University General Health System Provides Market Guidance Regarding First Quarter Results

Occupancy Levels and Surgical Volumes Continue to Increase

HOUSTON, TX -- (Marketwire - May 16, 2013) - University General Health System, Inc. (OTCQB: UGHS), a diversified, integrated multi-specialty health care delivery system, today announced certain preliminary information regarding the quarter ended March 31, 2013. The Company expects to report that first quarter 2013 occupancy at its flagship hospital in Houston exceeded prior-year levels by over 21%. The Company also anticipates a 47% increase in occupancy at its recently acquired University General Hospital - Dallas during the first quarter of 2013, compared with occupancy during the month of December 2012, when the hospital was acquired by the Company. Dallas emergency room visits increased 9% and surgical volumes increased 29% during the most recent quarter relative to the month of December 2012.

"We are pleased with the continued increase in occupancy and surgical procedures at our flagship hospitals in both Houston and Dallas," stated Hassan Chahadeh, M.D., Chairman and Chief Executive Officer of University General Health System, Inc. "We would expect this to be reflected in our financial performance for the first quarter of 2013, which should continue to mirror the success of our integrated regional delivery system model." Due to a recent change in auditors, combined with the acquisition of the Dallas hospital and certain accounting and tax calculations, the Company expects to extend the filing deadline for its first quarter Form 10-Q, which was due on May 15, 2013. For the same reasons, the Company has yet to file its Form 10-K for the year ended December 31, 2012. The Form 10-K for the year 2012 should be filed prior to, or coincident with, the filing of the Form 10-Q for the first quarter of 2013.
