SECURITIES AND EXCHANGE COMMISSION

Washington, D.C. 20549

FORM 6-K

REPORT OF FOREIGN PRIVATE ISSUER PURSUANT TO RULE 13a-16 OR 15d-16 UNDER THE SECURITIES EXCHANGE ACT OF 1934

For the month of May, 2013

Commission File Number 001-32712

KIMBER RESOURCES INC.

(Translation of registrant's name into English)

Suite 215 - 800 West Pender St. Vancouver, British Columbia V6C 2V6 Canada

(Address of principal executive office)

Indicate by check mark whether the registrant files or will file annual reports under cover of Form 20-F or Form 40-F.

Form 20-F [X] Form 40-F [ ]

Indicate by check mark if the registrant is submitting the Form 6-K in paper as permitted by Regulation S-T Rule 101(b)(1): [ ]

Note: Regulation S-T Rule 101(b)(1) only permits the submission in paper of a Form 6-K if submitted solely to provide an attached annual report to security holders.

Indicate by check mark if the registrant is submitting the Form 6-K in paper as permitted by Regulation S-T Rule 101(b)(7): [ ]

Note: Regulation S-T Rule 101(b)(7) only permits the submission in paper of a Form 6-K if submitted to furnish a report or other document that the registrant foreign private issuer must furnish and make public under the laws of the jurisdiction in which the registrant is incorporated, domiciled or legally organized (the registrant's "home country"), or under the rules of the home country exchange on which the registrant's securities are traded, as long as the report or other document is not a press release, is not required to be and has not been distributed to the registrant's security holders, and, if discussing a material event, has already been the subject of a Form 6-K submission or other Commission filing on EDGAR.

Indicate by check mark whether the registrant by furnishing the information contained in this Form is also thereby furnishing the information to the Commission pursuant to Rule 12g3-2(b) under the Securities Exchange Act of 1934.

Yes [ ] No [X]

If "Yes" is marked, indicate below the file number assigned to the registrant in connection with Rule 12g3-2(b): 82-________.

Exhibit

99.1	Interim Financial Statements for the quarter ended March 31, 2013
99.2	MD&A for the quarter ended March 31, 2013

1. Description of business and going concern

Kimber Resources Inc. ("Kimber" or the "Company") is incorporated in British Columbia, Canada, and is involved in the acquisition and exploration of mineral right interests in Mexico.

The head office, principal address and registered and records office of the Company are located at Suite 220 - 800 West Pender Street, Vancouver, BC V6C 2V6.

At the date of these condensed consolidated interim financial statements, Kimber has not yet determined whether any of its mineral rights contain economically recoverable mineral reserves. Accordingly, the carrying amount of mineral interests represents cumulative expenditures incurred to date and does not necessarily reflect present or future values. The recovery of these costs is dependent upon the discovery of economically recoverable mineral reserves and the ability of Kimber to obtain the necessary financing to complete their exploration and development and to resolve any environmental, regulatory, or other constraints.

Although Kimber has taken steps to verify title to the properties in which it has an interest, in accordance with industry standards for properties in the exploration stage, these procedures do not guarantee Kimber's title. Property title may be subject to unregistered prior agreements and non-compliance with regulatory requirements.

These condensed consolidated interim financial statements have been prepared on a going concern basis, which assumes Kimber will continue operations for the foreseeable future and be able to realize its assets and discharge its liabilities in the normal course of business. Kimber does not generate cash flows from operations and accordingly, Kimber will need to raise additional funds through future issuance of debt or securities. Although Kimber has been successful in raising funds in the past, there can be no assurance Kimber will be able to raise sufficient funds in the future, in which case Kimber may be unable to meet its obligations as they come due in the normal course of business. If Kimber cannot raise funds, its mining properties may be joint ventured, optioned, sold or abandoned.

On July 6, 2012, Kimber entered into a $5.0 million bridge loan credit facility with Sprott Resource Lending Partnership ("SRLP") and made an initial drawdown of $3.0 million. On January 24, 2013, the remaining $2.0 million of the credit facility was drawn down. The term of the facility is one year, with a closing date of June 29, 2013, which may be extended for an additional six months, subject to the facility being in good standing, and on payment of an extension fee in the amount of 3%.

Kimber has incurred losses since inception, has an accumulated deficit of $29,389,799 as at March 31, 2013 and a net loss for the nine months ended March 31, 2013 of $2,796,924. These conditions raise substantial doubt regarding Kimber's ability to continue as a going concern. Should Kimber be unable to realize its assets and discharge its liabilities in the normal course of business, the net realizable value of its assets may be materially less than the amounts on the statement of financial position.

The condensed consolidated interim financial statements are presented in Canadian dollars and all values are rounded to the nearest dollar except where otherwise indicated.

2. Basis of preparation

(a) Statement of compliance

These condensed consolidated interim financial statements are unaudited and have been prepared in accordance with IAS 34, *Interim Financial Reporting* ("IAS 34") using accounting policies consistent with the International Financial Reporting Standards ("IFRS"), as issued by the International Accounting Standards Board ("IASB") and Interpretations of the International Financial Reporting Interpretations Committee.

These condensed consolidated interim financial statements do not include all the necessary annual disclosures in accordance with IFRS as issued by the International Accounting Standards Board. These condensed consolidated interim financial statements should be read in conjunction with the Company's 2012 annual consolidated financial statements under IFRS.

(b) Basis of presentation

The financial statements have been prepared on the historical cost basis except for certain financial instruments, which are measured at fair value.

These condensed consolidated interim financial statements include the accounts of Kimber, and its wholly-owned Mexican subsidiaries, Minera Monterde, S. de R.L de C.V., Minera Pericones, S.A. de C.V. and Kimber Resources de Mexico, S.A. de C.V.

(c) Adoption of new and revised standards and interpretations

Certain pronouncements were issued by the IASB or the International Financial Reporting Interpretations Committee that are mandatory for accounting periods after June 30, 2013. Pronouncements that are not applicable to the Company have been excluded from those described below. These recent accounting pronouncements should be read in conjunction with the Company's 2012 consolidated annual financial statements.

(a) The following five new Standards were issued by the IASB in May 2011, and are effective for annual periods beginning on or after January 1, 2013. The Company does not plan to early adopt the following standards. The Company is assessing the impact of the implementation of these standards on the Company's 2014 consolidated annual financial statements.

   (i) IFRS 10 *Consolidated Financial Statements*
   (ii) IFRS 11 *Joint Arrangements*
   (iii) IFRS 12 *Disclosure of Interests in Other Entities*
   (iv) IAS 27 *Separate Financial Statements*
   (v) IAS 28 *Investments in Associates and Joint Ventures*

(b) IFRS 13 *Fair Value Measurement*

(c) IAS 1 *Presentation of Financial Statements*

(d) IFRIC 20 *Stripping Costs in the Production Phase of a Surface Mine*

(e) IFRS 9 *Financial Instruments*

3. Summary of significant accounting policies

(a) Basis of consolidation

These condensed consolidated interim financial statements include the financial statements of the Company and its controlled subsidiaries. Control is achieved when the Company has the power to govern the financial and operating policies of an entity so as to obtain benefits from its activities.

The results of subsidiaries acquired or disposed of during the period are included in the consolidated statement of comprehensive loss from the effective date of control or up to the effective date of loss of control, as appropriate.

All intercompany transactions, balances, income and expenses are eliminated in full on consolidation.

(b) Significant accounting judgments and estimates

The preparation of these condensed consolidated interim financial statements requires management to make judgments and estimates and form assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and reported amounts of expenses during the reporting period. On an ongoing basis, management evaluates its judgments and estimates in relation to assets, liabilities and expenses. Management uses historical experience and various other factors it believes to be reasonable under the given circumstances as the basis for its judgments and estimates. Actual outcomes may differ from these estimates under different assumptions and conditions.

The most significant estimates relate to amortization of equipment, recoverability of trade and other receivables, valuation of deferred income tax amounts, impairment of mineral interests, and the calculation of share-based compensation.

The most significant judgments relate to recoverability of capitalized amounts, recognition of deferred tax assets and liabilities, the determination of functional currency, the determination of the economic viability of a project and the preparation of consolidated financial statements on a going concern basis.

(Stated in Canadian dollars)

4. Segmented information

At March 31, 2013 the Company has one reportable operating segment, being mineral exploration.

The Company operates in two geographical areas, being Canada and Mexico. The following is an analysis of the Company's assets by geographical area and reconciled to the Company's condensed consolidated interim financial statements:

	March 31, 2013	June 30, 2012
	$	$
Assets by geographic segment, at cost		
Canada		
Current assets	**2,145,517**	1,774,479
Equipment	**72,259**	69,185
	2,217,776	1,843,664
Mexico		
Current assets	**598,143**	1,468,869
Equipment	**480,986**	529,169
Mineral interests	**61,947,927**	58,966,941
	63,027,056	60,964,979
	65,244,832	62,808,643

(Stated in Canadian dollars)

5. Loss per share

The calculation of basic and diluted loss per share for the relevant periods is based on the following data:

	Three Months Ended March 31,		Nine Months Ended March 31,	
	2013	2012	**2013**	2012
Net loss attributable to shareholders for the purpose of basic and diluted loss per share	**$1,146,420**	$ 987,341	**$2,796,924**	$ 2,589,071
Weighted average number of shares for the purpose of basic and diluted loss per share	**82,972,876**	82,445,377	**82,701,725**	81,918,166

All outstanding stock options and warrants were anti-dilutive for the relevant periods.

6. Trade and other receivables

Trade and other receivables are comprised primarily of IVA value added tax credits refundable from the Government of Mexico which is currently calculated as 16% of expenditures in Mexico. Kimber has been receiving IVA refunds on an ongoing basis and expects to continue to recover outstanding amounts. At March 31, 2013 the Company has a provision of $122,942 for trade and other receivables which have been outstanding for more than one year which was recorded during the year ended June 30, 2012. All other IVA tax receivables have been outstanding for less than one year.

	March 31, 2013	June 30, 2012
	$	$
IVA tax receivable	**494,408**	1,371,200
HST receivable	**37,750**	40,999
Other receivables	**11,683**	5,557
	543,841	1,417,756

(Stated in Canadian dollars)

8. Mineral interests

Kimber's mineral interests relate to mineral rights for the Monterde property located in the State of Chihuahua, Mexico.
Kimber holds mineral rights to the Pericones and Setago properties in State of Mexico, Mexico and the State of Chihuahua, Mexico. All expenditures on these two properties have been written off or expensed previously.
During the nine month period ended March 31, 2013 Kimber capitalized $2,980,986 of costs to mineral interests (nine months to March 31, 2012; $9,025,120).

(Stated in Canadian dollars)

8. Mineral interests (continued)

Monterde Property

The Monterde Property consists of the Monterde concessions, the contiguous El Coronel concessions and staked concessions. The entire Monterde Property comprises of 35 mineral concessions totalling 29,296 hectares in the Sierra Madre in the State of Chihuahua, Mexico.

Monterde concessions

Kimber owns a 100% interest in the Monterde concessions having acquired the concessions by payment of total consideration of $1,477,043 (US$1,129,900) in prior years.

El Coronel concessions

Kimber owns a 100% interest in the El Coronel mineral concessions by having made total payments of $1,206,958 (US$1,000,000) in prior years.

Staked concessions

Kimber has a 100% interest in concessions that were staked adjacent to the Monterde concessions and El Coronel concessions. There are no payment obligations for these staked concessions aside from semi-annual taxes.

Pericones and Setago Properties

The Pericones Property is located approximately 160 kilometres southwest of Mexico City and covers 11,890 hectares. The Setago Property lies approximately 24 kilometres to the west of Monterde and covers 10,069 hectares. Expenditures on both these properties have been written off or expensed in previous periods.

9. Short term loan

On July 6, 2012, Kimber entered into a $5 million bridge loan credit facility with SRLP. The facility bears interest at a rate of 12% per annum, payable monthly. The facility was made available through a $3 million drawdown on the closing date and a further $2 million drawdown made on January 24, 2013. The term of the facility is one year, which may be extended for an additional six months, subject to the facility being in good standing, and on payment of an extension fee in the amount of 3% of the amount drawn down. At March 31, 2013, the whole $5 million of the facility had been drawn down.

Kimber paid transaction costs of $442,350 associated with the credit facility of which $300,000 was paid by issuing 512,939 common shares of the Company. The credit facility has been classified as other liabilities and is being measured at amortized cost using the effective interest method. The credit facility is secured by a first call against all the Company's assets.

During the nine months ended March 31, 2013, the Company recognized finance expense of $651,043 on the credit facility which has been expensed (2011: $nil).

10. Equity and share capital

(a) Share capital

As March 31, 2013, the Company had 82,972,876 (June 30, 2012; 82,459,937) common shares issued and outstanding. The Company is authorized to issue an unlimited number of common shares at no par value.

(b) Stock option plan

On December 12, 2007, the shareholders of Kimber approved the adoption of a new 2007 Stock Option Plan that allows for the grant of stock options up to 10% of the issued and outstanding common shares from time to time, less the number of stock options outstanding under Kimber's former 2002 Stock Option Plan.

The exercise price is generally set at the closing price on the last trading date preceding the date of their grant and vests in accordance with the determination of the Board of Directors, generally one third on the date of grant and an additional third at the end of each nine month period thereafter.

The Compensation Committee determines and makes recommendations to the Board of Directors as to the recipients of, and nature and size of, share-based compensation awards in compliance with applicable securities law, stock exchange and other regulatory requirements.

There were 1,117,500 options issued during the nine months ended March 31, 2013. The weighted average fair value of the options issued during the nine months ended March 31, 2013 was estimated at $0.17 per option at the grant date using the Black-Scholes option pricing model. The weighted average fair value of the options issued during the year ended June 30, 2012 was estimated at $0.54 per option at the grant date using the Black-Scholes option pricing model. The weighted average assumptions used for the calculation were:

(Stated in Canadian dollars)

10. Equity and share capital (continued)

	Nine months ended March 31, 2013		Year ended June 30, 2012	
Risk free interest rate	1.17	%	1.09	%
Expected life	2.88 years		2.80 years	
Expected volatility (i)	65	%	80	%
Expected dividend per share	$Nil		$Nil	
Forfeiture rate	5	%	5	%

(i) Expected volatility has been based on historical volatility of the Company's publicly traded shares.

The total share-based compensation calculated for the nine months ended March 31, 2013 was $295,225 (2011 - $666,051) and the share-based compensation expense has been allocated to salaries and benefits on the statements of comprehensive loss.

(c) *Outstanding stock options*

The following is a summary of option transactions under the Company's stock option plan:

	Nine months ended March 31, 2013				Year ended June 30, 2012		
	Number of options		**Weighted average exercise price**	Number of options			Weighted average exercise price
			$				$
Balance, beginning of period	**6,221,965**	**$**	**1.03**	5,466,325		$	1.14

Weighted average exercise price	$0.94		$1.02	

(d) Warrants

The continuity of warrants for the nine months ended March 31, 2013 and the year ended June 30, 2012 is as follows:

	Warrants outstanding	Weighted average exercise price	Expiry date	Weighted average remaining life (years)
		$		
Balance, June 30, 2011	7,074,009	1.77		1.13
Expired	(1,997,459)	1.80		
Exercised	(3,750)	1.80		
Balance, June 30, 2012	5,072,800	1.76	December 23, 2012	0.48
Expired	(5,072,800)	1.76	December 23, 2012	-
Exercised	-	-		
Balance, March 31, 2013	-	-		-

All outstanding warrants expired unexercised on December 23, 2012.

11. Capital risk management

The capital structure of Kimber consists of a loan from SRLP and equity attributable to common shareholders comprising share capital, share option reserve, warrant reserve and deficit. Total capital as at March 31, 2013 was $59,784,117 (June 30, 2012 - $61,985,816). Kimber has no externally imposed capital requirements.

Kimber's objectives when managing capital are to maintain adequate capital resources to safeguard Kimber's ability to continue as a going concern, to maintain adequate levels of funding to support the acquisition, exploration and development of mineral properties, to maintain and enhance investor, creditor and market confidence to sustain future development of the business, and to provide returns to shareholders and benefits for other stakeholders.

12. Financial instruments

(a) Categories of financial instruments

	Classification	**March 31, 2013**	June 30, 2012
		$	$
Financial assets			
Cash and cash equivalents	Loans and receivables	**2,086,503**	1,546,363
Trade and other receivables	Loans and receivables	**543,841**	1,417,756
Total financial assets		**2,630,344**	2,964,119
Financial liabilities			
Trade and other payables	Other liabilities	**634,172**	822,827
Short term loan	Other liabilities	**4,826,543**	-
Total financial liabilities		**5,460,715**	822,827

(b) Fair value

The fair value of the Company's financial instruments approximates their carrying value as at March 31, 2013 because of the demand nature or short-term maturity of these instruments.

(c) Financial risk management objectives and policies

The Company's financial instruments include cash and cash equivalents, trade and other receivables, trade and other payables and a short term loan. The risks associated with these financial instruments and the policies on how to mitigate these risks are set out below. Management manages and monitors these exposures to ensure appropriate measures are implemented on a timely and effective manner.

(i) Currency risk

The operating results and financial position of Kimber are reported in Canadian dollars. Certain of Kimber's financial instruments and transactions are denominated in currencies other than the Canadian dollar. The results of Kimber's operations are subject to currency transaction and translation risk.

Kimber's exploration and some administration costs are incurred in Mexico and are denominated in Mexican pesos or U.S. dollars. The fluctuation of the U.S. dollar and Mexican peso in relation to the Canadian dollar will consequently impact Kimber's operating results and may affect the value of Kimber's assets and the amount of the equity. Kimber does not currently hedge its exposure to foreign exchange movements.

12. Financial instruments (continued)

(c) Financial risk management objectives and policies (continued)

(i) Currency risk (continued)

Kimber's monetary assets are held in Canadian dollars, United States dollars and Mexican pesos. A 5% change in the U.S. dollar and Mexican peso will affect Kimber as is indicated in the following table.

	March 31, **2013**	March 31, 2012
	$	$
Change in loss		
United States dollar	**916**	10,305
Mexican pesos	**19,642**	89,529

(ii) Credit risk

Credit risk is the risk of financial loss to the Company if a counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Company's cash and cash equivalents and trade and other receivables. The maximum risk exposure is limited to their carrying amounts at the balance sheet date. Cash and cash equivalents are held as cash deposits or invested in Treasury bills with various maturity dates. Kimber does not invest in asset-backed securities and does not expect any credit losses. Kimber periodically assesses the quality of its deposits.

Trade and other receivable consist primarily of paid value added tax recoverable ("IVA") from the Mexican Government for Mexican expenditures. Kimber regularly reviews and monitors the collectability of its amounts receivable.

(iii) Liquidity risk

Liquidity risk is the risk that Kimber may not be able to meet its financial obligations as they become due (Note 1). Kimber ensures that there is sufficient cash and cash equivalents to meet its business requirements on a timely basis. Kimber prepares regular budgets which are approved by the Board of Directors and also prepares cash flow forecasts on a regular basis.

The following table details Kimber's expected remaining contractual maturities for its financial liabilities. The table is based on the undiscounted cash flows of financial liabilities based on the earliest date on which Kimber can be required to satisfy the liabilities.

	Less than 1 month	1-3 months	4-12 months	Total
At March 31, 2013				
Trade and other payables	421,022	213,150		634,172
Short term loan			5,000,000	5,000,000
At June 30, 2012				
Trade and other payables	534,554	288,273		822,827

(Stated in Canadian dollars)

13. Supplemental cash flow information

Non-cash financing and investing activities

In the nine months ended March 31, 2013 and 2012, the Company incurred the following non-cash investing and financing transactions:

	Nine months ended March 31,	
	2012	2011
	$	$
Amortization capitalized to mineral interests	**68,028**	71,378
Transfer of share option reserve upon exercise of stock options	**-**	77,306
Transfer of warrants reserve upon exercise of warrants	**-**	558
Loan facility costs paid in shares	**300,000**	-

14. Commitments for expenditure

Operating lease

Kimber leases its premises in Vancouver under an operating lease which expires in the fiscal year ended June 30, 2013. At March 31, 2013, the Company is obligated to make $10,372 in basic rental payments under the lease for the year ended June 30, 2013. In addition, Kimber has the obligation to pay its proportionate share of operating costs and taxes for the building.

15. Approval of the financial statements

The condensed consolidated interim financial statements of Kimber for the nine months ended March 31, 2013 were approved and authorized for issue by the Board of Directors on May 13, 2013.

Exhibit 99.2

Kimber Resources Inc.
Management's Discussion and Analysis
For the three and nine month periods ended March 31, 2013

The following management's discussion and analysis ("MD&A") of Kimber Resources Inc.'s ("Kimber" or the "Company") financial position is for the three and nine month periods ended March 31, 2013 compared to the three and nine month periods ended March 31, 2012 and covers information up to the date of this MD&A as stated below. This discussion should be read in conjunction with the attached unaudited condensed consolidated interim financial statements which have been prepared in accordance with International Accounting Standard 34 – Interim Financial Reporting ("IAS 34") using accounting policies that are consistent with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB") and interpretations of the IFRS Interpretations Committee. This MD&A contains forward-looking statements that are based on certain estimates and assumptions and involve risks and uncertainties. Actual results may vary materially from management's expectations. See the "Cautionary Note Regarding Forward Looking Statements" and "Risks and Uncertainties" sections of this MD&A.

All amounts are stated in Canadian dollars unless indicated otherwise. Additional information regarding Kimber is available on SEDAR at www.sedar.com, on EDGAR at www.sec.gov/edgar.com, and on Kimber's website at www.kimberresources.com.

This MD&A is dated May 13, 2013.

Introduction

Kimber's strategy is to excel as an exploration and development company specializing in the discovery, definition and development of gold and silver deposits in Mexico, and to advance its projects into valuable assets potentially capable of becoming profitable mining operations. Kimber seeks to achieve these goals by focusing activities and cash expenditures on areas that will enhance the value of its assets while maintaining safe work conditions, protecting the environment and building strong relationships with local communities and stakeholders.

Kimber's principal asset is the Monterde project, which is 29,296 hectares in size and is located in the prolific Sierra Madre Gold-Silver belt of Northern Mexico. The Monterde project hosts substantial gold-silver mineralization and has three deposits located within two kilometres of each other. Kimber is currently advancing the Monterde project towards a production decision.

An independent updated Preliminary Economic Assessment for Monterde was filed on SEDAR on July 25, 2011 and was filed on EDGAR on July 28, 2011. An updated resource estimate for the Carmen deposit was announced on October 24, 2012 and filed on SEDAR on December 13, 2012 and on EDGAR on December 14, 2012. This report recommended that the Monterde project be advanced to the pre-feasibility stage and that further exploration to expand the gold and silver resources be considered.

The condensed consolidated interim financial statements for the three and nine months ended March 31, 2013 and 2012 are prepared on a going-concern basis, which assumes Kimber will continue operations for the foreseeable future and be able to realize its assets and discharge its liabilities and commitments in the normal course of business. Kimber does not generate cash flows from operations and accordingly, Kimber will need to raise additional funds through future issuance of debt or securities. Although Kimber has been successful in raising funds in the past, there can be no assurance Kimber will be able to raise sufficient funds in the future, in which case Kimber may be unable to meet its obligations as they come due in the normal course of business. If Kimber cannot raise funds, its mining properties may be joint ventured, optioned, sold or abandoned. On January 24, 2013 Kimber drew down the remaining $2 million of the bridge loan facility with Sprott Resource Lending Partnership ("SRLP") as disclosed below.

Kimber has not determined whether any of its properties contain mineral reserves that are economically recoverable. It is not possible to predict whether financing efforts will be successful or if Kimber will attain a profitable level of operations. Kimber has incurred losses since inception, has an accumulated deficit of $29,389,799 as at March 31, 2013 and incurred a net loss for the nine months ended March 31, 2013 of $2,796,924. These conditions raise substantial doubt regarding Kimber's ability to continue as a going concern. Should Kimber be unable to realize value from its assets and discharge its liabilities in the normal course of business, the net realizable value of its assets may be materially less than the amounts indicated in Kimber's statement of financial position.

The condensed consolidated interim financial statements for the three and nine months ended March 31, 2013 and 2012 do not include any adjustments to the carrying value of assets and liabilities, and changes to statements of financial position classifications that may be necessary should Kimber not continue as a going concern and these adjustments and reclassifications could be material.

Kimber Resources Inc. is based in Vancouver, British Columbia and trades on the NYSE MKT LLC (the "NYSE MKT") under the symbol "KBX" and on the Toronto Stock Exchange under the symbol "KBR." On May 7, 2013 Kimber announced that it had received a letter from the NYSE MKT notifying the Company that if it does not adequately address the low selling price of the Company's stock through a reverse stock split or otherwise raise the stock price to the satisfaction of the staff of the NYSE MKT within a reasonable amount of time, the Company will not satisfy the continued listing standards of the NYSE MKT Company Guide and will be subject to continued listing review by the staff of the NYSE MKT. The Company has not yet determined what action it will take in response to this letter.

Results of Operations

Three months ended March 31, 2013

Kimber's net loss and comprehensive loss for the three months ended March 31, 2013 was $1,146,420 or $0.01 per common share compared with a net loss and comprehensive loss of $987,341 or $0.01 loss per share for the three months ended March 31, 2012.

During the three months ended March 31, 2013 Kimber incurred exploration and evaluation expenditures of $855,435 on its mineral properties which have been capitalized. Exploration and evaluation activity during the three months ended March 31, 2013 was on the Monterde project. This compares to exploration and evaluation expenditures of $2,388,753 which were capitalized during the three months ended March 31, 2012.

Exploration and evaluation expenditures on the Monterde project decreased in the three months ended March 31, 2013 compared to the three months ended March 31, 2012. Exploration and evaluation expenditures for the three months ended March 31, 2013 were focused on technical studies to advance the Monterde project. Exploration and evaluation expenditures for the three months ended March 31, 2012 included a drilling program designed to expand and upgrade mineral resources at the Carmen and Veta Minitas deposits, to drill test new exploration targets and to gain drill samples for metallurgical and condemnation purposes.

A summary of mineral interests for the current and comparable period is included in the table below:

	Three months ended March 31, 2013	**Three months ended March 31, 2012**
Mineral interests		
Property acquisition and taxes	$ 97,935	$ 87,595
Exploration and evaluation	757,500	2,301,158
Total expenditures	$ 855,435	$ 2,388,753
Monterde expenditures		
Assays	$ 22,041	$ 323,751
Drilling	-	1,016,491
Engineering	99,518	199,175
Environmental study	8,084	74,532
Field Office	133,132	151,848
Geological, geophysical	201,186	216,770
Metallurgy	44,464	45,107
Supplies	66,101	121,808
Travel and accommodation	93,503	36,998
Other categories	89,471	114,678
Total Monterde expenditures	$ 757,500	$2,301,158

Monterde expenditures

Kimber did not undertake any drilling during the three months ended March 31, 2013. Detailed mapping and sampling of the underground workings that cut through the Carmen deposit continued to be carried out during the three months ended March 31, 2013. Assay costs of $22,041 were incurred relating to these underground samples.

Engineering costs were $99,518 for the three months ended March 31, 2013 compared to $199,175 for the three months ended March 31, 2012. Additional technical projects to advance the Monterde project were undertaken during the quarter ended March 31, 2013.

Environmental study costs were $8,084 for the three months ended March 31, 2013 compared to $74,532 for the three months ended March 31, 2012. Environmental study costs during the three months ended March 31, 2013 were due to the continued environmental baseline studies and reports for the Monterde project.

Administration costs

Salary and benefit expenses include share based compensation charges. Salary and benefit expenses were $352,881 during the three months ended March 31, 2013 compared to $669,989 for the three months ended March 31, 2012.

- Salary and benefits expenses net of share based compensation charges were $237,881 for the three months ended March 31, 2013 compared to $278,139 for the three months ended March 31, 2012. The decrease in costs for the three months ended March 31, 2013 compared to the three months ended March 31, 2012 was due to a reduction in compensation for management employees and directors.
- Non-cash share based compensation charges were $115,000 for the three months ended March 31, 2013 compared to $388,850 for the three months ended March 31, 2012. Current period charges were lower due to a lower Black Scholes valuation for the annual grant of options made in February 2013 as compared to the previous year.

Legal, consulting and audit costs were $192,112 for the three months ended March 31, 2013 compared to $168,283 in the comparative period. The increase in costs was a result of increases in legal fees due to the preparation and filing of a prospectus during the current period. Costs also include ongoing legal, accounting, audit costs and general advisory costs.

Investor relations and shareholder communications expenses were $19,272 for the three months ended March 31, 2013 compared to $44,692 for the three months ended March 31, 2012. The decrease in costs is attributable to a general reduction in investor relations activities.

Office, insurance and miscellaneous expenses were $82,202 for the three months ended March 31, 2013 compared to $72,944 for the three months ended March 31, 2012. The increase in costs is primarily attributable to costs incurred to upgrade the Company's computer systems and an increase in insurance costs.

Transfer and filing fees were $51,708 for the three months ended March 31, 2013 compared to $35,208 for the three months ended March 31, 2012. Transfer and filing fees includes fees paid to Kimber's transfer agent and fees paid to the Toronto and NYSE MKT stock exchanges. The increase in costs for the three months ended March 31, 2103 was attributable to prospectus filing fees.

Finance expenses were $326,068 for the three months ended March 31, 2013 compared to $473 for the three months ended March 31, 2012. Kimber obtained a $5 million credit facility from SRLP as noted below under 'Financings". The financing expenses for the three months ended March 31, 2013 included interest of $134,137, amortization of deferred finance costs of $133,985 and other costs of $57,946. Other costs include a fee of $50,000 paid to SRLP for an equity repayment waiver allowing Kimber to raise equity and not have to remit the new funds to SRLP. This waiver is effective to June 29, 2013 and will become effective to December 31, 2013 if the option to extend the loan by six months is exercised.

General exploration costs were $62,651 for the three months ended March 31, 2013 compared to $51,677 for the three months ended March 31, 2012. These costs include mineral rights concession fees for the Pericones and Setago properties which have increased during the current year.

Kimber recorded a gain from foreign exchange of $24,013 during the three months ended March 31, 2013 compared to a gain of $123,272 in the three months ended March 31, 2012. The gain originates from funds advanced to Mexico during the year that have appreciated in value due to fluctuations in the Mexican peso or United States dollar relative to the Canadian dollar.

Nine months ended March 31, 2013

Kimber's net loss and comprehensive loss for the nine months ended March 31, 2013 was $2,796,924 or $0.03 per common share compared with a net loss and comprehensive loss of $2,589,071 or $0.03 loss per share for the nine months ended March 31, 2012.

During the nine months ended March 31, 2013, Kimber incurred expenditures of $2,980,986 on its mineral properties which have been capitalized, $209,538 for property acquisition and tax payments and exploration and evaluation expenditures of $2,771,448. Exploration and evaluation activity during the nine months ended March 31, 2013 was on the Monterde project.

This compares to expenditures during the nine months ended March 31, 2012 of $9,025,120 on its mineral properties; $142,813 for property acquisition payments and exploration and evaluation expenditures of $8,882,307.

Exploration and evaluation expenditures on the Monterde project decreased in the nine months ended March 31, 2013 compared to the nine months ended March 31, 2012 due to a drilling program which started in 2011 and resulted in drilling costs of $4,621,852 in the nine months ended March 31, 2012, together with related assay, geological and other costs which were not repeated in the current year.

A summary of mineral interests for the current and comparable period is included in the table below:

	Nine months ended March 31, 2013	**Nine months ended March 31, 2012**
Mineral interests		
Property acquisition and taxes	$ 209,538	$ 142,813
Exploration and evaluation	2,771,448	8,882,307
Total expenditures	$ 2,980,986	$ 9,025,120
Monterde expenditures		
Assays	$ 96,398	$ 1,229,336
Drilling	-	4,621,852
Engineering	497,248	600,945
Environmental study	212,073	149,660
Field Office	404,969	534,595
Geological, geophysical	605,197	746,343
Metallurgy	128,685	166,105
Supplies	199,443	324,616
Travel and accommodation	252,267	117,091
Other categories	375,168	391,764
Total Monterde expenditures	$ 2,771,448	$ 8,882,307

Summary of Quarterly Results June 30, 2011 to March 31, 2013
(In accordance with IFRS)

	Q3 Mar 31/13	Q2 Dec 31/12	Q1 Sep30/12	Q4 Jun30/12
Interest income	$6,497	$8,401	$4,414	$6,214
Net loss and comprehensive loss	$(1,146,420)	$(852,384)	$(798,120)	$(967,570)
Loss per share – basic and diluted	$(0.01)	$(0.01)	$(0.01)	$(0.01)

	Q3 Mar 31/12	Q2 Dec 31/11	Q1 Sep30/11	Q4 Jun30/11
Interest income	$9,751	$17,693	$30,262	$15,883
Net loss and comprehensive loss	$(987,341)	$(843,543)	$(758,187)	$(790,470)
Loss per share – basic and diluted	$(0.01)	$(0.01)	$(0.01)	$(0.01)

Kimber is an exploration company, and therefore, variances in its quarterly losses are not affected by sales or production-related factors. Increases in expenditures are generally attributed to growth in operations and success in financing activities which allow Kimber to undertake further development and exploration activities on its properties.

Kimber's income is derived from interest and gains received on cash or short-term investments classified as cash and cash equivalents. Interest income fluctuates according to the amounts of funds held in deposit and interest rates offered during the period. Kimber does not have revenues from mining operations and does not expect to have revenues in the near future other than interest earned on cash balances.

Financial Condition

At March 31, 2013, Kimber had a working capital deficiency of $2,717,055 (June 30, 2012; surplus $2,420,521). The change in working capital for the nine months ended March 31, 2013 is primarily the result of an increase in cash to $2,086,503 (June 30, 2012; $1,546,363), a decrease in trade and other receivables to $543,841 from $1,417,756 offset by an increase in current liabilities including debt financing with SRLP of $4,826,543.

Cash Flows

Kimber has generated cash inflows from selling its shares either through financings, debt issuance, or the exercise of outstanding stock options and warrants. There is a risk that future financings will not be possible and that options and warrants may not be exercised if Kimber's share price falls below their respective exercise prices. During the nine months ended March 31, 2013 Kimber incurred debt financing with SRLP as disclosed in the "Financings" section below.

Trade and other receivables were $543,841 at March 31, 2013 compared to $1,417,756 at June 30, 2012. The decrease was due to the receipt of IVA refunds totalling $1,261,036 during the nine months ended March 31, 2013. As at March 31, 2013, all trade and other receivables are aged within one year. At the date of this MD&A, management believes that the full amount of the IVA outstanding is recoverable.

Prepaid expenses were $113,316 at March 31, 2013 compared to $279,229 at June 30, 2013. The decrease was due primarily to the elimination of prepaid insurance fees. Insurance fees are currently being paid on a monthly basis. Prepaid expenses also include amounts for annual stock exchange listing fees and annual software licensing fees.

Kimber made equipment purchases of $35,556 during the nine months ended March 31, 2013 compared to $131,480 for the nine months ended March 31, 2012.The main components of the current additions were for camp equipment of $15,214 and computer equipment of $17,461.

Property acquisition costs of $97,935 were incurred for semi-annual concession taxes during the nine months ended March 31, 2013. For the nine months ended March 31, 2012 property acquisition costs totaled $87,595. The increase in concession taxes was due to increases in the concessions rates.

Kimber received proceeds of $5,000,000 under a loan credit facility as described below under “Financings”.

Financings

On July 18, 2012, Kimber announced that it had entered into a $5 million bridge loan credit facility with SRLP. The facility is at an interest rate of 12% per annum, payable monthly. The facility was made available through a $3 million drawdown on the closing date and a $2 million drawdown which could be made thereafter. The term of the facility is one year, which may be extended for an additional six months, subject to the facility being in good standing, and on payment of an extension fee in the amount of 3%.There were transaction costs of $302,380 associated with the credit facility of which $180,000 was paid through the issuance of a share bonus payment. On September 10, 2012, 285,689 shares were issued to SRLP and its nominees in respect of the share bonus payment.

On January 24, 2013, Kimber drew down the remaining $2 million of the bridge loan facility with SRLP. In consideration of this drawdown Kimber was obligated to make a share bonus payment of $120,000 being 6% of the advance. On January 28, 2013, 227,250 shares were issued to SRLP in respect of the share bonus payment.

The table below describes how the proceeds of the loan facility have been used to date (other than working capital), against how the proceeds were expected to be used as disclosed in the press release dated July 18, 2012:

	As per press release[1]	**Incurred to date**
Exploration and development at the Monterde Project, including a pre-feasibility study and continued drilling	*Amount not specified*	$1,900,000

[1] A breakdown between this category of expenses and working capital expenses was not specified in the press release.

On July 26, 2011, Kimber announced that it had closed a bought deal private placement of 5,060,000 common shares that were issued at a price of $1.60 per share for gross proceeds of $8,096,000. The underwriters were paid a cash commission of 6.5% of the gross proceeds.

The table below describes how the proceeds have been used to date (other than working capital), against how the proceeds were expected to be used as disclosed in the press release dated July 26, 2011:

	As per press release[1]	Incurred to date
Exploration and development at the Monterde Project, including a pre-feasibility study and continued drilling	*Amount not specified*	$5,200,000

[1] A breakdown between this category of expenses and working capital expenses was not specified in the press release.

During the nine months ended March 31, 2013, no stock options were exercised (March 31, 2012; $167,114) and no warrants were exercised (March 31, 2012; $6,750).

Contractual Obligations

Kimber has a short-term loan with SRLP. Kimber is obligated to pay monthly interest payments at an interest rate of 12% per annum. The term of the loan is one year with the option to extend for an additional six months subject to the facility being in good standing, and the payment of an extension fee in the amount of 3% of the amount drawn down. At the date of this MD&A the total principal due at the end of the one year term on June 29, 2013 is $5 million. Kimber may extend this loan facility. The term of the facility is one year, with a closing date of June 29, 2013, which may be extended for an additional six months, subject to the facility being in good standing, and on payment of an extension fee in the amount of 3%.

Kimber has no future contractual obligations to property vendors for the Monterde, Setago or Pericones Properties.

Kimber leases its premises under an operating lease which expires on April 30, 2013. Kimber is obligated to make basic rent payments under its operating lease in the month ended April 30, 2013 totalling $10,375. In addition, under the lease Kimber has the obligation to pay its proportionate share of operating costs and taxes for the building.

Capital Resources and Liquidity

Capital resources of Kimber consist primarily of cash and liquid short-term investments. As at May 1, 2013 Kimber had cash and cash equivalents totaling approximately $1,400,000.

Management reviews cash expenditures on an ongoing basis, and is seeking to obtain additional financing

There can be no assurance that Kimber will succeed in obtaining additional financing, now or in the future. Current market conditions could make it difficult or impossible for Kimber to raise necessary funds to meet its capital requirements. Failure to raise additional financing on a timely basis could cause Kimber to suspend its operations and eventually to forfeit or sell its interest in its properties. In the past, Kimber has been successful at raising funds to continue work on its mining properties. However, there is no certainty that Kimber will be able to raise additional funding on reasonable terms if at all, in which case the property may be joint ventured, sold or abandoned. As noted in the "Financings" section above, Kimber has borrowed $5 million from SRLP.

Kimber does not anticipate the payment of dividends in the foreseeable future.

Related Party Transactions

Compensation of Key Management

The remuneration of key management personnel who have the authority and responsibility for planning, directing and continuing the activities of the Company during the period ended March 31, 2013 was as follows:

	For the three months ended March 31, 2013 ($)	For the nine months ended March 31, 2013 ($)
Stock-based compensation	97,598	307,136
Salaries	176,667	552,462
Directors' fees	41,718	149,218
TOTAL	315,983	1,008,816

Mineral Properties

The Monterde property, located in the Sierra Madre region of south-western Chihuahua State, Mexico, is Kimber's principal asset. As at March 31, 2013, the Monterde property is comprised of 35 mineral concessions covering 29,296 hectares and which extend 37 kilometres along the trend of mineralization.

Kimber holds 100% of the Monterde property, free of royalties, through its wholly-owned Mexican subsidiary, Minera Monterde, S. de R.L. de C.V. Three zones of gold-silver mineralization have been extensively drilled at Monterde, including Carmen, Veta Minitas and Carotare. Details of this work are listed in the Form 20-F Annual Report, filed on SEDAR and EDGAR, are displayed on Kimber's website, and have been described in previous news releases. The designated Qualified Persons responsible for each of the mineral resource statements are stated in the Form 20-F Annual Report.

Monterde – Carmen

The Carmen deposit is the main deposit located to date on the Monterde property. The Carmen deposit has been exploited in historic underground workings. Kimber has completed a number of exploration programs on the deposit. The current mineral resource estimate defined a high grade gold-silver mineral resource with improved metallurgical recoveries, which lies within an overall larger lower grade mineral resource.

Monterde - Veta Minitas

Veta Minitas is located approximately 250 metres south-west of the Carmen gold-silver deposit. The current mineral resource estimate defined a high grade gold-silver indicated and inferred mineral resource which lies within an overall larger lower grade indicated and inferred mineral resource.

Monterde – Carotare

The Carotare zone of mineralization is located two kilometres west of the Carmen Deposit.

Monterde – Preliminary Economic Assessment

An updated Preliminary Economic Assessment prepared by Micon International Limited, with assistance by Kirkham Geosystems Ltd., Knight Piésold Consulting Ltd. and other consultants employed directly by Kimber, was filed on SEDAR on July 25, 2011 and on EDGAR on July 28, 2011.

Monterde – Carmen - Updated Resource Estimate.

An updated resource estimate for the Carmen deposit was announced on October 24, 2012.

Kimber holds mineral rights to the Pericones property in the State of Mexico, Mexico and holds mineral rights to the Setago property in the State of Chihuahua, Mexico. All expenditures on these two properties have been written off or expensed previously.

Pericones

Pericones is located approximately 160 kilometres southwest of Mexico City in a belt that is well known for silver veins, some of which have been mined. The 100% owned Pericones property covers 11,890 hectares.

Setago

The 100% owned Setago Property, which consists of three concessions totalling 10,069 hectares, lies approximately 24 kilometres to the west of Monterde.

Technical Information and Qualified Persons

Unless otherwise indicated, Kimber has prepared the technical information in this MD&A ("Technical Information") based on information contained in the technical reports and news releases (collectively the "Disclosure Documents") available under Kimber's company profile on SEDAR at www.sedar.com and on Kimber's website. Each Disclosure Document was prepared by or under the supervision of a qualified person (a "Qualified Person") as defined in National Instrument 43-101 – *Standards of Disclosure for Mineral Projects*, of the Canadian Securities Administrators ("NI 43-101"). Readers are encouraged to review the full text of the Disclosure Documents which qualifies the Technical Information. Readers are advised that mineral resources that are not mineral reserves do not have demonstrated economic viability. The Disclosure Documents are each intended to be read as a whole and sections should not be read or relied upon out of context. The Technical Information is subject to the assumptions and qualifications contained in the Disclosure Documents.

The technical information disclosure in this MD&A has been approved by David Hembree, Certified Professional Geologist, Vice President Exploration of Kimber and a Qualified Person under NI 43-101.

Safety

Kimber continues to encourage a safe work environment. Safety meetings are held and first aid instruction is provided. Protective equipment is mandatory in the vicinity of heavy machinery and underground. There were no lost time incidents during the three months ended March 31, 2013.

Off-Balance Sheet Arrangements

Kimber has no off-balance sheet arrangements or transactions and none are contemplated.

Capital Management

The capital structure of Kimber consists of a short term loan and equity attributable to common shareholders comprising share capital, share option reserve, warrant reserve and deficit. Total capital as at March 31, 2013 was $59,784,117 (June 30, 2012; $61,985,816). Kimber has no externally imposed capital requirements.

Kimber's objectives when managing capital are to maintain adequate capital resources to safeguard Kimber's ability to continue as a going concern, to maintain adequate levels of funding to support the acquisition, exploration and development of mineral properties, to maintain and enhance investor, creditor and market confidence to sustain future development of the business, and to provide returns to shareholders and benefits for other stakeholders.

Fair value of Financial Instruments

Kimber has designated its cash and cash equivalents as loans and receivables. Trade and other receivables are classified as loans and receivables, which are measured at amortized cost. Trade and other payables are classified as other liabilities, which are measured at amortized cost. The carrying values of these financial instruments approximate fair values due to the short-term nature of these instruments.

Financial Risk Exposure and Risk Management

Kimber is exposed in varying degrees to a number of risks arising from financial instruments. Kimber manages its exposure to financial risks, including liquidity risk, foreign exchange rate risk, interest rate risk, credit risk and equity price risk in accordance with its risk management framework. Kimber does not participate in the use of financial instruments to mitigate these risks and has no designated hedging transactions.

The types of risk exposures and the way in which such exposures are managed are as follows:

Credit Risk

Credit risk primarily arises from Kimber's cash and cash equivalents and trade and other receivables. The maximum risk exposure is limited to their carrying amounts at the statement of financial position date. Cash and cash equivalents are held as cash deposits or invested in Treasury bills with various maturity dates. Kimber does not invest in asset-backed securities and does not expect any credit losses. Kimber periodically assesses the quality of its deposits.

Trade and other receivables consist primarily of paid value added tax recoverable ("IVA") from the Mexican Government for Mexican expenditures. Kimber regularly reviews the collectability of its trade and other receivables.

Liquidity Risk

Liquidity risk is the risk that Kimber may not be able to meet its financial obligations as they become due. Kimber ensures that there is sufficient cash and cash equivalents to meet its business requirements on a timely basis. Kimber prepares regular budgets which are approved by its Board of Directors and also prepares cash flow forecasts on a regular basis.

The following table details Kimber's expected remaining contractual maturities for its financial liabilities. The table is based on the undiscounted cash flows of financial liabilities based on the earliest date on which Kimber can be required to satisfy the liabilities.

	Less than 1 month	1-3 months	4-12 months	Total
At March 31, 2013				
Trade and other payables	$421,022	$213,150	$0	$634,172
Short term loan	$0	$0	$5,000,000	$5,000,000
At June 30, 2012				
Trade and other payables	$534,554	$288,273	$0	$822,827

Kimber intends to raise additional funds through various funding options in order to repay these amounts.

Currency Risk

The operating results and financial position of Kimber are reported in Canadian dollars. Certain of Kimber's financial instruments and transactions are denominated in currencies other than the Canadian dollar. The results of Kimber's operations are subject to currency transaction and translation risk.

Kimber's exploration and evaluation and some administration costs are incurred in Mexico and are denominated in Mexican pesos or US dollars. The fluctuation of the US dollar and Mexican peso in relation to the Canadian dollar will consequently impact Kimber's operating results and may affect the value of Kimber's assets and the amount of the shareholders' equity. Kimber does not currently hedge its exposure to foreign exchange movements.

Kimber's monetary assets are held in Canadian dollars, United States dollars and Mexican pesos. A 5% change in the US dollar and Mexican peso will affect Kimber as is indicated in the following table.

	Three months ended March 31,			
		2013		2012
Change in Net Loss				
United States dollars	$	916	$	10,305
Mexican pesos	$	19,642	$	89,529

Legal Proceedings

Kimber and its subsidiaries are not parties to any legal proceedings and have no material contingent liabilities as at March 31, 2013.

Critical accounting policies and estimates

A discussion of Kimber's significant accounting policies is contained in Note 3 to the audited consolidated financial statements for the year ended June 30, 2012.

Certain of these policies are recognized as critical because in applying these policies management is required to make judgements, assumptions and estimates that have a significant impact on the financial results of Kimber. The estimates used in applying these critical accounting policies have been discussed with the Audit Committee of our Board of Directors and are discussed below.

Measurement Uncertainties

The preparation of financial statements requires management to make estimates and assumptions that affect the reported amount of assets and liabilities at the date of the financial statements, and the reported amounts of expenses incurred during the reporting period. Significant areas requiring the use of management estimates relate to share-based compensation, impairment of mineral interests, recoverability of trade and other receivables, valuation of deferred income tax amounts and amortization. Actual results could differ from those estimates.

Accounting for Mineral Interests

Mineral interest acquisition costs, exploration, evaluation and direct field costs are deferred until the rights to which they relate are placed into production, at which time these deferred costs will be amortized over the estimated useful life of the rights upon commissioning the property, or written-off if the rights are disposed of, impaired or abandoned. Management reviews the carrying amounts of mineral interests on a periodic basis and will recognize impairment based upon current exploration results and upon assessment of the probability of profitable exploitation of the interests. Management's assessment of the mineral interest's fair value is also based upon a review of other mineral interest transactions that have occurred in the same geographic area as that of the interests under review. Administration costs and other exploration costs that do not relate to a specific mineral interest are expensed as incurred.

Internal Control over Financial Reporting

Kimber's management is responsible for establishing and maintaining adequate internal control over financial reporting ("ICFR"), as defined in National Instrument 52-109 of the Canadian Securities Administrators and as defined in the US Securities Exchange Act of 1934.

Kimber's ICFR includes those policies and procedures that: (i) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of Kimber's assets; (ii) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with IFRS, and that the Company's receipts and expenditures are being made only in accordance with authorizations of Kimber's management and directors; and (iii) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of Kimber's assets that could have a material effect on the financial statements.

Because of its inherent limitations, ICFR may not prevent or detect all misstatements. Projections of any evaluation of effectiveness in future periods are subject to the risk that controls may become inadequate because of changes in conditions, due to fraud or collusion or that the degree of compliance with the policies or procedures may deteriorate.

As at March 31, 2013, the Chief Executive Officer and the Chief Financial Officer have designed, or caused to be designed under their supervision, ICFR to provide reasonable assurance regarding the reliability of financial reporting and the preparation of Kimber's financial statements prepared in accordance with IFRS. Kimber's management designed ICFR using the Internal Control Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission.

At March 31, 2013, management evaluated the effectiveness of the Company's ICFR and concluded that such ICFR was effective and there were no material weaknesses or changes identified by management that have materially affected, or are reasonably likely to materially effect, the Company's ICFR.

Disclosure Controls and Procedures

The Chief Executive Officer and the Chief Financial Officer are responsible for establishing and maintaining for Kimber disclosure controls and procedures (“DC&P”) as those terms are defined in National Instrument 52-109 Certification of Disclosures in the Issuer’s Annual and Interim Filings and as defined in the US Securities Exchange Act of 1934.

As at March 31, 2013, the Chief Executive Officer and the Chief Financial Officer have designed, or caused to be designed under their supervision, DC&P to provide reasonable assurance that material information relating to Kimber is made known to them by others and that information required to be disclosed by the issuer under their supervision in its annual filings, interim filings and other reports filed or submitted by Kimber under securities legislation is recorded, processed, summarized and reported within time periods specified in securities legislation.

Outstanding Share Data

Kimber has one class of shares at March 31, 2013 and at May 13, 2013. At March 31, 2013 Kimber had 82,972,876 shares issued and 88,046,891 outstanding on a fully diluted basis. At May 13, 2013, Kimber had 82,972,876 shares issued and 88,096,891 outstanding on a fully diluted basis.

Kimber has a stock option plan and at March 31, 2013 there were 5,074,015 options to purchase shares outstanding. Of the 5,074,015 options to purchase shares granted to employees, directors and consultants, options to purchase 3,900,682 shares had vested.

Kimber had no warrants to purchase shares outstanding as at March 31, 2013. On December 23, 2012, 4,528,750 warrants with an exercise price of $1.80 expired, and 544,050 warrants with an exercise price of $1.40 expired.

Cautionary Note Regarding Forward Looking Statements

Certain statements contained in this MD&A constitute "forward-looking statements" within the meaning of the United States Private Securities Litigation Reform Act of 1995 and applicable Canadian securities legislation. Such forward-looking statements concern our anticipated results and developments in our operations in future periods, planned exploration and development of our properties, plans related to our business, and other matters that may occur in the future. These statements relate to analyses and other information that are based on forecasts of future results, estimates of amounts not yet determinable and assumptions of management. Forward-looking statements include, but are not limited to, statements with respect to the future price of gold and silver, the estimation of mineral reserves and resources, the realization of mineral reserve and resource estimates, the timing and amount of estimated future production, costs of production, capital expenditures, costs and timing of the development of new deposits, success of exploration activities, permitting time lines, currency fluctuations, requirements for additional capital, government regulation of mining operations, environmental risks, unanticipated reclamation expenses, title disputes or claims and limitations on insurance coverage. Any statements that express or involve discussions with respect to predictions, expectations, beliefs, plans, projections, objectives, assumptions or future events or performance (often, but not always, using words or phrases such as "expects" or "does not expect", "is expected", "anticipates" or "does not anticipate", "plans", "estimates" or "intends", or stating that certain actions, events or results "may", "could", "would", "might" or "will" (or the negative and grammatical variations of any of these terms and similar expressions) be taken, occur or be achieved) are not statements of historical fact and may be forward-looking statements.

Forward-looking statements reflect Kimber's current views with respect to future events and are necessarily based upon a number of estimates and assumptions that, while considered reasonable by Kimber, are inherently subject to significant known and unknown risks and uncertainties which could cause actual events or results to differ from those expressed or implied by the forward-looking statements.

In making the forward-looking statements in this MD&A, Kimber has made several assumptions that it believes are appropriate, including, but not limited to the assumption that:

- market fundamentals will result in reasonable demand and prices for gold and silver;
- Kimber will not be subject to any environmental disasters, significant litigation, significant regulatory changes or significant labour disruptions;
- the advice Kimber has received from its consultants and advisors relating to matters such as mineral reserves and mineral resources and environmental requirements is reliable and correct and, in particular, that the models, dilution strategies and mining recovery estimates used to calculate mineral reserves and mineral resources are appropriate and accurate;
- the advice Kimber has received from its consultants and advisors relating to the capital costs of placing the Monterde project into commercial production, the operating costs and production rates for the Monterde project and the applicable taxes are reasonable and appropriate; and
- financing will be available on reasonable terms in the future.

There can be no assurance that any of these assumptions will prove to be correct.

Many factors could cause actual results, performance or achievements to be materially different from any future results, performance, or achievements that may be expressed or implied by such forward-looking statements, including risks and uncertainties related to international operations; actual results of current exploration activities; actual results of current reclamation activities; conclusions of economic evaluations; changes in project parameters as plans continue to be refined; future prices of gold and silver; possible variations in ore reserves, grade or recovery rates; failure of plant, equipment or processes to operate as anticipated; accidents, labour disputes and other risks of the mining industry; delays in obtaining governmental approvals or financing or in the completion of development or construction activities, as well as those risk factors outlined in Kimber's current Form 20-F filed on SEDAR and EDGAR and available on Kimber's website. Although Kimber has attempted to identify important factors that could cause actual actions, events or results to differ materially from those described in forward-looking statements, there may be other factors that cause actions, events or results not to be as anticipated, estimated or intended. Should one or more of these risks or uncertainties materialize, or should assumptions underlying those forward-looking statements prove incorrect, actual results may vary materially from those described herein. Forward-looking statements are not guarantees of future performance and accordingly investors are cautioned not to put undue reliance on forward-looking statements due to the inherent uncertainty therein.

Forward-looking statements in this MD&A are made as of the date hereof, and Kimber does not intend, and does not assume any obligation, to update these forward-looking statements, except as required by law.

Risk and Uncertainties

Kimber is a mineral exploration company and is exposed to a number of risks and uncertainties that are common to other companies in the same business; some of these risks have been discussed in the notes to the annual consolidated financial statements and in the Form 20-F.

Kimber's financial success is subject to general market conditions, which affect mining and exploration companies. The value of Kimber's mineral resources and future operating profit and loss may be affected by fluctuations in precious metal prices, over which Kimber has no control, although it may choose to hedge some of its future production. The cost of exploration and future capital and operating costs are affected by foreign exchange rates for the Canadian dollar, United States dollar and Mexican peso. Kimber can mitigate the effects of these rate fluctuations, to some extent, through forward purchases. Because of its limited operating record and history of losses, it may not be able to hedge future risk to the extent it feels is warranted. Kimber also competes with other mining companies, which are larger and have more economic resources to acquire prospective exploration properties or producing mines.

Kimber also faces certain risks and uncertainties specific to its circumstances. Kimber's ability to obtain financing to explore for mineral deposits and to continue and complete the development of those properties it has classified as assets is not assured; nor is there assurance that the expenditure of funds will result in the discovery of an economic mineral deposit. Kimber has not completed a feasibility study on any of its deposits to determine if it hosts a mineral resource that can be economically developed and profitably mined. While Kimber has used its best efforts to secure title to all its properties and secured access to surface rights, these titles or rights may be disputed.

For a more complete, but not exhaustive, list of potential risk factors which could affect Kimber please refer to Kimber's current Form 20-F filed on SEDAR and EDGAR and our current Form 20-F is also available on Kimber's website.

Below is a brief summary of some of Kimber's risks and uncertainties. Each of these risks is more fully described in our 20-F (our Annual Information Form), along with other risks and uncertainties.

Industry Risks

- Mineral resource exploration and development is a high risk, speculative business.
- Mineral exploration is subject to numerous industry operating hazards and risks, many of which are beyond Kimber's control and any one of which may have an adverse effect on its financial condition and operations.
- Metal prices have fluctuated widely in the past and are expected to continue to do so in the future which may adversely affect the amount of revenues derived from production of mineral reserves.
- Exploration activities are subject to geologic uncertainty and inherent variability.

- The quantification of mineral resources is based on estimates and is subject to great uncertainty.
- The current events in global financial markets have had a profound impact on the global economy, in general and on the mining industry in particular. These events may negatively impact Kimber.
- Increased operating and capital costs may adversely affect the viability of existing and proposed mining projects.

Company Risks

- Kimber will need to raise additional capital though the sale of its securities, resulting in dilution to the existing shareholders, and if such funding is not available, Kimber's operations would be materially effected in an adverse way and may cease to be a going concern.
- Kimber faces substantial competition within the mining industry from other mineral companies with much greater financial and technical resources and may not be able to effectively compete which would have an adverse effect on Kimber's financial condition and operations.
- Kimber's exploration efforts may be unsuccessful in locating viable mineral resources.
- If Kimber is unable to develop acceptable overall gold and silver recovery levels, the Carmen deposit may not be a viable project and Kimber will have to continue to explore for a viable deposit or cease operations.
- If Kimber's mineral resource estimates are not indicative of the actual gold and silver that can be mined, the mineable gold and silver that can be recovered from the Carmen deposit may be less than the mineral resource estimate and the Carmen deposit may not be a viable project.
- Kimber has a limited history as an exploration company and does not have any experience in putting a mining project into production.
- Kimber expects to continue to incur losses and may never achieve profitability, which in turn may harm the future operating performance and may cause the market price of Kimber's common shares to decline.
- Kimber's title to its mineral properties and its validity may be disputed in the future by others claiming title to all or part of such properties.
- Kimber's properties are located in Mexico, which can lead to difficulty with changes in political conditions and regulations, currency exchange, in obtaining financing, finding and hiring qualified people or obtaining all necessary services for Kimber's operations in Mexico.
- Kimber originally contemplated an open pit mining operation on the Carmen deposit, however it is currently contemplating the possibility of a combined open pit and underground mining operation, the effect of which, if it were to proceed to production, would expose Kimber to increased costs, potential time delays and risks to underground workers.
- Kimber is subject to numerous government regulations which could cause delays in carrying out its operations, and increase costs related to its business.

- Kimber has not completed an environmental impact statement, nor has it received the necessary permits for water or explosives to conduct mining operations.
- The Monterde Property is located in the Sierra Madre Mountains of Mexico which have been subject to episodes of unusually high rainfall in past years resulting in washouts and erosion of soil. Continuing increased rainfall may result in increased costs and delays in operations.
- Kimber depends on key personnel for critical management decisions and industry contacts but does not maintain key person insurance.
- Kimber does not have a full staff of technical people and relies upon outside consultants to provide critical services.
- Certain Kimber directors also serve as officers and/or directors of other mineral resource companies, which may give rise to conflicts.
- Future sales of Kimber's common shares into the public market by holders of Kimber options and warrants may lower the market price, which may result in losses to Kimber's shareholders.
- Kimber has no history of paying dividends, does not expect to pay dividends in the immediate future and may never pay dividends.
- Kimber's business involves risks for which Kimber may not be adequately insured, if it is insured at all.
- Kimber's activities are subject to environmental liability, which would have an adverse effect on its financial condition and operations.
- A shortage of supplies and equipment could adversely affect Kimber's ability to operate its business.

Cautionary Note to U.S. Investors – The United States Securities and Exchange Commission permits U.S. mining companies, in their filings with the SEC, to disclose only those mineral deposits that a company can economically and legally extract or produce. We use certain terms in this document, such as "measured," "indicated," and "inferred," "resources," which the SEC guidelines strictly prohibit U.S. registered companies from including in their filings with the SEC. U.S. Investors are urged to consider closely the disclosure in our Form 20-F which may be secured from us, or from the SEC's website at http://www.sec.gov/ edgar.shtml.

Exhibit 99.3

Form 52-109F2
Certification of interim filings - full certificate

I, Gordon Cummings, Chief Executive Officer of Kimber Resources Inc., certify the following:

1. ***Review:*** I have reviewed the interim financial report and interim MD&A (together, the "interim filings") of Kimber Resources Inc. (the "issuer") for the interim period ended March 31, 2013.

2. ***No misrepresentations:*** Based on my knowledge, having exercised reasonable diligence, the interim filings do not contain any untrue statement of a material fact or omit to state a material fact required to be stated or that is necessary to make a statement not misleading in light of the circumstances under which it was made, with respect to the period covered by the interim filings.

3. ***Fair presentation:*** Based on my knowledge, having exercised reasonable diligence, the interim financial report together with the other financial information included in the interim filings fairly present in all material respects the financial condition, financial performance and cash flows of the issuer, as of the date of and for the periods presented in the interim filings.

4. ***Responsibility:*** The issuer's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (DC&P) and internal control over financial reporting (ICFR), as those terms are defined in National Instrument 52-109 *Certification of Disclosure in Issuers' Annual and Interim Filings,* for the issuer.

5. ***Design:*** Subject to the limitations, if any, described in paragraphs 5.2 and 5.3, the issuer's other certifying officer and I have, as at the end of the period covered by the interim filings

   (a) designed DC&P, or caused it to be designed under our supervision, to provide reasonable assurance that

      (i) material information relating to the issuer is made known to us by others, particularly during the period in which the interim filings are being prepared; and

      (ii) information required to be disclosed by the issuer in its annual filings, interim filings or other reports filed or submitted by it under securities legislation is recorded, processed, summarized and reported within the time periods specified in securities legislation; and

   (b) designed ICFR, or caused it to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with the issuer's GAAP.

5.1 ***Control framework:*** The control framework the issuer's other certifying officer and I used to design the issuer's ICFR is the Internal Control Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission.

5.2 N/A

5.3 N/A

6. ***Reporting changes in ICFR:*** The issuer has disclosed in its interim MD&A any change in the issuer's ICFR that occurred during the period beginning on January 1, 2013 and ended on March 31, 2013 that has materially affected, or is reasonably likely to materially affect, the issuer's ICFR.

Exhibit 99.4

Form 52-109F2

Certification of interim filings - full certificate

I, Lyn Davies, Chief Financial Officer of Kimber Resources Inc., certify the following:

1. ***Review:*** I have reviewed the interim financial report and interim MD&A (together, the “interim filings”) of Kimber Resources Inc. (the “issuer”) for the interim period ended March 31, 2013.

2. ***No misrepresentations:*** Based on my knowledge, having exercised reasonable diligence, the interim filings do not contain any untrue statement of a material fact or omit to state a material fact required to be stated or that is necessary to make a statement not misleading in light of the circumstances under which it was made, with respect to the period covered by the interim filings.

3. ***Fair presentation:*** Based on my knowledge, having exercised reasonable diligence, the interim financial report together with the other financial information included in the interim filings fairly present in all material respects the financial condition, financial performance and cash flows of the issuer, as of the date of and for the periods presented in the interim filings.

4. ***Responsibility:*** The issuer’s other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (DC&P) and internal control over financial reporting (ICFR), as those terms are defined in National Instrument 52-109 *Certification of Disclosure in Issuers’ Annual and Interim Filings,* for the issuer.

5. ***Design:*** Subject to the limitations, if any, described in paragraphs 5.2 and 5.3, the issuer’s other certifying officer and I have, as at the end of the period covered by the interim filings

   (a) designed DC&P, or caused it to be designed under our supervision, to provide reasonable assurance that

      (i) material information relating to the issuer is made known to us by others, particularly during the period in which the interim filings are being prepared; and

      (ii) information required to be disclosed by the issuer in its annual filings, interim filings or other reports filed or submitted by it under securities legislation is recorded, processed, summarized and reported within the time periods specified in securities legislation; and

   (b) designed ICFR, or caused it to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with the issuer’s GAAP.

5.1 ***Control framework:*** The control framework the issuer’s other certifying officer and I used to design the issuer’s ICFR is the Internal Control Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission.

5.2 N/A

5.3 N/A

6. ***Reporting changes in ICFR:*** The issuer has disclosed in its interim MD&A any change in the issuer's ICFR that occurred during the period beginning on January 1, 2013 and ended on March 31, 2013 that has materially affected, or is reasonably likely to materially affect, the issuer's ICFR.
