joint and several character of Borrowers' obligations hereunder be affected thereby.

(b) Waivers. Each Borrower hereby waives, to the maximum extent permitted by applicable law: (i) any right to require Agent to institute suit against, or to exhaust its rights and remedies against, any other Borrower or any other person, or to proceed against any property of any kind which secures all or any part of the Secured Obligations, or to exercise any right of offset or other right with respect to any reserves, credits or deposit accounts held by or maintained with Agent or any Indebtedness of Agent or any Lender to any other Borrower, or to exercise any other right or power, or pursue any other remedy Agent or any Lender may have; (ii) any defense arising by reason of any disability or other defense of any other Borrower or any guarantor or any endorser, co-maker or other person, or by reason of the cessation from any cause whatsoever of any liability of any other Borrower or any guarantor or any endorser, co-maker or other person, with respect to all or any part of the Secured Obligations, or by reason of any act or omission of Agent or others which directly or indirectly results in the discharge or release of any other Borrower or any guarantor or any other person or any Secured Obligations or any security therefor, whether by operation of law or otherwise; (iii) any defense arising by reason of any failure of Agent to obtain, perfect, maintain or keep in force any Lien on, any property of any Borrower or any other person; (iv) any defense based upon or arising out of any bankruptcy, insolvency, reorganization, arrangement, readjustment of debt, liquidation or dissolution proceeding commenced by or against any other Borrower or any guarantor or any endorser, co-maker or other person, including without limitation any discharge of, or bar against collecting, any of the Secured Obligations (including without limitation any interest thereon), in or as a result of any such proceeding. Until all of the Secured Obligations have been paid, performed, and discharged in full, nothing shall discharge or satisfy the liability of any Borrower hereunder except the full performance and payment of all of the Secured Obligations (other than any inchoate indemnity obligations and any other obligations which, by their terms, are to survive the termination of this Agreement). If any claim is ever made upon Agent for repayment or

recovery of any amount or amounts received by Agent in payment of or on account of any of the Secured Obligations, because of any claim that any such payment constituted a preferential transfer or fraudulent conveyance, or for any other reason whatsoever, and Agent repays all or part of said amount by reason of any judgment, decree or order of any court or administrative body having jurisdiction over Agent or any of its property, or by reason of any settlement or compromise of any such claim effected by Agent with any such claimant (including without limitation the any other Borrower), then and in any such event, each Borrower agrees that any such judgment, decree, order, settlement and compromise shall be binding upon such Borrower, notwithstanding any revocation or release of this Agreement or the cancellation of any note or other

instrument evidencing any of the Secured Obligations, or any release of any of the Secured Obligations, and each Borrower shall be and remain liable to Agent and Lenders under this Agreement for the amount so repaid or recovered, to the same extent as if such amount had never originally been received by Agent or any Lender, and the provisions of this sentence shall survive, and continue in effect, notwithstanding any revocation or release of this Agreement. Each Borrower hereby expressly and unconditionally waives to the maximum extent permitted by applicable law all rights of subrogation, reimbursement and indemnity of every kind against any other Borrower, and all rights of recourse to any assets or property of any other Borrower, and all rights to any collateral or security held for the payment and performance of any Secured Obligations, including (but not limited to) any of the foregoing rights which Borrower may have under any present or future document or agreement with any other Borrower or other person, and including (but not limited to) any of the foregoing rights which any Borrower may have under any equitable doctrine of subrogation, implied contract, or unjust enrichment, or any other equitable or legal doctrine.

(c) Consents. Each Borrower hereby consents and agrees that, without notice to or by Borrower and without affecting or impairing in any way the obligations or liability of Borrower hereunder, Agent may, from time to time before or after revocation of this Agreement, do any one or more of the following in its sole and absolute discretion: (i) accept partial payments of, compromise or settle, renew, extend the time for the payment, discharge, or performance of, refuse to enforce, and release all or any parties to, any or all of the Secured Obligations; (ii) grant any other indulgence to any Borrower or any other Person in respect of any or all of the Secured Obligations or any other matter; (iii) accept, release, waive, surrender, enforce, exchange, modify, impair, or extend the time for the performance, discharge, or payment of, any and all property of any kind securing any or all of the Secured Obligations or any guaranty of any or all of the Secured Obligations, or on which Agent at any time may have a Lien, or refuse to enforce its rights or make any compromise or settlement or agreement therefor in respect of any or all of such property; (iv) substitute or add, or take any action or omit to take any action which results in the release of, any one or more other Borrowers or any endorsers or guarantors of all or any part of the Secured Obligations, including, without limitation one or more parties to this Agreement, regardless of any destruction or impairment of any right of contribution or other right of Borrower; (v) apply any sums received from any other Borrower, any guarantor, endorser, or co-signer, or from the disposition of any Collateral or security, to any Indebtedness whatsoever owing from such person or secured by such Collateral or security, in such manner and order as Agent determines in its sole discretion, and regardless of whether such Indebtedness is part of the Secured Obligations, is secured, or is due and payable. Each Borrower consents and agrees that Agent shall be under no obligation to marshal any assets in favor of Borrower, or against or in payment of any or all of the Secured Obligations. Each Borrower further consents and agrees that Agent shall have no duties or responsibilities whatsoever with respect to any property securing any or all of the Secured Obligations. Without limiting the generality of the foregoing, Agent shall have no obligation to monitor, verify, audit, examine, or obtain or maintain any insurance with respect to, any property securing any or all of the Secured Obligations.

(d) Independent Liability. Each Borrower hereby agrees that one or more successive or concurrent actions may be brought hereon against such Borrower, in the same action in which any other Borrower may be sued or in separate actions, as often as deemed advisable by Agent. Each Borrower is fully aware of the financial condition of each other Borrower and is executing and delivering this Agreement based solely upon its own independent investigation of all matters pertinent hereto, and such Borrower is not relying in any manner upon any representation or statement of Agent or any Lender with respect thereto. Each Borrower represents and warrants that it is in a position to obtain, and each Borrower hereby assumes full responsibility for obtaining, any

additional information concerning any other Borrower's financial condition and any other matter pertinent hereto as such Borrower may desire, and such Borrower is not relying upon or expecting Agent to furnish to it any information now or hereafter in Agent's possession concerning the same or any other matter. Each Borrower may, acting singly, request Advances hereunder. Each Borrower hereby appoints the other as agent for the other for all purposes hereunder, including with respect to requesting Advances hereunder. Each Borrower hereunder shall be jointly and severally obligated to repay all Advances made hereunder, regardless of which Borrower actually receives said Advances, as if each Borrower hereunder directly received all Advances. Each Borrower waives to the maximum extent permitted by applicable law (a) any suretyship defenses available to it under the Code or any other applicable law, including, without limitation, the benefit of California Civil Code Section 2815 permitting revocation as to future transactions and the benefit of California Civil Code Sections 1432, 2809, 2810, 2819, 2839, 2845, 2847, 2848, 2849, 2850, and 2899 and 3433, and (b) any right to require Agent or any Lender to: (i) proceed against any Borrower or any other person; (ii) proceed against or exhaust any security; or (iii) pursue any other remedy. Agent and or any Lender may exercise or not exercise any right or remedy it has against any Borrower or any security it holds (including the right to foreclose by judicial or non-judicial sale) without affecting any Borrower's liability. Notwithstanding any other provision of this Agreement or other related document, until all Secured Obligations (other than inchoate indemnity obligations which, by their terms, survive termination of this Agreement) have been fully repaid and performed and the Loan Documents have been terminated, each Borrower irrevocably waives to the maximum extent permitted by law all rights that it may have at law or in equity (including, without limitation, any law subrogating Borrower to the rights of Agent and the Lenders under this Agreement) to seek contribution, indemnification or any other form of reimbursement from any other Borrower, or any other Person now or hereafter primarily or secondarily liable for any of the Secured Obligations, for any payment made by Borrower with respect to the Secured Obligations in connection with this Agreement or otherwise and all rights that it might have to benefit from, or to participate in, any security for the Secured Obligations as a result of any payment made by Borrower with respect to the Secured Obligations in connection with this Agreement or otherwise. Any agreement providing for indemnification, reimbursement or any other arrangement prohibited under this Section shall be null and void. If any payment is made to a Borrower in contravention of this Section, such Borrower shall hold such payment in trust for Agent and the Lenders and such payment shall be promptly delivered to Agent for application to the Secured Obligations, whether matured or unmatured.

(e) Subordination. All Indebtedness of a Borrower now or hereafter arising held by another Borrower is subordinated to the Secured Obligations and Borrower holding the Indebtedness shall take all actions reasonably requested by Agent to effect, to enforce and to give notice of such subordination.

(f) Service of Process. Parent and each Subsidiary that is organized outside of the United States of America shall appoint Adaptimmune LLC, a Delaware limited liability company, of 351 Rouse Boulevard, Philadelphia, PA 19112, or other

agent acceptable to Agent, as its agent for the purpose of accepting service of any process in the United States of America, evidenced by the acceptance of such appointment by Adaptimmune LLC pursuant to its corporate authorizations. Each Loan Party shall take all actions, including payment of fees to such agent, to ensure that each such appointment remains effective at all times.

In the event that such other active pharmaceutical ingredient(s) are sold separately in a country in the same dosage as contained in the Combination but such Licensed Product is not, the Net Sales for such Licensed Product shall be calculated by multiplying the Net Sales for such Combination by the fraction (C-B)/C, where "B" is the gross amount invoiced for such other active pharmaceutical ingredient(s) sold separately in such country in the same dosage as contained in the Combination, and "C" is the gross amount invoiced in cush country for the Combination.

In the event that neither such Licensed Product nor such other active pharmaceutical ingredient(s) are sold separately in a country in the same dosage as contained in the Combination, Net Sales for royalty calculations shall be based on the fair market value of the Licensed Product as contained in the Combination mutually agreed between the Parties. 8.1.2 Galapagos Regulatory Responsibilities. Following the Option Exercise Date and subject to completion of the Technology Transfer under Section 5.3 (Technology Transfer Activities), Galapagos (or its Affiliates or other designees) will have the sole right to (i) prepare, obtain, and maintain Regulatory Approvals and other Regulatory Materials for Licensed Products in the Field in the Territory (including the setting of the overall regulatory strategy therefor), and (ii) conduct communications with Regulatory Authorities for Licensed Products in the Field in the Territory. Adaptimmune will provide reasonable support and assistance to Galapagos as may be reasonably requested by Galapagos, in preparing, obtaining, and maintaining Regulatory Approvals and other Regulatory Materials for Licensed Products. (***)

8.2. Interactions with Regulatory Authorities.

8.2.1 Adaptimmune Rights. During the Collaboration Period, Adaptimmune (or its Affiliates or other designees) will have the sole right to communicate and otherwise interact with Regulatory Authorities with respect to the IND for the Collaboration Product in the Collaboration Trial; *provided* that as and to the extent reasonably requested by Adaptimmune, Galapagos will, (***), interact with Regulatory Authorities (including making such regulatory filings and performing such other regulatory functions) in connection with such IND for the Collaboration Product in the Collaboration Trial. Adaptimmune will share with Galapagos any material correspondence with Regulatory Authorities with respect to the Collaboration Trial and will also share with Galapagos any draft responses to any material correspondence for review (to the extent reasonably possible). Notwithstanding the foregoing, any communication or

interaction with the Regulatory Authorities (including any response to any correspondence with the Regulatory Authorities) directly related to the Galapagos Manufacturing Platform will be subject to Galapagos' prior written approval (to the extent reasonably possible).

8.2.2 **Galapagos Rights**. Following the Option Exercise Date and subject to completion of the Technology Transfer under Section 5.3 (Technology Transfer Activities), Galapagos (or

its Affiliates or other designees) will have the sole right to communicate and otherwise interact with Regulatory Authorities with respect to any Licensed Product, including with respect to preparing, obtaining and maintaining any Regulatory Approvals and other Regulatory Materials in connection therewith; *provided* that Adaptimmune will provide reasonable support and assistance to Galapagos as may be reasonably requested by Galapagos, in preparing, obtaining and maintaining Regulatory Approvals and other Regulatory Materials for Licensed Products. (***).

8.2.3 **Safety Information Exchange**. Each Party will fulfill its requirements for pharmacovigilance regulatory compliance. A mutually agreed pharmacovigilance agreement will be signed between the Parties, detailing each Party's responsibilities. This will be done at the latest before the start of the Collaboration Trial. For the avoidance of doubt, for any pharmacovigilance matters (including in relation to safety data) the pharmacovigilance agreement shall take precedence over this Agreement.

8.3. **Adaptimmune Product**. For the avoidance of doubt, during the Term, Adaptimmune (or its Affiliates or other designees) will have the sole right to communicate and otherwise interact with Regulatory Authorities with respect to Adaptimmune's Development and other Exploitation of the Adaptimmune Product.

ARTICLE 9
MANUFACTURING

9.1. **Manufacturing and Supply of Collaboration Products**.

9.1.1 **Collaboration Product**. As part of its Collaboration Activities, Galapagos, either itself or through its Affiliates or Third Parties, will Manufacture (and will control all aspects of the Manufacturing of) and supply the Collaboration Product (except for the Licensed TCR Vector as provided for in Section 9.1.2 (Licensed TCR Vector)). Galapagos will be responsible for such Manufacturing and all associated Manufacturing activities, including deployment and maintenance of the Galapagos Manufacturing Platform, in compliance with all Applicable Laws (including, for clarity, all regulatory and quality requirements) and the applicable Clinical Supply Agreement.

9.1.2 **Licensed TCR Vector**. As part of its Collaboration Activities, Adaptimmune, either itself or through its Affiliates or Third Parties, will Manufacture (and will control all aspects of the Manufacturing of) and supply the Licensed TCR Vector for use in the Manufacturing of the Collaboration Products by Galapagos. Adaptimmune will be responsible for such Manufacturing and all associated Manufacturing activities in compliance with all Applicable Laws (including, for clarity all regulatory and quality requirements) and the applicable Clinical Supply Agreement.

9.1.3 **Clinical Supply Agreement**. As soon as reasonably possible after the Effective Date, the Parties will negotiate in good faith and enter into clinical supply agreements (together with the corresponding quality agreement, the "**Clinical Supply Agreement**"), pursuant to which, during the Collaboration Period, (a) Adaptimmune will Manufacture and supply the Licensed TCR

Vector, and (b) Galapagos will Manufacture and supply the Collaboration Product. The terms of the Clinical Supply Agreement will (i) be consistent with the terms of this Agreement, and (ii) incorporate customary supply terms including remedies in the event of supply shortfalls, shipment, and delivery terms for the Licensed TCR Vector and the Collaboration Product.

9.2. **Manufacture and Supply of Licensed Products**. Following the Option Exercise Date and subject to completion of the required Technology Transfer under Section 5.3 (Technology Transfer Activities), Galapagos, either itself or with or through Third Party(ies), will be solely responsible for, at its own cost and expense, the Manufacture of the Licensed TCR Vector and the Licensed Products for the Exploitation of the Licensed Products (including for use in Clinical Trials) in the Field in the Territory. For the Manufacture of the Licensed TCR Vector, Galapagos may elect to either Manufacture the Licensed TCR Vector itself or by any of its Affiliates or, subject to Section 4.3 (Subcontracting), to have the Licensed TCR Vector Manufactured by a Third Party contract manufacturer selected by Galapagos and reasonably acceptable to Adaptimmune (such acceptance not to be unreasonably withheld, conditioned, or delayed). Approval of such Third Party contract manufacturer may be requested by Galapagos as part of the Pre-Technology Transfer Activities. Notwithstanding anything herein to the contrary, Adaptimmune will retain the right to conduct and remain responsible for all manufacturing activities necessary for the exploitation of its Adaptimmune Product Rights.

FINANCIAL TERMS

10.1. **Upfront Payment**. Within 10 Business Days following the Effective Date, Galapagos will pay Adaptimmune a non-refundable, non-creditable, one-time payment of $70,000,000.

10.2. **Development Fees**. Galapagos will pay Adaptimmune a non-refundable, non-creditable, one-time payment of (a) $15,000,000 within (***) Business Days following the Effective Date and (b) $15,000,000 within (***) days following receipt of written confirmation from Adaptimmune that the first patient was infused with the Collaboration Product in the Collaboration Trial (such payments together being the "**Development Fee**"), which confirmation may be provided to the JSC as an update in the applicable JSC meeting or in accordance with Section 16.11 (Notices).

10.3. **Option Exercise Fee**. Within (***) Business Days following Galapagos' delivery to Adaptimmune of the Option Exercise Notice, Galapagos will pay Adaptimmune a non-refundable, non-creditable, one-time payment of (a) $(***) if Galapagos exercises the Option for one Indication, (b) $(***) if Galapagos exercises the Option for two Indications, or (c) $100,000,000 if Galapagos exercises the Option for all Indications (in each case, the "**Option Exercise Fee**").

10.4. **Milestones**.

10.4.1 Development Milestones.

(a) **Development Milestone Events and Payments**. Upon the first achievement by Galapagos, its Affiliate, or Sublicensee of a development milestone event set forth in Table 10.4.1 (each such event, a "**Development Milestone Event**"), Galapagos will pay to Adaptimmune the corresponding one-time, non-refundable development milestone payment (each such payment, a "**Development Milestone Payment**").

(b) **Notification of Achievement and Payment**. Galapagos will notify Adaptimmune upon the first achievement of each Development Milestone Event and pay Adaptimmune the corresponding Development Milestone Payment within (***) days following such achievement by Galapagos or any of its Affiliates or Sublicensees. Each Development Milestone Payment will be payable only once on the first occurrence of the corresponding Development Milestone Event for the first Licensed Product, regardless of the number of Licensed Products that achieve such applicable Development Milestone Event. In no event will the aggregate Development Milestone Payments payable under Section 10.4.1(a) (Development Milestone Events and Payments) exceed $(***).

(c) **Skipped Development Milestones**. If, at any time, the achievement of a later Development Milestone Event has occurred with respect to the first Licensed Product for a specific Indication, and any preceding Development Milestone Event for such first Licensed Product in such country for such Indication has not yet been achieved, become due, or been paid, then each such skipped Development Milestone Payment will become due and payable concurrently with Development Milestone Payment corresponding to such subsequent Development Milestone Event that has been achieved for such first Licensed Product in such country for such Indication. For example, if Development Milestone Event #5 has been achieved but Development Milestone Event #2 has not been achieved, then, upon achievement of Development Milestone Event #5, the Development Milestone Payment corresponding to both Development Milestone Event #2 and Development Milestone Event #5 will become due and payable by Galapagos to Adaptimmune.

10.4.2 Regulatory Milestones.

(a) **Regulatory Milestone Events and Payments**. Upon the first achievement by Galapagos, its Affiliate, or Sublicensee of a regulatory milestone event set forth in Table 10.4.2 (each such event, a "**Regulatory Milestone Event**"), Galapagos will pay to Adaptimmune the corresponding one-time, non-refundable regulatory milestone payment (each such payment, a "**Regulatory Milestone Payment**"). For purposes of this Section 10.4.2(a) (Regulatory Milestone Events and Payments) "Regulatory Approval" will mean the earlier of (i) receipt of pricing and reimbursement approval from the applicable Regulatory Authority and (ii) three months following

receipt of Regulatory Approval (excluding pricing and reimbursement approval) from the applicable Regulatory Authority.

Each Regulatory Milestone Payment will be payable only once on the first occurrence of the corresponding Regulatory Milestone Event for the first Licensed Product, regardless of the number of Licensed Products that achieve such applicable Regulatory Milestone Event. 10.4.3 Sales Milestones.

(a) **Sales Milestones Events and Payments**. Upon the first achievement by Galapagos, its Affiliate, or Sublicensee of a sales milestone event set forth in Table 10.4.3 (each such event, a "**Sales Milestone Event**"), Galapagos will pay to Adaptimmune the corresponding one-time, non-refundable sales milestone payment (each such payment, a "**Sales Milestone Payment**").

(b) **Notification of Achievement and Payment**. Galapagos will notify Adaptimmune within (***) days after the end of the Calendar Quarter in which the applicable Sales Milestone Event is first achieved and pay Adaptimmune the corresponding Sales Milestone Payment within (***) days following the end of the applicable Calendar Quarter. Each of the Sales Milestone Payments will be payable only once during the Term regardless of the number of times such milestone is achieved. In no event will the aggregate Sales Milestone Payments payable under Section 10.4.3(a) (Sales Milestone Events and Payments) exceed $(***).

(c) **Achievement of Multiple Sales Milestone Events**. In the event that more than one of the Sales Milestone Events set forth in Table 10.4.3 is exceeded in the same Calendar Year, Galapagos will pay to Adaptimmune each separate Sales Milestone Payment with respect to each such Sales Milestone Event that is exceeded during

such Calendar Year, to the extent such Sales Milestone Payments have not already been paid with respect to a previous Calendar Year.

10.5. Royalties.

10.5.1 Royalty Rate. During the Royalty Term with respect given Licensed Product in a given country, subject to the terms and conditions of this Agreement, Galapagos will pay to Adaptimmune, for each Calendar Year, a tiered royalty ("**Royalties**") on aggregate annual Net Sales of all Licensed Products across all Indications in the Field in the Territory, equal to the portions of Net Sales of such Licensed Products as set forth in Table 10.5 multiplied by the percentage of the applicable royalty rate for such portion ("**Royalty Rate**") set forth in Table 10.5 below.

(***)	(***)
(***)	(***)
(***)	(***)
(***)	(***)

10.5.2 (***)**Royalty Term**. On a Licensed Product-by-Licensed Product and country-by-country basis, Galapagos will pay Adaptimmune the Royalties as set forth in Section 10.5.1 (Royalty Rate) during the period beginning on the date of the First Commercial Sale of such Licensed Product in such country and continuing until the latest to occur of (a) (***) years after the First Commercial Sale of such Licensed Product in such country, (b) the expiration of the last-to-expire Valid Claim of any Adaptimmune CD8 Licensed Patent Right which is also part of the Existing Licensed Patent Rights (including all Patent Rights that claim priority to or share common priority with such Existing Licensed Patent Rights) Covering such Licensed Product or the Licensed TCR (or any part of such Licensed TCR), in such country, and (c) expiration of all Regulatory Exclusivity for such Licensed Product in such country (such period, the "**Royalty Term**"). Subject to the terms and conditions herein, after expiration of the Royalty Term for a Licensed Product in a given country, no further Royalties will be payable in respect of sales of such Licensed Product in such country and thereafter all licenses and rights granted by Adaptimmune to Galapagos under this Agreement with respect to such Licensed Product in such country will automatically become fully paid-up, royalty-free, perpetual, and irrevocable.

10.5.3 Royalty Reductions; Royalty Floor.

(a) **Lack of Valid Claim**. Subject to Section 10.5.3(d) (Cumulative Royalty Reductions), on a Licensed Product-by-Licensed Product basis in the United States, if during any Calendar Quarter during the Royalty Term, all Valid Claims of any Adaptimmune CD8 Licensed Patent Right which is also part of the Existing Licensed Patent Rights Covering such Licensed Product or the Licensed TCR (or any part of such Licensed TCR) have expired in the United States in accordance

with Section 10.5.2(b) but the Royalty Term remains effective under Section 10.5.2(a) and/or (c), then solely for the purpose of calculating the Royalties due under this Section 10.5 (Royalties) the applicable Net Sales with respect to such Licensed Product in the United States will be deemed to be reduced by (***) for the applicable Calendar Quarter.

(b) **Biosimilar Product**. Subject to Section 10.5.3(d) (Cumulative Royalty Reductions), on a Licensed Product-by-Licensed Product and country-by-country basis, if, during any four consecutive Calendar Quarters during the Royalty Term for such Licensed Product in such country, one or more Biosimilar Products are being marketed or sold in such country and such Biosimilar Products, by unit equivalent volume, exceed (***) of the aggregate market share of such Licensed Product together with all such Biosimilar Products (based on the number of units of such Licensed Product and such Biosimilar Products in the aggregate sold in such country prior to such four Calendar Quarters, as reported by a well-known reporting service mutually agreed by the Parties), then, solely for the purpose of calculating the Royalties due under this Section 10.5 (Royalties), the Net Sales with respect to such Licensed Product in such country will be deemed to be reduced by (***) for so long as the requirements set forth in this Section 10.5.3(b) (Biosimilar Products) are satisfied.

(c) **Third Party Rights**. Subject to Section 10.5.3(d) (Cumulative Royalty Reductions), if Galapagos enters into any agreement with a Third Party to obtain a license or other rights to Patent Rights and Know-How related to such Patent Rights from such Third Party that Covers the Licensed Product, the Licensed TCR or the Licensed TCR Vector (or any part of the Licensed Product, the Licensed TCR or the Licensed TCR Vector), excluding however any license or other rights required for the use of the Galapagos Manufacturing Platform or any Licensed TCR Vector Manufacturing process other than the Adaptimmune Licensed TCR Vector Manufacturing process, in the Field in a country in the Territory, then, Galapagos may reduce Royalties otherwise payable to Adaptimmune for Net Sales of such Licensed Product in the Field in such country by (***) of the royalties paid to such Third Party pursuant to such agreement in such Calendar Quarter.

(d) **Cumulative Royalty Reductions**. In no event will the Royalties due to Adaptimmune in any Calendar Quarter with respect to any Licensed Product in the Field in a country in the Territory be reduced by more than (***) as a result of the operation of the reductions contemplated by Section 10.5.3(a) (Lack of Valid Claim), Section 10.5.3(b) (Biosimilar Product), and Section 10.5.3(c) (Third Party Rights) compared to what such Royalties would have been in such Calendar Quarter in such country without such reductions.

10.5.4 Royalty Reports; Royalty Payments. During the Royalty Term, following the First Commercial Sale of a Licensed Product, Galapagos will, within (***) days following the end of each Calendar Quarter, provide to Adaptimmune a written report for such Calendar Quarter setting forth, on a Licensed Product-by-Licensed Product and country-by-country basis, (i) the amount of Net Sales and gross sales of each Licensed Product made by Galapagos and its Affiliates and Sublicensees during such Calendar Quarter for which Royalties are payable, (ii) the number of Licensed Products sold, (iii) Royalties (in Dollars) due on Net Sales for such Calendar Quarter, and (iv) the exchange

rate used to calculate the Royalty amount ("**Royalty Report**"). Galapagos will pay all Royalties due under this Agreement with respect to a Calendar Quarter at the same time the applicable Royalty Report is due.

10.6. Records and Audits. Galapagos and its Affiliates and Sublicensees will maintain complete and accurate records in sufficient detail to permit Adaptimmune to, or have an independent certified public accountant selected by Adaptimmune to, confirm the accuracy of the calculation of any

payment under this Agreement. Upon reasonable prior notice, such records will be available during regular business hours for a period of (***) years from the end of the Calendar Year concerned for examination at Adaptimmune's expense, and not more often than once each Calendar Year, by an independent certified public accountant selected by Adaptimmune and reasonably acceptable to Galapagos (which acceptance will not be unreasonably withheld), for the sole purpose of verifying the accuracy of the financial reports furnished by Galapagos pursuant to this Agreement. Any such auditor will not disclose Confidential Information of Galapagos, except to the extent such disclosure is necessary to verify the accuracy of the financial reports furnished by Galapagos or the amount of payments due under this Agreement. For clarity, the auditor will disclose the Confidential Information of Galapagos to Adaptimmune only to the extent necessary to confirm calculation of payments under this Agreement, as applicable. Adaptimmune will provide Galapagos with a copy of audit report within (***) days from its receipt of such audit report from the accountant. Any amounts shown to be owed but unpaid will be paid within (***) days from the receipt of the copy of audit report by Galapagos, plus interest (as set forth in Section 10.7 (Late Payments)) from the original due date. Any amounts shown to have been overpaid will be creditable and refunded within (***) days from the accountant's report. Adaptimmune will bear the full cost of such audit unless such audit discloses an underpayment of the amount actually owed during the applicable Calendar Year of more than (***) of the amounts actually owed, in which case Galapagos will bear the full cost of such audit.

10.7. **Late Payments**. Any payments that are not paid on or before the date such payments are due under this Agreement will bear interest at an annual rate equal to the lesser of (a) (***), in each case calculated on the number of days such payment is delinquent, compounded monthly; except that, with respect to any disputed payments, no interest payment will be due on the disputed amount until such dispute is resolved and the interest that will be payable thereon will be based on the finally-resolved amount of such payment, calculated from the original date on which the disputed payment was due through the date on which payment is actually made.

10.8. **No Refunds**. Except as expressly provided herein, all payments under this Agreement will be irrevocable, non-refundable, and non-creditable.

10.9. **Payment Method and Exchange Rate**. All amounts payable and calculations under this Agreement will be in Dollars. Each payment to be made to Adaptimmune under this Agreement will be made by bank wire transfer in immediately available funds to such bank account as may be designated in writing by Adaptimmune from time to time. In the case of sales outside the United States, payments received by Galapagos in a currency other than Dollars will be converted to their Dollar equivalent using a rate of exchange which corresponds to the rate of exchange for such currency reported in The Wall Street Journal, Internet U.S. Edition at www.wsj.com as of the last day of the applicable reporting period (or, if unavailable on such date, the first date thereafter on which such rate is available).

10.10. **Taxes**.

10.10.1 **Taxes on Income**. **Taxes on Income; Payments Free of Taxes**. Except as set forth in this Section 10.10 (Taxes), each Party will be solely responsible for the payment of any and all income Taxes levied on account of all payments it

receives under this Agreement. Any and all payments due to Adaptimmune from Galapagos pursuant to this Agreement will be paid without deduction or withholding for any Taxes, except as required by Applicable Laws. If any Applicable Laws require the deduction or withholding of any Tax from any such payment, then Galapagos (or its applicable withholding agent) will be entitled to make such deduction or withholding from its payments. (***).

10.10.2 Tax Cooperation. The Parties agree to cooperate with one another in accordance with Applicable Laws and use reasonable efforts to minimize Tax withholding or similar obligations in respect of royalties, milestone payments, and other payments made by each Party to the other Party under this Agreement. To the extent either Party (the "**Paying Party**") is required to deduct and withhold Taxes on any payment to the other Party (the "**Recipient**"), the Paying Party will (a) pay the full amount of such Taxes to the proper Governmental Authority in a timely manner, and (b) promptly transmit to the Recipient an official tax certificate or other evidence of such payment sufficient to enable the Recipient to claim such payment of Taxes on the Recipient's applicable tax returns. The Paying Party will provide the Recipient with advance notice prior to withholding any Taxes from payments payable to the Recipient and will provide the Recipient with a commercially reasonable period of time to claim an exemption or reduction in otherwise applicable Taxes. The Recipient will provide the Paying Party any tax forms that may be reasonably necessary in order for the Paying Party to not withhold Tax or to withhold Tax at a reduced rate under an applicable bilateral income tax treaty, to the extent the Paying Party is legally able to do so. The Recipient will use reasonable efforts to provide any such tax forms to the Paying Party in advance of the due date. Each Party will provide the other with reasonable assistance to enable the recovery, as permitted by Applicable Law, of withholding Taxes or similar obligations resulting from payments made under this Agreement, such recovery to be for the benefit of the Paying Party if the Paying Party is the Party bearing such withholding Tax under this Section 10.10 (Taxes). In addition, the Parties will cooperate in accordance with Applicable Law to minimize indirect Taxes (such as VAT, sales tax, consumption tax, and other similar Taxes) in connection with this Agreement.

10.10.3 VAT and Other Indirect Taxes. **VAT and Other Indirect Taxes**. All payments or amounts due under this Agreement, whether monetary or non-monetary, are exclusive of VAT, consumption Tax and their equivalents. Any Party receiving a supply under this Agreement, hereby covenants that it will pay any such VAT correctly charged in addition to any amounts due under this Agreement. Where the prevailing legislation requires a VAT reverse charge, then the receiving party covenants that it shall correctly account for VAT in respect of the services received. The supplying Party agrees that it will raise a tax invoice (or equivalent document) to support the charge to VAT. For the purposes of VAT, the services, rights and licenses provided by Adaptimmune under this Agreement shall be considered to be taxed under by Art 44 of Council Directive 2006/112/EC or any equivalent provision in the country of performance if performed outside the European Union and as such will be considered to be taxed for VAT purposes in the country of the recipient. Any supply of goods under this agreement shall be taxed (where applicable) in accordance with the prevailing VAT legislation.

10.10.4 Transaction Based Taxes. All transfer, documentary, sales, use, stamp, registration, and other such taxes, and any conveyance fees, recording charges, and other fees and charges (including any penalties and interest) incurred in connection with consummation of the transactions contemplated hereby, if any, will be borne and paid by the Paying Party. The Parties will

reasonably cooperate in accordance with Applicable Law to minimize transfer taxes in connection with this Agreement.

ARTICLE 11
INTELLECTUAL PROPERTY

11.1. Intellectual Property Ownership.

11.1.1 Background Intellectual Property. As between the Parties, and subject to the licenses granted under this Agreement, (a) Adaptimmune will retain all rights, title, and interests in, to and under all of the Adaptimmune Background IP and (b) Galapagos will retain all rights, title, and interests in, to and under all of the Galapagos Background IP. For clarity, all Know-How created, authored, or otherwise generated by Adaptimmune as a result of the performance of the SURPASS family of Clinical Trials will be Adaptimmune Background IP.

11.1.2 Collaboration IP.

(a) **Disclosure**. During the Term, each Party will promptly disclose to the other Party any potentially patentable Other Collaboration IP as set forth in Article 11 (Intellectual Property) that is conceived, developed, invented, reduced to practice or otherwise generated by or for the disclosing Party as a result of the performance of such Party's Collaboration Activities.

(b) **Platform Improvement IP**. Adaptimmune will own all Adaptimmune Platform Improvement IP, and Galapagos will own all Galapagos Platform Improvement IP.

(c) **Other Collaboration IP**. The Parties will jointly own all Other Collaboration IP, whether invented solely by Adaptimmune, solely by Galapagos, or jointly by the Parties, subject to Article 4 (License Grants). Each Party shall be entitled to use and grant licenses to Third Parties under such Other Collaboration IP without any duty of accounting, recourse, or payment to the other Party, subject to Article 4 (License Grants). To the extent Applicable Law requires either Party to consent to the other Party's use or licensing of the Other Collaboration IP, such Party will, and hereby does, grant such consent.

(d) **Assignment; Cooperation**. Each Party hereby assigns, and will assign, to the other Party an undivided, equal joint right, title, and interest in, to, and under all of such Party's rights, title and interests in, to and under the Other Collaboration IP. The Parties each hereby grant to one another the rights necessary to accomplish the ownership provisions set forth in this Article 11 (Intellectual Property). Each Party will execute such further documentation as may be necessary or appropriate, and provide reasonable assistance and cooperation, to implement the provisions of this Article 11 (Intellectual Property). Each Party will require all of its employees, Affiliates and any Third Parties working pursuant to this Agreement on its behalf, to assign (or otherwise convey rights) to such Party any Patent Rights and rights in Know-How conceived, developed, invented, reduced to practice or otherwise generated by such employee, Affiliate or Third Party, and to cooperate with such Party in connection with obtaining patent protection thereof.

11.1.3 **CREATE Act**. It is the intention of the Parties that this Agreement is a "joint research agreement" as that phrase is defined in Public Law 108-53 (the "**CREATE Act**"). In the event that either Party to this Agreement intends to overcome a rejection of a claimed invention within the Licensed IP pursuant to the provisions of the Create Act, such Party must first obtain the prior written consent of the other Party. Neither Party will invoke this Agreement as a joint research agreement under the CREATE Act to overcome such an objection without the prior written consent of the other Party. If the other Party provides such written consent, such Party will limit any amendment to the specification or statement to the patent office with respect to this Agreement to that which is strictly required by

35 USC § 103(c) and the rules and regulations promulgated thereunder and which is consistent with the terms and conditions of this Agreement. To the extent that the Parties agree that, in order to overcome a rejection of a claimed invention within the Licensed IP pursuant to the provisions of the CREATE Act, the filing of a terminal disclaimer is required or advisable, the Parties will first agree on terms and conditions under which the patent application subject to such terminal disclaimer and the patent or application over which such application is disclaimed will be jointly enforced, to the extent that the Parties have not previously agreed to such terms and conditions.

11.2. Patent Prosecution.

11.2.1 Sole IP. The Party that solely owns the applicable Intellectual Property described in Section 11.1 (Intellectual Property Ownership) will, at its sole discretion and expense, have the sole right (but not the obligation) to Prosecute and Maintain all Patent Rights included in such Intellectual Property worldwide (each a "**Sole Prosecuted Patent**"), save as further described in this Section 11.2 (Patent Prosecution).

11.2.2 Joint IP. Galapagos will, at its sole discretion and expense, have the sole right (but not the obligation) to Prosecute and Maintain all Other Collaboration Patent Rights worldwide as further described in this Section 11.2 (Patent Prosecution).

11.2.3 Adaptimmune. Subject to Section 11.2.5 (Divisional Patent Rights), Adaptimmune will keep Galapagos reasonably and regularly informed of the status of the Prosecution and Maintenance of the Licensed Patent Rights other than the Other Collaboration Patent Rights ("**Adaptimmune Prosecuted Patent Rights**"), and will promptly provide Galapagos with copies of all material correspondence received from any patent authority in connection therewith. In addition, Adaptimmune will promptly provide Galapagos with drafts of all proposed material filings and material correspondence to any patent authority with respect to the Adaptimmune Prosecuted Patent Rights for Galapagos' review and comment prior to the submission of such proposed filings or correspondence, and will reasonably consider Galapagos' comments in good faith. Galapagos will provide all reasonable cooperation and assistance to Adaptimmune at Adaptimmune's reasonable request and at Adaptimmune's expense in Prosecution and Maintenance of the Adaptimmune Prosecuted Patent Rights, including making data, reports, and scientific personnel reasonably available to prepare and prosecute patent applications. If Adaptimmune elects not to Prosecute and Maintain any Adaptimmune Prosecuted Patent Rights (including by deciding not to file any patent application, other than in the case of choice of counties in relation to which any patent application is filed or perfected (after the filing of a priority or PCT or equivalent patent application) and providing that such country decision is taken in accordance with Adaptimmune's normal patent prosecution processes), and such Adaptimmune Prosecuted Patent Right Covers any Licensed Product and such decision is not based on a desire to maintain the inventions set forth in such Patent Right as Confidential Information, then Adaptimmune will provide at least (***) days' prior written notice to Galapagos. Thereafter, Galapagos will have the right, but not the

obligation, to Prosecute and Maintain such Adaptimmune Prosecuted Patent Rights, at its sole expense and in its sole discretion, and Galapagos will have the right to elect to require transfer of ownership of rights of any such Adaptimmune Prosecuted Patent Right to Galapagos if that Adaptimmune Prosecuted Patent Right relates solely to Licensed Products (i.e., it Covers the Licensed Product and does not Cover any other products or TCR sequences or vectors for other TCR sequences), at Galapagos' sole discretion and expense ("**Galapagos Step-In Right**"). Adaptimmune will thereafter provide all

reasonable cooperation and assistance to Galapagos at Galapagos' reasonable request and at Galapagos' expense to transfer such ownership to Galapagos and in connection with the Prosecution and Maintenance of such transferred Adaptimmune Prosecuted Patent Rights, including making data, reports, and scientific personnel reasonably available to prepare and prosecute patent applications. In such event, however, such transferred Adaptimmune Prosecuted Patent Right will remain a Licensed Patent Right for the purposes of the definition of Valid Claim and the royalty provisions of this Agreement (subject to all other requirements set forth therein).

11.2.4 **Galapagos**. Subject to Section 11.2.5 (Divisional Patent Rights), Galapagos will, at its sole discretion and expense, have the first right (but not the obligation) to Prosecute and Maintain the Other Collaboration Patent Rights ("**Galapagos Prosecuted Patent Rights**"). Galapagos will keep Adaptimmune reasonably and regularly informed of the status of the Prosecution and Maintenance of the Galapagos Prosecuted Patent Rights and will promptly provide Adaptimmune with copies of all material correspondence received from any patent authority in connection therewith. In addition, Galapagos will promptly provide Adaptimmune with drafts of all proposed material filings and material correspondence to any patent authority with respect to the Galapagos Prosecuted Patent Rights for Adaptimmune's review and comment prior to the submission of such proposed filings and correspondence, and will reasonably consider Adaptimmune's comments in good faith with respect to those inventions which are invented solely or jointly by Adaptimmune, and will remove any Confidential Information of Adaptimmune from such proposed filings and correspondence at Adaptimmune's request. Adaptimmune will provide all reasonable cooperation and assistance to Galapagos at Galapagos' reasonable request and at Adaptimmune's expense in Prosecution and Maintenance of the Galapagos Prosecuted Patent Rights, including making data, reports, and scientific personnel reasonably available to prepare and prosecute patent applications. If Galapagos elects not to Prosecute and Maintain any Galapagos Prosecuted Patent Rights (including by deciding not to file any patent application claiming any Other Collaboration IP, other than in the case of choice of countries in relation to which any patent application is filed or perfected (after the filing of a priority or PCT or equivalent patent application) and providing that such country decision is taken in accordance with Galapagos' normal patent prosecution processes) and such decision is not based on a desire to maintain the inventions set forth in such Galapagos Prosecuted Patent Right as Confidential Information,, then Galapagos will provide at least (***) days' written notice to Adaptimmune. Thereafter, Adaptimmune will have the right, but not the obligation, to Prosecute and Maintain such Galapagos Prosecuted Patent Rights, at its sole expense and in its sole discretion, and Adaptimmune will have the right to elect to require transfer of ownership or rights of any such Galapagos Prosecuted Patent Rights if such Galapagos Prosecuted Patent Rights relates solely to an invention which is invented solely or jointly by Adaptimmune at Adaptimmune's sole discretion and expense ("**Adaptimmune Step-In Right**"). Galapagos will thereafter provide all reasonable cooperation and assistance to Adaptimmune at Adaptimmune's reasonable request and at Adaptimmune's expense to transfer such ownership to Adaptimmune and in connection with the Prosecution and Maintenance of

such transferred Galapagos Prosecuted Patent Rights, including making data, reports, and scientific personnel reasonably available to prepare and prosecute patent applications.

11.2.5 Divisional Patent Rights. Adaptimmune and Galapagos will work together after the Effective Date to draft and file as soon as possible a divisional or continuation patent application that claims priority to an Existing Licensed Patent Right (***) but that is specific to the Licensed Product in that it Covers the sequence of the Licensed TCR

(including the CD8 sub-unit) (each such application a "**Divisional Patent Application**", and such application and all Patent Rights claiming priority thereto or issuing therefrom through the world the "**Divisional Patent Rights**"), as follows:

(a) Prior to the Option Exercise Date, Adaptimmune will draft such Divisional Patent Application and share it with Galapagos for its comment and approval. Once Galapagos has approved such Divisional Patent Application, Adaptimmune will file the Divisional Patent Application, and on such filing the corresponding Divisional Patent Rights will constitute an Adaptimmune Prosecuted Patent Right under Section 11.2.3 (including as being subject to the Galapagos Step-In Right), save as otherwise provided in this Section 11.2.5.

(b) Following the Option Exercise Date, Galapagos will, at its sole discretion and expense, have the first right (but not the obligation) to Prosecute and Maintain the Divisional Patent Rights, and the Divisional Patent Rights will constitute Galapagos Prosecuted Patent Rights (including as being subject to the Adaptimmune Step-In Right), save as otherwise provided in this Section 11.2.5 (Divisional Patent Rights).

(c) Following the Option Exercise Date, the Parties will (through their respective patent counsels and advisors) collaborate in good faith to (i) jointly review any filings, responses, and other correspondence to any patent office related to any Divisional Patent Right or any Existing Licensed Patent Right to which such Divisional Patent Right claims priority (or share common priority) prior to it being provided to the applicable patent office and (ii) to ensure (to the greatest extent possible) that Adaptimmune's Prosecution and Maintenance of the Adaptimmune Prosecuted Patent Rights does not adversely affect Galapagos' ability to Prosecute and Maintain and enforce the Divisional Patent Rights and Galapagos' Prosecution and Maintenance of the Divisional Patent Rights do not adversely affect Adaptimmune's ability to Prosecute and Maintain and enforce the Adaptimmune Prosecuted Patent Rights.

11.3. Enforcement.

11.3.1 Notice. Each Party will promptly notify, in writing, the other Party upon learning of any actual or suspected infringement (including any claim for non-infringement of the Licensed IP), misappropriation or other violation of the Licensed IP by the manufacture, commercialization, use, import, export, offer for sale or sale by a Third Party of a product that is competitive with one or more Licensed Products Developed or otherwise Exploited by Galapagos (each an "**Infringement**"). At the request of the Party receiving such notice, the other Party will use commercially reasonable efforts to provide all evidence in its possession pertaining to the actual or suspected Infringement or claim that it can disclose without breach of a pre-existing obligation to a Third Party or waiver of privilege.

11.3.2 Enforcement Actions. The Parties will consult as to potential strategies to terminate suspected or potential Infringement, including by initiating IPRs, post-grant reviews, oppositions, or other actions against a Third Party's Patent Right that interferes with the Licensed IP (each IPR, post-grant review, opposition, or other action, an "**Opposition Proceeding**"), consistent with the overall goals of this Agreement. (***).

(***)

11.3.3 **Settlement**. The Party controlling any enforcement action described in Section 11.3 (Enforcement) (an "**Enforcement**"), at its sole discretion, may take reasonable actions to terminate any alleged Infringement without litigation; *provided* that if any such arrangement would adversely affect the non-controlling Party's rights under this Agreement, then that arrangement is subject to the non-controlling Party's prior written consent. The Party controlling any Enforcement may not settle or consent to an adverse judgment without the express written consent of the non-controlling Party (such consent not to be unreasonably withheld or delayed).

11.3.4 **Costs and Expenses**. The Party controlling any Enforcement will bear all costs and expenses, including but not limited to litigation expenses, related to such Enforcement (except in respect of the costs and expenses for the non-controlling party's own counsel).

11.3.5 **Recovery**. Unless otherwise mutually agreed by the Parties, and subject to the respective indemnity obligations of the Parties set forth in Article 15 (Indemnification; Insurance), all damages, amounts received in settlement, judgment or other monetary awards recovered in an Enforcement with respect to activities of the Third Party that occurred prior to the effective date of such award will be shared as follows:

(***)

11.3.6 **Claim for Invalidity or unenforceability**. To the extent that any Third Party brings a claim for the invalidity or unenforceability of any Patent Right part of the Licensed IP, the Party owning such Patent Right or if different the Party responsible for Prosecuting and Maintaining such Patent Right, shall be responsible, in its sole discretion, for defending such invalidity or unenforceability claim. The other Party shall reasonably cooperate and work with the defending Party in the defence of such claim and may appoint its own Counsel in relation to such claim at its own cost and expense. The defending Party will keep the other Party reasonably informed at all times of the progress of such claim. To the extent the claim relates to any Patent Right part of the Licensed IP and Adaptimmune chooses not to defend such claim, then each claim in the specific Patent Right that Adaptimmune declines to defend will no longer be considered a Valid Claim with respect to all Licensed Products for the purposes of this Agreement.

11.4. **Third Party Infringement Claims**.

11.4.1 **Notice**. In the event that a Third Party will make any claim, give notice, or bring any suit or other *inter partes* proceeding against Galapagos or Adaptimmune, or any of their respective Affiliates or licensees or customers, for infringement, misappropriation or other violation of any intellectual property rights or other proprietary rights with respect to the Development, Manufacture, Commercialization or other Exploitation of any Licensed Product ("**Third Party Infringement Claim**"), in each case, the Party receiving notice of a Third Party Infringement Claim will promptly notify the other Party and use commercially reasonable efforts to provide all evidence in

its possession pertaining to the claim or suit that it can disclose without breach of a pre-existing obligation to a Third Party or waiver of privilege.

11.4.2 **Defense**. The Parties will consult as to potential strategies to defend against any Third Party Infringement Claim, including initiating an Opposition Proceeding or by being joined as a Party, in each case consistent with the overall goals of this Agreement. If the Parties fail to agree on such strategies, and subject to the respective indemnity obligations of the Parties

set forth in Article 15 (Indemnification; Insurance), the Parties will cooperate with each other in all reasonable respects in the defence of any Third Party Infringement Claim or raising of any counterclaim related thereto.

11.4.3 **Defense and Counterclaim**. The non-controlling Party will cooperate with the Party controlling in connection with any such defence and counterclaim (as may be reasonably requested by the controlling Party and at the controlling Party's expense), including, if necessary, by being joined as a party*, provided* that the non-controlling party will be indemnified by the controlling party as to any costs or expenses, and will have the right to be represented by its own counsel at its own expense. The Party controlling any such action will keep the other Party updated with respect to any such action, including providing copies of all documents received or filed in connection with any such action. Any counterclaim or other similar action by a Party, to the extent such action involves any enforcement of rights under the Licensed IP, will be treated as an enforcement action subject to Section 11.3 (Enforcement).

11.4.4 **Settlement**. If any such defense under Section 11.4.2 (Defense) would adversely affect the other Party's rights under this Agreement or impose a financial obligation upon the other Party or grant rights in respect, or affect the validity or enforceability, of the other Party's Intellectual Property, then any settlement, consent judgment or other voluntary final disposition of such Third Party Infringement Claim will not be entered into without the consent of the other Party (such consent not to be unreasonably withheld or delayed).

11.4.5 **Costs and Expenses**. The Party controlling the defence of any Third Party Infringement Claim will bear all costs and expenses, including but not limited to litigation expenses, to defend against any Third Party Infringement Claim.

11.5. **Trademarks**. Galapagos will be free to use and to register in any trademark office worldwide, at its sole cost, any trademark for use with a Licensed Product in its sole discretion. Galapagos will own all right, title and interest in, to and under any such trademark (including any and all claims and causes of action, rights to and claims for damages, restitution and injunctive and other legal and equitable relief for past, present and future infringement, dilution, misappropriation, violation, misuse, breach or default, with the right but no obligation to sue for such legal and equitable relief and to collect, or otherwise recover, any such damages) in its own name during and after the Term.

11.6. **Unified Patent Court (Europe)**. At any time prior to the end of the "transitional period" as such term is used in Article 83 of the Agreement on a Unified Patent Court between the participating Member States of the European Union, for a given relevant Patent Right part of the Licensed IP in the EU, Galapagos may request in writing that Adaptimmune either (a) opt out from the exclusive competence of the Unified Patent Court or (b) if applicable, withdraw a previously-registered opt-out, and Adaptimmune will notify the Registry, pay any such registry fee and take such other action as may be necessary to effect the opt-out or opt-out withdrawal. Adaptimmune will reasonably consider such request.

11.7. **Non-Controlled IP.** To the extent that either Party (the "**Granting Party**") becomes aware of any Know-How or Patent Right in such Granting Party's possession that is required for the performance of the Collaboration, but such Know-How or Patent Right is not Controlled by such Party for the purposes of this Agreement (the "**Non-Controlled IP**"), and, therefore, the Granting Party is unable to grant any license rights under such Non-Controlled IP to the other Party, such Granting Party will notify the other Party of such Non-Controlled IP and the Party's will work together to enable use of such Non-Controlled IP by the non-Granting Party (*e.g.*, facilitate an amendment to existing

terms of the agreement between the Granting Party and a Third Party for such Non-Controlled IP or the grant of new terms from the Third Party for such Non-Controlled IP). Neither Party makes any warranty or representation that suitable terms will be obtainable or that the non-Granting Party will be able to agree to any terms that are procured.

ARTICLE 12

Without limiting the foregoing, neither Party will use the other Party's Confidential Information for any purpose other than performing activities pursuant to this Agreement and will permit only those employees who have a need to know the other Party's Confidential Information and who are similarly bound by confidentiality, non-disclosure, and non-use provisions at least as restrictive or protective of the Parties as those set forth in this Agreement to access such Confidential Information. Notwithstanding any provision to the contrary set forth in this Agreement, a Receiving Party may disclose Confidential Information of the Disclosing Party to (a) such Receiving Party's Affiliates, licensees and Sublicensees, and (b) employees, directors, officers, agents, contractors, consultants, attorneys, accountants, banks, investors, and advisors of the Receiving Party and its Affiliates, licensees, and Sublicensees, in each case ((a) and (b)), to the extent reasonably necessary for the purposes of, and for those matters undertaken pursuant to, this Agreement; *provided* that such Persons are bound by legally enforceable obligations of confidentiality, non-disclosure, and non-use with respect to the Disclosing Party's Confidential Information no less stringent than the confidentiality and non-use obligations set forth in this Agreement. Each Party will remain responsible for any failure by its Affiliates, licensees, and Sublicensees, and its and its Affiliates', licensees', and Sublicensees' respective employees, directors, officers, agents, contractors, consultants, attorneys, accountants, banks, investors, and advisors, in each case, to treat such Confidential Information as required under this Section 12.2 (Duty of Confidence) (as if such Affiliates, licensees, Sublicensees, employees, directors, officers, agents, contractors, consultants, attorneys, accountants,

Each Party will

promptly notify the other Party of any misuse or unauthorized disclosure of the other Party's Confidential Information.

12.3. **Exceptions**. Information of a Disclosing Party will not be Confidential Information of such Disclosing Party, and the confidentiality, non-disclosure and non-use obligations set forth in Section 12.1 (Confidential Information) and Section 12.2 (Duty of Confidence) will not apply to such information, to the extent that the Receiving Party can demonstrate through contemporaneous evidence that such information:

Similarly, after a Publication has been made available to the public, each Party may post such Publication or a link to it on its corporate website or social media (or any website or social media managed by such Party in connection with a Clinical Trial for the Licensed Product, as appropriate) without the prior written consent of the other Party, so long as the information in such Publication remains true, correct, and the most current information with respect to the subject matters set forth therein.

Either Party (the "**Non-Breaching Party**") may terminate this Agreement in its entirety, effective upon written notice to the other Party, if the other Party (the "**Breaching Party**") materially breaches this Agreement and after receiving written notice identifying such material breach in reasonable detail, fails to cure such breach within (a) 90 days for all breaches other than as set forth in clause (b), or (b) 30 days for a payment breach; *provided* that if material breach other than a payment breach is reasonably capable of being cured, but not reasonably capable of being cured within such

90-day period, then the cure period may be extended by written agreement of the Parties. If the Parties reasonably and in good faith disagree as to whether there has been a material breach of this Agreement or whether a material breach has been cured, then the Breaching Party may contest the allegation in accordance with the dispute resolution terms set forth in Section 16.3 (Dispute Resolution) and the applicable cure period will toll upon the initiation of such dispute resolution procedures. If, as a result of such dispute resolution process, it is

finally determined that the Breaching Party committed a material breach of this Agreement or failed to cure a material breach of this Agreement, then the applicable cure period will resume and unless such alleged breach was cured during the pendency of such cure period (once resumed), this Agreement will terminate effective as of the expiration of such cure period. If, as a result of such dispute resolution proceeding, it is determined that the Breaching Party did not commit such material breach or such material breach was cured in accordance with this Section 14.2.2 (Material Breach), then no termination of this Agreement will be effective, and this Agreement will continue in full force and effect.

14.2.3 **Cessation of Development and Commercialization**. If Galapagos and its Affiliates do not conduct any material Development or Commercialization activities with respect to the Licensed Product for a continuous period of longer than 12 months, and such suspension of activity is not: (a) contemplated by written agreement of the Parties, (b) a result of Galapagos' reasonable response to written guidance from or action by a Regulatory Authority in the Territory (such as a clinical hold, or a recall or withdrawal), or (c) due to events beyond the reasonable control of Galapagos, then Adaptimmune may, at its election, terminate this Agreement in its entirety upon 60 days' prior written notice to Galapagos.

14.2.4 (***)

14.2.5 **Insolvency**. Either Party may terminate this Agreement in its entirety, effective upon written notice to the other Party, in the event (a) the other Party suspends, or threatens to suspend, payment of its debts or is unable to pay its debts as they fall due; (a) of the bankruptcy or dissolution of the other Party; (b) of the other Party making a general assignment for the benefit of its creditors; (c) of such other Party is served with an involuntary petition against it in any insolvency proceeding and such involuntary petition has not been stayed or dismissed within 60 days of its filing; (d) of the appointment of a trustee, administrator, conservator, receiver, or similar fiduciary for the other Party or substantially all of the assets of the other Party as a result of the other Party's insolvency; or (e) any event occurs, or step or proceedings is taken, with respect to the other Party in any jurisdiction to which it is subject that has an effect equivalent or similar to any of the events in (a) to (d), above (each, an "**Insolvency Event**").

14.2.6 **Full Force and Effect During Notice Period**. This Agreement will remain in full force and effect until the expiration of the applicable termination notice period.

14.3. **Effects of Termination**. Upon any termination of this Agreement:

14.3.1 **Option**. If this Agreement is terminated prior to the expiration of the Option Period, then the Option will terminate.

14.3.2 **Licenses; No Further Exploitation**. All licenses granted under this Agreement will terminate, except as otherwise expressly provided in this Agreement. As of the effective date of termination, Galapagos will not, and

will cause it Affiliates and Sublicensees not to, Develop, Manufacture, Commercialize, or otherwise Exploit the Licensed Product.

14.3.3 **Sublicenses**. Adaptimmune will grant to each Sublicensee of Galapagos, at each such Sublicensee's written request to Adaptimmune within 30 days of the effective date of termination, a direct license; *provided* that such Sublicensee (a) is not then in default of its sublicense agreement or this Agreement, (b) agrees in writing to comply with the terms of this Agreement to the extent applicable to the rights originally sublicensed to such

Sublicensee by Galapagos, and (c) agrees to pay directly to Adaptimmune such Sublicensee's payments under such sublicense agreement. The scope of such direct license will be no less than the scope of the license granted herein and sublicensed to such Sublicensee, and Adaptimmune will have no obligation to perform any task for such Sublicensee beyond the obligations owed to Galapagos hereunder.

14.3.4 **Wind-Down**. Upon receipt of notice of termination from the other Party, each Party will cooperate, and will cease, to the extent permitted in accordance with Applicable Laws, as promptly as practicable, all activities then being performed by such Party and its Affiliates and sublicensees (including Subcontractors and Sublicensees) hereunder, except as necessary to conduct any wind-down activities in accordance with Applicable Laws and industry standard. To the extent that any Clinical Trial using the Collaboration Product or Licensed Product is ongoing at the time of receipt of notice of termination from the other Party, the party sponsoring any Clinical Trial will take all reasonable steps to terminate, close-down or otherwise complete the Clinical Trial as quickly as reasonably possible and at all times in accordance with its ethical obligations to any patient and any instruction received from any Regulatory Authority or as required to comply with Applicable Laws. The other Party will continue to assist with and perform its obligations (including obligation to manufacture Collaboration Product or Licensed TCR Vector under Clinical Supply Agreements to the extent such apply) in relation to the applicable Clinical Trial until the Clinical Trial has been terminated, closed-down or otherwise completed. The Parties will work together to ensure that all patients enrolled in such Clinical Trial are treated in accordance with the protocol for such Clinical Trial, including any follow-up activities if required.

14.3.5 **Return or Destruction of Confidential Information**. Each Receiving Party will return (at the Disclosing Party's written request) or destroy all such Confidential Information of the Receiving Party in its possession as of the effective date of expiration or termination (with the exception of one copy of such Confidential Information, which may be retained by the legal department of the Receiving Party in connection with standard record keeping requirements of such Party or to comply with Applicable Laws), and any Confidential Information of the Disclosing Party contained in its laboratory notebooks or databases; *provided* that each Receiving Party may retain and continue to use such Confidential Information of the Disclosing Party to the extent necessary to exercise any surviving rights, licenses or obligations under this Agreement. Notwithstanding the foregoing, a Receiving Party will not be required to destroy any computer files created during automatic system back up that are subsequently stored securely by it and not readily accessible to its employees, consultants, or others who received the Disclosing Party's Confidential Information under this Agreement. With respect to any Confidential Information retained in accordance with the foregoing, the Receiving Party will continue to comply with Article 12 (Confidentiality; Publication) with respect to such Confidential Information.

14.3.6 **Inventory**. Upon termination, Galapagos, its Affiliates and its Sublicensees will have the right to sell or otherwise dispose of all inventory of Licensed Products then in its stock, subject to the applicable Royalties due under this

Agreement and any other applicable provisions of this Agreement, and Adaptimmune covenants not to sue Galapagos, its Affiliates or its Sublicensees for infringement under any of the Licensed Patent Rights that were licensed by Adaptimmune to Galapagos immediately prior to such termination with respect to such activities conducted by Galapagos, its Affiliates or its Sublicensees pursuant to this Section 14.3.6 (Inventory).

14.3.7 Return of assigned Patent Rights. Following termination, Adaptimmune may request the assignment back of any Patent Rights assigned to Galapagos in accordance with Section 3.4.6 and/or 11.2.3. Following such request, Galapagos will take such actions as required to formalize or otherwise perfect such assignment between the Parties and towards Third Parties (including the applicable patent offices), including in accordance with Section 16.12 (Further Assurances).

14.4. Survival. Expiration or termination of this Agreement for any reason will not release either Party from any liability that, as of the effective date of such expiration or termination, had already accrued to the other Party or that is attributable to a period prior to such expiration or termination, nor preclude either Party from pursuing any rights and remedies it may have hereunder or at law or in equity that accrued or are based upon any event occurring prior to the effective date of such expiration or termination, and any such termination will not be an exclusive remedy for any liability accrued hereunder unless otherwise stated herein. The provisions of, and the obligations of the Parties in, Articles 1 (to the extent definitions are required for interpretation of other Articles or Sections), 12 (excluding Section 12.5), 13, 15 (excluding Section 15.5) and 16; and Sections 2.6.1, 4.6, 10.6-10.10, 11.1, 11.2.2, 11.2.4 and 14.2-14.4 will survive such termination or expiration.

ARTICLE 15
INDEMNIFICATION; INSURANCE

15.1. Indemnification by Adaptimmune. Adaptimmune will indemnify, defend, and hold harmless Galapagos and its Affiliates, and each of their respective directors, officers, employees, and agents (collectively "**Galapagos Indemnitees**"), from and against all losses, liabilities, damages, and expenses, including reasonable attorneys' fees and costs (collectively, "**Liabilities**"), to the extent resulting from any claims, demands, actions, or other proceedings by any Third Party ("**Third Party Claims**") arising out of:

15.1.1 the breach of any obligation, representation, warranty, or covenant under this Agreement by or on behalf of Adaptimmune or any of its Affiliates;

15.1.2 the conduct of the Collaboration Trial by or on behalf of Adaptimmune or any of its Affiliates;

15.1.3 the Manufacture and supply of the Licensed TCR Vector by or on behalf of Adaptimmune; and

15.1.4 the negligence or willful misconduct of any Adaptimmune Indemnitees in the course of performing activities under this Agreement;

except, in each case, to the extent such Liabilities arise from any Third Party Claim for which Galapagos is responsible for indemnifying Adaptimmune pursuant to Section 15.2 (Indemnification by Galapagos), as to which Liabilities each Party will indemnify the other to the extent of their respective liability.

15.2. Indemnification by Galapagos. Galapagos will indemnify, defend, and hold harmless Adaptimmune and its Affiliates and each of their respective directors, officers,

employees, and agents (collectively "**Adaptimmune Indemnitees**"), from and against all Liabilities to the extent resulting from any Third Party Claims arising out of:

15.2.1 the breach of any obligation, representation, warranty, or covenant under this Agreement by or on behalf of Galapagos or any of its Affiliates;

15.2.2 the Development, Manufacturing, Commercialization, and other Exploitation of the Licensed Product by or on behalf of Galapagos or any of its Affiliates (including the conduct of the Collaboration Trial by or on behalf of Galapagos from the date on which Galapagos holds the IND for the Collaboration Trial);

15.2.3 the Manufacture of the Collaboration Product by or on behalf of Galapagos; and

15.2.4 the negligence or willful misconduct of any Galapagos Indemnitees in the course of performing activities under this Agreement;

except, in each case, to the extent such Liabilities arise from any Third Party Claim for which Adaptimmune is responsible for indemnifying Galapagos pursuant to Section 15.1 (Indemnification by Adaptimmune), as to which Liabilities each Party will indemnify the other to the extent of their respective liability.

15.3. Indemnification Procedure.

15.3.1 **Notice**. If either Party is seeking indemnification under Section 15.1 (Indemnification by Adaptimmune) or Section 15.2 (Indemnification by Galapagos) (the "**Indemnified Party**"), then it will promptly inform the other Party (the "**Indemnifying Party**") of the claim giving rise to the obligation to indemnify pursuant to such Section 15.1 (Indemnification by Adaptimmune) or Section 15.2 (Indemnification by Galapagos), as applicable, as soon as reasonably practicable after receiving notice of the Third Party claim, *provided* that no delay or failure on the part of the Indemnified Party in notifying the Indemnifying Party will relieve the Indemnifying Party from any obligation hereunder unless (and then only to the extent that) such delay or failure is prejudicial to or otherwise adversely affects the Indemnifying Party's ability to defend the Third Party Claim.

15.3.2 **Control**. The Indemnifying Party will have the right, exercisable by notice to the Indemnified Party within 10 Business Days after receipt of notice from the Indemnified Party of the commencement of or assertion of any Third Party claim, to assume the direction and control of the defense, litigation, settlement, appeal, or other disposition of any such claim for which it is obligated to indemnify the Indemnified Party (including the right to settle the claim solely for monetary consideration) with counsel selected by the Indemnifying Party and reasonably acceptable to the Indemnified Party. During such time as the Indemnifying Party is controlling the defense of such Third Party claim, the Indemnified Party will cooperate with the Indemnifying Party, and will cause its Affiliates and agents to cooperate upon request of the Indemnifying Party, in the defense or prosecution of the claim, including by furnishing such records, information, and testimony and attending such conferences, discovery proceedings, hearings, trials or appeals as may reasonably be requested by the Indemnifying Party. In the event that the Indemnifying Party does not notify the Indemnified Party of the Indemnifying Party's intent to defend any Third Party claim within 10 Business Days after

notice thereof, the Indemnified Party may (without further notice to the Indemnifying Party) undertake the defense thereof with counsel of its choice and at the Indemnifying Party's expense (including reasonable, out-of-pocket attorneys' fees and costs and expenses of enforcement or defense). The Indemnifying Party or the Indemnified Party, as the case may be, will have the right to participate (including the right to conduct discovery, interview and examine witnesses and

participate in all settlement conferences), but not control, at its own expense and with counsel of its choice, in the defense of any claim that has been assumed by the other Party.

15.3.3 Settlement. Notwithstanding any provision to the contrary set forth in this Agreement, the Indemnifying Party will not enter into any settlement, consent judgment, or other voluntary final disposition of any claim that has an adverse effect on the rights of any Indemnified Party hereunder or the Licensed IP, Adaptimmune Platform Improvement IP, or Galapagos Platform Improvement IP, or admits any wrongdoing or fault by any Galapagos Indemnitee or Adaptimmune Indemnitee, or imposes on any Galapagos Indemnitee or Adaptimmune Indemnitee any payment or other liability, without the prior written consent of such Indemnitee.

15.4. Mitigation of Loss. Each Indemnified Party will take and will ensure that all of its Affiliates take all such reasonable steps and actions as are reasonably necessary or as the Indemnifying Party may reasonably require in order to mitigate any claims (or potential losses or damages) under this Article 15 (Indemnification; Insurance). Nothing in this Agreement will or will be deemed to relieve any Party of any common law or other duty to mitigate any losses incurred by it.

15.5. Insurance.

15.5.1 Evidence of Insurance. Within 30 days of signing this Agreement, each Party will provide the other Party with its certificate of insurance or other document evidencing the insurance coverage set forth in Section 15.5.2 (Insurance Coverage).

15.5.2 Insurance Coverage. During the Term, each Party will obtain and maintain from an insurance company having an A.M. Best's rating of "A-, VII" or better comprehensive liability insurance customary in the industry for companies of similar size conducting similar business, and in any case sufficient to cover its obligations. Any Subcontractor engaged by Galapagos pursuant to the terms of this Agreement to perform any Development activities will be subject to all the requirements above, and Galapagos will remain responsible for ensuring such Subcontractor's compliance with those requirements at all times.

ARTICLE 16
GENERAL PROVISIONS

16.1. LIMITATION OF LIABILITY. NOTWITHSTANDING ANY PROVISION TO THE CONTRARY SET FORTH IN THIS AGREEMENT, NEITHER PARTY, NOR THEIR DIRECTORS, OFFICERS, EMPLOYEES, OR AGENTS, WILL BE LIABLE TO THE OTHER PARTY FOR ANY LIABILITIES ARISING UNDER OR IN CONNECTION WITH ANY SUBJECT MATTER OF THIS AGREEMENT FOR ANY INDIRECT, PUNITIVE, SPECIAL, EXEMPLARY, OR CONSEQUENTIAL DAMAGES, INCLUDING INCIDENTAL DAMAGES, OR LOST PROFITS, EVEN IF SUCH PARTY HAS BEEN INFORMED, SHOULD HAVE KNOWN OR IN FACT KNEW OF THE POSSIBILITY OF SUCH DAMAGES; PROVIDED THAT THIS SECTION 16.1 (LIMITATION OF LIABILITY) WILL NOT APPLY TO THE

PARTIES' INDEMNIFICATION RIGHTS AND OBLIGATIONS UNDER SECTION 15.1 (INDEMNIFICATION BY ADAPTIMMUNE) OR SECTION 15.2 (INDEMNIFICATION BY GALAPAGOS) OR ANY BREACH OF ARTICLE 12 (CONFIDENTIALITY; PUBLICATION).

16.2. **Governing Law**. This Agreement will be governed, and the respective rights of the Parties determined, according to the substantive laws of England and Wales without giving effect to any

choice of law principles that would require the application of the laws of a different state. Notwithstanding the foregoing, any dispute, controversy, or claim relating to the scope, validity, enforceability, or infringement of any Intellectual Property will be submitted to a court of competent jurisdiction in the territory in which such Intellectual Property were granted or arose.

16.3. Dispute Resolution.

16.3.1 Disputes. Adaptimmune and Galapagos recognize that a dispute, controversy or claim of any nature whatsoever arising out of or relating to this Agreement, or the breach, termination, or invalidity thereof (each, a "**Dispute**") may from time to time arise during the Term. Except as otherwise provided in this Agreement and JSC disputes as set forth in Article 6 (Governance), such Disputes between Adaptimmune and Galapagos will be resolved as recited in this Section 16.3 (Dispute Resolution). In the event of the occurrence of such a Dispute, the Parties will first refer such Dispute to their respective Alliance Managers for attempted resolution by such Alliance Managers within 30 days after such referral. If such Dispute is not resolved within such 30-day period, either Adaptimmune or Galapagos may, by written notice to the other, have such Dispute referred to their Executive Officers for attempted resolution within 30 days after such notice is received. In the event the Executive Officers are not able to resolve such dispute within 30 days of receipt of such written notice, either Party may initiate the dispute resolution procedures set forth in Section 16.3.2 (Arbitration).

16.3.2 Arbitration.

(a) **Rules**. The Parties agree that any Dispute not resolved internally by the Parties pursuant to Section 16.3.1 (Disputes) will be resolved through binding arbitration conducted by the International Chamber of Commerce in accordance with the then prevailing Rules of Arbitration of the International Chamber of Commerce ("**Rules**"), except as modified in this Agreement, applying the substantive law specified in Section 16.2 (Governing Law).

(b) **Arbitrators; Location**. Each Party will select one arbitrator, and the two arbitrators so selected will choose a third arbitrator. All three arbitrators will serve as neutrals and have at least 10 years of: (a) dispute resolution experience (including judicial experience) or (b) legal or business experience in the biotech or pharmaceutical industry. In any event, at least one arbitrator will satisfy the foregoing experience requirement under clause (b). If a Party fails to nominate its arbitrator, or if the Parties' arbitrators cannot agree on the third, the necessary appointments will be made in accordance with the Rules. Once appointed by a Party, such Party will have no *ex parte* communication with its appointed arbitrator. The arbitration proceedings will be conducted in London, United Kingdom. The arbitration proceedings and all pleadings and written evidence will be in the English language. Any written evidence originally in another language will be submitted in English translation accompanied by the original or a true copy thereof.

(c) **Procedures; Awards**. Each Party agrees to use reasonable efforts to make all of its current employees available, if reasonably needed, and agrees that the arbitrators may determine any person as necessary. The arbitrators will be instructed and required to render a written, binding, non-appealable resolution and award on each issue that clearly states the basis upon which such resolution and

award is made. The written resolution and award will be delivered to the Parties as expeditiously as possible, but in no event more than 90 days after conclusion of the hearing, unless otherwise agreed by the Parties. Judgment upon such award may be entered in any competent court or application may be made to any competent court for judicial acceptance of such an award and order for enforcement. Each Party agrees that, except as permitted by Section 16.1 (Limitation of Liability), notwithstanding any provision of applicable law or of this Agreement, it will not request, and the arbitrators will have no authority to award, punitive or exemplary damages against any Party.

(d) **Costs**. The prevailing Party, as determined by the arbitrators, will be entitled to: (a) its share of fees and expenses of the arbitrators; and (b) its reasonable attorneys' fees and associated costs and expenses. In determining which Party "prevailed," the arbitrators will consider: (i) the significance, including the financial impact, of the claims prevailed upon; and (ii) the scope of claims prevailed upon, in comparison to the total scope of the claims at issue. If the arbitrators determine that, given the scope of the arbitration, neither Party "prevailed," the arbitrators will order that the Parties: (x) share equally the fees and expenses of the arbitrators; and (y) bear their own attorneys' fees and associated costs and expenses.

(e) **Interim Equitable Relief**. Notwithstanding anything to the contrary in this Section 16.3.2 (Arbitration), in the event that a Party reasonably requires relief on a more expedited basis than would be possible pursuant to the procedure set forth in this Section 16.3 (Dispute Resolution), such Party may seek a temporary injunction or other interim equitable relief in a court of competent jurisdiction pending the ability of the arbitrators to review the decision under this Section 16.3.2 (Arbitration). Such court will have no jurisdiction or ability to resolve Disputes beyond the specific issue of temporary injunction or other interim equitable relief.

(f) **Protective Orders; Arbitrability**. At the request of either Party, the arbitrators will enter an appropriate protective order to maintain the confidentiality of information produced or exchanged in the course of the arbitration proceedings. The arbitrators will have the power to decide all questions of arbitrability.

16.3.3 Continued Performance. Provided that this Agreement has not terminated, the Parties agree to continue performing under this Agreement in accordance with its provisions, pending the final resolution of any Dispute.

16.4. Assignment. No rights hereunder may be assigned by either Party, directly or by merger or other operation of law, without the express written consent of the other Party; *provided* that (a) either Party may assign this Agreement to an Affiliate or in connection with a merger, acquisition, Change of Control, or sale or transfer of all or substantially all of its stock or assets to which this Agreement relates without any such written consent being required so long as the assignee is bound to the terms of this Agreement and (b) (***). Any purported assignment of this Agreement or the rights

hereunder inconsistent with the foregoing will be null and void. No assignment will relieve either Party of the responsibility for the performance of any obligation that accrued prior to such assignment.

16.5. **Performance by Affiliates**. Either Party may exercise its rights and perform its obligations under this Agreement directly or through one or more of its Affiliates. Each Party's Affiliates will have

the benefit of all rights (including all licenses and options) of such Party under this Agreement. Accordingly, in this Agreement "Galapagos" will be interpreted to mean "Galapagos or its Affiliates" and "Adaptimmune" will be interpreted to mean "Adaptimmune or its Affiliates" where necessary to give each Party's respective Affiliates the benefit of the rights provided to the applicable Party in this Agreement; *provided*, *however*, that in any event each Party will remain responsible hereunder for all acts and omissions of its respective Affiliates and primarily responsible and liable for performance of all its obligations hereunder.

16.6. **Force Majeure**. Neither Party will be held liable to the other Party nor be deemed to have defaulted under or breached this Agreement for failure or delay performing any obligation under this Agreement (except the failure to make a payment hereunder) to the extent that such failure or delay is caused by or results from any event beyond such Party's reasonable control which prevent such Party from complying with such obligation under this Agreement (including acts of God, embargoes, war, acts of war (whether war be declared or not), terrorism, insurrections, riots, civil commotions, strikes, lockouts, or other labor disturbances (other than strikes, lockouts, or labor disturbances involving a Party's own employees), government actions, fire, earthquakes, floods, epidemics, pandemics, or quarantines) ("**Force Majeure**") and for so long as such failure or delay continues to be caused by or result from such Force Majeure event. The affected Party will notify the other Party in writing of any Force Majeure circumstances that may affect its performance under this Agreement as soon as reasonably practical, will provide a good faith estimate of the period for which its failure or delay in performance under the Agreement is expected to continue based on currently available information, and will undertake reasonable efforts necessary to mitigate and overcome such Force Majeure circumstances and resume normal performance of its obligations hereunder as soon a reasonably practicable under the circumstances. If the Force Majeure circumstance continues, then the affected Party will update such notice to the other Party on a weekly basis, or more frequently if requested by the other Party, to provide updated summaries of its mitigation efforts and its estimates of when normal performance under the Agreement will be able to resume. In any event, if a Party's failure to perform its obligations under this Agreement as a result of a Force Majeure event continues for longer than 90 days, then the other Party may terminate this Agreement by providing written notice to the Party affected by the Force Majeure event.

16.7. **Amendments**. No change, modification, addition, or amendment to this Agreement, or waiver of any term or condition of this Agreement, is valid or enforceable unless in writing and signed and dated by at least one authorized officer of each Party.

16.8. **Waiver**. A waiver by either Party of a breach or violation of any provision of this Agreement will not constitute or be construed as a waiver of any subsequent breach or violation of that provision or as a waiver of any breach or violation of any other provision of this Agreement.

16.9. **Enforceability**. If any provision of this Agreement is found by a court of competent jurisdiction to be void, invalid, or unenforceable, then the same will be reformed to comply with Applicable Laws or removed if not so conformable, so as not to affect the validity or enforceability of the remainder of this Agreement; *provided* that the Parties will, in any event, use good faith efforts to amend the Agreement to continue the

intent of the Agreement as of the Effective Date unless (and then only to the extent that) such is not accomplished by such reformation or removal.

16.10. Relationship between the Parties. Nothing herein will be deemed to establish a relationship of principal and agent between Adaptimmune and Galapagos, nor any of their agents, personnel, or employees; nor, except to the extent explicitly provided herein, will this Agreement be construed as creating any form of legal association or arrangement that would impose liability upon one Party

for the act or failure to act of the other Party. Nothing in this Agreement, express or implied, is intended to confer on any Person other than the Parties and their Affiliates or their permitted assigns any benefit, right, or remedy.

16.11. **Notices**. All communications hereunder will be in writing, by electronic mail or by confirmed fax, and will be deemed to have been duly given (a) upon personal delivery, (b) upon deposit with a recognized courier with next-day delivery instructions, or (c) one Business Day after sending, if sent by electronic mail and no delivery failure notification has been received:

16.12. **Further Assurances**. From time to time after the Effective Date, each Party will execute, acknowledge, and deliver to each other any further documents, assurances, and other matters, and will take any other action consistent with the terms and conditions of this Agreement, that may reasonably be requested by a Party and necessary or desirable to carry out the purpose of this Agreement.

16.13. **Entire Agreement**. This Agreement, including the Schedules and exhibits hereto embody the entire understanding between the Parties relating to the subject matter hereof and supersedes all prior understandings and agreements, whether written or

oral. This Agreement may not be varied except by a written document signed by duly authorized representatives of both Parties.

16.14. Interpretation. 16.15. Construction. This Agreement has been prepared, examined, negotiated, and revised by each Party and their respective attorneys, and no implication will be drawn and no provision will be construed against any Party to this Agreement by virtue of the purported identity of the drafter of this Agreement or any portion thereof.

16.16. Counterparts. This Agreement may be executed in two or more counterparts, all of which taken together will be regarded as one and the same instrument. Each Party may execute this Agreement in Adobe™ Portable Document Format (PDF) or by DocuSign sent by electronic mail. PDF or DocuSign signatures of authorized signatories of the Parties will be deemed to be original signatures, will be valid and binding upon the Parties, and, upon delivery, will constitute due execution of this Agreement.

Adaptimmune Press Release

Adaptimmune and Galapagos sign clinical collaboration agreement with an option to exclusively license Adaptimmune's TCR T-cell therapy candidate, uza-cel, in head & neck cancer and potential future solid tumor indications

- Adaptimmune and Galapagos to conduct clinical proof-of-concept trial to evaluate the safety and efficacy of uza-cel (next-generation MAGE-A4 TCR T-cell therapy) produced on Galapagos' decentralized manufacturing platform in patients with head & neck cancer
- Uza-cel has shown encouraging results in head & neck cancer with partial responses in four out of five patients to date in a Phase 1 trial using Adaptimmune's centralized manufacturing platform
- Initial *in vitro* testing of uza-cel produced on Galapagos' decentralized manufacturing platform has shown encouraging data that support further clinical development
- Adaptimmune to receive initial payments of $100 million, comprising $70 million upfront and $30 million of R&D funding, option exercise fees of up to $100 million, additional development and sales milestone payments of up to a maximum of $465 million, plus tiered royalties on net sales
- Galapagos has been granted an option to exclusively license uza-cel for global development and commercialization in head & neck cancer, and potential future solid tumor cancer indications

Adaptimmune will hold a conference call tomorrow (May 31st) at 8 a.m. EDT (webcast link here **and more details below)**

Philadelphia, Pennsylvania and Oxford, United Kingdom--(Newsfile Corp. - May 30, 2024) - Adaptimmune Therapeutics plc (NASDAQ: ADAP), and Galapagos NV (Euronext & NASDAQ: GLPG) announced today that they have entered into a clinical collaboration agreement with an option to exclusively license Adaptimmune's next-generation TCR T-cell therapy (uza-cel) targeting MAGE-A4 for head & neck cancer and potential future solid tumor indications, using Galapagos' decentralized cell manufacturing platform.

Uza-cel is a next-generation clinical-stage engineered TCR T-cell therapy developed by Adaptimmune, targeting the MAGE-A4 cancer antigen expressed in various solid tumors. Uza-cel is engineered to express the CD8α co-receptor alongside the engineered TCR that targets MAGE-A4. Data indicate that co-expression of CD8α may broaden and increase the immune response against solid tumors.[1]

The Adaptimmune sponsored Phase 1 SURPASS trial with centrally manufactured uza-cel has shown encouraging results in head & neck cancer with an overall response rate of 80%. Initial *in vitro* results suggest that uza-cel, produced on Galapagos' decentralized manufacturing platform, yields early phenotype T-cells that could improve efficacy and durability compared to uza-cel centrally manufactured on Adaptimmune's platform.[2] In addition, Galapagos' decentralized manufacturing platform offers the potential for the delivery of fresh, fit cells with a vein-to-vein time of seven days in a patient population in which rapid access to treatment is vital.

Poster presentation SITC 2021: Enhancement of TCR-engineered T-cells targeting MAGE-A4 antigen by co-expression of CD8α and inhibition of AKT signaling during *ex vivo* T-cell expansion. *SITC Annual Meeting*. 2 Data on file

Adrian Rawcliffe, Adaptimmune's Chief Executive Officer: "Data with uza-cel from our Phase 1 SURPASS trial has demonstrated compelling early results in ovarian, bladder, and head & neck cancers. In head & neck cancer, we have seen reductions in target lesions across all five patients treated to date, and there have been four confirmed partial responses. Combining uza-cel with Galapagos' unique decentralized manufacturing platform is a natural synergy and has the potential to deliver an even more effective TCR T-cell therapy for people with critical late-stage cancers."

Dr. Paul Stoffels[3], Galapagos' Chief Executive Officer and Chairman: "We are excited to partner with Adaptimmune, a pioneer in TCR T-cell therapy, as this fully aligns with our strategic vision to advance novel cell therapies. This collaboration enables us to expand our oncology cell therapy portfolio to include treatments for solid tumors and next-generation therapies, leveraging our innovative, decentralized cell therapy manufacturing platform. For patients with head & neck cancer, an area with significant unmet medical needs, this collaboration offers the promise for faster access to a potentially transformative treatment."

Under the terms of the agreement, Adaptimmune will receive an upfront exclusivity payment of $70 million, plus $15 million in R&D funding at signing. A further $15 million in R&D funding will follow subject to the start of dosing in the proof-of-concept trial. Adaptimmune will be responsible for the clinical proof-of-concept trial in head & neck cancer and the supply of the vector for the manufacturing of uza-cel. Galapagos will be responsible for the delivery of fresh uza-cel product for the head & neck cancer proof-of-concept trial using its innovative, decentralized cell therapy manufacturing platform.

Adaptimmune will retain the right to develop, manufacture, commercialize, and otherwise exploit uza-cel for platinum-resistant ovarian cancer (currently being developed in the SURPASS-3 trial).

Following completion of the proof-of-concept trial, Galapagos has an exclusive option to license global rights to uza-cel for a maximum of $100 million, depending on the number of indications in relation to which the option is exercised. In addition, Adaptimmune is eligible to receive development, regulatory and sales milestone payments of up $465 million, unless the agreement is terminated, and tiered royalties on net sales in the mid-single to low-double digit range.

These statements are often, but are not always, made through the use of words or phrases such as "anticipate," "expect," "plan," "estimate," "will," "continue," "aim," "intend," "future," "potential," "could," "indicate," "forward," as well as similar expressions. Forward-looking statements contained in this release include, but are not limited to, statements regarding Galapagos' collaboration with Adaptimmune, including timing for the proof-of concept trial and payments under the collaboration agreement, including milestone and royalty payments, the potential benefits of Adaptimmune's TCR-T therapy, uza-cel, and the potential benefits of Galapagos' decentralized T-cell manufacturing platform. Forward-looking statements involve known and unknown risks, uncertainties and other factors which might cause Galapagos' actual results to be materially different from those expressed or implied by such forward-looking statements and, therefore, the reader should not place undue reliance on them. These risks, uncertainties and other factors include, without limitation, the risk that Galapagos' expectations regarding the collaboration with Adaptimmune, including the potential benefits of such collaboration may be incorrect, the inherent uncertainties associated with competitive developments, clinical trials and product development activities and regulatory approval requirements, Galapagos' reliance on collaborations with third parties (including its collaboration partners Adaptimmune and Lonza), as well as those risks and uncertainties identified in Galapagos' Annual Report on Form 20-F for the year ended 31 December 2023 filed with the U.S. Securities and Exchange Commission (SEC) and its subsequent filings with the SEC. All statements other than statements of historical fact are statements that could be deemed forward-looking statements. The forward-looking statements contained herein are based on management's current expectations and beliefs and speak only as of the date hereof, and Galapagos makes no commitment to update or publicly release any revisions to forward-looking statements in order to reflect new information or subsequent events, circumstances or changes in expectations, unless required by law or regulation.

Adaptimmune Therapeutics plc is registered in England and Wales. Its registered office is 60 Jubilee Avenue, Milton Park, Abingdon, Oxfordshire, OX14 4RX, United Kingdom. Adaptimmune Therapeutics plc and its subsidiaries (collectively "Adaptimmune" or the "Company") is a commercial-stage biopharmaceutical company primarily focused on the treatment of solid tumor cancers with cell therapies. The Company's proprietary platform enables it to identify cancer targets, find and develop cell therapy candidates active against those targets and produce therapeutic candidates for administration to patients.

The Company is subject to a number of risks similar to other biopharmaceutical companies in the clinical development stage including, but not limited to, the need to obtain adequate additional funding, possible failure of preclinical programs or clinical programs, the need to obtain marketing approval for its cell therapies, competitors developing new technological innovations, the need to successfully commercialize and gain market acceptance of its cell therapies, the need to develop a reliable commercial manufacturing process, the need to commercialize any cell therapies that may be approved for marketing, and protection of proprietary technology. If the Company does not successfully commercialize any of its cell therapies, it will be unable to generate product revenue or achieve profitability. The Company had an accumulated deficit of $1,002,155,000 as of June 30, 2024.

Note 2 — Summary of Significant Accounting Policies

(a) Basis of presentation

The condensed consolidated financial statements of Adaptimmune Therapeutics plc and its subsidiaries and other financial information included in this Quarterly Report are unaudited and have been prepared in accordance with generally accepted accounting principles in the United States of America ("U.S. GAAP") and are presented in U.S. dollars. All significant intercompany accounts and transactions between the Company and its subsidiaries have been eliminated on consolidation.

The unaudited condensed consolidated financial statements presented in this Quarterly Report should be read in conjunction with the consolidated financial statements and accompanying notes included in the Company's Annual Report on Form 10-K filed with the SEC on March 6, 2024 (the "Annual Report"). The balance sheet as of December 31, 2023 was derived from audited consolidated financial statements included in the Company's Annual Report but does not include all disclosures required by U.S. GAAP. The Company's significant accounting policies are described in Note 2 to those consolidated financial statements.

Certain information and footnote disclosures normally included in financial statements prepared in accordance with U.S. GAAP have been condensed or omitted from these interim financial statements. However, these interim financial statements include all adjustments, consisting only of normal recurring adjustments, which are, in the opinion of management, necessary to fairly state the results of the interim period. The interim results are not necessarily indicative of results to be expected for the full year.

(b) Use of estimates in interim financial statements

The preparation of interim financial statements, in conformity with U.S. GAAP and SEC regulations, requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the interim financial statements and reported amounts of revenues and expenses during the reporting period. Estimates and assumptions are made in various areas, including in relation to valuation allowances relating to deferred tax assets, revenue recognition, the fair value of assets acquired, liabilities assumed and consideration transferred in business combinations, and estimation of the incremental borrowing rate for operating leases. If actual results differ from the Company's estimates, or to the extent these estimates are adjusted in future periods, the Company's results of operations could either benefit from, or be adversely affected by, any such change in estimate.

(c) Fair value measurements

The Company is required to disclose information on all assets and liabilities reported at fair value that enables an assessment of the inputs used in determining the reported fair values. The fair value hierarchy prioritizes valuation inputs based on the observable nature of those inputs. The hierarchy defines three levels of valuation inputs:

Level 1 - Quoted prices in active markets for identical assets or liabilities

Level 2 - Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly

Level 3 - Unobservable inputs that reflect the Company's own assumptions about the assumptions market participants would use in pricing the asset or liability

The carrying amounts of the Company’s cash and cash equivalents, restricted cash, accounts receivable, accounts payable and accrued expenses approximate fair value because of the short-term nature of these instruments. The fair value of marketable securities, which are measured at fair value on a recurring basis is detailed in Note 6, Fair value measurements.

(d) Significant concentrations of credit risk

The Company held cash and cash equivalents of $211,810,000, marketable securities of $2,979,000 and restricted cash of $2,866,000 as of June 30, 2024. The cash and cash equivalents and restricted cash are held with multiple banks and the Company monitors the credit rating of those banks. The Company maintains cash balances in excess of amounts insured by the Federal Deposit Insurance Corporation in the United States and the U.K. Government Financial Services Compensation Scheme in the United Kingdom. The Company’s investment policy limits investments to certain types of instruments, such as money market instruments, corporate debt securities and commercial paper, places restrictions on maturities and concentration by type and issuer and specifies the minimum credit ratings for all investments and the average credit quality of the portfolio.

The Company had three customers during the three and six months ended June 30, 2024 which are Galapagos, Genentech and GSK. There were accounts receivable of $2,335,000 as of June 30, 2024 and $821,000 as of December 31, 2023. The Company has been transacting with Galapagos since 2024, Genentech since 2021 and GSK since 2014, during which time no credit losses have been recognized. As of June 30, 2024, no allowance for expected credit losses is recognized on the basis that the possibility of credit losses arising on its receivables as of June 30, 2024 is considered to be remote. As of June 30, 2024 there are no receivables, either accrued or billed, due from Genentech that are no longer recoverable following the termination of the Genentech Collaboration and License Agreement.

Management analyzes current and past due accounts and determines if an allowance for credit losses is required based on collection experience, credit worthiness of customers and other relevant information. The process of estimating the uncollectible accounts involves assumptions and judgments and the ultimate amounts of uncollectible accounts receivable could be in excess of the amounts provided.

(e) New accounting pronouncements

Adopted in the current period

Improvements to Reportable Segment Disclosures

In November 2023, the FASB issued ASU 2023-07 – Segment Reporting (Topic 280) – Improvements to Reportable Segment Disclosures, which improves segment disclosure requirements, primarily through enhanced disclosure requirements for significant segment expenses. The improved disclosure requirements apply to all public entities that are required to report segment information, including those with only one reportable segment. The Company adopted the guidance in the fiscal year beginning January 1, 2024. There was no impact on the Company’s reportable segments identified and additional required disclosures have been included in Note 15.

In March 2024, the FASB issued ASU 2024-02 - Codification Improvements—Amendments to remove References to the Concepts Statements, which contains amendments to the Codification that remove references to various FASB Concepts Statements. The amendments apply to all reporting entities within the scope of the affected accounting guidance and are effective for public business entities for fiscal years beginning after December 15, 2024, with early adoption permitted for all entities. The Company adopted the guidance in the

fiscal year beginning January 1, 2024. There was no impact on the Company's financial statements.

To be adopted in future periods

Improvements to Income Tax Disclosures

In December 2023, the FASB issued ASU 2023-09 – Income Taxes (Topic 740) – Improvements to Income Tax Disclosures, which improves income tax disclosures primarily relating to the rate reconciliation and income taxes paid information. This includes a tabular reconciliation using both percentages and reporting currency amounts, covering various tax and reconciling items, and disaggregated summaries of income taxes paid during the period. For public business entities, the guidance is effective for annual periods beginning after December 15, 2024, with early adoption permitted. The Company intends to adopt the guidance in the fiscal year beginning January 1, 2025. The Company is currently evaluating the impact of the guidance on its Consolidated financial statements.

(f) Borrowings

The Company recognizes borrowings comprised solely of contractual payments on fixed or determinable dates that are issued solely for cash equal to their face value, at face value with the difference between the face amount and proceeds received upon issuance shown as either a discount or premium.

These notes are subsequently measured using the Interest Method, with the total interest being measured as the difference between the actual amount of cash received by the Company and the total amount agreed to be repaid. The interest charge in a given period is based on the effective interest rate, which is the rate implicit in the note based on the contractual cash flows. The discount or premium on the note is amortized as interest expense over the life of the note so as to produce a constant rate of interest.

Revenue

Note 3 — Revenue

The Company generates development revenue from collaboration agreements with customers. The Company had three revenue-generating contracts with customers in the three and six months ended June 30, 2024, compared to three customers in the three months ended June 30, 2023, and two customers in the six months ended June 30, 2023: a termination and transfer agreement with GSK that was effective on April 6, 2023, a collaboration and license agreement with Galapagos signed on May 30, 2024, a strategic collaboration and license agreement with Genentech and a collaboration agreement with Astellas that was terminated as of March 6, 2023. The collaboration and licence agreement with Genentech was terminated in April 2024 and the termination is effective from October 2024.

Revenue comprises the following categories (in thousands):

	Three months ended June 30,		Six months ended June 30,	
	2024	2023	2024	2023
Development revenue	$ 128,231	$ 5,130	$ 133,909	$ 52,731
	$ 128,231	**$ 5,130**	**$ 133,909**	**$ 52,731**

Deferred revenue decreased by $39,756,000 from $178,033,000 at December 31, 2023 to $138,277,000 at June 30, 2024 due to revenue recognized during the period of $133,011,000 that was included in deferred revenue at December 31, 2023 and a $1,211,000 decrease caused by the change in the exchange rate between pound sterling and the U.S. dollar from £1.00 to $1.27 at December 31, 2023 to £1.00 to $1.26 at June 30, 2024. This was partially offset by a payment of $85,000,000 from Galapagos and milestones totalling $9,583,000 from GSK that were met and paid or accrued at June 30, 2024.

The aggregate amount of the transaction price that is allocated to performance obligations that are unsatisfied or partially satisfied under the agreements as of June 30, 2024 was $154,393,000.

The Galapagos Collaboration and Exclusive License Agreement

On May 30, 2024, the Company entered into a clinical collaboration agreement with Galapagos NV. The agreement includes an option for Galapagos to exclusively license the TCR T-cell therapy candidate uza-cel, manufactured on Galapagos' decentralized manufacturing platform, in head and neck cancer and potential future solid tumor indications. Under the agreement, we will conduct a clinical proof-of-concept trial (the "POC Trial") to evaluate the safety and efficacy of uza-cel produced on Galapagos' decentralized manufacturing platform in patients with head and neck cancer.

The Company will receive initial payments of $100 million, comprising $70 million upfront and $30 million of research and development funding of which $15 million is due upfront and $15 million is due once the first patient is infused in the POC Trial, option exercise fees of up to $100 million (the amount depending on the number of indications in relation to which the option is exercised), additional development and sales milestone payments of up to a maximum of $465 million, plus tiered royalties on net sales. The $70 million upfront payment and $15 million of upfront research and development funding was received in June 2024.

The Company determined that Galapagos is a customer and has accounted for the agreement under ASC 606 *Revenue from Contracts with Customers*. The Company has identified a performance obligation relating to the various activities required to complete the POC trial and a material right associated with the exclusive license option.

The aggregate transaction price at inception of the agreement was $100,000,000 comprising the $70,000,000 upfront payment and the $30,000,000 research and development funding. The fees for the exclusive license option exercise and development milestone payments are not considered probable as of June 30, 2024 and have not been included in the transaction price. The sales milestones and royalties for future sales of therapies have not been included within the transaction price as of June 30, 2024 because they are sales-based and would be recognized when the subsequent sales occur.

The aggregate transaction price is allocated to the performance obligations depending on the relative standalone selling price of the performance obligations. In determining the best estimate of the relative standalone selling price, the Company considered the internal pricing objectives it used in negotiating the contract, together with internal data regarding the expected costs and a standard margin on those costs, for completing the POC Trial. The residual approach was used to value the material right associated with the exclusive license option as the Company has not previously sold uza-cel on a standalone basis and has not established a price for uza-cel.

The Company expects to satisfy the POC Trial obligation over time over the period that the trial is completed, based on an estimate of the percentage of completion of the trial determined based on the costs incurred on the trial as a percentage of the total expected costs. The revenue allocated to the material right associated with the exclusive licence option will be recognized from the point that the option is either exercised and control of the license has passed to Galapagos or the option lapses.

The amount of the transaction price that is allocated to performance obligations that are unsatisfied or partially satisfied under the agreement as of June 30, 2024 was $100,000,000, of which $44,400,000 is allocated to the POC Trial performance obligation and $55,600,000 is allocated to the material right for the exclusive option.

The Genentech Collaboration and License Agreement

On April 12, 2024 the Company announced the termination of the collaboration with Genentech in relation to the research, development and commercialization of cancer targeted allogeneic T-cell therapies which will be effective from October 7, 2024. The termination was accounted for as a contract modification on a cumulative catch-up basis. The termination did not change the nature the performance obligations identified but resulted in a reduction in the transaction price as the additional payments and variable consideration that would have been due in periods after October 7, 2024 will now never be received.

The Company originally expected to satisfy the performance obligations relating to the initial ‘off-the-shelf’ collaboration targets and the personalized therapies as development progressed and recognized revenue based on an estimate of the percentage of completion of the project determined based on the costs incurred on the project as a percentage of the total expected costs. The Company expected to satisfy the performance obligations relating to the material rights to designate additional ‘off-the-shelf’ collaboration targets from the point that the options would have been exercised and then as development progressed, in line with the initial ‘off-the-shelf’ collaboration targets, or at the point in time that the rights expired. The Company expected to satisfy the performance obligations relating to the material rights
to extend the research term from the point that the options would have been exercised and then over the period of the extension, or at the point in time that the rights expired.

The aggregate remaining transaction price that had not yet been recognized as revenue as of the date of the termination was $146,301,000 which included the remaining deferred income that had not been recognized as revenue as of the date of the modification and the variable

consideration to be billed under the collaboration until the effective date of the termination that is still considered probable. The termination resulted in a cumulative catch-up adjustment at the date of the termination of $101,348,000.

The amount of the transaction price that is allocated to performance obligations that are unsatisfied or partially satisfied under the Genentech agreement as of June 30, 2024 was $24,515,000. Of this amount $7,926,000 is allocated to the research services and rights granted for the initial ‘off-the-shelf’ collaboration targets, $5,086,000 is allocated to the research services and rights granted for the personalized therapies, $7,764,000 is allocated to the material rights to designate the additional ‘off-the-shelf’ collaboration targets, $2,991,000 is allocated to the material right for the first option to extend the research term and $748,000 is allocated to the material right for the option to extend the research term a second time.

The GSK Termination and Transfer Agreement

On April 6, 2023, the Company and GSK entered into a Termination and Transfer Agreement (the “Termination and Transfer Agreement”) regarding the return of rights and materials comprised within the PRAME and NY-ESO cell therapy programs. The parties will work collaboratively to ensure continuity for patients in ongoing lete-cel clinical trials forming part of the NY-ESO cell therapy program.

As part of the agreement, sponsorship and responsibility for the ongoing IGNYTE and long-term follow-up (“LTFU”) trials relating to the NY-ESO cell therapy program will transfer to Adaptimmune. In return for this, Adaptimmune received an upfront payment of £7.5 million in June 2023 following the signing of the agreement and milestone payments of £3 million, £12 million and £6 million in September and December 2023 and June 2024, respectively. A further milestone payment of £1.5 million had been met and accrued, but not billed, at June 30, 2024.

The Company determined that GSK is a customer and has accounted for the agreement under ASC 606 *Revenue from Contracts with Customers*. The agreement is accounted for as a separate contract from the original GSK Collaboration and License Agreement. The Company has identified the following performance obligations under the agreement: (i) to take over sponsorship for the IGNYTE trial and (ii) to take over sponsorship for the LTFU trial.

The aggregate transaction price at inception of the agreement was $37,335,000 comprising the total £30,000,000 upfront and milestone payments. No value was ascribed to non-cash consideration and there was no variable consideration identified. The aggregate transaction price is allocated to the performance obligations depending on the relative standalone selling price of the performance obligations. In determining the best estimate of the relative standalone selling price, the Company considered the internal pricing objectives it used in negotiating the contract, together with internal data regarding the expected costs and a standard margin on those costs, for completing the trials. The amount of the transaction price allocated to the performance obligation is recognized as or when the Company satisfies the performance obligation.

The Company expects to satisfy the performance obligations over time from the point that sponsorship of the active trials that make up the trial transfers and then over the period that the trial is completed, based on the number of patients transferred and still actively enrolled to date on the trial at a given period-end relative to the total estimated periods of active patient enrollment over the estimated duration of the trial.

The Company considers that this depicts the progress of the completion of the trials under the Termination and Transfer Agreement, as the status of patients on the trial is not directly affected by decisions that the Company might make relating to its own development of the NY-ESO cell therapy program.

The amount of the transaction price that is allocated to performance obligations that are unsatisfied or partially satisfied under the agreement as of June 30, 2024 was $29,878,000, of

which $13,958,000 is allocated to the IGNYTE performance obligation and $15,920,000 is allocated to the LTFU performance obligation.

The Astellas Collaboration Agreement

The Company and Universal Cells mutually agreed to terminate the Astellas Collaboration Agreement as of March 6, 2023 (the "Termination Date"). In connection with the termination, all licenses and sublicenses granted to either party pursuant to the Collaboration Agreement ceased as of the Termination Date. There were no termination penalties in connection with the termination; however the Company is still entitled to receive reimbursement for research and development work performed up to and including a period of 30 days after the Termination Date.

The termination was accounted for as a contract modification on a cumulative catch-up basis. No performance obligations were identified as a result of the modification as there were no further goods or services to be provided by the Company and the modification resulted in the remaining unsatisfied and partially satisfied performance obligations under the collaboration becoming fully satisfied. The aggregate transaction price of the contract modification was $42,365,000 which included the remaining deferred income that had not been recognized as revenue as of the date of the modification and variable consideration from the remaining reimbursement income to be billed under the collaboration at the end of the 30 day period after the Effective Date. The transaction price of the modification was recognized in full in March 2023 and there is no remaining transaction price allocated to performance obligations that are unsatisfied or partially satisfied under, no remaining deferred income relating to, the agreement as of June 30, 2024 and no revenue was recognized in 2024.

If observed market prices are not available (for example securities with short maturities and infrequent secondary market trades), the securities are priced using a valuation model maximizing observable inputs, including market interest rates.

As of June 30, 2024, the Company has the following investments in marketable securities (in thousands):

	Remaining contractual maturity	Amortized cost	Gross unrealized gains	Gross unrealized losses	Aggregate estimated fair value
Available-for-sale debt securities:					
Corporate debt securities	3 months to 1 year	$ 2,979	$ —	$ —	$ 2,979
		$ 2,979	**$ —**	**$ —**	**$ 2,979**

The aggregate fair value (in thousands) and number of securities held by the Company (including those classified as cash equivalents) in an unrealized loss position as of June 30, 2024 and December 31, 2023 are as follows:

	June 30, 2024			December 31, 2023		
	Fair market value of investments in an unrealized loss position	Number of investments in an unrealized loss position	Unrealized losses	Fair market value of investments in an unrealized loss position	Number of investments in an unrealized loss position	Unrealized losses

	$ 1,987	**1**	**$ —**	**$ 1,600**	**1**	**$ (1)**

As of June 30, 2024, no allowance for expected credit losses has been recognized in relation to the security in an unrealized loss position. This is because the unrealized loss is not severe, does not represent a significant proportion of the total fair market value of the investment and the security has an investment-grade credit rating. Furthermore, the Company does not intend to sell the debt security in an unrealized loss position, believes that it has the ability to hold the debt security to maturity, and it is currently unlikely that the Company will be required to sell this security before the recovery of the amortized cost.

On April 8, 2022 the Company entered into a sales agreement with Cowen (the “Sales Agreement”) under which we may from time to time issue and sell ADSs representing our ordinary shares through Cowen in ATM offerings for an aggregate offering price of up to $200 million. In the six months ended June 30, 2024 the Company sold 27,278,176 ADSs under the agreement representing 163,669,056 ordinary shares resulting in net proceeds to the Company of $29,155,317 after deducting commissions payable under the Sales Agreement and issuance costs. As of June 30, 2024, approximately $156,228,841 remained available for sale under the Sales Agreement.

Note 13 – Business combinations

On March 6, 2023 the Company announced entry into a definitive agreement under which it would combine with TCR^2 Therapeutics Inc. ("TCR^2") in an all-stock transaction to create a preeminent cell therapy company focused on treating solid tumors. TCR^2 is a Boston, Massachusetts-based T-cell therapy company focused on treating solid tumours, with clinical franchises undergoing trials and a preclinical pipeline. The combination provides extensive benefits for clinical development and product delivery supported by complementary technology platforms.

The transaction was approved by the Company's shareholders and TCR^2 stockholders on May 30, 2023 and the merger became effective on June 1, 2023. The Company issued 357,429,306 shares to TCR^2 stockholders in return for 100% of TCR^2's stock. As a result, TCR^2 and all entities within the TCR^2 group, became wholly owned by the Company. Following the completion of the transaction, the former TCR^2 stockholders held approximately 25% of the Company, whereas the Company's pre-existing shareholders held approximately 75%.

The Company was identified as the acquirer, with TCR^2 as the acquiree, and June 1, 2023 was determined to be the acquisition date.

The consideration transferred for TCR^2 includes the shares issued by the Company to former TCR^2 shareholders, plus the fair value of replacement awards of the Company granted to TCR^2 grantholders attributable to pre-combination vesting. The table below summarizes the consideration transferred and the amounts of the assets acquired and liabilities assumed recognized at the acquisition date:

Consideration transferred:		
Fair value of 357,429,306 ordinary shares issued	$	60,763
Fair value of replacement options and RSU-style options granted attributable to pre-combination service:		963
Purchase consideration	**$**	**61,726**
Identifiable assets acquired and liabilities assumed:		
Assets acquired		
Cash and cash equivalents	$	43,610
Restricted cash		1,654
Marketable securities - available-for-sale debt securities		39,532
Other current assets and prepaid expenses		6,029
Property, plant and equipment		2,712
Operating lease right-of-use assets		5,145
Intangible assets		58
Total assets acquired	**$**	**98,740**
Liabilities assumed		
Accounts payable		(6,210)
Accrued expenses and other current liabilities		(4,537)
Operating lease liabilities, current		(1,974)
Operating lease liabilities, non-current		(2,244)
Total liabilities assumed	**$**	**(14,965)**
Net assets acquired and liabilities assumed	**$**	**83,775**

The fair value of the 357,429,306 ordinary shares issued to TCR^2 stockholders of $60,763,000 was determined on the basis of the closing market price of $1.02 ($0.17 per ordinary share) of the Company's ADSs as of May 31, 2023.

The assets acquired and liabilities assumed were measured based on management's estimates of the fair value as of the acquisition date, excluding leases.

The lease contracts acquired by the Company relate to the rental of office and manufacturing spaces in which TCR^2 was the lessee. The Company retained TCR^2's previous classification of acquired leases as operating leases as there were no lease modifications as a result of the combination, with the exception of leases with a remaining lease term of 12 months or less at the acquisition date, for which no assets or liabilities were recognized at the acquisition date. The lease liabilities were measured at the present value of the remaining lease payments as if the leases were a new lease as of June 1, 2023, discounted using the incremental borrowing rate. The right-of-use assets were measured at the same amount as the lease liabilities, with adjustments to reflect favorable or unfavorable terms compared to market terms. No intangible assets were identified in relation to lease contracts acquired.

The table below summarises the calculation for the gain on bargain purchase, recognized in the Gain on bargain purchase line in the Consolidated Statement of Operations:

Gain on bargain purchase		
Purchase consideration	$	(61,726)
Net assets acquired and liabilities assumed		83,775
Gain on bargain purchase	**$**	**22,049**

The gain on bargain purchase above includes the impact of a $106,000 reduction recognized in the third quarter of 2023 following finalization of provisional amounts relating to replacement awards.

The transaction resulted in a gain on bargain purchase as the purchase consideration included in the agreement on March 6, 2023 comprising Company ADSs was based on a fixed ratio of 1.5117 of the Company's ADSs to be issued for each TCR^2 stock acquired. As the transaction was an all-stock transaction, the value of the consideration was highly sensitive to changes in the Company's ADS price. The price of a Company ADS fell from a closing price of $1.32 on March 6, 2023 compared to a closing price of $1.02 on May 31, 2023.

The amount of revenue and earnings of the combined entity for the six months ended June 30, 2023, had the acquisition date been January 1, 2022, would be as follows:

		Six months ended June 30, 2023
Revenue	$	52,731
Net loss		(86,202)

The supplemental pro forma earnings for the six months ended June 30, 2023 were adjusted to exclude the $22 million Gain on bargain purchase, $7.2 million of acquisition-related costs recognized by the Company, as detailed below, and the $7.7 million of acquisition-related costs incurred by TCR^2 during that period. The supplemental pro forma earnings was adjusted to include the impact of replacement options issued, as if these had been issued as of January 1, 2022. Accordingly, the share-based compensation expense recognized by TCR^2 in the five months ended May 31, 2023 prior to the acquisition by the Company, of $1.0 million were excluded from the pro forma earnings.

TCR^2 did not generate revenue in the period from January 1, 2023 to June 30, 2023, as it has no contracts with customers, so there was no impact on the revenue included in the Company's Consolidated Statement of Operations or in the supplemental pro forma revenue and earnings presented above.

The Company incurred the following acquisition-related costs that were recognized as an expense in 2023:

	Six months ended June 30, 2023	Total acquisition-related costs
Legal, professional and accounting fees	$ 4,993	$ 5,174
Bankers' fees	2,172	2,172
Total acquisition-related costs	**$ 7,165**	**$ 7,346**

All acquisition-related costs that were recognized as an expense were recognized in General and administrative expenses in the Consolidated Statement of Operations. No issuance costs were incurred relating to the issuance of shares to TCR[2] stockholders.

Borrowings

Note 14 – Borrowings

On May 14, 2024 (the "Closing Date"), we entered into a Loan and Security Agreement (the "Loan Agreement"), with several banks and other financial institutions or entities and Hercules Capital, Inc. ("Hercules Capital"), for a term loan facility of up to $125.0 million (the "Term Loan"), consisting of a term loan advance in the aggregate principal amount equal to $25.0 million on the Closing Date (the "Tranche 1 Advance"), and three further term loan advances available to the Company subject to certain terms and conditions in aggregate principal amounts of $25.0 million, $5.0 million and $30.0 million, respectively, and a term loan advance available in the sole discretion of the lenders and subject to certain terms and conditions in the aggregate principal amount of $40.0 million. The proceeds of the Term Loan will be used solely to repay related fees and expenses in connection with the Loan Agreement and for working capital and general corporate purposes.

The Term Loan attracts interest on the outstanding principal in the form of both cash and payment-in-kind ("PIK") interest. The cash interest rate is the greater of the Prime Rate plus 1.15% and 9.65% and is paid monthly in arrears. The PIK interest rate is 2% per annum. The outstanding principal used to determine both the cash and PIK interest is inclusive of capitalized PIK interest. The Term Loan also attracts an End of Term Charge of 5.85% payable on maturity which is based on the aggregate original principal amount (i.e. excluding capitalized PIK interest).

The Term Loan matures on June 1, 2029 and payments are interest-only until the Amortization Date after which the monthly payments include repayments of both principal and interest. The Amortization Date is June 1, 2027 but can be extended if certain criteria are met and the Company chooses to extend the date. The final Term Loan Maturity Date cannot be extended.

The Term Loan is secured by a lien on substantially all of Borrower's existing or after-acquired assets, including intellectual property, subject to customary exceptions. In addition, the Loan Agreement contains customary closing and commitment fees, prepayment fees and provisions, events of default and representations, warranties and affirmative and negative covenants, including a financial covenant requiring the Company to maintain certain levels of cash in accounts subject to a control agreement in favor of Hercules Capital (the "Qualified Cash") during the period commencing on January 1, 2025 (which initial commencement date is subject to adjustment if certain performance milestones are met) and at all times thereafter, provided that if the Company has achieved certain performance milestones, the amount of Qualified Cash is subject to certain reductions. The Loan Agreement also includes customary events of default, including payment defaults, breaches of covenants following any applicable cure period, the occurrence of certain events that could reasonably be expected to have a "material adverse effect" as set forth in the Loan Agreement, cross acceleration to third-party indebtedness and certain events relating to bankruptcy or insolvency.

Each loan tranche has been identified as a separate unit of account within the scope of ASC 835-30 *Imputation of interest*, with the Tranche 1 Advance constituting a debt instrument and the remaining tranches being loan commitments.

The Company drew down the Tranche 1 Advance of $25,000,000 on May 14, 2024 and received proceeds of $24,500,000 after charges payable to Hercules Capital. No qualifying debt issuance costs were incurred in relation to the Tranche 1 Advance. The Tranche 1 Advance was initially recognized at $24,750,000. At June 30, 2024 the face value of the outstanding principal (including capitalized PIK interest) on the Term Loan was $25,067,000, less unamortized discount and unaccreted value of the End of Term Charge of $113,000 based on the imputed interest rate of 13.5%.

The fair value of the Term Loan at June 30, 2024 is a Level 2 measurement considered to approximate its book value of $25.0 million due to the short period of time since the Term Loan was entered into and the interest rates upon which the terms of the Term Loan were based, notably the Prime Rate, have not changed since the Term Loan was drawn.

The aggregate maturity of the term loan for the next five years from June 30, 2024 is as follows:

	Maturity
2024	$ —
2025	—
2026	—
2027	6,380
2028	11,793
2029	9,035
Total principal repayments	**$ 27,208**
Composition of principal repayments	
Original principal	**$** 25,000
Capitalized PIK interest	2,208
Total principal repayments	**$ 27,208**

The payments included in the table include capitalized PIK interest, as this forms part of the principal balance to be repaid once incurred. Payments relating to cash interest and the End of Term Charge are excluded as they do not constitute repayments of the principal.

Note 15 – Segment reporting

The Company has one reportable segment relating to the research, development and planned commercialization of its novel cell therapies. The segment derives its current revenues from research and development collaborations.

The Company's Chief Operating Decision Maker (the "CODM"), its Chief Executive Officer and the senior leadership team (comprising the Executive Team members and three senior vice presidents), manages the Company's operations on an integrated basis for the purposes of allocating resources. When evaluating the Company's financial performance, the CODM reviews total revenues, total expenses and expenses by function and the CODM makes decisions using this information on a global basis.

Summary of Significant Accounting Policies (Policies)	6 Months Ended Jun. 30, 2024

Summary of Significant Accounting Policies

Basis of presentation

(a) Basis of presentation

The condensed consolidated financial statements of Adaptimmune Therapeutics plc and its subsidiaries and other financial information included in this Quarterly Report are unaudited and have been prepared in accordance with generally accepted accounting principles in the United States of America ("U.S. GAAP") and are presented in U.S. dollars. All significant intercompany accounts and transactions between the Company and its subsidiaries have been eliminated on consolidation.

The unaudited condensed consolidated financial statements presented in this Quarterly Report should be read in conjunction with the consolidated financial statements and accompanying notes included in the Company's Annual Report on Form 10-K filed with the SEC on March 6, 2024 (the "Annual Report"). The balance sheet as of December 31, 2023 was derived from audited consolidated financial statements included in the Company's Annual Report but does not include all disclosures required by U.S. GAAP. The Company's significant accounting policies are described in Note 2 to those consolidated financial statements.

Certain information and footnote disclosures normally included in financial statements prepared in accordance with U.S. GAAP have been condensed or omitted from these interim financial statements. However, these interim financial statements include all adjustments, consisting only of normal recurring adjustments, which are, in the opinion of management, necessary to fairly state the results of the interim period. The interim results are not necessarily indicative of results to be expected for the full year.

Use of estimates in interim financial statements

(b) Use of estimates in interim financial statements

The preparation of interim financial statements, in conformity with U.S. GAAP and SEC regulations, requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the interim financial statements and reported amounts of revenues and expenses during the reporting period. Estimates and assumptions are made in various areas, including in relation to valuation allowances relating to deferred tax assets, revenue recognition, the fair value of assets acquired, liabilities assumed and consideration transferred in business combinations, and estimation of the incremental borrowing rate for operating leases. If actual results differ from the Company's estimates, or to the extent these estimates are adjusted in future periods, the Company's results of operations could either benefit from, or be adversely affected by, any such change in estimate.

Fair value measurements

(c) Fair value measurements

The Company is required to disclose information on all assets and liabilities reported at fair value that enables an assessment of the inputs used in determining the reported fair values. The fair value hierarchy prioritizes valuation inputs based on the observable nature of those inputs. The hierarchy defines three levels of valuation inputs:

Level 1 - Quoted prices in active markets for identical assets or liabilities

Level 2 - Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly

Level 3 - Unobservable inputs that reflect the Company's own assumptions about the assumptions market participants would use in pricing the asset or liability

The carrying amounts of the Company's cash and cash equivalents, restricted cash, accounts receivable, accounts payable and accrued expenses approximate fair value because of the short-term nature of these instruments. The fair value of marketable securities, which are measured at fair value on a recurring basis is detailed in Note 6, Fair value measurements.

Significant concentrations of credit risk

(d) Significant concentrations of credit risk

The Company held cash and cash equivalents of $211,810,000, marketable securities of $2,979,000 and restricted cash of $2,866,000 as of June 30, 2024. The cash and cash equivalents and restricted cash are held with multiple banks and the Company monitors the credit rating of those banks. The Company maintains cash balances in excess of amounts insured by the Federal Deposit Insurance Corporation in the United States and the U.K. Government Financial Services Compensation Scheme in the United Kingdom. The Company's investment policy limits investments to certain types of instruments, such as money market instruments, corporate debt securities and commercial paper, places restrictions on maturities and concentration by type and issuer and specifies the minimum credit ratings for all investments and the average credit quality of the portfolio.

The Company had three customers during the three and six months ended June 30, 2024 which are Galapagos, Genentech and GSK. There were accounts receivable of $2,335,000 as of June 30, 2024 and $821,000 as of December 31, 2023. The Company has been transacting with Galapagos since 2024, Genentech since 2021 and GSK since 2014, during which time no credit losses have been recognized. As of June 30, 2024, no allowance for expected credit losses is recognized on the basis that the possibility of credit losses arising on its receivables as of June 30, 2024 is considered to be remote. As of June 30, 2024 there are no receivables, either accrued or billed, due from Genentech that are no longer recoverable following the termination of the Genentech Collaboration and License Agreement.

Management analyzes current and past due accounts and determines if an allowance for credit losses is required based on collection experience, credit worthiness of customers and other relevant information. The process of estimating the uncollectible accounts involves assumptions and judgments and the ultimate amounts of uncollectible accounts receivable could be in excess of the amounts provided.

New accounting pronouncements

Adopted in the current period

Improvements to Reportable Segment Disclosures

In November 2023, the FASB issued ASU 2023-07 – Segment Reporting (Topic 280) – Improvements to Reportable Segment Disclosures, which improves segment disclosure requirements, primarily through enhanced disclosure requirements for significant segment expenses. The improved disclosure requirements apply to all public entities that are required to report segment information, including those with only one reportable segment. The Company adopted the guidance in the fiscal year beginning January 1, 2024. There was no impact on the Company's reportable segments identified and additional required disclosures have been included in Note 15.

In March 2024, the FASB issued ASU 2024-02 - Codification Improvements—Amendments to remove References to the Concepts Statements, which contains amendments to the Codification that remove references to various FASB Concepts Statements. The amendments apply to all reporting entities within the scope of the affected accounting guidance and are effective for public business entities for fiscal years beginning after December 15, 2024, with early adoption permitted for all entities. The Company adopted the guidance in the fiscal year beginning January 1, 2024. There was no impact on the Company's financial statements.

To be adopted in future periods

Improvements to Income Tax Disclosures

In December 2023, the FASB issued ASU 2023-09 – Income Taxes (Topic 740) – Improvements to Income Tax Disclosures, which improves income tax disclosures primarily relating to the rate reconciliation and income taxes paid information. This includes a tabular reconciliation using both percentages and reporting currency amounts, covering various tax and reconciling items, and disaggregated summaries of income taxes paid during the period. For public business entities, the guidance is effective for annual periods beginning after December 15, 2024, with early adoption permitted. The Company intends to adopt the guidance in the fiscal year beginning January 1, 2025. The Company is currently evaluating the impact of the guidance on its Consolidated financial statements.

Borrowings

(f) Borrowings

The Company recognizes borrowings comprised solely of contractual payments on fixed or determinable dates that are issued solely for cash equal to their face value, at face value with the difference between the face amount and proceeds received upon issuance shown as either a discount or premium.

These notes are subsequently measured using the Interest Method, with the total interest being measured as the difference between the actual amount of cash received by the Company and the total amount agreed to be repaid. The interest charge in a given period is based on the effective interest rate, which is the rate implicit in the note based on the contractual cash flows. The discount or premium on the note is amortized as interest expense over the life of the note so as to produce a constant rate of interest.
