AllianzGI Focused Growth Fund

(formerly Allianz RCM Focused Growth Fund)

Before you invest, you may want to review the Fund's statutory prospectus, which contains more information about the Fund and its risks. You can find the Fund's statutory prospectus and other information about the Fund, including its statement of additional information (SAI) and most recent reports to shareholders, online at www.allianzinvestors.com/prospectuses. You can also get this information at no cost by calling 1-800-498-5413 or by sending an email request to Orders@MySummaryProspectus.com. This Summary Prospectus incorporates by reference the Fund's entire statutory prospectus and SAI, each dated August 29, 2012, as further revised or supplemented from time to time.

Investment Objective

The Fund seeks capital appreciation.

Fees and Expenses of the Fund

The tables below describe the fees and expenses that you may pay if you buy and hold shares of the Fund.

Shareholder Fees (fees paid directly from your investment): None

Annual Fund Operating Expenses (expenses that you pay each year as a percentage of the value of your investment)

Share Class	Management Fees ⁽¹⁾	Distribution and/or Service (12b-1) Fees	Other Expenses	Total Annual Fund Operating Expenses
Institutional	0.75%	None	0.01%	0.76%
Class P	0.85	None	0.01	0.86
Administrative	0.75	0.25 %	0.01	1.01
Class D	0.85	0.25	0.01	1.11

"Management Fees" reflect the combination of investment advisory fees and administrative fees paid by the Fund to Allianz Global Investors (1) Fund Management LLC ("AGIFM") under separate agreements. Fee rates are based on amounts incurred and fund asset levels during the last fiscal year and, where applicable, advisory fees have been restated to reflect current fee rates.

Examples. The Examples are intended to help you compare the cost of investing in shares of the Fund with the costs of investing in other mutual funds. The Examples assume that you invest \$10,000 in the noted class of shares for the time periods indicated, your investment has a 5% return each year, and the Fund's operating expenses remain the same. Although your actual costs may be higher or lower, the Examples show what your costs would be based on these assumptions.

Share Class	1 Year	3 Years	5 Years	10 Years
Institutional	\$78	\$243	\$422	\$942
Class P	88	274	477	1,061
Administrative	103	322	558	1,236
Class D	113	353	612	1,352

Portfolio Turnover

The Fund pays transaction costs, such as commissions, when it buys and sells securities (or "turns over" its portfolio). The Fund's portfolio turnover rate for the fiscal year ended June 30, 2012 was 81%. High levels of portfolio turnover may indicate higher transaction costs and may result in higher taxes for you if your Fund shares are held in a taxable account. These costs, which are not reflected in Total Annual Fund Operating Expenses or in the Examples above, can adversely affect the Fund's investment performance.

Principal Investment Strategies

The Fund seeks to achieve its investment objective by normally investing primarily in equity securities of U.S. companies with market capitalizations of at least \$1 billion

The Fund may also invest up to 20% of its assets in non-U.S. securities (but no more than 10% in any one non-U.S. country or 10% in companies organized or headquartered in emerging market countries). At times, depending on market and other conditions, the Fund may also invest a significant percentage of its assets in a small number of business sectors or industries. The portfolio managers are constrained to only

including the 25-45 highest conviction large cap growth stocks covered by the research team.

The portfolio managers believe the securities in the Fund exhibit the greatest combination of earnings growth potential, quality (as reflected in consistent business fundamentals) and attractive valuation. The portfolio managers ordinarily look for several of the following characteristics when analyzing specific companies for possible investment: higher than average growth and strong potential for capital appreciation; substantial capacity for growth in revenue,

AllianzGI Focused Growth Fund

cash flow or earnings through either an expanding market or expanding market share; a strong balance sheet; superior management; strong commitment to research and product development; and differentiated or superior products and services or a steady stream of new products and services. In addition to common stocks and other equity securities (such as preferred stocks,

convertible securities and warrants), the Fund may utilize foreign currency exchange contracts, options, stock index futures contracts and other derivative instruments. Although the Fund did not invest significantly in derivative instruments as of the most recent fiscal year end, it may do so at any time.

Principal Risks

The Fund's net asset value, yield and total return will be affected by the allocation determinations, investment decisions and techniques of the Fund's management, factors specific to the issuers of securities and other instruments in which the Fund invests, including actual or perceived changes in the financial condition or business prospects of such issuers, and factors influencing the U.S. or global economies and securities markets or relevant industries or sectors within them (**Management Risk, Issuer Risk, Market Risk**). Equity securities may react more strongly to changes in an issuer's financial condition or prospects than other securities of the same issuer (**Equity Securities Risk**). Focusing on a limited number of issuers, sectors, industries, or geographic regions increases risk and volatility (**Focused Investment Risk**). Other principal risks include: **Credit Risk** (an issuer or counterparty may default on obligations); **Derivatives Risk** (derivative instruments are complex, have different characteristics than their underlying assets and are subject to additional risks, including

leverage, liquidity and valuation); **Leveraging Risk** (instruments and transactions that constitute leverage magnify gains or losses and increase volatility); **Liquidity Risk** (the lack of an active market for investments may cause delay in disposition or force a sale below fair value); **Non-U.S. Investment Risk, Emerging Markets Risk, Currency Risk** (non-U.S. securities markets and issuers may be more volatile, smaller, less liquid, less transparent and subject to less oversight, particularly in emerging markets, and non-U.S. securities values may also fluctuate with currency exchange rates); and **Turnover Risk** (high levels of portfolio turnover increase transaction costs and taxes and may lower investment performance). Please see "Summary of Principal Risks" in the Fund's statutory prospectus for a more detailed description of the Fund's risks. It is possible to lose money on an investment in the Fund. An investment in the Fund is not a deposit of a bank and is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency.

Performance Information

The performance information below provides some indication of the risks of investing in the Fund by showing changes in its total return from year to year and by comparing the Fund's average annual total returns with those of a broad-based market index and a performance average of similar mutual funds. The bar chart and the information to its right show performance of the Fund's Institutional Class shares. Class P, Administrative Class and Class D performance would be lower than Institutional Class performance because of the lower expenses paid by Institutional Class shares. For periods prior to the inception date of a share class, performance information shown for such class may be based on the performance of an older class of shares that dates back to the Fund's inception, as adjusted to reflect certain fees and expenses paid by the newer class. These adjustments generally

result in estimated performance results for the newer class that are higher or lower than the actual results of the predecessor class due to differing levels of fees and expenses paid. Details regarding the calculation of the Fund's class-by-class performance, including a discussion of any performance adjustments, are provided under "Additional Performance Information" in the Fund's statutory prospectus and SAI. Prior to September 24, 2012, the Fund was managed by a different sub-adviser pursuant to a different investment strategy and would not necessarily have achieved the performance results shown below under its current investment strategy. *Past performance, before and after taxes, is not necessarily predictive of future performance.* Visit www.allianzinvestors.com for more current performance information.

After-tax returns are estimated using the highest historical individual federal marginal income tax rates and do not reflect the impact of state and local taxes. Actual after-tax returns depend on an investor's tax situation and may differ from those shown. After-tax returns are not relevant to investors who hold Fund shares through tax-deferred arrangements such as 401(k) plans or individual retirement accounts. In some cases the return after taxes may exceed the return before taxes due to an assumed tax benefit from any losses on a sale of Fund shares at the end of the measurement period. After-tax returns are for Institutional Class shares only. After-tax returns for other share classes will vary.

Purchase and Sale of Fund Shares

You may purchase or sell (redeem) shares of the Fund on any business day through a broker, dealer, or other financial intermediary, or directly from the Fund's distributor by mail (Allianz Institutional Funds, P.O. Box 219968, Kansas City, MO 64121-9968), as further described in the Fund's statutory prospectus and SAI. To avoid delays in a purchase or redemption, please call 1-800-498-5413 with any questions about the requirements before submitting a request. Generally, purchase and redemption orders for Fund shares are processed at the net asset value (NAV) next calculated after an order

is received by the distributor or an authorized intermediary. NAVs are determined only on days when the New York Stock Exchange is open for regular trading.

For Institutional Class, Class P and Administrative Class shares, the minimum initial investment in the Fund is \$1 million, though minimums may be modified for certain financial intermediaries that aggregate trades on behalf of investors. For Class D shares, the minimum initial investment in the Fund is \$1,000 and the minimum subsequent investment is \$50, though financial service firms offering these shares may impose different minimums.

Tax Information

The Fund's distributions are generally taxable to you as ordinary income or capital gains, unless you are investing through a tax-deferred arrangement, such as a 401(k) plan or an individual retirement account.

Payments to Broker-Dealers and Other Financial Intermediaries

If you purchase shares of the Fund through a broker-dealer or other financial intermediary (such as a bank), the Fund, its distributor, its investment adviser or their affiliates may pay the intermediary for the sale of Fund shares and related services. These payments may create a conflict of interest by influencing the broker-dealer or intermediary and your salesperson to recommend the Fund over another investment. Ask your salesperson or visit your financial intermediary's Web site for more information.

Before you invest, you may want to review the Fund's statutory prospectus, which contains more information about the Fund and its risks. You can find the Fund's statutory prospectus and other information about the Fund, including its statement of additional information (SAI) and most recent reports to shareholders, online at www.allianzinvestors.com/prospectuses. You can also get this information at no cost by calling 1-800-988-8380 or by sending an email request to Orders@MySummaryProspectus.com. This Summary Prospectus incorporates by reference the Fund's entire statutory prospectus and SAI, each dated August 29, 2012, as further revised or supplemented from time to time.

Investment Objective

The Fund seeks capital appreciation.

Fees and Expenses of the Fund

The tables below describe the fees and expenses that you may pay if you buy and hold shares of the Fund. You may qualify for sales charge discounts if you and your family invest, or agree to invest in the future, at least \$50,000 in Class A shares of eligible funds that are part of the family of mutual funds sponsored by Allianz. More information about these and other discounts is available in the "Classes of Shares" section beginning on page 110 of the Fund's statutory prospectus or from your financial advisor.

Shareholder Fees (fees paid directly from your investment)

Share Class	Maximum Sales Charge (Load) Imposed on Purchases (as a percentage of offering price)	Maximum Contingent Deferred Sales Charge (CDSC) (Load) (as a percentage of the lower of original purchase price or NAV) ⁽¹⁾
Class A	5.50 %	1 %
Class B	None	5 %
Class C	None	1 %
Class R	None	None

Annual Fund Operating Expenses (expenses that you pay each year as a percentage of the value of your investment)

Share Class	Management Fees ⁽²⁾	Distribution and/or Service (12b-1) Fees	Other Expenses	Total Annual Fund Operating Expenses
Class A	0.85%	0.25%	0.01%	1.11%
Class B	0.85	1.00	0.01	1.86
Class C	0.85	1.00	0.01	1.86
Class R	0.85	0.50	0.01	1.36

For Class A shares, the CDSC is imposed only in certain circumstances where shares are purchased without a front-end sales charge at the (1) time of purchase. For Class B shares, the maximum CDSC is imposed on shares redeemed in the first year, with CDSCs decreasing over time to zero for shares held longer. For Class C shares, the CDSC is imposed only on shares redeemed in the first year.

"Management Fees" reflect the combination of investment advisory fees and administrative fees paid by the Fund to Allianz Global Investors (2) Fund Management LLC ("AGIFM") under separate agreements. Fee rates are based on amounts incurred and fund asset levels during the last fiscal year and, where applicable, advisory fees have been restated to reflect current fee rates.

Examples. The Examples are intended to help you compare the cost of investing in shares of the Fund with the costs of investing in other mutual funds. The Examples assume that you invest \$10,000 in the noted class of shares for the time periods indicated, your investment has a 5% return each year, and the Fund's operating expenses remain the same. The Examples also assume conversion of Class B shares to Class A shares after seven years. Although your actual costs may be higher or lower, the Examples show what your costs would be based on these assumptions.

Example: Assuming you redeem your shares at the end of each period

Example: Assuming you do not redeem your shares
