NOT FDIC INSURED • MAY LOSE VALUE • NO BANK GUARANTEE

Performance: The Bottom Line
Average annual total return reflects the change in the value of an investment, assuming reinvestment of the fund's distributions from dividend income and capital gains (the profits earned upon the sale of securities that have grown in value, if any) and assuming a constant rate of performance each year. The \$1,000,000 table and the fund's returns do not reflect the deduction of fases that a shareholder would pay on fund distributions or the redemption of fund shares. During periods of reimbursement by Fidelity, a fund's total return will be greater than it would be had the reimbursement not occurred. How a fund did yesterday is no guarantee of how it will do tomorrow.

Average Annual Table Returns

\$2,031,898 Fidelity Real Estate High Income Fund

\$1,113,521 Barclays® U.S. CMBS ex AAA Index

Amangement's Discussion of Fund Performance
Market Recap: Commercial mortgage-backed securities (CMBS) delivered a solid gain during the 12 months ending November 30, 2012, as reflected by the 17,02% return of the Barclays® U.S. CMBS ex AAA Index. For comparison purposes, the Barclays® U.S. Aggregate Bond Index, a measure of investment-grade bonds, returned 5.51%, where the Sex P 500% Index, a large-eap such benchmark, gained 16, 13%. A number of factors worked in favor of CMBS, including declining Treasury yields, an accommodative Federal Reserve, investors' search for yield in a low interest rate environment and gradually improving commercial real estate fundamentals. The spreads of CMBS over Treasuries temporarily widered during the second quarter of 2012, as the markets experienced another surge of anxiety over the European sovereign debt or increase. The surge of the summer progressed, and spreads during the second debt period at lower levels than a year ago, the surge of the summer progressed, and spreads deep received in the summer progressed, and spreads of the period at lower levels than a year ago, withough it remained far from what seven at the 2007 peak in securitization, before the Great month in agency, my characteristics, which depressed agency yields, use seen at the 2007 peak in securitization, before the Great months against the period of the perio

coccession.

The procession of the period to a content to the procession of the period to a content to the procession of the period to a content to the period to a content to the procession of the period to a content to the period t

much damage, performance was hampered by BALL 2005-MIBI K, a deeply subordinated bond whose credit rating was downgraded during the period due to the nonperforming status of its underlying loans. Also weighing on performance were CSMC 2007-TF.I. I. and CSFB 2003-C3. J, the latter of which we sold. All three detractors we've just mentioned were CMB's holdings.

The views appressed down reflect those of the portfolio manager(s) only through the end of the period as stated on the cover of this report and do not necessarily represent the views of Fidelity or any other person in the Fidelity organization. Any such views are subject to change at any time based upon market or other conditions and Fidelity disclaims any responsibility to update such views. These views may not be relied on as investment advice and, because investment decisions for a Fidelity fund are based on numerous factors, may not be relied on as an indication of trading intent on behalf of any Fidelity fund.

Shareholder Expense Example
As a shareholder of the Fund, you incur two types of costs: (1) transaction costs and (2) ongoing costs, including management fees and other Fund expenses. This Example is intended to help you understand your ongoing costs (in dollars) of investing in the Fund and to compare these costs with the ongoing costs of investing in other mutual funds. The Example is based on an investment of \$1,000 invested at the beginning of the period and held for the entire period (June 1, 2012 to November 30, 2012).

The first line of the accompanying table provides information about actual account values and actual expenses. You may use the information in this line, together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000.00 (for example, an \$8,600 account value divided by \$1,000.00 (for example, an \$8,600 account value divided by \$1,000.00 (for example, an \$8,600 account value divided by \$1,000.00 (for example, an \$8,600 account value divided by \$1,000.00 (for example, an \$8,600 account value divided by \$1,000.00 (for example, an \$8,600 account value divided by \$1,000.00 (for example, an \$8,600 account value divided by \$1,000.00 (for example, an \$8,600 account value divided by \$1,000.00 (for example, an \$8,600 account value divided by \$1,000.00 (for example, an \$8,600 account value divided by \$1,000.00 (for example, an \$8,600 account value divided by \$1,000.00 (for example, an \$8,600 account value divided by \$1,000.00 (for example, an \$8,600 account value divided by \$1,000.00 (for example, an \$8,600 account value divided by \$1,000.00 (for example, an \$8,600 account value divided by \$1,000.00 (for example, an \$8,600 account value divided by \$1,000.00 (for example, an \$8,600 account value divided by \$1,000.00 (for example, an \$8,600 account value divided by \$1,000.00 (for example, an \$8,600 account value value divided by \$1,000.00 (for example, an \$8,600 account value v

Legend						
(a) Non-income producing						
(b) Affiliated fund that is available only to investment companies and other accounts managed by Fidelity Investments. The rate quoted is the annualized seven-day yield of the fund at	period end. A complete unaudited listing of the fund's holdings as of its mo	t recent quarter end is available upon request. In addition, each Fide	elity Central Fund's financial statements,	which are not covered by the Fund	's Report of Inde	pendent Registered Public Accounting Firm, are
available on the SEC's website or upon request.						
(c) Non-income producing - Security is in default.						
(d) Amount is stated in United States dollars unless otherwise noted.						
e) Security exempt from registration under Rule 144A of the Securities Act of 1933. These securities may be resold in transactions exempt from registration, normally to qualified insti	tutional buyers. At the end of the period, the value of these securities amou	sted to \$508,278,436 or 56.3% of net assets.				
Coupon rates for floating and adjustable rate securities reflect the rates in effect at period end.						
(g) Security represents right to receive monthly interest payments on an underlying pool of mortgages or assets. Principal shown is the outstanding par amount of the pool as of the end	of the period.					
(h) Restricted securities - Investment in securities not registered under the Securities Act of 1933 (excluding 144A issues). At the end of the period, the value of restricted securities (ex

3. Significant Accounting Policies.

3. Significant Accounding Policies.
The financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP), which require management to make certain estimates and assumptions at the date of the financial statements. Actual results could differ from those estimates. Subsequent events, if any, through the date that the financial statements were issued have been evaluated in the preparation of the financial statements. The following summarizes the significant accounting policies of the Fund:
Investment Valuation. Investments are valuated on 4 follow. In Estatement on the last calendar day of the period. In excordance ewith undersuper sproved by the Board of Trustees (the Board), the Fund attempts to obtain prices from one or more third party pricing vendors or brokers to value its investments. When current market prices, quotations or rates are not readily available or reliable, investments will be fair valued in good faith by the FMR Fair Value Committee (the Committee), in accordance ewith procedures adopted by the Board. Factors used in determining fair value vary by investment type and many include market or investment specific events, changes in interest rates and order durally. The fourier durally the fourier durally. The fourier durally the fourier durally. The fourier durally the fourier

these procedures are used cannot be predicted and they may be utilized to a significant extent. The Committee oversees the Fund's valuation policies and procedures and is responsible for approving and reporting to the Board all fair value determin

The Fund categorizes the inputs to valuation techniques used to value its investments into a disclosure hierarchy consisting of three levels as shown below:

The Fund categorizes the inputs to valuation techniques used to value its investments into a disclosure inciractly consisting of three levels as shown below:

Level 2 - volted registricts for identical investments by major category are as follows:

Valuation techniques used to value the Fund's investments by major category are as follows:

Debt securities, uncluding restricted securities, are valued based on evaluated prices received from third party pricing vendors or from brokers who make markets in such securities. For corporate bonds, floating rate loans and preferred securities, pricing vendors utilize matrix pricing which considers yield or price of bonds of comparable quality Deter securities, including restricted securities, are valued used on evaluated prices received from timin party pricing versions of non-indicated manages in securities, collateralized mortgage obligations and type as well as broker-applied prices and are generally categorized as Level 2 in the hierarchy. For seasy that descending occurring, component and type as well as shorters and are generally categorized as Level 2 in the hierarchy. For foreign edols incurrent and type as well as which in a coordance with procedures adopted by the Board of Trustees. These are generally categorized as Level 2 in the hierarchy but may be Level 3 depending on the circumstances. The Fund invests a significant portion of its assets in below investment grade securities, whose significant market or securities as the more volatile due to changes in the credit quality of the issuer and is sensitive to changes in economic, market and regulatory conditions.

Equity securities, including restricted securities, for which market quotations are readily available, are valued at the last reported sale price or official closing price as reported by a third party pricing vendor on the primary market or exchange on which they are traded and are categorized as Level 1 in the hierarchy. In the event there were no sales during the day or closing prices are not available, securities are valued at the last quoted bid price or may be valued using the last available price and are generally categorized as Level 2 in the hierarchy.

Annual Report 3. Significant Accounting Policies - continued Investment Valuation - continued

The Fund attempts to obtain prices from one or more third party pricing vendors or brokers. For certain securities, independent prices may be unavailable, unreliable or limited to a single source or dealer. As of November 30, 2012, 22% of the securities held by the Fund were either valued based on a price provided by a single source or dealer or were fair valued. Actual prices may unjuffer from the values that would be realized if the securities were sold, and the differences could be material. Investments in open-end mutual funds, including the Fidelity Certaral Funds, are valued at their coinsign net asset value (ANY) each basies day and are categorized as Level 1 in the hierarchy.

Quantitative Information about Leaf 3 Fed at N (1984 Measurements) Falsity End Enter High Princes and an N N combrid N, 30/12 And An Open State					
The following provides information on Level 3 securities held by the Fund that were valued at p	eriod end based on unobservable inputs. These amounts exclu	de valuations provided by a broker.			
Asset Type	Fair Value at 11/30/12	Valuation Technique(s)	Unobservable Input	Range	Weighted Average
Asset-Backed Securities	\$ 6,437,647	Discounted Cash Flow	Yield	5.76% - 10%	9.21%
		Market Comparable	Spread	6.25%	6.25%
		Expected Distribution	Recovery Rate	0% - 100%	69.59%
Collateralized Mortgage Obligations	\$ 1,919,802	Discounted Cash Flow	Yield	3% - 52%	26.99%
		Expected Distribution	Recovery Rate	0%	0%
Commercial Mortgage Securities	\$ 21,118,696	Discounted Cash Flow	Yield	8% - 50%	9.03%
		Market Comparable	Spread	12.03% - 58.10%	20.75%
		Expected Distribution	Recovery Rate	0% - 78%	74.68%
Corporate Bonds	\$ 595,655	Discounted Cash Flow	Yield	30%	30%
		Expected Distribution	Recovery Rate	0%	0%
Floating Rate Loans	\$ 2,827,469	Discounted Cash Flow	Yield	8.91% - 9.76%	9.6%
Preferred Securities	S-	Expected Distribution	Recovery Rate	0%	0%

For the unobservable inputs listed in the table above, a significant increase in yields or spreads could result in a significant decrease to the fair value measurement. A significant increase in estimated recovery rates could result in a significant increase to the fair value measurement.

adjusted on a prospective basis over the remaining life of the security, resulting in increases or decreases to Interest Income in the accompanying Statement of Operations. Investment income is recorded net of foreign taxes withheld where recovery of such taxes is uncertain. Debt obligations may be placed on non-accrual status and related interest income may be reduced by ceasing current accruals and writing off interest receivables when the collection of all or a portion of interest has become doubtful based on consistently applied procedures. A debt obligation is removed from non-accrual status when the issuer resumes interest payments or when collectability of interest is reasonably

assured.

Expenses. Expenses. Expenses directly attributable to a fund are charged to that fund. Expenses attributable to more than one fund are allocated among the respective funds on the basis of relative net assets or other appropriate methods. Expense estimates are accrued in the period to which they relate and adjustments are made when actual amounts are kn Income Tax Information and Distributions to Shareholders. Each year, the Fund intends to qualify as a regulated investment company under Subchapter M of the Internal Revenue Code, including distributing substantially all of its taxable: income and retailized gains. As a result, no provision for income taxes is required. As of November 30, as a required. A fund's federal income tax returns are subject to examination for income tax extenses are required. A fund's federal income tax returns are subject to examination for an additional fixed year depending on the jurisdiction. For regular taxes required. A fund's federal income tax returns are subject to examination for an additional fixed year depending on the pursication. For regular taxes reported of the regular taxes are required. A fund's federal income tax returns are subject to examination for an additional fixed year depending on the pursication. For regular taxes reported of the results of period of three fixed years after they are filed.

Dividends are declared and recorded duity and paid monthly from net investment income. Distributions from realized gains, if any, are declared and recorded of the ex-dividend date. Income and capital gain distributions are determined in accordance with income tax regulations, which may differ from GAAP. Capital accounts which this fine financial statements are adjusted for permanent book-tax differences. These adjustments have no impact on an easter of the results of operations. Temporary book-tax differences were will reverse in a subsequent period.

Book-tax differences are primarily due to foreign currency tra continued tions, passive foreign investment companies (PFIC), market discount, capital loss carryforwards and losses deferred due to excise tax regulations and wash sales

The federal tax cost of investment securities and unrealized appreciation (depreciation) as of period end were as follows:		
Gross unrealized appreciation		\$ 76,090,714
Gross unrealized depreciation		(67.084.276)
Net unrealized appreciation (depreciation) on securities and other investments		\$ 9,006,438
Tax Cost		\$ 885 160 146
The tax-based components of distributable earnings as of period end were as follows:		
Radistributed ordinary income		
Capital loss carryforward		\$ (36.311.858)
Net unrealized appreciation (depreciation)		\$ 9.016.229

Capital loss carry forwards are only available to offset future capital gains of the Fund to the extent provided by regulations and may be limited. Under the Regulated Investment Company Modernization Act of 2010 (the Act), the Fund is permitted to carry forward capital losses incurred in taxable years beginning after December 22, 2010 for an unlimited period and such capital losses are required to be used prior to any losses that expire. Capital loss carry forwards were as follows:

Fiscal year of expiration			
2016			
2017	(12,497,160)		
2019	(15.362.164)		
Total with expiration	th expiration

Report of Independent Registered Public Accounting Frm

To the Trustees of Fidelity Advisor Series I and the Shareholders of Fidelity Real Estate High Income Fund.

In our opinion, the accompanying statement of assets and this libilities, including the schedule of investments, and the related statements of operations, of changes in net assets and of cash flows and the financial highlights present fairly, in all material respects, the financial position of Fidelity Real Estate High Income Fund.

In our opinion, the accompanying statement of assets and this libilities, including the schedule of investments, and the related statements of operations, of changes in net assets and of cash flows and the financial highlights for each of the five years in the period then ended, in conformity with accounting principles generally accepted in the United States of America. These financial statements in financial highlights for each of the five years in the period then ended, in conformity with accounting principles generally accepted in the United States of America. These financial statements all statements and an accountance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are five of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements are five of material misstatement. An audit includes examining, on a test basis, evidence supporting the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits, which included confirmation of securities at November 30, 2012 by correspondence with the custodian, agent banks an brokers, provide a reasonable basis for our opinion.

The Board stock that the development of services designed to enhance the value or convenience of the Fidelity funds as investment vehicles. These services include 24-hour access to account information through telephone representatives and functioned that the providing a large variety of mutual fund investor services. The Board mosted free the benefits to directing in a fidelity fund in cluding the benefits of investing in a find that is part of a large family of funds offering a variety of mvestment disciplines and providing a large variety of mutual fund investor services. The Board mosted free the benefits to submitted in the Fidelity funds taking, a number of actions over the previous year that benefits of particular funds, including (b) continuing to dedicate additional resources to investment research and support of the senior management sportfolior to enhance Fidelity's research capabilities, in particular, intermetational research, (ii) launching new funds and making options, specifically for the Freedom Fund product lines; (v) adopting a "Stock Selection" sector neutral investment approach and employing a sear of portfolior managements which is the product lines; (v) adopting a "Stock Selection" sector neutral investment approach and employing options, specifically for the Freedom Fund product line; (v) adopting a "Stock Selection" sector neutral investment approach and employing a sear of portfolior managements which is to manage certain funds; (vi) attendaring product lines and gaining increased efficiencies through the neutral neutral

Fidelity Real Estate High Income Fund

2011 Total Return % vs. Lipper High Current Yield Funds and Barclays US CMBS ex-AAA:

The Board reviewed the fund's relative investment performance against its peer group and noted that the performance of the fund was in the first quartile for the one-year period, and the fourth quartile for the five-year period. The Board also noted that the investment performance of the fund compared favorably to its benchmark for the one- and five-year period, although the fund's three-year cumulative total return was lower than its benchmark. The Board also reviewed the fund's performance since inception as well as performance in the current year.

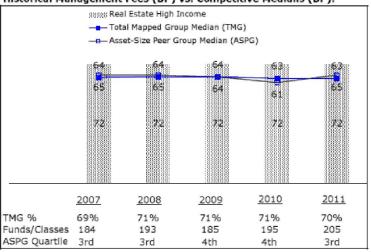

Based on its review, the Board concluded that the nature, extent, and quality of services provided to the fund under the Advisory Contracts should benefit the fund's shareholders.

Competitiveness of Management Free and Total Expense Ratio. The Board considered the fund's management fee and total expense natio comparable management and total expense ratio comparable management review of the state of the s

Management Fee: The Board considered two proprietury management fee comparisons for the 12-month periods shown in the chart below. The group of Lipper funds used by the Board for management fee comparisons is referred to below as the "Total Mapped Group." The Total Mapped Group is broader than the Lipper peer group used by the Board for performance comparisons because the Total Mapped Group combines several Lipper investment objective categories while the Lipper peer group does not. The Total Mapped Group combines several Lipper investment objective categories while the Lipper peer group does not. The Total Mapped Group combines on a fund's standing relative to the total universe of comparable funds available to investors in terms of gross management fees before express reminuscentents or caps. "Total" of "Propersents the formal happed Group that he fund. The "Asser-Stee Feer Group" (ASPC) comparison focuses on a fund's standing relative to non-Fidelity funds similar in size to the fund within the Total Mapped Group. The ASPG represents at least 15% of the funds in the Total Mapped Group with comparable asset size and management fee characteristics, subject to a minimum of 50 funds (or all funds in the Total Mapped Group if fewer than 50). Fidelity Real Estate High Income Fund

Historical Management Fees (BP) vs. Competitive Medians (BP):

The Board noted that the fund's management fee ranked above the median of its Total Mapped Group and above the median of its ASPG for 2011. The Board considered that the fund is a unique investment product for large institutional clients that, unlike typical high income funds, focuses on lower quality commercial mortgage-backed securities and other real estate-related investments and, as such, competitive rankings are less meaningful. FMR is not aware of any other mutual funds with a similar investment strategy.

FIDELITY FUNDS' CODE OF ETHICS FOR PRESIDENT, TREASURER AND PRINCIPAL ACCOUNTING OFFICER

I. Purposes of the Code/Covered Officers

This document constitutes the Code of Ethics (Code) adopted by the Fidelity Funds (Funds) pursuant to the provisions of Rule 30b2-1(a) under the Investment Company Act of 1940), which Rule implements Sections 406 of the Sarbanes-Oxley Act of 2002 with respect to registered investment companies. The Code applies to the Fidelity Funds' President and Treasurer, and Chief Financial Officer (Covered Officers). Fidelity's Ethics Office, a part of Corporate Compliance Group within Core Compliance, administers the Code.

The purposes of the Code are to deter wrongdoing and to promote, on the part of the Covered Officers:

- honest and ethical conduct, including the ethical handling of actual or apparent conflicts of interest between personal and professional relationships;
- full, fair, accurate, timely and understandable disclosure in reports and documents that the Fidelity Funds submit to the Securities and Exchange Commission (SEC), and in other public communications by a Fidelity Fund;
- compliance with applicable laws and governmental rules and regulations;
- the prompt internal reporting to an appropriate person or persons identified in the Code of violations of the Code; and
- accountability for adherence to the Code.

Each Covered Officer should adhere to a high standard of business ethics and should be sensitive to situations that may give rise to actual as well as apparent conflicts of interest.

II. Covered Officers Should Handle Ethically

Actual and Apparent Conflicts of Interest

Overview. A "conflict of interest" occurs when a Covered Officer's private interest interferes with the interests of, or his service to, the Fidelity Funds. For example, a conflict of interest would arise if a Covered Officer, or a member of his family, receives improper personal benefits as a result of his position with the Fidelity Funds. Certain conflicts of interest arise out of the relationships between Covered Officers and the Fidelity Funds and already are subject to conflict of interest provisions in the Investment Company Act of 1940 (Investment Company Act) and the Investment Advisers Act of 1940 (Investment Advisers Act). For example, Covered Officers may not individually engage in certain transactions (such as the purchase or sale of securities or other property) with a Fidelity Fund because of their status as "affiliated persons" of the Fund. Separate compliance programs and procedures of the Fidelity Funds, Fidelity Management & Research Company (FMR) and the other Fidelity companies are designed to prevent, or identify and correct, violations of these provisions. This Code does not, and is not intended to, repeat or replace these programs and procedures, and such conflicts fall outside of the parameters of this Code.

Although typically not presenting an opportunity for improper personal benefit, conflicts arise from, or as a result of, the contractual relationship between the Fidelity Funds and FMR (or another Fidelity company) of which the Covered Officers are also officers or employees. As a result, this Code recognizes that the Covered Officers will, in the normal course of their duties (whether formally for the Fidelity Funds, FMR or another Fidelity company), be involved in establishing policies and implementing decisions that have different effects on the Fidelity Funds, FMR and other Fidelity companies. The participation of the Covered Officers in such activities is inherent in the contractual relationship between the Fidelity Funds and FMR (or another Fidelity company), and is consistent with the performance by the Covered Officers of their duties as officers of the Fidelity Funds. Thus, if performed in conformity with the provisions of the Investment Company Act and the Investment Advisers Act, such activities will be deemed to have been handled ethically. In addition, it is recognized by the Funds' Board of Trustees (Board) that the Covered Officers also may be officers or employees of one or more other Fidelity Funds covered by this Code.

Other conflicts of interest are covered by the Code, even if such conflicts of interest are not subject to provisions in the Investment Company Act and the Investment Advisers Act. The following list provides examples of conflicts of interest under the Code, but Covered Officers should keep in mind that these examples are not exhaustive. The overarching principle is that the personal interest of a Covered Officer should not be placed improperly before the interest of a Fidelity Fund.

* * *

Each Covered Officer must:

- not use his or her personal influence or personal relationships improperly to influence investment decisions or financial reporting by any Fidelity Fund whereby the Covered Officer would benefit personally to the detriment of any Fidelity Fund;
- not cause a Fidelity Fund to take action, or fail to take action, for the individual personal benefit of the Covered Officer rather than the benefit of the Fidelity Fund;
- not engage in any outside business activity, including serving as a director or trustee, that prevents the Covered Officer from devoting appropriate time and attention to the Covered Officer's responsibilities with the Fidelity Funds;
- not have a consulting or employment relationship with any of the Fidelity Funds' service providers that are not affiliated with Fidelity; and
- not retaliate against any employee or Covered Officer for reports of actual or potential misconduct, which are made in good faith.

With respect to other fact patterns, if a Covered Officer is in doubt, other potential conflict of interest situations should be described immediately to the Fidelity Ethics Office for resolution. Similarly, any questions a Covered Officer has generally regarding the application or interpretation of the Code should be directed to the Fidelity Ethics Office immediately.

III. Disclosure and Compliance

- Each Covered Officer should familiarize himself with the disclosure requirements generally applicable to the Fidelity Funds.
- Each Covered Officer should not knowingly misrepresent, or cause others to misrepresent, facts about any Fidelity Fund to others, whether within or outside Fidelity, including to the Board and auditors, and to governmental regulators and self-regulatory organizations;
- Each Covered Officer should, to the extent appropriate within his area of responsibility, consult with other officers and employees of the Fidelity Funds, FMR and the Fidelity service providers, and with the Board's Compliance Committee, with the goal of promoting full, fair, accurate, timely and understandable disclosure in the reports and documents the Fidelity Funds file with, or submit to, the SEC and in other public communications made by the Fidelity Funds; and
- It is the responsibility of each Covered Officer to promote compliance with the standards and restrictions imposed by applicable laws, rules and regulations.

IV. Reporting and Accountability

Each Covered Officer must:

- upon receipt of the Code, and annually thereafter, submit to the Fidelity Ethics Office an acknowledgement stating that he or she has received, read, and understands the Code; and
- notify the Fidelity Ethics Office promptly if he or she knows of any violation of the Code. <u>Failure to do so is itself a violation of this Code</u>.

The Fidelity Ethics Office shall take all action it considers appropriate to investigate any actual or potential violations reported to it. Upon completion of the investigation, if necessary, the matter will be reviewed with senior management or other appropriate parties, and a determination will be made as to whether any action should be taken as detailed below. The Covered Officer will be informed of any action determined to be appropriate. The Fidelity Ethics Office will inform the Personal Trading Committee of all Code violations and actions taken in response. Without implied limitation, appropriate remedial, disciplinary or preventive action may include a written warning, a letter of censure, suspension, dismissal or, in the event of criminal or other serious

violations of law, notification of the SEC or other appropriate law enforcement authorities. Additionally, other legal remedies may be pursued.

The policies and procedures described in the Code do not create any obligations to any person or entity other than the Fidelity Funds. The Code is intended solely for the internal use by the Fidelity Funds and does not constitute a promise, contract or an admission by or on behalf of any Fidelity Fund as to any fact, circumstance, or legal conclusion. The Fidelity Funds, the Fidelity companies and the Fidelity Chief Ethics Officer retain the discretion to decide whether the Code applies to a specific situation, and how it should be interpreted.

V. Oversight

Material violations of this Code will be reported promptly by FMR to the Board's Compliance Committee. In addition, at least once each year, FMR will provide a written report to the Board, which describes any issues arising under the Code since the last report to the Board, including, but not limited to, information about material violations of the Code and action taken in response to the material violations.

VI. Other Policies and Procedures

This Code shall be the sole code of ethics adopted by the Fidelity Funds for purposes of Section 406 of the Sarbanes-Oxley Act and the rules and forms applicable to registered investment companies thereunder. Other Fidelity policies or procedures that cover the behavior or activities of Covered Officers are separate requirements applying to the Covered Officers (and others), and are not part of this Code.

VII. Amendments

Any material amendments or changes to this Code must be approved or ratified by a majority vote of the Board, including a majority of the Trustees who are not interested persons of the Fidelity Funds.

VIII. Records and Confidentiality

Records of any violation of the Code and of the actions taken as a result of such violations will be kept by the Fidelity Ethics Office. All reports and records prepared or maintained pursuant to this Code will be considered confidential and shall be maintained and protected accordingly. Except as otherwise required by law or this Code, such matters shall not be disclosed to anyone other than the Fidelity Ethics Office, the Personal Trading Committee, the Board, appropriate personnel at the relevant Fidelity company or companies and the legal counsel of any or all of the foregoing.
