**ProQuest Company and Subsidiaries**  
**Notes to the Consolidated Financial Statements**  
**(Dollars and shares in thousands, except per share amounts)**  
**(Unaudited)**

**Note 1 - Basis of Presentation**

The Consolidated Financial Statements include the accounts of ProQuest Company and its subsidiaries, including ProQuest Information and Learning (“PQIL”) and ProQuest Business Solutions (“PQBS”), and are unaudited.

As permitted under the Securities and Exchange Commission (“SEC”) requirements for interim reporting, certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been omitted. Certain reclassifications to the 2003 Consolidated Financial Statements have been made to conform to the 2004 presentation. We believe that these financial statements include all necessary and recurring adjustments for the fair presentation of the interim period results. These financial statements should be read in conjunction with the Consolidated Financial Statements and related notes included in our annual report for the fiscal year ended January 3, 2004.

In June 2004, we sold our Dealer Management System (DMS) business. The operating results of this business have been segregated from our continuing operations on our Consolidated Statements of Operations.

**Note 2 - Significant Accounting Policies**

Accounts Receivable. Accounts receivable are stated net of the allowance for doubtful accounts of \$2,285, \$1,702, and \$1,496 at July 3, 2004, January 3, 2004, and June 28, 2003, respectively.

Inventory. Inventory costs include material, labor and overhead. Inventories are stated at the lower of cost (determined using the first-in, first-out (“FIFO”) method) or market, net of reserves.

## [Table of Contents](#)

The components of inventory are shown in the table below as of the dates indicated:

	July 3, 2004	January 3, 2004	June 28, 2003
<b>Finished products</b>	<b>\$2,691</b>	<b>\$ 2,710</b>	<b>\$2,498</b>
<b>Products in process and materials</b>	<b>2,176</b>	<b>2,229</b>	<b>2,869</b>
<b>Total inventory, net</b>	<b>\$4,867</b>	<b>\$ 4,939</b>	<b>\$5,367</b>

Property, Plant, Equipment, and Product Masters. Property, plant, equipment and product masters are recorded at cost. The straight-line method of depreciation is primarily used, except for PQIL product masters (which represent the cost to create electronic and microform master document copies which are subsequently used in the production process to fulfill customers' information requirements), which are depreciated on the double declining balance method. Estimated lives range from 10 to 40 years for buildings and building improvements, 3 to 15 years for machinery and equipment, and 10 years for product masters. During the second quarter of fiscal 2004, PQIL reviewed fully depreciated assets and removed approximately \$29,400 of gross book value as well as the related accumulated depreciation. Of this amount, approximately \$18,600 related to product masters and \$10,800 relates to hardware. The carrying value of the product masters is \$169,307 (net of \$142,321 of accumulated depreciation), \$154,518 (net of \$142,465 of accumulated depreciation), and \$140,997 (net of \$136,124 of accumulated depreciation) at July 3, 2004, January 3, 2004 and June 28, 2003, respectively.

Stock Option Plan. As permitted by Financial Accounting Standards Board ("FASB") Statement of Financial Accounting Standards ("SFAS") No. 123, "*Accounting for Stock Based Compensation*", we account for our stock option plan using the intrinsic method prescribed in Accounting Principles Board ("APB") Opinion No. 25, "*Accounting for Stock Issued to Employees*" and related interpretations. Accordingly, compensation expense is recorded on the date of grant only if the current market price of the underlying stock exceeds the exercise price. Pro forma net earnings and earnings per share disclosures for employee stock option grants based on the fair value-based method (defined in SFAS No. 123), whereby the fair value of

stock-based awards at the date of grant would be subsequently expensed over the related vesting periods, are indicated below:

	Thirteen Weeks Ended		Twenty-Six Weeks Ended	
	July 3, 2004	June 28, 2003	July 3, 2004	June 28, 2003
<b>Net earnings - as reported</b>	\$28,411	\$12,287	\$39,895	\$23,523
<b>Deduct: Total stock-based employee compensation expense determined under fair value based method for all awards, net of related tax effects</b>	(1,433)	(1,486)	(3,117)	(2,849)
<b>Net earnings - pro forma</b>	\$26,978	\$10,801	\$36,778	\$20,674
<b>Earnings per share:</b>				
<b>Basic - as reported</b>	\$1.00	\$0.44	\$1.40	\$0.84

<b>Diluted - pro forma</b>	\$0.94	\$0.38	\$1.28	\$0.73

The fair value of each option granted is estimated on the date of grant using the Black-Scholes option-pricing model or a binomial model. The assumptions for the Black-Scholes option-pricing model are as follows:

	Thirteen Weeks Ended		Twenty-Six Weeks Ended	
	July 3, 2004	June 28, 2003	July 3, 2004	June 28, 2003
<b>Expected stock volatility</b>	38.13%	49.21 %	38.64%	50.34 %

On February 4, 2004, the Compensation Committee of our Board of Directors granted 1,961.5 nonqualified stock options with an exercise price of \$30.97 to six members of our senior executive team. These stock options are intended to serve as a long-term incentive consistent with the Board's desire that management delivers long-term sustainable stockholder value.

These stock options will vest if we achieve stock price targets beginning after February 4, 2005 based on the compound annual growth rate ("CAGR") of our \$.001 par value common stock as measured from \$29.11, the average stock price during the fourth quarter of fiscal 2003. If the CAGR is 8% or more before April 1, 2007, a total of 926.7 shares will be vested. If the CAGR is 8% or more before April 1, 2008, a total of 1,094.6 shares will be vested. If the CAGR is 8% or more before April 1, 2009, a total of 1,258.8 shares will

## [Table of Contents](#)

be vested. If the CAGR is 10% or more before April 1, 2009, a total of 1,961.5 shares will be vested. A stock price target is attained if the rolling average of the common stock's fair market value for ninety consecutive trading days is at least equal to the stock price target. The stock option will vest regardless of the stock price targets if the executive remains with the company until February 4, 2011.

In addition to the above vesting requirements, this plan also has exercising and holding period requirements.

Based on the complexity of this plan, we have utilized a binomial model to estimate the fair value of the options, utilizing the following assumptions:

<b>Expected stock volatility</b>	<b>31.50%</b>
<b>Risk-free interest rate</b>	<b>3.07 %</b>
<b>Expected years until exercise</b>	<b>5.00</b>
<b>Dividend yield</b>	<b>0.00 %</b>

Derivative Financial Instruments and Hedging Activities. All outstanding derivative instruments are recognized as assets or liabilities in the balance sheet at fair value.

Net Earnings per Common Share. Basic net earnings per common share is computed by dividing net earnings by the weighted average number of common shares outstanding during the period. Diluted net earnings per common share is computed by dividing net earnings by the weighted average number of common shares outstanding during the period, and reflects the potential dilution that could occur if all of our outstanding stock options that are in-the-money were exercised, using the treasury stock method. Under the treasury stock method, the tax-effected proceeds that would be received from the exercise of all in-the-money options are assumed to be used to repurchase shares. A reconciliation of the weighted average number of common shares and equivalents outstanding in the calculation of basic and diluted net earnings per common share is shown in the table below for the periods indicated:

	<u>Thirteen Weeks Ended</u>		<u>Twenty-Six Weeks Ended</u>	
	<u>July 3,</u> <u>2004</u>	<u>June 28,</u> <u>2003</u>	<u>July 3,</u> <u>2004</u>	<u>June 28,</u> <u>2003</u>
<b>Basic</b>	<b>28,487</b>	<b>28,057</b>	<b>28,447</b>	<b>28,034</b>
<b>Dilutive effect of stock options</b>	<b>295</b>	<b>262</b>	<b>350</b>	<b>121</b>
<b>Diluted</b>	<b>28,782</b>	<b>28,319</b>	<b>28,797</b>	<b>28,155</b>

Options to purchase 3,960 shares and 2,348 shares were outstanding at July 3, 2004 and June 28, 2003, respectively, but were not included in the computation of diluted net earnings per share because the options' exercise prices were greater than the average market price of the common shares and, therefore, would be antidilutive.

**Note 3 - Discontinued Operations**

In June 2004, we sold our DMS business, which was a component of PQBS. The DMS business is a software business, which does not fit with our core electronic publishing strategy.

The net gain resulting from the sale was derived as follows:

<b>Purchase price</b>	<b>\$35,900</b>
<b>Net assets, reserves and expenses</b>	<b>(20,562)</b>
<b>Gain on sale, net</b>	<b>\$15,338</b>

A summary of the DMS assets and liabilities at the date of sale are as follows:

the DMS buyer. Approximately \$5,100 has been recorded as deferred revenue related to this agreement, and will be recognized as revenue over the sixty-month contract.

### Note 4 - Comprehensive Income

Comprehensive income or loss includes net earnings, net unrealized loss on derivative instruments related to interest rate hedging, foreign currency translation adjustments and minimum pension liability.

Comprehensive income is shown in the table below for the periods indicated:

**Note 6 - Investments in Affiliates**

On December 4, 2000, we entered into a Limited Liability Company Agreement with DaimlerChrysler Corporation, Ford Motor Company, and General Motors Corporation to form OEConnection (“OEC”).

The Limited Liability Company Agreement provides that our three partners will divide any losses equally up to the first \$21.0 million and we will share in any income/losses after that point. To date, OEC’s losses have not approached this \$21.0 million threshold. For reporting purposes, OEC’s balance sheet and statement of operations are not consolidated with our results. Beginning January 1, 2003 until January 31, 2007, we earn a royalty on OEC’s net revenues, which will be recorded in “Net sales” in our Consolidated Statement of Operations. The royalty recognized was \$310 and \$612 for the thirteen and twenty-six weeks ended July 3, 2004, respectively, compared to \$277 and \$535 for the thirteen and twenty-six weeks ended June 28, 2003, respectively.

**Note 7 - Goodwill, Software and Other Intangible Assets**

In the first quarter of fiscal 2002, we adopted SFAS No. 142, “*Goodwill and Other Intangible Assets*”. SFAS No. 142 requires that goodwill no longer be amortized to earnings, but instead be reviewed for impairment on an annual basis utilizing a two-step approach. We performed our annual goodwill impairment test during the second quarter. During the first step of this impairment test, no indication of impairment was evident; therefore, the second step was not required.

The changes in the carrying amount of goodwill by segment for the twenty-six weeks ended July 3, 2004 are as follows:

	PQIL	PQBS	Total
<b>Balance as of January 3, 2004</b>	<b>\$255,332</b>	<b>\$48,361</b>	<b>\$303,693</b>
<b>Goodwill acquired / (disposed)</b>			
(1)	4,800	(11,036)	(6,236 )
<b>Balance as of July 3, 2004</b>	<b>\$260,132</b>	<b>\$37,325</b>	<b>\$297,457</b>

(1) Goodwill consists primarily of current acquisitions as well as the finalization of our preliminary purchase price allocations for prior acquisitions.

In the past, we capitalized and amortized costs related to external-use software. However, due to the sale of our DMS business, we no longer own these assets.

As of July 3, 2004, our “Identifiable intangible” assets and related accumulated amortization consisted of the following:

	Gross	Accumulated Amortization	Net
<b>Customer lists</b>	<b>\$13,069</b>	<b>\$ (2,934 )</b>	<b>\$10,135</b>
<b>Trademark</b>	<b>2,600</b>	<b>(267 )</b>	<b>2,333</b>
<b>Acquired software</b>	<b>211</b>	<b>(56 )</b>	<b>155</b>
<b>Non-compete agreement</b>	<b>950</b>	<b>(6 )</b>	<b>944</b>
<b>Total intangibles, net</b>	<b>\$16,830</b>	<b>\$ (3,263 )</b>	<b>\$13,567</b>

We recorded \$660 and \$1,219 of amortization expense during the thirteen and twenty-six weeks ended July 3, 2004, respectively, compared to \$479 and \$763 during the thirteen and twenty-six weeks ended June 28, 2003, respectively. Based on the current amount of intangible assets subject to amortization, the estimated amortization expense for each of the succeeding 5 years is as follows: remainder of 2004-\$2,012; 2005-\$3,463; 2006-\$3,286; 2007-\$2,922, 2008-\$1,571 and 2009 thereafter-\$313. These amounts may vary as acquisitions or dispositions occur in the future and as purchase price allocations are finalized.

As previously disclosed in our Annual Report on Form 10-K for the year ended January 3, 2004, we anticipated contributing \$2,800 to our pension and other postretirement plans in 2004. As of July 3, 2004, \$1,128 of contributions have been made. We currently anticipate a total of \$2,950 to be the total

contributions for our pension and other postretirement benefit plans in 2004. This increase is due to payments made during the second quarter of fiscal 2004 to settle a legacy plan.

In December 2003, Congress passed the Medicare Act of 2003. We do not provide post-65 medical or prescription drug coverage, therefore our postretirement benefit liability and costs will not be impacted by the employer subsidy provision of the Act.

### **Note 13 - Subsequent Events**

On July 7, 2004, we completed the acquisition of Serials Solutions for a purchase price of \$12,000 in cash and 105 thousand shares of our \$.001 par value common stock. Serials Solutions' products and services provide e-journal management and access solutions for academic, public, government and corporate libraries. The company has products installed in over one thousand libraries worldwide.

Net sales at PQIL increased primarily due to increasing revenue from published products, which includes our Digital Vault products, SIRS products and our specialty products such as Chadwyck-Healey humanities products.

---

## Table of Contents

Our premier Digital Vault product, Historical Newspapers, grew by 49.4% in the second quarter. SIRS products contributed \$3.2 million to published products. Specialty products, including our ABI/Inform and Chadwyck-Healey humanities products, grew 10.0% compared to the second quarter of 2003.

General reference products include our Higher Ed reference products, K-12 reference products and our content resale business. K-12 reference products declined \$1.9 million to \$2.4 million primarily related to competitive pricing pressures. Revenue from our content resale business declined \$0.3 million to \$3.2 million primarily due to the discontinuation of several Bigchalk products. Higher Ed reference products revenue was flat during the quarter compared to the second quarter of fiscal 2003.

Traditional products include microfilm and paper products. As expected, sales of microfilm products declined in the second quarter due to continued softness in the market. Revenue from paper products was flat during the second quarter of fiscal 2004 compared to the second quarter of fiscal 2003.

Revenue from classroom products was flat during the quarter. Revenue from electronic coursepacks grew to \$1.2 million in the quarter. The growth in electronic coursepack revenue was offset by a decline in paper coursepacks as well as the discontinuation of Bigchalk products.

Net sales at PQBS increased primarily due to the automotive group.

The automotive group includes parts and service products and performance management products. Parts and service products revenue was \$31.2 million, an increase of 3.2%, primarily due to contractual price increases. Revenue from performance management products was \$8.6 million, an increase of 2.6%. Revenue growth from performance management products was impacted by timing of development work, which should be completed in the second half of the year.

As expected, power equipment product revenue decreased primarily due to the absence of one-time development work that was present in the second quarter of fiscal 2003.

<b>PQIL</b>	<b>\$29.1</b>	<b>\$ 28.5</b>	<b>41.5</b>	<b>41.4</b>
<b>PQBS</b>	<b>26.8</b>	<b>26.1</b>	<b>63.7</b>	<b>62.4</b>
<b>Total</b>	<b>\$55.9</b>	<b>\$ 54.6</b>	<b>49.8</b>	<b>49.3</b>

(1) These are calculated based on each division's sales.

Our gross profit margin increased due to an improvement of 10 basis points at PQIL and 130 basis points at PQBS.

At PQIL, the gross profit margin increased as a result of improved profitability from our newer electronic products which are gaining critical mass. This was partially offset by higher depreciation and amortization expense and content royalties.

At PQBS, the gross profit margin increased as a result of a reduction in development work during the second quarter of fiscal 2004.

### *Research and Development.*

<b>Total</b>	<b>\$ 4.1</b>	<b>\$ 3.9</b>	<b>\$ 0.2</b>	<b>5.1</b>

Our research and development expenditures include investments for database and software development, information delivery systems and other electronic products. On a consolidated basis, research and development expense for the second quarter of fiscal 2004 increased compared to the second quarter of fiscal 2003. At PQIL, there was no change in research and development expense. The increase at PQBS is primarily due to higher costs associated with the acquisition and deployment of eDn, as well as the timing and nature of projects. eDn is a web-based business-to-business software communications company which we purchased in November 2003.

<b>Total</b>	<b>\$28.1</b>	<b>\$ 28.5</b>	<b>\$(0.4)</b>	<b>(1.4 )</b>

The increase at PQIL is primarily due to increased sales costs in the K-12 market associated with the SIRS acquisition. The decrease at PQBS is primarily due to costs associated with employee benefits. The decrease at Corporate is primarily due to a reduction in head count and the timing of expenses.

Net interest expense was down primarily due to an increase in interest income.

*Income Tax Expense.*

For the thirteen weeks ended July 3, 2004, income taxes were recorded at an effective rate of 35.0%, down from an effective rate of 36.0% for the thirteen weeks ended June 28, 2003. The lower effective rate is primarily due to a lower state effective tax rate and a lower effective rate on non-U.S. source income. Income tax expense increased primarily as a result of higher earnings before taxes, partially offset by the lower effective rate for the thirteen weeks ended July 3, 2004.

<b>TOTAL PROQUEST</b>	\$ 223.0	\$ 218.3	\$4.7	2.2

Net sales at PQIL increased primarily due to increasing revenue from published products, which includes our Digital Vault products, SIRS products and our specialty products.

Our premier Digital Vault product, Historical Newspapers, grew by 68.7% in the first half of fiscal 2004 compared to the first half of fiscal 2003. SIRS products contributed \$6.6 million to published products. Specialty products including our ABI/Inform and Chadwyck-Healey humanities products grew 24.1% in the first half of fiscal 2004 compared to the first half of fiscal 2003.

---

## [Table of Contents](#)

General reference products include our Higher Ed reference products, K-12 reference products and our content resale business. K-12 reference products declined by \$3.3 million to \$4.8 million primarily related to competitive pricing pressures. Revenue from our content resale business declined by \$0.9 million to \$6.2 million primarily due to the discontinuation of several Bigchalk products. Higher Ed reference products revenue was flat during the first half of fiscal 2004 compared to first half of fiscal 2003.

Traditional products include microfilm and paper products. As expected, sales of microfilm products declined in the first half of fiscal 2004 due to continued softness in the market. Revenue from paper products was flat during the first half of fiscal 2004 compared to the first half of fiscal 2003.

Revenue from classroom products declined \$0.2 million to \$4.6 million during the first half. Revenue from electronic coursepacks grew to \$2.6 million in the first half of fiscal 2004. The growth in electronic coursepack revenue was more than offset by a decline in paper coursepacks as well as the discontinuation of Bigchalk products.

Net sales at PQBS increased primarily due to increasing revenue from the automotive group.

The automotive group includes parts and service products and performance management products. Parts and service products revenue was flat in the first half of fiscal 2004 compared to the first half of fiscal 2003. Revenue from performance management products was \$18.0 million, an increase of 10.1%.

As expected, power equipment products decreased primarily due to the absence of one-time development work that was present in the second quarter of fiscal 2003.

<b>Total</b>	<b>\$111.7</b>	<b>\$107.8</b>	<b>50.1</b>	<b>49.4</b>

(1) These are calculated on each division's sales.

Our gross profit margin increased due to an improvement of 60 basis points at PQIL and 110 basis points at PQBS.

At PQIL, the gross profit margin increased as a result of improved profitability from our newer electronic products, partially offset by increased depreciation and amortization expense and higher content royalties.

At PQBS, the gross profit margin increased as a result of a reduction in development work during the first half of fiscal 2004.

### *Research and Development.*

	<u>Twenty-Six Weeks Ended</u>		<u>Inc/(Dec) vs. 2003</u>	
	<u>July 3,</u>	<u>June 28,</u>		
	<u>2004</u>	<u>2003</u>	<u>\$</u>	<u>%</u>
<b>PQIL</b>	<b>\$ 3.8</b>	<b>\$ 4.4</b>	<b>\$(0.6)</b>	<b>(13.6)</b>

<b>Total</b>	<b>\$ 8.5</b>	<b>\$ 8.8</b>	<b>\$(0.3)</b>	<b>(3.4 )</b>

Our research and development expenditures include investments for database and software development, information delivery systems and other electronic products. On a consolidated basis, research and development expense for the first half of fiscal 2004 decreased compared to the first half of fiscal 2003.

The decrease at PQIL is primarily due to a reduction of redundant costs associated with the Bigchalk integration, which occurred during the first half of fiscal 2003.

The increase at PQBS is primarily due to higher costs associated with the acquisition and deployment of eDn as well as the timing and nature of projects.

<b>Total</b>	<b>\$58.7</b>	<b>\$ 55.8</b>	<b>\$ 2.9</b>	<b>5.2</b>

The increase at PQIL is primarily due to higher direct selling costs from the increased K-12 sales force resulting from our 2003 acquisitions. The increase at PQBS is primarily due to normal cost increases associated with the sales function. The increase at Corporate is primarily due to costs associated with new corporate governance regulations and severance.

### *Net Interest Expense.*

	Twenty-Six Weeks Ended		Inc/(Dec) vs. 2003	
	July 3, 2004	June 28, 2003	\$	%
<b>Interest income</b>	<b>\$ (0.9)</b>	<b>\$ (0.4)</b>	<b>(0.5)</b>	<b>(125.0)</b>

<b>Other</b>	<b>0.3</b>	<b>0.4</b>	<b>(0.1)</b>	<b>(25.0 )</b>
<b>Total</b>	<b>\$ 8.0</b>	<b>\$ 9.0</b>	<b>\$(1.0)</b>	<b>(11.1 )</b>

Net interest expense was down slightly primarily due to an increase in interest income, as well as lower debt levels. We also had lower interest expense on monetized contracts as we are monetizing fewer contracts than in the past.

*Income Tax Expense.*

For the twenty-six weeks ended July 3, 2004, income taxes were recorded at an effective rate of 35.0%, down from an effective rate of 36.0% for the twenty-six weeks ended June 28, 2003. The lower effective rate is primarily due to a lower state effective tax rate and a lower effective rate on non-U.S. source income. Income tax expense increased as a result of higher earnings before taxes, partially offset by the lower effective rate for the twenty-six weeks ended July 3, 2004.

Liquidity

Long-term debt increased by \$1.7 million to \$192.7 million in the first half of fiscal 2004.

## Table of Contents

During the first half of fiscal 2004, we generated cash from operations of \$18.6 million compared to \$24.3 million for the first half of fiscal 2003, a decrease of \$5.7 million. This decrease is primarily due to a \$13.1 million tax court refund received in the first quarter of fiscal 2003, which impacts deferred taxes and accounts receivable. This decrease was partially offset by accrued expenses (\$7.6 million) related to our tax provision for the first half of fiscal 2004 as well as other long-term liabilities (\$5.2 million) primarily due to our exclusive distributor agreement with the DMS buyer.

We used \$17.5 million of cash in our investing activities during the first half of fiscal 2004, a decrease of \$42.3 million compared to first half of fiscal 2003. We used \$39.1 million on expenditures for property, plant, equipment, product masters and software; an increase of \$4.8 million or 13.8%. We used \$9.4 million during the first half of fiscal 2004 for the acquisitions of Copley Publishing Group, Reading A-Z and Axiom Press as well as an additional payment of \$2.1 million related to a holdback for our acquisition of Bigchalk. This compares to the use of \$23.8 million for the acquisition of Bigchalk during the first half of fiscal 2003. In addition, we utilized \$2.8 million in the first half of fiscal 2004 for the payment of retained liabilities related to the 2001 sale of discontinued operations, compared to a payment of \$1.7 million in the first half of fiscal 2003. Finally, we generated \$35.9 million during the first half of fiscal 2004 from the sale of our DMS business.

During the first half of fiscal 2004, we generated cash from financing activities of \$0.1 million compared to a generation of \$34.5 million in the first half of fiscal 2003, a decrease of \$34.4 million. In the first half of fiscal 2004, proceeds from long-term debt (net of payments made) were \$1.7 million compared to net proceeds of \$31.0 million during the first half of fiscal 2003, a decrease of \$29.3 million. Furthermore, during the first half of fiscal 2004 we received \$2.7 million of proceeds from the exercise of stock options compared to the receipt of \$8.4 million during the first half of fiscal 2003, a decrease of \$5.7 million.

We believe that current cash balances, cash generated from operations, and availability under our line of credit will be adequate to fund the growth in working capital and capital expenditures necessary to support planned increases in sales for the next twelve months. Under our \$175.0 million revolving credit facility, approximately \$42.7 million was outstanding as of July 3, 2004.

### Financial Condition

*Selected Balance Sheet information - July 3, 2004 compared to January 3, 2004.*

	As of		Inc/(Dec)	
	July 3, 2004	January 3, 2004	\$	%
<b>Accounts receivable, net</b>	<b>\$82.3</b>	<b>\$ 94.2</b>	<b>\$(11.9)</b>	<b>(12.6)</b>
<b>Prepaid royalties</b>	<b>20.8</b>	<b>15.2</b>	<b>5.6</b>	<b>36.8</b>
<b>Purchased and developed software, net</b>	<b>49.7</b>	<b>55.0</b>	<b>(5.3 )</b>	<b>(9.6 )</b>
<b>Accrued expenses</b>	<b>37.2</b>	<b>39.4</b>	<b>(2.2 )</b>	<b>(5.6 )</b>
<b>Deferred income</b>	<b>83.0</b>	<b>121.9</b>	<b>(38.9)</b>	<b>(31.9)</b>

Accounts receivable decreased due to the seasonal collections of receivables related to subscription billings issued during the fourth quarter of fiscal 2003 as well as from the sale in the second quarter of fiscal 2004 of our DMS business.

Prepaid royalties increased primarily due to the timing of paying publisher royalties in the second quarter of our fiscal year.

Net purchased and developed software decreased primarily due to the sale of our DMS business as well as due to normal amortization.

Accrued expenses decreased primarily due to changes in the timing of payroll related accruals (\$1.8 million), payment of bonuses (\$7.4 million) and payments related to discontinued operations (\$2.5 million), partially offset by an increase in our federal tax provision (\$8.7 million).

Deferred income decreased primarily due to the seasonal nature of PQIL' s deferred revenue. At year-end, deferred revenue is at a high level due to the billings that occur late in the third quarter and throughout the fourth quarter.

Selected Balance Sheet information - July 3, 2004 compared to June 28, 2003.

	As of		Inc/(Dec)	
	July 3, 2004	June 28, 2003	\$	%
<b>Accounts receivable, net</b>	<b>\$82.3</b>	<b>\$ 79.2</b>	<b>\$3.1</b>	<b>3.9</b>
<b>Prepaid royalties</b>	<b>20.8</b>	<b>11.4</b>	<b>9.4</b>	<b>82.5</b>
<b>Purchased and developed software, net</b>	<b>49.7</b>	<b>50.1</b>	<b>(0.4)</b>	<b>(0.8)</b>
<b>Accrued expenses</b>	<b>37.2</b>	<b>28.6</b>	<b>8.6</b>	<b>30.1</b>
<b>Deferred income</b>	<b>83.0</b>	<b>87.0</b>	<b>(4.0)</b>	<b>(4.6)</b>

Accounts receivable increased primarily because of higher net sales as well as receivables from the acquisitions we have completed during the past year.

Prepaid royalties increased primarily due to the trend of publishers requesting royalty payments earlier in the fiscal year.

Net purchased and developed software decreased primarily due to the sale of our DMS business as well as due to normal amortization.

Accrued expenses increased primarily due to our federal tax provision.

Deferred income decreased due to a decline in Bigchalk revenue as we discontinued unprofitable products in late 2003, unit declines in our traditional microfilm subscription products and continued pricing pressure on general reference products.

### Interest Rate Risk Management

We have a revolving credit facility that is variable-rate long-term debt, and exposes us to variability in interest payments due to changes in interest rates. We have \$42.7 million outstanding on the credit facility at July 3, 2004, and the weighted-average interest rate on the credit facility was 2.27% at July 3, 2004. We have decided not to hedge this interest rate risk. Instead, we have limited this risk by maintaining \$150.0 million of our debt in the form of long-term fixed-rate notes with a 5.45% fixed coupon rate and a 5.60% effective rate. These notes have a seven-year average life and are due in seven equal annual payments of \$21.4 million beginning October 1, 2006 and ending October 1, 2012.

## [Table of Contents](#)

### Item 3.

#### **Quantitative and Qualitative Disclosures about Market Risk**

##### **Interest Rate Risk**

As a result of our financing activities, we are exposed to changes in interest rates which may adversely affect our results of operations and financial position. We are not currently hedging this interest rate risk. Instead, we have limited this risk by maintaining \$150.0 million of our debt in the form of long-term fixed-rate notes with a 5.45% fixed coupon rate and a 5.60% effective rate. These notes have a seven-year average life and are due in seven equal annual payments of \$21.4 million beginning October 1, 2006 and ending October 1, 2012. Our remaining debt is variable-rate long-term debt, which exposes us to variability in interest payments due to changes in interest rates.

##### **Foreign Currency Risk**

As a result of our global operations, we are exposed to changes in foreign currencies. Our practice is to hedge a limited number of significant operating balance sheet exposures to foreign currency rate fluctuations via use of foreign currency forward or option contracts. We do not utilize financial derivatives for trading or other speculative purposes. At July 3, 2004, we had no outstanding foreign currency forward or option contracts. The potential impact on our earnings from a 10% adverse change in quoted foreign currency rates would be insignificant.

### Item 4.

#### **Controls and Procedures**

Based on a recent evaluation, which was completed as of the end of our second fiscal quarter of 2004, our chief executive officer and chief financial officer have concluded that our disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) are effective in all material respects to ensure that information required to be disclosed in the reports that we file or submit under the Securities Exchange Act of 1934 is recorded, processed, summarized, and reported, within the time periods specified in the Securities and Exchange Commission's rules and forms. There have been no significant changes in our internal controls over financial reporting or in other factors that could significantly affect these controls subsequent to the date of the previously mentioned evaluation.
