Stellar Biotechnologies' Shares Begin Trading on the OTCQB Market

PORT HUENEME, CA--(Marketwire - Jan 15, 2013) - Stellar Biotechnologies, Inc. ("Stellar" or the "Company") (OTCQB: [SBOTF](#)) (TSX VENTURE: [KLH](#)), the world leader in sustainable manufacture of GMP-grade Keyhole Limpet Hemocyanin (KLH), is very pleased to announce that it was listed for trading in U.S. yesterday on the OTCQB Market under the symbol SBOTF. (<http://www.otcmarkets.com/stock/sbotf/quote>)

OTCQB companies must be registered with and reporting to the SEC or a U.S. regulatory agency. Stellar has been fully reporting to the SEC since April 4, 2012; its regulatory filings are available on EDGAR in the U.S. (<http://edgar.sec.gov/>) as well as on SEDAR in Canada (www.sedar.com).

In addition, Stellar's stock became fully "DTC Eligible" last week, which facilitates trading of its shares electronically between brokerage firms, and market making of its shares in the U.S.

About Stellar Biotechnologies, Inc.

Stellar Biotechnologies, Inc. (OTCQB: [SBOTF](#)) (TSX VENTURE: [KLH](#)) is the world leader in sustainable manufacture of Keyhole Limpet Hemocyanin (KLH). KLH is an important immune-stimulating protein used in wide-ranging therapeutic and diagnostic markets. Potent, yet proven safe in humans, KLH operates as both a vital component for conjugate vaccines (targeting cancer, autoimmune, and infectious diseases) as well as an antigen for measuring immune status. Stellar Biotechnologies was founded to address the growing demand for renewable, commercial-scale supplies of high-quality, GMP-grade KLH. Stellar has developed leading practices, facilities and proprietary capabilities to address this need. Stellar Biotechnologies to Present at Nobel Financial Capital Markets Ninth Annual Equity Conference January 23, 2013

PORT HUENEME, CA--(Marketwire - Jan 17, 2013) - Stellar Biotechnologies, Inc. ("Stellar" or the "Company") (OTCQB: [SBOTF](#)) (TSX VENTURE: [KLH](#)), the world leader in sustainable manufacture of GMP-grade Keyhole Limpet Hemocyanin (KLH), today announced that Darrell Brookstein, the Company's Executive VP of Corporate Development & Finance will present at "NINE"; Noble Financial Capital Markets' Ninth Annual Equity Conference being held at the Hard Rock Hotel in Hollywood, Florida January 22-23, 2013. Mr. Brookstein will discuss Stellar's unique investment merits as the only source for a renewable, sustainable and traceable supply of GMP grade KLH for large drug producers, and provide an overview of the Company's current growth initiatives.

Noble Financial Capital Markets Ninth Annual Equity Conference:

Location: The Hard Rock Hotel and Casino in Hollywood, Florida

Date: Wednesday, January 23, 2013

Time: 1:00PM EST

Webcast Information: At the time of the presentation, a live audio and high-definition video webcast of Stellar's presentation and a copy of the presentation materials will be available on the Company's website at www.stellarbiotech.com, or through the Noble Financial website at: www.noblefcm.com or www.nobleresearch.com/NINE/home.htm.

The Company recommends registering at least 10 minutes prior to the start of the presentation to ensure timely access. The webcast and presentation will also be archived on Stellar's website for 90 days following the event for future viewing.

Stellar Biotechnologies Pioneers Aquaculture Milestone in KLH Protein Manufacturing

Stellar Achieves First Independent System for Fully Sustainable KLH Production

PORT HUENEME, CA--(Marketwire - Jan 22, 2013) - **Stellar Biotechnologies, Inc. ("Stellar" or "the Company")** (OTCQB: [SBOTF](#)) (TSX VENTURE: [KLH](#)) today announced that the Company has successfully achieved a commercial-scale aquaculture system that sustains the complete life cycle of multiple generations of the Giant Keyhole Limpet (*Megathura crenulata*), the scarce marine source for Keyhole Limpet Hemocyanin (KLH).

Stellar has developed a controlled, land-based aquaculture system that supports the life cycle of the mollusk through all its stages and now, for the first time, boasts multiple generations producing commercial quantities of pharmaceutical grade KLH.

Stellar is the only company that can offer KLH obtained from sources and processes that are traceable, controlled, and sustainable. Other KLH suppliers are reliant on the small and sensitive, wild populations of *Megathura crenulata* and cannot offer KLH that meets Stellar Biotechnologies standards.

"This isn't just about increasing Stellar's KLH manufacturing leadership -- which we've clearly done," said Frank Oakes, Stellar President and CEO. "This is about controlling the lifecycle of the source animal, allowing Stellar to grow new generations of limpets spawned by parents that have never seen the ocean, thus ensuring that the pharmaceutical industry has ample supply of GMP grade KLH, made under controlled conditions, while protecting survival of a wild species."

Brandon Lincicum, Stellar Aquaculture Manager, said, "This is the culmination of more than ten years of highly-specialized development work involving a range of disciplines. We've set the benchmark for KLH manufacturing and we're proud to represent these new aquaculture and environmental milestones as well."
